Title VI Training for MPHD Employees

All employees at MPHD are required to take Title VI Training. This includes full and part-time employees.

Each year the Tennessee Department of Health (TDH) provides us with training information regarding Title VI through a PowerPoint presentation with imbedded videos that can be viewed online or during a group classroom session. At MPHD, this training is typically offered every year in September. The training encompasses the following information:

A review of the history of Title VI

Examples of Title VI violations/discrimination

Limited English Proficiency (LEP)

Interpreter information

The consequences of non-compliance

On April 21st, 2017, our Title VI Coordinator attended a Title VI training session offered by the Metro Human Relations Commission (MHRC) at the Sony West Conference Center. The session was led by Attorney Melody Fowler-Green (Director of the MHRC) and Samantha Perez (Director of Policy and Research). We discussed interpreter assessments and new additions to next year’s compliance plan.

Our Title VI Coordinator attends monthly meetings with Nashville Task Force on Refugees & Immigrants. Each meeting offers new resources and helpful information from knowledgeable members of the community. All literature and information collected is used as reference material when the need arises. Our Coordinator also attended a Cultural Sensitivity Training live webcast hosted by the Alabama Department of Public Health (March 20th, 2017) and formed part of Metro Public Health Department’s Community Advisory Groups (March 7th, 2017 and June 6th, 2017), a group that seeks to be a forum for members of the
community to comment about the services offered and services that they wish to see in the future.

On May 4th, 2017 our Title VI Coordinator participated in one of two meetings for Request for Quotation (RFQ) to find a suitable American Sign Language interpreting services vendor for all Metro agencies. This year, he is scheduled to participate again in RFQ meetings to find an appropriate Translation and Interpretation vendor.

Conversational Spanish classes were offered to MPHD staff, during lunch and learn sessions, between March and May 2017. There are plans to continue offering language classes to our staff in the future.

Our Title VI Coordinator also provides training to our in-house interpreters. The trainings focus on the standards of practice, ethics and protocols for health care interpreters. The coordinator also leads discussions about best practices among the group of interpreters that serve on-site at four different MPHD sites.

**Addressing the Needs of Limited English Proficient (LEP) Clients**

Title VI of the Civil Rights Act of 1964 provides that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program or activity that receives federal financial assistance. A number of programs in the Metro Public Health Department receive federal financial assistance from the Department of Health and Human Services and, therefore, all programs must comply with the provisions of Title VI. These procedures outlined below help us to ensure that Limited English Proficient (LEP) persons receive the language assistance necessary to afford them meaningful access to public health services.

1. **Assessment**
   a. **Data Collection:**
      Data is collected in Patient Tracking Billing Management Information System (PTBMIS) a patient tracking system for data in clinics. This data is collected throughout the year. Each patient is asked if they
need an interpreter during his/her visit. If the patient answers “yes”, the primary language field of PTBMIS will be filled out accordingly. If the patient does not need an interpreter, English is coded as the primary language. In addition to the primary language information collected in PTBMIS, the information will also be included in a prominent place in the medical record of each LEP patient.

b. Data Reporting:
Each year a report is produced within MPHD that includes:
  i. Total number of persons served within the clinics
  ii. For those persons for whom English is not the primary language:
      1. Number served by language

A PTBMIS report for calendar year 2017 reflects an unduplicated patient count by race, language, and national origin. *Please reference Attachment 1.*

c. Data Analysis:
After reviewing the report described above as well as reports for each clinic, a determination is made regarding the points of contact within the clinics at which interpreter services are needed.

Field staff that encounter LEP clients outside of the clinic setting use an over-the-phone interpreting service to provide appropriate language services, if an interpreter is not available to accompany them.

Some programs have employed full-time interpreters. For all other LEP clients, programs use the services of an over-the-phone interpreter service or approved, qualified interpreters, if available.

d. Monitoring:
The Title VI Coordinator communicates with clinic managers to discuss the effectiveness of the Title VI program. Our programs will continue to monitor the effectiveness of the Title VI program and our
language assistance program.

After reviewing and assessing information regarding our LEP client base, staff meetings are periodically conducted within each clinic to further plan for meeting the needs of our LEP clients.

2. Language Access
   a. Oral Language Interpretation:

      Full-time interpreters and bilingual employees are frequently available throughout the department upon request.

      All of our staff interpreters have had their language and interpreting skills assessed by an outside contractor.

