

MEGAN BARRY  
MAYOR

## METROPOLITAN GOVERNMENT OF NASHVILLE AND DAVIDSON COUNTY

DEPARTMENT OF PUBLIC WORKS  
750 SOUTH FIFTH STREET  
NASHVILLE, TENNESSEE 37206

### MEMORANDUM

To: Members of the Metropolitan Council

From: Mark Sturtevant, Public Works Director *MAS*

Date: November 3, 2016

### RE: Metro Public Works Planned and In Progress Projects

Attached you will find a listing of Metro Public Works planned and in progress projects. The information contained in this report represents major capital projects that include Paving, Sidewalks, Bikeways, Bridges, Traffic and Roadways. These projects do include items where Public Works is partnering with TDOT, developers and other Metro Departments. Projects that cross one or more districts have funding allocated across those districts and will be in each district's report.

This report does not include the minor capital projects such as infrared repair, crack sealing, fog sealing, pothole repairs, base failures, 20% curb ramp repairs, pavement marking refurbishment, traffic sign replacement, and traffic controller upgrades. Emergency roadway failures that involve sink holes, underground springs, and roadway slides are also not represented in this report. State route paving projects being funded and constructed by TDOT and projects being funded and constructed by private developers are not a part of this report.

Public Work's is in the process of updating the Completed Capital Projects report sent to you in October. This report will now contain the costs associated with the completed projects.

Copy: Talia Lomax-O'dneal, Finance Director  
Joseph Woodson, Metro Council Liaison  
Zachary Kelley, Finance Officer
