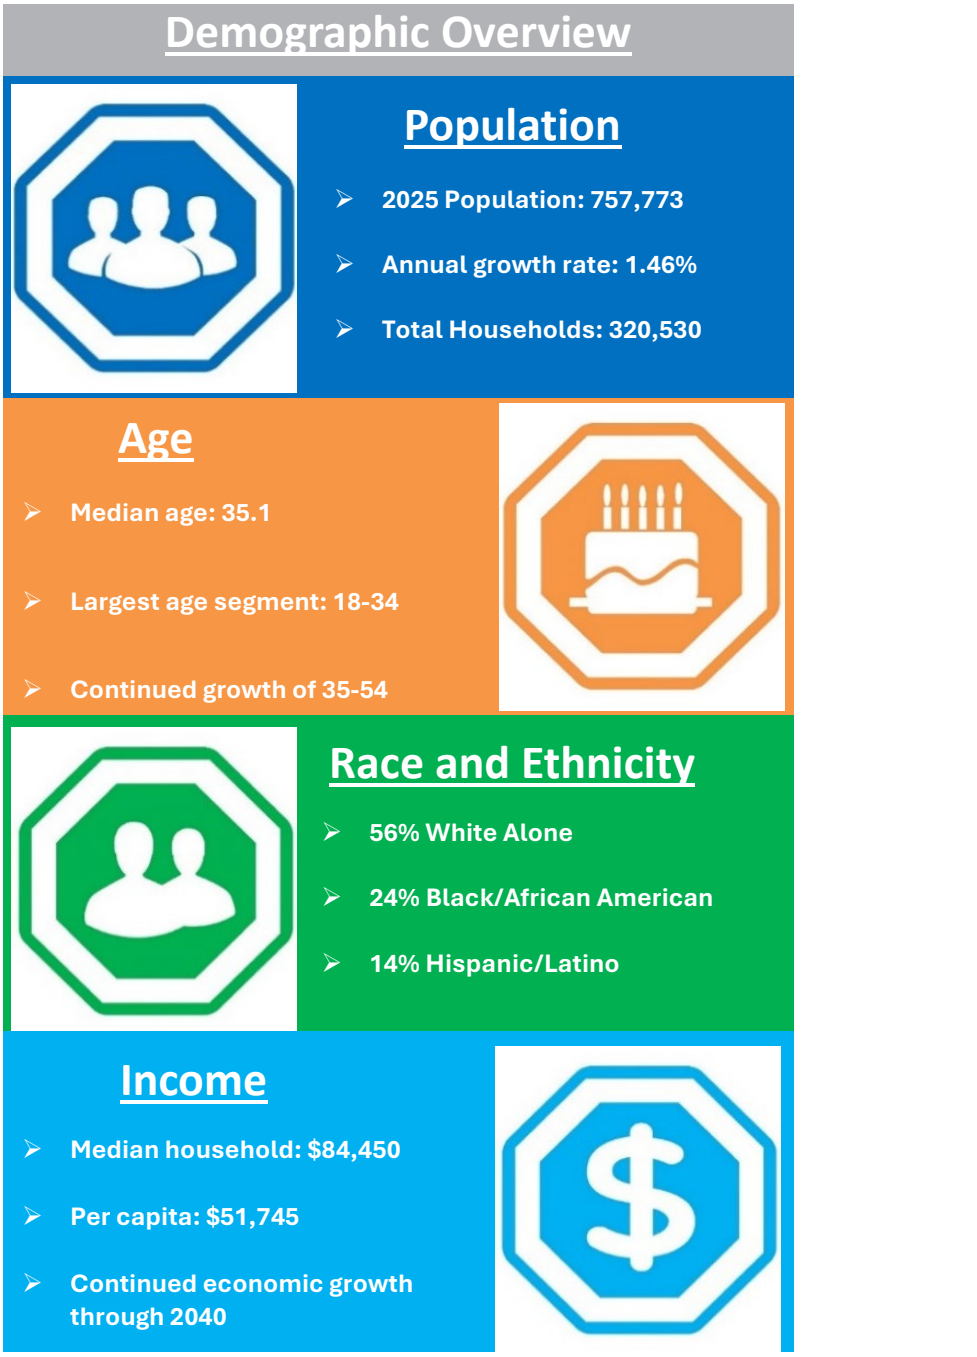
Appendix C - Demographics and Trends Analysis

Introduction

A key component of the Parks and Recreation Master Plan is a Demographics and Recreation Trends Analysis. The purpose of this analysis is to provide Nashville's Parks and Recreation Department ("Department") with insight into the makeup of the population they serve and identify market trends in recreation. The report also helps to quantify the market in and around the County of Davidson, Tennessee ("County") and assists in providing a better understanding of the types of parks, facilities, and services used to satisfy the needs of residents.

DEMOGRAPHIC ANALYSIS

This analysis is two-fold; it aims to identify the *who* and the *what*. First, it assesses the demographic characteristics and population projections of Davidson residents to understand *who* the Department serves. Second, recreational trends are examined on a national and local level to understand *what* the population may want to do. Findings from this analysis establish a fundamental understanding that provides a basis for prioritizing the community need for parks, trails, facilities, and recreation programs. The Demographic Analysis describes the population in Davidson County. This assessment is reflective of the County's total population and its key characteristics such as age, race, and income levels. It is important to note that future projections are based on historical patterns and unforeseen circumstances during or after the time of the analysis could have a significant bearing on the validity of projected figures. **The figure to the right** provides an overview of Davidson County's populace based on current estimates of the 2025 population. A further analysis of each of these demographic characteristics can be found in the sections below.



Methodology

Demographic data used for the analysis was obtained from U.S. Census Bureau and from Environmental Systems Research Institute, Inc. (ESRI), the largest research and development organization dedicated to Geographical Information Systems (GIS) and specializing in population projections and market trends. All data was acquired in July 2025 and reflects actual numbers as reported in the 2020 Census. ESRI then estimates the current population (2025) as well as a 5-year projection (2030). PROS then utilized straight line linear regression to forecast demographic characteristics for 10 and 15-year projections (2035 and 2040).

RACE AND ETHNICITY DEFINITIONS

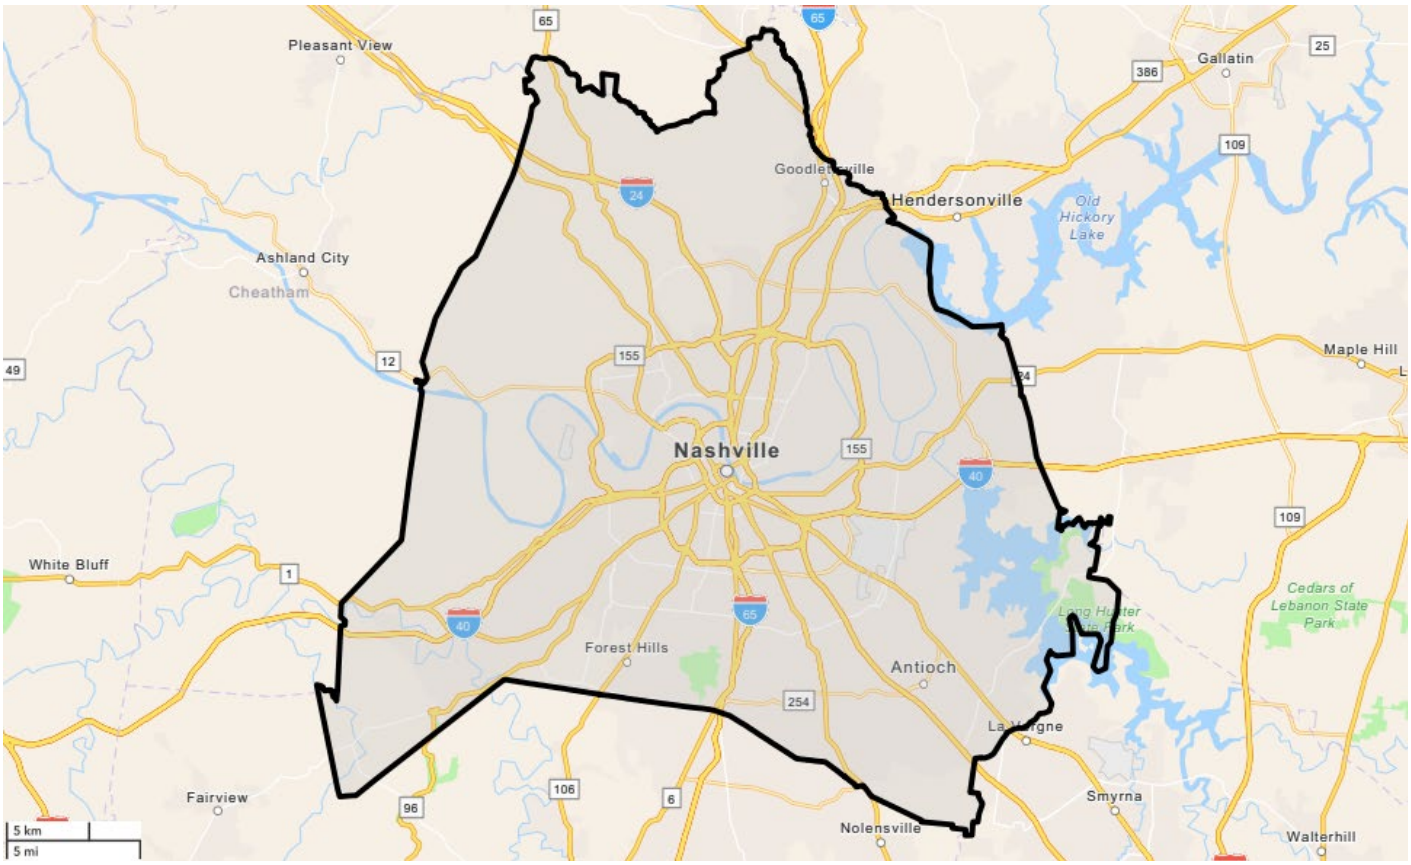
The minimum categories for data on race and ethnicity for Federal statistics, program administrative reporting, and civil rights compliance reporting are defined below. The Census 2020 data on race are not directly comparable with data from the 2010 Census and earlier censuses; therefore, caution must be used when interpreting changes in the racial composition of the US population over time. The latest (Census 2020) definitions and nomenclature are used within this analysis.

- **American Indian or Alaska Native Alone:** A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.
- **Asian Alone:** A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
- **Black or African American Alone:** A person having origins in any of the black racial groups of Africa.
- **Hispanic or Latino Origin:** A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.
- **Native Hawaiian or Other Pacific Islander Alone:** A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
- **White Alone:** A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

Please note: The Census Bureau defines Race as a person's self-identification with one or more of the following social groups: White, Black, or African American, Asian, American Indian, and Alaska Native, Native Hawaiian and Other Pacific Islander, some other race, or a combination of these. Ethnicity is defined as whether a person is of Hispanic / Latino origin or not. For this reason, the Hispanic/Latino ethnicity is viewed separate from race throughout this demographic analysis.

DEMOGRAPHIC ANALYSIS BOUNDARY

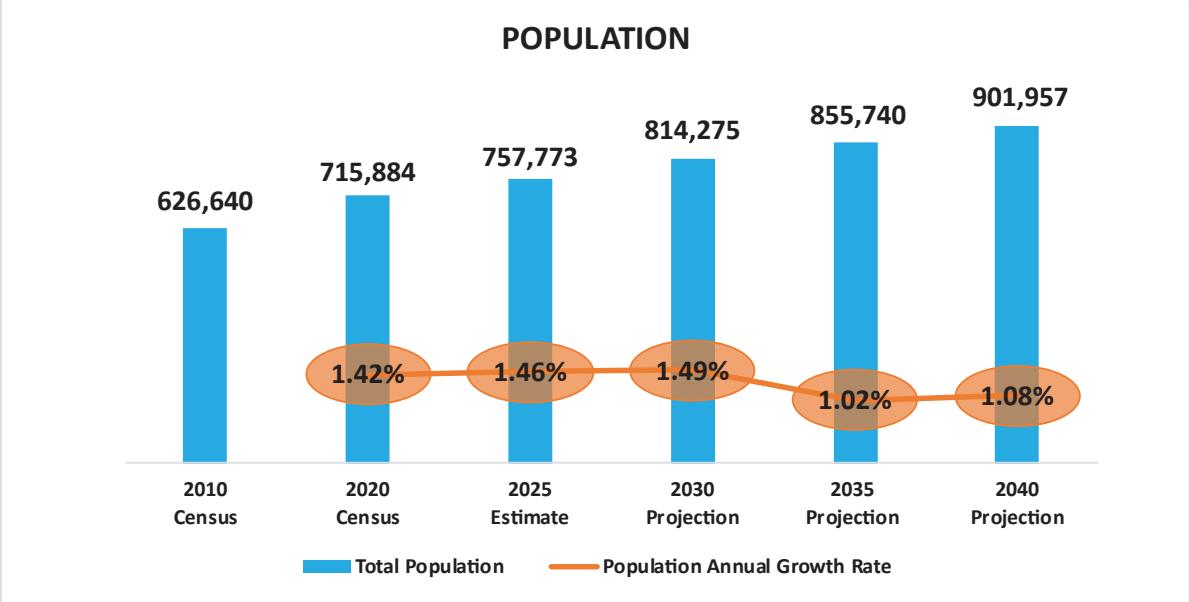
The Davidson County boundaries shown below were utilized for the demographic analysis.

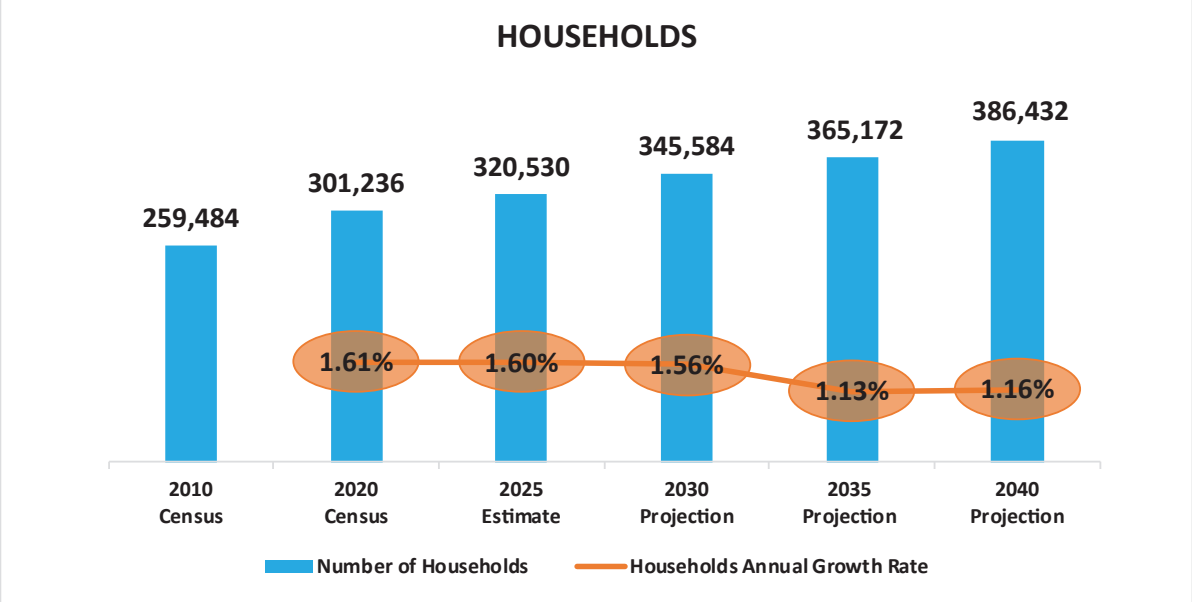


County Populace

POPULATION

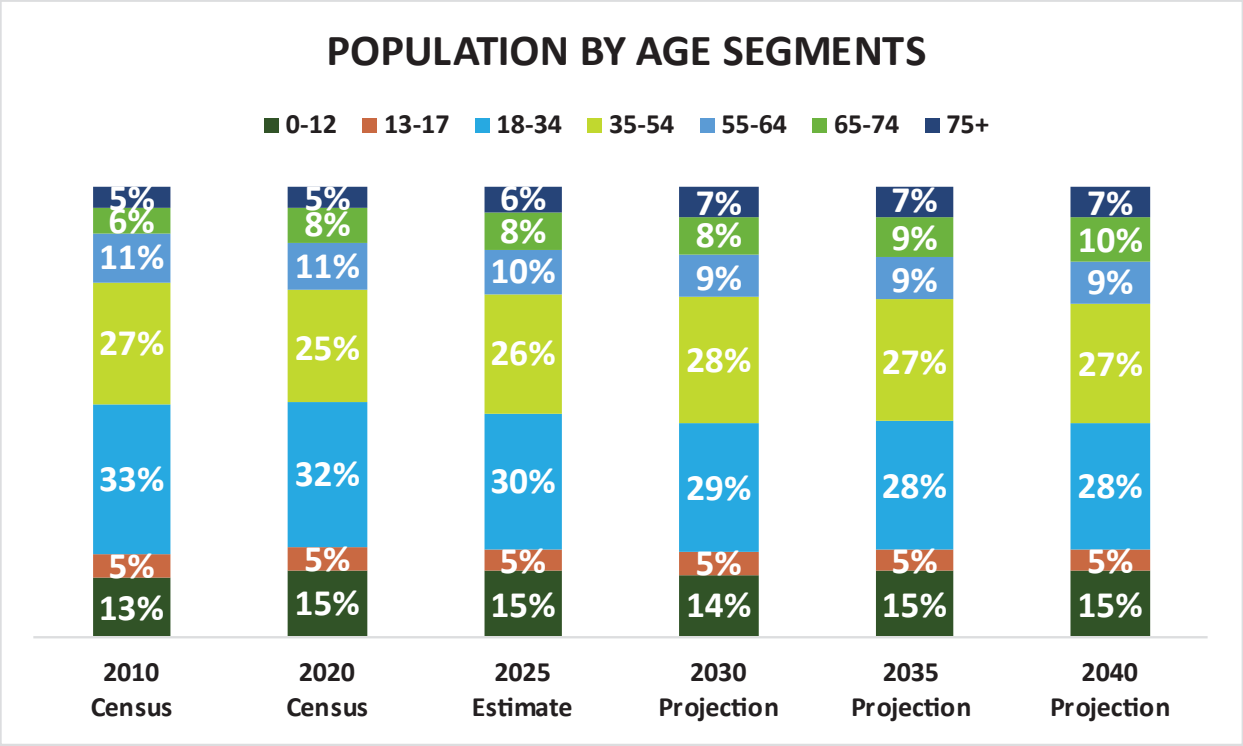
Davidson County has a population with consistent annual growth over the last 15 years; in fact, the County has increased from 626,640 residents in 2010 to an estimated **757,773 in 2025**. Davidson County's population is expected to continue to grow exponentially in the following 15 years, where it is projected to reach **901,957 residents by 2040.** The total number of households has also grown at a consistent rate proportional to the County's steady population growth, increasing from 259,484 in 2010 to an estimated **320,530 in 2025**. By 2040, it is estimated that there will be **386,432 total households** within Davidson County, which is likely to continue growing.





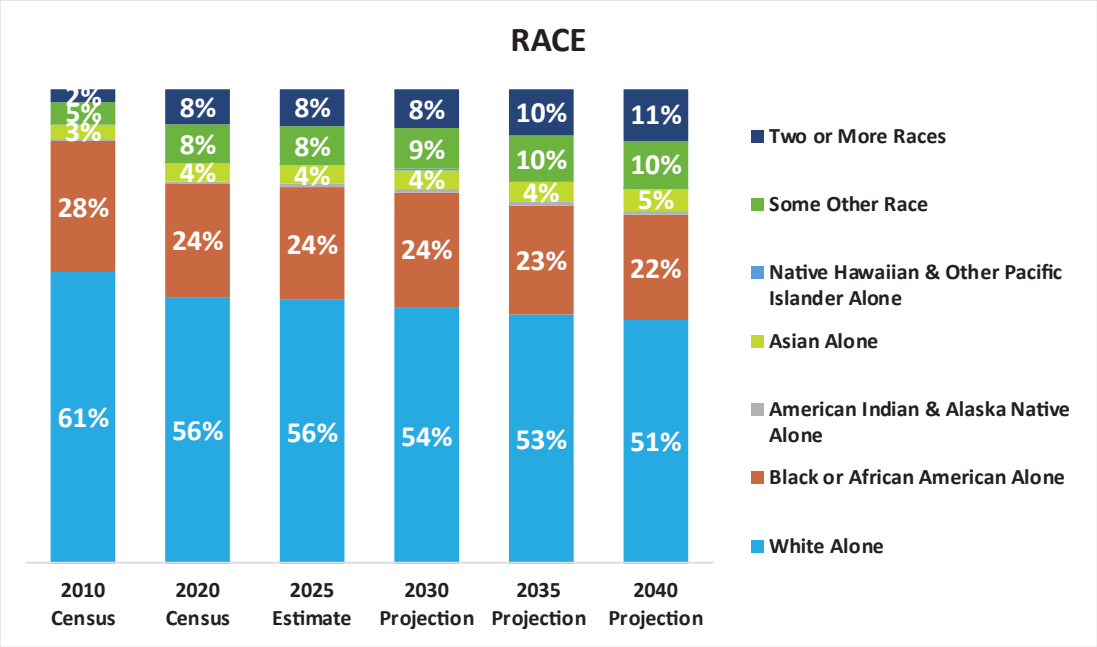
AGE SEGMENTATION

The largest age segments of Davidson County's current population are **18-34** (30%), **35-54** (26%), and **0-12** (15%), comprising a relatively well-distributed County population. Within the County, there is an aging trend with people between the ages of 18-34, decreasing from comprising 33% of the population in 2010 to making up **28% of the population by 2040**; however, the 0-12 age range has begun to compensate with a **2%** growth increase from 2010 to **2040**. The median age has risen from 34.1 in 2010 to **35.1 in 2025** and is projected to continue increasing in the coming years. Therefore, the amenities updated and developed for Davidson County should likely be designed to be appealing for an increasing middle-aged (aged 45 to 65) demographic, while also remaining accessible for adults of all ages and young children.



