

BILL NO. BL2018-1371 (BEDNE) – This ordinance would amend the Metro Code of Laws regarding kennels. The “kennel/stable” land use is currently allowed in three zoning districts, AG, CS, and CL, pursuant to Metro Code of Laws Sec. 17.08.030.

The ordinance would add the following language to the definition of “kennel/stable”: “A kennel is an establishment for the breeding of dogs and subject to the license and fee requirements of Chapter 8.04 administered by the Board of Health.” Further, the ordinance would require kennels to have a minimum lot size of ten (10) acres.

It is anticipated that the sponsor intends to defer this ordinance.
