Nashville, TN 37204

Dear Ms. Travis:

Please find attached the Monitoring Report of Project for Neighborhood Aftercare relating to the contract it has with the Metropolitan Government of Nashville and Davidson County for the fiscal year ending June 30, 2009.

The Office of Financial Accountability (OFA) is charged with the responsibility of monitoring grant funds, including Community Enhancement Funds (CEF), from Metropolitan Nashville Government to any nonprofit organization. The OFA is also responsible for monitoring the federal and state grants to departments within the Metropolitan Nashville Government. Staff from the OFA conducted the review on September 16, 2009.

We appreciate the assistance provided by your agency during the course of the review. If you have any questions, please call me at 615-880-1035.

Sincerely,

Fred Adom, CPA

RESULTS OF REVIEW 7

INTRODUCTION

The Office of Financial Accountability (hereinafter referred to as “OFA”) has completed a monitoring review of Project for Neighborhood Aftercare. A monitoring review is substantially less in scope than an audit. The OFA did not audit the financial statements and, accordingly, does not express an opinion or any assurances regarding the financial statements of the Metropolitan Government of Nashville and Davidson County (hereinafter referred to as “Metro”) or any of its component units. The OFA is responsible for the internal monitoring of Metro agencies that receive federal and state financial assistance, including cooperative agreements and non-profit organizations that receive appropriations and Community Enhancement Funds from Metro government. In summary, any agreement(s) that imposes performance and/or financial requirements on Metro government is subject to review by the OFA.

The purpose of this review was to assess the agency’s compliance with contractual requirements set forth in the following contract with Metro Government:

Contract	Type	Grantor	Amount	Term	Use
L-2104	Community Enhancement Fund (CEF)	Metro Government	\$300,079	July 1, 2008 to July 30, 2009	Salary & Benefits, Supplies and Insurance

Agency Background

The Project for Neighborhood Aftercare, a non-profit organization established in 1997, is a school-based aftercare providing expanded learning opportunities to students in need. The agency strives to create an environment that will allow each child to grow socially and academically, while fostering a sense of belonging and increased self-worth. The Project for Neighborhood Aftercare’s primary purpose is to provide meaningful and enriching after school programs for children, at its 11 different sites located throughout Davidson County. Services provided by the agency are neighborhood based and free of charge. Core elements include academics, enrichment, health, community, diversity and affordability. Most of the agency’s staff members are Metro teachers or other school personnel who embrace the opportunity to extend quality learning experiences to school children.

OBJECTIVES, SCOPE AND METHODOLOGY

The objectives of our review were:

- 1) To determine whether the agency has the resources and capacity to administer the grant funds.
- 2) To determine if costs and services are allowable and eligible.
- 3) To verify that program objectives are being met.
- 4) To test the reliability of the financial and programmatic reporting.
- 5) To verify contractual compliance.

The scope of our review was limited to the contract term July 1, 2008 through June 30, 2009.

Audit procedures included meeting with agency management and staff, reviewing the design of internal controls as a basis for establishing our testwork, reviewing Board minutes and obtaining written representations from management. In addition, we examined certain financial records and supporting documentation necessary to ensure compliance with contractual requirements set forth in Contract L-2104. Specific procedures included:

- Interviewing the employees responsible for grant management, financial reporting, and accountability.
- Reviewing supporting documentation of expenditures for allowability, necessity and reasonableness.
- Reviewing the agency's General Ledger and verifying the accuracy of all invoices submitted to Metro.
- Reviewing documentation to determine that funds were used for intended beneficiaries and expended in accordance with the Spending Plan of the contract.
- Reviewing documentation to support program activities for consistency with grant requirements.
- Assessing the financial stability of the agency and its ability to continue to administer the grant program funded by Metro.

RESULTS OF REVIEW

The overall results of the monitoring review are provided in this section. Results are based on testwork performed and include conclusions regarding specific review objectives and, if applicable, recommendations for improvement and an action plan for implementation. Where applicable, the Findings and Recommendations section of this report provides more insight into any issues identified below.

1. Sufficient Resources and Capacity to Administer Grant Funds

Our review of the agency's accounting system and the qualifications of the individuals assigned to manage the accounting records indicate that the agency possesses the necessary resources and professional expertise to effectively administer the grant funds.

2. Allowable and Eligible Costs and Services

Our review covered all of the core compliance areas identified by OMB Circular A- 133: *Audit of States, Local Government, and Non-Profit Organizations*. Based on our test work, costs and services during the period were allowable and eligible. Costs incurred by the agency complied with applicable guidelines stated in OMB Circular A-122.

Additionally, the Metro Grants Manual requires separate accounting of the Metropolitan Nashville Government grant funds to prevent co-mingling of Metro Funds with other sources of funding. The agency is in compliance with this requirement. Different revenue classes as well as expenditure classes have been established to separately track the sources and amounts of funding. Also, the agency can easily and accurately report their expenses supported by the Metro Appropriation.

3. Program and Performance Objectives

The agency reported the following quantifiable outcomes and objectives in their final program report:

RESULTS OF REVIEW

- The target objective was to tutor approximately 1000 students at 11 schools.
- The agency reported an actual result of 953 children participating at the various sites, 873 students participating in the after care program and 296 students participating in the before care program.
- Based on our review of program documentation and discussions with staff, targeted program performance objectives have been met, but the data reported was essentially inaccurate. We found the agency had in fact under-reported its program participation outputs. Documentation revealed that 895 students participated in the after care program and 321 students had participated in the before care program. There were a total of 1086 students served during the fiscal year.
- The discrepancy in the number of student participants was caused by a delayed implementation of the computerized data collection system within some of its aftercare sites.

4. Reliability of Financial and Programmatic Reporting

The contract requires submission of an annual audit report performed by a Certified Public Accountant. The contract also requires the agency to submit to Metro year end reports of the program outcome and a final expenditures report, no more than 45 days after the close of the contract. We reviewed all applicable financial and programmatic reports required by the contract, including audited financial statements. Based on our review, the agency complied with all financial and programmatic reporting requirements.

5. Internal Control Environment

In order to determine the adequacy of the design of internal controls, we obtained and reviewed an independent auditor's report on internal control over financial reporting and/or a completed internal control questionnaire. This audit procedure was performed solely as a basis for determining our test work and to assist us in making suggestions for improvement to management. We did not evaluate the operating effectiveness of internal controls over financial reporting.

RESULTS OF REVIEW

Our review of the design of the agency's internal controls did not reveal any control deficiencies. Further, nothing came to our attention that would necessitate suggestions for improvement in internal control activities to management.

6. Civil Rights Requirements

Our review did not reveal anything to indicate that the agency was noncompliant with civil rights requirements. The agency also has necessary written policies and procedures relating to civil rights. The agency has not received any complaints regarding any form of discrimination. Further, civil rights and ADA postings are publicly displayed.
