

Keep Nashville's water clean by throwing trash away in a trash can!

Don't place
trash of any
kind in, or
near, a
storm drain

Rainwater picks
up pollutants such
as dirt, oil, pet
waste, and litter,
as it flows to the
nearest creek or
river

Carry a
litter bag in
your car

If you smoke,
carry and use a
portable ash tray

When you
see litter,
pick it up

**Be a
good
example**

Make sure
your trash and recycling
is secured for curbside
collection

report littering by
calling
1-877-8-LITTER
