

Do you know what to do with expired or unused medication?

1. Remove medications from the original packaging
2. Mix medications in sealable bag with undesirable waste such as coffee grounds or kitty litter
3. Dispose of the sealed bag with your normal household garbage
4. Medications then go with your garbage to an environmentally engineered and protected landfill

Do NOT flush medication down a toilet or sink

You can also drop off unwanted medications at Metro Nashville Police Precincts from 8am-4pm, Mon-Fri