      In the fall of 2017 we began the process of restructuring our interpreter services to streamline services and distribute our interpreters based on need rather than proximity. After months of work between interpreters, managers, directors and with the approval of the Board of Health, we now have a specific program for our language needs: the Cultural and Linguistics Services Program (CLSP). The CLSP is responsible for providing interpreters, educating staff on language & culture, providing translation services for MPHD, and training & educating both interpreting and non-interpreting staff on protocols and best practices related to language access.

      Below is a list of our in-house professional interpreters:

ii. Cards have also been made available to assist LEP clients in identifying their language needs.

**Community Outreach Initiatives (2017-2018)**

The following are examples of our outreach initiatives for this past fiscal year:

**The Behavioral Health and Wellness Division**’s outreach programming provides support to the *Suicide Prevention and the African American Faith Community Coalition (SPAAFCC)*. SPAAFCC raises awareness round suicide prevention and Adverse Childhood Experiences (ACEs) in African American faith communities with
evidence-based presentations and practical resource toolkits. SPAAFCC empowers congregations, faith leaders and community partners to build trauma informed churches throughout Nashville Davidson County. Since September 2017, over 600 community members have been educated on behalf of SPAAFCC volunteer efforts. In 2018, SPAAFCC has teamed up with the Interdenominational Ministry Fellowship (IMF) to train pastors and faith leaders, Jack and Jill of America Inc. moms, as well as the Tennessee State University (TSU) National Alliance on Mental Illness (NAMI) to educate students. Following each community presentation, attendees sign up to have more presentations, emphasizing a systems change approach.

**Lentz Preventive Health Clinic** offers Immunizations and Family Planning services to a culturally diverse population from many different ethnicities and backgrounds including Hispanic, Arabic, Burmese, and other ethnicities in the Nashville-Davidson area. Fifty percent of our patient populations are from non-English speaking countries. In order to provide quality service to these populations are from non-English speaking patients. The educational resources that are given to patients are provided to them in their native language. We also assist in outreach events hosted by the STD Clinic at college campuses and other health fairs throughout Nashville that help promote the Family Planning program for all cultures. The Preventive Health nurses attend a yearly training session on Cultural Competency that help increase cultural awareness in the Nashville area.

**The Ryan White program** provides funds to contracted agencies to provide free interpretation and translation services to Ryan White clients. Per federal requirements, all persons eligible for services are served regardless of national origin or immigration status. When measuring program outcomes, data is analyzed by several socio-demographic factors to identify if there are any disparities in care and if so, specific interventions are identified to address disparities. The primary flyer for the Ryan White program is available in Spanish, the largest demographic of persons we serve who are not fluent in English.

**East Preventive Health Clinic** serves a significant number of Hispanics every day due its proximity to the Hispanic communities in East Nashville/Madison area.
Seventy percent of the clients for whom we provide services are Hispanic. We currently have 2 staff who are bilingual (one nurse, one nurse practitioner) and two Spanish interpreters (one eight hours a week and one five days a week). We have created a “Welcoming” poster that is located in our lobby to welcome all people to the East community and clinic.

The Children’s Special Services (CSS) program employs a part-time Arabic interpreter for the office site and to assist with home visits with the care coordinators. CSS employs a full-time Spanish speaking care coordinator to serve the needs of Spanish speaking clients. CSS uses Voiance Language Services or staff interpreters for all other languages. All employees serving as interpreters must pass the Language Proficiency Test (LPT) and the Interpreting Skills Test (IST). The Spanish speaking care coordinator has participated in Kids and Kites Day, Love’s Healthy Start Festival, and Faith & Health Summit during the past year. CSS having two bilingual employees (English/Spanish and English/Arabic) has increased the services provided by our program and has decreased the wait time for an interpreter.

The WIC program at South Nutrition Center serves a diverse population with approximately 32 percent of the clients being white, 26 percent black, 31 percent Hispanic, 9 percent Asian, and 2 percent identifying as “other”. Employees speak a variety of languages other than English including Spanish, Portuguese, Bosnian, Serbian, Tigrinya (Eritrean language), Croatian, and German. Multiple group education classes are offered throughout the week in both English and Spanish, while the clinic offers a weekly group education class in Arabic. The clinic has a full-time Spanish interpreter that is also available by phone for other WIC clinics, and there are plans for an Arabic interpreter in the near future. All employees have access to an interpreter over the phone using a language line for any language needs outside of what is spoken by clinic staff. Nutrition and breastfeeding staff is able to utilize the speaker phone in their private offices for counseling sessions. All nutrition education material is offered in both Spanish and English.
The School Health Program serves over 86,000 students in MNPS who come from a variety of diverse backgrounds. Our forms are translated to English, Spanish and Arabic. Additionally, the nurses utilize on-site translators as well as MPHD translators and Voiance. We have 2 bilingual School Health nurses and contract an additional bilingual nurse through an agency.