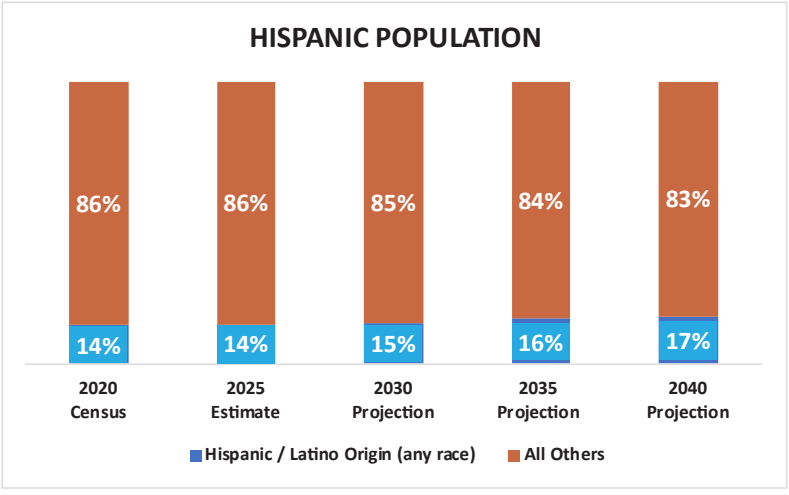
RACE

Analyzing race, Davidson County's current population makeup is majority **White**, with the 2025 estimate showing 56% of the population falling into the White Alone category, along with '**Black or African American Alone'** (24%), '**Two or More Races'** (8%)**,** and **'Some Other Race'** (8%) representing the next largest categories. Predictions for 2030 and beyond expect the population to steadily diversify, with a decrease in the White Alone population, and minor increases to most other race categories. Within this change, the '**Two or More Races'** category will have the largest increase, growing from **8%** of the population in 2025 to **11%** of the population by 2040.



ETHNICITY

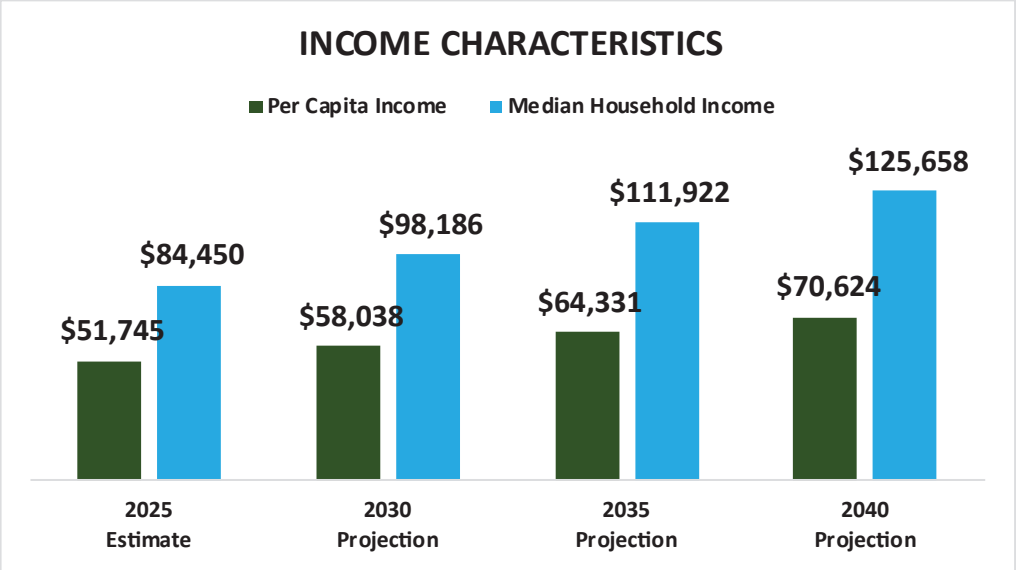
Davidson County's population was also assessed based on Hispanic/Latino ethnicity, which by the Census Bureau definition is viewed independently from race. **It is important to note that individuals who are Hispanic/Latino in ethnicity can also identify with any racial categories identified above.**

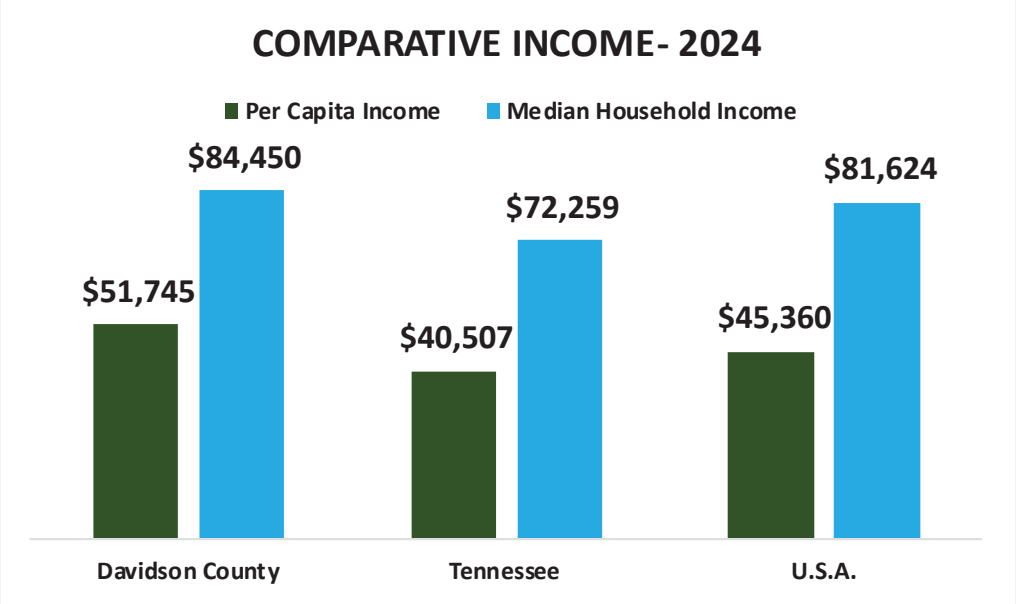


Based on the 2025 estimate, people of Hispanic/Latino origin represent **14% of Davidson County's population**, which is below the national average (19% Hispanic/Latino) but above the state of Tennessee average (8% Hispanic/Latino). The County's Hispanic/Latino population has experienced a minor increase over time and is expected to continue growing slightly to **17% of Davidson County's total population by 2040.**

INCOME CHARACTERISTICS

When analyzing income, the per capita income is the average income earned by an individual while the median household income is based on the total income of everyone over the age of sixteen living within the same household. Davidson County's **per capita income** ($51,745) and Davidson County's **median household income** ($84,450) are both above each of the Tennessee averages ($40,507 and $72,259) and the national averages ($40,507 and $72,259). Looking ahead, both Davidson County's median household and per capita income averages are expected to increase to **$70,624 and $125,658 respectively by 2040**. These growing income projections should be taken into consideration when the Department is pricing out programs, calculating cost recovery goals, or planning out amenities for potential parks and trail systems.





DEMOGRAPHIC IMPLICATIONS

While it is important not to generalize recreation needs and priorities based solely on demographics, the analysis suggests some potential implications for Davidson County, Tennessee:

- Davidson County's steady population age demographics should allow the Department to continue focusing on the age segments that they already serve. One age segment with major changes will be the County's '18-34' population, which is estimated to see a 5% drop from 2010 to 2040. While this may be insignificant in terms of recreation offerings in the short term, the increases in the populations of other age segments may necessitate a slight realignment of program offerings in the future to reflect that changing population.

- Davidson County's growing income characteristics suggest **potential disposable income at the individual and family level** now and in the near future. The Department should be mindful of this when pricing out programs and events and considering amenities, while remaining aware of the expected projected upward income trend over the next decade.

- In comparison to the United States average (0.85%), Davidson County had a relatively **high population annual growth rate from 2020 to 2025** (1.46%), though the County's growth was still a bit slower than the state of Tennessee's (1.62%)**.** The annual growth rate is projected to dip to 1.27% from 2025 to 2040, slowing a little, but still showing a continuation of the steady growth the County has seen in the past decade. This population growth should be considered and accounted for when planning new recreation amenities and offerings, as well as the maintenance and upkeep of current offerings.

2025 Demographic Comparison		Davidson County	Tennessee	United States of America
Population	Annual Growth Rate (2020-2025)	1.46%	1.62%	0.85%
	Projected Annual Growth Rate (2025-2040)	1.27%	0.79%	0.42%

- Finally, Davidson County should ensure its **diversifying population is reflected in its offerings**, **marketing/communications, and public outreach**. With increasing diversity in both race and age, as well as relatively high population growth, Davidson County should remain prepared to change its offerings over time.

Appendix D - Recreation Trends Analysis

The Trends Analysis offers insights into national, regional, and local recreational trends, as well as recreational interests across different age segments. The data for this analysis was sourced from the Sports & Fitness Industry Association (SFIA), the National Recreation and Park Association (NRPA), and ESRI. All trend data is derived from current or historical participation rates, statistically valid survey results, or NRPA Park Metrics.

National Trends in Recreation

METHODOLOGY

The Sports & Fitness Industry Association's (SFIA*) Sports, Fitness & Leisure Activities Topline Participation Report 2025* was utilized in evaluating the following trends:

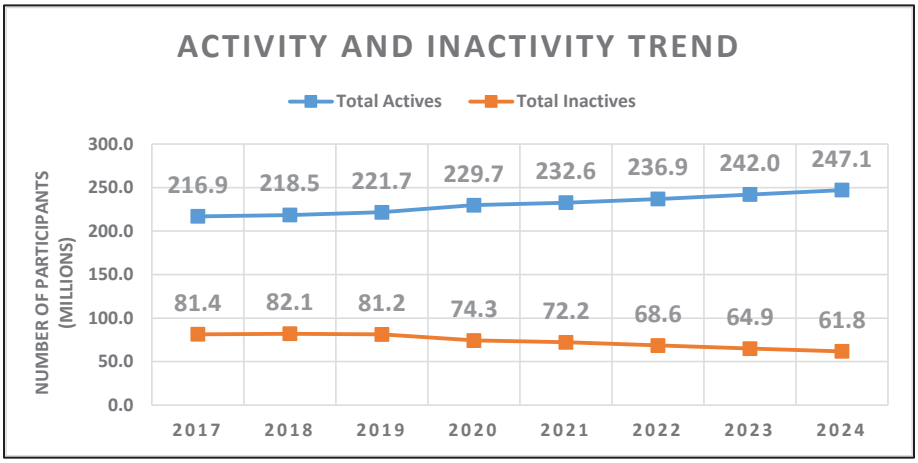
- National Recreation Participatory Trends
- Core vs. Casual Participation Trends

The study is based on findings from surveys conducted in 2025 by the Sports Marketing Surveys USA (SMS), resulting in a total of 18,000 online interviews. Surveys were administered to all genders, ages, income levels, regions, and ethnicities to allow for statistical accuracy of the national population. A sample size of 18,000 completed interviews is considered by SFIA to result in a high degree of statistical accuracy. A sport with a participation rate of five percent has a confidence interval of plus or minus 0.32 percentage points at a 95 percent confidence level. Using a weighting technique, survey results are applied to the total U.S. population figure of 308,888,845 people (ages six and older).

The purpose of the report is to establish levels of activity and identify key participatory trends in recreation across the U.S. This study looked at 124 different sports/activities and subdivided them into various categories including: sports, fitness, outdoor activities, aquatics, etc.

OVERALL PARTICIPATION

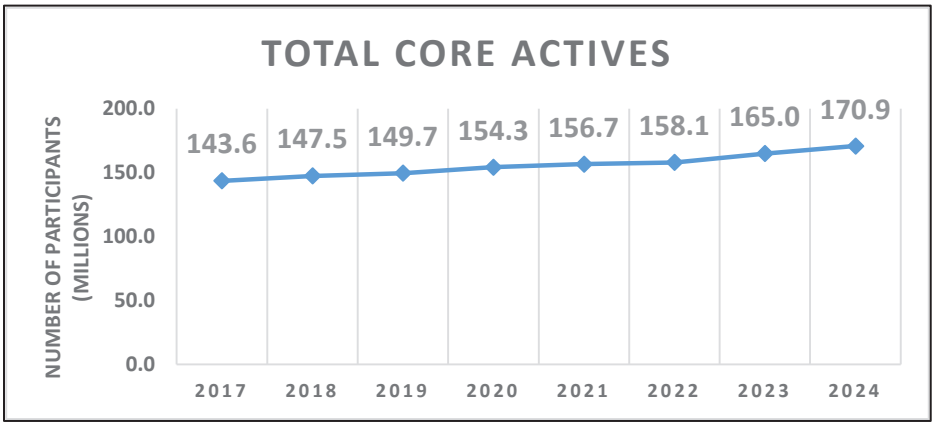
Approximately 247 million people ages six and over reported being active in 2024, which is a 2.1% increase from 2023 and the greatest number of active Americans since SFIA started reporting. This continues to be an indicator that Americans are continuing to make physical activity a priority in their lives. SFIA reported an increase in participation rates across all tracked categories from 2023 to 2024. Racquet sports exhibited the highest growth with a 9.4% increase over one year, followed by team sports, which grew by 8.1% during the same period. The chart below depicts participation levels for active and inactive (those who engage in no physical activity) Americans over the past 6 years.



Core vs. Casual Participation

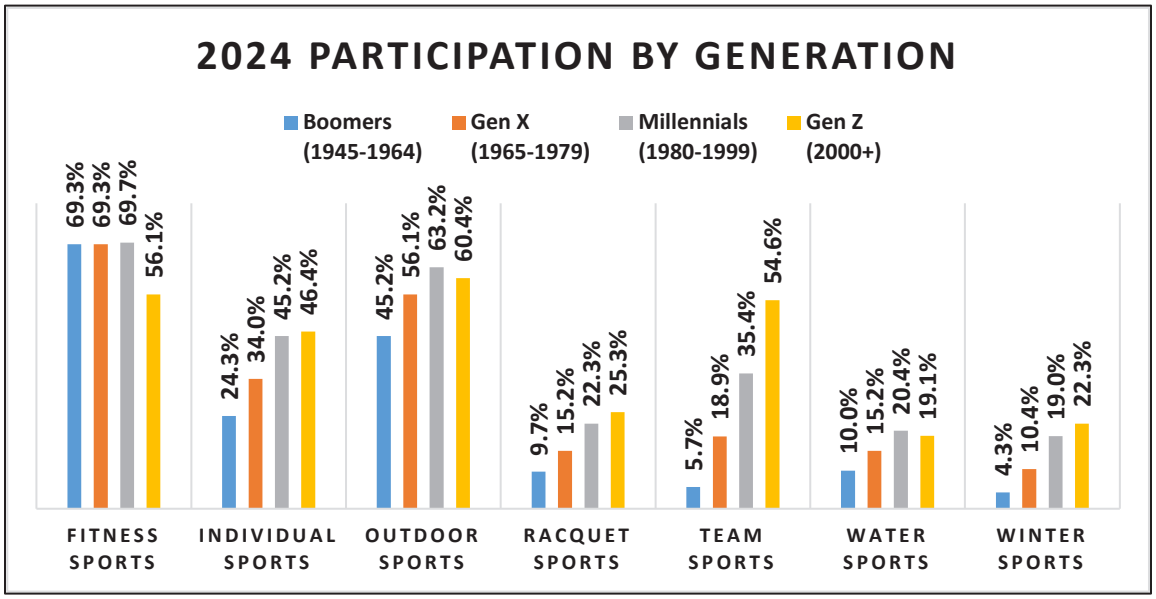
In addition to overall participation rates, SFIA further categorizes active participants as either core or casual participants based on frequency of participation. Core participants have higher participatory frequency than casual participants. The thresholds that define casual versus core participation may vary based on the nature of each individual activity. For instance, core participants engage in most fitness activities more than fifty times per year, while for sports, the threshold for core participation is typically 13 times per year.

In each activity, core participants are more committed and tend to be less likely to switch to other activities or become inactive (engage in no physical activity) than causal participants. This may also explain why activities with more core participants tend to experience less pattern shifts in participation rates than those with larger groups of casual participants. Increasing for the seventh straight year, 170.9 million people were considered CORE participants in 2024.



Participation by Generation

The chart below provides an overview of the 2024 participation rates across different generations. Fitness sports remain the preferred method of exercise for Boomers, Gen X, Millennials, and Gen Z. More than half of Gen X, Millennials, and Gen Z engaged in at least one type of outdoor activity. Team sports were predominantly popular among Gen Z, while nearly a third of Gen X participated in individual sports such as golf, trail running, triathlons, and bowling.



Highlights

Pickleball continues to be the fastest growing sport in America by reaching 19.8 million participants in 2024 which is a 473% growth since 2019. The growth of pickleball participants (19.8 million) has surpassed the size of outdoor soccer participants (14.4 million) and baseball participants (17.2 million). Following the popularity of pickleball, every racquet sport except badminton and cardio tennis has also increased in total participation in 2024.

Team sports continued to grow, with 20 out of 24 seeing higher participation from 2023 to 2024. Wrestling had the biggest rise at 8.6%.

The sports featured in the 2024 Paris Olympics, such as basketball, gymnastics, swimming, track and field, skateboarding, volleyball, and wrestling, have seen substantial increases in participation. This trend highlights the impact and widespread appeal of the Olympic Games.

Class-based activities have reported their highest levels of engagement since the pandemic, with nearly all such activities demonstrating significant increases in participation. Notable growth was observed in aquatic exercise, boot camp-style training, cardio kickboxing, cross-training style workouts, barre, Pilates, tai chi, and yoga.

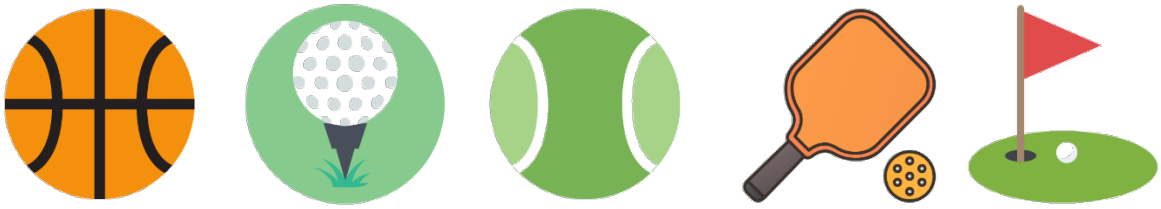
NATIONAL TRENDS IN GENERAL SPORTS

Participation Levels

The most participated sports in the United States are basketball (31.9 million), golf (28.0 million), and tennis (25.7 million). Pickleball (19.8 million) and playing golf at an entertainment venue (19.1 million) complete the top five.

The popularity of basketball, golf, and tennis can be attributed to their ability to be played with a small number of participants. This, combined with the possibility of being played outdoors or with proper distancing, explains their increased popularity during the COVID-19 pandemic. Basketball's overall success is also due to the minimal equipment required and the limited space needed for participation, making it the only traditional sport that can be played as a driveway pickup game at most American residences. Golf benefits from its appeal across a wide age segment and is considered a lifelong sport.

Additionally, there has been a significant increase (93%) in target-type game venues or golf entertainment venues over the past five years, with golf entertainment options (e.g., Top Golf) providing a new alternative to rejuvenate interest in the game.



BASKETBALL	GOLF	TENNIS	PICKLEBALL	GOLF VENUE
31.9 MILLION	28.0 MILLION	25.7 MILLION	19.8 MILLION	19.1 MILLION

Five-Year Trend

Since 2019, pickleball (472.5%), golf - entertainment venues (93.3%), and tennis (45.6%) have increased in participation. Additionally, basketball (28.2%), outdoor soccer (21.5%) and tackle football (18.6%) have grown in participation. According to the five-year trend from 2019-2024, the sports that are declining in participation include roller hockey (-28.6%), rugby (-20.8%), and ultimate frisbee (-10.6%).

One-Year Trend

In the past year, sports such as pickleball (45.8%), wrestling (8.6%), and tennis (8.0%) have experienced significant increases in participation. Other notable one-year increases include tackle football (7.8%), flag football (7.7%), and fast-pitch softball (7.6%).

Sports such as slow-pitch softball (5.6%) and sand/beach volleyball (3.9%) have seen moderate increases over the past year but have experienced decreases over a five-year period. This trend may be associated with the recovery from the COVID-19 pandemic and the resurgence of team program participation. Meanwhile, sports like roller hockey, rugby, ultimate frisbee, and lacrosse have continued to face declines in participation both over the past year and across five years.

Core vs. Casual Trends in General Sports

General sport activities, basketball, court volleyball, baseball and slow pitch softball have a larger core participant base (participate 13+ times per year) than casual participant base (participate 1-12 times per year). Since the pandemic, core participants are slowly reaching their pre-pandemic levels. *Please see **Appendix A** for the full Core vs. Casual Participation breakdown.*

National Participatory Trends - General Sports					
Activity	Participation Levels			% Change	
	2019	2023	2024	5-Year Trend	1-Year Trend
Basketball	24,917	29,725	31,947	28.2%	7.5%
Golf (9 or 18-Hole Course)	24,271	26,565	28,097	15.8%	5.8%
Tennis	17,684	23,835	25,742	45.6%	8.0%

NATIONAL TRENDS IN GENERAL FITNESS

Participation Levels

The national participatory trends in fitness have shown significant growth in recent years. These activities have gained popularity due to an increased interest among Americans in improving their health and enhancing their quality of life through active lifestyles. In 2024, general fitness activities that were adaptable to various environments, such as at home, in a gym, or through virtual classes, were the most popular. The activities with the most participation were walking for fitness (115.2 million), treadmill (56.8 million), free weights (56.2 million), running/jogging (51.0 million), and yoga (37.6 million).

