

## Week Ending September 24, 2021

The Nashville Department of Transportation & Multimodal Infrastructure develops and maintains a transportation network that offers choice and connects neighborhoods, residents, and businesses to the places they need and want to go in a safe and efficient manner.

### **Initial Kick-Off Community Meeting re: Jefferson Street Cap Project Will be Held on Saturday, October 9 at Noon**

The Nashville Department of Transportation and Multimodal Infrastructure (NDOT) will be hosting an initial meeting to share details about the community engagement process for the proposed Jefferson Street Cap project on Saturday, October 9, 2021, near Lee Chapel AME from 12 to 1 PM. North Nashville community residents, business owners, and other stakeholders are invited to attend the in-person, outdoor event, to learn more about the project and the community-led discussion and design process through which they can ask questions and share feedback. This is the first of several informational events that will be held throughout the Jefferson Street area to engage and hear from constituents, collect feedback and ideas from community members.

The proposed \$120 million Jefferson Street cap project would cover Interstate 40 (I-40) between Jefferson and Scovel Streets, from D.B. Todd Blvd. to 14th Ave. N. The project would recreate usable space in the community that was lost when I-40 was routed through North Nashville, and no existing homes or businesses would be removed as part of the cap construction. Through the community engagement process, participants will be asked to provide feedback on the project as well as communicate desires for how the space could be used.

**What:** NDOT Initial Community Meeting: Jefferson Street CAP

**When:** Saturday, October 9, 2021, 12 – 1 PM CST

**Where:** Lee Chapel AME Lot (Outdoor event), 1716 Scovel St.

*In case of rain, indoor fellowship hall will be used for the event*

Community members can learn more about the project and submit questions via phone, text, email, or the project website.

Join us for the initial NDOT meeting to learn about the upcoming community engagement process for the Jefferson Street Cap.

### **2021 WalknBike Plan update**

NDOT is updating the 2017 WalknBike plan and needs your input! If you want your community involved in the sidewalk and bikeway planning process, complete the Nashville WalknBike Plan update survey -> <https://bit.ly/3IAKQRB>.

### **Changes and Improvements within NDOT Permit Office**

NDOT is in the process of making changes and improvements within the Permit Office that will improve the permit process, permit inspection and contractor notification of construction in the right-of-way which involves lane closures, street closures and sidewalk closures. The changes listed below will hold the contractors more accountable and allow all NDOT Permit Inspectors to stay on top of valid and expired permits.

- 1. Project Notification.** In the past only NDOT projects and MWS projects were required to notify residents and business owners of lane, street and sidewalk closures due to construction work in their area. The NDOT Permit Office has made it mandatory that all contractors working in the right-of-way shall notify residents and businesses one to two weeks in advance of construction and lane closures that may impact them. This project notification will be made by door hangers, sticky notes, mailers, or phone calls. This will eliminate many complaints from residents and businesses that are impacted by construction on their street.
- 2. New process to reduce the amount of unpermitted street closures in the Metro right-of-way.** We have included in the lane closure permit application a “step-by-step” process to change from a lane closure to a street closure. We have found that one of the issues with lane closures is that most contractors will eventually need a street closure. This process will track and document lane closures that require street closures.

3. **New automated email to notify OEM Operations of an active street closure.** OEM will in turn notify all Metro Agencies including NYPD, NFD, MNPS and WeGo. In the past, this notification was left up to the contractor. NDOT is assisting contractors and making sure that all critical Metro Agencies are notified of street closures.
4. **New notification system to alert Permits Department and contractor of an upcoming expired permit.** As of September 20, 2021, a notification will be automatically sent to the contractor and permit inspector to notify them that the permit at this location will be expiring in 3 days. If the contractor is not finished with their work in 3 days, they are required to renew their permit. If the permit inspector does not receive a permit renewal, then they will meet with the contractor to determine if their work shall be stopped, or they will be tripled fee until they get a new permit. This will reduce the number of contractors working in the right-of-way without a valid permit.
5. **Enhancement to Work Manager Software to identify permits in the same area at the same time.** This will help resolve conflicts between contractors wanting to work in the same location/roadway at the same time. This will allow the Permit Data Entry Personnel to contact the area inspector. The area inspector will get with the contractor and work out a schedule between the existing permit holder and the proposed permit holder. The area inspector will get back the Permit Data Entry Person to finalize the schedule for the new permit. The contractor will be required to submit a new permit application based upon their agreement with the Permit Inspector.
6. **A new interactive map with active street, lane and sidewalk closures will be launched in the next few weeks.** NDOT is finalizing an interactive map that will allow the public to see where street, lane and sidewalk closures exist. It will also allow motorist to plan their routes based upon active lane and street closures.