Woodbine Preventive Health Clinic serves a significant number of Spanish and Arabic speaking clients every day due to our proximity to the communities in South Nashville. Sixty percent of the clients, for whom we provide services, are Hispanic and thirty percent are Middle Eastern. We currently have three staff members that are bilingual (one nurse, two clerks). We also have one full time Spanish interpreter and one part-time Arabic interpreter. We have posters in both languages; all forms and hand outs are provided in Spanish and Arabic. The staff participates in Health Fairs in the community and provides information in Spanish and Arabic.

The Help Us Grow Successfully (HUGS) program provides home-based intervention services to parents expecting a child or who have a child under the age of 6. Currently, 44% of our HUGS families are from a non-English speaking country (22% Hispanic, 12% Arabic, 8% Burmese, 1% other). HUGS has 2 bilingual (English/Spanish) care coordinators and participate in the yearly El Protector Baby Shower. To serve our non-English speaking families, our care coordinators use interpreters provided through phone interpreter services or one of the in-house MPH interpreters.

The TB Elimination program works with multiple community partners and the Refugee Resettlement programs to ensure TB is eliminated in the Nashville Davidson County. We have partnered with the medical professionals at Metro Nashville General Hospital, Vanderbilt Hospital, and other area hospitals in providing care for those individuals who are diagnosed with TB infection or disease. The TB Elimination continues to work closely with the Siloam Clinic in assessing and evaluating for TB infection and TB disease. At present, 70% of our clients are from diverse cultures. In effort of providing the best care for our clients, the TB Elimination Program has employed qualified team members from
different cultures whom represent the clients we serve in the Nashville Davidson County community. We are looking at various and unique ways to provide anti-TB and preventive therapy to eliminate TB which includes the use of electronic directly observed therapy (eDOT) and the possibility of opening a satellite clinic.

The STD/HIV program provides sexual health and STD preventive services to all residences of Nashville Davidson County. The program provides these services without regard to race, color, national origin and language. The program uses language line to communicate to all of our clients with Limited English Proficiency (LEP). Because of the sensitive nature of our work we are especially aware of different customs and traditions which may impact our ability to collect and notify individuals who have a STD(s) or come in contact with STD(s). We also partner with area agencies like Siloam Family Health Clinic and Catholic Charities to provide appropriate STD messages, examination and/or treatment to individuals with LEP.

WIC is a nutrition program that helps pregnant women, new mothers, infants and your children eat well, learn about nutrition and stay healthy. Nutrition education and counseling, nutritious foods, and help accessing health care are provided to low-income women, infants and children, popularly known as WIC.

Mobile Outreach WIC partners with churches, community centers, libraries, MDHA properties and public service organizations throughout Davidson County to reduce health disparities within the community. The program exemplifies effective community collaboration by teaming with various organizations to utilize their space to bring WIC services to the community. Twenty-two classes are taught each month at twenty locations. Classes are taught in both English and Spanish at most locations. And an Arabic interpreter goes out with the mobile team when needed. Two of the four team members speak Spanish.

Hospital Outreach WIC Program provides WIC Bedside Service at four Davidson County Hospitals (Centennial, St. Thomas Mid-town, Vanderbilt, and General Hospitals). Five of the seven WIC hospital staff are bilingual (Spanish, German, Serbian, Croatian, Gujarti)
Monthly breastfeeding classes are taught in both English and Spanish.

A multitude of languages (Serbian, Croatian, Spanish, Ewe, Siwu, Farsi, Kurdish, Arabic, Portuguese, Tigrigna, Gujarati, German) are spoken by our bilingual staff. Twenty-five of the sixty five WIC employees are bilingual.

WIC employs two full-time Spanish interpreters to work in two of our clinics (South Nutrition Center and East WIC)

Most all of WIC client printed materials are printed in both English and Spanish.

Davidson County WIC strives to find innovative ways to make vital WIC resources available to all who qualify. Programs like Mobile WIC and Hospital WIC are continually adapting to better serve participants and their changing needs. Creative outreach efforts like these ensure Nashville can continue to prioritize making families healthier and minimize the disparities that currently exist.

