**DEPARTMENT
NAME**

Metropolitan Nashville Police Department

DEPARTMENT MISSION STATEMENT

The Mission of the Metropolitan Nashville Police Department is to provide community-based police products to the public so they can experience a safe and peaceful Nashville.

**The MNPD Strategic Business Plan is a multi-year plan. The Strategic Business Plan including program measures, outputs, and efficiencies are reviewed on an annual basis prior to the ending of the fiscal year. This ensures timely review of performance measures and goals as the needs of the community change.
{CALEA 11.6.4.E}**

ISSUE STATEMENTS

Issue Statement One

As the demand increases for accountability of performance by the public, government will increase its awareness of police performance and raise the level of acceptable standards for the quality of the department's service.

Issue Statement Two

The changing and increasingly multi-cultural populations in Nashville will result in a demand for more specialized services, more diversified workforce and more efficient utilization of departmental resources.

Issue Statement Three

The changing and increasing demands on the criminal justice, health and social services infrastructure will result in early release of criminals, lack of drug and mental health treatment, a backlog in the Courts, all of which impacts the department's ability to enforce the law and problem solve and increases the amount of time officers spend on non-law enforcement activity.

Issue Statement Four

As Nashville and surrounding counties become more one (1) community, criminal mobility increases, as does the demand for law enforcement services. The MNPD must meet this demand.

Issue Statement Five

With increasing participation by citizens in neighborhood groups and an expectation of partnerships with the department, a demand for resources skilled in the community policing philosophy and practices will be expected.

Issue Statement Six

As the new generation of employees becomes more demanding, this will result in challenges for the department in the areas of recruitment, retention, management, training and challenging job assignments.

Issue Statement Seven

Changing technologies and methodologies will enhance the ability of the law enforcement agencies to solve more crimes and to provide improved services to the community.

Issue Statement Eight

An increase in the availability of real time information will allow a more timely and accurate deployment of resources, officers and communication with the public.

Issue Statement Nine

Continued changing crime trends in areas such as terrorism, violent crimes, drug abuse, computer crimes, and others, will challenge the department's ability to allocate human and other resources and may divert focus away from current community law enforcement efforts.

STRATEGIC GOALS

- Goal One** By 2014, the crime rate , as defined as the reduction in reported incidents utilizing UCR data, will be reduced by:
2% in the occurrence of violent crimes
5% in the occurrence of property crimes
5% in the total Part I crimes reported
- Goal Two** By 2014, community policing, defined as trust, communication, and partnerships between the Police Department and the community, will be evidenced by 85% of the community reporting they feel safe in their homes and neighborhoods. (As measured by Community Satisfaction Survey)
- Goal Three** The MNPD will increase its efforts to establish trust and communication within its culturally diverse communities by building partnerships with community groups and maintaining a proactive and aggressive recruitment strategy.
- Goal Four** By 2014, the rate of cases solved (as measured by the clearance level) for targeted crimes will be as follows: Compared to 2010 figures
5% increase for forcible rape cases
10% increase burglary cases
10% increase homicide cases
- Goal Five** The traffic fatality rate will be decreased 2% by 2014.
- Goal Six** The implementation of the Advanced Records Management System (ARMS) will enable the dissemination/exchange of information within the department more quickly and efficiently, enabling field based reporting and resulting in a more efficient document flow process, reduced information errors, and an increase in time officers can devote to proactive policing in our neighborhoods.

LINES OF BUSINESS

Line of Business One – Purpose Statement

The purpose of the Operational Support Line of Business is to provide support functions, professional and ethical accountability, training, planning, and quality assurance products to the Metropolitan Nashville Police Department operational components so they can have the resources they require to achieve their results.

Line of Business Two – Purpose Statement

The purpose of the Field Operations Line of Business is to provide community oriented policing products to the public so they can have crime deterred and have a safe, orderly environment through a partnership of trust.

Line of Business Three – Purpose Statement

The Investigative Services Line of Business is to provide criminal investigative products to the Metropolitan Nashville Police Department, the community, and other agencies so the Department can solve crimes and the public can enjoy a reduced risk of becoming a victim.

LOB Four-Purpose Statement

The purpose of the Administrative Line of Business is to provide administrative support services to departments so they can efficiently and effectively deliver results for customers.

OPA PROGRAM

**Line of Business
Purpose Statement**

The purpose of the Operational Support Line of Business is to provide support functions, professional and ethical accountability, training, and quality assurance products to the Metropolitan Nashville Police Department operational components so they can have the resources they require to achieve their results.

Program Name

Office of Professional Accountability

Program Purpose Statement

The purpose of the Office of Professional Accountability Program is to provide misconduct investigations and educational and community outreach products to the Metropolitan Nashville Police Department leadership, employees, and the public so they can have confidence in and knowledge of the investigative process, findings that are thorough, fair and timely, and the assurance of professionalism throughout the department.
