Budget Delegate	Carter Barnett	Idea #:	186
		Council District:	35
		SVI:	0
		Budget:	1,000,000
Location	7004 Charlotte Pike, Nashville TN 37309		
<b>Short Description:</b>			
Funding for a river front pavilion and general grounds (play and activity areas including pickle-ball) at Brookmeade Park.			
<b>Long Description:</b>			
Most of the park is in a flood plain so to support that, it would require some extra strong bracing for the project.			

- The Pavilion by the River I would say would not be possible because of flooding.
- To do Pickleball and a possible playground 2-12 in the field that is in the floodplain, would be doable.
- Water and Electricity would need to be brought down to the site.
- Playground and courts constructed with lighting.
- The path down to that point lighted would also be a must.
- Doing pickleball does not bother me but the playground being down there and being isolated from the parking lot seems like it could be an issue.
- Cost to do 6 pickleball and a medium 2-12 playground is reflected above.

Installation of traffic calming devices to improve the visibility of the Hobbs Road crossing at Julia Green Elementary School and Wallace Lane.						
<b>Long Description:</b>						
<ul style="list-style-type: none"> <li>• Will follow policy for proper crossing type</li> <li>• Consider LED bordered signs</li> <li>• Upgrade signing.</li> <li>• No rumble strips, 12 inch psycho perspective striping.</li> </ul>						

## Proposal Page

Budget Delegate	Maria Asad	Idea #:	1301
		Council District:	33
		SVI:	2
		Budget:	50000
Location	12944 Old Hickory Blvd Antioch, TN, 37013		

### Short Description:

Install 3 Flashing Caution Signs on Old Hickory Blvd at the Cane Ridge High/Mill Ridge Park entrance intersection and at the hazardous entrances for Community Farm at Mill Ridge & Friends House at Mill Ridge Park, to increase driver awareness

### Long Description:

I. Purpose: Enhance Road Safety at Critical Intersections and Entrances for the 3 Mill Ridge Park properties by the Old Hickory Blvd I-24 Junction in Antioch

II. Location:

Friends House at Mill Ridge Park: 12965 Old Hickory Blvd, Antioch, TN 37013

Community Farm at Mill Ridge: 12944 Old Hickory Blvd, Antioch, TN 37013

Mill Ridge Park Entrance: 12924 Old Hickory Blvd, Antioch, TN 37013

III. Intervention: 3 Flashing/Blinking Caution Signs

IV. Stakeholders: Local residents; Cane Ridge High students, staff, and parents; Mill Ridge Park users; Community Farm and Friends House visitors; local businesses, motorists, and the general public

V. Background: There are significant safety concerns for motorists entering and exiting the 3 Mill Ridge Park properties along Old Hickory Blvd, especially at the Community Farm and Friends House entrances, due to multiple risk factors. Key risk factors include unexpected driveway appearances, poor access management, and roadway geometry and visibility. There is high travel volume and speed in the area, as it is a significant transit route with adjacent properties with a variety of uses. There are 2 lanes. The road is highly curved, hampering visibility. The driveways for the Friends House and the Community Farm, unpaved and situated in seemingly undeveloped parcels and moderately to heavily flanked by trees, emerge suddenly for motorists. This could lead to abrupt braking, which would occur directly on the travel lanes. There are no turning lanes present and access management is poor. Both properties lack permanent signage. The greatest hazard is to motorists attempting to exit those 2 properties, due to low to non-existent visibility of oncoming traffic.

VI. Proposed Solution:

Strategically installed flashing caution signs would act as conspicuous markers to pre-alert the motorists traveling down OHB to expect turning vehicles and driveways. Benefits are: 1. Enhanced visibility 2. Speed moderation 3. Reduced Collision Risk. Additionally, Mill

Ridge Park is a high profile development and is expected to receive heavy use. The plan is for the park to encompass properties on both sides of OHB. These risks are critical to address.

