There will be a seventy-five-dollar cost for additional vendor employee badges and/or for replacement badges. This shall not include any other applicable fees.

5. Application Processing.

a. Upon receipt of an application, the county clerk shall:

i. Ensure the application is complete. Incomplete applications shall be denied and returned to the applicant.

ii. Ensure that all fees have been properly paid and that the appropriate certificate of insurance has been provided. Applications for which all applicable fees have not been paid or which do not contain the appropriate certificate of insurance shall be denied.

If the applicant has been found to have committed three or more violations of this section during the preceding twelve months, the application shall be denied.

iv. Ensure that vendors offering foods, beverages, or substances have obtained all necessary licenses, permits, and/or inspections in accordance with subsection (B)(3)(e) of this section. If the required permits, licenses and/or inspections have not been obtained, the application shall be denied.

An oral notification shall suffice for this purpose. In the event an application has not been granted or denied within thirty days from receipt for filing, the permit shall be valid for one year after issuance (so long as all requirements are met and no disciplinary action is taken) and shall be renewable upon expiration in each subsequent year so long as the vendor remains in good standing and has been found to have committed no more than three violations of this section in the previous twelve-month period. In the event that a vendor is denied a permit, either upon application or at renewal, the vendor shall have an opportunity to appeal the denial as described in subsection C.4. of this section.

6. Restrictions. The granting of a permit confers a privilege, not a franchise or license. A permit does not guarantee a particular space or that any space will be available.

A. The sale of goods or services by street vendors is limited to the DTC and CF zoned districts. Provided, however, that no such sales may occur in the area (i) between Union Street and Korean Veterans Boulevard, spanning from the Cumberland River to 8th Avenue, or (ii) Symphony Place between Third Avenue South and Fourth Avenue South, or (iii) the John Seigenthaler Pedestrian Street Bridge. Additionally, vending is not allowed to occur on the portion of the street designed for vehicular traffic, excluding those permitted for a special event.

These “No Vending” areas may be created or enlarged by the commission upon reasonable public notice.

b. Nothing herein shall exempt any vendor from the provisions of [Section 12.52.130](#) regarding sales to persons in vehicles from a street or sidewalk.

c. Each street vendor must prominently display the permit, in addition to any business tax license the vendor may be required to possess, and if applicable, the health permit must also be prominently displayed. I.D. badges issued by the county clerk are to be in the possession of vendors and their employees at all times and are not transferable. Vending operations in violation of this provision shall be removed upon order of the metropolitan police department or NDOT until the deficiency is corrected.

d. Vending at the Nashville Convention Center, the Municipal Auditorium, the Nashville Arena or any other facility identified in [Chapter 6.32](#) of the Metropolitan Code shall be in compliance with the more particular regulations set forth in [Chapter 6.32](#).

e. Street vendors operating on the public way agree to indemnify and hold harmless the metropolitan government from any cause of action arising from the vendor's operation.

g. No vendor shall be entitled to compensation by virtue of being required to move to protect the public safety, allow access to utilities, or allow the free flow of pedestrian traffic, regardless of the length of time incurred thereby.

h. Permits are nontransferable.

i. The commission shall have the authority to publish and enforce such other regulations related to vending, street performers and other temporary sidewalk encroachments as shall be necessary to effectuate this section and to ensure the free flow of pedestrian and vehicular traffic and to ensure the safety of the public, including designating appropriate clearances around other features of the right of way, such as intersections, disabled parking spaces, fire hydrants, parking meters, loading zones, bus stops, building entrances and the like. In so doing, the commission may adopt a map or maps showing locations where vending is prohibited and/or where it is permitted.

j. Vending permits issued under this section shall be suspended during any special event as defined in subsection (B)(2)(h) of this section for which the metropolitan government has given its official written permission to close or otherwise alter the normal, everyday use of any public roadway, street or sidewalk, and vending shall be prohibited during the limited period of time specified for the special event and within the area covered by the special event permit except by those vending with the express written permission of the event permit holder.

k. A vendor shall promptly comply with an order of an officer of the metropolitan police department, the Nashville fire department, or employee of NDOT to temporarily move to another location when necessary to accommodate unusually heavy pedestrian or vehicular traffic, any obstructions in the public space, an accident, fire or other emergency situations, a parade, demonstration or other such event or occurrence at or near such location.

C. Suspension, Revocation or Denial of Permits.

1. Any permit issued under this section may be suspended or revoked by the commission, or its staff, for any of the following reasons:

- a. Fraud or misrepresentation in the application for the permit; or,
- b. Fraud or misrepresentation in the course of conducting the business of vending; or,
- c. Conducting business contrary to the conditions of the permit and/or these regulations; or,
- d. Conducting business in such a manner as to create a public nuisance or to constitute a danger to the public health, safety or welfare; or,
- e. Cancellation of health department authorization for food or beverage vendors, as applicable.

2. The commission, or its staff, shall consider the following factors in determining whether a permit should be suspended or revoked:

- a. The number of citations for violation of this section previously received by the vendor; and
- b. The number of previous suspensions and/or revocations imposed upon the vendor; and
- c. The number of occasions for which the vendor's permit was subject to suspension or revocation and was not suspended or revoked; and
- d. The seriousness of the violation or misrepresentation and the danger to the health and/or safety of the public presented by the vendor's misrepresentation, noncompliance and/or misconduct; and
- e. Whether or not the condition subjecting the vendor to suspension or revocation is of a nature that has been or can be corrected.

3. Upon suspension, revocation or denial of the issuance of a permit, the commission, or its staff, shall deliver written notice to the permit holder or applicant stating the action taken and the reasons supporting such action, and the right to reconsideration of that decision as set forth below. The written notice shall be delivered to the permit holder's or applicant's place of business, as described on the application, or last known address. Placement of such notice in the U.S. mail shall constitute delivery. A permit which has been suspended shall remain suspended until such time as the condition causing the suspension has been corrected to the satisfaction of the commission. A permit which has been revoked shall remain revoked for one year following the date of revocation. No vendor whose permit has been suspended or revoked may apply for a new permit during the period of suspension or revocation.

4. Any permit holder or applicant whose permit is suspended or revoked or whose application for a permit is denied may within fifteen days of the date of that action notify the commission

that the permit holder or applicant desires reconsideration of that decision. A hearing of the request shall be scheduled for the next regular meeting of the commission. The suspension or revocation shall remain in effect pending the hearing. At the hearing, the permit holder or applicant will be afforded an opportunity to be heard and to present facts and witnesses on his own behalf. The permit holder or applicant shall not be entitled to an adversarial hearing or to examine any witness except those the permit holder may present on his or her own behalf.

D. Renewals. Permits may be renewed, provided an application for renewal of the permit and the required fee are received by the county clerk no later than the date of expiration of the existing permit and provided that the vendor has no more than three violations of this regulation within any twelve-month period. A vendor whose permit has been revoked may submit an application upon the expiration of the revocation. Applications received after that date shall be processed as new applications. The commission shall review each renewal application to ensure that the vendor is in full compliance with the provisions of this regulation. If the commission determines that the vendor has complied with the above requirements, the commission will renew the permit for one year.

E. Penalties.

1. Any person who offers merchandise for sale in violation of this regulation or who violates any other provision of this regulation shall be penalized as is provided for in Section 1.01.030 of this Code, or, to the extent permitted by law, as follows:
