Capital Projects

Public Works Capital Projects

Madison Station Blvd Project

Pedestrian crosswalks near the roundabout and conduit for the light poles near Hardees are being installed. Kiewit is excavating and embanking adjacent to Hardees in preparation for additional roadway and Hardee's driveway installation.

North Nashville - Capital Bikeways Project

Work accomplished 8/7/14 – 8/13/21:

- No North Nashville Bikeway work this week.

Two-Week look ahead as weather allows:

- Vulcan to begin sign installation and then delineators next week.
- PRI to begin MMA installation on 28th Ave N as weather allows as high temperatures and high humidity cause curing issues.
- We do not have a schedule for Special Operations to begin milling on Monroe St at this time.

Sidewalk Café/Outdoor Dining Permit

Reminder: Metro Codes, in coordination with other Metro departments, is facilitating the sidewalk cafe/outdoor dining permit. Businesses all around Nashville can apply for this permit to expand their outdoor dining space. Information about the permit, and how to begin the application can be found on NDOT's permits page: <https://www.nashville.gov/departments/transportation/permits>.

Neighborhood Clean-Ups

Help Keep Nashville Beautiful by organizing a clean-up or planting project in your neighborhood. Learn about how to [organize a cleanup](#) or where you can borrow tools free of charge from [Nashville's Tool Share](#) program!

Clean-ups scheduled for this weekend:

- General Sessions Music City Community Court- Athens Way- Ashland City Hwy. 41A Clarksville Pike

Adopt-A-Street Program

Metro Beautification's Adopt-a-Street program is a great and inexpensive way that churches, businesses, neighborhood groups or individuals can help to keep Nashville beautiful. To learn more about the program or to Adopt-A-Street visit our website, AdoptAStreet.Nashville.gov.

Projects Underway the Week of 8/16/2021 – 8/20/2021

KEY	
Casting Adjustments	Adjustment (lowering) of utilities to allow milling machines to traverse the roadway without damaging utility assets. Re-adjustment (raising) of utilities so that they will again be flush with the new surface that will be applied.
Milling/Undercutting	Removal (milling) of old surface using a milling machine. All milled surfaces must be cleaned by the milling contractor and marked appropriately to safely direct traffic. During undercutting the old surface that has failed is cut out and new material is put back in before it is resurfaced.
Infrared	A technique where infrared heating systems apply heat to pavement surfaces and aid in the removal of existing material and replacement with new asphalt mixture.
Signal Loop Wires	Signal Loop Wires are installed under the pavement. They are used to detect vehicles passing or arriving at a traffic light.
Crack Seal	A sealant put into the construction joint to keep water out so the road will not depreciate.
Fog Seal	A sealing put on the road to give the road an extended period before it gets paved.

Street lighting enhancements & coordination with our partners at NES

This week NDOT leadership collaborated with other Metro & utility partners on a presentation to Metro Council’s Public Works Committee. As part of this presentation, staff updated council members on enhanced coordination with NES to repair and replace street lights across the county.

Meeting Link (Relevant portion begins around the 1 hour mark):

As part of this coordination, NDOT & NES addressed all streetlight outages on Rosa Parks Blvd from Monroe to Harrison this week.

NDOT would like to give a special shoutout to employee Brian Baker for his proactive partnership with NES to addressing a resident’s street light concerns. The resident wrote an email to NDOT leadership explaining that Mr. Baker quickly addressed some longstanding lighting concerns she had, and commended Brian for his timely commitment to coordinating lighting replacement on Bank Street between 1st & 2nd Ave.

Featured Project of the Week—Herman Street Sidewalk Repairs

Program: Sidewalks

Project Type(s): Sidewalk repair, utility relocation

Project Duration: April 30 (conception) – August 6 (construction complete), 2021. 98 days.

Project Impact: 4,360’ ADA-compliant sidewalk, removing 230 accessibility issues

Metro Project Manager: Jeff Hammond, P.E.

Engineer: LDA Engineering

Contractor: Roy T. Goodwin

Utilities have always been a major right-of-way user and one focus of NDOT is to continue building upon longstanding relationships with legacy utility providers and creating beneficial partnerships with emerging providers. Through the winter of 2021, Metro officials from Public Works, General Services, and WeGo met with NES to discuss sidewalk paths of travel and how to best minimize pole impacts. One outcome of this effort is the pole relocation and sidewalk repair project on Herman St.
