

# We want to hear your thoughts!

## Ideas about the future of Dickerson Road

In Spring 2018, the Planning Department's Community Design team worked with Highland Heights stakeholders to create a small area plan that guides future development and redevelopment in the neighborhood. Currently, the design team is working on corridor planning along Charlotte Pike. Now, the Planning Department would like to work on ideas for corridor planning along Dickerson Road.

Please join us as we start a conversation about the future of Dickerson Road. We want to hear from you about what you would like to see along Dickerson Road in the future. What can be done to improve your experience along the corridor today? What should we focus on? What are your priorities?

### Information Session

Thursday, July 12 - 6 to 7 pm  
East Police Precinct - 936 E. Trinity Lane

### What are your ideas?

The design team would like to hear your thoughts about:

- Street improvements
- Making it easier to walk or bike
- Parks and green spaces
- New buildings
- Current and future land uses

You can have input into the future of your neighborhood!

For more information, please attend the meeting.
