Subject: Riverside Village Project

My name is Ellis Flynt and I reside at 2010 Riverside Dr. I am opposed to current attempt to change Riverside Village from residential single family to 33 apartments. Further, the idea that a motorcycle shop belongs in the village is ludicrous considering the surrounding roads and noise.

Sincerely,

Ellis Flynt

Subject: Riverside Village

I am the house on Riverside immediately next door to the proposed new development. I am going to make every attempt to make the community meeting on October 1. However, let me state as emphatically as possible that I am strongly opposed to the motorcycle business being proposed for the corner of McGavock and Riverside. I have suffered for several years from the loud music emanating from Fond Object. Despite repeated requests for them to turn it down a bit, each band seems to play louder than the last. At times I cannot hear a telephone conversation in my own living room. Motorcycles are that much louder and I do not want this business included in the new development. Thank you for your consideration.

Subject: Zoning Change for McGavock Pike & Riverside Drive
Importance: High

I am opposed to the proposed Zoning Change for McGavock Pike & Riverside Drive...

I live at 1916 Riverwood Drive & drive through that intersection daily ~ the traffic is congested now ~ I cannot imagine what it will be like to add 33 'Affordable Tiny House Apartments' as well as the business that is proposed for this corner... Motorcycle Repair Shop... Really?

Can we just at some point say.... NO...

I hope Zoning will Reconsider Approving the proposed Zoning Change for this unique little corner of Inglewood...

Thank you for your time & consideration of one of the Inglewood Neighborhood Residents...

I look forward to meeting you at the next Public Meeting October 1, 2018 at 5:30 at the Litton Alumni Center...

Subject: Riverside Village area of Inglewood (case #2017CP-005-003)

Hello,

I am writing to express my dismay at the proposed zoning amendments for the Riverside Village area of Inglewood (case #2017CP-005-003). I live in the 2300 block of Riverside Drive, and already, the traffic on this stretch of the road is terrible. There are frequent wrecks in front of our home, and the thought of even more traffic in the area is alarming from a safety standpoint. Nothing that has been attempted thus far has calmed the traffic and stopped the wrecks. This will only get worse as more cars congest the area. I fear for my life when I get my mail and will no longer walk my dog on Riverside. I am not being hyperbolic.

I can't even begin to imagine how congested the 4-way will be at McGavock and Riverside if the proposed amendments are allowed. The last thing this neighborhood needs is an addition of 33 units, many of which will likely be used as short term rentals, inviting those to populate the area who have no vested interest in the daily quality of life here.

The thought that so many mature trees would be razed to make way for this development is a travesty, and anyone involved in this should feel shame for their part in the debasement of our historic neighborhood, of which a mature canopy is part of the landscape. This is the kind of appealing asset that money cannot buy.

And the idea that a motorcycle lounge has any place in this neighborhood is stupefying.

If development occurs, it should fit into already existing zoning. Development should honor the neighborhood's desire for low density, be scaled appropriately, and be respectful of the existing character. The Fond Object building should remain, and leased to a business that will integrate into the current vibe and energy level of the commercial zone.

Families and residents that currently live here should not have to fear for our lives when walking along historical Riverside Drive. We should not have to fight ever increasing traffic as we commute to and from home and work. We should not have to hear the roar of motorcycle engines as par for the course. We should not be deprived of the character that mature trees offer the neighborhood. No amount of property value increase would be worth sacrificing all that we would forego if this plan is allowed to move forward.

DO NOT LET DEVELOPERS EXPLOIT OUR UNIQUE VIBE IN ORDER TO LINE THEIR POCKETS.

PLEASE STRONGLY OPPOSE THE PROPOSED AMENDMENTS TO CHANGE THE ZONING IN RIVERSIDE VILLAGE.

Best,

Sonya Thomas

Hello,

I am unable to attend the public meeting tonight at Isaac Litton Middle School, but I am writing in support of the proposed Riverside Village development. I believe the new scope of the project is appropriate for that corner and will be an asset to the community once built.

Hi there -

Historic Inglewood's Riverside Village is a distinct community of single-family homes with a rich canopy of mature trees, gardens, and the historic memorial Riverside Drive. This community is also home to a culture of music and art. The special character and feel of our neighborhood should be protected from this kind of large scale, intrusive development. Such a project would bring too much traffic, congestion, and noise to the neighborhood. This added congestion would add to the already dangerous busy streets that have many cyclists and pedestrians with strollers sharing the roads that have no sidewalks.

As residents of East Nashville and Riverside Village, we want to prevent this sort of development from ruining our sense of community, our safety, and our livelihood.

The developer's plan includes:

SIX 2 AND 3 STORY APARTMENT BUILDINGS WITH 33 UNITS, an amenities building, several parking lots, dumpsters, walkways, driveways, and bright lights right up against the surrounding neighbor's property lines and yards, who all live in single-family homes. All these cars would be entering, exiting, and making U-turns through Riverside Drive, an already very busy and dangerous intersection with 2 one-way lanes divided by a grassy median and cherry trees. The sketched plan shows that the majority of the lots would be covered with buildings, cars, and asphalt with very little or no buffer for neighbors. This means that almost all of the 40+ mature trees (ranging from 50-80'tall) that currently provide a buffer for the neighborhood from the commercial district and the busy streets would be cut down.

REPLACE FOND OBJECT WITH A LOUD MOTORCYCLE REPAIR SHOP/SHOWROOM AND PIZZA RESTAURANTThe closing of Fond Object, which has been the cultural heart of the community, replaced by a repeated pizza concept would be a huge loss for the Village. The backyard house where Fond Object offers live music, bonfires, movies, and yoga would be demolished and turned into another parking lot. Themotorcycle themed restaurant/repair shop will undoubtedly attract a loud biker scene to our neighborhood disturbing the peace and well being of residents all around the neighborhood. Motorcycle noise, pollution, and traffic will also decrease walkability.

Motorcycle repair shops and apartment buildings ARE NOT permitted under the current zoning at Riverside Village and the surrounding lotsand they are not appropriate for the character and safety of our neighborhood with incredibly close proximity of single-family residences without sufficient street infrastructure.

Thank you.

Please consider how the people of this neighborhood feel about this proposed development. People that live here do not like this plan.

Residents of this neighborhood do not want apartments buildings on this corner and we do not want our old growth tree buffer to be lost. Our homes are too close to all of this. We also do not welcome additional parking lots and traffic to this corner of our community, which is also the heart of our neighborhood. We feel that it would be detrimental to our livelihoods.

Subject: Fond Object / Riverside Village Development

Shawn,

I'm writing today as an East Nashville Resident. My zip code is 37206, but I live above Cornelia Fort Airpark... almost Inglewood, and Riverside Village is my closest business area. I like it just the way it is, though it has already changed quite a bit in the 5 years I've lived here. Mitchell moved, Sip Cafe and Mike's Ice Cream left and moved to Gallatin. The doctor's office next to Riverside Village Pharmacy has changed hands a couple times, but now they've taken it over. I plan to frequent that if I have to, just as I give business to the pharmacy, since my dad was a pharmacist and had a local drugstore. I frequent Fond Object Records, am on their mailing list. They know my birthday. They sell my records and t-shirts. I've played the back yard and have gone to many events there. Jeff Pettit (r.i.p) recognized me from my old band when I came in there. He was a mensch. He started, and Jem and Steve maintained, a great community thing. I used to go to Red Arrow Gallery before they moved. Bailey and Cato before and since they moved. This is a NEIGHBORHOOD. We like Dose. We don't NEED a Barista Parlour!! We don't want more apartments, traffic and people looking for parking! And I DON'T want a loud motorcycle shop and that culture moving in there. I don't imagine the current neighbors do either! They were just becoming amenable to rock and roll evenings at Fond Object!

PLEASE, leave Riverside Village alone, and go pick on some other place. Thanks.

Yours Truly,

Julie

Subject: Concerns about development in Riverside Village case #2017CP-005-003

Dear Ms. Shepard,

My name is Jen Starsinic. I am a local songwriting and performing musician, as well as the co-founder/co-CEO of Girls Write Nashville, a local nonprofit organization that provides songwriting mentorship and music-access services to middle and high school girls in Davidson County, prioritizing girls enrolled in Title I MNPS.

I am writing to you today as a private citizen in regards to case #2017CP-005-003, the proposed development plan to install multiple apartment buildings, a motorcycle repair shop and pizzeria in Riverside Village in East Nashville. As a citizen of Davidson County and Metro Nashville, I am extremely opposed to this development. I patronize the existing businesses in Riverside Village, mostly Fond Object extremely frequently, and I think this development would absolutely destroy the existing culture of that neighborhood and hurt the existing businesses, many of which are local institutions and favorites in the community. Fond Object is one of the last strongholds that support the local music community, which is the foundation of the functioning of the entire music industry in Nashville. Just as tributaries feed rivers that lead to the sea, without healthy small local venues, the Nashville music scene, music community and music business cannot thrive and cannot survive. And given that Nashville's entire tourist industry depends on it's status as "Music City", it is absolutely imperative that Nashville work to protect and prioritize local venues and the local culture that supports Nashville's music community at all levels. Without that, Nashville will lose it's identity - the very thing that made it such a destination in the first place.

I would welcome the opportunity to further the discussion on this matter, or further share my thoughts. I also plan to attend any community meetings or hearings about this matter to voice my thoughts as a citizen there as well.

Thank you for your time.

Best,
Jen Starsinic

Shawn,

I am writing to express my concerns about rezoning and developing Riverside Village, case #2017CP-005-003.

I do not think this should be developed.

I think anything involving tree removal and increased traffic in that area will not be conducive for the people (and animals) that call that area home. There are plenty of areas up and down Gallatin Road - and not jammed back into the neighborhood - that are prime for condos, shops or anything else.

Please send these buyers elsewhere!

Subject: Proposed rezoning and community plan amendment for Riverside Village case #2017CP-005-003

Hello Nashville Planning Staff, Council, and Mayor's office staff,

Thank you all for everything you do for our city to make it special, unique, and safe.

I am writing to submit my neighborhood's petition (attached below with 1,520 signatures) against the proposed rezoning and community plan amendment for Riverside Village, case #2017CP-005-003. I would like you all to please consider how the people of our community feel about this proposed zoning change and development and ask that you, as our representatives, please make decisions that support what we are asking of you. We are asking that you not approve this zoning change or

community amendment. Our petition has gotten the support of 1,520 people in just a few days. It was written about in the Tennessean and has been supported by well known musicians who live in the area. There are also many discussions going on throughout social media about this proposed development and the vast majority of people here are not at all happy about the idea of this zoning change and proposal to build 6 large 3 and 2 story apartment complexes on the corner of the busy and dangerous intersection of Riverside Dr. and McGavock Pike. These apartment complexes would be built right up against a little neighborhood community, zoned only for single-family homes, adding too many cars and too much density to a busy intersection lacking the infrastructure to support this type of development. There are very few sidewalks, crosswalks, street lights, etc. in this area to keep people safe from the added traffic and density this development would bring.

Neighbors are also very concerned about losing our valuable old growth tree canopy on those lots, which provide a buffer for the neighborhood from the busy intersection and commercial district at Riverside Drive and McGavock. There are roughly 45, mostly large trees ranging from 50-80 feet tall, and these trees also cool the neighborhood, muffle the noise, and clean our air and water from the pollution emitted from the busy streets. They also provide habitat for many species of birds and other wildlife, as well as flood mitigation. The developers of this proposed project are falsely claiming that 85% of the trees are dying. There are maybe three trees that are dying, but still have plenty of life in them.

The other aspect of this plan that people are not happy about is the idea of a motorcycle repair shop and showroom to replace the cultural heart of the community, Fond Object. This is Music City and this neighborhood embodies what our city is all about. Many of our residents are well known musicians or up and coming musicians and artists. We also have many native Nashvillian residents who have lived here for their entire life or have raised families here. There are also new residents, many of whom were displaced from other cities or from other gentrified areas of Nashville due to developments like the one proposed here. These are all of the people that have made this neighborhood unique and special and Fond Object is at the heart of this culture that we are trying to protect. We would love to see Fond Object remain in the retail space and in the house behind where they have backyard concerts. We would love to welcome Mota Moda as tenants of the vacant spaces on McGavock, although we would not welcome motorcycle repair and all the loud motorcycle noise it would bring.

I believe after speaking to most of the surrounding neighbors personally, and after reading their comments on social media, on this petition, and listening to them speak at the community meeting; the majority of our community love our little village and neighborhood feel. They do not want more density at Riverside Village. They want to preserve our music and artistic culture. They want to protect our tree canopy. And they do not want an auto repair business or large apartment complexes so close to their homes and do not think it is at all appropriate for the character of this neighborhood.

Thank you,

Sara Jean Schweitzer

1.	Sara Jean Schweitzer	Nashville, TN	This is important to me because this neighborhood is my home and my sanctuary. My home is the only security I have and this development will put this security at risk. I bought my home in a neighborhood zoned for single-family homes, not huge apartments and motorcycle shops. If this development passes, it will destroy everything I love about this neighborhood.

3.	Ida Santana	Nashville, TN	Riverside Village has a nice neighborhood vibe. It's walkable. It's unique. It has character. Greedy developers want to turn it into a bland generic condo village that's unrecognizable and only for rich boring square people. Gentrification is violence against the Black community who's lived there for generations. As East Nashville's bluegrass singer Gillian Welsh sings in Back In Time- Let's drink a round to Nashville before they tear it down!

8.	Herschel Pollard	Nashville, TN	Infrastructure can't support; traffic issues caused by increase in cars along an already dangerous stretch of road including a proposed driveway along a blind curve; proposal slams 30 apartments into an area of single family homes; too many trees will be lost; loss of neighborhood aesthetic, decrease in property value for all neighbors.

15.	Rachel Davis	Nashville, TN	As a native Nashvillian, I have seen many aspects of Nashville's character change to the detriment of its citizens. Communities have lost their personality and neighborhoods have undergone extreme changes to their racial and class makeup. I know I'm not the only person who feels that despite the financial benefits that developers have been reaping, most of us do not feel that a majority of these changes have been positive. I sign this petition as an effort to express disapproval of overdevelopment and to protect the character of Riverside Village.

80.	Brian Cooksey	Nashville, TN	I like the performances at Fond Object and I definitely don't want the noise that a motorcycle place will bring. Also, our neighborhood has shown that it can't support multiple coffee shops and we already have a good pizza place.

These are all things our neighborhood already has. If this goes through, it will crush the charm and original attraction of Riverside Village. Fond Object is a staple in our community. Knocking it down to rezone and overcrowd an area that already is lacking in parking is such a stupid idea. This rezoning proposition is based on GREED. There are TONS of places that have room to be developed in our town, this is NOT one of them! Follow the money. See where it comes from, they do not care about the neighborhood.</p>

115.	Dakota Jernigan	Nashville, TN	The small record shop Fond Object, Mitchell's Deli, Castrillos, Riverside RX, Dose, Rubies Seafood, all of these places are what make riverside village fun and lively, a neighborhood, and a community. 120.	Barend du Plessis	Nashville, TN	Not only will traffic be a major issue in an already busy intersection, the Kroger, which is already jam packed and struggling to keep up with demand will get even more crazy. Idled my hours away. I walked up and down Riverside with the love of my life. I picked berries off of trees on the way to get coffee and talk and soak in the quietude. I rode my bike thru the village each day on my way to work. I watched her drift away from me. She works at dose now. Still in the village. A distant memory now. The neighborhood already isn't as quiet and homey as it used to be. It will always be changing. But you always want to hang on to the memories. And try to keep it from changing too fast.

From the mouth-watering sandwiches of Mitchell's Deli, to Mule Mondays at the Village Pub, to the unbeatable ceviche at Rudie's this is a tranquil and charming corner is cherished in my heart and the the hearts of many. The centerpiece is Fond Object. 172.	Gina Cash	Nashville, TN	I bought a house in Inglewood several years ago because of the historic charm and quaint yet hip vibe. I feel like what is proposed will overwhelm the area and be a detriment to the neighborhood, not an improvement. It's time to listen to those who live in the areas where proposed changes are being considered and give them as much or more weight as the developers who are changing the face of the community with what seems to be little concern for those they will negatively impact. The destruction of the tree canopy alone should give everyone pause. Metro.gov needs to listen to its citizens. The area's current zoning is there for a reason. Let's leave it as is.

In addition, we have already lost far too many mature trees to development that are not being replaced and cannot be replaced in the same manner. This is not smart development. It's just development and it's disgusting. Keep this kind of development confined to places like Gallatin Road where mature trees and neighborhood character will not be lost.

199.	Tanya Gray	Nashville, TN	<i>(continued from previous page)</i> do not want the character and the landscape destroyed by this type of expansion, growth. I do not approve of the rezoning at this time. The streets are not equip to handle the traffic now and to propose building complexes in the area will only threaten what brings many to the area. the ability to walk, visit, shop and have a conversation with my neighbors and visitors. As you know we are the top AB&B area in Nashville. I am not proud of it, just one of those things I tolerate. I don't think you push so much in on space people will enjoy it. If any thing make it a more walk-able and bike safe community. I have watch many struggle to go to the village from my porch. There are no sidewalks and the cars are not has giving. Let's change that. It's a re-occurrence all around the village community. And you want to add more traffic to this small community and destroy the integrity of it.

The kind of development being proposed is exactly what is destroying the heart and culture of Nashville Neighborhoods. It will not add value to this community and will tear down years of beautiful heritage.
204.	Anson Hohne	Nashville, TN	Change is not necessarily bad, but I don't see how replacing a neighborhood cultural hub like Fond Object with a bunch of repeat apartments does anything except fatten the already swollen pockets of well-powdered developers while pushing long time residents out of the neighborhood. Life without change becomes stagnant and dies. However, I think we should strive for change that positively effects people's lives, instead of making them louder, more congested, and less culturally unique.

It's a collection of small, independently owned businesses that are respectable to their residential neighbors. There are plenty of available commercial locations just down a few blocks on Gallatin Road which is suitable for apartments, the heavy car traffic of a restaurant, and the noise of a mechanic

257.	Micah Mathewson	Nashville, TN	It's easy to see the drastic shifts that every neighborhood in town is undertaking and Riverside village has a distinctly East Nashville feeling. I fear a reassigning of it's characteristics and making it a busy/crowded space would rob this city of an area keeping it from feeling steril.

