St. Jude Rock 'n' Roll Nashville: Running Series

The St. Jude Rock 'n' Roll Nashville Marathon and Half Marathon will take place on Saturday, April 23, 2022 at 7:20am. The 5k and 6.15 races will start at 6:35am. There will be road closures in place beginning tomorrow morning. To learn more about the road closures and community impact visit: <https://www.runrocknroll.com/nashville-road-closure>.

Climate Action Plan Survey

In February 2020, Mayor John Cooper established a Sustainability Advisory Committee (SAC) of over 50 community volunteers. In early 2021, the SAC presented its recommendations to address climate change.

Now, Metro Nashville wants to hear from YOU about priorities for climate action.

Please [TAKE THE CLIMATE ACTION PLAN SURVEY](#) to help the city decide how to tackle climate change in Nashville.

For more information about the SAC and its recommendations, please [see the FAQs](#).

Traffic Calming

[Metro Neighborhood Traffic Calming Program](#)

Demand for the Traffic Calming program, with over 200 applications, currently outpaces our available resources requiring NDOT to prioritize projects. Neighborhoods are prioritized based on crash history (40%), measured speeds (30), and neighborhood characteristics (30%).

Once a neighborhood is selected, NDOT staff will meet with the neighborhood to give an overview of the traffic calming toolbox, share the data that has been collected, and kick-off the design process. Once a design is finalized, neighbors will be asked to approve the project through a petition with 70% of homeowners in agreement. The construction phase will begin as soon as the completed petition is received.

We are currently collecting data on all new applicants since July 2020 and moving quickly with the 25 projects selected in the fall. In addition, [NDOT selected 25 more projects last winter](#) which will begin with community meetings in the spring/early summer.

NOTE: An interactive public-facing Traffic Calming Status Tracker with the information below will be made available soon on the Neighborhood Traffic Calming webpage.

Paving

Notice of milling and paving on a Metro roadway is required to be handled by the contractor via door hanger or mailing prior to the commencement of the project. Additional notification is required to be presented to the homeowner if a construction sign is going to be placed on their property. Report any violations directly to [hub.Nashville.gov]hubNashville.

- [2022 Spring Paving Projects](#) - These projects were funded in 2021 and will be completed this spring before we begin work on the Summer 2022 Paving Projects.
- [2022 Summer Paving Projects](#) - Summer 2022 paving is expected to begin in late March/early April, weather dependent.

NOTE: All paving projects are weather dependent.

Roadway Closures Information

The right-of-way closures map allows the public to see where street, lane and sidewalk closures exist. It also allows motorist to plan their routes based upon active lane and street closures. **The map is updated every two hours.** You can access the map on the Roadway Closures webpage, <https://www.nashville.gov/departments/transportation/street-maintenance/road-closures>.

***The information does not reflect unplanned closures or restrictions due to traffic collisions or other emergencies. Road closures are subject to change.**

The Nashville and Davidson County Active Right-of-Way Closures page provides you with information regarding road construction that may affect vehicular and pedestrian traffic. The information does not reflect unplanned closures or restrictions due to traffic collisions or other emergencies. If you have any questions, call the Nashville Department of Transportation and Multimodal Infrastructure (NDOT) Permits Office at 615-862-8782.

Interactive Map

Temporary right-of-way closures may be required for construction, street maintenance, or special events. All closures to the public right-of-way require a permit from the Nashville Department of Transportation and Multimodal Infrastructure (NDOT).

The street, lane, and sidewalk closures map displays active right-of-way closures in Nashville and Davidson County. The interactive map is **updated every two hours**.

Projects Underway the Week of 4/25/2022 – 4/29/2022

KEY	
Casting Adjustments	Adjustment (lowering) of utilities to allow milling machines to traverse the roadway without damaging utility assets. Re-adjustment (raising) of utilities so that they will again be flush with the new surface that will be applied.
Milling/Undercutting	Removal (milling) of old surface using a milling machine. All milled surfaces must be cleaned by the milling contractor and marked appropriately to safely direct traffic. During undercutting the old surface that has failed is cut out and new material is put back in before it is resurfaced.
Infrared	A technique where infrared heating systems apply heat to pavement surfaces and aid in the removal of existing material and replacement with new asphalt mixture.
Signal Loop Wires	Signal Loop Wires are installed under the pavement. They are used to detect vehicles passing or arriving at a traffic light.
Crack Seal	A sealant put into the construction joint to keep water out so the road will not depreciate.
Fog Seal	A sealing put on the road to give the road an extended period before it gets paved.
