Agenda Item 2: Written Standards

Went through the document and discussed some last final items that we needed to finalize in order to submit to the Planning Council in August and to start the 30 day public comment period.

One of the questions that came up is do we need to list out the action items that will need input and collaboration on for the phased approaches.

This included some discussion about benchmarks.

Action Items: Need to continue to work on the document. Matt will send out a doodle poll for the next meeting date.

Adjourn: 2:06pm
