Subject: Traffic Stop

Message received from police web site contact form from [REDACTED]

[REDACTED]

I was pulled over for a minor traffic violation in the Murfreesboro Road area around midnight of May the 1st. I just wanted to give let your department know you are doing a great job. It was a minor violation, traffic was sparse, and it was late, I could have easily been irritated and thought there were bigger things to worry about; but you are doing your job, and that's what matters. You never know if that one driver you pull over is that one that needs to be off the road for the better good of the public. The officer conducted himself in the most professional manner, and it's reassuring to know the department is thorough enough to initiate stops for minor violations. Keep up the good work! Law enforcement is still under respected, and deserves credit for a lot of the simple things citizens take for granted regarding public safety.

Regards,