**TennCare Kids/Newborn Community Outreach** is a community preventative health program for families on TennCare. TennCare Kids advocates the importance of free yearly medical, dental, hearing and vision exams for children to detect/prevent health conditions that could impair the ability to grow, learn and develop in a healthy manner. The program outreach workers provide health education and provide linkage to needed resources in the community through direct face to face, direct public engagement.

Newborn Outreach serves a culturally diverse population by providing home visiting services to prenatal women, high risk infants and toddlers. This program serves mothers of newborn babies who speak a variety of languages and who are of varying races, nationalities and ethnic groups. Our three full-time Newborn Outreach staff use Voiance and other interpreting services in communicating with our families.

The program has a long term partnership with El Protector and participates in all their sponsored events including El Protector’s Baby Shower, Latin American Festival at Coleman Park and El Protector’s Global Mall events including Kids
Carnival, Christmas Party for Children with Autism, Kids Health Fair and the Annual Health and Fitness Expo.

We also partner with UNA Help Center, Catholic Charities, and many community venues for daily outreach engagement with ESL clients. We also conduct daily outreach at the most heavily populated ESL venues, where more than half of the clients served are Hispanic or Arabic, including Woodbine, East and South Nutrition Center.

We actively participate in the Día de los Muertos (Day of the Dead) at Cheekwood each year and the Celebration of Cultures at Centennial Park annually. We participated in the first Festival of the Nations event at the State Fair Grounds last summer.

TennCare Kids has a solid partnership with MNPS and participate in many events where the majority of the students are ESL, particularly, Tusculum, Cole, Glencliff Elementary and High School, Amqui, Neely’s Bend and Antioch High School. We also participate in most International specific events through the Metro Nashville Public Schools and have also partnered with Nashville Alignment’s LEAF (Linking, Empowering, and Advancing Families) Community Nights at Wright Middle School.

Saturday, November 4, 2017, TennCare Kids Community Outreach sponsored a Resource Fair for the residents of Millwood Apartment, who are 90% Arabic and 10% Hispanic. We invited 12 partner organizations to participate with us to provide resources and linkage to services, resources and family support. This event was truly collaboration across programs within the Health Department as well as partner community agencies to benefit the families in this community.

Discrimination against any person in recruitment, examination, appointment, training, promotion, retention, discipline or any other employment practices because of non-merit factors shall be prohibited.
1. AUTHORITY

Title VI of the 1964 Civil Rights Act requires that “No person in the United States shall, on the ground of race, color or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.” Although the Metro Human Relations Commission does not receive federal financial assistance, we are committed to compliance with Title VI and all other laws that protect the rights, safety, dignity, and welfare of residents of Nashville and Davidson County.

Moreover, the Human Relations Commission is the agency designated to support Metropolitan Government’s system-wide compliance with the provisions of Title VI. Consequently, its internal and external responsibilities include:

- Ensuring that procedures are in place to provide for public notification of rights under Title VI, and that investigation procedures are implemented;
- Engaging necessary monitoring techniques to ensure departmental compliance;
- Other duties as necessary to ensure Title VI compliance.

Title VI Coordinating responsibility falls under the MHRC’s executive leadership. For information contact:

(Chapter 2.132.020) The commission endeavors to carry out this mission proactively and reactively by:

- Investigating complaints within the general services district regarding perceived discrimination;
- Reviewing allegations of discriminatory misconduct by metropolitan government employees, including but not limited to employees of the police
department, fire department, health department, department of codes administration, public works, metropolitan beer permit board, metropolitan development and housing agency and department of water and sewerage services, and fostering better relations between employees of metropolitan government and the people they seek to serve;

- Lessening and eliminating prejudice and discrimination through educational and awareness-enhancing programs designed to promote tolerance, respect, and the value of diversity;
- Proposing legislation addressing human relations issues in the general services district and enhancing the enforcement of statutes and ordinances that already exist; and
- Fostering mutual understanding, tolerance, and respect among all economic, social, religious, ethnic, and other community groups by working with existing educational, religious, governmental, social and community agencies.

3. TITLE VI INFORMATION AND DISSEMINATION

Title VI information posters will be publicly displayed in the MHRC office. Title VI coordinator contact information is available on the MHRC website along with additional resources related to Metro’s nondiscrimination responsibilities.