The infrastructure cannot successfully support this plan and stay a cohesive, walking, family friendly neighborhood. In addition, Fond Object is a collaborative asset to our since of neighborly connectedness. Congested streets with cars parked along them and loud people passing through on weekends are not considerate stakeholders to those of us living here. Don't cookie cut another thriving area into the same template plan spreading across Nashville - including nearby Trinity and Gallatin roads. I LIVE here. I am not a developer. I live here because THIS is the neighborhood I chose. NO, No, No to this change from an actual resident who will be affected in every aspect - going to work, leaving and returning home, landscape aesthetics/noise barriers/environmentally, sleeping/peace of mind evenings and week ends, grocery shopping, walking dogs, parking etc...

There are plenty of empty/struggling commercial spaces already in our neighborhood esp in Inglewood along Gallatin road - those commercial corridors are where we should be helping developers and businesses build. If it were low income housing, or businesses and services we don't already have, then the plan would be helping our neighborhood solve issues might be worthy of an exemption. Dawn Kenney	NASHVILLE, TN	I bought a home in the neighborhood 4/2017 because of the quiet residential nature of the area and proximity to quaint Riverside Village with small coffeehouse and places to eat. This area is just great the way it is, do not REzone it and allow big multiunit buildings bringing more traffic, congestion and pollution to our neighborhood!

292.	Ann Powers	Nashville, TN	In addition to being a core part of the neighborhood, Fond Object is one of the few venues in Nashville to book certain kinds of music, including experimental rock and avant-garde Jazz. As a longtime Music critic I recognize that Nashville's artistic growth will be hindered if alternative spaces like this one are lost. Also, I live very close to Riverside Village and dread what will happen to my daily routine of walking my small dog in the neighborhood of a motorcycle shop moves in.
293.	Zeb Minton	Rancho Santa Margarita, CA	
294.	Bailee Flanagan	Hermitage, TN	Because I love this place.
295.	Laura Klesen	Overland, MO	Because upon revisiting Nashville 2 weeks ago I was saddened to see how much it has changed and feel like it's really losing it's character, becoming overpopulated and running out the people who have lived there for many, many years who ARE Nashville.
296.	Katie Banyay	Madison, TN	
297.	Sam Fuller-Smith	Raleigh, NC	This is exactly the type of thing that's ruining communities across the country. It is nothing but blind greed.
298.	Halea Martin	Nashville, TN	I spend a lot of time in the area-buying coffee at Dose. Shopping at Found Objects. And Eating at Mitchell's Deli. If you take this area away it's only going to loose is beautiful charm.

307.	Stacie Huckeba	Nashville, TN	It's ENOUGH!!!! Stop it. Go to Donelson, I hear that is the new hot neighborhood. East Nashville has already been completely destroyed by over-development to the point that it is almost unrecognizable as it is. - JUST STOP IT!!!!
308.	Cynthia McConnell	Nashville, TN	Because Fond Object. Should be a landmark IMO.
309.	Rebecca Ballinger	Nashville, TN	I live near this neighborhood and it needs to stay more of a neighborhood than a shopping center. It's in the middle of houses. It's not on a Main Street with big grocery stores and drug stores. It needs to stay small like it is because the proposed is just too much for the neighborhood to handle and it way too far off a main busy road to have that much going on right where people live. Thank you.
310.	Katie P	Nashville, TN	Neighborhoods change, and that is something that is a positive thing, but replacing this neighborhood's cultural hub with a bunch of luxury apartments, and a bike shop seems strange and out of touch with what our community wants. We want change that will benefit our neighborhood - not change that will make it louder, more congested and less green. We want more walkability! We want to keep low income artists here - they keep our neighborhood vibrant and unique!

I have always loved the way the city embraces the artistic nature of its people and it would pain me to see the city secumb to generic modernization without proper protection of the artists and caregivers of the community and the investment of time and resources they have put into an area. All the buildings are short and cute and making these huge modern buildings ruin the movement of the neighborhood and the appeal of owning a home in Nashville. Having the small town neighborhood in a big city is a huge reason to by. This would be a mad move for the developers and I honestly would NOT patron the new builds and would encourage others to also do the same.

363.	Jen Gunderman	Nashville, TN	Oh my goodness, a motorcycle repair shop and showroom?! And multiple apartment buildings, and cutting down trees... right there at Riverside Village? It would ruin a quiet, sweet little funky corner that is already far too congested for the neighborhood traffic that comes through there. It's an awful idea. I've lived in this neighborhood for 15 years and can't imagine any of my neighbors being happy about this. We like our quiet in Inglewood!
364.	Evan Sieling	Nashville, TN	Traffic on McGavok and Riverside Drive will be a nightmare.
365.	Shannon Stapleton	Nashville, TN	This is important to me because I live in the area and I feel it is already developed enough. I also feel it will bring more traffic. I also have concerns for the wildlife in the area. The community does not want this and there for it shouldn't happen.

368.	Garry Wood	Nashville, TN	
369.	Candyce Manier	Hendersonville, TN	This little intersection holds a special place in my heart. I usdd to stop at the gas station across the street multiple times a week. It makes the neighbor cozy and homey without so much of the new construction that is around east Nashville. The street in this area is also not designed to hold so many more hundreds of cars. It truely does good with the development now. New apartment buildings would be a total eye sore to this area.
370.	Michael Deurlein	Nashville, TN	
371.	Kevin Calloway	Nashville, TN	This area is already very congested. I frequent several businesses here, and it's already hard enough to park. I have lived nearby since 2005. We need the trees. Riverside Drive has tuned into a nightmare in the last few years, both in the condition of the asphalt and increased traffic. I rarely go to the Walden/Rosepepper anymore due to what it has become—a magnet for people who do not live in the neighborhood. It's a nice idea, but when places get overrun, the charm of individual neighborhoods is lost.
372.	Robert Logue	Hendersonville, TN	I grew up in and lived in this neighborhood for much, if not most, of my life. I owned a business there and still frequent it. I am not against change, but it is disgraceful to ruin the character and organic culture of a historic neighborhood for no good reason other than to enrich developers.
373.	Alyce Dobyns	Nashville, TN	It's my neighborhood and I don't want it to turn into the same mess that Eastland & Porter has turned into - traffic, too many people, not the quiet corner of businesses that the neighbor visits. We want it to STAY the little pocket of delight.

It was glorious being in this little part of town. It felt like a secret. I moved into the neighborhood 5 years ago and I don't want to leave for another part of town. It's quiet, and the community of people we have in this neighborhood is amazing. Other parts of Nashville are changing drastically. Can't we just keep some of the beloved neighborhoods as they are. We have been fortunate to have this asset in our neighborhood, but now, in the name of making money, we are about to lose that asset. We are also about to lose some very special trees, which the developer wants to cut down and turn into wood chips. These trees provide oxygen and fresh air, cast precious shade, and support a wide variety of birds (including at least one owl) as well as countless other animals species. Please don't Las Vegas Nashville!!

If the homeowners in Inglewood wanted this crowded, noisy, and commercialized atmosphere we would've bought property in The Gulch or Downtown. Too much of East Nashville has already lost its authenticity and is littered with garbage like the proposed development. Don't allow our part of this great community to fall victim to reckless investors who give zero ****s about our home. I also echo concerns about traffic and environmental destruction. This is a major change at the busiest locally-owned commercial district in Inglewood. On parcels zoned for single-family houses (RS 7.5), at a corner where it is impossible to widen either street (Riverside Drive or McGavock Pike), we are being asked to accept six apartment buildings, one two-story mixed use building zoned for automobile repair, and a third commercial building. This is not a plan in harmony with the neighborhood.
471.	Rodney Jenkins	Nashville, TN	Community in the area is most important as small businesses have always made the riverside village work. With big developments come bigger issues like increased traffic, crime, and the loss of the small community feel that originally attracted home owners to the area. There is nothing in the neighborhood like the proposed plan for good reasons and if it is not going to respect the existing neighborhood community than it should not be built. After talking with others it is the overall size and heights everyone has an issue with as it does not blend into the community but rather dominates the landscape of it thus disrupting it.

486.	Ed Street	Nash, TN	The greed going on in east Nashville is out of control. I drove an investor to the airport and he was bragging to me that he came here frm Cali got several lots built tall houses then purchased one frm his company for an outrages price resetting the price of all his other homes around it and he was going home to LA richer....he could care less about the community here. This greed needs to be stopped!!!

If we keep tearing down small businesses to put up more identical condos and mixed use spaces, we'll lose the very heart of what makes people want to live here in the first place. As a born and raised Nashvillian, I implore you to stop this development in riverside village.

High rise condo and a "pizza shop" is the antithesis of what makes Riverside village and East Nashville great. The irony of this development is that the developer is willing to destroy the very thing that makes this realestate valuable. Nobody wants this, that's why we picked the Eastside.

571.	Leslie Allen	Nashville, TN	There's literally already a pizza place and a coffee shop in Riverside Village.... Not sure about how much motorcycle traffic the repair shop might generate, but seems like probably a fair amount if that's the intended customer base. I don't know what that translates to...one and hour? 4 an hour? More? No offense to motorcycle riders, but motorcycles are notoriously loud, and having a business in a residential area that is drawing motorcycles specifically to a business adjacent to homes seems like a bad idea. I know when there are motorcycle events across from my business in 5 Points, we can't hear customers ordering while they are coming and going from the parking lot. But that's an infrequent occurrence. I would imagine having a motorcycle-specific business would make that an almost daily reality. Seems like a better fit for a main thoroughfare like Gallatin Road, not a commercial corner in a residential neighborhood. I also have concerns about the continued burdening of residential streets and already tenuous parking options with packing in additional residential density. Our older neighborhood infrastructure was not designed for this. Finally, as a resident of East Nashville for over 15 years, I have watched the very things that contribute to the quirky vibe that made the community a unique and desirable place to live. I'd like to see more efforts at preservation rather than mass "condoization."

With the calm neighborhoods comes so much beautiful wildlife we all consider ourselves lucky to be here. With the development practices seen in and around the community over the past 4 years it's been verified that the developers do not have the best interest of the community in their mind when proposing such plans. Can we not let there be at least one community in our area(Riverwood village/Inglewood) that keeps that charm? Most houses are built pre 60s era and current development practices would be unable to gracefully match the niche of our neighborhood

656.	Jessica Cardinale	Nashville, TN	We live minutes away from this neighborhood. My dear friend of over 20 years founded Fond Object, and passed away last year. This corner is a hub of community, gatherings and activities. This 4 way stop is near many of my friend's houses, and many of my friends work in the shops that surround it. There are few other places that condense such community into one small area and if this is turned into giant new housing, a noisy impersonal motorcycle shop and really anything else it will be ruined. A stain on what was a gathering place. A vapid soulless money making hole with no character, no soul and lots of noise. Don't do it. Don't ruin what is a great thing in the name of greed and development. Those developers won't live there. They don't go spend time gathering there watching local bands and movies together. They don't care about what they might be destroying. Nashville has already destroyed enough of what made it so special to begin with. Careful and no one will want to live here anymore when it's all gone.
657.	Matt Petty	Nashville, TN	New shops in that area don't concern me. There are some vacant buildings ready to be revamped. But it seems like a terrible spot for a motorcycle repair shop, and it's certainly a horrible spot for new apartments. I would very much hate to see Fond Object get run out... that's the heartbeat of Riverside Village.
658.	Jesse Rhew	Nashville, TN	Fond Object is a cultural touchstone for this neighborhood. They want to remove it so we can make way for a "motorcycle themed restaurant"? 674.	Lee Morton	Nashville, TN	Riverside Village is one of the few (and best) slices of nostalgia and individuality that still exists in East Nashville. At its center is Fond Object. This place has contributed so much to the music community in East Nashville that I don't even know where to begin. There's no need for a pizza shop here, as Castrillos is right across the street. A family owned business that has been there for years, not to mention that their pizza is awesome. To do away with Fond Object and build any kind of multilevel housing here would supremely detract from the value of this area, in my eyes, as this is meant to be a quiet, family friendly district with its own brand of quirkiness. I am in favor of more local shops and services joining the community, but a plan to build more housing here is a plan that is not in the best interest of its residents. Please reconsider.

700.	Melissa Mills	NASHVILLE, TN	I live within 5min of Riverside Village. I love it because of its small neighborhood atmosphere and lack of tourist destinations and apartment buildings/condos. It's a safe, comfortable getaway for local residents and people willing a short drive into Inglewood. A lot of my friends play and I attend shows at Fond Object. I would hate Riverside's character to be lost. Small neighborhood destinations are miserably under appreciated by developers/development occupants and have proven nothing other than disappointment.

703.	Amy Elizabeth	Old Hickory, TN	This corner of East Nashville has been an area of fantastic music, food, and community. Though some of the businesses have changed over the years, the one thing that has remained a constant is that they have all been locally owned and run businesses. To remove that to place in more dense housing would not only remove something desperately needed within our town, local businesses, it would take away further what makes Nashville, and particularly East Nashville, so interesting...unique shops and eateries that you cannot find anywhere else in this region. Nashville has become cookie-cutter, plain, sterile, and boring. We need to say NO to rezoning and development of this area. We need to say NO to this unmitigated growth and displacement of Nashvillians and their small businesses. Stop pushing out the reason people move here for...the uniqueness, character, and beautiful native Nashvillians.

732.	Buddy Hughen	Nashville, TN	The proposed development doesn't take the neighborhood into account. This little intersection is already suffering traffic congestion and limited parking! Why not design and build something that will better serve the community in addition to the pocket book of the developer?
734.	Rachel Fautz	Louisville, KY	Louisville is just up the road from Nashville, and I visit multiple times a year. Overwhelming in the last 3-5 years, the city is losing its character. These small local landmarks are being torn down for what? More condos? How many condos do you need? Seems like they're being used as airbnbs rather than actual homes, so why not leave a little history in place, since it's the reason a lot of us still visit Music City.

738.	Tonya Wilburn	Nashville, TN	Traffic and parking is already a nightmare at this trendy yet congested area. Due to the lack of a turning lane at McGavock into Riverside it already creates confusion. Adding an apartment complex will only increase congestion and allow more people to be rude.
739.	Mary Jo Cramb	Nashville, TN	I live in the neighborhood and drive through Riverside village every day. We do not need this development. We definitely do not want the extra traffic. Keep it as it is.
740.	Meghan Ellzey	Nashville, TN	Fond Object is one of the components that makes Riverside Village so special. These plans would disrupt the community, make the surrounding area hard to access, and take away something that adds such genuine, friendly, fun, business to the neighborhood. It's a staple that should stay.
741.	Hannah Hughes	West Olive, MI	My boyfriend and I visit Nashville all the time and I adore this record store. It has to stay!! It's one of my favorite places.

743.	Patricia Owen	Nashville, TN	Too much traffic, ugly buildings, destroying the neighborhood.
744.	Angie Jackson	Nashville, TN	Traffic in that area has become so congested and dangerous. Adding so many more tightly packed living situations in such a tight area would just make this so much worse. And a motorcycle repair shop?!?!? No. So loud!

Please don't make it one more place to mourn in a city that has lost so much of its interesting culture in the past 5 years.

We love what it offers all of the young families moving to the area. Fond Objects is such an awesome fixture in the neighborhood! Keep it quaint. Keep it simple. The residents of Inglewood love it just fine the way that it is. This neighborhood IS NOT ideal for an apartment complex, nor motorcycle cycle repair/showroom. There's a neighborhood another 5 miles north...and Madison would love to have you.

This place is an important part of the the balanced composition of music City. It is completely inappropriate to tear this beloved community space down to build a loud and noisy motorcycle shop and more apartments. No one in this community can even afford to buy what I expect will be custom motor cycles. We love it as it is. Work with us to keep this location a vibrant part of our culture.

800.	Britany Laye	Nashville, TN	I love this area. I've been here for 11 years. The growth happening has already caused a lot if issues and our little road and neighborhood cant take any more stress. The proposed complex is ludacris. Would be stain on our appeal, would cause an increase in traffic issues etc... the neighborhood loves fond object.

803.	Dorothy Daniel	Nashville, TN	I do not want a motorcycle shop in riverside village. I do not want the extra traffic from apartment buildings. I want to preserve the culture and asthetic that Fond Object brings to the neighborhood.
804.	Luke Schneider	Nashville, TN	Fond Object and the backyard events they host are a core amenity to this neighborhood. This business should not be replaced by a pizza shop (there is already one across the street) or a motorcycle shop that will cause disturbances all day, every day. Perhaps the block could use minimal, tasteful development to improve parking and replace empty storefronts. But Fond Object and its backyard should be spared. While affordable density is needed in the neighborhood, this block is the wrong place for apartments. I think that some folks may be exagerrating the current state of traffic on the block--lets get real, its not really a "nightmare"--but it is an issue that will worsen significantly if this development is done hastily and unwisely. The developers should listen to the neighbors and be willing to compromise to their needs. Fond Object should not bulldozed. Period. The Neighborhood does not need another pizza concept, motorcycle repair shop, or apartments on that block. The developers should present a thoughtful, comprehensive plan with those proposals off the table.

835.	Kelvin Sawkill	Leicester, United Kingdom	As a visitor to Nashville I love the unique character of the separate districts. Some development can be helpful and revitalise communities. Too much destroys the individual character and too often results in the cost of living rising and forcing the original residents out. Riverside is lovely and should not be destroyed by the self intetest of developers only inrested in making a fast buck. Retain the vibrant community character and I, and many others who appreciate that will keep coming back. More importantly be true to the community that makes Riverside what it is, don't trample them in the name of progress or profit.

860.	Allison Maus	Nashville, TN	My husband and I moved to Inglewood for it's close knit community and charm. It felt like one of the last true "old neighborhoods" that hadn't been infiltrated with tourist attractions and condos. We love that it is quiet, beautiful, and small. The proximity to Riverside Village was a great perk: convenient to a coffee shop, gas station, neighborhood pub, and a few restaurants. As it is now, it still feels quaint, though increasing traffic and pedestrians already make it difficult to get home in the afternoon. I can't imagine the chaos that new development and apartments/condos would bring. It would destroy the charm that this neighborhood loves, enjoys, and wants to protect. By overtaking this area, developers are destroying the very thing that attracts people to the village. If anything should be done to Riverside Village, restore the existing buildings. Place businesses there that fit well with the current thriving businesses. Have respect for a charming old neighborhood that has worked to keep its community as it is, instead of squeezing as much as one can on a tiny lot for the sake of making more money.

