## Nashville Community Homelessness & Housing Data, May 2025

Data Source: The Nashville-Davidson County Homeless Management Information System (HMIS). HMIS is a *shared community database* that collects data on households experiencing homelessness and programs intended to end homelessness. HMIS includes data from **48 participating service providers** in Nashville; including emergency shelters, transitional housing, street outreach, supportive services, and permanent housing programs. The Office of Homeless Services is the HMIS Lead Agency responsible for administering the HMIS and associated reporting.

The data below fluctuate month to month based on varying levels of community participation in HMIS and street outreach coverage. Any changes from month to month may or may not reflect true changes in homelessness.

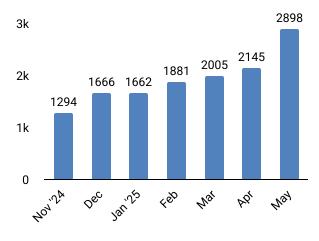

**3,334 people** experienced homelessness in Nashville in **May 2025**. These 3,334 people were in **2,777 households**; **239 families** (including 435 children) and **2,538 adult only households**. Over the past 12 months, **10,407 unique people** have experienced homelessness in Nashville.

#### Number experiencing homelessness

**Increased Data Collection:** As of November 2024, HMIS includes data from the Nashville Rescue Mission for the first time. While our system and community adjusts to this improvement in data collection, the data from these programs will be separated from our regularly reported data. The numbers below reflect the number of people experiencing homelessness served by the Nashville Rescue Mission since the month of November 2024. These numbers cannot be added to the above **3,334** to create an unduplicated total. As we improve data quality and strengthen the connection between HMIS and the Nashville Rescue Mission, we expect to see these numbers increase.

In May 2025, 2,898 people were served by the Nashville Rescue Mission in HMIS.
