

## Where do I park on South 14<sup>th</sup> Street?

The Nashville Department of Transportation is repaving South 14<sup>th</sup> Street and adding a bikeway and traffic calming. Between Lenore and Davidson, the new bikeway features a protected bike lane on the east/uphill side of the street and a shared biking/driving lane and on street parking on the west/downhill side of the street. With these changes, there will be **on street parking on the west side of S 14<sup>th</sup> Street only**.

The image below shows where the on-street parking will be located and where you should park following repaving.
