1600 SECOND AVENUE, NORTH
NASHVILLE, TENNESSEE 37208-2206

June 15, 2009

To: Mayor Dean

Re: Revisions to the Metro Stormwater Management Manuals

Dear Mayor Dean:

For the past several months, members of my staff have been drafting changes to update the Stormwater Management Manual Volumes 1, 2, 3, and 4. The revisions are primarily editorial in nature to provide consistent verbiage in all the volumes. The revisions also reflect updates in policies and procedures that have already been implemented but are not reflected in the manuals since the last update in 2006.

In accordance with the "Change Management Plan" process, we have put these revisions in front of our customers and have allowed for open discussions and comments. We have addressed all comments that we have received and are now ready to move forward with adoption. Also in accordance with the process, we have presented the proposed changes to the Directors of Metro Codes, Fire, Planning, and Public Works. All agencies have responded that they are ready for us to move forward with our revised regulations.

I hereby request your approval of these proposed changes to the Stormwater Management Manual.

Sincerely,

A handwritten signature in black ink, appearing to read "S. Potter".

Scott Potter, Director
