Budget Delegate	Kristine LaLonde	Idea #:	398 and 824
		ID:	18
		SVI:	2 (\$2,800,000)
			4 (\$1,000,000)
		Budget:	\$74,000
Location	12South/Belmont Neighborhood and Natchez Trace and Blair		

Short Description:

Place historic markers to highlight the African-American history of Belmont-12South area and install benches on Blair Boulevard and Natchez Trace.

Long Description:

This project has two components that would enhance the streetscape and enrich the neighborhood. First, place historic markers throughout the Belmont-12South neighborhoods to tell the story of the neighborhood's black history, including Bass Street Neighborhood, Nashville's first post-emancipation black neighborhood; the former home of the Rev. Kelly Miller Smith; the Rose Hill development; and 12South African American businesses. "This history has largely been erased in the development of the neighborhood, and many current residents are unaware of it. The markers would serve as a reminder of past prosperity and the effects of Urban Renewal Programs."

Second, the project would enhance the neighborhood by placing benches along Blair Boulevard and Natchez Trace, two heavily used pedestrian corridors, the benches would be of particular importance to aging adults and those with disabilities.

Metro Comments

- The submission suggested four locations for historical markers, however, we would suggest adding two additional locations for a total of six. The additional markers will allow us to tell a more complete history of the Belmont-12 South neighborhoods by including additional African American businesses. The approximate cost of a historical marker is \$4,000, and \$24,000 will provide funding for six markers.
- Allowance to purchase and install 40 benches. \$50,000

This project page has been curated by a budget delegate, drawing inspiration from ideas submitted by Nashville residents until June 20, 2023. It has been shaped with initial input regarding scope and budget from a Metro department. While Metro is committed to adhering to the specified scope, adjustments or even the potential elimination of certain aspects may become necessary during implementation, influenced by site-specific or unforeseen conditions. Furthermore, the projects' funding source is from the American Rescue Plan Act (ARPA), which current guidelines require all ARPA-funded projects be completed by December 2026. Should any project be delayed or expected to be delayed beyond this deadline, it shall be subject to elimination. The implementation timeline will be rigorously monitored to ensure compliance with this crucial requirement. Any prospective alterations to the project will be subjected to rigorous scrutiny and resolution by the steering committee during their regularly scheduled meetings.
