

RESOLUTION NO. RS2018-1014 (GILMORE) – This resolution would approve an agreement between the Centers for Disease Control and Prevention (CDC) and the Metropolitan Board of Health to provide an associate for the Public Health Associate Program (PHAP).

The PHAP is a long-established program whereby the CDC pays for an employee to obtain professional experience by working at a local or state health department for two years. The CDC employee receives two years of real-world public health experience. Metro would be provided with an associate to assist in developing, implementing, and evaluating public health programs.

Pursuant to this agreement, a PHAP associate would be assigned to the Tuberculosis Program in the Metro Public Health Department from October 2, 2017 until September 30, 2019.

Fiscal Note: Metro would be responsible to pay minor ancillary expenses for the CDC employee, but would not pay their salary or benefits.
