

Community Summary Report

Community Data by Zip Code

Including Police Activities & Victim/Suspect Information

Who lives here?

(according to US Census data analysis)

Who is stopped for traffic offenses here?

(using data from the MNPD Traffic Stop reports)

Who is stopped for traffic offenses and receives a citation here?

(using data from the MNPD Traffic Stop reports)

Who are the drivers involved in crashes here?

(from State of TN data)

Who are the victims of a violent crime here (murder, rape, robbery, assault, etc.)?

(using data from incident reports)

Who are the victims of a property crime here (burglary, auto theft, theft, etc.)?

(using data from incident reports)

Who are the crime suspects here?

~~XXXXXXXXXXXXXXXXXXXX~~ *(using victim descriptions of suspects for the crime)*

Who is arrested here-for any violation of state law?

(using arrest data)

| East | Central | North | Midtown Hills |

Note: ZIP Code Tabulation Areas (ZCTAs) are generalized area representations of the United States Postal Service (USPS) ZIP code service areas, but are not the same as ZIP codes. Individual USPS ZIP codes can cross state, place, county, census tract, census block group and census block boundaries, so the Census Bureau asserts that "there is no correlation between ZIP codes and Census Bureau geography." Moreover, the USPS frequently realigns, merges, or splits ZIP codes to meet changing needs. These changes are usually not reflected in the annual TIGER releases. Each ZCTA is constructed by aggregating the Census 2010 blocks whose addresses use a given ZIP code. In assembling census statistical units to create ZCTAs, the Census Bureau took the ZIP code used by the majority of addresses in each census unit at the time the data was compiled. As a result, some addresses end up with a ZCTA code that is different from their ZIP code. (Source: <https://www.census.gov/geo/reference/zctas.html>; https://en.wikipedia.org/wiki/ZIP_Code_Tabulation_Area)

* - Vehicle crash information collected via TITAN, an e-form provided by the State of Tennessee. TITAN is not maintained by MNPD. A high percentage of "Unknown or Not Reported" Gender, Race, and Ethnicity records has been observed with TITAN data.

Methodology

All information contained in this report is intended to be a management and planning tool and does not reflect the official counts for the department. If a single individual is listed as an arrestee, suspect, victim, or driver multiple times during the stated time period, they will be counted multiple times in the report.

Column Headings and Data Sources for Each

Who Lives Here

Population estimates sourced from the United States Census Bureau, 2010 US Census Counts, Block-Level 100% Count Data for Davidson County, Tennessee.

Who is Stopped for Traffic Offenses Here

Vehicle Stops sourced from MNPDP's Vehicle Stop (Form 252) Database.

Who is Stopped for Traffic Offenses and Receives a Citation Here

Vehicle Stops sourced from MNPDP's Vehicle Stop (Form 252) Database.

Who are the Drivers Involved in Crashes Here

Crash Drivers sourced from MNPDP's Vehicle Crash database. Information collected via TITAN, an e-form provided by the State of Tennessee.

Who are the Victims of Violent Crime Here

Incident Victims sourced from MNPDP's Incident Database. Victim counts use Uniform Crime Reporting definitions and reporting guidelines, based on the date when the crime was reported. Incidents with commercial victims are excluded from these counts (businesses do not have an associated race, gender, or ethnicity).

Who are the Victims of Property Crime Here

Incident Victims sourced from MNPDP's Incident Database. Victim counts use Uniform Crime Reporting definitions and reporting guidelines, based on the date when the crime was reported. Incidents with commercial victims are excluded from these counts (businesses do not have an associated race, gender, or ethnicity).

Who are the Crime Suspects Here (As Identified by the Victims Reporting Crimes)

Incident Suspects sourced from MNPDP's Incident Database. Suspect race is identified by victims and witnesses of incidents. Includes known and unknown suspects.

Who is Arrested Here

Arrests sourced from MNPDP's Arrest Database. Arrests are not a count of charges or warrants served. 1 arrest = 1 body taken into custody.

Known Limitations

Crash Drivers

Information collected via TITAN, an e-form provided by the State of Tennessee. TITAN is not maintained by MNPd. A high percentage of "Unknown or Not Reported" Gender, Race, and Ethnicity records has been observed with TITAN data.

Census 2010 Population Counts

Population estimates were extrapolated using the following methodology: 2010 population counts by gender, race, and ethnicity were obtained from the US Census Bureau's FactFinder website. Data source: 100% count 2010 block-level counts for Davidson County, Tennessee.

A Geographic Information System (GIS) was used to union Davidson County 2010 Census Block geography with MNPd Reporting Area (RPA) geography. Since geographic boundaries for the two files do not exactly match, population values were estimated by calculating the percentage of each Census Block area contained within each MNPd RPA area.

For instance, consider an example of Census Block A, with a total population of 200. If 40% of the total area of Census Block A is contained within the geographic area of Reporting Area X, and the remaining 60% is contained within the geographic area of Reporting Area Y, a population estimate of 80 is assigned to Reporting Area X, and a population estimate of 120 is assigned to Reporting Area Y.

Because of this issue, it is sometimes possible that a fraction of a person may be assigned to a Reporting Area. Population counts have been rounded to the nearest whole number for each demographic category.

Additionally, decennial Census estimates are from 2010, whereas all other information in this report is for a more recent time period. Population changes for the time window in between are unaccounted for.

Summarizing Data by ZIP Code

ZIP code is collected for incident/arrest/crash/vehicle stop location--all the forms sourced in this report. However, a small number of reports are missing ZIP code information. Records with missing ZIP code information are excluded from the counts.

Some ZIP code tabulation areas cross the county boundary for Davidson County. In these cases, population estimates and MNPd police report counts are only calculated for the portion of the ZIP code tabulation area contained within the boundary of Davidson County.