VII. Next steps: Post acceptance, Department to finalize design, procurement, and installation details.

VIII. Timeline: Estimated completion is 12-36 months from approval, subject to city processes and procurement times

## Proposal Page

Budget Delegate	Maria Asad	Idea #:	1296
		Council District:	33
		SVI:	2
		Budget:	\$100,000
Location	12944 Old Hickory Blvd, Antioch, TN 37013		

### Short Description:

Bring Water Access to Mill Ridge Park: Improve our Park for Everyone

### Long Description:

I. Purpose: Establish Water Tie-In at Mill Ridge Park in Antioch For Community Garden Use

II. Location: 12944 Old Hickory Blvd, Antioch, TN 37013

III. Intervention: Construct appropriate water tie-in in at Mill Ridge Park to service community garden area.

IV. Stakeholders: Local residents, community organizations interested in growing produce, park visitors, students receiving educational programming at the community gardens, garden clubs, Master Naturalists, Friends of Mill Ridge Park, Friends of Parks of Kimbro Stations, Metro Parks, general public

V. Background: Mill Ridge Park is a newly-established Regional large acreage anchor park serving southeastern Davidson County and the highly diverse Antioch area. The Park's Master Plan incorporates a variety of features designed to be accessible to residents of different ages, cultures, socio-economic backgrounds, abilities, and interests in the area. The Master Plan specifies the locations of the community garden and the opportunities community gardening provides for social and community connections, in addition to growing food. There is strong community interest in using the gardens, and a number of potential area partners. The garden will follow the productive gardens framework. Water access is crucial. A water tie-in involves connecting the park to Metro Nashville's existing water infrastructure. While detailed technical planning requires expert intervention, preliminary assessments suggest a connection to the nearest mainline, equipped with appropriate metering and distribution points within the area. There is a planned 10 x 20 shed that could potentially house the meter. In addition, the Park's effort to obtain water by digging a well did not succeed. It was assessed that it would be more financially sustainable for the park and the community organizations utilizing the space to pay the city for water over the long term

VI. Next steps: Post acceptance, Department to conduct technical assessment, finalize design and plan, construct tie-in, and carry out quality assurance

VIII. Timeline: Estimated completion is 6-12 months from approval, subject to city processes and complexity of the project

- Install a water meter at the road.
- Install a 3-inch water line up to the community Gardens

- Install a frost-free Faucet to use or another type of faucet/s .

		SVI:	3
		Budget:	\$650,000.00
Location	5023 Blue Hole Road, Antioch, TN 37013		

### Short Description:

Provide soccer equipment for youth to check out at Antioch Park

### Long Description:

Proposal:

I propose that we provide soccer equipment for the Nashville Community Center at Antioch. Currently, the youth are bringing their own soccer goals. These youngsters love to play the game of soccer and they are requesting permanent soccer goals be installed, but in order for parks to install goals, the play-area must be a legitimate soccer field. The grounds at this Antioch facility is not an official field, therefore I'm requesting that we provide the park with equipment that can be checked out and used by the players to play the game.

A check-out/check-in schedule will need to be developed. The players will learn to coordinate their playtime more closely with the park's schedule - this will cause these youths to develop organizational skills as-well-as develop their soccer playing abilities and will, also, enhance the fun of getting their teams together before they play... it'll be something extra (fun) to look forward to. Eventually, I can see Community Soccer Events being organized at this facility.

Additionally, I believe that the use of this equipment will cause more comradery among the youth and this will, as a consequence, aid in the development of unity in the community.

The equipment that I'm requesting is:

- Removable soccer goals
- Supply of soccer balls
- Training cones
- 14 pairs of shin guards

NOTE:

- officially, each team should have a minimum of 7 players
- we recognize that most of these games may be "pickup" games with fewer than 7 players per team, but that's ok

Budget Delegate	Kaylin Campbell	Idea #:	1247, 151, 1203
		Council District:	27
		SVI:	2 (\$2,800,000)
		Budget:	\$623,000
Location	5150 Edmondson Pike, 37211		

### Short Description:

Improvements to Whitfield park, including a new shade structure, expanded and upgraded playground equipment, a water station, picnic tables, and more.