#### **Human Resources & Hiring Updates**

#### **Madison Station Blvd Project**

Rain delayed work this week. Kiewit plans to work over the weekend to catch up on work. Dewatering is taking place on the site. The base adjacent to Hardees is being reworked due to the rainfall. The headwall for the pond is being formed. Drilling and pouring of light pole foundations near Hardees, installation of conduit and wires, and bike path continues. Curb in Hardees' parking lot is being installed and new parking lot section is being paved.

#### **North Nashville - Capital Bikeways Project**

Two-Week look ahead as weather allows:

- There is no work planned on NNB (other than warranty repairs) until Monroe St starts. This will be the last project update until work begins on Monroe St.
- We do not have a schedule for Special Operations to begin milling on Monroe St at this time.

#### **Sidewalk Café/Outdoor Dining Permit**

Reminder: Metro Codes, in coordination with other Metro departments, is facilitating the sidewalk cafe/outdoor dining permit. Businesses all around Nashville can apply for this permit to expand their outdoor dining space. Information about the permit, and how to begin the application can be found on NDOT's permits page: <https://www.nashville.gov/departments/transportation/permits>.

#### **Neighborhood Clean-Ups**

Help Keep Nashville Beautiful by organizing a clean-up or planting project in your neighborhood. Learn about how to [organize a cleanup](#) or where you can borrow tools free of charge from [Nashville's Tool Share](#) program!

Clean-ups scheduled for this weekend:

- West Nashville Dream Center- Historic Preston Taylor Community
- East Nashville Cleaning Crew- Corner of Shelby & 6th

**Adopt-A-Street Program**

Metro Beautification's Adopt-a-Street program is a great and inexpensive way that churches, businesses, neighborhood groups or individuals can help to keep Nashville beautiful. To learn more about the program or to Adopt-A-Street visit our website, [AdoptAStreet.Nashville.gov](http://AdoptAStreet.Nashville.gov).

Clean-ups scheduled for this weekend:

- Beta Mu Chapter of Beta Phi Omega Sorority, Inc. – Maxwell Road from Lavergne Couchville Pike to Pin Hook
- Eta Beta Sigma Chapter of Phi Beta Sigma Fraternity, Inc – D.B. Todd Jr. Blvd from Jefferson Street to Charlotte Pike

**Litter**

6.8 tons collected over 23.95 miles

**Projects Underway the Week of 9/27/2021 – 10/01/2021**

KEY	
<b>CASTING ADJUSTMENTS</b>	Adjustment (lowering) of utilities to allow milling machines to traverse the roadway without damaging utility assets. Re-adjustment (raising) of utilities so that they will again be flush with the new surface that will be applied.
<b>MILLING/UNDERCUTTING</b>	Removal (milling) of old surface using a milling machine. All milled surfaces must be cleaned by the milling contractor and marked appropriately to safely direct traffic. During undercutting the old surface that has failed is cut out and new material is put back in before it is resurfaced.
<b>INFRARED</b>	A technique where infrared heating systems apply heat to pavement surfaces and aid in the removal of existing material and replacement with new asphalt mixture.
<b>SIGNAL LOOP WIRES</b>	Signal Loop Wires are installed under the pavement. They are used to detect vehicles passing or arriving at a traffic light.
<b>CRACK SEAL</b>	A sealant put into the construction joint to keep water out so the road will not depreciate.
<b>FOG SEAL</b>	A sealing put on the road to give the road an extended period before it gets paved.
