

BOARD OF ZONING APPEALS

Fee Schedule

Variance & Special Exception (With Construction)

Appeals fees are based on the valuation of the permit. Fees are calculated as $1/10^{\text{th}}$ of 1% of such valuation. For example, if a variance of the construction of a new single family residence has a valuation of \$135,350, then the appeals fee would be \$135.35.

Variance & Special Exception (Without Construction)

Appeals fees for projects without construction and subsequent valuations less than the base fees are \$100 for residential (covering up to \$100,000 construction value) and \$200 for non-residential (covering up to \$200,000 construction value).

Administrative Appeals (Item A Appeals)

Appeals fees for Item A Appeals are \$100.
