# Executive Summary

This report represents anticipated purchases that may be solicited by departments and agencies of the Metropolitan Government (Metro) during calendar years 2022 and 2023. These potential opportunities to work with Metro have been identified by the division of purchases based on expiring contracts.

The information contained within this report is not inclusive of all purchases Metro will make during the identified period, nor is Metro obligated to purchase any of the goods or services listed. This report represents a good faith estimate, accurate at the time of publication. In no way should anything in this report be construed to legally bind Metro or authorize any department or agency to make purchases outside the standard procurement process.

The report is broken down by departments and agencies. For purposes of this report, quarters are defined as follows:

Q1	January, February, March
Q2	April, May, June
Q3	July, August, September
Q4	October, November, December

For expiring contracts being resolicited, more information about the good or service may be obtained by reviewing details of the existing contract. You may find the existing contract by searching the provided contract number here: <https://documents.nashville.gov/Request/Form/Contracts>.

Goods and services in Metro’s capital spending plan(s) may not be included in the broader report of anticipated purchases. Similarly, some items in the capital spending plan(s) may already be under contract. Find more detail on capital spending here: <https://www.nashville.gov/departments/finance/management-and-budget/capital-budget-and-planning>.

Specific questions about the capital spending plan should be directed to the associated department or agency.

Information about Metro’s purchasing process—including how to register, find opportunities, and bid—is available online at <http://purchasing.nashville.gov>.