We stay, because we love the character of the neighborhood that's been home to our family for 58 years. This is another step to remove the character that makes quirky RV what it is, replacing it w/ cookie-cutter development, and a redundant pizza shop. Keep Inglewood Funky! The Levittown 2.0 just sucks.

This should be denied.
980.	John Fabke	Nashville, TN	Enough is enough. Keep the character of the neighborhood intact.
981.	Sharon Blanton	Nashville, TN	East Nashville is WAY TO OVERCROWDED! The developers are too greedy. They are trying to put multiple units on every property that they can get their hands on. 984.	Lisa Moore	Ashland City, TN	Because not only does my friend live in this neighborhood, I am from Nashville, and development is ruining this town. People from all over are coming here to tear down our locally revered places (Music Row buildings, etc.), destroy trees, which we need for a number of reasons, and basically cause places to live to become so expensive that they can no longer afford to live in the town in which they were born, which is also why I had to move out of Davidson County. I wish they would go back to where they came, and if they screwed up the place before they decided to come here and do it, just go back there. Thank you.

988. 1,010. Allison Borrell	Murfreesboro, TN	We need to keep local record stores alive! They bring so much to the community in terms of sharing music and acting as a DIY venue. Nashville has plenty of condos — let's not get rid of a local staple for that!
1,011. Hannah Fairlight	Nashville, TN	This is my neighborhood and these places are special to me and many other friends and families! Stop killing Nashville's soul!
1,012. Jen Starsinic	Nashville, TN	This will destroy the local community. It will make money for the developer while not only not helping the local community, but actively harm it. Development should enhance, not destroy, the existing community and way of life in that community.

1,119. Nancy Denning-Martin	Nashville, TN	Our family lives in Inglewood. We opened the East Nashville School of Music in Riverside Village and brought other business owners together to host community events to draw customers and neighbors. Our sixty-plus students were the first regulars at the coffee shop and bookstore. We were part of the new beginning for an area that has become a jewel tucked in a vibrant, residential neighborhood. Riverside Village should never disrupt residents and families. It shouldn't become a commercial monstrosity in the backyards of our neighbors. Please protect what has defined us and drawn people to us--our small town feel in the heart of the city.

This proposed apartment and commercial venture does not fit the neighborhood. Also, building something so large next to established single family homes is cruel to the people who live there and have invested for years in the community. Also, none of the roads can support this type of development.

1,136. Jacob Girardin	Hendersonville, TN	As a small business owner in Riverside Village, the impact on both the neighbors, traffic, and businesses would be very large. Increased traffic density, diminishing charm, and ultimately looking for a profit off the "nashville boom" at the expense of current residents, are not positive outcomes for the Riverside Village community, and Inglewood neighborhood as a whole.

1,323. Becky Warren	East Nashville, TN	This intersection is one of the unique areas that make Nashville Nashville. Places like Fond Object are the reason people opt to move to and visit Nashville because they give the city its unique character and support a vibrant music community which is, of course, a primary component of the city's heart and soul. Replacing this with another development would be tragic. Places that are key to Nashville's character and charm have already been replaced by developments all over town. Enough is enough. The more we lose these places, the less we resemble the city that residents and visitors fell in love with. Let's not be so painfully shortsighted. No one who cares about this city should be willing to lose the tourist dollars and tax revenue we'll lose if we become just another generic city full of apartment complexes and trendy pizza shops.

1,401. Katie Sura	Nashville, TN	
1,402. Andrew Brown	Nashville, TN	We moved into a community of homes. Now we have people that do not live here trying to turn this into a profit zone for them to develop and walk away without consideration of how this impacts the people here. We need many things in Inglewood; more people is not one of them. Multi unit living may be great for the Gulch, but it is not what the people of Inglewood want.
1,403. Tommy Stangroom	Nashville, TN	The relatively quiet, but thriving, current hub that is Riverside Village is not in need of a transformation like much of Main St. and 8th Avenue. This is a walk-able neighborhood center that has, at it's heart I feel, Fond Object. Not only is it a fine record store that many people have put their heart, soul, and life into for many years, but it is an important outdoor space for more marginalized live music that has fewer and fewer places to be seen and heard. To transform this area and re-zone seems like it would lead to a domino effect of developers capitalizing on an opportunity to get their piece of the redeveloped landscape, and drastically alter the lives of current residents around Riverside Village.
1,404. Genevieve Faulkner	Nashville, TN	I live a mile away and have been patronizing Fond Object for 5 years. Not everything needs to be pristine and new. We value the grit and guts and it's why we chose Inglewood over all the flashy other neighborhoods that lack character. Putting more cars and pedestrians onto the newly redesigned left-bike lane along Riverside is also setting this intersection up to be one of the most dangerous ones in East Nashville. There are plenty of places in Hendersonville that would love more chain pizza places. We don't need that here!

1,540. Reed Cavanah	Madison, TN	Residential development is out of control, and this is extra stupid, because it's not even good for the developers: they're bulldozing the very things which make people want to be in the neighborhood in the first place. Beyond that, local businesses provide a place for the wealthier class moving into Nashville to spend their money in a way that ACTUALLY SUPPORTS THE CITY'S WORKERS AND BUSINESS OWNERS . When residential development is allowed to trample our local businesses, Nashvillians get zero benefit from that growth.

1,551. M. Ford	Nashville, TN	Poorly thought out plan, there is zero room for added traffic. Growth is fine if done in a mindful way. There are plenty of places on Gallatin Road that could use a lift. Why mess with a quaint, lovely and symbolic area?

1,585. Tucker Reynolds	Nashville, TN	Fond Object is one of the first places I went to when I came to Nashville. My friends work here, I've played shows here, and I spend all of my time here. One would argue that it's an important part of Nashville's non country music scene. Robbing young adults of the same experience I had when I moved here is putting a halt on progression towards an educated society. We do not need more motorcycle repair shops and garbage that no person with a strict income can afford. 1,656. Emanuel Wall	Nashville, TN	I live DIRECTLY beside the old Bailey and Cato building. I largely work from home for a pharmaceutical company. This intersection is already woefully behind for managing the current traffic flow. Motorcycles are constantly speeding through the area as is. This is before providing a place for them to gather. If you come here on a weekend people park everywhere. On open lots with no parking signs. There are always people driving onto this property to turn around. I mean onto the property. Through the front yard. I moved here from Richmond Virginia and one of the most noticeable differences here is the complete obliteration of the past with little thought for history or how best to carry your history forward. This intersection carries history. And to level for a worthless concept (a motorcycle-themed restaurant) is disconcerting. Let me say that again - a motorcycle-themed restaurant. Surely there are better ways to utilize this portion of a neighborhood with history. I will be directly impacted sure. I live next door to all of this and am already planning on having to rent an office space because I cannot work from home. 1,658. Laura Epling	Nashville, TN	What I cherish about this neighborhood is that it is just that—a neighborhood. Charming, green, close-knit. The plan to develop behind Fond Object is simply unacceptable. It would change the entire landscape of the area we love most.
1,659. Summer Young	Nashville, TN	I moved here because the city had decided to keep the look and feel of this area by creating a Neighborhood Maintenance community plan which is now being threatened by developers. No residential rezoning. No rezoning to an automobile repair shop. Motorcycles are loud, pollute (since they are exempt from emissions testing), and when being tested after maintenance will probably be driven all throughout the neighborhood.
1,660. Elisa Morales	Nashville, TN	Riverside Village is one of the few historic neighborhoods in East that hasn't been completely taken over by developers. The community enjoys this neighborhood because it is just that, a neighborhood. Having multiple residential apartments in an intersection in the middle of an established neighborhood that already experiences congestion and challenges with parking is ridiculous. Not to mention, those who live off of McGavock already have issues with noise. If Riverside Village is rezoned for a motorcycle showroom/repair shop, I can only imagine the increase in pollution and noise. These types of development projects should be limited to areas that can support the traffic.

1,666. N Ellen Schweitzer	Summertown, TN	I like to come to that cute little neighborhood and have coffee, a drink or pizza. I like the feel of the small local neighborhood. It has character. A big development like that would ruin the atmosphere and add a lot more traffic. Let's keep it small and all the big trees that add to the atmosphere.

1,669. Elizabeth Cunningham	Nashville, TN	I love Fond Object. Places like this make East Nashville a community, and great place to live. A new apartment complex will change the personality of East Nashville to be just another bland space that will become outdated in a few years.
1,670. Janice Gordon	Nashville, TN	Parking and traffic will be a huge problem. Surrounding single family homes will lose its friendly neighborhood appeal, Increase is bright light and parking problems

Lots of trees that she love us to view every morning she is a professional gardener all my life I have watch her grow things just by touching It and to see That there is a possibility that it will be taken from her breaks my heart This is our family home a legacy all day at my aunt owns So if there is a beating heart that cares about the legacy of the individual please hear this message stop the development in this neighborhood directly behind my aunties house !!!
1,673. Christopher Eldridge	Nashville, TN	Riverside Village serves as an oasis and central meeting point within the neighborhood. I fear that the proposed development would negatively effect the relaxed character of the community that I and every single neighbor with whom I have spoken cherish.
1,674. Mary Tudor	NASHVILLE, TN	Safety: The "right-in, right-out" plan for access from Riverside will force motorists to make U-turns at Riverside and McGavock if they are headed toward Gallatin Rd. Hi all,

My name is Caroline Buchholz & I reside at 2664 Barclay Drive. Riverside Village is one of my favorite places to go. Whether I'm grabbing a sandwich for lunch at Mitchell's, a quick coffee at Dose or browsing records at Fond Object, Riverside Village has always been an amazing area with even better vibes. It's the neighborhood that everyone wants to be a part of and enjoy. Please do not let developers come in and remove the quaint surroundings that make Riverside Village so special. The high-flying trees, older homes with timeless architecture are a treasure and once someone comes in to build multi-units, it will be lost and gone forever.

Please protect Riverside Village.

Thank you,

Caroline Buchholz

reference case #2017CP-005-003 & #2017SP-013-001

Dear Mr Davis, Ms Grider, Mr Shepard, & planning commissioners & staff people,

Thank you for your time. I have lived in East Nashville for over 14 years and have loved the scrappy attitude and kindnesses of my neighbors. Some of the development I have enjoyed - lovely local coffee shops, bike lanes, restaurants. Some of it is despised - 6 story apartment buildings, the insane traffic, the tourists that overrun my local coffeeshop to the point I can't go on weekends bc it's too crowded. While I am glad for some growth and improvement, the rezoning plan for Riverside Village is very concerning to me. The character of this neighborhood is about size. Traffic and tourists have overrun quiet neighborhoods. The amount of homes on my street is almost doubled. DOUBLED.

Placing six multi story apartment homes in Riverside Village will destroy many local businesses. The very cornerstones of what makes East Nashville what it is. The loss of Fond Object and those businesses will destroy community gatherings and the artistic expressions that have created the heart of East Nashville. Those that live in these tree lined communities will lose their peaceful neighborhood.

A motorcycle shop? Put that on Gallatin - NOT in Riverside Village. NOT near a pub where people gather to talk. NOT directly across from a coffee shop where families and friends gather to talk. NOT where people sit outside Mitchell's and Village Pub to talk.

PLEASE DO NOT REZONE MY NEIGHBORHOOD TO DESTROY WHAT WE CREATED WITH WHAT IS NOT WELCOMED.

Dear ladies and gentlemen...

I wrote this email in frustration, and a friend pointed on this rezoning effort is to maintain Riverside Village and stop it from becoming another 12 South tourist bonanza. My intention is to support maintaining the feel and the heart of East Nashville. I understand the petition was spread knowingly with incorrect and misleading information, which is a huge shame on the part of the author. I'm unable to unsign the petition, but I'm reposting proper information where I've seen it.

Please help us maintain Riverside Village and the community around it, and thank you for your hard work.

To all concerned,

I support the plan and the zoning changes.

I live and own my property 0.6mi away.

I think the trade-offs the developer are offering are fair & reasonable. I believe the plan is appropriate in the spirit of incremental changes to a neighborhood with a growing population. The small increase in car traffic will not endanger anyone or cause a disruption to the neighborhood character. And the additional sidewalks and pedestrian features will actually enhance safety. Lastly I welcome the new restaurant and vintage motorcycle business to my neighborhood.

Planning commissioners,

I am writing to you in opposition to the new zoning in Riverside village. My husband and I, along with others & neighbors feel like the new development proposal will do harm to the neighborhood of Inglewood. We live within blocks from Riverside village. We love the quiet, quaintness and neighborhood feel of Riverside village. We do believe Riverside can be updated but not to the money & greed based developments that is now taking over Nashville. Please rethink the proposal and think of the neighbors and the people who live here. Old timers and people who have lived in this neighborhood for many many years are not getting pushed out because they can not afford living here anymore. Nashville is becoming a sterile environment with no diversity. Inglewood is one of the last neighborhoods that still have the old Nashville feel. Please don't take that away.

I am writing you today as a citizen of Nashville. I wish to express my dissatisfaction for the proposed complex on Riverside and McGavock (reference case #2017CP-005-003 & #2017SP-013-001).

I sincerely believe this development would alter this area for the worse, whitewashing all the local charm and character I am so fond of in this area. It is important to have pockets of East Nashville that remain authentic to the spirit of the neighborhood and the proposed development would drastically alter said spirit.

Considering the vast amount of massive apartment complexes that are available (many of which are empty), I do not see how this development is a necessity in the area. While Nashville is craving affordable housing there are better options available to citizens that would not negatively affect local businesses like this development certainly would.

I write you in the hopes that this email will deter a positive vote.

Hi, I am an Inglewood resident, living off of Janie Ave, about .5 Miles from riverside village. I would love to see these apartments built! As Nashville continues to grow, East Nashville and Inglewood need to follow suit. There are a lot of long time residents upset about the possibility of this building going up, but as a 20-something real estate agent, Nashville native, and Inglewood homeowner, I see the importance of growing areas up into urban communities. Change is scary for Inglewood natives, but I am hoping the rezoning is approved as I believe it will improve our community long term.

I could write a book on why this is a bad idea.

- This should stay single family home residential. Preserve this! It's important.

- The City has approved way to many apartments that are unfilled and have become virtual frat houses with pools being closed due to pets allowed to swim in them feces etc. just ask anyone who lives at the Gossett or some of these other high-rise developments.

- Gallatin and Dickerson Road should have apartments - this makes sense both on a transportation issue and on growing the mixed use areas there. The residential areas should stay - single family home and homeowner centered!!

Dear planning commission and metro council,

I live at 3106 Oxford Street, right behind the proposed development and I very much oppose this zoning change. These plans will severely disrupt the way of life here in the beloved neighborhood of riverside village. I have not spoken with anybody who would like to have these major changes made to the neighborhood that we have all come to love and appreciate about Nashville. We enjoy having a quiet peaceful neighborhood with trees and various other things that make this neighborhood so unique. The noise and traffic which is already bad enough for the neighborhood does not need major development projects like this, which would increase the traffic concerns of the neighborhood 10 fold. I really do hope that you take all of our concerns and worries into serious consideration. This is our home, and these apartment complexes would completely destroy all of the reasons the majority of the people of the neighborhood have chosen to live in this specific area.

Thank you very much.

Zoning Change in Riverside Village.

Hello,

I am writing to express my concerns about the request for zoning change in the Riverside Village neighborhood in East Nashville. I am a resident just around the corner from this proposed development and will be directly affected by it in a negative way. I feel strongly that it is too much density for that corner, and this zoning change will open up the floodgates for further over-development in this neighborhood. I know there are other properties nearby owned by developers who will certainly try to cram as much density as they can into this area, and I do NOT want to see this happen.

I am AGAINST this proposed zoning change.

To whom it may concern:

I am writing specifically to ask that this land not be rezoned and the community plan be maintained. In keeping with the surrounding parcels, the land should remain residential single family home lots at RS7.5 density. Certain homes in the neighborhood have sold north of 400,000 to 600,000 so there is no real argument that the owner of these lots will not make money, but for rezoning.

This issue of the community has already been decided when the neighborhood was designated as T4 neighborhood maintenance. It is one of the reasons I moved into this neighborhood and not others designated as evolving. The community has certain expectations and all I am asking is that the status quo be preserved for all parties involved. This type of density is well suited for Gallatin which is less than 1 mile from this location.

It is fictitious that 900/month for 400 square foot apartment is affordable and will likely have the deleterious consequence of raising the market rent in Inglewood and kicking low income families out of their current home rentals.

I think the developers can do better respecting the neighborhood.

I am writing specifically to ask that this land not be rezoned. I am very much against zoning that would allow an automobile repair and sales shop as it appears in the present plans. This land is very close to single family homes. The developers have said in community meetings it will be a motorcycle repair shop. Motorcycles are exempt from emissions testing and heavily pollute, they are also known noise polluters. When the motorcycles (or future cars) are repaired, they will be tested by driving them throughout the neighborhood. I live very close to the village and I cannot ever support a zoning change that would allow this. Gallatin would be a suitable road to host such an establishment, not the interior of a residential neighborhood.

I think the developers can do better respecting the neighborhood, perhaps a bicycle bar and repair shop.

A zoning change would radically transform our village community to a bustling, unrecognizable area of commerce that would rob us of the control we have over the direction our neighborhood moves. Many of us have friends and family who live in 12th South and hear their consistent complaints of the crowds and beleaguered quality of living among the tourists and traffic. We Inglewood neighbors want to preserve the current community and the existing businesses that greatly improve our quality of life. We demand our voices are heard over the shouts of developers who do not have the greater good of our community at heart.

Please vote against this proposed zoning change.

Hello, I'm a Nashville native and relatively new homeowner on Stratford Ave in Inglewood. I was excited to buy my house in my neighborhood for a number of reasons, including the fact that my home was in a historic overlay, which 1) allowed me to be able to afford the house without getting outbid by developers and 2) preserves the charm and character of the neighborhood. I was also excited to live within walking distance of riverside village. I don't think it's right to expect current neighbors of these proposed changes to accept a 33-unit apartment complex (no matter how tastefully designed) with the promise that the character of their neighborhood will remain in tact by not allowing a four-or-taller story building to replace what is currently fond object. I don't believe their concerns about unsafe, congested roadways are being heard and a new plan needs to be considered that better accounts for those issues.