### Long Description:

Notes for metro, including cost evaluation received for each item:

- UV Shade for playground/ballpark

\$300,000 | For a small shade structure that would cover a large part of the playground.

- Upgrade equipment cable climb

\$150,000 | Expanding the playground to include more of this type of structure.

- Inclusive equipment for handicapped

\$135,000 | Would require more room. Because this is a floodplain we might need to look at some untraditional equipment here.

- Replace the Seven Mile Creek Greenway trailhead sign

\$15,000

- Fix Whitfield Park wooden sign

\$5,000

- Refillable water station

\$12,000

This will require a new fountain and pad to bring up to a frost free with bottle filler, two levels of bowls, and a dog bowl.

- Additional picnic tables

\$6,000 | Placed in grass area close to playground and ball fields. reci

Increasing pedestrian safety by installing traffic calming for two miles on Brook Hollow Road. During design, we will need to coordinate with the fire department.			
<ul style="list-style-type: none"> <li>Speed cushions for two miles of Brook Hollow. Spaced appropriately 400' apart.</li> </ul>			

## Proposal Page

Budget Delegate	Max A. Butler	Idea #:	39
		Council District:	23
		SVI:	4 (\$1,000,000)
		Budget:	\$400,000
Location	0 Jocelyn Hollow Rd		

### Short Description:

Purchasing a parcel of land that forms a keystone sitting directly in the center of approximately 350 acres of "protected" woodlands. This land is at risk of development and destruction. Purchasing this land would allow for the expansion of the West Meade Waterfall Park, allow protection of the large old-growth trees that sequester maximal carbon, allow for continuity of the Highland Rim Corridor that links all of Metro's Grand Parks, provide a secure wildlife corridor and protect the steep slopes of West Meade.

### Long Description:

Sitting just above and adjacent to The West Meade Waterfall Metro Pocket Park are 19.5 acres of privately owned old-growth forest in the midst of Nashville's Highland Rim Forest. The property is breathtaking with some of the largest trees that still exist in Nashville. Ephemeral wildflowers bloom in the spring, carpeting the forest floor. Snags and rotting logs there since the founding of Nashville still feed life. There is wildlife galore. This land holds the headwaters of Richland Creek. The parcel forms a keystone sitting directly in the center of approximately 350 acres of "protected" woodlands. (These woodlands are protected by SP zoning and include the Highlands property and Nandi Hills). This 19.5 acres is at risk of development and destruction.

In this instance, because the Participatory Budgeting funds need to be distributed with some expediency, our proposal will include the following provisions:

1. In my estimation, a fair offer to Mr. Leonard for the 0 Jocelyn Hollow Property is \$800,000. Fifty percent of that figure would come from the Participatory Budgeting Process and we would make every attempt to raise the additional \$400,000 within the community and from the various agencies we partner with.
2. In the interim, during fundraising and negotiating a sale with Mr. Leonard, the 501C3, Radnor to River, (Dr. Noah Charney, Executive Director) has agreed to hold the funds distributed from Participatory Budgeting until such sale ensues.
3. Should Mr. Leonard reject our purchase offer or should we be unable to raise sufficient funds to purchase 0 Jocelyn Hollow within a reasonable time period, the Participatory Budgeting funds will be returned to Metro.
4. A timeframe should be discussed and implemented to make sure that if this cannot happen the money will revert to Metro to be spent per the PB and ARP guidelines and deadline.

