

SECTION 2

CONTRACTOR MANAGEMENT PRACTICES

(CPs)

Section 2 CONTRACTOR MANAGEMENT PRACTICES (CPs)

2.1 Introduction

This section presents the BMP fact sheets for the Contractor Management Practices (CPs). CPs predominately focus on practices relating to construction site “Good Housekeeping” measures. Other frequently used practices that address containing or capturing pollutants are also included.

This section contains the following BMP fact sheets.

<p>CP – 01 Scheduling – Phased Construction/Clearing</p> <p>CP – 02 Dewatering Operations</p> <p>CP – 03 Paving Operations</p> <p>CP – 04 Structure Construction and Painting</p> <p>CP – 05 Material Delivery, Storage, and Use</p> <p>CP – 06 Spill Prevention and Control</p> <p>CP – 07 Solid Waste Management</p> <p>CP – 08 Hazardous Waste Management</p> <p>CP – 09 Contaminated Soil Management</p> <p>CP – 10 Concrete Waste Management</p> <p>CP – 11 Sanitary/Septic Waste Management</p>	<p>CP – 12 Vehicle and Equipment Cleaning</p> <p>CP – 13 Vehicle and Equipment Fueling</p> <p>CP – 14 Vehicle and Equipment Maintenance</p> <p>CP – 15 Employee/Subcontractor Training</p> <p>CP – 16 Pesticides, Herbicides, and Fertilizer Use</p> <p>CP – 17 Dust Control</p> <p>CP – 18 Maintenance of Collection Facilities and Appurtenances</p> <p>CP – 19 Preservation and Maintenance of Existing Vegetation</p> <p>CP – 20 System Flushing</p>
--	---

Each fact sheet has a quick reference guide indicating what pollutant constituents the BMP is targeting and implementation requirements.

The BMPs presented in this section are intended to coincide with construction activity (lasting only as long as construction activities). Additional details are provided in sections covering Industrial / Commercial Management Practices (ICP) for practices that are intended to be used for non-construction activities.