4. SUBCONTRACTORS AND VENDORS

MHRC does not receive federal financial assistance, therefore does not make payments to subcontractors or vendors who are then subject to the provisions of Title VI of the Civil Rights Act of 1964 as amended. Nonetheless, any written contracts shall contain non-discrimination language, either directly or through the bid specification package which becomes an associated component of any contract.

5. RECORD KEEPING

The Title VI Coordinator will maintain records in compliance with Metro and federal records retention policies. These records include, but are not limited to, copies of Title VI complaints and related documentation, records of correspondence to and from complainants, and Title VI investigations.

6. TITLE VI COMPLAINT REVIEW PROCESS & PROCEDURES

MHRC will accept Title VI complaints from constituents with regard to any Metro services. An individual may file a complaint up to 180 days from the date of the alleged discrimination. The MHRC provides a complaint form on its website, and
provides translation services in accordance with the LEP (Limited English Proficiency) requirements of Title VI.
Constituents may initiate a complaint in three ways:

A. Submit a completed Title VI Complaint Form (Appendix A), by mail to Metro Human Relations Commission, 404 James Robertson Parkway, Suite 130, Nashville, Tennessee 37219, by facsimile to (615) 880-3373, or by email to mhrc@nashville.gov.

B. If Commission staff determine through the pre-check that the complaint is within the protections of Title VI, the complainant will be assisted with filing a full completed complaint form.

C. Call the MHRC Office at (615)880-3370.

NOTE: The Commission encourages complainants to certify any mail that is sent through the U.S. Postal Service. The signed original copy of any complaint submitted by fax or email must be mailed or delivered to the MHRC Title VI Coordinator as soon as possible, but no later than one hundred eighty (180) days from the alleged date of discrimination.

Minimally, all complaints should be submitted in writing and should include the following:

Through its civil rights compliance functions, the MHRC shall provide appropriate assistance to complainants, including persons with disabilities, or who are limited in their ability to communicate in English.

b. Acknowledgement of the complaint will be mailed or emailed within seven (7) days. Please note that in responding to any requests for additional information, a complainant's failure to provide the requested information may result in the administrative closure of the complaint.

c. Upon determination that the complaint warrants an investigation, the complainant is sent a letter, including the name of the investigator/fact-finder, and is provided with his/her rights under Title VI and related statutes.
d. The respondent is notified by mail that he/she has been named in a complaint and is provided with his/her rights under Title VI and related statutes. The letter also includes the fact-finder’s name and informs the respondent that he/she will be contacted for an interview.

e. A letter or other official correspondence is sent to the appropriate manager and/or department head when the complainant(s) or respondent(s) are located in Metro Government.

f. The investigator/fact-finder shall prepare a written plan, which includes but is not limited to:
   • Names of the complainant(s) and respondent(s);
   • Basis for the complaint;
   • Issues, events or circumstances that caused the person to believe that he/she has been discriminated against;
   • Information needed to address the issue;
   • Criteria, sources necessary to obtain the information;
   • Identification of key people;
   • Estimated investigation time line; and
   • Remedy sought by complainant(s).

The investigator will ask questions to elicit information about aspects of the case about which witnesses can provide firsthand information. Interviews can be tape recorded with the interviewee’s consent.

h. Within 60 to 90 days of receipt of the complaint (if possible) the fact-finder prepares a written report and submits the report and supporting documentation to the MHRC Executive Director for review. After reviewing the file, the Executive Director makes a determination of “probable cause” or “no cause” and prepares a final decision letter in the matter.

i. In the event the Executive Director finds the complaint is not substantiated, the complainant is also advised of his or her right to appeal, by providing additional information or seeking redress through another entity.

j. A copy of the complaint and the investigation report will he kept on file in accordance with required record-retention procedures.

7. LIMITED ENGLISH PROFICIENCY

Individuals who do not speak English as their primary language and who have a limited ability to read, write, speak or understand English can be defined as Limited English Proficient (LEP). Executive Order (EO) 13166 - Improving Access to Services for Persons with Limited English Proficiency is directed at implementing the protections afforded by Title VI of the Civil Rights Act of 1964 and related regulations. It prohibits recipients of Federal financial assistance from discriminating based on
national origin by failing to provide meaningful access to services to individuals who are LEP.

