

Budget Overview

Metro Government

As a consolidated government, Metro provides all services and performs all functions normally associated with Tennessee city and county governments. This also means that the government and its budget are more complex than those of most other cities and counties.

History: ([History of Metropolitan Nashville Government | Nashville.gov](#))

About Nashville – Our Community Profile

The city is a center for music, healthcare, hospitality, publishing, banking, and transportation industries. Frequently cited are the area’s low cost of living, a variety of residential opportunities, abundant recreational and tourist opportunities, a lively cultural base, diverse economy closely mirroring that of the nation, a regional hub for healthcare, and many institutions of higher education. Transportation is available by air, train, water, and road – 50% of the nation’s population lives within 650 miles via one of the three interstate highways (i.e., I-65, I-40, and I-24) that converge in the city. Although it has a diverse and balanced economy with manufacturing, transportation, education, financial, healthcare, and other services, Nashville may be best known as the home of country music – Music City USA.

Metro Nashville - Davidson County is home to many unique festivals and industries, and the city houses an impressive park system which has a replica of the Parthenon. For a complete listing of festivals, businesses, and industries, visit [Nashville Chamber of Commerce’s website](#) or [VisitMusicCity’s website](#).

Budget Overview

Cost of Living

The cost of living in Nashville is slightly higher than the national average, which can largely be attributed to its growing economy and population boom. Cost of living data is from [Best Places](#). There are nine categories included in cost-of-living data and displayed in the table below. When examining the data, keep in mind the national average equals 100 and each city's index is shown as a percentage of the average of all cities.

Nashville Compared to Other Tennessee Cities

City	Overall	Grocery Items	Health	Housing	Utilities	Misc. Goods	Transportation	Median Home Cost
Franklin	139.4	106.6	99.0	214.4	97.3	110.8	100.9	\$784,100
Nashville	104.7	102	99.4	117.1	99.3	99.99	100.7	\$413,200

Knoxville	91.8	97.2	97.5	88.2	95.6	100.8	81.8	\$314,700

Education

The Nashville region is defined by its well-educated population, low cost of living and doing business, and creative culture. Cultural diversity, unique neighborhoods, a variety of industries, and a thriving creative community make Middle Tennessee among the nation's best locations for relocating, expanding, and startup companies.

Metro Nashville Public Schools (MNPS) stands as one of the nation's largest school districts and among Nashville's major employers. Whether you are seeking an excellent school for your children or a fulfilling career opportunity with top-notch benefits, MNPS offers a diverse range of programs and opportunities to meet your needs.

Budget Overview

Services Districts

The Charter requires that Metro’s operating budget be divided into two districts: The General Services District (GSD) and the Urban Services District (USD). The GSD is synonymous with Davidson County; the USD comprises the old City of Nashville plus certain areas added since Metro was formed.

The geographic areas, purposes, and functions of these two districts determine the way services are budgeted and provided in Metro. The two districts relate services provided to taxes paid. GSD services are similarly provided across the whole county. The GSD tax rate covers these services. The USD receives additional services, which are funded by an additional USD tax rate.

General Service District	Urban Service District
525 Square Miles	199 Square Miles
210,1110 people	535,794 people
General government, financial management, schools, justice administration, law enforcement and incarceration, fire and ambulance, regulation and inspection, social services, health, hospitals, libraries, public works, traffic control, recreation.	All GSD Services plus public services including trash and recycling collection and street lighting.

Budget Overview

Financial Organization

The budget is a financial planning and policy document, and it is organized according to Metro's financial accounting and coding structure. The coding structure – the chart of accounts – corresponds roughly to the government’s administrative organization and service structure, while meeting the legal and accounting requirements of the government. It forms the basis for Metro budgeting, accounting, and financial reporting, and it is used in both the budget ordinance and this book.

The entire budget is organized by fund. Revenues of each fund are organized by type and source. Expenditures of each fund are organized by business units, object accounts, and positions.

The Fund Structure

A "fund" is an accounting entity with assets, liabilities, equities, revenues, and expenditures, held separate in the budget for certain specific activities or to accomplish definite objectives.

Tax Supported Budgetary Funds

Most of Metro's tax dollars are deposited into and spent out of six basic budgetary funds in the two districts (i.e., GSD and USD). The list below shows the names of these six funds with its fund number in parentheses.