WALKING FOR FITNESS	TREADMILL	FREE WEIGHTS	RUNNING/ JOGGING	YOGA
115.2 MILLION	56.8 MILLION	56.2 MILLION	51.0 MILLION	37.6 MILLION

Five-Year Trend

Over the last five years (2018-2023), the activities growing at the highest rate were trail running (46.9%), Pilates training (39.4%), yoga (23.6%) and barre (19.1%). Over the same period, the activities that have undergone the biggest decline in participation include group stationary cycling (-33.5%), cross-training style workout (-28.7%) and cardio kickboxing (-19.5%).

One-Year Trend

In the last year, nearly every fitness activity listed saw an increase in participation. Fitness activities with the largest gains in participation were group-related, slow, intentional movements activities, yoga (9.9%), and Pilates training (8.7%). Trail running (8.5%) also saw a moderate increase indicating trail connectivity continues to be important for communities to provide. In the same span, fitness activities that had the largest decline in participation were bodyweight exercise (-2.8%), elliptical motion/cross-trainer (-1.5%) and high impact/intensity training (-0.5%).

Core vs. Casual Trends in General Fitness

Participants of walking for fitness are mostly core users (participating 50+ times) and have seen a 1.5% growth in the last five years. *Please see **Appendix A** for the full core vs. casual participation breakdown.*

National Participatory Trends - General Fitness					
Activity	Participation Levels			% Change	
	2019	2023	2024	5-Year Trend	1-Year Trend
Walking for Fitness	111,439	114,039	115,261	3.4%	1.1%
Treadmill	56,823	54,829	56,843	0.0%	3.7%
Free Weights (Dumbbells/Hand Weights)	51,450	53,858	56,253	9.3%	4.4%
Running/Jogging	50,052	48,305	51,052	2.0%	5.7%
Yoga	30,456	34,249	37,636	23.6%	9.9%
Stationary Cycling (Recumbent/Upright)	37,085	32,628	33,657	-9.2%	3.2%
Weight/Resistant Machines	36,181	29,426	30,850	-14.7%	4.8%
Free Weights (Barbells)	28,379	29,333	30,550	7.7%	4.1%

Triathlon (Non-Traditional/Off Road)	1,472	1,363	1,372	-6.8%	0.7%
NOTE: Participation figures are in 000's for the US population ages 6 and over					
Participation Growth/Decline:	Large Increase (greater than 25%)	Moderate Increase (0% to 25%)	Moderate Decrease (0% to -25%)	Large Decrease (less than -25%)	

NATIONAL TRENDS IN OUTDOOR / ADVENTURE RECREATION

Participation Levels

Results from the SFIA report demonstrate rapid growth in participation regarding outdoor/adventure recreation activities. Similar to general fitness activities, these activities encourage an active lifestyle, can be performed individually, and are not as limited by time constraints. In 2024, the most popular activities, in terms of total participants include day hiking (63.4 million), freshwater fishing (43.1 million), road bicycling (42.4 million), camping (40.2 million), and wildlife viewing (21.8 million).

DAY HIKING	FRESHWATER FISHING	ROAD BICYCLING	CAMPING	WILDLIFE VIEWING
63.4 MILLION	43.1 MILLION	42.4 MILLION	40.2 MILLION	21.8 MILLION

Five-Year Trend

From 2019-2024, camping (42.8%), skateboarding (40.4%), birdwatching (32.3%), BMX bicycling (29.4%), and day hiking (27.6%) have undergone the largest increase in participation. The five-year trend also shows that only two activities declined in participation, adventure racing (-14.2) and backpacking overnight (-6.3%).

One-Year Trend

The one-year trend shows most activities had a moderate growth in participation. The highest growth being in-line roller skating (7.3%), BMX bicycling (5.8%), sport/boulder climbing (5.1%), and camping (4.3%). Activities that underwent decreases in participation were fly fishing (-1.6), indoor climbing (-1.6) and mountain biking (-0.5%).

Core vs. Casual Trends in Outdoor / Adventure Recreation

Although most outdoor activities have experienced participation growth in the last five-years., it should be noted that all outdoor activities participation, besides adventure racing, consist primarily of casual users. *Please see **Appendix A** for the full core vs. casual participation breakdown.*

National Participatory Trends - Outdoor / Adventure Recreation					
Activity	Participation Levels			% Change	
	2019	2023	2024	5-Year Trend	1-Year Trend
Hiking (Day)	49,697	61,444	63,430	27.6%	3.2%
Fishing (Freshwater)	39,185	42,605	43,185	10.2%	1.4%
Bicycling (Road)	39,388	42,243	42,470	7.8%	0.5%
Camping	28,183	38,572	40,244	42.8%	4.3%
Wildlife Viewing (>1/4 mile of Vehicle/Home)	20,040	21,118	21,899	9.3%	3.7%
Birdwatching (>1/4 mile of Vehicle/Home)	12,817	16,423	16,954	32.3%	3.2%
Camping (Recreational Vehicle)	15,426	16,497	16,460	6.7%	-0.2%
Fishing (Saltwater)	13,193	15,039	15,065	14.2%	0.2%
Backpacking Overnight	10,660	9,994	9,988	-6.3%	-0.1%
Skateboarding	6,610	8,923	9,280	40.4%	4.0%
Bicycling (Mountain)	8,622	9,289	9,241	7.2%	-0.5%
Fishing (Fly)	7,014	8,077	7,951	13.4%	-1.6%
Archery	7,449	7,662	7,787	4.5%	1.6%
Climbing (Indoor)	5,309	6,356	6,256	17.8%	-1.6%
Roller Skating, In-Line	4,816	5,201	5,581	15.9%	7.3%

Climbing (Traditional/Ice/Mountaineering)	2,400	2,569	2,577	7.4%	0.3%
Adventure Racing	2,143	1,808	1,839	-14.2%	1.7%
NOTE: Participation figures are in 000's for the US population ages 6 and over					
Participation Growth/Decline:	Large Increase (greater than 25%)	Moderate Increase (0% to 25%)	Moderate Decrease (0% to -25%)	Large Decrease (less than -25%)	

NATIONAL TRENDS IN AQUATICS

Participation Levels

Swimming is deemed a lifetime activity, which is why it continues to have such strong participation. In 2024, fitness swimming remained the overall leader in participation (29.4 million) amongst aquatic activities.

FITNESS SWIMMING
29.4 MILLION

AQUATIC EXERCISE
11.7 MILLION

SWIMMING ON A TEAM
3.4 MILLION

Five-Year Trend

Assessing the five-year trend, all three aquatic activities saw moderate increases in participation. Swimming on a team (22.8%) saw the highest percentage increase in participation.

One-Year Trend

In 2024, all aquatic activities saw moderate increases in participation which can be asserted to facilities and programs continuing to return to prepandemic levels.

Core vs. Casual Trends in Aquatics

All activities in aquatic trends have undergone an increase in casual participation (1-49 times per year) over the last five years. *Please see **Appendix A** for full the core vs. casual participation breakdown.*

National Participatory Trends - Aquatics					
Activity	**Participation Levels**			**% Change**	
	2019	**2023**	**2024**	**5-Year Trend**	**1-Year Trend**
Swimming (Fitness)	28,219	28,173	29,477	4.5%	4.6%
Aquatic Exercise	11,189	11,307	11,782	5.3%	4.2%
Swimming on a Team	2,822	3,327	3,465	22.8%	4.1%
NOTE: Participation figures are in 000's for the US population ages 6 and over					
Participation Growth/Decline:	Large Increase (greater than 25%)	Moderate Increase (0% to 25%)	Moderate Decrease (0% to -25%)	Large Decrease (less than -25%)	

NATIONAL TRENDS IN GENERAL FITNESS

Participation Levels

The national participatory trends in fitness have shown significant growth in recent years. These activities have gained popularity due to an increased interest among Americans in improving their health and enhancing their quality of life through active lifestyles. In 2024, general fitness activities that were adaptable to various environments, such as at home, in a gym, or through virtual classes, were the most popular. The activities with the most participation were walking for fitness (115.2 million), treadmill (56.8 million), free weights (56.2 million), running/jogging (51.0 million), and yoga (37.6 million).

WALKING FOR FITNESS	TREADMILL	FREE WEIGHTS	RUNNING/ JOGGING	YOGA
115.2 MILLION	56.8 MILLION	56.2 MILLION	51.0 MILLION	37.6 MILLION

Five-Year Trend

Over the last five years (2018-2023), the activities growing at the highest rate were trail running (46.9%), Pilates training (39.4%), yoga (23.6%) and barre (19.1%). Over the same period, the activities that have undergone the biggest decline in participation include group stationary cycling (-33.5%), cross-training style workout (-28.7%) and cardio kickboxing (-19.5%).

One-Year Trend

In the last year, nearly every fitness activity listed saw an increase in participation. Fitness activities with the largest gains in participation were group-related, slow, intentional movements activities, yoga (9.9%), and Pilates training (8.7%). Trail running (8.5%) also saw a moderate increase indicating trail connectivity continues to be important for communities to provide. In the same span, fitness activities that had the largest decline in participation were bodyweight exercise (-2.8%), elliptical motion/cross-trainer (-1.5%) and high impact/intensity training (-0.5%).

Core vs. Casual Trends in General Fitness

Participants of walking for fitness are mostly core users (participating 50+ times) and have seen a 1.5% growth in the last five years. *Please see **Appendix A** for the full core vs. casual participation breakdown.*

National Participatory Trends - Water Sports / Activities					
Activity	Participation Levels			% Change	
	2019	2023	2024	5-Year Trend	1-Year Trend
Kayaking (Recreational)	11,382	14,726	15,128	32.9%	2.7%
Canoeing	8,995	9,999	10,111	12.4%	1.1%

Participation Growth/Decline:	Large Increase (greater than 25%)	Moderate Increase (0% to 25%)	Moderate Decrease (0% to -25%)	Large Decrease (less than -25%)	

Local Sport and Leisure Market Potential

METHODOLOGY

The following charts show sport and leisure market potential data for Davidson County residents, as provided by ESRI. Market Potential Index (MPI) measures the probable demand for a product or service within the defined service areas. The MPI shows the likelihood that an adult resident will participate in certain activities when compared to the U.S. national average. The national average is 100; therefore, numbers below 100 would represent lower than average participation rates, and numbers above 100 would represent higher than average participation rates. The service area is compared to the national average in four (4) categories – general sports, fitness, outdoor activity, and commercial recreation.

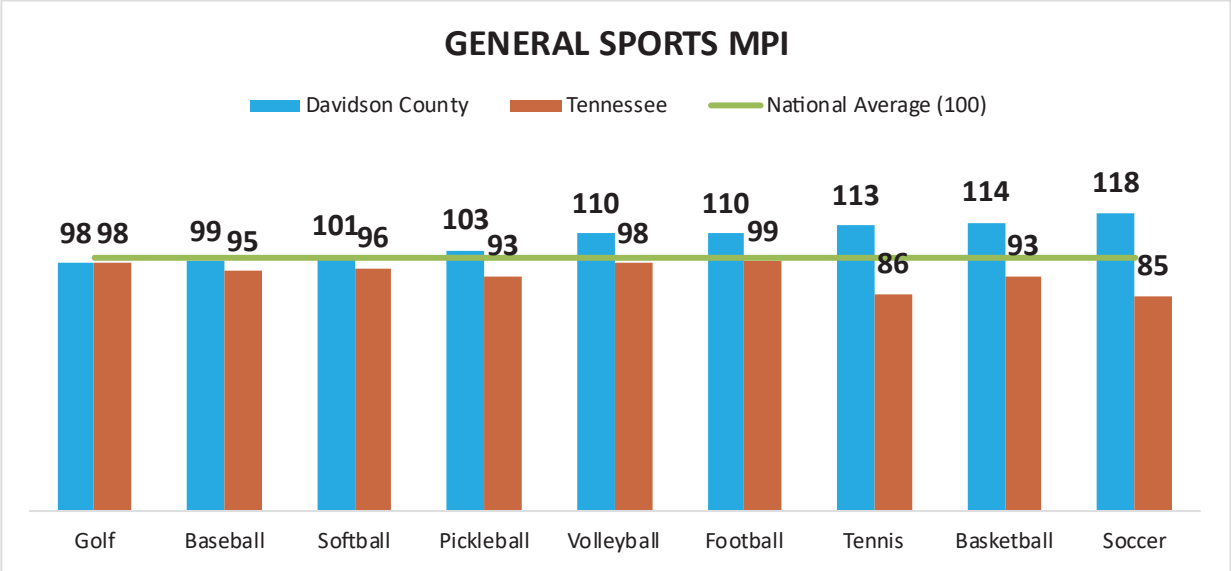
It should be noted that MPI metrics are only one data point used to help determine community trends; MPI data is subject to change annually and can often create misleading understanding of a community's recreation trends. Therefore, programmatic decisions should not be based solely on MPI metrics.

Overall, when analyzing Davidson County's MPIs, the data demonstrates mostly above average market potential index (MPI) numbers in assessed areas, with high potential in several more specific activities. For example, Soccer and Volleyball both scored above the national average, while also outperforming most of their other General Sports counterparts according to the analysis. Something to note about Davidson County's MPI scores is that there are a few activities below the national average, with 13 of the measured 47 activities scoring less than 100. This becomes significant when the Department considers starting up new programs or building new facilities, giving them a strong tool to estimate resident attendance and participation.

The following charts compare MPI scores for 47 sport and leisure activities that are prevalent for residents within Davidson County. The activities are categorized by activity type and listed in descending order, from highest to lowest MPI score. High index numbers (100+) are significant because they demonstrate that there is a greater likelihood that residents within the service area will actively participate in those offerings provided by the Department.

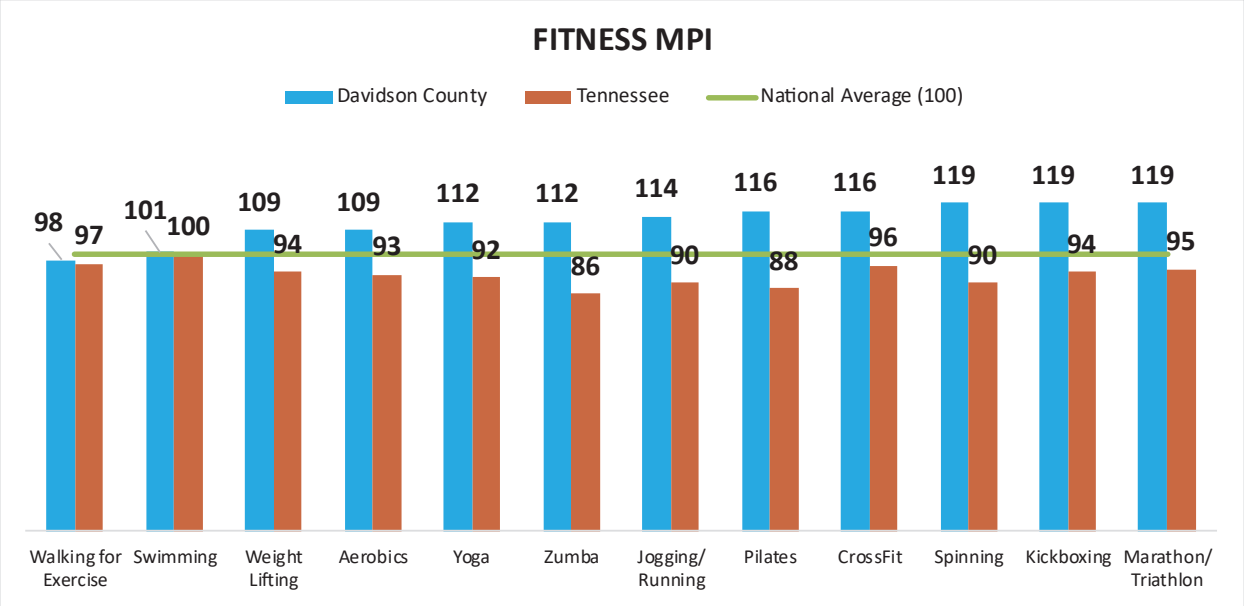
GENERAL SPORTS MARKET POTENTIAL

The following chart shows that all but one of Davidson County's recorded General Sports are above the national average regarding MPI, with Soccer (118), Basketball (114), and Tennis (113) taking the top three spots, followed by Football (110) and Volleyball (110). Pickleball and Softball also demonstrated above average scores; as a result, Davidson County's population outperforms Tennessee state and national averages in almost every assessed general sport.



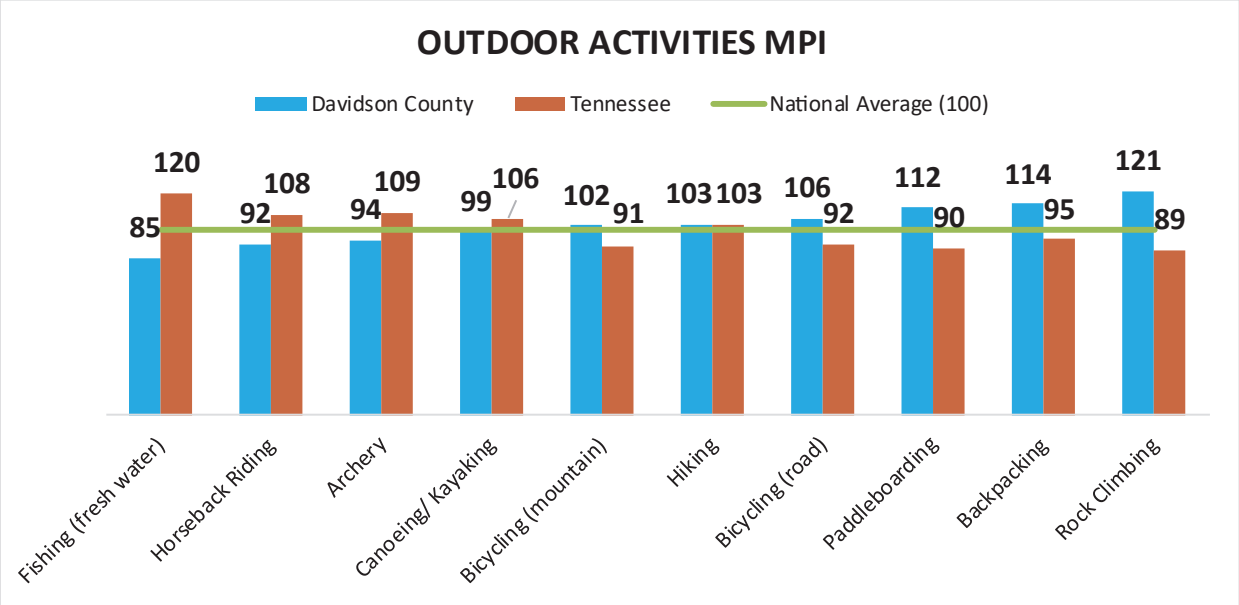
FITNESS MARKET POTENTIAL

Assessing MPI scores for the Fitness Activity category reveals that Davidson County's fitness activities are also **almost all above the national average**. Of these activities, Marathon/Triathlon (119), Kickboxing (119), and Spinning (119) took the top three spots. Alternatively, the lowest scored activities were Walking for Exercise (98), Swimming (101), and Weight Lifting (109), with Walking for Exercise being the only activity to score below the US average (while all assessed activities scored above the Tennessee averages).