Thanks!

Subject: Rezoning Request #2017CP-005-003 & #2017SP-013-001

Dear Council Members and Planning Commissioners,

I am writing as a home owner at 1306 Shelton Avenue in the Inglewood neighborhood. I live approximately 1/4 mile from Riverside Village.

I have both concern and support for aspects of the re-zoning and development proposals for Riverside Village.

My support is in favor of a reasonable increase to population density in the immediate commercial area around Riverside Village, especially with the intent to increase availability of AFFORDABLE housing for those with lower income brackets. This is crucial to maintaining a diverse, accessible, and vibrant community that can accommodate students, artists, those looking to grow a new project or venture, and particularly those who have been living in this community and seen their rents steadily rise. As a property owner I am thrilled to see property values rise. But I am also fearful that this rapid growth in home prices is pushing out many people who have been living here longer than I have, and who do not already own their home. This makes it nearly impossible for people such as myself, who came to Nashville to get a PhD and ended up getting married and starting a family, to be able to take on these kinds of life projects given the unaffordability of the housing market. Buying a home, going back to school, and having kids are costly endeavors. However this is a wonderful place to do all of those things and we need to keep them accessible to more people.

My concerns, however, are twofold. The primary one is that with increased population density and the apparent objective to make Riverside Village into a more urban feeling environment, it is essential to build in pedestrian infrastructure. We must be able to walk SAFELY to the establishments in the area to patronize them. It is not rational to expect everyone to drive and park at the restaurants and shops. This misses the value of having a Village center in an otherwise suburban neighborhood, and would be a nightmare once population density increases in this area and parking and traffic become heavier. As it stands it is not possible to safely walk along Riverside Drive to access Riverside Village. Sidewalks must be added at a minimum to Riverside Drive from Greenfield to McGavock. This would connect residents to the shops and restaurants and allow greater enjoyment and patronage.

The more minor concern is the logic of the newly proposed businesses. Another pizza joint is far from what the neighborhood needs (we have a pizza place already at Riverside Village!). I realize that the developers have deals with particular businesses that want to try their hand in the area, but this particular choice seems out of touch. That said, if it does move in then I guess we will see whether the business thrives or not. More community oriented businesses would be my preference, and especially sidewalks so my family can walk safely to them.

Thanks for your time.

Hello,

I am a proud member of Inglewood. I moved here from Texas with my husband and young son three years ago and since, have had two more babies. Finding a place to raise three children under five isn't easy, yet we find comfort in Inglewood. We love our neighborhood walks to Riverside Village and we love that the employees at our favorite places know our names. Riverside Village was a selling point for us when we bought our house. The small town vibe is very comforting.

The new developments being considered will drastically change the feel of our neighborhood. It will become congested and Riverside Village will become overwhelming. We will no longer be able to take walks through our neighborhood because of the congestion. Our friendly neighborhood restaurants will be negatively affected. It sounds like this will set us on a path to become the next 12th South or The Gulch, which are great in their own right, but not somewhere we want to raise our family.

As an Inglewood resident, I ask that you allow Riverside Village to maintain its charm. We don't want big development here and we certainly don't need an apartment complex to cheapen the vibe of our neighborhood. We support small business. The bigger businesses being considered sound nice, but not for Riverside Village. Can't this development happen on Gallatin? The customer-base would be the same and our neighborhood would still remain.

Please consider those affected by this and deny the requested zoning changes.

Kindly,

Greetings,

I own 2 homes in the riverside village area & strongly disagree with the proposed zoning change. Thank you for honoring the wishes of the community by denying the change.

This addition to Inglewood simply satisfies the greed of the property owner and construction company pitching the job. The best possible scenario doesn't involve only maximum financial profitability. 33 units is the maximum allowable on the site, but it doesn't have to be utilized as such. In fact, the value of quality of life doesn't have much to do with profit at all. This is the mantra of east Nashville, and the charm of our neighborhood. We love walking in our neighborhood. Making records in our home studios. Riding bikes with our kids. This land could be used to build several lovely single family dwellings, and make a great profit for the contractor and property owner, moreover satisfying the residents of Inglewood by maintaining a low-key, residential neighborhood. Move this project to Gallatin road!

Hello,

I'm am writing to oppose the proposed new development at the intersection of Riverside Drive & McGavock in Inglewood.

Case #2017CP-005-003

Case #2017SP-013-001

I have been a resident of the Inglewood neighborhood for 13 years (on Ardee ave) and have enjoyed the small business community that has grown up in the area. That being said, I believe the proposed plan for dozens of residences at this intersection will be detrimental to the community in that it will bring major congestion and frustration to an already busy district.

I am a small business owner myself, and while I have enjoyed the benefits of our thriving city, I think it's important to protect the fabric of the individual neighborhoods that make living in Nashville feel special.

Please deny the zoning change that would make this new construction possible.

Thank you for your consideration,

Jessica Reguli

Subject: Cases #2017CP-005-003 & #2017SP-013-001 regarding Riverside Village

My name is Rebecah Boynton and I own a home at 2101 Riverside Dr, Nashville, TN 37216, and I am writing to urge you to vote against the proposed zoning change of Riverside Village from residential to commercial.

A zoning change would radically transform our village community to a bustling, unrecognizable area of commerce that would rob us of the control we have over the direction our neighborhood moves. Many of us have friends and family who live in 12th South and hear their consistent complaints of the crowds and beleaguered quality of living among the tourists and traffic. We Inglewood neighbors want to preserve the current community and the existing businesses that greatly improve our quality of life. We demand our voices are heard over the shouts of developers who do not have the greater good of our community at heart.

Please vote against this proposed zoning change.

Thank you,

Rebecah

Re: 2017CP-005-003
2017SP-013-001

Dear Ms. Grider:

We are writing you today to express our opposition to the above-referenced rezoning and uses proposed for the properties located at and adjacent to the northwest corner of Riverside Drive and McGavock Pike in Inglewood. The plan calls for abandoning the mixed-use zone for the properties fronting McGavock and the residential zone for the properties fronting Riverside, combining them into a specific plan zone retaining most of the commercial buildings as is on McGavock but building 33 apartments of varying sizes on Riverside.

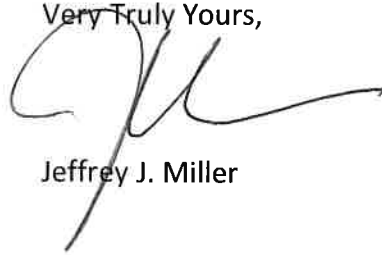

We are not opposed to any and all redevelopment or adaptive use of this location. However, the traffic situation at that intersection is already fraught, so much so, that left-hand turns off of McGavock onto Riverside in either direction is practically impossible, which results because there is no (and can be no) dedicated left turn lane there, traffic backs up and up McGavock. 33 apartments simply add 50+ more cars to an already congested and tight intersection. Moreover, the grass and treed median on Riverside results in anyone who wishes to enter the proposed property (which is 2/3 of the entrances) may only do so on the westside; meaning if one is coming from any direction other than the north, you will have to travel down the eastside about an 1/8 mile to where there is a cut in front of a set of townhomes and then travel back up the westside. In other words, more and more traffic.

Simply put, the infrastructure in the area was designed and built for the small commercial zone at the intersection and the surrounding single-family homes. It barely accommodates that

use today, and is inadequate to support the added burden inherent in the proposed project, which in reviewing the application clearly does not address these infrastructure inadequacies or assess what the added burden will do in the future. For these reasons we are opposed to the rezoning and request the Planning Commission not give it any support.

Very Truly Yours,

RE: Case #2017SP-013-001 (Riverside Village) (2017CP-005-003)

Planning Staff,

I own the property at 3102 Oxford St, but I reside at 1306 10th Ave N. Talking to my immediate neighbors and other neighbors I come to understand the value of preserving the landscape and character of the neighborhood. One of the things that makes this neighborhood is the tree canopy and walkability. The current design proposed does not fall in line with the current design of the neighborhoods and seeks to remove a large area of trees that would definitely change the area.

As a resident of the Germantown area and going back and forth to each property I can understand how neighbors would like to keep the feel of the neighborhood. It's a quieter, more serene feel. Personally, I enjoy the crisp air, cooler temperatures due to the tree canopy and the low density of traffic.

Concerning the actual development, it doesn't fall in line with the neighborhood/community plan that's why they are seeking the amendment. When the neighbors created their neighborhood, subarea plan the purpose of the plan was to set guidelines of what would be conducive to the neighborhood and apartments were not part of the plan. Increased density of this type without addressing infrastructure such as sidewalks would be a disservice to the community.

As a developer myself I understand the plight of Nashville with the increase population and the lack of affordable housing. I am a proponent of density where it fits. In this case the amount of density and designed development doesn't fit the character of the neighbor. That type of design and density fits well in my Germantown Neighborhood, but not here. This area is made up of single-family homes and density based on the creation of more single-family housing would coincide with the neighborhood plan and current zoning.

I'm sure the neighbors feel as I do in that we are willing to work with the developer to have input on a design that meets the developer's needs as well as the community.

Thanks for your continued work to help maintain and create better neighborhoods in Nashville.

Sincerely,

Mark A. Wright

Dear Ms. Grider, Ms. Shepard, Mr. Davis, Nashville Planning Staff, and Planning Commissioners,

I live at 3106 Oxford Street, right behind the residential lots where developers are proposing to build six 3 and 2 story apartment complexes. I am completely against this proposed rezoning and community plan amendment for Riverside Village and the lots on Riverside Dr. I bought into this neighborhood because it was a residential neighborhood with single-family homes. I liked the unique vibe of Riverside Village around the corner surrounded by trees. I liked that it was small and tucked away with independent businesses. I especially liked that this was a neighborhood with an amazing mature tree canopy and full of gardens. It felt almost rural, but still had a few conveniences around the corner. I fell in love with all the trees and nature all around my property. Even though my property is the closest to Riverside Village, I barely notice it because of all the trees and the barrier they provide. It was quiet, private, and dark at night, with sweet smelling air. When I'm outside in my garden I can hear the owls, birds, tree frogs and crickets. This was exactly what I was looking for after years of living in a big city surrounded by apartment buildings, parking lots, noise, asphalt, bright lights, sirens, church bells, traffic, pollution, dumpsters, and loads of stress!

I made the decision to buy this house because it had what I thought I needed to overcome my stress and severe insomnia. I could sleep here. I could relax here and live a healthy, balanced life. I worked very hard as a single parent for 18 years to save up enough money to buy a house and for 3 years, I searched for a neighborhood that had the perfect balance of nature and community and where I could sleep soundly and relax. I found it here, so I spent all of my savings and put everything I had into this house. It needed work, so I've spent the past 3 years investing more money and time into fixing up my house. This house is my security, my sanctuary, and my well being and health. This house is all I have.

If this zoning change is approved and developers are suddenly allowed to build 3 story apartment complexes and motorcycle repair shops right next to my home I will have to leave and I have nowhere to go. I would be devastated. Everything I love about my home and my neighborhood would be destroyed. My home would not sell for what I've put into it with all those trees gone and the whole surrounding area covered in asphalt, buildings, parking lots, roads, and a big dumpster at the back of my yard. The noise, the light and car pollution, the loss of nature and the heat island wouldn't exactly be big selling points either. I wouldn't be able to find another home in a neighborhood like this because prices have gone up. So my investment and this neighborhood would both be in the dumps and I don't even have health insurance. I don't know what I'd do. Just

the thought of this happening has brought on so much stress and insomnia, I've barely been able to breath and my head has been pounding everyday.

It would not be fair to the residents of this neighborhood to change the zoning and our community plan. We have invested in this neighborhood trusting that the set community plan and zoning would prevent this sort of development from happening. We shouldn't suddenly be forced to accept that everything we love about our neighborhood and homes will suddenly be gone and we shouldn't have to make compromises either. Developers also bought into this neighborhood with full knowledge of the zoning laws. They shouldn't expect that the laws should change for them just so they can make more money. They will be destroying the lives and the financial security of the people that are already invested in this neighborhood. Developers should build like they live here. They should build only what zoning permits and no more. If they don't like it, they shouldn't have bought property here. I wouldn't have bought property here if it were the way they are trying to make it and I think 95 percent of the neighbors would feel the same way. I knocked on all the surrounding doors in the neighborhood and no one wants the neighborhood to go in this direction. Everyone wants it to be maintained the way it is, without added density and commercial buildings. Many neighbors didn't even realize that they have a right to say something about this or how the process works and many residents didn't even know this was happening until I told them. Other neighbors who did know what was going on were very angry about it because they want to maintain our community plan and zoning.

To quote a neighbor, "The underling community development plan is Neighborhood Maintenance, the city and council have already considered that the density in this area should be maintained, as is. Just because someone purchased a bunch of land should not exempt them from the development plan. The developers purchased the land with full knowledge of the underlying zoning. We have a process that shouldn't be ignored. The Community Plans as a whole allows "more" to happen in areas that are more appropriate than this one as defined by strategy. One of the reasons these Community Plans were put in place was not to restrict the scale of specific properties, but to protect the entire surrounding area. When you build out a denser area with more mixed-use commercial space, the adjoining properties become the next target. You could pretty quickly see that this hasty decision to defy the plan has guaranteed that the side of the street in question becomes part of the adjoining high-density zone. And when that block is developed from corner to corner the same casual logic will weaken the intent of the plan -- for the next block. I don't see this proposal as an incremental or logical next step. I see it as random disregard for planning. We're championing random, disruptive pockets of growth that are localized while justifying them based on citywide need. Community Plans were part of a structure that enabled us to address citywide need. There are still countless developable areas where we can implement greater density and consolidated commercial space. Peppering them all over the neighborhoods every time a developer finds a couple of adjacent properties create blowback in every neighborhood. In addition, we have an infrastructure crisis in terms of transportation and parking. As we create more and more of these concentrated mini-destinations we make our imagined transportation solution impossibly complex, and we end up needing a parking bureau to cover every neighborhood instead of something that should be contained to the major business districts.

I see this project as haphazard planning. We should first decide if we want to develop this area and then decide how through a community process, as is Metro's purported intention. Instead we're giving lip service to that process. The council rep should be facilitating a process with the entire community to establish a strategy for that neighborhood and that existing mini-district. He shouldn't be facilitating a developer's request to circumvent that process through the back door. Any armchair speculation about whether the request is suitable or needed is beside the point."

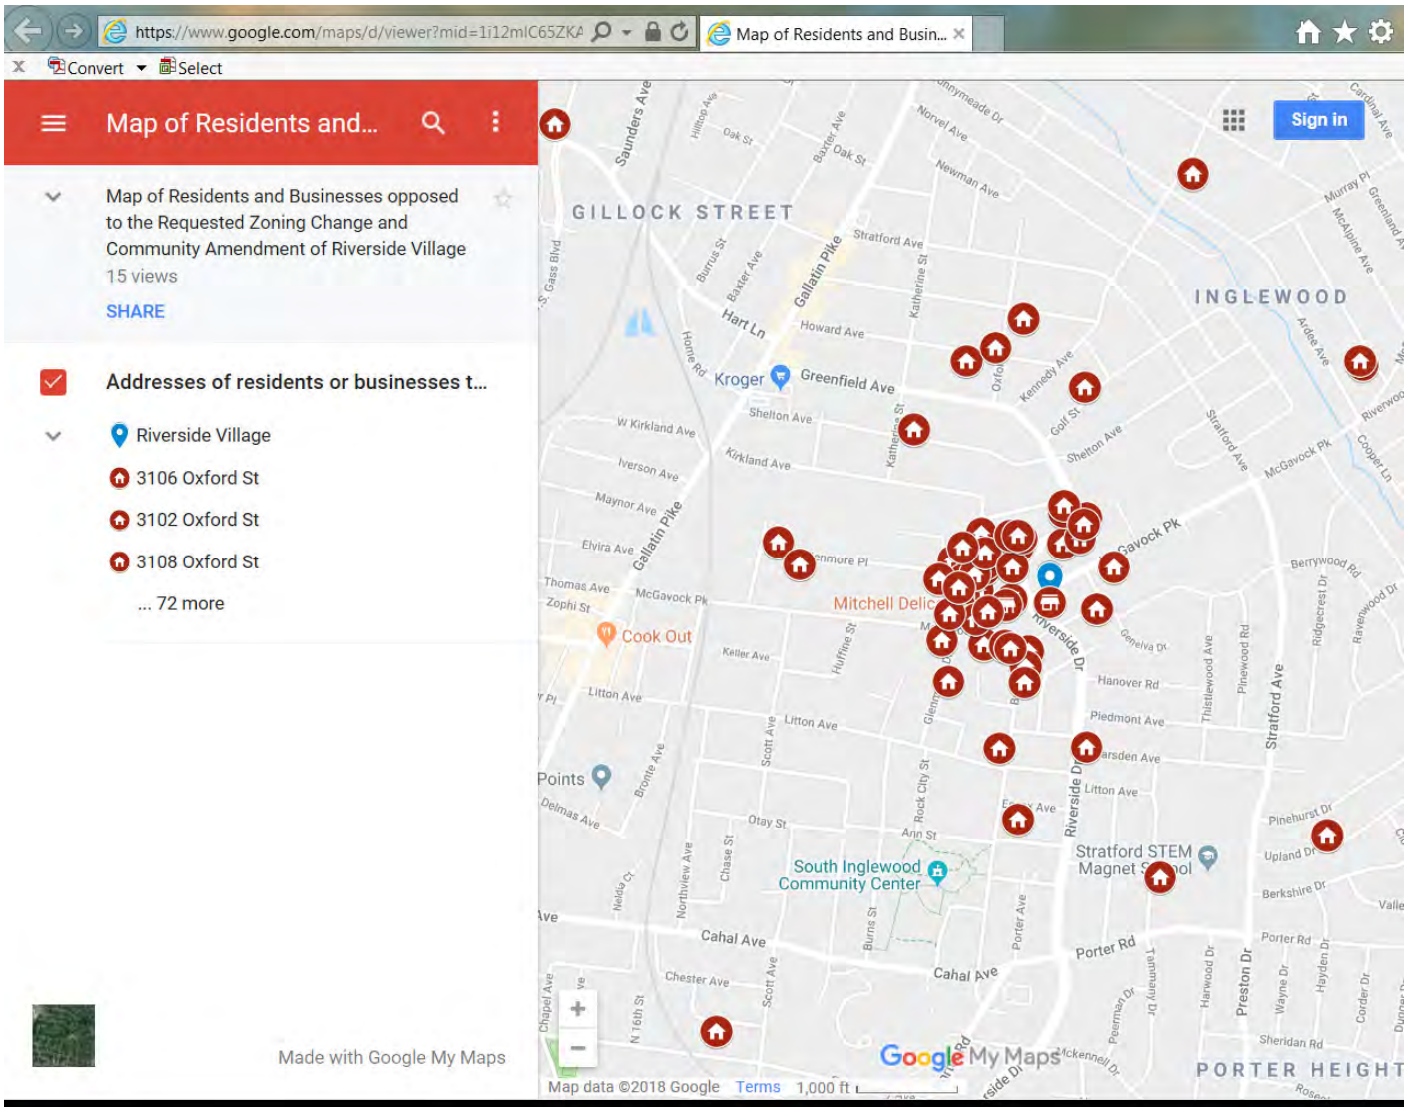

Our representatives should please not approve this zoning change request or community plan amendment so we can trust that whatever the Blooms do with the heart of our community will be cohesive, appropriate, and respectful to the neighborhood, the other businesses, and the lives of the people living right next door. We should be able to trust that buying a home in Nashville neighborhoods will be a good investment. We shouldn't have to worry that our homes or the neighborhoods that we've invested in will suddenly be changed so drastically that they become something that we would have never invested in in the first place, or even worse, that we would be completely robbed of our investment because the change would be as bad as the one proposed here. If this zoning change passes, I will be displaced along with my elderly neighbor Anita who lives next door.

