| Metropolitan Government of | Subject: Cash Balances | Revision Date: |
|-------------------------------|------------------------|----------------|
| Nashville and Davidson County | | April 1, 2019 |
| Finance Dept. Policy: OMB #13 | Sponsor: Finance OMB | Pg. 1 of 3 |
| Effective Date: April 1, 2019 | | Ĭ . |

Purpose

The purpose of the Cash Balances Policy is to identify the appropriate treatment of metro investment pool (MIP) balances in Metro funds and to identify required actions to mitigate negative MIP.

Definitions

MIP: The cash from Metro's accounts that are pooled to form the Metro Investment Pool, otherwise known as MIP. These funds are invested daily in order to earn interest.

Negative MIP: A negative average daily cash balance.

Grant: Revenue from non-Metro sources, which is provided for a specific purpose, usually with restrictions set by the grantor. Grants typically involve formal agreements or contracts describing those specific purposes and restrictions.

TAN's: Tax anticipation notes that are used to fund cash deficits in tax supported funds prior to the collection of property taxes.

General Policies

- Fund cash balances will be reviewed on a monthly basis by the Division of Accounts.
- Funds with a positive average daily cash balance will be treated as investors in the MIP and will earn interest income.
- Funds with a negative average daily cash balance will be treated as borrowers from the MIP and will be charged interest expense.
- · Interest income or expense will be determined monthly.
- Interest expense for non-grant funds will be debited to a fund's MIP revenue account.
- Interest expense attributable to grant funds will be charged to the applicable department's operating budget, since interest expense is generally an unallowable grant expense. Exceptions can be made by the Chief Accountant for grants that allow the reimbursement or capitalization of interest charges (in the case of construction projects with grant funding).