- Staff has discussed this proposal and while it appears to have high conservation value, we would not be able to support the acquisition at this time. The narrative illustrates that the land is not under development pressure due to lack of access to the property, along with the existing steep slopes which would limit developable area. Currently since the only access to the property for Parks would be by foot from the Belle Meade waterfall site on Hathaway Court, maintenance and security would be a challenge. Until the site can be accessed from another location, there would be no public parking and limited public access. The adjacent residents on Hathaway Court where the waterfall property is located, have complained about the public parking on their dead-end street and interfering with access to their private homes while accessing the waterfall. There is no assurance that the seller would reduce the asking price by more than half, and the city would not give Metro Dollars to a non-profit to hold.

## Proposal Page

Budget Delegate	D'Anelle Desire	Idea #:	80
		Council District:	21
		SVI:	1 (\$4,000,000)
		Budget:	\$525,000
Location	McKissack Park Torbett St, Nashville, TN 37209		

### Short Description:

Revamp McKissack playground, children ages 2-12 need a place to play.

### Long Description:

**\*\*Revamp McKissack Playground for a Thriving Play Space\*\***

We propose a comprehensive revamp of the McKissack playground to effectively address the pressing need for a safe, engaging, and inclusive play area catering to children aged 2-12. Our primary focus is on the replacement of the outdated metal slide, which not only lacks modern safety standards but also fails to capture the imagination of young minds.

We propose that the playground be equipped with play structures that promote physical activity, cognitive development, and social interaction such as climbing walls, interactive panels, and sensory play zones.

This proposal reflects a deep commitment to enhancing our children's well-being. We believe that a revamped McKissack playground will serve as a sign of positive change and a sense of community.

- Install a 2-12 structure that will include ADA play. **\$475,000**
- The 2-12 structure will not have some of the climbing features a 5-12 only will have.
- Install an ADA accessible path leading up to the playground **\$50,000**

## Proposal Page

Budget Delegate	Adam Bahadursingh	Idea #:	197
		Council District:	20
		SVI:	3
		Budget:	650000
Location	6031 Deal Ave, Nashville, TN 37209		

### Short Description:

Rebuild and expand the run-down playground in Charlotte Park - adding age-appropriate structures for children ages 2-5 and 5-12. Charlotte Park serves a diverse community in a rapidly growing neighborhood, including many Little League teams and young families. The current structure is small, run-down, and weather-worn from being in direct sunlight. Oftentimes, the current structure is over-capacity with the number of children trying to use it. Additionally, the swing set area floods every time it rains. This project would provide more access and a safer area for the numerous children in and outside of the community.

### Long Description:

Rebuild and expand the run-down playground in Charlotte Park, adding age-appropriate structures for children ages 2-5 and 5-12. Charlotte Park serves a diverse community in a rapidly growing neighborhood, including many Little League teams and young families. The current structure is small, run-down, and weather-worn from being in direct sunlight. Oftentimes, the current structure is over-capacity with the number of children trying to use it. Additionally, the swing set area floods every time it rains. This project would provide more access and a safer area for the numerous children in and outside of the community.

- The 5-12 structure will be replaced within the boundaries of the present playgrounds.
- We will also replace the swings and all the surfacing under the swings and the playground.
- There is space near the current playground we believe we can add a 2–5-year-old structure that will give younger children a place to play on age-appropriate equipment.
- With the two playgrounds together this should help the capacity of the park playground structures.

## Proposal Page

Budget Delegate	Kristine LaLonde	Idea #:	148 and 906			
		Council District:	19			
		SVI:				
		Budget:				
Location	1054 Scovell					
<b>Short Description:</b>						
<p><b>Long Description:</b>  Monroe Park is a North Nashville community park in a residential neighborhood near the North Library Branch. This is one of the few green spaces between 65 and Rosa L Parks. The project would upgrade the park by adding a water fountain, picnic tables, and an upgraded play area with a safer service. Additionally, the project would replace trees lost in weather events to make for a more shaded urban oasis. The project requests a cross walk between the entry points of the basketball court and playground on the alley that separates the park would be helpful.</p>						

## Proposal Page

Budget Delegate	Kristine LaLonde	Idea #:	398 and 824
		Council District:	18
		SVI:	2 (\$2,800,000) 4 (\$1,000,000)
		Budget:	\$74,000
Location	12South/Belmont Neighborhood and Natchez Trace and Blair		

### Short Description:

Enhance the neighborhood streetscape by placing historic markers sharing the African American history of Belmont-12South and adding benches to high pedestrian use areas in Hillsboro.