I am attaching a map of addresses that people have given me to show that they are opposed to the zoning change of Riverside Village and the Riverside Dr. properties. Homes and businesses that are opposed are noted as a red house or red storefront.

Most of these people I visited and spoke to directly, others emailed me and asked to be put on the map. I have their signatures or email addresses and I will continue to add to the map as I meet people.

Thank you,

Re: 2017CP-005-003

2017SP-013-001

Dear Ms. Grider, Ms. Shepard, Mr. Davis, Planning Staff, Planning Commissioners,

I have transcribed the following letter for my elderly neighbor who lives next door to me and right behind the proposed apartment complexes. Her name is Ms. M. Anita Brandon and she's lived in her house for about 45 years. She doesn't have a computer, so I'm emailing this letter for her. Anita lives alone and is in the final years of her life. She is an avid gardener and loves nature. She can't afford air conditioning, so she relies on the trees on those lots to keep her cool in the summer. The trees, her garden, the surrounding nature, and walks through the neighborhood are what keep her alive. The loss of trees and the added noise, pollution, and cars as a result of this development would be devastating for her in these final years of life. Developers have been like parasites at her door trying to buy her property. Apparently, according the outlined map of the three lots on Riverside that they are trying to change the zoning for, they would be cutting into Anita's property claiming her land from her shed to her fence line.

Here is what she had to say to me about this proposed development in her exact words:

"They want to put high rises behind my house. I said, I don't want that behind my house, we don't need it. It will screw our whole lives up! I feel that it is not right and it's too close up on my house for them to be putting apartments back there. They need to go further some place else, and put them down there! We don't need that kind of crap here. Something has got to be done about this. People in the neighborhood have got to come together and do something. The state needs to do something about the way these people are doing these things. They can't just come in here tearing my fence down and building their roads and apartments back there.

I love these trees. These trees are the love of mine. I enjoy the trees when I come out and work in my garden. They keep the sun off of you while you while you're working in your garden. And that's going to be like that forever because if enough people get together and tell them what they want done with their property, because this is my property. This is your property. I don't want the trees cut down.

*I told them they can't build apartments, roads, and parking lots behind my house. They know they can't do that, but you have to stick on their ass all the time. I'll tell you, if everybody get together and everybody have put in something that they want to get involved in, that would stop that s**t. This is a hardship. I don't think they have the right to cut into my property.*

The white people want to come in here and tell us what to do and take our houses and be through with it, but I'm not gonna let em do it! White folks are trying to run the black folks outa here and they don't really give a damn. I think that people need to get together, those that live on this property like I do; I think we all should get together and we can do something about this.

*They don't want us to have anything. They want to set it up so they can cut all the trees down and put up apartments and then you got to pay tax on that. I'm not! They're horrible people I'll tell you that. Them developers are horrible people. All this s**t they've been talking about doing, and this has been since way back. I told them then, I said, " why do you think you've got to have all this property around here? Go get you some property from somewhere else." They've tried to do this two years ago and couldn't get it done.*

I know I can be hellish and act crazy sometime, but you've got to be or these people will take advantage of you!"

Please Vote No to the proposed Zoning change for Riverside Village.

I live in the neighborhood & pass through this intersection every time I go anywhere... I cannot imagine adding 33 apartment units to that corner & it not have an affect on the traffic congestion... adding new businesses to that corner ~ where are all these people going to park? I doubt seriously they will all be taking the bus ~ walking or using the little scooter things...

We are a quaint, quiet little pocket neighborhood that is slowly transiting with renovated properties ~ fortunately we have missed most of the tall skinnies ~ except for the ugly ones across the street from me!

I hope you will seriously consider Voting NO to the Apartments ~ that will most likely get converted to AirBNB's...

Thank you for your time & consideration of my position of this matter...

I look forward to your response...

Dear Ms. Grider, Ms. Shepard, Mr. Davis, Nashville Planning Staff, Planning Commissioners, and Mayor Briley's office staff,

Thank you all for everything you do for our city to make it special, unique, and safe.

I am writing to submit my neighborhood's updated petition attached below with 1,674 signatures against the proposed rezoning and community plan amendment for Riverside Village. I would like you all to please consider how the people of our community feel and ask that you, as our representatives, please make decisions that support what we are asking of you. We are asking that you not approve this requested zoning change or amend our community plan.

To quote a neighbor, "The underlying community development plan is Neighborhood Maintenance, the city and council have already considered that the density in this area should be maintained, as is. Just because someone purchased a bunch of land should not exempt them from the development plan. The developers purchased the land with full knowledge of the underlying residential zoning. Community Plans were part of a structure that enabled us to address citywide need. There are still countless developable areas where we can implement greater density and consolidated commercial space. Peppering them all over the neighborhoods every time a developer finds a couple of adjacent properties create blowback in every neighborhood. He shouldn't be facilitating a developer's request to circumvent that process through the back door. Any armchair speculation about whether the request is suitable or needed is beside the point."

So far, our petition has gotten the support of 1,674 people in just a couple of weeks and was written about in the Tennessean, The Scene, as well as other papers. There are many discussions going on throughout social media about this proposed development and the vast majority of residents here do not want our zoning to change or the proposed 6 large 3 and 2 story apartment complexes on the corner of the busy and dangerous intersection of Riverside Dr. and McGavock Pike. These apartment complexes would be built right up against a historic overlay and a little neighborhood community zoned only for

single-family homes, adding an influx of cars and density to an already busy intersection in a neighborhood lacking the infrastructure to support this type of development. There are not enough sidewalks, crosswalks, streetlights, parking spots, safety signage, etc. in this area to keep people safe from the added traffic and density this development would bring. There are also many blind bends without sidewalks all around Riverside Village, including on Riverside Dr. where the apartments would be built and Maxey Lane, to name a couple. There is also a train crossing on McGavock leading to Riverside Village, which blocks the flow of traffic. If there have been any traffic studies in the past several months, they would not be accurate and should not be considered for this plan. There has been ongoing construction and detours on Riverside Dr. and McGavock will be closed near the train crossing for construction.

The developers are falsely claiming that these apartment units are affordable. \$900 for a 400 square foot unit is not affordable and will increase the rental market prices in the neighborhood, rather than decrease them. The residential lots on Riverside Dr. need to stay residential, period. No apartments, no changes in the underlying community plan. No increased density. No automobile repair shop.

We are very concerned about losing our valuable old growth tree canopy on those lots, which provide a buffer for the neighborhood from the busy intersection and commercial district at Riverside Drive and McGavock. Mayor Briley just launched the Root Nashville campaign to increase the city's tree canopy and create a more equitable distribution of the health and sustainability benefits of urban trees across all neighborhoods. Briley recently said, "This campaign will help clean the air we breathe and the water we drink, improving our health, mitigating flooding and extreme heat, and delivering economic benefits for the city," "Trees make your life better and healthier, as science has demonstrated again and again," said Sen. Frist, founder and chairman of NashvilleHealth and chairman of the Root Nashville Advisory Board. "We know that the immediate environment has a huge impact on Nashvillians' health outcomes, and this collaborative campaign puts a clear strategy in place to make a difference. The early focus on Impact Neighborhoods will bring the promise of improved quality of life and wellbeing to local residents."

There are roughly 45-50, mostly large trees ranging from 50-80 feet tall on the Riverside Dr. lots. Let's save the old growth trees that we have and not let developers cut them down. In addition to the benefits our Mayor points out, these trees also buffer the noise from the busy streets, they provide emotional well being, lower incidences of violence, and they provide habitat for many species of birds and other wildlife. The developers of this proposed project are falsely claiming that 85% of the trees are dying. There are maybe three trees that are dying, but still have plenty of life in them. This development would also destroy a natural spring that runs through this area and all the runoff from the asphalt and cars will pollute the neighbor's gardens next door, which provide food for our tables.

The other part of this plan that residents are not happy about is the motorcycle repair shop/ showroom that would replace the cultural heart of the community, Fond Object. This is Music City and this neighborhood embodies what our city is all about. Many of our residents are well know musicians or up and coming musicians and artists. We also have many native Nashvillian residents who have lived here for their entire life or have raised families here. There are also new residents, many of whom were displaced from other cities or from other gentrified areas of Nashville due to developments like the one proposed here. These are all of the people that have made this neighborhood unique and special and Fond Object is at the heart of this culture that we are trying to protect. We would not welcome motorcycle repair and all the loud motorcycle noise it would bring. Automobile repair zoning = noise and air pollution, period. Not appropriate being so close to homes. Motorcycles are exempt from emissions testing and are permitted to put out more pollution than cars. Also, where do you think they will test the bikes? Around the neighborhood!

I believe after speaking to most of the surrounding neighbors personally, and after reading their comments on social media, on this petition, and listening to them speak at the community meeting; the vast majority of our community love our little village and neighborhood feel and we want to keep it small. We don't want more density or the commercialization of Riverside Village. We want to preserve our music and artistic culture. We want to protect our tree canopy. We don't want an auto repair business or large apartment complexes so close to our homes and do not think it is at all appropriate for the character or the future of this neighborhood.

Our representatives should please not approve this zoning change request or community plan amendment so we can trust that whatever happens to the heart of our community will be cohesive, appropriate, and respectful to the neighborhood, the other businesses, and the lives of the people living right next door.

Thank you,

Urgent! Protect Riverside Village's Neighborhood Character & Sense of Community From Over Development

<https://www.thepetitionsite.com/191/985/074/urgent-protect-riverside-villages-neighborhood-character-from-over-development/>

Author: Sara Jean Schweitzer

Recipient: Anthony Davis, Shawn Shepard, Anna Grider, Nashville Planning Commission, Mayor Briley, Jim Shulman

Petition:

Developers are at it again, hoping we won't notice or speak out this time. **Please attend the public hearing 10/25 and the community meeting 10/22 they don't want you to know about & email concerns to city representatives below by 10/15!** They are again proposing to rezone and change our community plan so they can cut down a bunch of mature trees, build a massive apartment complex with six 2 & 3 story buildings packed with cars and parking lots, and replace our beloved Fond Object with a loud motorcycle repair shop/showroom, pizza restaurant, and more parking lots right in the heart of Riverside Village.

Historic Inglewood's Riverside Village is a distinct community of single-family homes with a rich canopy of mature trees, gardens, and the historic memorial Riverside Drive. This community is also home to a culture of music and art. The special character and feel of our neighborhood should be protected from this kind of large scale, intrusive development. Such a project would bring too much traffic, congestion, and noise to the neighborhood. This added congestion would add to the already dangerous busy streets that have many cyclists and pedestrians with strollers sharing the roads that have no sidewalks.

As residents of East Nashville and Riverside Village, we need to prevent this sort of development from ruining our sense of community, our safety, and our livelihood.

The developer's plan includes:

SIX 2 AND 3 STORY APARTMENT BUILDINGS WITH 33 UNITS, an amenities building, several parking lots, dumpsters, walkways, driveways, and bright lights right up against the surrounding neighbor's property lines and yards, who all live in single-family homes. All these cars would be entering, exiting, and making U-turns through Riverside Drive, an already very busy and dangerous intersection with 2 one-way lanes divided by a grassy median and cherry trees. The sketched plan shows that the majority of the lots would be covered with buildings, cars, and asphalt with very little or no buffer for neighbors. This means that almost all of the 40+

1.	Sara Jean Schweitzer	Nashville, TN	This is important to me because this neighborhood is my home and my sanctuary. My home is the only security I have and this development will put this security at risk. I bought my home in a neighborhood zoned for single-family homes, not huge apartments and motorcycle shops. If this development passes, it will destroy everything I love about this neighborhood.
2.	Lucas Schweitzer	Nashville, TN	I live very close
3.	Ida Santana	Nashville, TN	Riverside Village has a nice neighborhood vibe. It's walkable. It's unique. It has character. Greedy developers want to turn it into a bland generic condo village that's unrecognizable and only for rich boring square people. Gentrification is violence against the Black community who's lived there for generations. As East Nashville's bluegrass singer Gillian Welsh sings in Back In Time- Let's drink a round to Nashville before they tear it down!
4.	Jenny Albin	Nashville, TN	
5.	Kristi Dunning	Nashville, TN	
6.	Roger Sherman	Nashville, TN	
7.	Autumn Moore	Nashville, TN	We love Nashville and love the growth it is experiencing, but we also value the diversity of neighborhoods. I frequent several of the cafes in riverside and enjoy walking around, the resining and development is not an asset to this location.
8.	Herschel Pollard	Nashville, TN	Infrastructure can't support; traffic issues caused by increase in cars along an already dangerous stretch of road including a proposed driveway along a blind curve; proposal slams 30 apartments into an area of single family homes; too many trees will be lost; loss of neighborhood aesthetic, decrease in property value for all neighbors.
9.	Apostle Kontos	Athens, Greece	
10.	Tommy Wilson	Nashville, TN	I live right next door to this proposed apartment complex. The traffic and the noise will be very stressful for my mom's heart condition and will trigger my asthma. We have lived here for 46 years. We moved here because it was safe, quiet, and there were no apartment buildings. This area is not zoned for anything except single dwelling homes.
12.	Ronald Rice	Nashville, TN	
13.	Jeff Smith	Nashville, TN	Riverside Village is great just as it is and it will not be the same with big retail.

15.	Rachel Davis	Nashville, TN	As a native Nashvillian, I have seen many aspects of Nashville's character change to the detriment of its citizens. Communities have lost their personality and neighborhoods have undergone extreme changes to their racial and class makeup. I know I'm not the only person who feels that despite the financial benefits that developers have been reaping, most of us do not feel that a majority of these changes have been positive. I sign this petition as an effort to express disapproval of overdevelopment and to protect the character of Riverside Village.
16.	Kiley Wells	Nashville, TN	
17.	Jessica Arnold	Nashville, TN	
18.	Emma Berkey	Nashville, TN	This is my work neighborhood and artist/music hood. I don't want to see it run out the creatives and small businesses I work for and know and love.
19.	Susan Bauer Lee	Knoxville, TN	Fond Object is an important part of the community. It's a great store and a great place to play. We walked around the neighborhood before our show and it has an amazing vibe. Please don't ruin it.
20.	William Raney	Nashville, TN	Character>development.
21.	Christopher Moll	Nashville, TN	Because this is the beauty and charm of the neighborhood.

24.	Carson Dover	Savannah, GA	
25.	Stephen Bain	Nashville, TN	
26.	Josue B	Madison, TN	
27.	Kelli Cyr	Nashville, TN	
28.	Chris Davis	Nashville, TN	
29.	James Bergin	Nashville, TN	I love Riverside Village exactly for what it is. It is why I just bought a house here. Don't tear away one of the few sanctuaries left in Nashville.
30.	Connor Weaver	Nashville, TN	
31.	Nathaniel Schowengerdt	McPherson, KS	
32.	Imad Ottallah	nashville, TN	
33.	Danielle Cormier	Nashville, TN	Riverside Village is one of my favorite neighborhoods in Nashville. It's a little hidden gem that holds a charm you don't see much of anymore in this city. Building something like this would completely change that.
34.	Cheri Dodson	Evensville, TN	I was visiting from out of town and happened upon Fond Object and this neighborhood. I fell in love immediately with the area. Please don't destroy this wonderful Nashville gem and its people.
35.	Michael Teaney	Nashville, TN	This would create too much traffic on an already congested street.