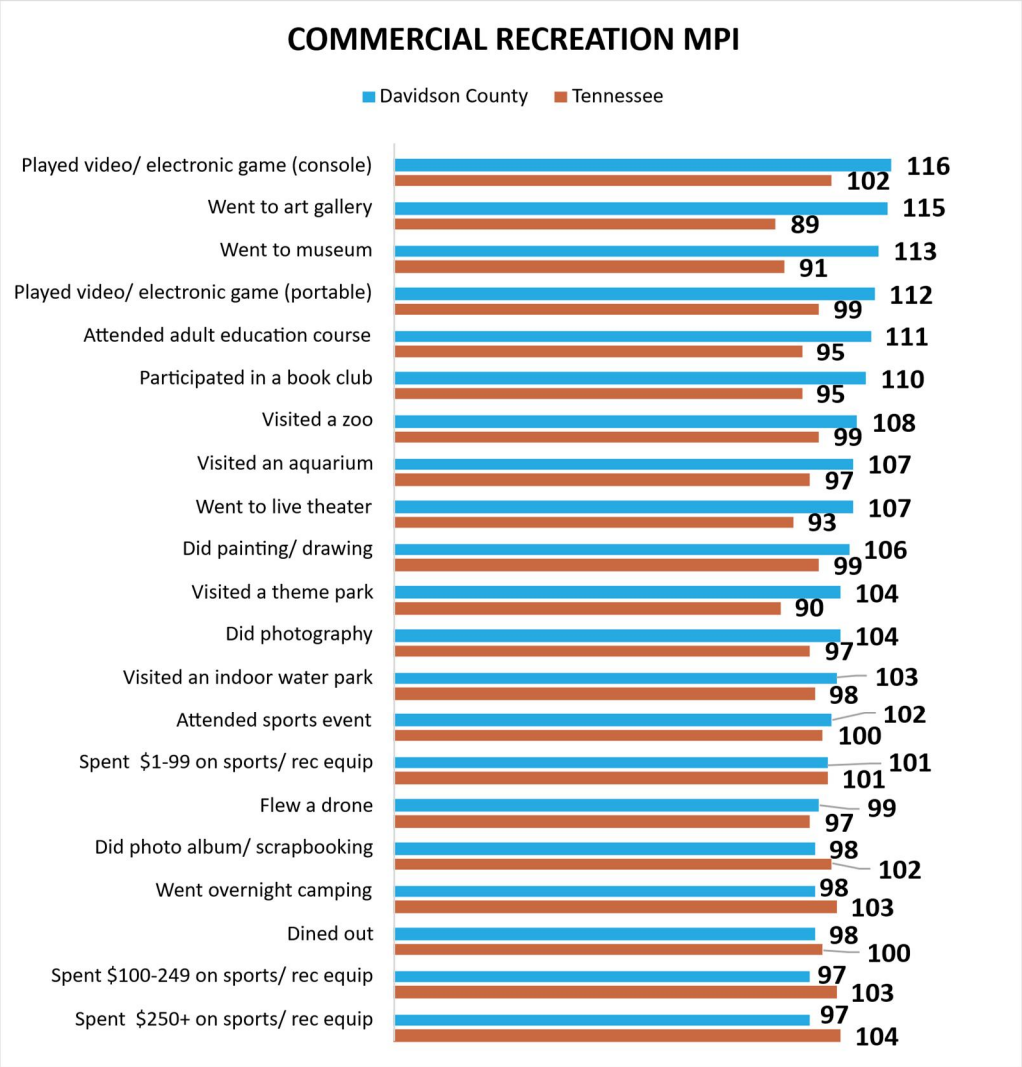
OUTDOOR ACTIVITY MARKET POTENTIAL

Davidson County's Outdoor Activity MPI chart reflects relatively strong scores in most of the recorded activities; the County scored higher than the national average on six of the nine assessed activities, with the most popular activities being Rock Climbing (121), Backpacking (114), and Paddleboarding (112). Alternatively, the lowest scores in the County's Outdoor Activity MPI belonged to Freshwater Fishing (85) which scores extremely high in the Tennessee state average, Horseback Riding (92), and Archery (94). While outscoring the US average in the majority of activities, Davidson County surpasses the Tennessee state averages in just 4 of the 9 assessed activities.



COMMERCIAL RECREATION MARKET POTENTIAL

The Commercial Recreation MPI category reveals that most of the County's recorded Commercial Recreation activities are **above the national average**, with only a handful of exceptions. The most popular activities in the service area were 'Played video/electronic console game' (116), 'Went to Art Gallery' (115), and 'Went to Museum' (114). The types of activities that are popular in Davidson County are diverse; artistic activities and destination activities alike have similarly **high ratings across the board,** though art-based activities seem to be the strongest user base. Paired with the other MPI ratings (General Sports, Fitness, and Outdoor Activity), these activities could signal potential target areas for new facilities, funding, or programs for the Department**.**



Appendix D.1 - Core vs. Casual Participation Trends

General Sports

National Core vs Casual Participatory Trends - General Sports								
Activity	Participation Levels						% Change	
	2019		2023		2024		5-Year Trend	1-Year Trend

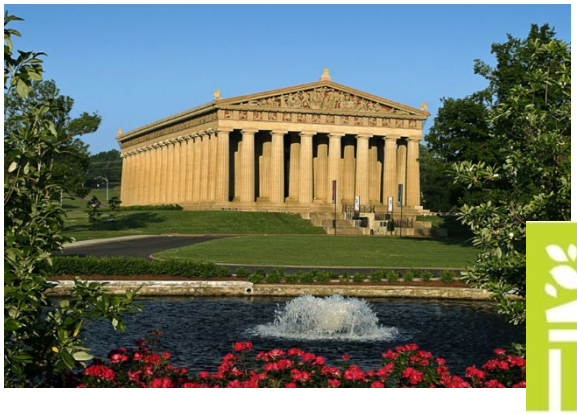
Appendix E - Recreation Program Analysis

Overview

A key component of the Parks and Recreation Master Plan Update is a Recreation Program Analysis of the services offered by Metro Nashville Parks. This analysis reviews program and service offerings (including classes, youth camps, sports leagues, and experiences) to identify strengths, challenges, and opportunities regarding programming. This analysis also identifies Primary Program Areas which are primary programming offered by the Department, program gaps within the community, key park-wide issues, areas of improvement, and future programs and services for residents and visitors.

FRAMEWORK

Metro Nashville Parks provides a broad range of recreational activities and programs, which are supported by and hosted in dedicated community spaces, including parks, trails, recreation facilities, an aquatic center, a museum, senior centers, and more.

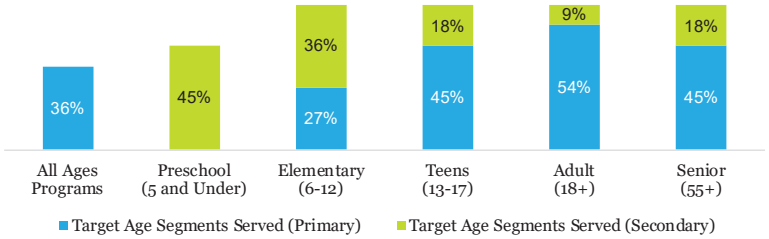


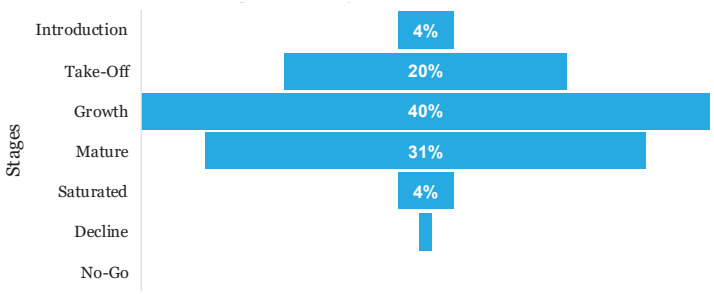
Program Analysis Overview

Below are some observations that stood out when analyzing the Department's program analysis sheet, a comprehensive list of individual programs and services provided by the Department annually. Overall, the **Primary Program Area descriptions and goals** do an excellent job of effectively communicating to the public key benefits and desired outcomes of each Primary Program Area. Additionally, the following sections are summarized to show how the Department performed in other areas of the Program Analysis.

Programming Age Segment Distribution:

The Department's programming is aligned with the community's current population which should continue to be monitored regularly to ensure program distribution continues to match evolving Nashville demographics.



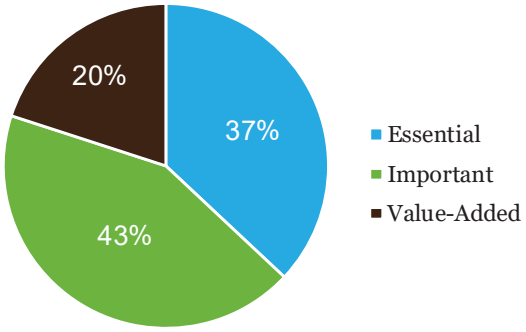


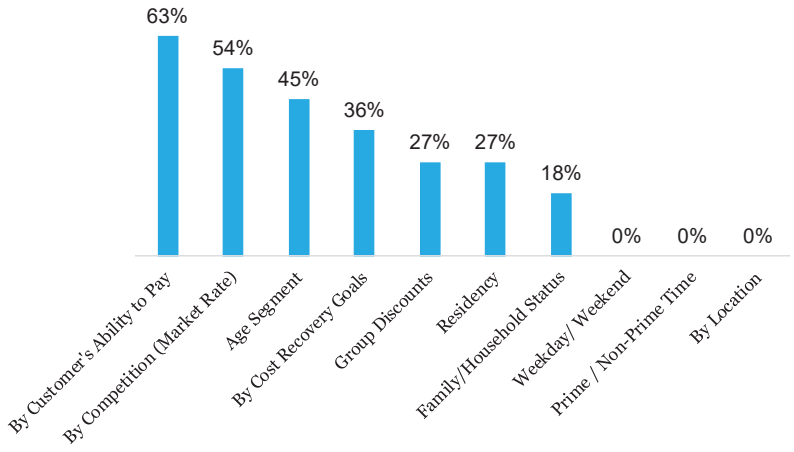
Program Lifecycles:

Approximately 60% of the Department's current programs are categorized in either the **'Take-Off'** or **'Growth'** stages, while only 31% of programs fall into the **'Mature'** Stage.

Program Classification:

33% of the Department's individual programs are deemed '**Essential**', while 45% are '**Important**' and 22% are '**Value-Added**'.



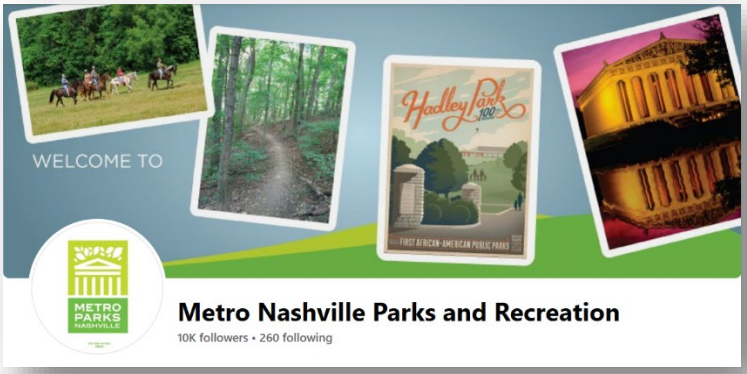


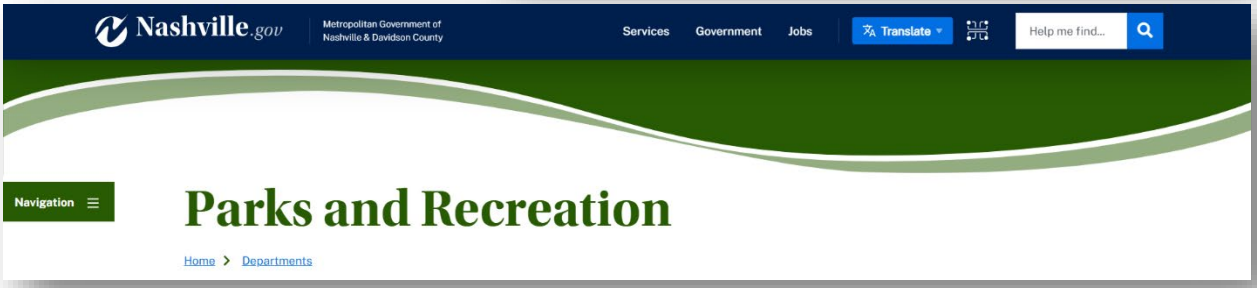
Pricing Strategies:

The Department's program pricing strategies are varied across the board. Currently, the most frequently used approaches (by Primary Program Area) include pricing based on the customer's ability to pay (63%), by competition or market rate (54%), and by age segment (45%).

Marketing:

From a marketing and promotions standpoint, the staff utilizes a variety of marketing methods when promoting their programs including the Department's online/print program guide, the Department's website, flyers/posters, Email blasts, newsletters, and various social media platforms.





Primary Program Areas

To help achieve the Department's mission, it is important to identify Primary Program Areas based on current and future needs to create a sense of focus around specific program areas of greatest importance to the community. Public recreation is challenged by the premise of being all things to all people. The philosophy of the Primary Program Area is to assist staff, policy makers, and the public to focus on what is most important to the community. Program areas are considered a Primary Program Area if they meet a majority of the following criteria:

- The program area has been provided for a long period of time (over 4-5 years) and/or is expected by the community.
- The program area consumes a relatively large portion (5% or more) of the agency's overall budget.
- The program area is offered 3-4 seasons per year.
- The program area has wide demographic appeal.
- There is a tiered level of skill development available within the program area's offerings.
- There is full-time staff responsible for the program area.
- There are facilities designed specifically to support the program area.
- The agency controls a significant percentage (20% or more) of the local market.

EXISTING PRIMARY PROGRAM AREAS

Through discussions with the Department staff, nine Primary Program Areas were identified that are currently being offered. These Primary Program Areas make up the entirety of the Department's programming portfolio and include every type of demographic and user served within Nashville. Across and within each of the Primary Program Areas are major program types that are designed to meet current and emerging needs of Nashville residents. These Primary Program Areas, as well as some overarching goals and example programs within each one, are described in the table below and the pages following it.

Centennial Sportsplex - Aquatics	**Description:** Aquatics programs held at the Centennial Sportsplex, including swim lessons, water aerobics, competitive and casual rowing experiences, and other various classes and activities. **Goals:** • Create a positive environment for swimming, rowing, and other aquatics programming at the Centennial Sportsplex.	• Swim America • Senior Water Aerobics • NAC Competitive, Non-Competitive, and Masters • Lap Swimming • Swimming Therapy Pool
Centennial Sportsplex - Ice	**Description:** Ice programs held at the Centennial Sportsplex, including classes, leagues, camps, tournaments, and clinics for various ages. **Goals:** • Provide entry-level, intermediate, and advanced level programming while fostering a welcoming and competitive environment at the Centennial Sportsplex.	• NSA • NYHL • GNASH • Hockey Tournaments • Summer Hockey Programs • TPH • Hockey Leagues

Centennial Sportsplex – Paddle Sports & Fitness

Description: Fitness offerings and programming for people to workout on their own or take a class that is led by a fitness instructor. Also includes tennis and pickleball specific programming.

Goals:

- Provide a supportive and welcoming environment for people to exercise through a variety of exercise options.

- Junior Clinics
- Private Lessons
- Summer Camp
- Tennis Tournaments
- Pickleball Open Play
- Yoga
- Fitness Classes

Community Centers

Description: Programming offered at community centers including fitness and wellness activities, community service, cultural arts experiences, and environmental awareness programs.

Goals:

- Offer a wide variety of accessible programs that enrich the community and help residents build strong relationships and create a sense of belonging.

- Summer Enrichment Program
- Afterschool Programs
- Social Skills Development
- Community Service

Cultural Arts Programming

Description: Cultural arts programming that includes the Metro Parks Dance Division, Music Division, Theater Division, and Visual Arts Division. A variety of programming is offered to the community, from toddlers to seniors, novices to professionals, and everyone in between.

Goals:

- Provide high-quality, affordable cultural arts programming and opportunities to Nashville and its surrounding communities.

- Youth, Teen, and Adult Ballet
- Dance Fitness Classes
- Guitar, Djembe Drum, and Piano Classes
- Theater camps and classes

disABILITIES

Description: Recreation opportunities, including day programs, sports leagues, classes, outdoor recreation, trainings, and events for Adults (18+) with Intellectual & Developmental disABILITIES (IDD).

Goals:

- Provide quality programs and activities in the areas of fitness, sports, & arts while providing social opportunities for adults with IDD.

- Sportsplex Day Program
- Bowling League
- Flag Football
- Fall Bocce
- Outdoor Recreation Days

Golf

Description: Golf games, practices, and skill development offered across the system.

Goals:

- Create opportunities for games of golf, practice, and skill development for a variety of skill levels and age groups.

- Golf games
- Driving Range
- Putting Greens

Hamilton Creek Park

Description: Rowing, paddleboard, and sailing recreation opportunities offered at Hamilton Creek Park.

Goals:

- Provide a variety of outdoor recreation opportunities at Hamilton Creek Park, with a focus on outdoor aquatics.

- Adult Learn to Row
- Racing Series
- SUP Yoga
- Music City BMX Racing
- Youth Group Rowing
- Full Moon Paddle

Historical Programs - Fort Negley

Description: Historical programs with a focus on themes related to the Civil War. Lectures, tours, guided activities, exhibits. Also, deep natural history activities - fossils, etc.

Goals:

- Provide a wide range of educational experiences that deepen public understanding of history, particularly related to the Civil War, and the threads that connect to and shape our lives and society today.

- Fort Negley Junior Historian
- Flag Day
- Juneteenth
- Battle of Nashville
- Laborers Flag Planting

Nature Centers

Description: Various natural, cultural, or recreational programs for all ages offered at nature centers. Programming ranges from camps and field trips to discovery programs and research opportunities.

Goals:

- All Nature Center programs aim provide instruction for all ages to promote the conservation of natural and cultural resources. Many of them also aim to promote healthy lifestyle through hikes and physical activities.

- Bird Banding
- Environmental Education
- Farm Day
- Full Moon Hike
- School Field Trips
- Archery Basics

Outdoor Recreation

Description: Nature-based recreational activities that may include camping, kayaking, climbing, hiking, outdoor skill-building, integrated environmental education, and other opportunities.

Goals:

- Learning opportunities and programming offered at the Parthenon, ranging from museum tours to weekly programming and events.

- Bouldering
- Hiking
- Mountain Biking
- Wayfinding
- Safety in the Outdoors
- Stewardship - Conservation

Parthenon

Description: Learning opportunities and programming offered at the Parthenon, ranging from museum tours to weekly programming and events.

Goals:

- Providing enriching and free opportunities, experiences, and experiential learning for local individuals and families to enjoy the museum.

- Student Tours
- STEAM Nights
- Art Cart
- AIA Book Club
- Exhibition Openings
- Sketching the Marbles

Program Strategy Analysis

PROGRAM CLASSIFICATION

Conducting a classification of services analysis informs how each individual program serves the overall organization mission, the goals and objectives of each Primary Program Area, and how the program should be funded regarding tax dollars and/or user fees and charges. How a program is classified can help to determine the most appropriate management, funding, and marketing strategies.

Program classifications are based on the degree to which the program provides a public benefit versus a private benefit. Public benefit can be described as everyone receiving the same level of benefit with equal access, whereas private benefit can be described as the user receiving exclusive benefit above what a general taxpayer receives for their personal benefit.

Value-Added Services

Department Could Provide; with additional resources, it adds value to community, it supports Essential & Important Services, it is supported by the community, generates income, has an individual benefit, can be supported by user fees, and requires little to no subsidy.

Important Services

Department Should Provide; if it expands & enhances core services, is broadly supported & used, has conditional public support, there is a economic / social / environmental outcome to the community, has community importance, and needs moderate subsidy.

Essential Services

Department Must Provide; if it protects assets & infrastructure, is expected and supported, is a sound investment of public funds, is a broad public benefit, there is a negative impact if not provided, is part of the mission, and needs significant subsidy.

For this exercise, the Department used a classification method based on three categories: 'Essential', 'Important', and 'Value-Added' Services. Where a program or service is classified depends upon alignment with the Department's mission, how the public perceives a program, legal mandates, financial sustainability, personal benefit, competition in the marketplace, and access by participants.

With assistance from staff, a classification of programs and services was conducted for all the recreation programs offered by the Department. The results presented in the following table represent the current classification distribution of recreation program services. Programs should be assigned cost recovery goal ranges within these overall categories.

Program Classification Distribution		
Essential	Important	Value-Added
37%	43%	20%

As the Department continues to evolve to better meet the community's needs, there could be an added benefit to managing the services if they all were classified according to the **Cost Recovery Model for Sustainable Services depicted on the following page.**

Given the broad range of cost recovery goals (i.e., 0%-40% for Essential Services or 40%-80% for Important Services), it would be helpful to further distribute programs internally within sub-ranges of cost recovery as depicted above. This will allow for programs to fall within an overall service classification tier while still demonstrating a difference in expected/desired cost recovery goals based on a greater understanding of the program's goals (e.g., Pure Community Services versus Mostly Community Services or Community and Individual Mix versus Mostly Individual Mix).

COST OF SERVICE AND COST RECOVERY RECOMMENDATIONS

Cost recovery targets should at least be identified for each Primary Program Area at a minimum, and for specific programs or events when realistic. The identified Primary Program Areas would serve as an effective breakdown for tracking cost recovery metrics including administrative costs. Theoretically, staff should review how programs are grouped for similar cost recovery and subsidy goals to determine if current practices still meet management outcomes.

Currently, the Department utilizes cost recovery in some, but not all Primary Program Areas. For example, while Cultural Arts Programming has developed cost recovery goals and tracked cost recovery metrics, while other Primary Program Areas like Nature Centers are free by design.

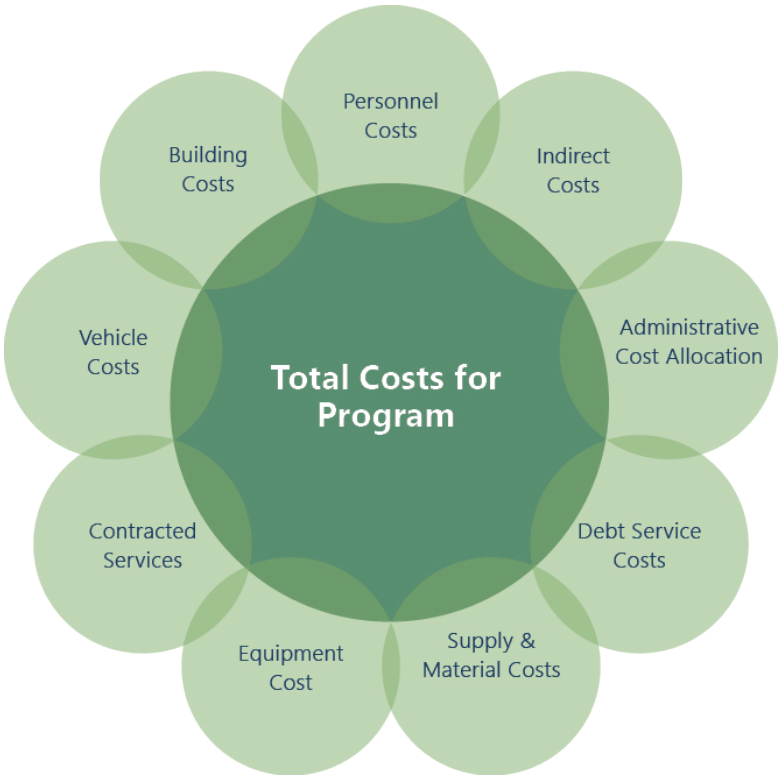
Determining cost recovery performance and using it to make informed pricing decisions involves a three-step process:

1. Classify all programs and services based on the public or private benefit they provide (as completed in the previous section).
2. Conduct a Cost-of-Service Analysis to calculate the full cost of each program.
3. Establish a cost recovery percentage, through Department policy, for each program or program type based on the outcomes of the previous two steps and adjust program prices accordingly.

