

## Hummingbird Banding Sessions

Warner Park Nature Center  
Fall Migration 2019

Visitors are cordially invited to stop by the Learning Center back porches on the nature center campus and see hummingbirds up-close and observe bird research in action.

Licensed banders manage the bird banding station and use traps to carefully catch, band and release each bird. Bird banding sessions are scheduled by project.

Depending on the number of birds and the number of trained volunteers assisting that session, we are happy to answer questions about the hummingbirds and banding and discuss the data collected and bird banding tools. We have some amazing bird stories to tell! The safety of the bird is the most important part of banding, and if we are too busy with the birds and unable to talk, you are still welcome to observe quietly and enjoy watching the process.

Bird banding sessions may be cancelled or times adjusted due to rain, inclement weather, unforeseen staffing issues or emergencies. If you stop by and the banders are not there, please enjoy the Park and come back another day.

Fall migration is a great time to enjoy hummingbirds! Observe from a rocker on the back porch of the Learning Center or a porch swing at the Library, or stroll through the garden to see hummingbirds feeding from flowers.

### Long-term Hummingbird Banding Project Dates

Saturday, August 17, 7:30-9 a.m.

Wednesday, August 21, 7:30 a.m.-9 a.m.

Saturday, August 24, 7:30 a.m.-2:30 p.m. Celebrate Hummingbirds with activities, special presenters and more!

Wednesday, August 28, 7:30-9 a.m.

Saturday, August 31, 7:30-9 a.m.

Wednesday, September 4, 7:30-9 a.m.

Saturday, September 7, 7:30-9 a.m.

Wednesday, September 11, 7:30-9 a.m.

Saturday, September 14, 7:30-9 a.m.