36.	Onika Lowrey	Nashville, TN	Let's keep our neighborhoods filled with local shops & no corporate developments!
37.	Emily Openshaw	Nashville, TN	Because we need to protect Fond Object.
38.	Ana Bergin	Nashville, TN	To avoid heavy traffic. To avoid the trees being cut.
39.	Bonney Beleznay	Glendale, AZ	I used to live in this neighborhood and you dont need to overpopulate it with overurbanizing an area and losing its culture
40.	Ryon Westover	Nashville, TN	
41.	Danny Strimer	Nashville, TN	The Fond Object and associated backyard is a very important cultural asset. It MAKES the area unique and is an important reason why folks come that area. Save it now! Important cultural icon!
42.	Anna Schweitzer	Summertown, TN	
43.	Davey Bartholdson	Nashville, TN	
44.	Andre Lascoutx	Nashville, TN	I live in Riverside Village and would really be upset to see a parking lot, multiple condo units, and to lose one of the best gathering places in East Nashville- Fond opbject. Not to mention the additional traffic and a bike shop!? Driving & commuting in this area is dangerous enough already without the additional traffic and motorcycles this zoning/building would bring.
45.	Ben Rice	Hermitage, TN	Fond Object is a large part of the Nashville Avant Garde scene and I would hate to see something creative and unique replaced with another parking lot or condo building.
46.	Katie Blomarz	Nashville, TN	
47.	Jayve Montgomery	Nashville, TN	Because development shouldn't displace culture. Power to the People.
48.	Melina Sierra	Nashville, TN	
49.	Robyn Robichaud	Nashville, TN	gentrification sux
50.	Charlotte Binkley	Nashville, TN	I moved here to be away from much commercial businesses. Would like for my neighborhood to remain a community to raise children and neighborhood schools.
51.	Eva Gaskin	Nashville, TN	
52.	Nicholas Petersen	Nashville, TN	
53.	Abbye Law	Nashville, TN	
54.	Judi Sachs	Nashville, TN	I am against the motorcycle shop and the apartment buildings. I would appreciate it if Fond Object would hold down the music to a more reasonable level.
55.	Dipti Vaidya	Nashville, TN	Im a homeowner several blocks from Riverside Village & I strongly support keeping this area low density to support liveability & community.

57.	Marcus Sisk	Nashville, TN	I love fond object and the Riverside village area.
58.	Joel Russell	Nashville, TN	This is right down the road from me. I frequent this area. As a community we ought not replace that which makes the area desirable. This area could benefit from additional small businesses, but big business developers will soon find themselves lacking the community they're hoping to draw if they strip out the heart.
59.	Roy Baldwin	Nashville, TN	I am against overdevelopment in any neighborhood
60.	Haley Holden	Nashville, TN	
61.	ben worsham	MADISON, TN	Lived here since 1996. There has been some good changes and some bad. This bs will fail and will kill a vibrant culture that is already here because some asshole wants more money. Please go away.
62.	Alec O'Connell	Nashville, TN	Fond object is an important space for musicians to perform at
63.	Gérard Retailleau	Cholet, France	
64.	Elijah Tidwell	Nashville, TN	It's one of the best record stores and my favorite of all right now
65.	Austin Sisk	Nashville, TN	I think we should preserve the reason we were drawn to this area. The culture and art is a result of what it Riverside Village represents.
66.	Tyler Glaser	Nashville, TN	Record stores are the heart of a lot of neighborhoods
67.	Mattie Bush	Nashville, TN	
68.	Vicki Holden	Alabaster, AL	
69.	Michael Bibbs	Nashville, TN	
70.	Ben Parks	Nashville, TN	
71.	Debbie Robichaud	Pleasant view, TN	This is a quiet, walkable neighborhood. Too many mature trees being cut down and not replaced. This is the wrong location for this construction project.

78.	Ariel Happe	Nashville, TN	
79.	Blake Patterson	Nashville, TN	Fond object is a crucial DIY aspect of Nashville music scene!
80.	Brian Cooksey	Nashville, TN	I like the performances at Fond Object and I definitely don't want the noise that a motorcycle place will bring. Also, our neighborhood has shown that it can't support multiple coffee shops and we already have a good pizza place.

85.	Sam West	Nashville, TN	This development does not support the community
86.	Michael Yarbrough	Nashville, TN	Whose freakin idea was this???!!!!!! Obviously keep the motorcycle parade on Gallatin!
87.	Adrian Bahan	Nashville, TN	It's this max scale mentality of developers that make me like our city less and less. They already stripped Austin of the character and vibe that made it an amazing place to live. Austin's gone, Nashville's next.

110.	Blair White	Nashville, TN	<p>We do NOT need more apartment buildings. We do NOT need ANOTHER pizza spot. We do NOT need ANOTHER motorcycle repair shop. These are all things our neighborhood already has. If this goes through, it will crush the charm and original attraction of Riverside Village. Fond Object is a staple in our community. Knocking it down to rezone and overcrowd an area that already is lacking in parking is such a stupid idea. This rezoning proposition is based on GREED. There are TONS of places that have room to be developed in our town, this is NOT one of them! Follow the money. See where it comes from, they do not care about the neighborhood.</p>
111.	Gil Costello	Nashville, TN	
112.	Ryan Johnson	Nashville, TN	Gentrification is a crime.
113.	John DiGirolamo	Nashville, TN	
114.	Jesse Baker	Nashville, TN	The developer and collaborator is ownership of Barista Parlor. Continuous snout-nosed gentrification that is unnecessary and stands to ruin a thriving community
115.	Dakota Jernigan	Nashville, TN	The small record shop Fond Object, Mitchell's Deli, Castrillos, Riverside RX, Dose, Rubies Seafood, all of these places are what make riverside village fun and lively, a neighborhood, and a community. Save the condos for downtown where they belong, keep Inglewood charming.
116.	Kari Ames	Madison, TN	
117.	Jason Denton	Nashville, TN	I used to live in this area and I care about keeping it historic East Nashville.
118.	Carrie Fanning	Nashville, TN	I live in the neighborhood
119.	Zachary Peickert	Nashville, TN	I've watched all of my local haunts and old dive bars get overtaken by new development. I want Nashville to retain its unique identity, instead of turning into a over-branded cartoon of itself.
120.	Barend du Plessis	Nashville, TN	Not only will traffic be a major issue in an already busy intersection, the Kroger, which is already jam packed and struggling to keep up with demand will get even more crazy. But just as important, we will lose what we love about Riverside Village, supporting local artists and business
121.	Maddie Taff	Bell Buckle, TN	
122.	Amber Davis	Nashville, TN	I attend a lot of shows at Fond Object and eat at the various places nearby. This place means more to our community than more apartments that will never be filled and will be way over priced. This place should maintain because it's really important to our culture of East Nashville.

141.	Jessey Clark	Nashville, TN	I have lived in this neighborhood for two years now. I love it with my heart. It's a part of this ever-growing city that has maintained its original culture and is full of vibrant trees and plants. It's one of the few areas in the city where you actually have a back yard. I would hate to see the area become swallowed up with trendy condos and more pizza (as if we needed more).

152.	Zack Hutchinson	Nashville, TN	When I first moved to east Nashville I lived near riverside village. An uncertain time in my life. I read books in the courtyard where sip cafe used to be. Idled my hours away. I walked up and down Riverside with the love of my life. I picked berries off of trees on the way to get coffee and talk and soak in the quietude. I rode my bike thru the village each day on my way to work. I watched her drift away from me. She works at dose now. Still in the village. A distant memory now. The neighborhood already isn't as quiet and homey as it used to be. It will always be changing. But you always want to hang on to the memories. And try to keep it from changing too fast.
153.	Abbey Lillie	Nashville, TN	
154.	Robbie Crowell	Nashville, TN	Fond Object is such a crucial part of the community here, and what has been proposed is a quick way to ruin Riverside Village.
155.	Josh Shearon	Nashville, TN	Grew up in south Inglewood and would love to preserve a commerced based building to existing alongside new developements in the area, rather than tearing it down entirely. Culturally the store also contributes a great deal of positive output for the community. Both the old community and the type of community that will attract new citizens to it.

165.	Jameson Cunningham	Nashville, TN	Riverside Village is one of my favorite spots in East Nashville. From the mouth-watering sandwiches of Mitchell's Deli, to Mule Mondays at the Village Pub, to the unbeatable ceviche at Rudie's this is a tranquil and charming corner is cherished in my heart and the the hearts of many. The centerpiece is Fond Object. Whether you're digging in the crates for an obscure record, trying on some hip vintage swag, or rocking out to their many killer backyard shows, Fond Object East is sacred. It would be an abomination to remove it from that corner.

171.	brigid ochshorn	Nashville, TN	save local shops and restaurants! keep that neighborhood quiet and peaceful like it is right now!
172.	Gina Cash	Nashville, TN	I bought a house in Inglewood several years ago because of the historic charm and quaint yet hip vibe. I feel like what is proposed will overwhelm the area and be a detriment to the neighborhood, not an improvement. It's time to listen to those who live in the areas where proposed changes are being considered and give them as much or more weight as the developers who are changing the face of the community with what seems to be little concern for those they will negatively impact. The destruction of the tree canopy alone should give everyone pause. Metro.gov needs to listen to its citizens. The area's current zoning is there for a reason. Let's leave it as is.
173.	Mirthe Bolhuis	Nashville, TN	This is right in my neighborhood! I love Riverside Village, and it would be such a shame to change it into apartment buildings and parking lots.
174.	Jenna Dail	Springfield, MO	
175.	Brandi Prewitt	Nashville, TN	Fond Object is one of the best things about Nashville and the neighborhood will not be the same without it. In addition, we have already lost far too many mature trees to development that are not being replaced and cannot be replaced in the same manner. This is not smart development. It's just development and it's disgusting. Keep this kind of development confined to places like Gallatin Road where mature trees and neighborhood character will not be lost.

199.	Tanya Gray	Nashville, TN	<i>(continued from previous page)</i> do not want the character and the landscape destroyed by this type of expansion, growth. I do not approve of the rezoning at this time. The streets are not equip to handle the traffic now and to propose building complexes in the area will only threaten what brings many to the area. the ability to walk, visit, shop and have a conversation with my neighbors and visitors. As you know we are the top AB&B area in Nashville. I am not proud of it, just one of those things I tolerate. I don't think you push so much in on space people will enjoy it. If any thing make it a more walk-able and bike safe community. I have watch many struggle to go to the village from my porch. There are no sidewalks and the cars are not has giving. Let's change that. It's a re-occurrence all around the village community. And you want to add more traffic to this small community and destroy the integrity of it.
200.	Chris Schneider	Nashville, TN	that particular corner of Inglewood is unique and should be protected.
201.	Bel Stuart	Nashvill, TN	This neighborhood already has character and hosts a ton of great music for all ages at local venue Fond Object. Other local businesses will suffer from this as well- businesses we already love and support regularly. It's primarily a residential neighborhood and will not be able to handle the traffic of the proposed development. We DO NOT want this!!!!
202.	Anna Schowe	Nashville, TN	
203.	William Mikkelson	Nashville, TN	I used to live on Golf street and Riverside Village is such a wonderful little community that brought me so much life. The kind of development being proposed is exactly what is destroying the heart and culture of Nashville Neighborhoods. It will not add value to this community and will tear down years of beautiful heritage.
204.	Anson Hohne	Nashville, TN	Change is not necessarily bad, but I don't see how replacing a neighborhood cultural hub like Fond Object with a bunch of repeat apartments does anything except fatten the already swollen pockets of well-powdered developers while pushing long time residents out of the neighborhood. Life without change becomes stagnant and dies. However, I think we should strive for change that positively effects people's lives, instead of making them louder, more congested, and less culturally unique.
205.	Fletcher Gray	Nashville,Tn, TN	I love my community. I don't plan to move and I worry about the safety of my family with so much traffic. It is a quiet neighborhood for the most part in spite of the Village crowd. I would like it to stay that way.

213.	Megan Palmer	Nashville, TN	I am a regular at all of these businesses and it is important for the community they remain.
214.	Marguerite Braun	Madison, TN	While I don't live in this part of Nashville anymore, I am still there a lot. I moved because I could no longer afford to live there. It would be a shame to lose what makes this community so unique.

216.	Javier Jones	Nashville, TN	Because this is my neighborhood
217.	James Clark	Nashville, TN	Creating this chaos in our small, yet already bustling Riverside Village would drive out the families that make up our neighborhood.
218.	Collins de la Cour	Nashville, TN	I live in the neighborhood and I don't want there to be more traffic.
219.	Nick Nace	Nashville, TN	To keep the character and charm of riverside village in tact.
220.	Ethan Sims	Old Hickory, TN	
221.	Maggi Decampo	Nashville, TN	Riverside village is one of my favorite areas in East Nashville to visit. It's comprised of local businesses owned by local people- not developers with no sense of the East Nashville community. This is absurd.
222.	Michael Latham	Atlanta, GA	I am not a Nashville resident but my son is. My wife and I are frequent visitors and Fond Object us one of our favorite stops. Living in Atlanta I have witnessed first hand what over development does to neighborhoods like this. Learn from our miustakes. Do not approve and act on this proposal. Surely there are other areas already zoned for this type of development that would benefit from this type of development.

234.	Meade Forsythe	Nashville, TN	Riverside Village is a short bike ride across the Cumberland river to my home in Donelson. I would like for the entire area to remain full of mature trees and beautiful historic homes.
235.	Jem Cohen	Nashville, TN	Hey, this is Jem Cohen from Fond Object Records. If this development happens we're working with our landlord to move to the old Bailey and Cato building. We don't have all the details worked out just yet, but we're doing everything we can to stay in the village. Thank you all for your support of Fond Object. Fond Object loves you too.
236.	Liza Kawaller	Nashville, TN	This is the type of neighborhood who's authenticity draws ppl to Nashville from all over the world. It would be real realllll dumb to get rid of it
237.	Thomas Sweat	Nashville, TN	
238.	Sean Sullivan	Nashville, TN	Riverside Village isn't a suitable location for a large apartment complex and a themed restaurant. It's a collection of small, independently owned businesses that are respectable to their residential neighbors. There are plenty of available commercial locations just down a few blocks on Gallatin Road which is suitable for apartments, the heavy car traffic of a restaurant, and the noise of a mechanic
239.	Melanie M	Nashville, TN	I am in this area of town quite a lot and am sooo sick of seeing all the new condos and apartment buildings replacing the reasons people move to Nashville in the first place. We don't need more. The ones here aren't even getting filled, which is a shame given the history they've destroyed to get built.
240.	Brandon Smith	Madison, TN	The charm of this area, and it's appeal to current and future residents, would be lost if this development was completed. Fond Object consistently provides great shows and community events that draw young and old, single professionals and growing families alike.

I've lived here in multiple houses, but one thing has always been constant: Fond Object. Jeff was a friend, and I love attending the events they hold in their backyard. Riverside is so admired because it is quaint, local, and loved. We do not need a motorcycle shop and apartment buildings. I do not support this.

247.	Jessica Barnett	Nashville, TN	I've lived on Golf St, a half mile from Riverside Village since I moved to Nashville 6 years. Like everyone has already stated this would be a disaster for infrastructure and safety of pedestrians on top of the loss of character and what makes this neighborhood so special. I've already been feeling down knowing we probably won't be able to afford to live in the area much longer due to rising housing costs, but if this goes through I'll just want to move anyway.

256.	Rex Norris	Rocky Mount, VA	I have friends there. It is a great community that has unique character to it. It should be left alone.
257.	Micah Mathewson	Nashville, TN	It's easy to see the drastic shifts that every neighborhood in town is undertaking and Riverside village has a distinctly East Nashville feeling. I fear a reassigning of it's characteristics and making it a busy/crowded space would rob this city of an area keeping it from feeling steril.
258.	Zach Setchfield	Madison, TN	If we keep getting rid of the things that originally brought people to the city/this particular neighborhood what will we be left with? Just a bunch of boring apartments filled with bored people.
259.	Shelby Gloom	Nashville, TN	There is no good that will come to these unnecessary changes to Riverside Village. Leave these businesses alone.
260.	Steve Poulton	Nashville, TN	What's being proposed by the developers for this area does not serve its best purpose or the interest of the people. 260.	Steve Poulton	Nashville, TN	<i>(continued from previous page)</i> also negate the value that the current retailers provide for the community. Fond Object is not just a record shop. The live musical offerings in the rear are enjoyed by people of every age, race, and identification. It's like no other in the city and is greatly needed. This bears discussion. These proposed developments could happen in any number of areas to less detriment to the community. The plan is one of pure greed. It lacks appreciation of and shows no acknowledgement of the good that is already happening there.

263.	TL McDonald	nashville, TN	This area is a NEIGHBORHOOD. I left 37206 when the character was changed. I do not want to live in the Gulch or Germantown. If I did, I would. The infrastructure cannot successfully support this plan and stay a cohesive, walking, family friendly neighborhood. In addition, Fond Object is a collaborative asset to our since of neighborly connectedness. Congested streets with cars parked along them and loud people passing through on weekends are not considerate stakeholders to those of us living here. Don't cookie cut another thriving area into the same template plan spreading across Nashville - including nearby Trinity and Gallatin roads. I LIVE here. I am not a developer. I live here because THIS is the neighborhood I chose. NO, No, No to this change from an actual resident who will be affected in every aspect - going to work, leaving and returning home, landscape aesthetics/noise barriers/environmentally, sleeping/peace of mind evenings and week ends, grocery shopping, walking dogs, parking etc...

There are plenty of empty/struggling commercial spaces already in our neighborhood esp in Inglewood along Gallatin road - those commercial corridors are where we should be helping developers and businesses build. This project does not deserve an exemption because it does not demonstrate any added value to the people already living here or the East Nashville community as a whole. If it were low income housing, or businesses and services we don't already have, then the plan would be helping our neighborhood solve issues might be worthy of an exemption. But a pizza place and more expensive, ugly apartments? Not worthy of an exemption at all.

279.	Meghan Nacke	Nashville, TN	The city does not need any more high-income apartment or condominium housing. Affordable housing should be made a priority. In addition, the things that have bolstered the property values in this area are the exact things that will be lost in this deal. Decisions impacting communities should be made with the best interest of that community in mind. This deal is profitable for a hand few of people and they are the only ones who stand to benefit from these changes. Save the trees, save the music, save the neighborhood.

309.	Rebecca Ballinger	Nashville, TN	I live near this neighborhood and it needs to stay more of a neighborhood than a shopping center. It's in the middle of houses. It's not on a Main Street with big grocery stores and drug stores. It needs to stay small like it is because the proposed is just too much for the neighborhood to handle and it way too far off a main busy road to have that much going on right where people live. Thank you.
310.	Katie P	Nashville, TN	Neighborhoods change, and that is something that is a positive thing, but replacing this neighborhood's cultural hub with a bunch of luxury apartments, and a bike shop seems strange and out of touch with what our community wants. 363.	Jen Gunderman	Nashville, TN	Oh my goodness, a motorcycle repair shop and showroom?! And multiple apartment buildings, and cutting down trees... right there at Riverside Village? It would ruin a quiet, sweet little funky corner that is already far too congested for the neighborhood traffic that comes through there. It's an awful idea. I've lived in this neighborhood for 15 years and can't imagine any of my neighbors being happy about this. We like our quiet in Inglewood!