- GSD General Fund (10101)
- GSD Debt Service Fund (20115)
- Schools (MNPS) General Purpose Fund (35131)
- Schools (MNPS) Debt Service Fund (25104)
- USD General Fund (18301)
- USD Debt Service Fund (28315)

These six budgetary funds provide the basic local government services to Davidson County. They are financed primarily through sales and property taxes, and their expenditures are controlled based on appropriations in the budget ordinance.

The two *General Funds* (i.e., 10101 and 18301) provide for the traditional operating services of the government. These funds receive property and sales taxes, charges for services, fees, fines, penalties, and other revenues.

The three *Debt Service Funds* (i.e., 20115, 25104, and 28315) finance the payment of interest and principal on long-term general obligation debt of each district. Per the Charter, debt service budgets must be sufficient each year to pay the principal and interest due on outstanding bonds.

The *School Fund* (i.e., 35131) is Metro's biggest special revenue fund. Special revenue funds are described more broadly later in this section. The School Fund receives a dedicated portion of the property tax and, by state law, a portion of the local option sales tax. This fund's expenditures are budgeted and controlled by the Metropolitan Board of Public Education (MBOE) for Metropolitan Nashville Public Schools (MNPS).

The two districts and six funds make it possible to allocate taxes and services in each district and fund. Revenue collected for each district can be spent only for purposes prescribed for that district. After the budget is passed, appropriations cannot be transferred between funds and/or districts except as specifically authorized in the budget ordinance.

Comparison of the FY2026 and FY2027 Budget Ordinances – Six Tax Supported Budgetary Funds				
	FY2026 Operating	FY2027 Operating	\$ Change	% Change
GSD General Fund	\$1,857,113,900	\$1,893,502,700	\$36,388,800	1.96%
GSD Debt Service Fund	304,561,400	294,942,400	(\$9,619,000)	-3.16%
GSD School Fund	1,413,018,500	1,448,228,500	\$35,210,000	2.49%

Budget Overview

Special Purpose Funds

Metro uses other types of funds for special purposes. Non-tax supported budgetary fund expenditures are limited to revenues received by each fund and balances held in each fund, rather than appropriations. Monies in these funds generally cannot be used to support other funds. These non-tax supported budgetary funds are explained below.

Internal Service Funds provide services to Metro departments on a cost reimbursement basis.

Enterprise Funds provide services to the public on a cost reimbursement basis. The primary enterprise funds are the Farmers' Market, Board of Fair Commissioners, Municipal Auditorium, and Water Services funds.

Capital Projects Funds account for costs related to capital projects. These are not generally included in the operating budget.

Permanent Funds and *Fiduciary Funds* account for monies held for others. These are not generally included in the operating budget.

Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted for expenditure for specified purposes. These include the Schools Fund (mentioned above), Waste Services, grants, and the General Fund Reserve Fund, which is typically called the Four Percent Reserve Fund.

Accounting & Budgeting

This budget conforms to guidelines of the Charter and standard municipal budgetary practices, while the year-end *Annual Financial Report* conforms to governmental Generally Accepted Accounting Principles (GAAP). Due to these varying guidelines, the budget and the Annual Financial Report are not strictly comparable to each other. Specifically:

- This budget recognizes that Metro operates in two general funds, as required by the Charter and Tennessee law. Governmental GAAP recognizes only one general fund per government.
- This budget treats transfers to and from any fund as revenues and expenditures, respectively, of that fund. Governmental GAAP classifies them as "Other Sources & Uses of Funds."
- This budget does not include certain "component units" that are required to be included in the Annual Financial Report.

Financial Policies

The budget is governed by policies set out in the Charter and by executive decision. These policies are enforced by the Department of Finance through ongoing processes, internal control systems, special analyses, and the annual independent audit. A full list of Financial Policies can be found on the [Supplemental Budget Resources \(Citizens' Guide to the Budget\)](#) site.

Operating Budget Policies

- The operating budget process must begin no later than March 1. All relevant departments, boards, commissions, and agencies must provide information as requested by the Finance Director for the budget's preparation. The Office of Management and Budget (OMB), overseen by the Finance Director, coordinates most of the budget preparation. Once the budget is prepared, the Finance Director submits the proposed budget to the Mayor for review and necessary changes before submitting it to Council (Charter §6.02).
- The Mayor submits the recommended operating budget to Council as an ordinance, along with a transmittal message, by May 1st. Upon receiving it, the council reviews the budget through three readings. Between the first and third readings, the Council Budget and Finance Committee holds a series of public departmental hearings, and the Council holds a hearing mandated by the Charter for public comments (§6.05).
- The Council approves, amends, or substitutes the Mayor's budget. Revenue estimates cannot be altered except to rectify errors. A balanced budget must be approved by midnight on June 30th, or the Mayor's budget and proposed tax rate automatically take effect (§6.06)

Capital Improvement Budget Policies

- The Planning Commission must begin preparing a Capital Improvement Budget (CIB) no later than March 1st. The CIB comprises a program of proposed capital expenditures for the upcoming fiscal year and the subsequent five fiscal years. Accompanying the CIB is the Planning Commission's report and recommendations for the program. The Planning Commission provides the CIB to the Mayor for review and necessary changes before submitting it to the Council.

