

February 2020 COB Executive Director's Report

Executive Summary: February has been an active and productive month as we have worked through creating best practices and processes of our internal structures within the MNCO. We have continued to diligently work on our research advisory reports, the Youth Advisory Council and community initiatives with the purpose of moving forward with these projects in the coming months. Additionally, a new Assistant Director was selected and will bring a wealth of governmental operations and investigative knowledge to the team.