The Metro Human Relations Commission recognizes the increasing racial, ethnic, and linguistic diversity in the city and seeks to provide meaningful access to LEP residents through a plan guided by the Department of Justice’s (DOJ) four-factor analysis. The four factors, DOJ allows publically-funded entities to consider are:

a. The number or proportion of LEP persons eligible to be served or likely to be encountered by a recipient of federal assistance
b. The frequency with which LEP individuals come into contact with the program or service
c. The nature and importance of the program, activity or service provided by the program to people’s lives
d. The resources available to the grantee/recipient and the associated costs

What are the provisions of the MHRC LEP plan?

- Use of Language Line to ensure appropriate translation for clients seeking services from the department;
- Publication and distribution of department brochures in Spanish and Arabic;
- Publication and distribution of “Know Your Rights” brochures in Spanish and Arabic;
- Publication and distribution Title VI posters in Spanish; and

DEPARTMENT MISSION

The mission of the Juvenile Court is to ensure that every child and family that come into contact with our court are met with justice, fairness, and hope; while providing "for the care, protection, and wholesome moral, mental and physical development of the children" as according to Tennessee Law.

Departmental Goals

1. Reduce delinquent offender recidivism, and to maintain the effectiveness and capacity of all other court programs without interruption in the quality of service delivery.

---

1 The STAR Team is the division of the Court responsible for coordination of all Juvenile Court training.
- Reduce recidivism rates as evidenced by 90% of children on supervised probation will successfully complete their probation. The goal is for all youth on supervised probation to complete 1 of 3 evidenced based programs; The REAL Program, Teen Outreach Program (TOP), or Gentlemen and Not Gangsters (GANG).

2. Reduction in the number of youth referred to Juvenile Court for delinquent and status offenses by developing active partnerships with community non-profit, faith-based, and other agencies to develop more effective and proactive intervention strategies.

- By the year 2017, reduce the number of youth referred to Juvenile Court for delinquent and status offenses as evidenced by 25% increase in active partnerships with community non-profit, faith-based and other agencies. This number can also be reduced by youth being referred to the Juvenile Court Youth Court Programs within Metro Nashville Public Schools.

3. Increase compliance with child support orders and reduce incarceration for contempt of court by adding probation officers who will provide intensive services to non-custodial parents through the child support problem solving courts.

- By the year 2017, reduce incarceration rates for non-payment of child support as evidenced by 30% increase in non-custodial parents who obtain employment so they can pay child support2.
- The Parental Assistance Court (PAC) will assist all IV-D Non-Custodial Parents seeking a modification of child support petitions. The PAC will provide services as needed to non-paying, non-custodial parents (NCP) to address barriers preventing regular child support payments.

---

2 Data for measuring progress towards goal #3 is pending review. The above departmental goals are also under review for potential revision consistent with the priorities of the current Court Administration’s vision and objectives.
Child Support Enforcement (Title IV-D)

The Child Support Enforcement Grant provides the Juvenile Court with a combined total of eighteen (18) judicial staff, enforcement personnel, and support staff to fulfill federal child support program objectives for parents who have never been married. These federal funds are passed through to the Juvenile Court via a grant from the Tennessee Department of Human Services and accounts for 66% of the department's annual budget.

Interpreter Services Program

Beginning the 2nd half of FY17, the Administrative Office of the Courts awarded federal pass through funding to the Juvenile Court to hire an Interpreter to provide Hispanic interpretation services and to coordinate the provision of non-Hispanic interpretation services to address the needs of Limited English Proficiency (LEP) individuals with Juvenile Court involvement.

Contracted Program Overview

Juvenile Court utilizes contracted services as needed to facilitate the efficient operation of its activities. All current contracted services were secured pursuant to Metro Purchasing requirements following either the Invitation to Bid (ITB) or Request for Proposals (RFP) process. The most significant contract for Juvenile Court is with Youth Opportunity Investments (YOI) for the operation of the Juvenile Detention facility, with an approximate value of $3,800,000 annually. This contract began on July 1, 2015.

Other Federal Pass-through Funding and Grants

Juvenile Court has been awarded Federal Pass-through funding to supplement the salaries of Assessment Specialists and The Juvenile Court Safe Babies Court. Assessment Specialists go into the home and community to conduct strengths and needs assessments on youth who have been referred to the court. The goal of the Safe Babies Court is to increase awareness among those who work with maltreated infants and toddler about the negative impact of abuse and neglect on very young children; and change local systems to improve outcomes and prevent future court involvement in the lives of very young children.

