Street Outreach

9 agencies actively entered Street Outreach data into HMIS in April.

For **Street Outreach** projects, an **Entry** is opened when a street outreach worker interacts with someone staying in a place not meant for habitation. The entry remains open until they exit to some sort of housing situation, institutional placement or if contact is lost for more than 90 days.

988

While many Street Outreach (SO) activities are recorded only in Coordinated Entry (CE) in HMIS, best practices say that SO activities should be recorded in both 1) an agency's SO program in HMIS for reporting purposes and 2) in CE for community collaboration and referral purposes. The CoC Homelessness Planning Council voted on 3/10/21 to strongly encourage Street Outreach providers to utilize SO projects in HMIS for data collection.
