

# Neighborhood Street Traffic Calming Program

## Spring 2026 Selection

### Top 25 Streets – Prioritization Details

This graphic provides a visual break down of the different scoring components for the top 25 segments.

#### Vehicular Speed (45%)

How fast are vehicles traveling along the street?

#### Volume (25%)

How many vehicles are traveling on the street each day?

#### Non-Driver Accommodations (15%)

Are there sidewalks along the segment and/or bikeways and transit service close by?

#### Vulnerable User Crashes (10%)

Have there been any pedestrians or bicyclists hit on the street in the past 10 years?

#### Trip Destinations (5%)

Is the street close to common trip destinations like parks, schools, libraries, and community centers?
