Re: Brandau Hoggett Ford Water Main – Phase 1  
MWS Project Number: 13WG0080

Dear Property Owner and/or Current Resident:

JSJ Construction, LLC, a contractor for Metro Water Services (MWS), will be installing water lines in your neighborhood to upgrade existing infrastructure. This work is estimated to begin in November 2016 and scheduled to continue for approximately 120 days.

Every effort will be made to minimize disruptions to you and your neighborhood during the construction period. However, some inconveniences cannot be avoided.

- Construction hours are anticipated to be during the day Monday through Friday.
- Residents can expect heavy equipment traffic and some noise and dust associated with construction activities.
- Residents will be notified prior to any planned service interruptions.
- Portions of the roadway may be closed, however, access to businesses and residents will be maintained. Proper signage and traffic control measures will be utilized to maintain work zone safety and minimize traffic congestion.
- A temporary road surface will be applied prior to final paving. Final repair/paving of the roadway will be done upon completion of the project, as weather permits.

In the course of this work, MWS will attempt to protect private property located within the public right of way or other easement. If damage to private property improvements within the public right-of-way or other easement occurs as a result of public infrastructure construction, maintenance or repair, MWS will make reasonable efforts to restore the damaged property to pre-existing condition to the extent the restoration will not impede future access to maintenance of MWS infrastructure.

If you have questions or concerns regarding this project, please call **615-862-4555**. In case of a water, sewer or stormwater emergency, please call **615-862-4600**. For additional project details or general MWS information, please visit our website: [www.nashville.gov/water](http://www.nashville.gov/water).

We appreciate your patience and look forward to the successful completion of this important project.

