

Week Ending February 4, 2022

The Nashville Department of Transportation & Multimodal Infrastructure develops and maintains a transportation network that offers choice and connects neighborhoods, residents, and businesses to the places they need and want to go in a safe and efficient manner.

LAST DAY to submit your comments on the Draft Vision Zero Plan

The Nashville Department of Transportation and Multimodal Infrastructure (NDOT) and Mayor John Cooper released the first draft of the city's Vision Zero Working Action Plan. The plan will serve as a guiding framework to make the city's streets safer for all roadway users - pedestrians, bicyclists, and motorists - and achieve a goal of zero preventable roadway deaths. The draft plan includes a High Injury Network of Nashville's most dangerous roads and intersections, as well as set of specific recommendations for near-term implementation. The department is looking for feedback from community members over the next six weeks in preparation for the release of a final 5- year action plan in late February 2022.

NDOT hosted a virtual public meeting to discuss the Vision Zero Draft Plan on Wednesday, January 26. We'd like to thank everyone that attended and submitted their questions and comments to our team during the event. If you were unable to join us live, meeting materials have been posted to VisionZero.Nashville.gov. Our team is working to answer any questions that were not answered during the call. A document with those questions and answers will be available soon. **The public comment period for the Nashville Vision Zero Draft Plan closes TODAY, February 4** – submit your feedback by emailing VisionZero@Nashville.gov.

Traffic Calming

[Metro Neighborhood Traffic Calming Program](#)

Demand for the Traffic Calming program, with over 200 applications, currently outpaces our available resources requiring NDOT to prioritize projects. Neighborhoods are prioritized based on crash history (40%), measured speeds (30%), and neighborhood characteristics (30%).

We are currently collecting data on all new applicants since July 2020 and moving quickly with the 25 projects selected in the fall.

We will be selecting 25 more this winter which will begin with community meetings in the spring. Once a neighborhood is selected, NDOT staff will meet with the neighborhood to give an overview of the traffic calming toolbox, share the data that has been collected, and kick-off the design process. Once a design is finalized, neighbors will be asked to approve the project through a petition with 70% of homeowners in agreement. The construction phase will begin as soon as the completed petition is received.

Neighborhood Clean-Ups

Help Keep Nashville Beautiful by organizing a clean-up in your neighborhood. Learn more about how to [organize a clean-up!](#)

Adopt-A-Street Program

Metro Beautification's Adopt-a-Street program is a great and inexpensive way that churches, businesses, neighborhood groups or individuals can help to keep Nashville beautiful. To learn more about the program or to Adopt-A-Street visit our website, AdoptAStreet.Nashville.gov.

In January, NDOT facilitated 22 volunteer clean-ups, with a total of 288 volunteers logging 38 hours, and collecting 554 bags of litter.

Clean-ups scheduled for this weekend:

- Camp S.T.E.M. – Shufeld Court (District 30)
 - Friday, February 4 from 9 a.m. to 12 p.m.
- Long Hunter Chase – Mt. View Road (District 33)
 - Saturday, February 5 from 8 a.m. to 11 a.m.
- Administrators Anonymous – O'Brien Avenue (District 20)
 - Saturday, February 5 from 6 a.m. to 6:45 a.m.

Madison Station Blvd Project

Cross walks on East and West side of Madison St. Intersection were completed. Installed Underdrain in Bioswale for drainage. Street light pole installation has started. Sanitary Sewer connections between Madison St. and Woodruff are complete. Began backfill of Sanitary Sewer trench between Madison St. and Woodruff. Cross-walk pavers at library cross-walk have been completed. Street light conduit installation in Phase II has begun.

Sidewalk Café/Outdoor Dining Permit

Reminder: Metro Codes, in coordination with other Metro departments, is facilitating the sidewalk cafe/outdoor dining permit. Businesses all around Nashville can apply for this permit to expand their outdoor dining space. Information about the permit, and how to begin the application can be found on NDOT's permits page: <https://www.nashville.gov/departments/transportation/permits>.

Metro Nashville Christmas Tree-cycling Program

No matter where you live in Davidson County, recycling your Christmas tree is easy. Christmas trees can be set out with regular brush collection or taken to a Christmas Tree Recycling Drop-off location. You can find your brush collection day by checking out the "Calendar" tab on the [Waste Wizard on the Nashville Waste and Recycling App](#).

**Trees must be cleaned of all ornaments, lights, wire, string and other decor before bringing them to be tree-cycled. No flocked or artificial trees can be accepted. Please do not dump any other items at these drop-off locations.

In partnership with Metro Parks, the drop-off program will run from **December 26 through February 11**.

Grants & Partnerships Updates

*The table below reflects grant awards since 2016.

** The table below reflects the most recent TIP.

NDOT is working to implement projects represented by grant and partnership funding. Since 2016, NDOT (and formerly as MPW) has been awarded \$69M in funding. Since the endorsement of the transportation plan, NDOT has been awarded \$44M in grant and partnership funding.

KEY	
Casting Adjustments	Adjustment (lowering) of utilities to allow milling machines to traverse the roadway without damaging utility assets. Re-adjustment (raising) of utilities so that they will again be flush with the new surface that will be applied.
Milling/Undercutting	Removal (milling) of old surface using a milling machine. All milled surfaces must be cleaned by the milling contractor and marked appropriately to safely direct traffic. During undercutting the old surface that has failed is cut out and new material is put back in before it is resurfaced.
Infrared	A technique where infrared heating systems apply heat to pavement surfaces and aid in the removal of existing material and replacement with new asphalt mixture.
Signal Loop Wires	Signal Loop Wires are installed under the pavement. They are used to detect vehicles passing or arriving at a traffic light.
Crack Seal	A sealant put into the construction joint to keep water out so the road will not depreciate.
Fog Seal	A sealing put on the road to give the road an extended period before it gets paved.

Street Closure Information

NDOT has launched a new interactive map with active street, lane and sidewalk closures . The map allows the public to see where street, lane and sidewalk closures exist. It also allows motorist to plan their routes based upon active lane and street closures. *The map is updated every two hours.* You can access the map on the Roadway Closures webpage, <https://www.nashville.gov/departments/transportation/street-maintenance/road-closures>.

*The below information does not reflect unplanned closures or restrictions due to traffic collisions or other emergencies. Road closures are subject to change.