Minority Participation on the Board/Commission: N/A

Number of Complaints Received Last Year: None
Significant FY18 Title VI – Related Accomplishments

Since July 1, 2017, the Court has completed over 1000 requests for interpreter services to participants with Limited English Proficiency (LEP) in Juvenile Court hearings and related activities. Since 2006 these requests have encompassed over 30 different spoken languages or dialects plus American Sign Language. Court staff also use the Language Line to conduct daily business with LEP clients.

The Court maintains a designated a central administration contact for all interpreter requests for all court hearings and other court activities. The designated contact processes interpreter requests from all court-related sources and arranges for appropriate language certified interpreter services for the requested court dockets. The designated contact additionally maintains a roster of certified interpreters and processes court orders and fee claim paperwork submitted by interpreters to insure payment for these services from the appropriate funding source. The April 2017 addition of a staff Interpreter/Interpreter Services Program Manager shifts most of the described administrative responsibility to that employee, and the AOC will provide 90% of the continued FY18 funding for that court staff position.

An Interpreter Request Form integrated into the Court’s Juvenile Information Management System (JIMS) was developed in FY13 and continues to be utilized by Juvenile Court and Juvenile Court Clerk staff. The integration – which connects the interpreter request to the court’s information and docketing database system - significantly increases the efficiency of the process of insuring needed interpreter services are provided and significantly enhances the tracking of cases where the need for interpreter services for specific non-English speaking individuals has been previously identified.

Juvenile Court hosted a Title VI Training for its staff and other Metro departments in Fiscal Year 2016-2017, for which there were 26 participants. The court has also identified online training videos and resources for intermittent trainings for new employees and for AOC grant-funded mediators requiring Title VI training.

Juvenile Court employees are scheduled to complete Title VI Training on June 7, 2018.

Financial assistance is conditioned on the applicant providing assurances that the program or facility to be benefited with be operated without discrimination. Although the particular form of assurance will need to be specified by each, in substance, the assurance is a contractual obligation through which the recipient promises to comply with Title VI regulations and will take immediate and continuing steps to effectuate this compliance. The assurance obligates the recipient for the period during which federal money is extended. In the case of real or personal property the assurance obligates not only the recipient but also any subsequent transferee for the period during which possession or ownership is retained or during which the property is use for a purpose for which the property has been given. The assurance further acknowledges that the federal financial assistance is extended in reliance on the representations and agreements made in the assurance and that the government has the right to seek judicial enforcement. NCAC has either interpretation services on-site or accessible over the phone (Language Line).

NCAC’s Reasonable Accommodation policy is one in which once the need for accommodation for a qualified individual has been indicated, the appropriate reasonable accommodation is best determined through a flexible, interactive process that involves the employer, provider and the qualified individual with a disability.

5. Data and Information Collection and Maintenance
Accurate data collection and reporting is vital in determining whether NCAC is in compliance with Title VI. NCAC shall provide for and maintain a system to collect, analyze, and report the eligible population and participation by race and define the parity of the program. The analysis shall be used to determine how effectively programs are reaching eligible groups; assist in the selection of locations for compliance reviews; identify areas for additional outreach efforts; and provide status reports to measure progress of program delivery. The system shall also provide report data on compliance reviews conducted. NCAC uses VOS system for collecting and reporting racial/ethnic data. Annually, NCAC will develop a civil rights report from the information gathered. Also, NCAC will establish program targets for the delivery of program benefits to minority groups, and incorporated into their local workforce investment plans.

6. Equal Opportunity Monitoring

The NCAC EOO will monitor on a regular basis all of the sub-contractors of NCAC. As part of the monitoring process, the EOO will monitor for Non-Discrimination and Equal Opportunity using Section G of the monitoring manual (see attachment).

7. Corrective Actions and Sanctions

A draft monitoring report will be developed and transmitted to the contractor. The report will require the contractor to describe the corrective action it will take to bring the program into compliance. The contractor will be given (30) working days, following the date of the report, to submit their corrective action plan. A follow-up review will be scheduled to ensure the completion of corrective action. Those issues not resolved during follow-up will be determined to be in violation of contractual requirements and sanctions where appropriate will be applied by NCAC.

Below is an organization chart for the Metropolitan Board of Parks and Recreation.
Federal Funding in the Metropolitan Parks and Recreation Department

The Parks and Recreation Department has several goals that are positively impacted through the use of Federal Financial Assistance. The first is the goal to develop public/private partnerships that will maximize current park programs and resources. The accomplishment of this goal would be evidenced by the percentage of supplemental resources gained through partnerships.