### Long Description:

This project has two components that would enhance the streetscape and enrich the neighborhood. First, place historic markers throughout the Belmont-12South neighborhoods to tell the story of the neighborhood's black history, including Bass Street Neighborhood, Nashville's first post-emancipation black neighborhood; the former home of the Rev. Kelly Miller Smith; the Rose Hill development; and 12South African American businesses. "This history has largely been erased in the development of the neighborhood, and many current residents are unaware of it. The markers would serve as a reminder of past prosperity and the effects of Urban Renewal Programs."

Second, the project would enhance the neighborhood by placing benches along Blair Boulevard and Natchez Trace, two heavily used pedestrian corridors, the benches would be of particular importance to aging adults and those with disabilities.

- The submission suggested four locations for historical markers, however, we would suggest adding two additional locations for a total of six. The additional markers will allow us to tell a more complete history of the Belmont-12 South neighborhoods by including additional African American businesses. The approximate cost of a historical marker is \$4,000, and **\$24,000** will provide funding for six markers.
- Allowance to purchase and install 40 benches. **\$50,000**

<b>Short Description:</b>			
Upgrades to the Coleman Park Playground			
<b>Long Description:</b>			
Upgrade and expand the playground at Coleman Park. This is a heavily used playground in the district where there are not many, and it is no longer in the best shape. We would the playground to be replaced with a better one, the swings upgraded, and surface redone.			

## Proposal Page

Budget Delegate	Brad McAlister	Idea #:	251
		Council District:	15
		SVI:	3 (\$1,500,000)
		Budget:	\$1,000,000
Location	2316 Two Rivers Pkwy, Nashville, TN, 37214		

### Short Description:

Resurface of the highly utilized Two Rivers Skatepark. Currently there is a specific location where the concrete has turned to gravel and is safety concern for citizens. This will resolve a safety concern and help elevate the usage of a frequently used Donelson amenity.

### Long Description:

The Donelson Two Rivers Skatepark is need of repair, specifically in one place where the concrete has turned gravel. This poses a safety risk to all who use the park. It's possible that the skatepark will need a complete resurface but at the very least, the current damaged surface is minimal cost and will have a positive impact to the community.

- Resurface all the concrete features.
- Add some new features like street rails and some redesign of the present bowls.
- Add a modern street skatepark design also.
- Resurface the combi Bowl

		SVI:	1 (\$4,000,000)
		Budget:	\$335,000
Location	Hermitage Branch of the Nashville Public Library 3700 James Kay Ln, Hermitage, TN 37076		
<b>Short Description:</b> Bring more books, programs and services, and classes to Hermitage Branch Library			
<b>Long Description:</b>  <p>The first improvement is to increase the Central Asia book collection in the Library, adding on to the current 103 books in the entire Nashville Public Library (NPL) system. Central Asia includes Afghanistan, Iran, and former Soviet republics such as Kyrgyzstan. (Source: <a href="https://asiasociety.org/central-asia-historical-overview">https://asiasociety.org/central-asia-historical-overview</a>) These books at Hermitage Branch Library will be accessible to all library card holders in Davidson County. <b>\$5,000</b></p> <p>The second improvement is to establish a pollinator garden in the current available space. The garden would replace resource-consuming grass lawns with native plants that attract pollinators, as well as beautify the Library grounds. <b>\$80,000</b></p> <p>The third improvement is to add music classes and a musical instrument lending service to the Library. Includes equipment and training. <b>\$100,000</b></p> <p>The fourth improvement is to implement an internet literacy training program, available to interested patrons. Training would include setting up and using email accounts, using search engines, accessibility settings, and avoiding scams. If the participants do not yet have library cards, they can sign through the Library's website. Cardholders do not have to leave their homes to borrow online books, movies, magazines, newspapers, and music. Includes equipment and training. <b>\$100,000</b></p> <p>The fifth improvement is to fund a service contract with Autism Tennessee (Autism TN) for them to provide 2 six-week sexual education workshops for adults with Autism and developmental disabilities. This program would be sponsored by the Library. Details below. <b>\$50,000</b></p>			