Budget Overview

- The Mayor must submit the CIB to Council by May 15th. As part of this submission, the Mayor recommends projects for the upcoming fiscal year and the method of financing CIB projects. Projects to be financed from current revenues for the ensuing fiscal year are included in the appropriate current operating budget.
- The Council must approve, amend, or reject the proposed CIB and means of financing by June 15th. (§6.13).

GSD General Fund Reserve Policies

- The GSD General Fund Reserve is also known as the Four Percent Reserve Fund.
- Four percent of original revenues is allocated to the Four Percent Reserve Fund. The Mayor and Council have the authority to appropriate funds from this reserve through resolution for equipment purchases in departments funded by the general fund budget. (§6.14).
- The Four Percent Reserve Fund will maintain a minimum fund balance of \$1,000,000: \$500,000 by Administration policy and an additional \$500,000 by Council policy.
- The Council has not exercised its ability to create a contingent reserve fund not to exceed four percent of the general fund revenue of the USD (§6.14).

Additional Financial Policies

- The fiscal year begins on July 1st and ends on the following June 30th. (§6.01) Each fiscal year can be referenced in two ways: by using both years (e.g., "2026-2027") or by the calendar year in which the fiscal year ends (e.g., "FY2027" for 2026-2027).
- The operating budget ordinance is organized by district, fund, and account number. Each fund's budget must be balanced: estimated revenues plus estimated fund balances must cover all budgeted expenditures (§6.03).
- The budget ordinance contains annually budgeted governmental operating funds, debt service funds, enterprise funds, internal service funds, and special revenue and other grant funds with fiscal years beginning July 1st. It does not include grant funds with non-Metro fiscal years, capital projects, bond funds, fiduciary funds, permanent funds, component unit funds (unless the component unit receives significant general fund money), and other funds with multi-year budgets. The budgets of funds that are not included in the annual operating budget are approved through other processes as required by law.
- Operating costs will be covered by current operating revenues, while long-term debt will only finance capital goods as permitted by the Charter. The government will refrain from using non-recurring revenue to support ongoing operations of the three operating funds such as salaries and benefits, regular operational supplies and services, routine maintenance and repairs, ongoing contractual obligations, or new programs that require future appropriations. Nonrecurring revenue, including transfers from special, enterprise, and internal service funds, will be allocated for activities that do not require continuous funding such as one-time capital expenditures, debt service, one-time investments, strategic initiatives without recurring cost, or to build reserves. To safeguard the government's financial standing against unexpected emergencies or revenue downturns, fund balances will not be appropriated unless the audited unreserved undesignated fund balances are at least 5% of the fund's budgeted expenditures (Resolution R89-959 adopted on 11/21/1991).
- Departments cannot exceed their budget allocations. The amount designated in the adopted operating budget for each organizational unit, purpose, or activity constitutes the annual appropriation for that item. No expenditure or encumbrance will be permitted beyond the unencumbered balance of the respective appropriation or allotment (§6.06).
- Departmental funds may be used for personnel costs, operational expenses, training and development, travel, professional services, and programmatic activities. Departmental funds may not be used for personal expenses or purchases, alcohol, entertainment, or gifts, political contributions, fines, penalties, or legal settlements -unless otherwise authorized and approved by the Law Department, Finance Director or the Metropolitan Council, or expenditures not aligned with budget appropriations, grant restrictions, legal requirements, debt covenants, and capital spending plans. Restrictions shall be determined by funding source. Any use of funds requires the approval of a Department Head or Department Head Designee prior to payment. All non-payroll payments must be approved by a Department Head or Department Head Designee prior to payment through the ERP accounts payable system. Payroll payments are initially approved when a Department Head or Department Head Designee authorizes the Human Resources Department to hire an employee and must also be approved by a Department Head or Department Head

Budget Overview

Designee with the submission of each payroll to the Department of Finance's Payroll Section in order to ensure that any payments above base pay are appropriately reviewed and approved. The Department Head shall ensure that use of funds are aligned with approved purposes, do not exceed approved budgetary limits as authorized by the Metropolitan Council, that departmental processes – whether manual processes or automated workflow processes – are established to ensure that all uses of funds from all sources are appropriately approved by the Department Head or authorized Department Head Designees.