The following section provides more details on steps 2 & 3.

Understanding the Full Cost of Service

To develop specific cost recovery targets, full cost of accounting needs to be created for each class or program that accurately calculates direct and indirect costs. Cost recovery goals are established once these numbers are in place, and the Department's program staff should be trained on this process. A Cost-of-Service Analysis should be conducted on each program, or program type, that accurately calculates direct (i.e., program-specific) and indirect (i.e., comprehensive, including administrative overhead) costs. Completing a Cost-of-Service Analysis not only helps determine the true and full cost of offering a program, but it also provides information that can be used to price programs based upon accurate delivery costs. **The figure to the right illustrates the common types of costs that should be accounted for in a Cost-of-Service Analysis.**



The methodology for determining the total Cost-of-Service involves calculating the total cost for the activity, program, or service, then calculating the total revenue earned for that activity. Costs (and revenue) can also be derived on a per unit basis. Program or activity units may include:

- Number of participants
- Number of tasks performed
- Number of consumable units
- Number of service calls
- Number of events
- Required time for offering program/service

Agencies use Cost-of-Service Analyses to determine what financial resources are required to provide specific programs at specific levels of service. Results are used to determine and track cost recovery as well as to benchmark different programs provided by the Department between one another. Cost recovery goals are established once Cost-of-Service totals have been calculated. Program staff should be trained on the process of conducting a Cost-of-Service Analysis and the process should be undertaken on a regular basis.

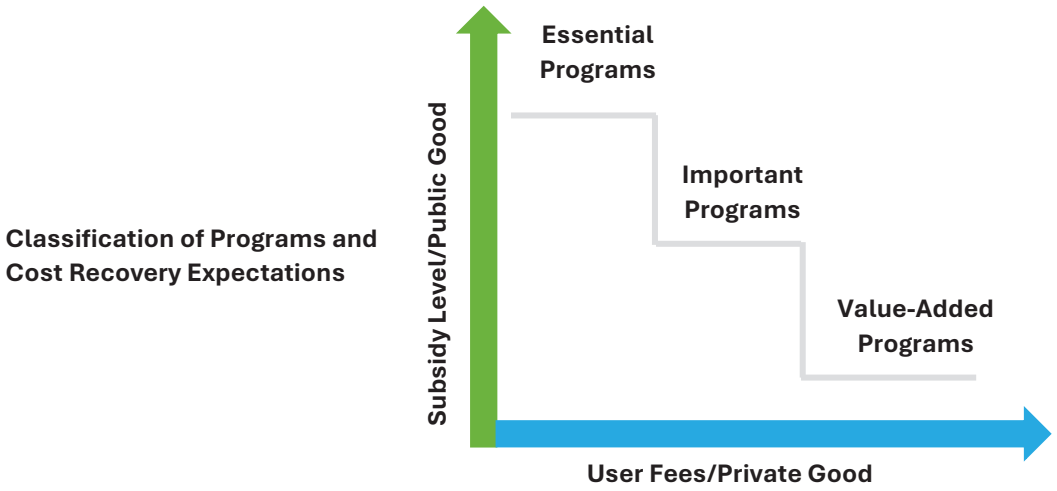
Actual cost recovery can vary based on the Primary Program Area, and even at the individual program level within a Primary Program Area. Several variables can influence the cost recovery target, including lifecycle stage, demographic served, and perhaps most important, program classification. It is normal for programs within each Primary Program Area to vary in price and subsidy level. The program mix within each Primary Program Area will determine the cost recovery capabilities.

With approved cost recovery goals, annual tracking, and quality assurance, actual cost recovery will improve. Use the key performance indicator on the previous page and update it annually to include the cost recovery goal and the actual cost recovery achieved. Each Primary Program Area can be benchmarked against itself on an annual basis.

Cost Recovery Best Practices

Cost recovery targets should reflect the degree to which a program provides a public good versus an individual good. Programs providing public benefits (i.e., 'Essential' programs) should be subsidized more by the Department; programs providing individual benefits (i.e., 'Value-Added' programs) should seek to recover costs and/or generate revenue for other services. To help plan and implement cost recovery policies, the consulting team has developed the following definitions to help classify specific programs within program areas.

- **Essential** programs category is critical to achieving the organizational mission and providing community-wide benefits and therefore, generally receive priority for tax-dollar subsidization.
- **Important or Value-Added** program classifications generally represent programs that receive lower priority for subsidization.
    - **Important** programs contribute to the organizational mission but are not essential to it; therefore, cost recovery for these programs should be high (i.e., at least 80% overall).
    - **Value-Added** programs are not critical to the mission and should be prevented from drawing upon limited public funding, so overall cost recovery for these programs should be near or in excess of 100%.



PROGRAM PRICING AND FEE SCHEDULE DEVELOPMENT

Pricing strategies are another mechanism agencies can use to influence cost recovery; however, it should be noted that Metro Parks is in an atypical position, as the Department **does not retain any of its earned income**, meaning that cost recovery is not a significant factor or motivator for its programming. Though this unique situation leads to the Department not seeing their earned income, it is still valuable to have an understanding of which pricing strategies are in use for each Primary Program Area to assess the Department's customers' ability and acceptance to participate when faced with a cost barrier to a program. Additionally, programs that involve non-Departmental partner entities may have cost recovery goals as determined by the partner.

Overall, the degree to which Metro Parks uses various pricing strategies in its fee scheduling is rather varied, with different areas of the Department utilizing different approaches to program pricing. However, pricing tactics are primarily concentrated in residency status, by cost recovery goals, and by the customer's ability to pay. Currently, the Primary Program Area that utilizes the largest variety of pricing strategies are

Community Centers (6 out of 10) followed by Cultural Arts Programming and Centennial Sportsplex – Sports & Fitness (both utilizing 5 pricing strategies out of the 10 listed).

Staff should continue to monitor the effectiveness of the various pricing strategies they employ and adjust as necessary. It is also important to regularly monitor for local competitors as an increase in programming competition may alter program pricing**. The table below details pricing methods currently in place by each Primary Program Area and additional potential strategies to be implemented over time.**

Pricing Strategies										
Program Area	Age Segment	Family/ Household Status	Residency	Weekday/ Weekend	Prime / Non-Prime Time	Group Discounts	By Location	By Competition (Market Rate)	By Cost Recovery Goals	By Customer's Ability to Pay
Centennial Sportsplex - Aquatics	X								X	X
Centennial Sportsplex - Ice								X		
Centennial Sportsplex - Sports & Fitness	X		X			X			X	X
Community Centers	X		X			X		X	X	X
Cultural Arts Programming	X	X						X	X	X
DisABILITIES								X		X
Hamilton Creek Park	X	X						X		X
Historical Programs - Fort Negley										
Nature Centers										
Outdoor Recreation										
Parthenon	X		X			X		X		X

AGE SEGMENT ANALYSIS

For this report, an Age Segment Analysis was completed by Primary Program Area, exhibiting an over-arching view of the age segments served by different program areas, and displaying any gaps in segments served. It is also useful to perform an Age Segment Analysis by individual programs in order to gain a more nuanced view of the data. **The table below depicts each Primary Program Area and the most prominent age segments they serve**. Under each Primary Program Area, a **'P'** was indicated if that program serves a certain age segment as its Primary demographic or an **'S'** as its Secondary demographic.

Age Segment Analysis						
Program Area	Preschool (5 and Under)	Elementary (6-12)	Teens (13-17)	Adult (18+)	Senior (55+)	All Ages Programs
Centennial Sportsplex - Aquatics	P	P	P	P	P	P
Centennial Sportsplex - Ice	S	P	P	S	S	
Centennial Sportsplex - Sports & Fitness	S	S	P	P	P	
Community Centers		P	P	P	S	
Cultural Arts Programming						P
DisABILITIES	S	S	S	P	P	
Golf		S	S	P	P	
Hamilton Creek Park	S	S	P	P	P	
Historical Programs - Fort Negley	S	S	S	P	P	
Nature Centers	S	P	P	S	S	P
Outdoor Recreation						P
Parthenon		P	P	P	P	

Based on the age demographics of the Davidson County community, current program offerings seem to be well-aligned with the community's age profile, as the Department does a great job of having offerings for all ages and more specific age groups. Though the Department puts forth intentional effort to have specific

individual programs tailored to the community's older age demographics (like Adult Rowing at Hamilton Creek Park), the Department also works to serve younger populations with several different Primary Program Areas, including Centennial Sportsplex Programs, Outdoor Recreation offerings, and a multitude of programs through community centers.

The Department has also done a great job serving the remainder of the community by ensuring all age segments have dedicated programming geared towards them; in fact, every single age segment except for Preschool has at least three different Primary Program Areas that serve as a Primary demographic with most having four or more. Moving forward, it is recommended that the Department continues introducing new programs with specific age demographics in mind to address any potential unmet needs in the future. The table and graph below illustrate how each age segment is served by the various Primary Program Areas as a whole.

Target Age Segments Served	All Ages Programs	Preschool (5 and Under)	Elementary (6-12)	Teens (13-17)	Adult (18+)	Senior (55+)
Primary	36%	0%	27%	45%	54%	45%
Secondary	0%	45%	36%	18%	9%	18%

Staff should continue to monitor demographic shifts and program offerings to ensure that the needs of each age group are met. It would be best practice to establish a plan including what age segment to target, establish messaging, identify which marketing method(s) to utilize, create a social media campaign, and determine what to measure for success before allocating resources towards a particular effort.

PROGRAM LIFECYCLE ANALYSIS

A Program Lifecycle Analysis involves reviewing each program offered by the Department to determine the stage of growth or decline for each. This provides a way of informing strategic decisions about the overall mix of programs managed by the Department to ensure that an appropriate number of programs are "fresh" and that relatively few programs, if any, need to be discontinued. This analysis is not based on strict quantitative data but instead is based on staff members' knowledge of their programs.

The following table shows the percentage distribution of the various lifecycle categories of the Department's programs. These percentages were obtained by dividing the number of programs in each individual stage with the total number of programs listed by staff members. There are seven individual stages, the first three of which fall into the beginning lifecycle stages, including '**Introduction**', '**Take-Off**', and '**Growth**', which are the expected stages that healthy programs grow from new offerings to programs that the community depends on and turns out for consistently. The '**Mature**' stage often anchors a programming portfolio, as mature programming provides a Department with the highest level of consistent interaction, attendance, and earned revenue. Following the '**Mature**' stage, programs will slowly enter the '**Saturated**', '**Decline**', and '**No-Go**' stages, where they will naturally filter out of a programming portfolio over time.

Lifecycle Analysis				
Stages	Description	Actual Programs Distribution		Recommended Distribution
Introduction	New programs; modest participation	4%	64%	50%-60% Total
Take-Off	Rapid participation growth	20%		
Growth	Moderate, but consistent participation growth	40%		
Mature	Slow participation growth	31%	31%	40%
Saturated	Minimal to no participation growth; extreme competition	4%	5%	0%-10% Total
Decline	Declining participation	1%		
No-Go	Cancelled programs	0%		

Overall, the Lifecycle Analysis depicts a majority concentration of programs in their early lifecycle stages. Approximately 64% of all programs fall within the beginning stages ('Introduction', 'Take-Off', & 'Growth'), with 40% of those programs being specifically in the 'Growth' stage. It is recommended to have 50%-60% of all programs within these beginning stages as they provide the Department an avenue to energize its programmatic offerings, so the Department is meeting that quota and then some. These stages ensure the pipeline for new programs is there prior to programs transitioning into the 'Mature' stage, of which 31% of all Nashville program offerings fall into. This stage anchors a program portfolio, and it is recommended to have roughly 40% of programs within this stage in order to achieve a stable foundation.

Additionally, just 5% of the assessed programs are identified as being 'Saturated', 'Declining', or 'No-Go' (cancelled). It is a natural progression for programs to eventually transition into 'Saturated' and 'Declining' Stages. However, it is recommended to have no more than 0%-10% of programs in the 'Declining' stage and if programs begin to reach these stages rapidly, it could be an indication that the quality of the programs does not meet expectations, or there is not as much of a demand for those programs. As programs enter into the Decline Stage, they must be closely reviewed and evaluated for repositioning or cancellation. When this occurs, the Department should modify these programs to begin a new lifecycle within the Introductory Stage or replace existing programs with new programs based upon community needs.

Additionally, some programs may see positive or negative growth trends due to external factors, including additional staffing capabilities, a sharp increase in demand due to national or local trends, or a beneficial marketing push that increases program interest and enrollment. While largely a qualitative exercise (where the program staff will have the best understanding of what to expect), it will be beneficial to consider these external factors when utilizing this lifecycle analysis, as each program has individual demands that cannot always be accounted for in this type of quantitative analysis. If these exceptions are identified (where a program may need to be reassessed based on an unexpected surge in interest or enrollments), they should be recorded in the appropriate current lifecycle stage for data analysis purposes, but still analyzed individually to allow for optimal program growth or appropriate program downsizing.

Staff should complete a Program Lifecycle Analysis on an annual basis and ensure that the percentage distribution closely aligns with the Department's desired performance. The Department could include performance measures for each Primary Program Area to track participation growth, customer retention, and percentage of new programs as an incentive for innovation and alignment with community trends.

MARKETING AND PROMOTION

When forming new and maintaining existing programs and services, utilizing effective marketing strategies is an integral step in securing appropriate and significant attendance and engagement from the community. Based on the feedback from staff of the Department, the table below illustrates the methods currently being used within each Primary Program Area.

Marketing Strategies																	
Strategies	Program Guides (print)	Program Guides (online)	Website	Phone Enabled Site	Social Media	Flyers/ Brochures	Direct Mail	Email/ Listserv	PSAs	Newsletters (Print)	Newsletters (Online)	Paid Ads	Radio (paid or free)	TV (paid or free)	SMS / Text message marketing	Webinars	QR Codes
Centennial Sportsplex - Aquatics	x	x	x	x	x			x			x						x
Centennial Sportsplex - Ice	x	x	x	x	x			x			x						x
Centennial Sportsplex - Sports & Fitness	x	x	x	x	x			x			x						x
Community Centers	x	x	x	x	x	x		x			x						x
Cultural Arts Programming	x	x	x	x	x	x		x	x		x		x				x
DisABILITIES	x	x	x	x	x						x						x
Hamilton Creek Park	x	x	x	x	x						x						x
Historical Programs - Fort Negley	x	x	x	x	x					x	x					x	x
Nature Centers	x	x	x	x	x	x		x		x	x					x	x
Outdoor Recreation	x	x	x	x	x	x		x		x	x					x	x
Parthenon	x	x	x	x	x	x		x		x	x						x

The Department utilizes a broad range of marketing strategies to get the word out, including some strategies used across all Primary Program Areas (like program printed and online guides, the Department's website, social media, and online newsletters). The Department also has certain strategies that are a part of its overall marketing efforts and are applied to each individual program when they are marketed and advertised, which results in all Primary Program Areas using strategies like program guides or Metro Park's website.

It should be noted that the Consultant Team observed that Metro Parks is progressive in its marketing and promotions efforts, utilizing several strategies across a diverse set of media. Additionally, it is noted that the Department's management of its social media platforms is consistent and a reliable avenue for increasing and maintaining program participation.

PROGRAM STRATEGY RECOMMENDATIONS

In general, the Department program staff should continue the cycle of evaluating programs on both individual merit as well as the Department's program mix as a whole. This can be completed at one time on an annual basis, or in batches at key seasonal points of the year, as long as each program is checked once per year. The following tools and strategies can help facilitate this evaluation process:

Primary Program Area Business Plans

The consulting team recommends that Mini business plans (roughly two to three pages in length) for each Primary Program Area be updated on a yearly basis. These plans should evaluate the Primary Program Area based on meeting the outcomes desired for participants, cost recovery, percentage of the market and business controls, Cost-of-Service, pricing strategy for the next year, and marketing strategies that are to be implemented. If developed regularly and consistently, they can be effective tools for budget construction and justification processes in addition to marketing and communication tools. These Primary Program Area business plans should include but not be limited to **the following areas of focus:**

A. Name of Program/Area

B. Program/Area Overview

- Desired outcomes/ participants and community benefits
- General program description(s)
- Target participation or enrollment levels
- Length of program offerings (session duration)
- Frequency of programs (reoccurring, one-time, seasonal, etc.)

C. Target Audience

- Age(s) or other unique demographic identifiers
- Program location(s)

D. Marketing/Communications

- Methods of promotion
- Frequency of promotions

E. Financial Performance

- Estimated Cost-of-Service
- Target cost recovery
- Estimated cost to user(s)

F. Lifecycle Management

- Schedule of evaluation
- Additional performance measures

Program Development & Decision-Making Matrix

When developing program plans and strategies, it is useful to consider all of the Primary Program Areas and individual program analysis discussed in this Program Assessment. Lifecycle, Age Segment, Classification, and Cost Recovery Goals should all be tracked, and this information, along with the latest demographic trends and community input, should be factors that lead to program decision-making. Community input can help staff focus in on specific program areas to develop new opportunities for various target markets including the best marketing methods to use.

A simple, easy-to-use tool similar to the worksheet below will help compare programs and prioritize resources using multiple data points, rather than relying solely on cost recovery. In addition, this analysis will help staff make an informed, objective case to the public when a program is in decline, but beloved by a few, is retired. If the program/service is determined to have strong priority, appropriate cost recovery, good age segment appeal, good partnership potential, and strong market conditions, the next step is to determine the marketing methods by completing a similar exercise as the one seen here.

Marketing & Promotion Methods

Program Idea (Name or Concept):

Marketing Methods	Content Developed	Contact Information	Start Date
Activity Guide			
Website			
Newspaper			
Radio			
Social Media			
Flyers - Public Places			
Newspaper			
Email			
Staff Promotion @ Events			
School Flyer/ Newsletter			
Television			
Digital Sign			
Friends/ Neighbors Groups			

Sponsorship/Partnership

Program Idea (Name or Concept):

Potential Partnerships	Monetary	Volunteers	Partner Skill	Location
Potential Sponsors	Monetary	Volunteers	Sponsor Skill	Location

Internal Factors of Programming

Program Idea (Name or Concept):

Priority	High	Medium	Low
Program Area	Core	Non-Core	Unsure
Classification	Essential	Important	Value-
Cost Recovery Range	0-40%	60-80%	80+%
Age Segment	Primary	Secondary	Other

Market Competition

Program Idea (Name or Concept):

Number of Competitors:

Competition Level	High	Medium	Low
Growth Potential	High	Medium	Low

Organizational Key Performance Indicators (KPIs)

It is recommended that the Department utilizes KPIs in to assist in both Primary Program Area and individual program assessments, as well as managing operations and facilities where programs occur.
Key performance indicators (KPIs) are metrics that Parks and Recreation agencies can use to measure their progress towards goals in areas such as:

- Programming
- Operations
- Budgeting
- Customer satisfaction
- Staffing and Capacity
- Asset Management
- Sustainable practices

KPIs should be SMART, which means they are: Smart, Measurable, Achievable, Realistic and Relevant, and Time-bound. **Specific potential KPIs for the recreation division of the Department are provided below.**

Facility Reservations
$ of rentals income
Number of rentals
Memberships/Day Passes
Income from total memberships
Number of new & renewed annual
Annual renewal rate percentage
Number of new and renewed 3 month
3 month renewal rate percentage
Total number of active memberships YTD
Number of 1 month memberships
Income from 1 month memberships
Renew active participants
Renew active revenue
Income from day passes
Number of day passes
Facility Totals
Total revenue
Total expenses (including overhead)
Percentage of cost recovery
Number of facility surveys turned in
Average facility score percentage
Percentage of surveys cleanliness
Total dollar amount of scholarships given

Facility Visit Numbers
Number of total visits per quarter
Retail sales
Income from goods sold
Programs
Percentage of classes that make
Numer of total participants
Percentage of class roster spots filled
Number of new programs offered
Percentage of new programs that make
Number of program surveys returned
Income from program revenue
Total program expenses
Leagues
Percentage of leagues that make
Number of total participants
Number of league surveys returned
Income from league revenue
Total league expenses

Program Evaluation Cycle (with Lifecycle Stages)

Using the Age Segment and Lifecycle Analysis (and other established criteria), program staff should evaluate programs on an annual basis to determine program mix, which can then be incorporated into the Program Operation/Business Plan process. **A diagram of the program evaluation cycle and program lifecycle is found in the figure below.**

During the Introductory Stages, program staff should establish program goals, design program scenarios and components, and develop the program operating/business plan. Regular program evaluations will help determine the future of a program. If participation levels are still growing, continue to provide the program. When participation growth is slowing (or non-existent) or competition increases, staff should look at modifying the program to re-energize the customers to participate. When program participation is consistently declining, staff should terminate the program and replace it with a new program based on the public's priority ranking and/or program areas that are trending nationally/locally, while taking into consideration the anticipated local participation percentage.