I. Purpose: Address sexual assault rate against developmentally disabled adults through educational intervention

II. Intervention: Fund a \$50,000 grant for 2 six-week workshops held at the Hermitage Branch Library with Autism TN as the contracted service provider, using a vetted curriculum to deliver live instruction to disabled adults who enroll, addressing topics such as sexual development, communication and consent, health, safety, and decision making.

III. Stakeholders: Adults with developmental disabilities; families; caretakers; referring disability service providers and agencies; local health care providers; local law enforcement; advocacy groups; general public

IV. Background:

At minimum, this funding request would cover the following, for one year (2 workshop sessions)

- I. Purchase of a vetted curriculum
- II. Instructor training from curriculum developers
- III. Instructor compensation
- IV. Reusable instructional assets
- V. Reusable participant materials

The actual cap on enrollment will be determined by the trainers.

Developmentally disabled adults are a population vulnerable to predation and abuse.

There are demonstrated unmet educational needs for topics related to sexual health that are tailored for this community. In general, Nashvillians report significant gaps in community supports and service providers for older age groups.

Overall, there are limited accessible settings to provide this intervention. Grants funding wellness programs are frequently limited to large institutions. HHS funds 2 self-service online courses hosted on Vanderbilt Kennedy Center's website:

<https://vkc.vumc.org/vkc/resources/healthdevelopment/>.

No other area resources have been identified.

Autism TN specializes in serving the developmentally disabled population and reliably provides year-round programming/community building opportunities in accessible formats and over multiple regions in Middle Tennessee.

VI. Next steps: Post Approval, Autism TN must identify and purchase a curriculum, with consultation from Metro Social Services. Additional planning, hiring and training to follow.

VIII. Timeline: Estimated completion is 12-24 months from approval, subject to planning time scheduling and enrollment period

		Budget:	\$75,000
Location	Jones Ave.		
<b>Short Description:</b>			
Speed pads for Jones Ave where children are crossing streets to Tom Joy Elementary without assistance of a crossing guard or police.			
<b>Long Description:</b>			
Speed Pads for Jones Ave. to slow down traffic where kids are crossing streets to Tom Joy Elementary without the assistance of a crossing guard or police. There are two pads installed at the north end of Jones Ave and right as you pass the caution light at the top of Jones Ave. which does not help calming the traffic before driving towards the school zone. The two pads are too far apart. If pads were installed at the side streets Dellway Dr., Flamingo, Woodyhill and Norton Streets would be more safer for our children.			

## Proposal Page

Budget Delegate	Carey Rogers	Idea #:	291
		Council District:	7
		SVI:	4
		Budget:	\$900,000
Location	Cornelia Fort Airpark - Shelby Bottoms Greenway		

### Short Description:

Restroom Facility at Cornelia Fort Airpark at Shelby Bottom Greenways

### Long Description:

This project is for restrooms at Cornelia Fort Airpark. It was purchased by the city after the flood of 2010 closed the airfield. It has been left as is, except for installation of a playground and outdoor workout facility. Friends of Shelby Park holds several fundraising events very summer and it sees heavy use every day by numerous visitors. The greenway here extends to downtown in one direction and to Percy Priest Dam in the other. The only public restroom facility is one porta potty despite the growing number of park users. Many are families with young children and I'm sure restroom facilities would make visits far more enjoyable. One of the existing buildings could be converted into meeting or office space as well as restrooms.

