Criminal Justice Planning Organization Chart

Administrative Information

In January 2022, Criminal Justice Planning completed its fifteenth year of business. Our budget is developed and presented in a format that emphasizes performance measurement based on strategic planning. In 2014 the office of Financial Accountability completed a review of our Strategic Business Plan. One of our goals states that by 2022, 50% of our customers will find our reports useful in making current and future management decisions. In a survey sent to a random number of individuals who receive our reports, results indicated that 100% found them useful.

The Mayor's Criminal Justice Steering Committee was scheduled to meet monthly in 2022 with Mayor Cooper as Chair. The Criminal Justice Planning Advisory Board also continues to meet regularly with Glenn Funk as Chair. Both committees provide oversight and guidance in helping us meet our departmental mission and goals.

Our department is governed by the following Ordinances and Executive Order:

- BL2005-558: An Ordinance establishing Criminal Justice Planning as a department of the Metropolitan Government.
- BL2007-1461: An Ordinance establishing the Criminal Justice Steering Committee of Metropolitan Government to address issues affecting the criminal justice system of Metropolitan Government.
- Executive order No. 027: Establishing the Criminal Justice Planning Advisory board which provides oversight to the department of Criminal Justice Planning.

Regularly Published Reports

We are now publishing a total of 34 regular reports. The following provides the name and a short summary of each report:

I. Citation Report

In May 2005 our system changed how Citations are handled/processed. The main goal in making this change was to reduce the number of capiases being issued for Failure to Appear for Court on a Citation and the long-term goal of reducing the number of capiases issued for Failure to be Booked on a Citation. This report compares the number of capiases issued for these two incidents before May 2005 to after May 2005 in order to see if the change was beneficial. It also provides information on the number of cases being disposed on the first court appearance, comparing before May 2005 to after May 2005.

Research and Planning

As the primary provider of criminal justice statistics for Metropolitan Government, Criminal Justice Planning (CJP) recognizes the importance of providing reports that are of the highest quality. Therefore, we are committed to developing and maintaining excellent statistical standards, constantly improving our professional knowledge base. In doing so, we have developed a library of resources from different criminal justice agencies, locally and nationally. Publications from Tennessee Administrative Office of the Court, the Tennessee Board of Probation and Parole, Bureau of Justice Statistics, the National Center for State Courts, and Bureau of Justice Assistance are kept and referenced as needed. We continue to add to our resources.

We have continued to utilize data from the Jail Management System (JMS), the Criminal Justice Information System (CJIS) and the Police Department's data bank. These three systems are the primary sources of data for all our reports. We have stayed in close contact with the administrators of these systems, making sure we are informed of any changes that could impact the accuracy of our reports.

We continue to track the activity of our Tennessee General Assembly. We follow Bills being filed each legislative session that would impact our criminal justice system, keeping on file the final Bill that was passed, amended, or repealed. We have continued to keep information and decisions handed down by the Tennessee Court of Criminal Appeals, the Tennessee Supreme Court, and the United States Federal Courts. Our goal is to be aware of any change in law that impacts our criminal justice system needs.