The second goal that is impacted by the receipt and use of federal grants is to increase promotion and awareness of all park programs, facilities and services to a growing and diverse population. The funds that are received from the agencies cited in the previous paragraph are used in ways such as building greenways and trails aimed at improving health and wellness.
**Contracted Program Overview**

The Parks and Recreation Department uses a myriad of contracts with other parties to fulfill its day-to-day operational requirements associated with achieving its primary mission of sustainably and equitably providing everyone in Nashville with an inviting network of parks and greenways that offer health, wellness, and quality of life through recreation, conservation, and community. Organizational Environment

Mission Statement:
Metropolitan Social Services empowers Davidson County residents to achieve economic stability and social well-being. (Organizational Chart Attached)

Federal Funding in the Metropolitan Social Services Department

The Senior Nutrition Program receives funding from the Area Agency on Aging and Disability of the Greater Nashville Regional Council. The Metropolitan Homelessness Commission receives federal funding through the Metropolitan Development & Housing Agency (MDHA) as well as through the state. While our contracts are not with federal agencies, these funds originate at the federal level (Older Americans Act funding and Social Services Block Grant). The funding which is received from these grants and local funds are used to operate the programs.

The Metropolitan Homelessness Commission works under the auspices of the Metro Social Services Board of Commissioners and provides planning and coordination as well as support services for other Metro departments and in collaboration with community organizations with a focus on ending homelessness. The Metropolitan Homelessness Commission specifically focuses on building a community-wide housing crisis resolution system that serves all populations experiencing or at immediate risk of homelessness utilizing a prioritization effort determined and implemented through community collaboration.

Positive Program Impact include:
- Socialization – Access to permanent housing solutions are promoted along with mainstream resources and available support services to increase socialization
- **Health** - Promotion of access to health care and access to a permanent healthy living environment
- **Independence** - Encouragement of self-determination for individuals and families so that they are able to choose their path out of homelessness for themselves, rather than be stymied by or forced to participate in a particular program model
- **Stability and Safety** - Promotion of a rapid transition from homelessness to permanent housing with the right support systems including community-building efforts for all people experiencing homelessness

The MSS **Nutrition Program** provides nutritious meals, through senior dining settings, home delivered meals, and nutritional liquid supplements to frail seniors and persons under 60 with disabilities and transportation to congregate meal sites.

**Positive Program Impact:**

- **Socialization** – The program provides non-homebound seniors with the opportunity for activities and socialization, enhancing well-being and mental health. Congregate site participants interact with other participants, while homebound customers maintain regular communication with staff.
- **Independence** – By providing nutritional meals to homebound seniors/disabled persons, they have the opportunity to thrive at home (rather than in nursing homes)
- **Health/Nutrition** – Daily nutritious meals (including appropriate meals for those on special diets) are an important component for healthy living.
- **Family Assurance** – For caregivers or extended family members (who may be at work or live in other locations) they receive assurance that their senior/disabled person receives a daily nutritional meal and staff contact.

**Contracted Program Overview**

The department uses the funding from the contracts to enhance the capacity for providing services to the community. Without the federal funds, the department's level of services would be dramatically decreased. In addition to the contractual arrangement, the department works with the funding sources in various areas, including advocacy and service planning.

- Department of Housing & Urban Development (HUD)/Community Development Block Grant (CDBG)
- Substance Abuse & Mental Health Services Agency (SAMSHA)
- Area Agency on Aging and Disability of the Greater Nashville Regional Council Nutrition, Transportation

Federal Funding in the Metropolitan Water Services Department

Section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act established the Hazard Mitigation Grant Program (HMGP) in November 1988. Regulations governing the HMGP can be found at 44 Code of Federal Regulations 206. It was created to assist states and local communities in implementing long-term hazard mitigation measures following a major disaster declaration.

The Program's objectives are:

- To prevent future losses of lives and property due to disasters
- To implement State or local Hazard Mitigation plans
- To enable mitigation measures to be implemented during immediate recovery from a disaster, and
- To provide funding for previously identified mitigation measures that benefit the disaster area.

Any State and local government entity is eligible. State agencies and other divisions that may have projects that help support hazard mitigation objectives include those involved with natural resources, geological hazards, public works, infrastructure regulation or construction, floodplain management, parks and recreation, and community development.

As an eligible entity, Metro Water Services purchases homes in floodplains and has them demolished. The acquired property on which structures are removed will carry a permanent deed restriction providing that the property be maintained for open-space, recreational, or wetlands management purposes only.
