Subject: home burglary

To Commander Donegan - While our home in Donelson was broken into yesterday, with the help of neighbors and the quick response of Metro Police, the perpetrators were apprehended within the hour. Items stolen were recovered and the whole episode was like a training film to show to other neighborhoods. I would especially like to cite officer J Curtis who patrols this area and who we have had contact with in the past. I commend all the officers that responded as well as CSI people and the helicopter pilot who got the job done. It was truly remarkable.