Sincerely,

  
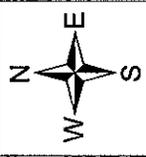

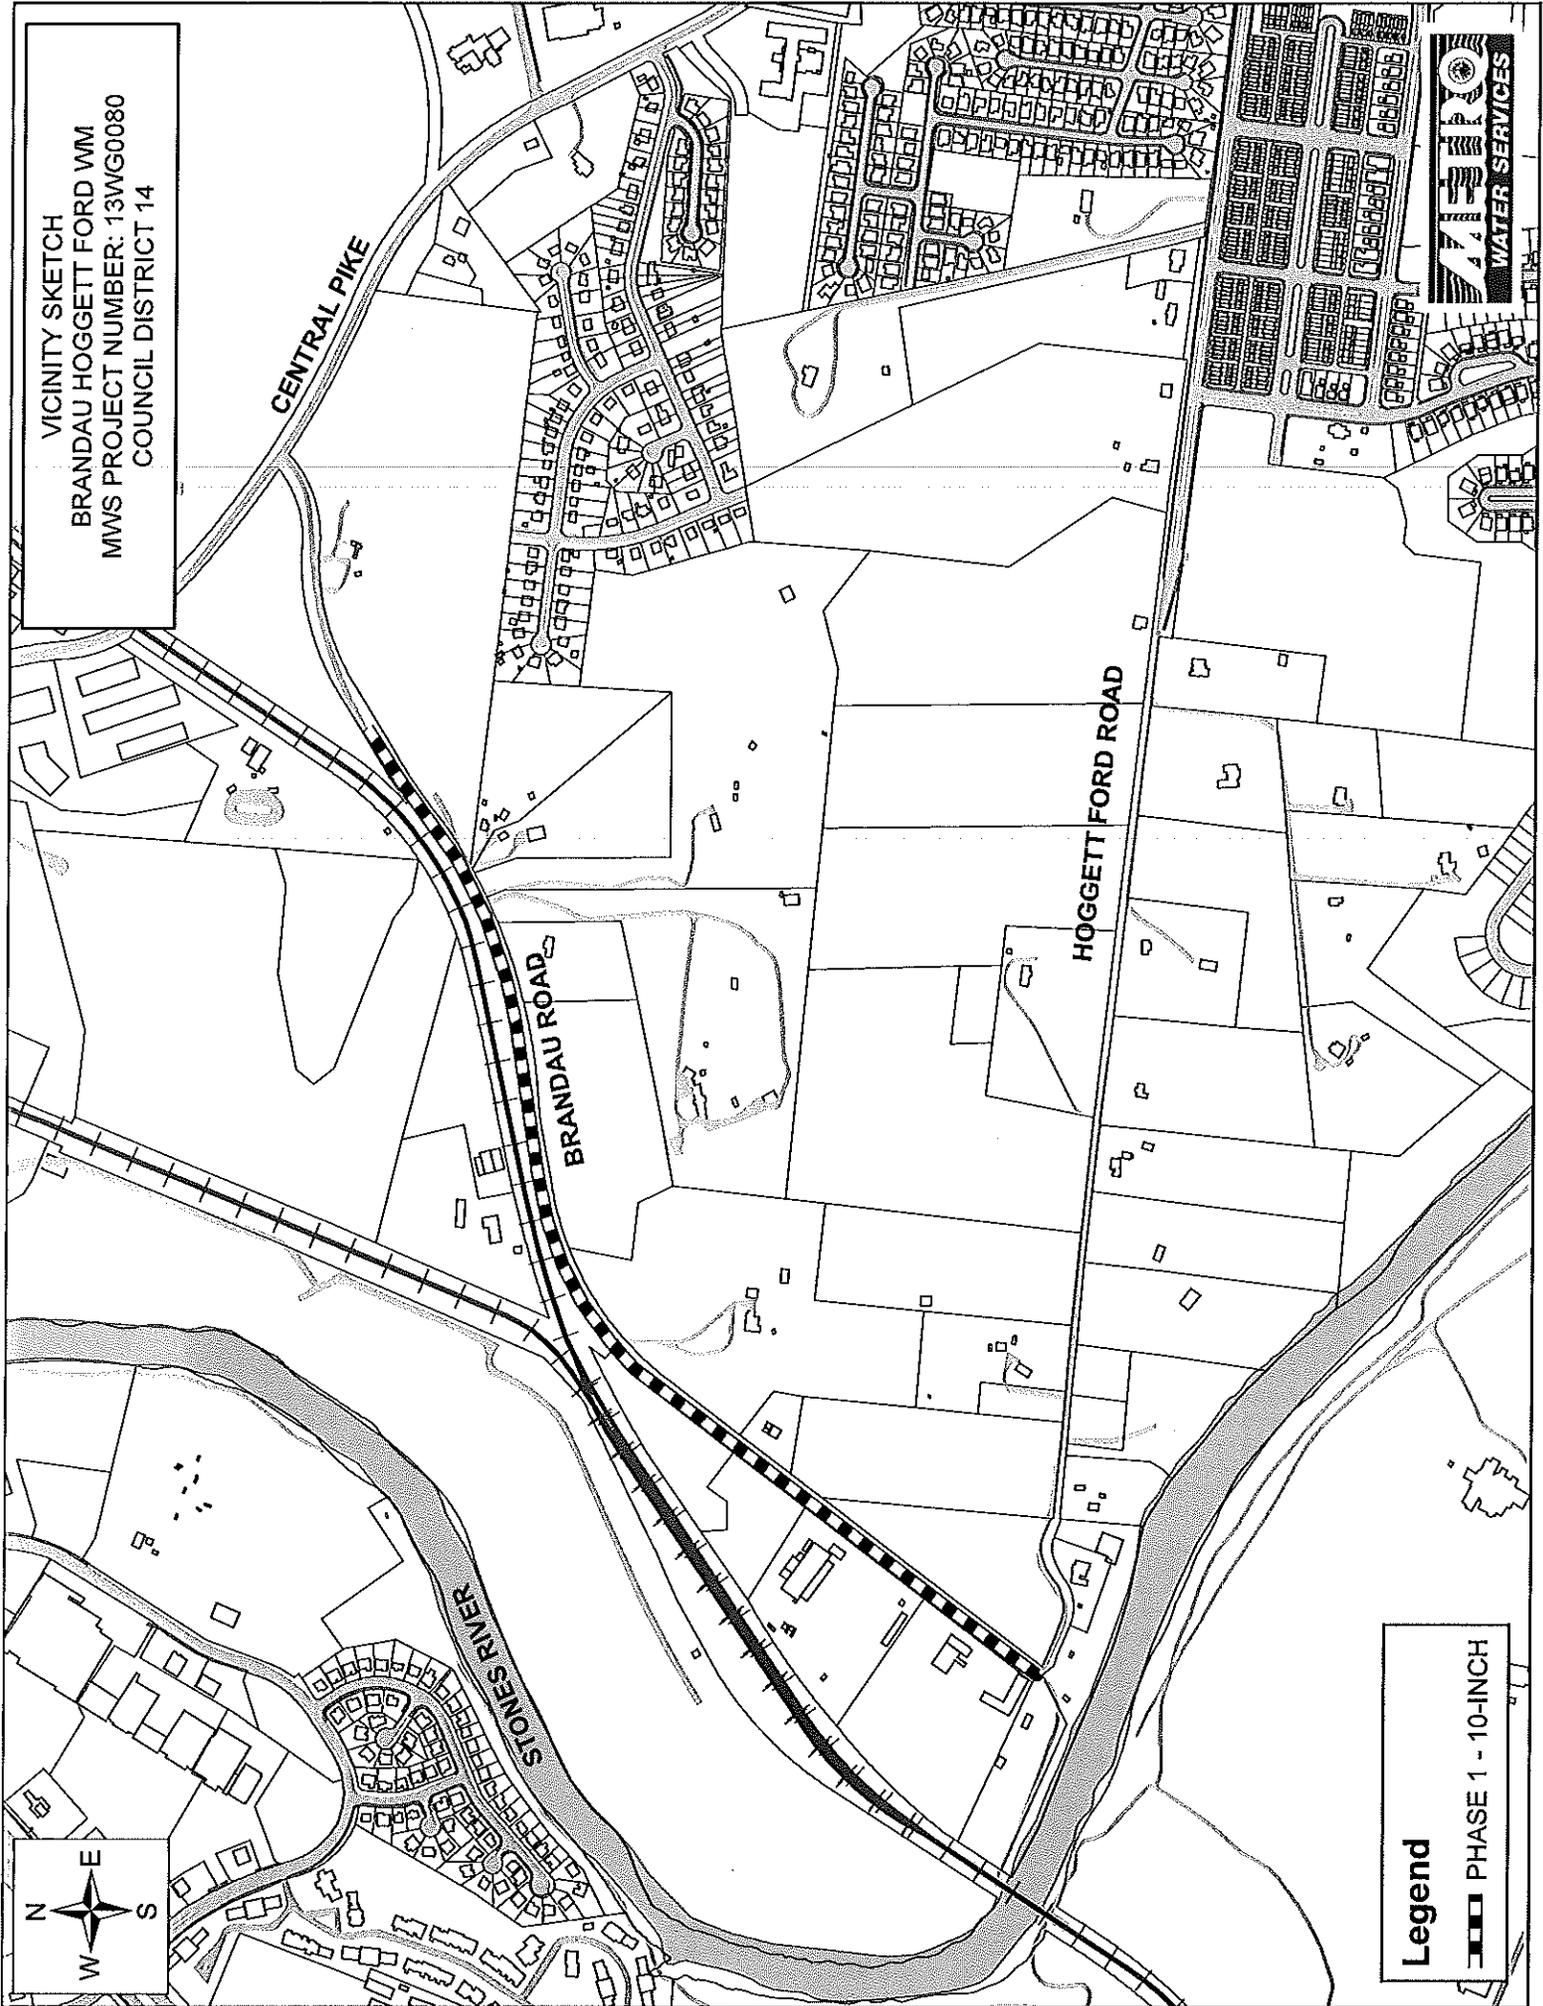

Scott Potter  
Director