- All annually budgeted funds are budgeted using the current financial resources measurement focus and the modified accrual basis of accounting.
- Accounting and financial reporting will adhere to generally accepted accounting principles (GAAP) for governments as established by the Governmental Accounting Standards Board (GASB), the federal Office of Management and Budget, the Federal Comptroller General, and the State of Tennessee.
- The Council ensures an annual independent audit of all government accounts and financial transactions, including those of departments, boards, commissions, and agencies. This audit is conducted by a certified public accountant (CPA) or a CPA firm with expertise in governmental accounting. A three-member audit board, comprising the presiding officer of the Council, the chairman of the finance committee of the Council, and the chairman of the board of education, selects the auditor. The audit report is made available to the public and the press. Additionally, the Council reserves the right to order special audits or examinations of any government entity at any time (§6.15).
- The Fund Balance Reserve policy establishes a minimum target of 17% for each governmental operating fund, equivalent to approximately two months of Metro's operating expenditures. Additionally, the policy establishes a Budget Sustainability Reserve to be used to stabilize the budget in times of economic downturn. This reserve has a minimum target of 1% of the budgeted operating expenditures and budgeted debt services but can be increased to as much as 6% if determined necessary by the Finance Director. Finally, the policy sets a minimum target of 50% of the budgeted debt service, or a higher amount if necessary to avoid issuing tax anticipation notes. The policy outlines the circumstances under which the Fund Balance Reserves can be utilized. For instance, the operating reserve may be accessed during the budget process in the event of an economic downturn. Both the operating reserves and debt service reserves could be utilized to address unusual, unanticipated, and unforeseen expenditures or revenue declines, but only after exhausting all other reserves or budgeted contingencies (§ 5.04.160).

Long-Term Financial Planning

As revenue growth slows following a period of elevated post-pandemic expansion, Metro continues to plan for a more measured and sustainable environment while monitoring several factors that could affect Nashville's long-term financial outlook. Impacts from inflation, market volatility, the potential loss of Federal grants, and the phase-out of COVID-era funding create uncertainty in future revenue performance and are key considerations in long-term planning. The administration remains committed to maintaining and improving the overall financial position of the government. Future budgets will continue to be balanced, meet all debt service and contractual obligations, and fund Schools at or above state-required levels.

The keystone to any sound long-term financial plan is to provide mechanisms that enable officials to anticipate and plan for future fluctuations in revenues and expenses. As part of the annual budget development process, all Metro departments are asked to document:

- Future investment requests for the next three fiscal years, including associated FTE needs when applicable.
- Revenue estimates for the next three years.
- Long-term operational needs associated with planned capital investments.

Metro combines this data with known trends in spending, contractual obligations, debt service, and revenue projections to develop models that project the long-term impacts on tax rates and fund balance. This type of modeling helps Metro remain aware of the long-term impacts of current and future budgeting decisions.

To ensure financial stability in the case of any future economic uncertainty, Metro has strengthened its fund balance policy.

The Unrestricted Fund Balance Reserve (referred to as the Operating Reserve) is calculated to be a minimum of 17% of each fund. This is approximately the equivalent of two months of Metro's budgeted operating expenditures. It may only be used to address unanticipated expenses and revenue shortfalls after all other reserves or budgeted contingency funds have been exhausted.

Budget Overview

In the event of an economic downturn, the Budget Sustainability Reserve – calculated at 2% of budgeted operating expenditures and 4% of budgeted debt service of each respective fund - is designated to provide bridge funding to offset revenue declines. The use of this reserve by the Metropolitan Council is guided by projected declines in local revenue sources identified during the budget development process.

These Fund Balance Reserve Policies signal to the citizens, the rating agencies, and the capital markets that the Metropolitan Government is well-managed, is able to meet its obligations in a timely manner, and has the resources necessary to accommodate unforeseen circumstances.

The Mayor's priorities significantly influence the operating budget, guiding investments toward initiatives that improve outcomes for residents. Concurrently, the Office of Performance Management (OPM) develops, measures, and reports performance data to inform decision-making and improve program effectiveness. These efforts strengthen transparency and accountability within Metro while establishing clear service expectations for the public. Together, they support both current operations and long-term financial planning.
