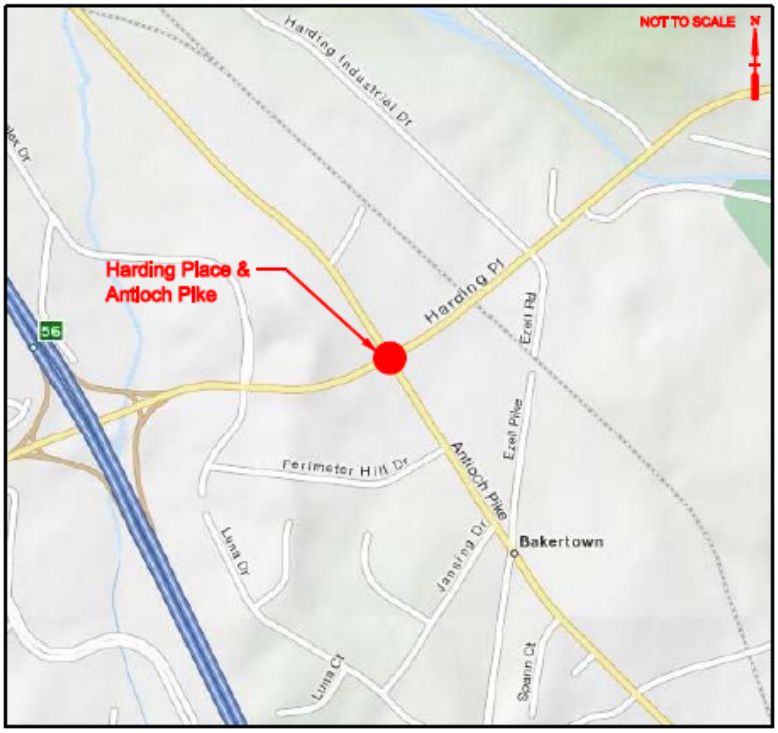
Metro Nashville
PUBLIC WORKS

Notice of Intersection Improvements

On September 6, 2010, the Metro Department of Public Works plans to begin work on improvements to the intersection of Harding Place and Antioch Pike.



The improvements include removal and replacement of the span wire traffic signal with a mast arm traffic signal configuration, modifications to the pedestrian facilities on the south side of intersection and new pavement markings. The work zone will primarily be limited to the intersection areas. Some temporary lane closures can be expected.

In general, working hours will be from 9 a.m. to 3 p.m. on weekdays; some work may occur on weekends and at night between the hours of 9 p.m. and 5 a.m. to minimize disruptions. Depending on weather, estimated completion of the project is September 2010.

For more information please call Customer Service at (615) 862-8750.
