

April Team of the Month: Vaccine Preventable Disease**Which of the following criteria does your nominee most embody?**

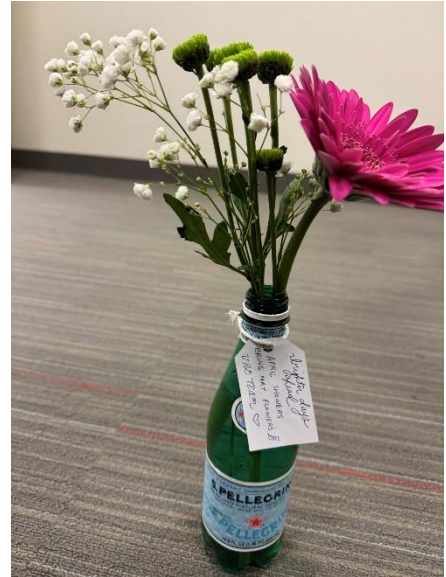

Excellence in Motivation

Inspiring a Positive Attitude

Enhancing Workplace Culture

Please provide a specific example that illustrates why you feel this team should be the MPHD Team of the Month:

Bringing joy and brightness to each other's day during a time of unknowns and increased anxiety, the VPD team set aside a few minutes of the day to create sweet flower bouquets with an inspirational message to share with colleagues who may need a bright spot in their day. As a recipient of one of these bouquets, I am reminded of MPHD's greatest asset: a workforce that shows up every day with positivity, support for each other and a commitment to serving others.