B. Primary Program Area Overview

Desired outcomes/participants and community benefits:

General program description(s):

Target participation or enrollment levels:

Length of program offerings (session duration):

Frequency of programs (reoccurring, one-time, seasonal):

C. Target Audience

Age(s) or other unique demographic identifiers:

Program location(s)

D. Marketing and Communications:

Method(s) of promotion:

Frequency of promotion(s):

E. Financial Performance

Estimated Cost-of-Service:

Target cost recovery:

Estimated cost to user(s):

F. Lifecycle Management

Schedule of evaluation:

Additional performance measures:

Appendix F - Public Survey Results and Needs Mapping Summary

PUBLIC SURVEY RESULTS SUMMARY

Introduction

The Parks and Recreation Department (Metro Nashville Parks) is updating its systemwide parks and recreation master plan document, Plan to Play, originally adopted by the Metropolitan Board of Parks and Recreation on March 7, 2017. As a part of the Plan to Play Update, an online survey was administered to measure resident engagement with the Metro Parks system and to provide input for consideration in identifying future capital and programmatic investments. The survey is one of several important sources of input, along with the open house, needs mapping, and stakeholder meetings, that will be used to inform plan recommendations. The survey's typical participants are self-selected and tend to be more highly engaged in parks and community affairs than the average person.

1.1 SURVEY OVERVIEW & PARTICIPATION PROFILE

Survey Reach & Scale:

- Total Responses: 2,550
- Davidson County Residents: 94.5% (2,409)
- Non-residents: 5.5% (140)
- Statistical margin of error range +/-2.0% to +/-2.43%

Engagement Window: May 21 to July 31, 2025 – ensuring seasonal coverage across spring, early summer, and midsummer usage.

Geographic Distribution:

- Highest response rates from 37206 (East Nashville, 350), 37209 (West Nashville, 259), and 37205 (Belle Meade/Green Hills, 222).
- South and Southeast zip codes (37211, 37013, 37217) indicated continued recreation demand, particularly around Antioch and Cane Ridge.

Demographic Indicators

- Broad mix of families, seniors, and young professionals:
    - Families with young children are reflected in frequent mentions of playgrounds and splash pads (e.g., Fannie Mae Dees “Dragon Park,” Sevier Park, Elmington Park). These comments often request shaded seating, restrooms, and more child-friendly amenities.
    - Seniors and older adults are visible in asks for walking loops, benches, rest areas, and aquatics facilities, especially in reference to Centennial, Two Rivers, and McCabe. Several comments highlight swimming pools as critical resources for older residents’ fitness.
    - Young professionals are reflected in mentions of greenways and fitness programming, particularly the Shelby Bottoms and Richland Creek corridors, with comments highlighting running, biking, and group fitness opportunities.

Significant representation from equity-priority neighborhoods:

- Respondents from Antioch (37013), Madison (37115), and North Nashville (37208) participated and voiced specific needs such as new community centers, better athletic fields, and more playgrounds. For example, Cane Ridge and Hartman Park were frequently cited by these respondents as needing reinvestment.
- Madison and Hermitage residents repeatedly flagged limited access to safe greenways and requested stronger connectivity into existing trail networks like Stones River.

Underserved areas still underrepresented in survey responses relative to population share

- Despite population growth, South Nashville (37211) and Antioch (37013) had fewer mentions than expected given the population of those areas. Comments that did appear often raised frustration about “lack of parity” compared to the concentration of facilities in East Nashville or near the urban core.
- Several respondents noted they “drive to Warner Parks or Shelby Bottoms” because comparable facilities are not available in their immediate neighborhoods. This points to an ongoing geographic equity gap in facility distribution.

Demographic Stats:

- 85.5% of respondents have been residents of Davidson County for five (5) or more years.
- 63.3% of respondents were in the 25-54 age group; over-sampling the actual age group which is 40.9% of the population. Note the online survey was intended for adults (18 years old or older) to complete.
- The 55-74 years old age group was over-sampled 29.3% to actual 13.6%, while the 75+ age group was represented accurately with 4.8% in the survey and 4.7% in population.
- Households with children were slightly under-sampled with 35.9% of respondents indicating they had children under 18 in their household vs. 44.4% of actual households.
- Whites were over-sampled 74.0% vs. 66.6% actual while the following minority populations were under-sampled: Black/African American 8.4% vs. actual 26.1%; Hispanic/Latino/ or Spanish at 1.8% vs. actual 13.7%; and Asians at 1.3% vs. actual 3.8%.
- Households with a member that has a disability were over-sampled with 13.8% of respondents vs. 7.8% actual.

1.2 FACILITY USE & CORE ANCHORS

System Anchors: Survey responses identify concentrations around a small set of sites/parks:

- Warner Parks (Percy/Edwin Warner) – repeatedly identified as the county's premier outdoor recreation destination, providing multi-modal trails, ecological preserves, and competitive athletics.
- Shelby Bottoms/Greenway – the most consistently mentioned greenway corridor, underscoring demand for linear access and neighborhood-to-park connectivity.
- Centennial & Bicentennial Parks – key urban cultural anchors, providing programmed events, passive recreation, and city identity.

Community-Level Facilities:

- Regional Community Centers (Hadley, McCabe, Bellevue, Madison, Hartman): serve as localized "third spaces" for fitness, aquatics, and senior/youth programming.
- Playgrounds: Strong family demand for high-use sites (Fannie Mae Dees/Dragon Park, Sevier, Elmington, Shelby).

- Athletic Assets: Consistent use of golf courses (Vinny Links, Ted Rhodes, McCabe), tennis courts (Hadley, Hillwood HS), and disc golf courses (Seven Oaks, Cane Ridge, Cedar Hill).

1.3 TRENDS & ACTIVITY CLUSTERS

Greenways as Transportation Corridors:

- Greenways represent the most heavily cited asset class, functioning as both transportation corridors and recreation conduits.
- Most referenced: Shelby Bottoms, Richland Creek, Stones River, Mill Creek, Cumberland River, and Harpeth River alignments.
- High number of mentions for “desired routes” highlight demand for cross-county linkages (Antioch to Downtown; West Nashville to Bellevue).

Activity Interests and Needs:

- Walking/Hiking/Trails: Warner Parks, Radnor Lake, and Beaman are consistently used for hiking and nature immersion.
- Cycling & Multi-Use: Greenways increasingly serve as daily fitness and commuting corridors.
- Aquatics: Community demand is high for more aquatic facilities (most referenced from survey were pools at Hadley, Hartman, Smith Springs, Bellevue).
- Dog Parks: High reliance on Two Rivers, Centennial, Shelby, and Ravenwood dog parks.
- Community Programming: Seniors emphasized community centers, while families highlighted youth sports and playgrounds.

1.4 PRIORITIES & NEEDS

Key Themes from Responses (descending order of priority/need):

1. **Maintenance & Safety Concerns**
   - Requests for lighting upgrades, trail safety patrols, and restroom access.
   - Several respondents cite feeling unsafe in neighborhood parks, limiting use.
2. **Geographic Equity**
   - Repeated emphasis on Antioch, Madison, Hermitage, and North Nashville as underserved relative to population density.
   - Need for balanced park distribution across areas of population growth in Davidson County.

3. **Connectivity Imperative**
    - Consistent demand for linkages between greenways and parks.
    - Desire for trail continuity across river and highway barriers.

4. **Programming Expansion**
    - Respondents noted a desire for more community events, senior activities, aquatics, and youth athletics.
    - Support for multi-generational programming as a unifying strategy.
5. **Recreation Innovation**
    - Mentions of pickleball courts, pump tracks, skateparks, and disc golf reflect demand for non-traditional recreation offerings.

1.5 STRATEGIC TAKEAWAYS & PLANNING IMPLICATIONS

System-Wide Insights:

- **Legacy Parks Drive Usage**: Warner Parks, Centennial, and Shelby remain dominant, but are strained from overuse as noted by respondents.
- **Greenways are System Backbone:** Linear connectivity has emerged as Nashville's highest recreation demand; greenways are not "supplemental," but core to many respondents' recreation needs.
- **Equity Gaps Persist:** Equity through the system remains an area for improvement with the Antioch and North Nashville areas lacking facilities which are accessible in the West and East Nashville areas in both facility quality and density.

Planning Implications:

- **Invest in Equitable Expansion**: Prioritize Antioch/Madison/Hermitage for new playgrounds, community centers, and trailheads to provide access greenways.
- **Enhance Greenway Network:** Complete linkages, enhance trailheads, and integrate greenway access into neighborhood-level planning.
- **Upgrade Core Parks:** Reinforce Centennial, Shelby, and Warner Parks with maintenance, safety, and resilience investments.
- **Diversify Programming**: Expand offerings beyond traditional athletics to include wellness, cultural events, and senior engagement.
- **System Resilience:** Incorporate climate resilience (flood-tolerant materials, shade canopy, permeable surfaces) into capital reinvestment.

1.6 CONCLUSION

The 2025 “Plan to Play” Survey highlights Metro Parks’ role as both a community connector and regional destination system. Resident feedback reveals both high reliance on legacy parks and greenways and a strong desire for equitable distribution of facilities and modern programming. The insights provide clear directives: expand access, enhance safety, improve greenways, and balance the recreation portfolio to meet the needs of a growing, diversifying Nashville-Davidson County.

Write-in Questions

The following are summaries of write-in questions from the online survey:

Question 3:

Which specific facilities (greenway, dog park, playground, etc.) do you use most? Include location (name of facility, or greenway) if possible.

Results show that the Warner Parks, Shelby, Centennial, and Bicentennial (non-Metro Park) are the most dominant system anchors, while neighborhood-level parks like McCabe, Sevier, Elmington, and Hadley also received strong recognition. Greenways (Shelby, Richland, Two Rivers) are consistently prioritized.

Top 15 Sites (Descending Order)

1. Warner Parks (Percy & Edwin Warner) – 167 mentions
2. Shelby Park & Bottoms – 153 mentions
3. Centennial Park – 142 mentions
4. Bicentennial Capitol Mall State Park – 118 mentions
5. McCabe Park & Community Center – 101 mentions
6. Seven Oaks Park / Disc Golf – 96 mentions
7. Two Rivers Park – 92 mentions
8. Sevier Park – 86 mentions
9. Fannie Mae Dees Park (Dragon Park) – 81 mentions
10. Elmington Park – 77 mentions
11. Hadley Park & Community Center – 74 mentions
12. East Bank / Cumberland Riverfront – 71 mentions
13. Richland Creek Greenway – 68 mentions
14. Smith Springs Park – 65 mentions
15. Cane Ridge Park – 63 mentions

Question 14:

Which THREE types of programs are most important to you or your household?

Top write-ins responses (# of mentions): (178 total write-in comments)

1. **Aquatics & Pools** (Mentions: 15)
   - Includes: outdoor pools, indoor pools, warm pools, extended hours, shaded play/pool areas, swimming lessons for adults, community pools (West Meade, Bellevue, YMCA reference).
2. **Pickleball** (Mentions: 14)
   - Requests for dedicated courts, indoor courts, leagues, clinics, open court time, and county-wide access.
   - Several emphasized Nashville is "behind" in providing proper pickleball facilities.
3. **Golf** (Mentions: 12)
   - Includes: general golf requests, more courses, course improvements, free/affordable lessons, household avid golfers, and golf as a core recreation activity.
4. **Fitness & Exercise Programs** (Mentions: 10)
   - Examples: exercise classes, tai chi, yoga, line dancing/zumba, Parkinson's boxing, strengthening/balance for seniors, racquetball, squash, roller skating, senior fitness, "music for seniors."
5. **Youth & Teen Programs** (Mentions: 8)
   - Includes: programs for ages 9–12 (gap age), afterschool, teen basketball/court time, camps for kids under 6, programs for older children/teens.
6. **Arts, Culture, & Education** (Mentions: 7)
   - Includes: historical tours, art classes, crafts/knitting/sewing/woodworking, multicultural programs, cultural centers (Edmondson site), music/dance performances.
7. **Dog Parks & Pet Programs** (Mentions: 6)
   - Requests for more dog parks, shaded/fenced facilities, late hours, and dog-friendly programming.
8. **Greenways & Outdoor/Nature Activities** (Mentions: 6)
   - Greenway connectivity, nature-led hikes, outdoor education, mountain bike trail, safe bike riding programs.

Question 15:

Is there anything else you would like to share about Nashville's parks, park facilities, and amenities?

1,054 total write-in comments

Top Ten Themes (Descending Order)

1. Greenways & Connectivity – 422 mentions

- Respondents consistently identified greenway expansion as the highest priority.
- Examples:
    - Requests to extend the Stones River Greenway into Antioch and connect it to Cane Ridge.
    - Requests to close gaps along Richland Creek and Cumberland River greenways to create a continuous loop system.
    - Suggestions for safe road crossings, bridges, and underpasses to link neighborhoods to existing trails.

2. Parks Maintenance & Upkeep – 387 mentions

- Maintenance concerns focused on the usability of parks.
- Examples:
    - Complaints about restrooms often being locked or in poor condition at Warner Parks and Shelby Park.
    - Calls for more frequent mowing, better trash collection, and improved lighting at McCabe, Hadley, and neighborhood playgrounds.
    - Requests for repair of tennis/basketball courts and parking lots in smaller community parks.

3. Safety & Security – 312 mentions

- Residents want to feel safe in both large and small facilities.
- Examples:
    - Calls for blue-light emergency call boxes along Shelby Bottoms Greenway.
    - Requests for increased patrol presence in parks with higher reports of encampments or vandalism.
    - Improved lighting on trails and parking areas, particularly at Two Rivers and Sevier Park.

4. Playgrounds & Family Amenities – 265 mentions

- Families asked for updated, inclusive play spaces and support facilities.
- Examples:
    - "Dragon Park [Fannie Mae Dees] is amazing—we need more inclusive playgrounds like this across Nashville."
    - Requests for splash pads at neighborhood parks like Smith Springs and Hartman.
    - Emphasis on shaded seating, restrooms, and family picnic areas to accompany playgrounds.

5. Equity & Geographic Distribution – 238 mentions

- Feedback underscored uneven access to quality parks and programs.
- Examples:
    - Antioch and Madison residents noted they must drive across town to access high-quality facilities like Warner Parks or Centennial.
    - North Nashville respondents highlighted the need for investment in Hadley Park, Hartman Park, and Watkins Park.
    - Comments pointed out that fast-growing neighborhoods in Southeast Nashville remain underserved relative to population growth.

6. Aquatics & Pools – 221 mentions

- Aquatic amenities are seen as essential but lacking.
- Examples:
    - Residents asked for modern indoor pools in Antioch and South Nashville.
    - Families called for the expansion of splash pads at community parks.
    - Requests for renovations at Two Rivers Pool (Wave Country) and Centennial Sportsplex to match current demand.

7. Sports Facilities (Fields & Courts) – 197 mentions

- Comments reflected both youth sports demand and emerging adult recreation trends.
- Examples:
    - Soccer and baseball leagues cited the need for more well-maintained multi-field complexes.
    - Strong requests for additional pickleball courts, especially in East and South Nashville.
    - Concerns about poor field conditions and over-scheduling at community centers like McCabe and Seven Oaks.

8. Dog Parks & Pet-Friendly Spaces – 174 mentions

- Pet owners emphasized growing demand for dog-specific amenities.
- Examples:
    - “Two Rivers Dog Park is great, but it’s overcrowded—South Nashville deserves its own fenced park.”
    - Calls for shaded seating, water fountains, and agility features.
    - Suggestions to incorporate dog-friendly trails and greenway spurs.

9. Nature Preservation & Tree Canopy – 163 mentions

- Residents expressed a desire for nature-first design approaches.
- Examples:
    - Calls for expanded shade tree planting along Richland Creek and Shelby Bottoms greenways.
    - Community interest in flood-resilient design in low-lying parks such as Bells Bend.
    - Support for native landscaping and pollinator-friendly plantings in park restorations.

10. Community Programming & Events – 149 mentions

- Beyond physical infrastructure, residents want programming that builds community.
- Examples:
    - Requests for more free concerts and multicultural festivals at Centennial and Riverfront venues.
    - Families suggested youth after-school and summer programs at community centers.
    - Seniors asked for low-cost exercise classes and walking clubs.

Question 17:

How far do you travel to your nearest greenway trailhead or access point?

165 total write-in comments

Distances / Travel Mode Mentions

- Specific mileage mentioned (≤ 2 miles): 15 mentions
  (e.g., 0.75 mi, 1 mi, 1.5 mi, 1.7 mi, 1.8 mi, 2 mi – usually with notes on unsafe walking/biking).
- Moderate distance (3–5 miles): 28 mentions
  (frequent answers of 3 mi, 3.4 mi, 4 mi, 4.3 mi, 5 mi).
- Longer distance (6–10 miles): 22 mentions
  (commonly 6 mi, 7 mi, 8 mi, 10 mi).
- Very long distance (11+ miles or 15–30-minute drive): 14 mentions
  (12 mi, 15–20 mi, 20–30 min drive, outside county).

Qualitative Mentions

- “Have to drive / always drive” (no safe walk/bike): 25 mentions
- “Not safe” (due to roads, traffic, or lack of sidewalks): 10 mentions
- “Do not use greenways / none nearby / not sure”: 10 mentions
- References to specific sites (Shelby Park, Two Rivers, Richland Creek, McCabe, Stones River, Warner, Harpeth): 12 mentions

Question 18:

How far do you travel to your most frequented greenway trailhead or access point?

184 total write-in comments

Distances / Travel Mentions

- Very close (≤ 2 miles): 10 mentions
  (e.g., 0.75 mi, 1 mi, 1.5 mi, 1.7 mi, 1.8 mi, 2 mi).
  Most note unsafe walking/biking conditions despite short distance.
- Moderate distance (3–5 miles): 30 mentions
  (common answers: 3 mi, 3.4 mi, 4 mi, 5 mi, 5+ mi).
- Longer distance (6–10 miles): 25 mentions
  (6 mi, 7 mi, 8 mi, 9 mi, 10 mi; often paired with 15–20 min drives).
- Very long distance (11+ miles or 20–30+ minute drive): 18 mentions
  (12 mi, 15 mi, 19–20 mi, 25–30 min drive, out of county).

Qualitative Mentions

- "Drive required / always drive": 30 mentions.
- "Not safe" (roads, traffic, lack of sidewalks): 12 mentions.
- "Do not use / not sure / not much info": 12 mentions.
- References to specific sites (Stones River, Warner Parks, Richland Creek, McCabe, Chickering, Two Rivers, Donelson, Sylvan Park, Edwin Warner): 15 mentions.

Question 19:

For which of the following reasons have you used Nashville's greenways in the past 12 months?

- total write-in comments

1. **Non-Use / Not Safe / Inconvenient** (Mentions: 22)
   - Includes: "None," "n/a," "Have not used," "Not used," "Do not use," "Haven't used," "Not safe," "Too far," "Not convenient," "Haven't visited in 12 months," etc.
   - Strong theme of barriers to use due to safety, distance, or lack of convenience.
2. **Birding / Nature Activities (Mentions: 6)**
   - Includes: "BIRDING!!," "Birding and naturalist activities," "birding," "birding!," "Spring birding walk," "weed wrangles/tree plantings."
   - Reflects strong interest in birding and nature-based activities.

3. **Fitness & Recreation (Sports, Exercise, Walking, Races)** (Mentions: 8)
    - Includes: Hiking, Exercise (but not safe), Disc Golf, Golf (and reference to golf again at the end), skate races, 5k/half marathon running, swim classes, walking, commuting by bicycle.
4. **Other Activities / Special Uses (Mentions: 7)**
    - **Photography, senior pictures, painting scenery, historic commemoration, volunteering, walking work/business meetings, historical research, meditation/quiet spaces.**
5. **Family / Social Use** (Mentions: 4)
    - Includes: “Quality family time,” “Family outdoor time, picnics, celebrations,” “Entertaining kids,” “To bring children and grandchildren.”

Question 21:

If you felt unsafe on a greenway, which of the following best describe the reason(s) you felt unsafe?

234 total write-in comments

1. **Homelessness, Crime, and Unsafe Encounters** (Mentions: 45)
    - Includes: unhoused camps, loitering, mentally unwell or aggressive individuals, drug use/dealing, people exposing themselves, assaults, muggings, threatening strangers, men following women, and reports of violent incidents.
    - This was the most frequently cited concern and often tied to both personal experiences and news/media reports.
2. **Car Break-Ins, Parking Lot Safety** (Mentions: 20)
    - Repeated concerns about car vandalism, theft, catalytic converter thefts, and break-ins at trailheads (Shelby Bottoms, Beaman, Bells Bend, White Bridge, etc.).
    - Many asked for cameras or license plate readers (LPRs) to deter crime.
3. **E-Bikes, Scooters, and Motorized Vehicles** (Mentions: 18)
    - Complaints about e-bikes, scooters, dirt bikes, ATVs, hoverboards, one-wheels, and even park police trucks on trails.
    - Common issues: speeding, noise, lack of etiquette, and safety hazards to pedestrians.
4. **Cyclist & Pedestrian Conflicts** (Mentions: 15)
    - Includes: cyclists moving too fast, not announcing passes, traveling in large “packs,” bullying behavior, and collisions/near misses.
    - Also includes complaints about walkers with headphones, groups blocking paths, or children/dogs not staying to the right.

5. **Environmental & Infrastructure Hazards** (Mentions: 12)
    - Examples: overgrown brush, blind corners, slick bridges after rain, mud, debris, dogs off-leash, unleashed “large breeds,” snakes, feral dogs.
    - Some cited a lack of lighting, storm shelters, or emergency call boxes.
6. **General Perceptions / News Influence** (Mentions: 10)
    - People noted that news of various crimes on greenways amplified fear even if they had not personally experienced incidents.
    - Several mentioned avoiding greenways alone or after dark due to these perceptions.

