

June Team of the Month: School Health Summer School Nurses

Which of the following criteria does your nominee most embody?

Excellence in Teamwork

Please provide a specific example that illustrates why you feel this team should be the MPHD Team of the Month:

With summer upon us, many school nurses are enjoying their well deserved summer break, but a few select have stayed behind to weather the summer heat in our MNPS schools. Our amazing team of Summer School nurses have shown up and continued to provide care to our most at risk youth. As you can imagine, staffing for summer can be tricky. Our small team of nurses have met the demands of the program. They have traveled to schools near and far, sometimes at the drop of a hat, to ensure students needing a nursing procedure receive one. We are so appreciative of all of their hard work and the time they gave to the students of Metro Nashville Public Schools this summer.

Nominated by: Stacie Allen