### Metro Department Comment:

This would be located in a floodplain. That whole area down there in 2010 flooded so it is now considered floodplain. We could put a restroom down there but will have to get with stormwater to see what they would allow. We might have to build the restroom up and have ada ramps up to it. So converting a space would not be likely. We would have to do a new structure so that would add to the cost.

- Based on stormwater's approval, which we would need to be able to put a restroom in this area, we could put a restroom there.
- The restroom would be prefab but built on a taller structure to keep it out of the floodplain.
- We would have to build ADA ramps up to the restrooms so we are compliant.

Budget Delegate	Cara Harris	Idea #:	19
		Council District:	6
		SVI:	2
		Budget:	600000
Location	620 S. 9th St. Nashville, TN		

### Short Description:

Creating a new, safe playground at Kirkpatrick Park to replace the existing one that is in disrepair and is dangerous for children to use.

### Long Description:

The existing playground at the Kirkpatrick Park is in currently unusable. There are broken slides and other parts in disrepair making it unsafe.

This project will allow for a new playground to be added in place of the existing. will be repaired to make all parts usable and be safe for children to use again. A new playground structure and play surface that meets current safety standards will be added.

In addition, some shade covers will be added to the new structure to provide some areas of shade on the playground.

Specifically, the following would be completed:

- New pour in play surface adding to the playground area.
- New playground structure installed.
- Shade covers placed in various spots places on the new playground structure.

		Council District:	5
		SVI:	2
		Budget:	\$850,000
Location	McFerrin Park 310 Grace St. Bus shelters at Dickerson Pike & Grizzard Ave. SB and NB		

### Short Description:

Enhance child development with a major playground design upgrade that's inclusive (\$650,000).

Add bus shelters at Dickerson Pike & Grizzard Ave. SB and NB (\$200,000).

### Long Description:

Propose a major upgrade to McFerrin Park playground. The Park's playground equipment has several issues ranging from antiquated equipment to rust. Create a recreational ground that accommodates all age groups with equipment to stimulate the sensors, and engage those with mobility challenges. The new area should be inclusive offering ADA-compliant swing options, wheelchair-accessible turf, Autism friendly activities, and hearing-impaired options; safety and age-appropriate structures (2-5 yrs old and 5-12 yrs old), benches to sit, and trees for shade. The requested improvements will contribute to a child's development by engaging in mental and physical stimulation.

Request to add bus shelters at Dickerson Pike & Grizzard Ave. SB and NB. It will serve a high pedestrian area with many marginalized and disenfranchised residents dependent on safe public transportation. As a result, this will reduce frequent pedestrian/vehicular deaths.

Budget Delegate	Robert Taylor	Idea #:	93 and 1034
		Council District:	1
		SVI:	1
		Budget:	\$1,000,000.00
Location	Bordeaux		

### Short Description:

Timothy is currently home to the oldest playground structure in Metro. The Bordeaux community has been overlooked for decades. Now is the time to right the wrongs of the past by updating this critical neighborhood park as a part of the activities to comm

### Long Description:

We would like Timothy Park to Be Refreshed. It is a wonderful green space in North Nashville. Funding should be set aside to Replace park benches, Resurface the walking track around the park, Replace the old children's playground with a new playground, Update the basketball court, and restripe the parking. This Park should be a crown jewel in North Nashville. We would love to see it treated as such. This project will improve the community's quality of life as a part of the larger revitalization of Bordeaux. \$900,000

In that vein, we would also like to fund a community gathering to commemorate the Clarksville Pike widening project and the revitalization of the Bordeaux community/business district. The activities could include the following items over a one-week period: Ribbon Cutting, Jazz on the lawn, Taste of Bordeaux, Placing Bordeaux Flags on light posts, providing additional landscaping and proving the community with a commemorative publication. \$100,000