Question 22:

Which of the following improvements would increase your use of greenways?

207 total write-ins comments

Top themes

1. **More / connected greenways (network expansion)** (Mentions: 38)
    - More miles; connect existing segments; “River to Radnor”; downtown connectivity; connect parks/blueways; longer continuous trips.
2. **Safety & security measures** (Mentions: 38)
    - Cameras/LPRs; rangers/safety phones; parking-lot surveillance; address flooding at crossings; better crosswalks/traffic calming.
3. **Maintenance & repairs** (Mentions: 27)
    - Clear brush/mow; fix slick bridges & mud holes; resurface/smoother pavement; drainage/grade; routine upkeep; repair/reopen Morton Mill & Stones River bridges; keep paths clear/narrowing vegetation.
4. **Address homelessness around greenways** (Mentions: 22)
    - Remove camps/garbage; dedicated programs to help unhoused; keep encampments off trails.
5. **Restrooms & water** (Mentions: 17)
    - More bathrooms at trailheads/entrances; water fountains; keep facilities open.

Next tier

6. **Dog management** (Mentions: 12)
    - Leash enforcement; separate dog areas; more waste stations; reduce long leashes/aggressive dogs.
7. **User etiquette, signs & lane management** (Mentions: 12)
    - Keep right/which side to walk; one-way bike lanes or separated bike/walk lanes; more signage; lane discipline for scooters/cyclists.

8. **Parking & access to trailheads** (Mentions: 12)
    - More/safer parking; ADA/safer approaches; wayfinding to connectors; access points at neighborhoods.
9. **Shade / trees / heat relief** (Mentions: 11)
    - More tree canopy/plantings/wildflowers; shade along levees; “it’s too hot.”
10. **Lighting (targeted/urban areas; keep natural areas dark)** (Mentions: 10)
    - Add lighting in select paved/urban sections; several notes not to light natural sections; Dark-Skies compliance.
11. **E-bikes & motorized devices policy** (Mentions: 10)
    - Ban/limit e-bikes & motorized devices; separated lanes for faster devices.

Additional recurring items (Mentions: #)

- ADA & mobility (bridges, paths, entrances) (6)
- Trash & litter cleanups (6)
- Vendor/amenity nodes (cafés, rentals, pop-ups) (6)
- Mosquito control / weather notes (5)
- Blueways / water-trail access (4)
- Benches/rest stops (4)

Question 24:

Is there anything else you would like to share about Nashville's greenways or have ideas for improvements:

Top Ten Themes (Descending Order) (560 total write-in comments)

1. **Greenways & Connectivity – 422 mentions**
    - The strongest theme by far, with residents highlighting connectivity gaps and opportunities.
    - Examples:
        - Calls to extend the Stones River Greenway into Antioch and Cane Ridge, where demand outpaces current infrastructure.
        - Requests for trail continuity: “The Richland Creek Greenway should connect to Charlotte Avenue and West Nashville.”
        - Desire for safer crossings at major road barriers (I-440, Murfreesboro Pike) and links between neighborhoods and schools.
        - Support for loop systems and regional trail integration to allow car-free travel between work, parks, and shopping areas.

2. Parks Maintenance & Upkeep – 387 mentions

- Residents repeatedly stressed that existing parks must be cared for before new facilities are built.
- Examples:
    - Complaints about trash overflow and infrequent mowing at smaller sites such as Hadley, McFerrin, and neighborhood ballfields.
    - “Bathrooms are always locked at Shelby Park” and “Warner Park restrooms are not maintained.”
    - Lighting concerns at Sevier Park and McCabe Park, where evening activity is popular.
    - Requests for court resurfacing and repaired nets at tennis and basketball facilities.

3. Safety & Security – 312 mentions

- Safety was framed as both a real barrier to use and a design challenge.
- Examples:
    - “I don’t feel safe running Shelby Bottoms after dark without better lighting.”
    - Suggestions for blue-light emergency call stations on greenways, modeled after university campuses.
    - Concerns about homeless encampments and visibility issues at Brookmeade Park.
    - Requests for increased ranger or police patrols at larger facilities and high-traffic greenways.

4. Playgrounds & Family Amenities – 265 mentions

- Families consistently asked for modern, inclusive play opportunities and supporting amenities.
- Examples:
    - “Dragon Park is amazing, but we need something like this in Antioch and Hermitage.”
    - Frequent calls for splash pads in neighborhood parks, with Smith Springs and Hartman Park specifically mentioned.
    - Parents asked for shaded seating, picnic shelters, and bathrooms close to play areas.
    - Advocacy for ADA-accessible and inclusive playgrounds for children of all abilities.

5. Equity & Geographic Distribution – 238 mentions

- This theme reflects frustration about geographic imbalance in investment.
- Examples:
    - Antioch residents reported driving to Warner Parks for trails or Centennial for programming because “nothing comparable exists nearby.”
    - Madison and Hermitage respondents noted limited access to community centers and greenways.
    - Calls to prioritize Hadley Park, Watkins Park, and Hartman Park in North Nashville for reinvestment.
    - Concerns that rapid growth in Southeast Nashville is not matched by new facilities.

6. Aquatics & Pools – 221 mentions

- Pools and water amenities are seen as both recreation and equity priorities.
- Examples:
    - Desire for indoor aquatic centers in Antioch and South Nashville to reduce travel time.
    - Families requested splash pads near residential neighborhoods, citing long lines at existing ones.
    - Comments about aging infrastructure: “Two Rivers Pool (Wave Country) is outdated” and “Sportsplex needs modern upgrades.”
    - Support for aquatics as heat relief and summer activity for children without other options.

7. Sports Facilities (Fields & Courts) – 197 mentions

- Sports feedback came from both organized leagues and casual recreation users.
- Examples:
    - Soccer clubs cited overbooked fields and poor conditions at Seven Oaks and Ted Rhodes.
    - Strong demand for pickleball courts, especially in Donelson and East Nashville.
    - Requests for resurfaced basketball courts at community centers like McFerrin.
    - Youth sports leagues stressed the need for multi-field complexes with lighting and restrooms.

8. Dog Parks & Pet-Friendly Spaces – 174 mentions

- Pet owners highlighted the popularity and overcrowding of current facilities.
- Examples:
    - “Two Rivers Dog Park is fantastic, but it’s packed every weekend.”
    - Residents in Antioch and Bellevue asked for new fenced dog parks.
    - Suggestions for dog-friendly trails, shaded seating, and dog water fountains.
    - Calls for separated small/large dog areas to improve safety.

9. Nature Preservation & Tree Canopy – 163 mentions

- The theme is tied to both climate resilience and comfort in parks.
- Examples:
    - “We need more tree cover on Richland Creek Greenway—summer makes it unusable.”
    - Support for reforestation and native planting in floodplain areas like Bells Bend.
    - Residents advocated for preserving large natural spaces in Warner Parks and Beaman.
    - Interest in pollinator gardens and wildlife-friendly design integrated into new parks.

10. Community Programming & Events – 149 mentions

- Respondents want more cultural, recreational, and social programming to bring people together.
- *Examples:*
    - “Centennial should host more free multicultural festivals and concerts.”
    - Seniors requested low-cost fitness classes and walking clubs at community centers.
    - Parents asked for after-school programs and youth sports camps close to home.
    - Suggestions for intergenerational programming: cooking classes, community markets, and family movie nights in parks.

Question 28:

Do you have any other thoughts on how Metro Nashville Parks and Recreation can improve?

Top Ten Themes (Descending Order) (656 total write-in comments)

1. Greenways & Connectivity – 447 mentions

- The most dominant theme. Respondents asked for longer, continuous greenways that connect neighborhoods, parks, and destinations.
- Example: Many comments referenced wanting to "connect Antioch to the Stones River Greenway" or "link Madison into the larger network."
- Trail gap closures, safer crossings over major roads, and extending greenways along the Cumberland River and Richland Creek were among the most cited improvements.

2. Parks Maintenance & Upkeep – 392 mentions

- Residents voiced frustration with mowing schedules, overflowing trash cans, and broken restrooms.
- Example: "Love Warner Parks, but bathrooms are often locked or not maintained."
- Lighting and parking lot upkeep were also flagged, especially at neighborhood-level parks like McCabe, Sevier, and Hadley.

3. Safety & Security – 319 mentions

- Safety concerns spanned both parks and greenways, with emphasis on better lighting, patrols, and emergency call stations.
- Example: Several Shelby Bottoms users requested more "blue-light" call boxes and noted areas where lighting ends abruptly.
- Comments also referenced "not feeling safe after dark" and concerns about homeless encampments in certain parks.

4. Playgrounds & Family Amenities – 272 mentions

- High demand for modernized playgrounds, splash pads, and restrooms to support family outings.
- Example: "Dragon Park [Fannie Mae Dees] is wonderful, but we need more inclusive play areas like this across the city."
- Families requested multi-generational features, such as shaded seating for caregivers and playgrounds paired with walking loops.

5. Equity & Geographic Distribution – 246 mentions

- Strong emphasis on the unequal spread of facilities across the county.
- Example: Respondents in Antioch, Madison, and Hermitage repeatedly stated they "drive across town to Warner Parks or Centennial" because comparable facilities are missing locally.
- North Nashville residents specifically called for investment in Hadley Park and Hartman Park to close the equity gap.

6. Aquatics & Pools – 229 mentions

- Calls for new pools, splash pads, and modernized aquatic centers.
- Example: "Two Rivers pool is outdated; Antioch deserves a modern indoor pool."
- Families emphasized aquatics as both recreational and equity needs, noting that travel to facilities is a barrier for many.

7. Sports Facilities (Fields & Courts) – 204 mentions

- Respondents asked for better-maintained athletic fields and more access to pickleball, tennis, and basketball courts.
- Example: "Pickleball is exploding, but our courts are overcrowded and poorly lit."
- Youth sports leagues requested expanded multi-field complexes, especially in growing communities like Cane Ridge.

8. Dog Parks & Pet-Friendly Spaces – 178 mentions

- Many requested new fenced dog parks and improvements to existing ones.
- Example: "The Two Rivers Dog Park is great, but it's overcrowded—South Nashville needs its own."
- Integration of dog-friendly trails and water stations was also suggested.

9. Nature Preservation & Tree Canopy – 165 mentions

- Residents highlighted the importance of shade, biodiversity, and resilient landscapes.
- Example: "More trees along Richland Creek Greenway would make it usable in summer."
- Calls to protect forested areas in Warner Parks and add native plantings in flood-prone zones were frequent.

10. Community Programming & Events – 152 mentions

- Requests for expanded cultural festivals, fitness classes, and youth programming.
- Example: "Centennial should host more free concerts and multicultural events."
- Seniors asked for more low-cost exercise programs, while families wanted structured activities in neighborhood parks.

PUBLIC COORDINATE INPUT SUMMARY

Location: https://app.publiccoordinate.com/#/projects/PlantoPlayUpdate/map

Public Coordinate is Kimley-Horn's interactive public engagement platform that facilitates communication of project information and collection of valuable stakeholder input. Through this platform, we can gain deeper stakeholder insights by creating interactive maps to gather public feedback and collect data through custom and integrated surveys. We can showcase detailed project information by displaying customized content through interactive maps, presenting multiple project alternatives, and creating project webpages to keep communities informed. Public Coordinate allows us to make data-driven decisions by tracking activity and new feedback, viewing and sharing breakdowns of comment categories, and easily exporting map comments and survey responses. It also enables quick sharing of links and QR codes for easy public access, prioritizing accessible outreach in communities.

Public Coordinate hosts an interactive web map that allows stakeholders to provide location-specific comments on land use development projects. Users can select points on the map to leave a comment or click and drag to create a suggested greenway route. All comments must be categorized and, once the website is live, they are cataloged into a comprehensive list for extraction and analysis.

Public Coordinate Instructions:

Welcome to the Plan to Play Update Interactive Map!

This interactive map is a place to provide location-specific ideas for parks and greenways or even new greenway trail routes. Be sure to bookmark this site to return to see other comments or add additional. This map is cleared periodically to ensure legibility.

If you have an immediate maintenance request, go to hubNashville at

hub.nashville.gov/maintenance-request

How to use this map:

1.) **Zoom** to the location you would like to leave a comment.

2.) Click the " **Add Comment**" button and choose your comment type.

3.) **Select** on the map where you would like to place your comment.

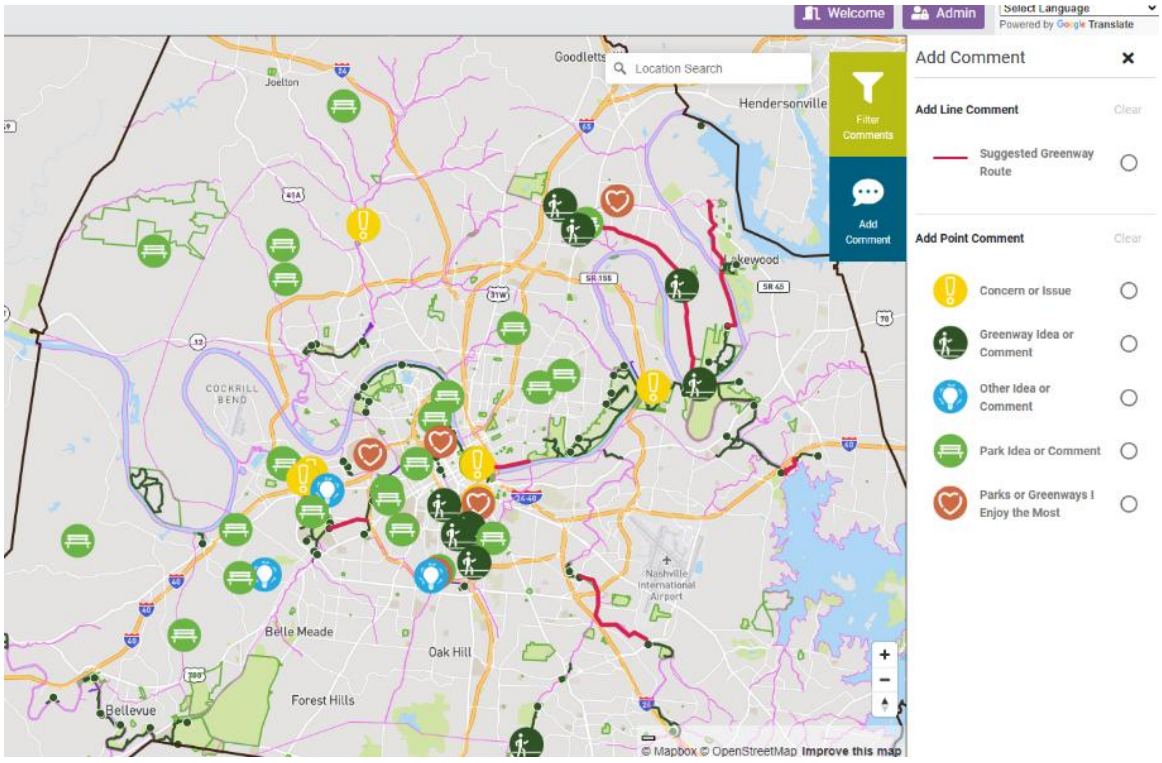
4.) **Share your ideas and concerns** in the text box or draw a suggested greenway or trail route on the map!

If there is already a comment box in a location you would like to tell us about, feel free to add another

Click '**OK**' to begin

Come back to this information at anytime by selecting Welcome at the top right of the map.

Plan to Play Update Needs Map:



Parks or Greenways I love the most (123 comments) – Opportunity to give positive feedback for existing parks.

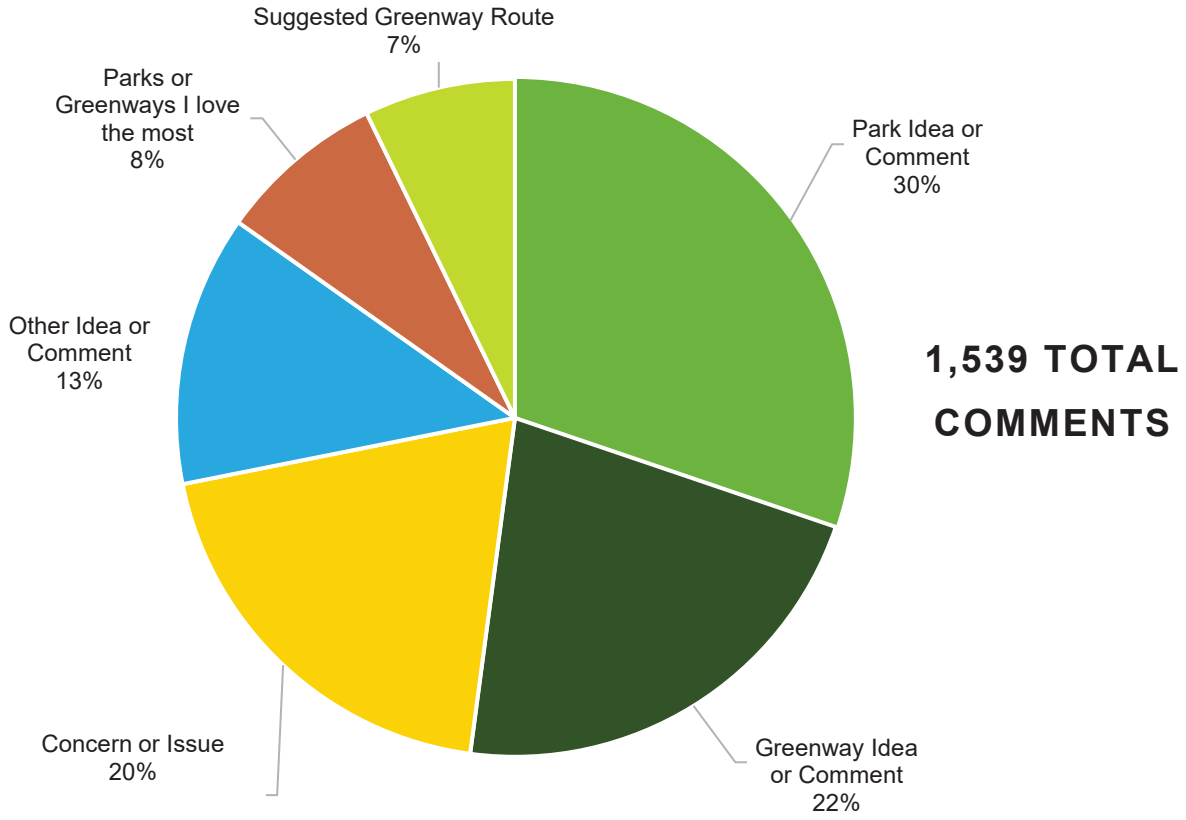
Park Idea or Comment (465 comments) – Provide ideas or suggestions for park facilities (i.e. more trees, benches, trash cans, improved maintenance, etc.)

Greenway Idea or Comment (337 comments) – Provide ideas or suggestions for greenway facilities (i.e. improved connections, conservation efforts, safety, etc.)

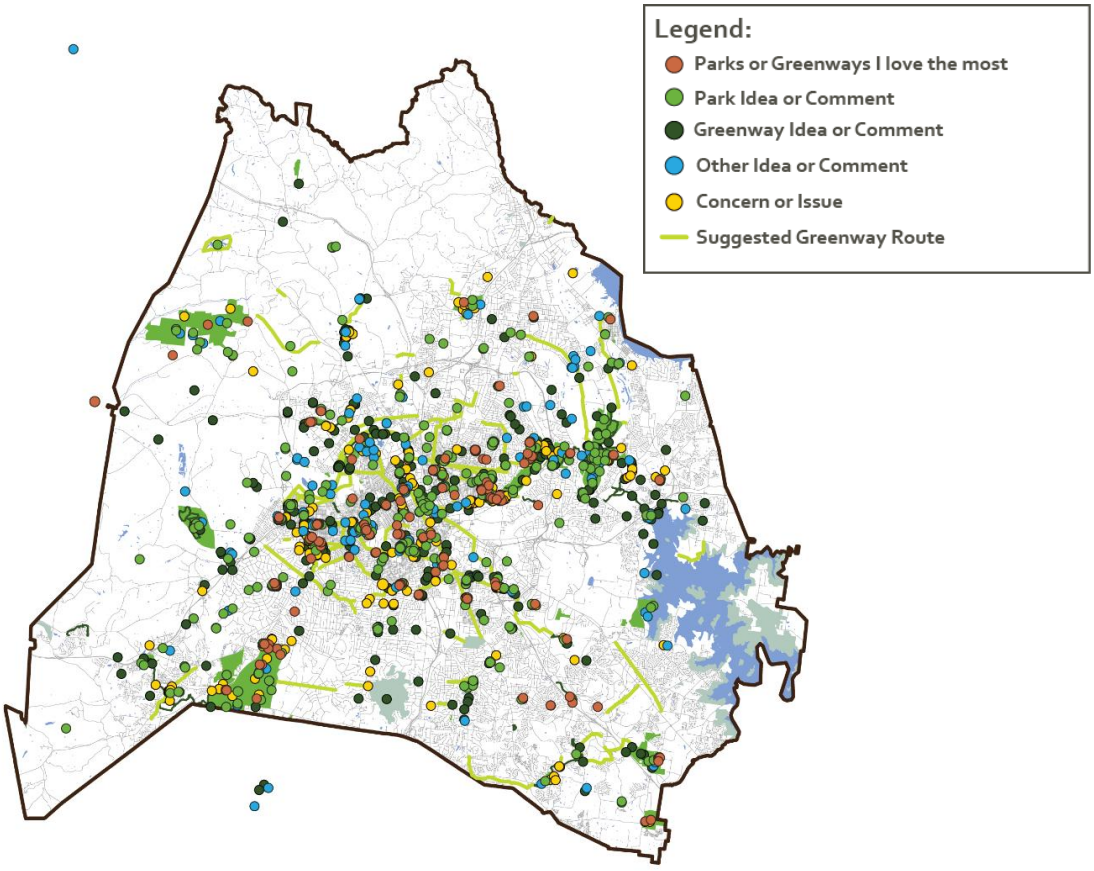
Other Idea or Comment (199 comments) – Opportunity to provide other ideas or thoughts pertaining to the Metro Nashville Plan to Play Project.

