

# Warner Park Nature Center Hummingbird Research Report August-September 2017

- 13 Sessions banding 106 Ruby-throated Hummingbirds during 736.5 trap hours
- 31 recaptures, including:
  - RTHU originally banded as HY F 15 August 2015; recaptured on 9 August 2017
  - RTHU originally banded as AHY F 16 August 2014; recaptured on 26 August 2017
  - RTHU originally banded as HY F 29 July 2015; recaptured on 26 August 2017
- Visitor participation:
  - 748 visitors attended banding sessions and educational programs
  - 572 visitors attended Hummingbird Day Program on Saturday, 26 August 2017
  - 100+ patrons celebrated Hummingbird Happy Hour on 15 September 2017
- Dedicated team of 21 volunteers donated many hours and made this project possible:
  - Kathy Shaw, Diana McLusky, Amy Potter, John Kell, Camille Monohan, Kelly Longenecker, Lauren Hoffman and Della, Kaaren May, Barbara Kell, Mary Glynn Williamson, Laura Cook and Elizabeth, Johnny Rose, Brenda Stein, Rachel Anderson, Kim Bailey, and Susan Bradfield
- Special thanks to Ronald Manley and Charlie Curry, who documented this project through photographs. Special thanks also to Johnny Rose, who faithfully maintained over 20 hummingbird feeders during the 2017 season.
- Projects at Bells Bend Outdoor Center, Shelby Bottoms Nature Center, and Beaman Park Nature Center processed 118 birds and coordinated by Kathy Shaw and Sandy Bivens
