

**Certification of Compliance with  
Tree Protection and Replacement Provisions**

The purpose of this certification is to help inform the applicant for subdivision approval of the tree preservation and replacement provisions contained in the Metro zoning code, and their applicability to the subdivision process. The pertinent provisions of the Metro Code include Chapter 17.24, Article 11, Tree Protection and Replacement; and Chapter 17.40, Article X, Tree Protection and Replacement Procedures.

Generally, all properties within the zoning jurisdiction of the Metropolitan government are subject to the above cited zoning provisions. It is the applicant's responsibility to verify when exemptions are applicable or when compliance is not required.

This certification is required with any application for subdivision approval including residential, commercial and industrial subdivisions, and planned unit developments in which the subdivision of land is proposed. This certification must be completed by the owner of the property undergoing subdivision, or by a person who is empowered to execute a plat for recording on behalf of the owner.

\*\*\*\*\*

I am the owner of the property which is the subject of this subdivision application, or an individual authorized to execute a plat of subdivision on the owner's behalf.