It makes the neighbor cozy and homey without so much of the new construction that is around east Nashville. The street in this area is also not designed to hold so many more hundreds of cars. It truely does good with the development now. New apartment buildings would be a total eye sore to this area.
370.	Michael Deurlein	Nashville, TN	
371.	Kevin Calloway	Nashville, TN	This area is already very congested. I frequent several businesses here, and it's already hard enough to park. I have lived nearby since 2005. We need the trees. Riverside Drive has tuned into a nightmare in the last few years, both in the condition of the asphalt and increased traffic. I rarely go to the Walden/Rosepepper anymore due to what it has become—a magnet for people who do not live in the neighborhood. It's a nice idea, but when places get overrun, the charm of individual neighborhoods is lost.
372.	Robert Logue	Hendersonville, TN	I grew up in and lived in this neighborhood for much, if not most, of my life. I owned a business there and still frequent it. I am not against change, but it is disgraceful to ruin the character and organic culture of a historic neighborhood for no good reason other than to enrich developers.
373.	Alyce Dobyns	Nashville, TN	It's my neighborhood and I don't want it to turn into the same mess that Eastland & Porter has turned into - traffic, too many people, not the quiet corner of businesses that the neighbor visits. We want it to STAY the little pocket of delight.

435.	Bobbi Jo Burden	Nashville, TN	This is my neighborhood and I don't believe this will be a good move for East Nashville.
436.	Shamri Sewell	Nashville, TN	This neighborhood has been virtually the same since I started visiting Nashville 10 years ago. Sip Cafe was where rudies is now! It was glorious being in this little part of town. It felt like a secret. I moved into the neighborhood 5 years ago and I don't want to leave for another part of town. It's quiet, and the community of people we have in this neighborhood is amazing. Other parts of Nashville are changing drastically. Can't we just keep some of the beloved neighborhoods as they are. Dont "Fix" what isn't broken. I love it here and I want riverside village to keep the small town feel. I can just drive down the street to Porter and eastland for the same atmosphere as this supposed proposal.
437.	Alison Robinett	Bethpage, TN	Too much history has been lost in East Nashville. Beautiful homes have been demolished to put up cheap housing that's already falling apart. We have been fortunate to have this asset in our neighborhood, but now, in the name of making money, we are about to lose that asset. We are also about to lose some very special trees, which the developer wants to cut down and turn into wood chips. These trees provide oxygen and fresh air, cast precious shade, and support a wide variety of birds (including at least one owl) as well as countless other animals species. Please don't Las Vegas Nashville!!
452.	William Hynd	Nashville, TN	I don't want the feeling of the neighbourhood sterilised. We also don't need to double up on what is on offer commercially already.

If the homeowners in Inglewood wanted this crowded, noisy, and commercialized atmosphere we would've bought property in The Gulch or Downtown. Too much of East Nashville has already lost its authenticity and is littered with garbage like the proposed development. Don't allow our part of this great community to fall victim to reckless investors who give zero ****s about our home. I also echo concerns about traffic and environmental destruction. Just stop-too much development has happened already and it has been done in a very selfish and rash manner.

This change is NOT simply a small zoning change in a quiet neighborhood. This is a major change at the busiest locally-owned commercial district in Inglewood. On parcels zoned for single-family houses (RS 7.5), at a corner where it is impossible to widen either street (Riverside Drive or McGavock Pike), we are being asked to accept six apartment buildings, one two-story mixed use building zoned for automobile repair, and a third commercial building.</p> <p>This is not a plan in harmony with the neighborhood.</p>
471.	Rodney Jenkins	Nashville, TN	<p>Community in the area is most important as small businesses have always made the riverside village work. With big developments come bigger issues like increased traffic, crime, and the loss of the small community feel that originally attracted home owners to the area. There is nothing in the neighborhood like the proposed plan for good reasons and if it is not going to respect the existing neighborhood community than it should not be built. After talking with others it is the overall size and heights everyone has an issue with as it does not blend into the community but rather dominates the landscape of it thus disrupting it.</p>

571.	Leslie Allen	Nashville, TN	There's literally already a pizza place and a coffee shop in Riverside Village.... Not sure about how much motorcycle traffic the repair shop might generate, but seems like probably a fair amount if that's the intended customer base. I don't know what that translates to...one and hour? 4 an hour? More? No offense to motorcycle riders, but motorcycles are notoriously loud, and having a business in a residential area that is drawing motorcycles specifically to a business adjacent to homes seems like a bad idea. I know when there are motorcycle events across from my business in 5 Points, we can't hear customers ordering while they are coming and going from the parking lot. But that's an infrequent occurrence. I would imagine having a motorcycle-specific business would make that an almost daily reality. Seems like a better fit for a main thoroughfare like Gallatin Road, not a commercial corner in a residential neighborhood. I also have concerns about the continued burdening of residential streets and already tenuous parking options with packing in additional residential density. Our older neighborhood infrastructure was not designed for this. Finally, as a resident of East Nashville for over 15 years, I have watched the very things that contribute to the quirky vibe that made the community a unique and desirable place to live. I'd like to see more efforts at preservation rather than mass "condoization."

With the calm neighborhoods comes so much beautiful wildlife we all consider ourselves lucky to be here. With the development practices seen in and around the community over the past 4 years it's been verified that the developers do not have the best interest of the community in their mind when proposing such plans. Can we not let there be at least one community in our area(Riverwood village/Inglewood) that keeps that charm? Most houses are built pre 60s era and current development practices would be unable to gracefully match the niche of our neighborhood

656.	Jessica Cardinale	Nashville, TN	We live minutes away from this neighborhood. My dear friend of over 20 years founded Fond Object, and passed away last year. This corner is a hub of community, gatherings and activities. This 4 way stop is near many of my friend's houses, and many of my friends work in the shops that surround it. There are few other places that condense such community into one small area and if this is turned into giant new housing, a noisy impersonal motorcycle shop and really anything else it will be ruined. A stain on what was a gathering place. A vapid soulless money making hole with no character, no soul and lots of noise. Don't do it. Don't ruin what is a great thing in the name of greed and development. Those developers won't live there. They don't go spend time gathering there watching local bands and movies together. They don't care about what they might be destroying. Nashville has already destroyed enough of what made it so special to begin with. Careful and no one will want to live here anymore when it's all gone.
657.	Matt Petty	Nashville, TN	New shops in that area don't concern me. There are some vacant buildings ready to be revamped. But it seems like a terrible spot for a motorcycle repair shop, and it's certainly a horrible spot for new apartments. I would very much hate to see Fond Object get run out... that's the heartbeat of Riverside Village.
658.	Jesse Rhew	Nashville, TN	Fond Object is a cultural touchstone for this neighborhood. They want to remove it so we can make way for a "motorcycle themed restaurant"? People come to Nashville to visit because it's cool and has these little pockets of realness. If we put in tourist traps, everyone will smell the BS and avoid the area.
659.	Kate Mason	Nashville, TN	
660.	Buffy Butler	Madison, TN	I am a Nashville native and I am broken hearted at the destruction of my hometown. My mother lives in this area so I venture here weekly. 666.	Jeff Deason	Nashville, TN	Fond Object provides so much more for the community than hipster moto street-cred paraphernalia ever will. Also, where's the fairness in bringing in a new pizza "concept" right across the intersection from one that's been here for years?
667.	LeighAnn Rodd	Nashville, TN	The neighboring residents and current business owners do not wish to see this area up-zoned. Let it be a village, not every inch of Nashville needs to be overdeveloped!

674.	Lee Morton	Nashville, TN	Riverside Village is one of the few (and best) slices of nostalgia and individuality that still exists in East Nashville. At its center is Fond Object. This place has contributed so much to the music community in East Nashville that I don't even know where to begin. There's no need for a pizza shop here, as Castrillos is right across the street. A family owned business that has been there for years, not to mention that their pizza is awesome. To do away with Fond Object and build any kind of multilevel housing here would supremely detract from the value of this area, in my eyes, as this is meant to be a quiet, family friendly district with its own brand of quirkiness. I am in favor of more local shops and services joining the community, but a plan to build more housing here is a plan that is not in the best interest of its residents. Please reconsider.

699.	Ann Holdam-Muncy	Nashville, TN	We already have a sense of community created by the likes of Fond Object and the other small businesses. 700.	Melissa Mills	NASHVILLE, TN	I live within 5min of Riverside Village. I love it because of its small neighborhood atmosphere and lack of tourist destinations and apartment buildings/condos. It's a safe, comfortable getaway for local residents and people willing a short drive into Inglewood. A lot of my friends play and I attend shows at Fond Object. I would hate Riverside's character to be lost. Small neighborhood destinations are miserably under appreciated by developers/development occupants and have proven nothing other than disappointment.

703.	Amy Elizabeth	Old Hickory, TN	This corner of East Nashville has been an area of fantastic music, food, and community. Though some of the businesses have changed over the years, the one thing that has remained a constant is that they have all been locally owned and run businesses. To remove that to place in more dense housing would not only remove something desperately needed within our town, local businesses, it would take away further what makes Nashville, and particularly East Nashville, so interesting...unique shops and eateries that you cannot find anywhere else in this region. Nashville has become cookie-cutter, plain, sterile, and boring. We need to say NO to rezoning and development of this area. We need to say NO to this unmitigated growth and displacement of Nashvillians and their small businesses. Stop pushing out the reason people move here for...the uniqueness, character, and beautiful native Nashvillians.

705.	adam kurtz	nashville, TN	cities grow and change and we can stop it. and in general it's a good thing for all. but when you start changing the zoning, which is there to protect the community in the first place from over development, then you're bowing to the rich developers and ignoring not only the voices of the people who live there, but also the very feel and fabric of the community from an objective stand point. stop it!

732.	Buddy Hughen	Nashville, TN	The proposed development doesn't take the neighborhood into account. This little intersection is already suffering traffic congestion and limited parking! Why not design and build something that will better serve the community in addition to the pocket book of the developer?
734.	Rachel Fautz	Louisville, KY	Louisville is just up the road from Nashville, and I visit multiple times a year. Overwhelming in the last 3-5 years, the city is losing its character. These small local landmarks are being torn down for what? More condos? How many condos do you need? Seems like they're being used as airbnbs rather than actual homes, so why not leave a little history in place, since it's the reason a lot of us still visit Music City.

740.	Meghan Ellzey	Nashville, TN	Fond Object is one of the components that makes Riverside Village so special. This place is an important part of the the balanced composition of music City. It is completely inappropriate to tear this beloved community space down to build a loud and noisy motorcycle shop and more apartments. No one in this community can even afford to buy what I expect will be custom motor cycles. We love it as it is. Work with us to keep this location a vibrant part of our culture.

804.	Luke Schneider	Nashville, TN	Fond Object and the backyard events they host are a core amenity to this neighborhood. This business should not be replaced by a pizza shop (there is already one across the street) or a motorcycle shop that will cause disturbances all day, every day. Perhaps the block could use minimal, tasteful development to improve parking and replace empty storefronts. But Fond Object and its backyard should be spared. While affordable density is needed in the neighborhood, this block is the wrong place for apartments. I think that some folks may be exagerrating the current state of traffic on the block--lets get real, its not really a "nightmare"--but it is an issue that will worsen significantly if this development is done hastily and unwisely. The developers should listen to the neighbors and be willing to compromise to their needs. Fond Object should not bulldozed. Period. The Neighborhood does not need another pizza concept, motorcycle repair shop, or apartments on that block. The developers should present a thoughtful, comprehensive plan with those proposals off the table.

Too much destroys the individual character and too often results in the cost of living rising and forcing the original residents out. Riverside is lovely and should not be destroyed by the self intetest of developers only inrested in making a fast buck. Retain the vibrant community character and I, and many others who appreciate that will keep coming back. More importantly be true to the community that makes Riverside what it is, don't trample them in the name of progress or profit.

852.	Robbie English	Nashville, TN	This proposed development would cause an already congested and busy area to become a constant gridlock of cars. Not to mention completely destroy all the charm that Riverside Village currently has. There are many other places throughout East Nashville where this could go and has the infrastructure to support it.
853.	Caitlin Brady	Nashville, TN	
854.	Mike Lee	Nashville, TN	This is an extremely poorly thought-out plan that will create a traffic nightmare at Riverside and McGavock, as well as having a major negative impact on local residences and businesses.
855.	Katy Swartout	Nashville, TN	The buildings in Riverside Village are what give it its personality and charm. The buildings could potentially use some renovation but condos and apartments will ruin the appeal of the area.

860.	Allison Maus	Nashville, TN	My husband and I moved to Inglewood for it's close knit community and charm. It felt like one of the last true "old neighborhoods" that hadn't been infiltrated with tourist attractions and condos. We love that it is quiet, beautiful, and small. The proximity to Riverside Village was a great perk: convenient to a coffee shop, gas station, neighborhood pub, and a few restaurants. As it is now, it still feels quaint, though increasing traffic and pedestrians already make it difficult to get home in the afternoon. I can't imagine the chaos that new development and apartments/condos would bring. It would destroy the charm that this neighborhood loves, enjoys, and wants to protect. By overtaking this area, developers are destroying the very thing that attracts people to the village. If anything should be done to Riverside Village, restore the existing buildings. Place businesses there that fit well with the current thriving businesses. Have respect for a charming old neighborhood that has worked to keep its community as it is, instead of squeezing as much as one can on a tiny lot for the sake of making more money.
861.	Bedonna Wakeman	New Orleans, LA	I visit Nashville many times a year and this area/building is the most welcoming area in the city! It is part of the community that I love most about Nashville! PLEASE Leave a good thing a lone and allow the landmark to stay as it is

A motorcycle repair shop brings in even more crazy. And we have a pizza restaurant in this neighborhood and plenty more in east nash. We don't need another ;) Keep Riverside Village local, safe, friendly, full of trees, without all the crazy traffic the way it is!

919.	Ryan LaFave	Nashville, TN	Riverside Village is our neighborhood and a large reason we moved to the area. Bulldozing these buildings to add apartments is taking away the appeal of the neighborhood in order to simply add more people and traffic. You are fundamentally removing the reason people WANT to live here. East Nashville is a beloved part of town that relies on its unique variety of character and we must work to preserve it. It's already hard to just walk your dogs without cars speeding by. This project would bring tons of traffic, congestion, and noise to our nice neighborhood.
925.	Laurel Hailey	Nashville, TN	I live about 2 miles from this and find myself at the existing businesses there quite a bit. I love that even though there are numerous restaurants/shops around, it's generally quiet and doesn't disturb the neighborhood feel. While there may be a little bit of room for more development (vacant or unused properties), ripping out existing much-loved and supported businesses with character, to replace them with what they're proposing is NOT what our neighborhood needs.

People from all over are coming here to tear down our locally revered places (Music Row buildings, etc.), destroy trees, which we need for a number of reasons, and basically cause places to live to become so expensive that they can no longer afford to live in the town in which they were born, which is also why I had to move out of Davidson County. I live down the street from Fond Object and the Riverside Village complex and it's so sad to think about it being replaced by things with less character. Nashville can't afford to lose any more of it's essence. I work in the tourism industry. I hear already from people who are so disappointed when they come to visit and see development after development of "more of the same".

1,119. Nancy Denning-Martin	Nashville, TN	Our family lives in Inglewood. We opened the East Nashville School of Music in Riverside Village and brought other business owners together to host community events to draw customers and neighbors. Our sixty-plus students were the first regulars at the coffee shop and bookstore. We were part of the new beginning for an area that has become a jewel tucked in a vibrant, residential neighborhood. Riverside Village should never disrupt residents and families. It shouldn't become a commercial monstrosity in the backyards of our neighbors. Please protect what has defined us and drawn people to us--our small town feel in the heart of the city.

1,123. Richard Farmer	Nashville, TN	I live 5 houses down from there and don't want the motorcycle traffic and the coffee house and pizza place will directly compete with existing businesses in Riverside Village.
1,124. Lauren WidELITZ Cutler	Seattle, WA	I spent 5 years owning a house on riverside drive a few blocks from the proposed development. This proposed apartment and commercial venture does not fit the neighborhood. Also, building something so large next to established single family homes is cruel to the people who live there and have invested for years in the community. Also, none of the roads can support this type of development.

I also know the beauty of Riverside Drive, and the possibility of the tree lined media having to be removed in order to make room for more traffic, would be a tragedy.</p> <p>I also hate the idea of ANOTHER pizza place and ANOTHER coffee shop moving in... there is t enough traffic to support two of each.</p> <p>I am not against development or change, but please be considerate of those who chose this little quiet gem in the middle of Nashville to call home.</p>

1,136. Jacob Girardin	Hendersonville, TN	As a small business owner in Riverside Village, the impact on both the neighbors, traffic, and businesses would be very large. Increased traffic density, diminishing charm, and ultimately looking for a profit off the "nashville boom" at the expense of current residents, are not positive outcomes for the Riverside Village community, and Inglewood neighborhood as a whole.

1,146. Phillip Kinzer	Nashville, TN	I have several good friends who live in that area. Many of them own homes and have for quite a while. I spend a great deal of money in the businesses around Riverside Village. I can generally assume that if this development goes up as planned, I wouldn't have any reason to spend money there.

1,151. Jeff Glueck	Whites Creek, TN	Having lived in East Nashville for the last 10 years, this business and building are knit into the fabric of what makes EN the best part of the city to be apart of. We lost the Family Wash, Watanabe, and let's not lose another.

I believe these additional, major developments are meant to do the latter at the expense of not just the people who inhabit the neighborhood currently, but the future of it as well. This is an intentional development plan that will cause more harm than good and we cannot let it happen.

1,323. Becky Warren	East Nashville, TN	This intersection is one of the unique areas that make Nashville Nashville. Places like Fond Object are the reason people opt to move to and visit Nashville because they give the city its unique character and support a vibrant music community which is, of course, a primary component of the city's heart and soul. Replacing this with another development would be tragic. Places that are key to Nashville's character and charm have already been replaced by developments all over town. Enough is enough. The more we lose these places, the less we resemble the city that residents and visitors fell in love with. Let's not be so painfully shortsighted. No one who cares about this city should be willing to lose the tourist dollars and tax revenue we'll lose if we become just another generic city full of apartment complexes and trendy pizza shops.

