

## Water Quality SCM Maintenance Companies Serving Nashville

The following is a list of companies that inspect and facilitate maintenance for post-construction water quality Stormwater Control Measures (SCMs), such as underground detention units, bioretention basins, pervious concrete, and stormwater ponds. Each company on this list has submitted a signed statement to Metro that states their company will abide by the following guidelines:

- The Company will not provide inaccurate representation/advertisement of the Metro SCM Maintenance Company List or hold itself out as an agent or representative of Metro;
- The Company will accurately communicate Metro SCM inspection and maintenance requirements to the public and clearly identify optional measures recommended by the Company but not required by Metro;
- The Company will abide by all applicable Federal, State, and Local maintenance-related material disposal guidelines;
- The Company will abide by all Occupational Safety and Health Administration (OSHA) and TOSHA guidelines in performing SCM inspections and maintenance; and
- The Company will follow all SCM inspection/maintenance reporting requirements, as established by stormwater regulations and LTMA's for properties' SCMs constructed after 2007.

This list is for your convenience only and is not a recommendation or endorsement by the Metropolitan Government of Nashville and Davidson County of the services these companies provide nor is it an exclusive list of companies that offer SCM maintenance services in Metro Nashville-Davidson County.

**PLEASE NOTE:**

General safety precautions should be followed for all SCM maintenance activities. OSHA permit-required confined space protocols must be followed during the inspection and/or maintenance (I&M) of certain stormwater quality underground detention units.

**In addition to this list:**

As another resource, the University of Tennessee (UT) and the Tennessee Department of Environment and Conservation (TDEC) provides a state-wide training and certification program for post-construction SCM inspection and maintenance. For a list of certified professionals, visit: <https://tnpermanentstormwater.org/SCMIMcertLst.asp>.

To add your company, please provide a signed certification statement to Howard Jackson via email at [Howard.Jackson@Nashville.gov](mailto:Howard.Jackson@Nashville.gov). For questions, Howard can be reached at 615-862-4609. Howard can provide blank certification statements upon request.
