

Nashville Community Homelessness & Housing Data, March 2026

Data Source: The Nashville-Davidson County Homeless Management Information System (HMIS). HMIS is a *shared community database* that collects data on households experiencing homelessness and programs intended to end homelessness. HMIS includes data from **47 participating service providers** in Nashville; including emergency shelters, transitional housing, street outreach, supportive services, and permanent housing programs. The Office of Homeless Services is the HMIS Lead Agency responsible for administering the HMIS and associated reporting.

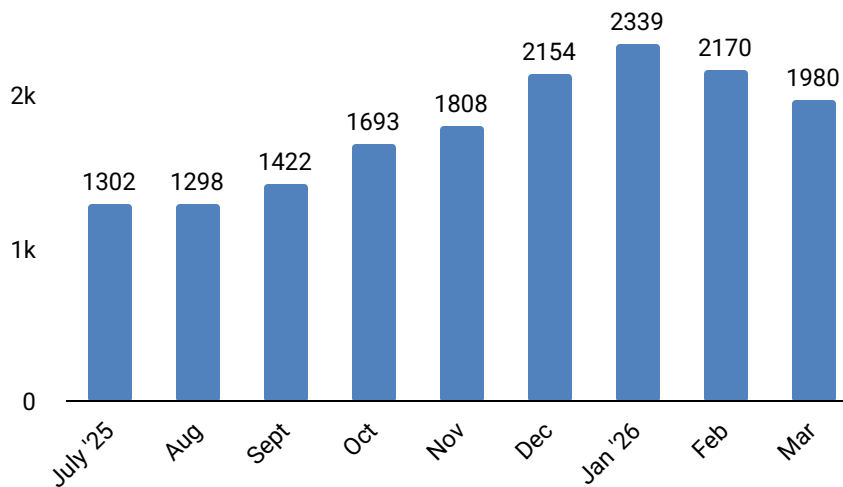

3,849 people experienced homelessness in Nashville in **March 2026**. These 3,849 people were in **3,203 households**; **202 families** (including 495 children) and **3,001 adult only households**. Over the past 12 months, **12,440 unique people** have experienced homelessness in Nashville.

Number experiencing homelessness

Increased Data Collection: As of November 2024, HMIS includes data from the Nashville Rescue Mission. While our system and community adjusts to this improvement in data collection, the data from these programs will be separated from our regularly reported data. The numbers below reflect the number of people experiencing homelessness served by the Nashville Rescue Mission since June 2025. These numbers cannot be added to the above 3,849 to create an unduplicated total. As we improve data quality and strengthen the connection between HMIS and the Nashville Rescue Mission, we expect to see these numbers increase.

In **March 2026**, **1,980 people** were served by the Nashville Rescue Mission in HMIS.

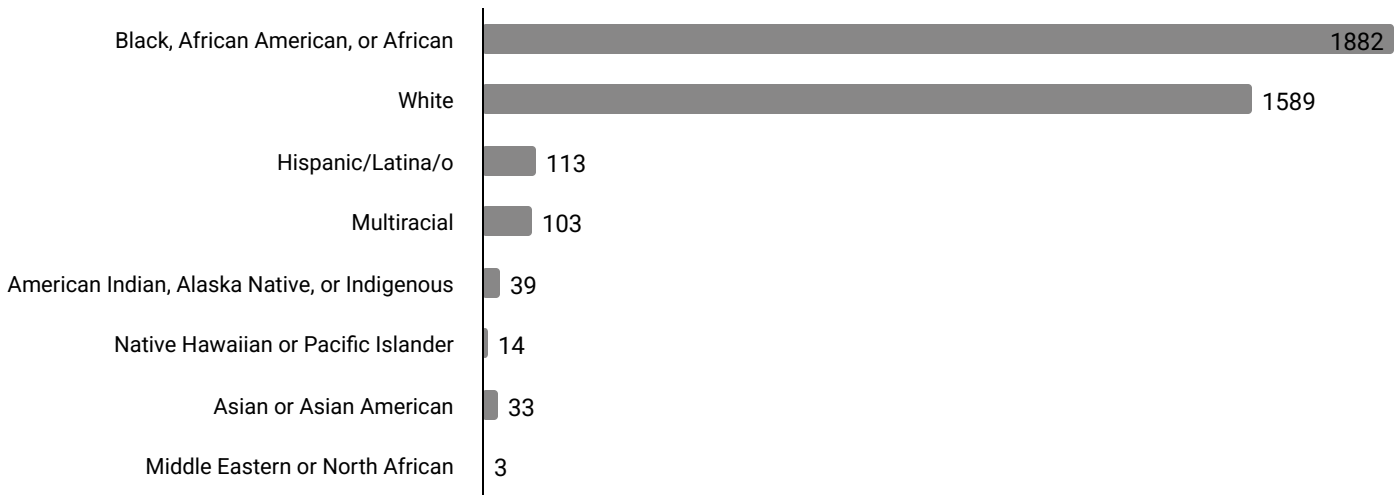

Nashville Community Homelessness & Housing Data, March 2026