1,335. Mark Nevers	Nashville, TN	Back Before east Nashville became what it is today - there was a vibrant authentic music and club scene on 8th ave south - with the sutler etc . It all got turned into a playground for rich hipsters that loved the Nashville TV show and moved to Nashville and plowed over what made it unique and a great place to live - my hood was destroyed by this same plague and I ended up having to move away -

This project is irresponsible and clearly has taken no regard for the neighborhood it will be impacting. Stop tearing down our city and neighborhoods. 1,401. Katie Sura	Nashville, TN	
1,402. Andrew Brown	Nashville, TN	We moved into a community of homes. Now we have people that do not live here trying to turn this into a profit zone for them to develop and walk away without consideration of how this impacts the people here. We need many things in Inglewood; more people is not one of them. Multi unit living may be great for the Gulch, but it is not what the people of Inglewood want.
1,403. Tommy Stangroom	Nashville, TN	The relatively quiet, but thriving, current hub that is Riverside Village is not in need of a transformation like much of Main St. and 8th Avenue. This is a walk-able neighborhood center that has, at it's heart I feel, Fond Object. Not only is it a fine record store that many people have put their heart, soul, and life into for many years, but it is an important outdoor space for more marginalized live music that has fewer and fewer places to be seen and heard. To transform this area and re-zone seems like it would lead to a domino effect of developers capitalizing on an opportunity to get their piece of the redeveloped landscape, and drastically alter the lives of current residents around Riverside Village.
1,404. Genevieve Faulkner	Nashville, TN	I live a mile away and have been patronizing Fond Object for 5 years. Not everything needs to be pristine and new. We value the grit and guts and it's why we chose Inglewood over all the flashy other neighborhoods that lack character. Putting more cars and pedestrians onto the newly redesigned left-bike lane along Riverside is also setting this intersection up to be one of the most dangerous ones in East Nashville. There are plenty of places in Hendersonville that would love more chain pizza places. We don't need that here!

Beyond that, local businesses provide a place for the wealthier class moving into Nashville to spend their money in a way that ACTUALLY SUPPORTS THE CITY'S WORKERS AND BUSINESS OWNERS . When residential development is allowed to trample our local businesses, Nashvillians get zero benefit from that growth.

1,585. Tucker Reynolds	Nashville, TN	Fond Object is one of the first places I went to when I came to Nashville. My friends work here, I've played shows here, and I spend all of my time here. One would argue that it's an important part of Nashville's non country music scene. Robbing young adults of the same experience I had when I moved here is putting a halt on progression towards an educated society. We do not need more motorcycle repair shops and garbage that no person with a strict income can afford. This will raise the already high cost of living in that area and ruin historical significant parts of this beloved city.

This intersection is already woefully behind for managing the current traffic flow. Motorcycles are constantly speeding through the area as is. This is before providing a place for them to gather. If you come here on a weekend people park everywhere. On open lots with no parking signs. There are always people driving onto this property to turn around. I mean onto the property. Through the front yard. I moved here from Richmond Virginia and one of the most noticeable differences here is the complete obliteration of the past with little thought for history or how best to carry your history forward. This intersection carries history. And to level for a worthless concept (a motorcycle-themed restaurant) is disconcerting. Let me say that again - a motorcycle-themed restaurant. Surely there are better ways to utilize this portion of a neighborhood with history. I will be directly impacted sure. I live next door to all of this and am already planning on having to rent an office space because I cannot work from home. 1,659. Summer Young	Nashville, TN	I moved here because the city had decided to keep the look and feel of this area by creating a Neighborhood Maintenance community plan which is now being threatened by developers. No residential rezoning. No rezoning to an automobile repair shop. Motorcycles are loud, pollute (since they are exempt from emissions testing), and when being tested after maintenance will probably be driven all throughout the neighborhood.
1,660. Elisa Morales	Nashville, TN	Riverside Village is one of the few historic neighborhoods in East that hasn't been completely taken over by developers. The community enjoys this neighborhood because it is just that, a neighborhood. Having multiple residential apartments in an intersection in the middle of an established neighborhood that already experiences congestion and challenges with parking is ridiculous. Not to mention, those who live off of McGavock already have issues with noise. If Riverside Village is rezoned for a motorcycle showroom/repair shop, I can only imagine the increase in pollution and noise. These types of development projects should be limited to areas that can support the traffic.

The best possible scenario doesn't involve only maximum financial profitability. 33 units is the maximum allowable on the site, but it doesn't have to be utilized as such. In fact, the value of quality of life doesn't have much to do with profit at all. This is the mantra of east Nashville, and the charm of our neighborhood. We love walking in our neighborhood. Making records in our home studios. Riding bikes with our kids. This land could be used to build several lovely single family dwellings, and make a great profit for the contractor and property owner, moreover satisfying the residents of Inglewood by maintaining a low-key, residential neighborhood. Subject: rezoning at Riverside Dr. and McGavock 37216 - hearing Oct. 25

Objections to rezoning:

- neighborhood currently represents families with 2-3 bedroom homes
- multi unit 1 bedroom is NOT a representation of Riverside Dr.
- increased traffic on Riverside
- massive construction vehicles entering from Riverside for months is noisy and messy
- no turning lane specifically for these units

There are currently single units on Douglas Ave. and Gallatin Road. They house students for the diesel college. There is constant foot traffic and cars in that area. Most people needing to save money on housing get roommates in a larger home or apartment.

Thanks for considering NOT REZONING my neighborhood of 42 years,

Please DENY the subdivision of this property to three lots, aka 6 homes... we went thru this 2 years ago and the developer was limited to two homes. Subject: Opposition to 2811 Wimbledon subdivision (Case 2016S-136-001)

Hi Russ,

My name is Thomas (Tee) Tompkins and I recently moved from Houston back home to Nashville and bought a house on Wimbledon. My wife Caroline (cc'd) and I have three young children and are excited to have found such a wonderful neighborhood so close to school, work, and other amenities.

We know several families on our end of the street and have discussed the many property development initiatives in the neighborhood. Specifically, I am concerned about the effort to subdivide 2811 Wimbledon from one to three lots. I oppose the effort for several reasons.

- A) That stretch of Wimbledon, between Hilldale and Woodmont, is effectively a one-lane road with no shoulder.
- B) The *north* portion of Hilldale road, between Wimbledon and Woodmont, is effectively a one-lane road with no shoulder. The portion of Hilldale *south* of Wimbledon is so narrow that it is more accurately described as an alley.

Taken together, I can easily foresee a scenario where....

- (1) the developer will spend a year plus preparing the site for construction, followed by another 2-5 years of home construction
- (2) which establishes a permanent contractor presence on the street
- (3) increases the already high volume of wide commercial vehicles on narrow streets
- (4) contributes to noise pollution
- (5) leads to a more physically dangerous environment for my kids to bike, run, and play
- (6) lowers my property value.

(7) consequently reduces my family's ability to enjoy our front yard and neighborhood

Taken together they will detract from our neighborhood's appeal and value (in the general sense of the word).

Please let me know if I've made myself clear on the issue and thank you for representing us in this and other matters. I'm looking forward to meeting you at the public hearing on the 25th (if I can escape work) and later if I can't make it.

Regards,

Tee Tompkins

Subject: Additional houses next to my house at 2809 Wimbledon Road, Set for October 25 Planning Commission

dear Shawn: I understand that the developer "Bubba" is asking the Planning Commission once again for a variance in adding five more houses to the lot next to me. If this lot was not on a small road in a residential neighborhood, it might pass muster. It is NOT. I have suffered an entire year while Bubba has built a huge 1.7 million house next to me, deliberately, 20 feet from my side yard. There has been so much traffic this year from the construction. Our street is primarily a walkable street filled with walker,s dog walkers, baby buggys and it only wide enough for one car, unless you totally pull over into a yard. Per the Green Hills Plan, new construction of this type is not suitable for residential neighborhoods. We already have a stealth lot across the street for four houses, which has not yet started. The subdivision there needed no approval from the planning Commission.

We fought and won this battle 18 months ago and Bubba was only allowed to build two houses on the lot. He put us through four hearings and continuances, but we prevailed, helped by our councilman, Russ Pully, Burkley Allen, the liason to the Planning Commission. At that time the Planning Commission did not approve the project and the Planning Commission voted No with one Yes vote.

I don't want to keep going back every year to refight this battle. As stated, unless the construction continues, we have only residential cars in the neighborhood. Adding at least 12 cars plus children's cars, will totally overtax the neighborhood. It would require the council to eminent domain for a road widening and sidewalks. There is nothing we can make Bubba do to make this easier for the neighborhood. It is NON_STARTER. Clearly Bubba overpaid for the lot, but that is not our neighborhood's problem.

Dear Planning Commission Members,

I write urging you to reject the proposal to subdivide the lot on the corner of Wimbledon and Hilldale located in the Wimbledon to Woodmont neighborhood. I have lived at 3501 Wimbledon Road for 21 years and enjoyed walking through my neighborhood with my family. Over the years, several new homes have been built and most have fit in with the character of our neighborhood. The proposal to subdivide the lot at 2811 Wimbledon into 3 lots allowing 5 new homes is not in keeping with our neighborhood. Please consider the opinions of the residents of our neighborhood association when making your determination.

Subject: Opposed to change at 2811 Wimbledon Road

Sirs,

As a resident of the Woodmont Estates neighborhood, I am opposed to the proposed zoning change for 2811 Wimbledon Road which would result in further increases in housing density. Our neighborhood has already been overbuilt due to recent development and lax zoning protections. Traffic congestion and increasing crime are the consequences I have noted in our neighborhood due to unrestrained development. In the last few years 5 additional homes have been built on Ruland Place alone. The mailboxes at the corner of Ruland and Woodmont Blvd currently block the view when turning onto Woodmont and have only been fleetingly addressed by the developer who placed 6 homes on two lots. This is typical of the consequences seen when neighborhood development does not address the implications for existing residents.

This proposal will significantly increase traffic on the narrow portion of Wimbledon Road that leads to Woodmont Blvd with resultant safety implications. As a resident who will be adversely affected by the proposal I am strongly opposed to the further subdivision of 2811 Wimbledon Road. Please help us keep our neighbor safe and protect its historical character by voting against this proposal.

Enough already!

Respectfully,

William Thompson

RE: Petition attached #1 of #2

The Haynes-Trinity Neighborhood Coalition is adamantly opposed to any more industrial development near our residential neighborhoods. We want to participate in the renewal of our area, and we need homes, shops, grocery stores, not industrial plants.

Our residents, many who are elderly, have walked the neighborhoods in 90 degree heat and obtained almost **900 signatures**. The breakdown is 531 signatures from Councilmanic Districts 2 and 3 and 358 supporters from other mostly nearby districts. The neighborhood most affected is Haynes Manor, and their residents' signatures comprise 297 of the D2 signatures. We hope you appreciate how massive this response in our desire to participate in development that will complement our historic neighborhoods and not add to the burden of existing grandfathered industries like the nearby Whites Creek Quarry.

PETITION TO STOP INDUSTRIAL DEVELOPMENT IN OUR NEIGHBORHOOD!

We, the undersigned are residents of Districts 2 and 3. We strongly **OPPOSE** industrial zoning for 2832 Whites Creek Pike, next door to the Haynes Manor neighborhood. This zoning does not fit within the character of the underlying adopted land use policy. We ask the Metro Planning Commission in their review of the Specific Plan "The Park at Ewing Creek" 2008SP-025U-03 to amend or rezone the parcel ID#05900006300 (30.81 acres) and remove the industrial zoning. As nearby residents we do **NOT** want industrial development on this land.

To Planning Department and Planning Commissioners:

RE: Petition attached #1 of #2

The Haynes-Trinity Neighborhood Coalition is adamantly opposed to any more industrial development near our residential neighborhoods. We want to participate in the renewal of our area, and we need homes, shops, grocery stores, not industrial plants.

Our residents, many who are elderly, have walked the neighborhoods in 90 degree heat and obtained almost **900 signatures**. The breakdown is 531 signatures from Councilmanic Districts 2 and 3 and 358 supporters from other mostly nearby districts. The neighborhood most affected is Haynes Manor, and their residents' signatures comprise 297 of the D2 signatures. We hope you appreciate how massive this response in our desire to participate in development that will complement our historic neighborhoods and not add to the burden of existing grandfathered industries like the nearby Whites Creek Quarry.

Thank you,

Winnie Forrester, Haynes Heights

Joyce George, Haynes Manor

PETITION TO STOP INDUSTRIAL DEVELOPMENT IN HAYNES-TRINITY NEIGHBORHOODS!

We, the undersigned are residents of Davidson County. We support Districts 2 and 3 residents in their opposition to **industrial zoning for 2832 Whites Creek Pike, next door to the Haynes Manor neighborhood. This zoning does not fit within the character of the underlying adopted land use policy.** We ask the Metro Planning Commission in their review of the Specific Plan "The Park at Ewing Creek" 2008SP-025U-03 to amend or rezone the parcel ID#05900006300 (30.81 acres) to remove the industrial zoning.

PETITION TO STOP INDUSTRIAL DEVELOPMENT IN HAYNES-TRINITY NEIGHBORHOODS!

We, the undersigned are residents of Davidson County. We support Districts 2 and 3 residents in their opposition to industrial zoning for 2832 Whites Creek Pike, next door to the Haynes Manor neighborhood. This zoning does not fit within the character of the underlying adopted land use policy. We ask the Metro Planning Commission in their review of the Specific Plan "The Park at Ewing Creek" 2008SP-025U-03 to amend or rezone the parcel ID#05900006300 (30.81 acres) to remove the industrial zoning.

Subject: REMOVE the industrial zoning on 2008SP-025U-03 The Park at Ewing Creek

To the Planning Department and Planning Commissioners:

The Haynes-Trinity Neighborhood Coalition is adamantly opposed to any more industrial development near our residential neighborhoods. We want to participate in the renewal of our area, and we need homes, shops, grocery stores, not industrial plants! In your SP review, we ask the remaining undeveloped portion of this SP to be determined as INACTIVE, since no development has occurred in 10 years. Please review the attachment for context.

The SP was originally disapproved by MPC on 10/23/08:

The Park at Ewing Creek SP was a bad deal 10 years ago, which MPC recognized at the time and voted disapproval with a vote of 8-0. It only is worse today!

Our response to the documents prepared by Roy Dale & Associates:

The community is only asking for the undeveloped portion of the original SP to be considered INACTIVE or the portion labelled "Phase 4 and Phase 5". Everything else in Roy Dale & Associates' documents is not pertinent to the review - making the aggregate total at the end of the document grossly inaccurate.

Phase 4 - the "Dedication of Buffers to Open Space at \$1.2 million" appears to be a potential future cost, not a present or recent cost unless of course the SP is eventually built out as prescribed by the 10 year old SP. Exclusion of this item from the "Total expenses... within last 12 months" would reduce the costs by 72%.

Phase 5- Most of these costs would be recoverable in a future buildout of development that the community actually desires and has input in determining what it will be.

It also concerns us that the proposed Recycling facility will only occupy an estimated 6 acres of the vacant 30 acres, and the rest of the land has nothing proposed for it in the remaining Phase 5. Our worst fear is it will eventually host the rest of the industrial plants being moved out of the Pages Branch area and elsewhere.

SP is inconsistent with the Community Plan: The industrial zoning within the SP is not consistent with the Nashville Next community plan policy of T3NE or the base zoning of RS 7.5 and R8. The SP directly borders the 900 home community of Haynes Manor. Many older and newer residential communities are nearby in every direction. UPS and the decades-old quarry are across White Creek Pike, and the community feels MORE industrial development is not appropriate for us.

Petition: Our residents, many who are elderly, have walked the neighborhoods in 90 degree heat and obtained almost **900 signatures**, which was emailed to you on 10/12/18. The breakdown is 531 signatures from Councilmanic Districts 2 and 3 and 358 supporters from other mostly nearby districts. The neighborhood most affected is Haynes Manor, and their residents' signatures comprise 297 of the D2 signatures. We hope you appreciate how massive this response is for our desire to participate in development that will complement our historic neighborhoods and not add to the burden of existing grandfathered industries like the nearby Whites Creek Quarry.

Thanks, Winnie Forrester

2008SP-025U-03 The Park at Ewing Creek:

The wooded area represents the remaining undeveloped 41 acre portion of this SP and consists of two parcels of 30 and 11 acres. We ask this portion of the SP be determined INACTIVE since no development has occurred in 10 years since the SP was disapproved by MPC on 10/23/18 with a vote of 8-0.

The SP industrial zoning for the 30 acre parcel is not consistent with the Nashville Next community plan policy of T3NE or the base zoning of RS 7.5 and R8. The 10 acre parcel bordering Whites Creek Pike is consistent with T3NC land use policy and CS base zoning. The SP directly borders the 900 home community of Haynes Manor. Many older and newer residential communities are nearby in every direction. UPS and the decades-old quarry are across White Creek Pike, and the community feels MORE industrial development is not appropriate for us. I am a resident of ClaymillStation subdivision and will cast a vote against the development of a Grease processing Plant in the Haynes Manner area. Please note that our community pay taxes too and would appreciate some consideration as not to disrespect the Health and Quality of our community. I already have damage to my home due to allowing the Rock Quarry , "blasting expansion". As an elected officials ,please do the right thing for people that helped to vote you in office and "Stop" the approval.

Comments on MPC Case #2018CP-012-003;
associated zoning case #2018Z-102PR-001

A Community Plan Amendment meeting on the above case number(s) was held on October 8, 2018 at the Paragon Mills Church of Christ in 37211 zip code area.

Following my continued multi questioning, the parcel owner clearly said he does not yet know the building type(s) that he intends to put up. I also happen to see the license plate on the car that the owner and his introduced business partner came with to the meeting, and I can deduce some things from that.

All these combine to indicate that the duo of the owner and his business partner have bad intentions in the ultimate use of the developed parcel.

That being the case, the request for policy plan amendment on said parcel should be denied.

I would not mind being called upon to deliver a lecture to the Planning Department on what really goes on post Amendment/Zoning & construction. In no distant future metro/the Planning Department is sure to have a big problem in its hands if it is unaware what is going on.