Concern or Issue (304 comments) – Provide direct concern regarding deficiencies or risks pertaining to parks/greenways (i.e. damaged infrastructure, unsafe connections, solicitors, etc.)

Suggested Greenway Route (111 comment) – Opportunity to draw out a design for a greenway trail.



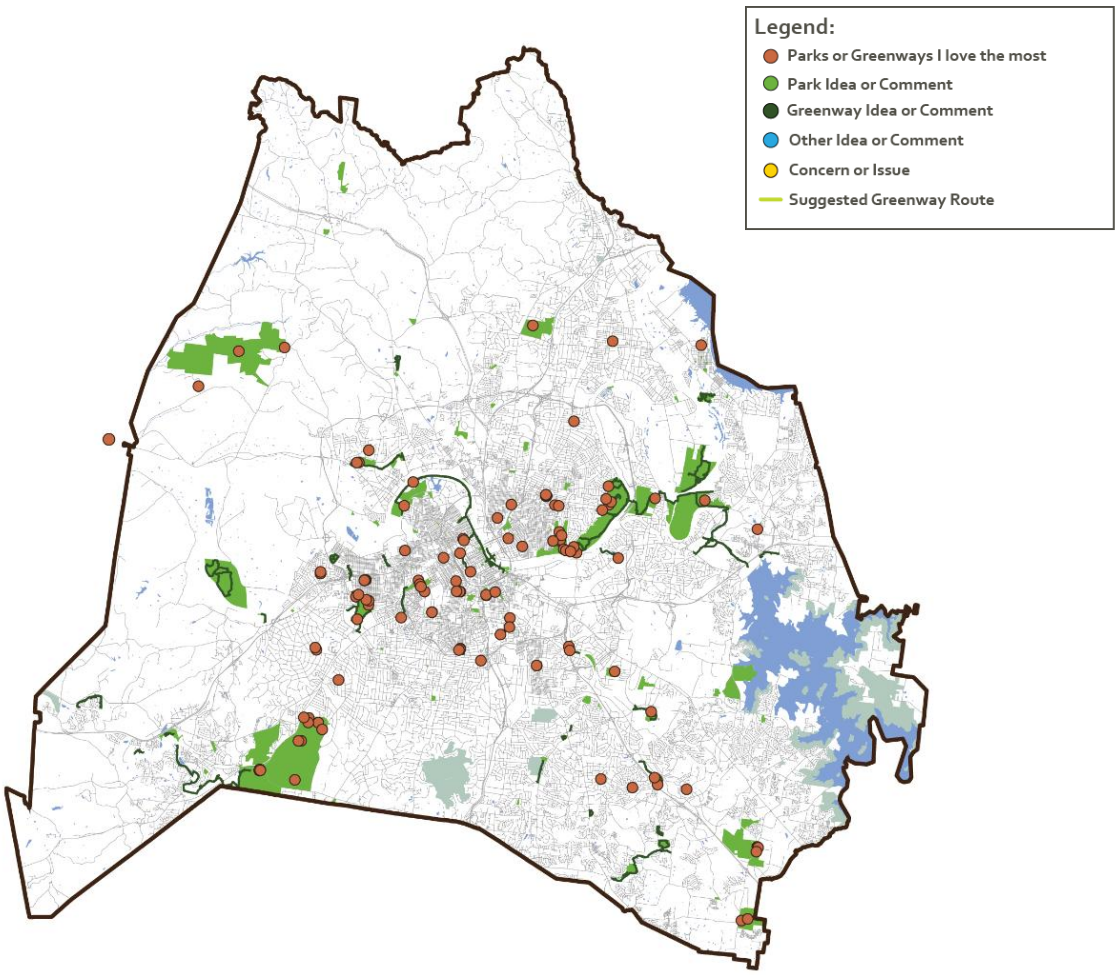
PLAN TO PLAY UPDATE MAP COMMENTS



Key Takeaways:

- 1,539 Total Comments across all comment categories
- Largest number of comments related to Park Ideas or Comments (465)
- Specific parks or greenways most frequently mentioned include:
  - **East Nashville**: Eastland Park, Shelby Park, Naval Hill, Wasioto Park, Cleveland Park, Shelby Bottoms Greenway
  - **West Nashville:** McCabe Golf Course, Centennial Park, Richland Creek Greenway, Connecting to Centennial Boulevard
  - **South Nashville**: Mill Ridge Park, Cane Ridge, Sevier Park, Warner Park, Mill Creek Greenway, Browns Creek Greenway
  - **North Nashville:** Peeler Park, Beaman Park

MAP COMMENTS: PARKS OR GREENWAYS I LOVE THE MOST



Parks or Greenways I love the Most - Key Takeaways:

- **123 'Parks or Greenways I Love the Most' Comments**
- **Concentration of comments around downtown parks and greenway system**
- **Top 5 facilities mentioned:**
    1. Mill Ridge Park
    2. Eastland Park
    3. McCabe Golf Course
    4. Warner Park
    5. Cane Ridge

TOP 10 TOPICS MENTIONED 'PARKS OR GREENWAYS I LOVE THE MOST' COMMENTS:

1. **Community Engagement and Social Spaces (31 mentions)**
    a. **Themes:**
        - Gathering space
        - Social interactions
        - Events spaces
    b. **Examples:**
        - *"This park really brings the community together."*
        - *"Wonderful space for our family. Great events by Friends of Mill Ridge Park."*

2. **Recreational Activities and Facilities (41 mentions)**
    a. **Themes:**
        - Sports facilities
        - Multi-Use spaces
        - Playground facilities
    b. **Examples:**
        - *"A lovely park that is always full of people playing sports, walking dogs, having picnics and riding bikes!"*
        - *"Love the disc golf course. Please continue to keep this park well maintained."*
        - *"Percy Warner Golf Course is truly special."*

3. **Maintenance and Upkeep (34 mentions)**
    a. **Themes:**
        - Necessary renovations
        - Cleanliness level
        - Improved infrastructure
    b. **Examples:**
        - *"This is a space that is well maintained and a simple space for the nearby neighborhood."*
        - *"The Deep Well parking lot is much improved over the old one. Great job!"*

4. **Natural Beauty and Scenic Value (27 mentions)**
    a. **Themes:**
        - Natural Scenery
        - Serenity
        - Natural Preservation
    b. **Examples:**
        - *"The stream restoration in this area is one of the best environmental improvements I have seen at a metro park."*
        - *"We love fair park! Specifically the greenway and the native pollinator meadows."*

5. **Child-Friendly and Family Activities (23 mentions)**
    a. **Themes:**
        - Playgrounds
        - Shared Experience
        - Adventure
    b. **Examples:**
        - *"Great place to take the kids to run around!"*
        - *"Love this big open space! It's so fun to see kids flying kites and friends playing frisbee all summer."*

6. **Improvement Suggestions and Renovations (39 mentions)**
    a. **Themes:**
        - Updates
        - Expansions
        - Enhancements
    b. **Examples:**
        - "*Small but heavily used park that could use an upgrade!"*
        - *"The neighbors do a fantastic job of keeping this little park clean. It would be great to have a climbing item."*

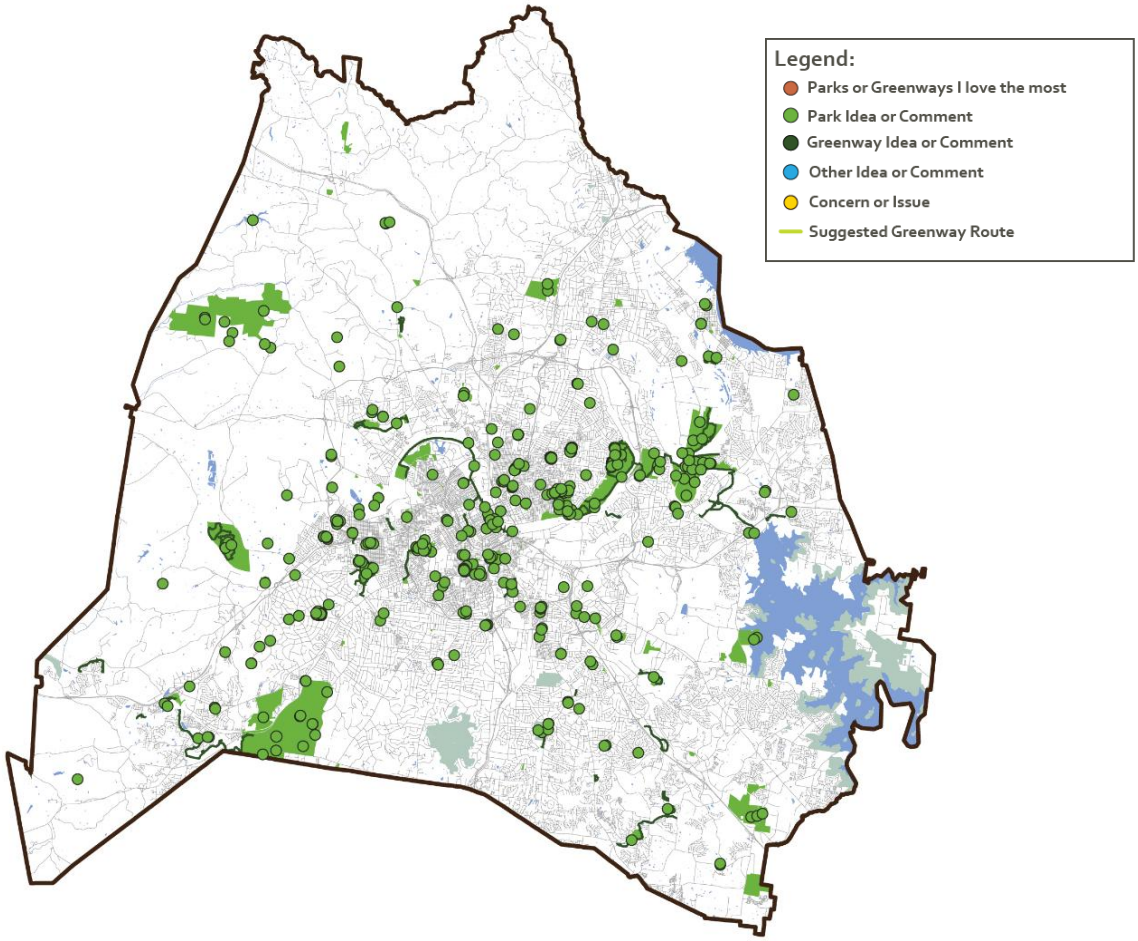
7. **Safety and Accessibility (20 mentions)**
    a. **Themes**
        - Improved lighting
        - Connections
        - General Access
    b. **Examples**
        - *"This connection is a short but significant access point for my bike commute home!"*
        - *"This is an underutilized greenway/park that's so nice to have!"*

8. **Special Features and Unique Attributes (27 mentions)**
    a. **Themes:**
        - Distinctive Sites
        - Historic locations
        - Natural landscapes
    b. **Examples:**
        - *"Love the splash pad here for a safe and easy place for little kids to cool off."*
        - *"Our favorite dog park!"*

9. **Events and Programs (28 mentions)**
    a. **Themes:**
        - Educational opportunities
        - Community centered
        - Seasonality
    b. **Examples:**
        - *"Love Warner Park Nature Center and every program they provide!"*
        - *"The farmer's market at this park! Awesome community event!"*

10. **Environmental and Conservation Efforts (9 mentions)**
    a. **Themes:**
        - Restorations
        - Sustainable landscapes
        - Conservation efforts
    b. **Examples:**
        - *"Love the use of chew crew over mowing here and along the Cumberland River greenway."*
        - *"The native pollinator meadows are beautiful in the spring and summer seasons."*

MAP COMMENTS: PARK IDEAS OR COMMENTS



Park Ideas or Comments - Key Takeaways:

- 465 ‘Parks Ideas or Comments” Comments, the largest of all the categories
- Concentration of comments in downtown parks and east Nashville, around Neely’s Bend and Hermitage
- **Top 5 facilities mentioned:**
    1. Eastland Park
    2. McCabe Park
    3. Sevier Park
    4. Cleveland Park
    5. Shelby Park

TOP 10 TOPICS MENTIONED 'PARK IDEAS OR COMMENTS' COMMENTS:

1. **Improvement of Recreational Facilities and Amenities (53 mentions)**
   - **a. Themes:**
     - Upgrades needed
     - Necessary renewal
     - Enhancements required
   - **b. Examples:**
     - *"Update the playground equipment, make use of the large, mostly unused field, update the court to make it multi-use."*
     - *"Resurfacing the current court and making it into a multiuse space would allow a lot more people to make use of the space."*
2. **Addition of Community and Social Spaces (41 mentions)**
   - **a. Themes:**
     - Gathering spaces
     - Social interactions
     - Shared spaces
   - **b. Examples:**
     - *"Please make this a park and community center! West Meade does not have any neighborhood access to a park, playground, or facility to gather as a community, despite being a group of ~2,000 homes."*
     - *"The fields are already a park. Turn the center building into a library and community center!"*
3. **Connectivity and Accessibility Enhancements (27 mentions)**
   - **a. Themes:**
     - Connection through pathways
     - Linkages
     - Accessibility availability
   - **b. Examples:**
     - *"This greenway is connected to nothing! District 35 has no connectivity."*
     - *"Connect park to the school with a trail."*
4. **Parking and Transportation Needs (22 mentions)**
   - **a. Themes:**
     - Parking necessities
     - Flexible transit
     - Accommodations
   - **b. Examples:**
     - "*There is not enough parking at the Airpark."*
     - *"Would be great to have a little more parking if possible!"*

5. **Historical and Cultural Preservation (16 mentions)**
    a. **Themes:**
        - Heritage
        - Legacy
        - Conservation efforts

    b. **Examples:**
        - *"Fort Nashboro is an important historical site. I would love to see it made into an attraction that represents that historical importance and accurately demonstrates how the Fort would have looked."*
        - *"Please make the William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements."*

6. **Environmental and Ecological Initiatives (27 mentions)**
    a. **Themes**
        - Eco-friendly
        - Green infrastructure
        - Sustainability

    b. **Examples:**
        - *"Manage Stones River Bend Park in an ecological way, e.g., Native grassland and oak savanna."*
        - *"The open fields would be a great place to plant a native prairie with native grasses and flowers."*

7. **Enhanced Safety and Maintenance (51 mentions)**
    a. **Themes**
        - Longterm upkeep
        - Security concerns
        - Repairs needed

    b. **Examples:**
        - *"The natural trails in this park are in need of some safety upgrades like bridge repairs, trail stabilization, and restoration of the historic spring house and bottling plant."*
        - *"The track, field, and courts here need to be better maintained now that the high school is closed."*

8. **Restroom and Water Facilities (31 mentions)**
    a. **Themes:**
        - Sanitation concerns
        - Hydration stations
        - Additional amenities needed

    b. **Examples:**
        - *"Bathroom or more porta potties please!"*
        - *"England Park needs bathroom/port-a-potty access. I see people using the creek area as a result."*

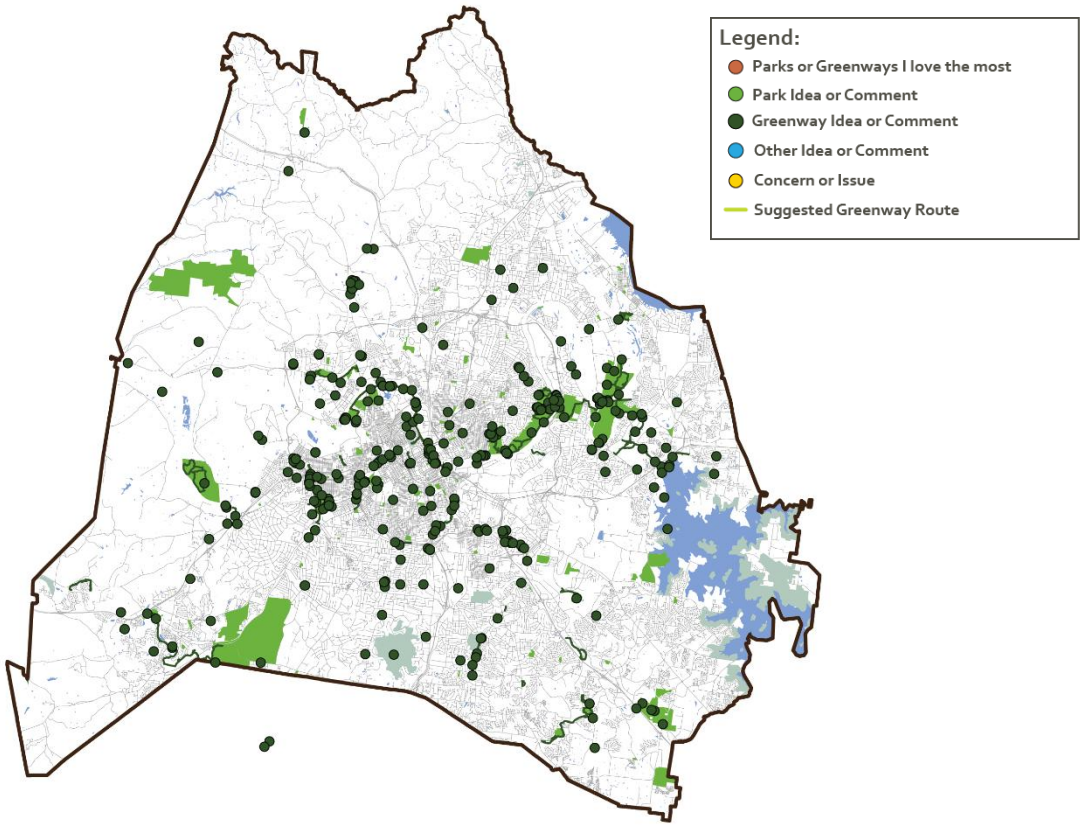
9. **Child and Family-Friendly Features (31 mentions)**
    a. **Themes:**
        - Play Areas
        - Family centered spaces
        - Advance activities/opportunities

    b. **Examples:**
        - *"A playground here would be perfect."*
        - *"Love to see improvements made to the playground, dog park, and grass area for everyone to enjoy!"*

10. **Sports and Fitness Amenities (48 mentions)**
    a. **Themes:**
        - Exercise opportunities
        - Enhanced athletics
        - Prioritized Health/Wellness

    b. **Examples:**
        - *"Add soccer fields on unused baseball fields."*
        - *"More sand volleyball courts are needed to accommodate non-league play during the week."*

MAP COMMENTS: GREENWAY IDEAS OR COMMENTS



Greenway Ideas or Comments - Key Takeaways:

- 337 ‘Greenway Ideas or Comments” Comments
- Concentration of comments along trails system and major parks that intersect
- **Top 5 facilities mentioned:**
    1. Peeler Park connections
    2. Mill Creek Greenway
    3. Shellby Bottoms Greenway
    4. Richland Creek Greenway
    5. Browns Creek Greenway

TOP 10 TOPICS MENTIONED 'GREENWAY IDEAS OR COMMENTS' COMMENTS:

1. **Connections and Accessibility Enhancements (35 mentions)**
    a. **Themes:**
        - Connection through pathways
        - Linkages
        - Access/Connection

    b. **Examples:**
        - *"Connecting the Richland Creek Greenway would be a benefit to two big neighborhoods and reduce the safety concerns of crossing Charlotte Ave here on bike and foot."*
        - *"Connect West Park to England Park with a small path along Richland Creek."*

2. **Safety Improvements (27 mentions)**
    a. **Themes:**
        - Security concerns
        - Protection necessary
        - Safety measures

    b. **Examples:**
        - *"Crossing Charlotte Pike at the greenway here is dangerous and could use pedestrian /traffic protection."*
        - *"The crosswalk connection from the Gulch Greenway crossing into the bike lane is extremely dangerous. Vehicles almost never stop - there needs to be a red light for pedestrian crossing, not just a flashing yellow."*

3. **Greenway Extensions and Expansions (24 mentions)**
    a. **Themes:**
        - Expansion
        - Extension
        - Connectivity

    b. **Examples:**
        - *"Please consider building a new multi-use path from Woodland St to the intersection of Russell St/S 4th St."*
        - *"Expand Browns Creek Greenway - connect Fair Park segment to Brown's Creek Park and continue to expand greenway to the north east."*

4. **Pedestrian and Bicycle Bridges (12 mentions)**
    a. **Themes:**
        - Pedestrian crossings needed
        - Linkages/Connection
        - General accessibility concerns

    a. **Examples:**
        - *"Build bridge connecting parks. Great location to employ National Guard or reserve engineering unit to use as a training exercise."*
        - *"Pedestrian/Bike bridge to connect Peeler Park to the Stones River Greenway - this would connect two large greenways and also give Madison access to the rest of the greenway system."*

5. **Environmental and Conservation Efforts (36 mentions)**
    a. **Themes:**
        - Prioritization of preservation/sustainability efforts
        - Ecological diversity

    b. **Examples:**
        - *“Relocate greenway closer to river even if flooding happens it will be a more enjoyable experience 99% of the time. Also plant mature trees to line the greenway and provide shade."*
        - *"Plants trees along this entire greenway!"*

6. **Recreational Facilities and Amenities (73 mentions)**
    a. **Themes:**
        - Upgrades/Renewal needed
        - Amenity Modernization

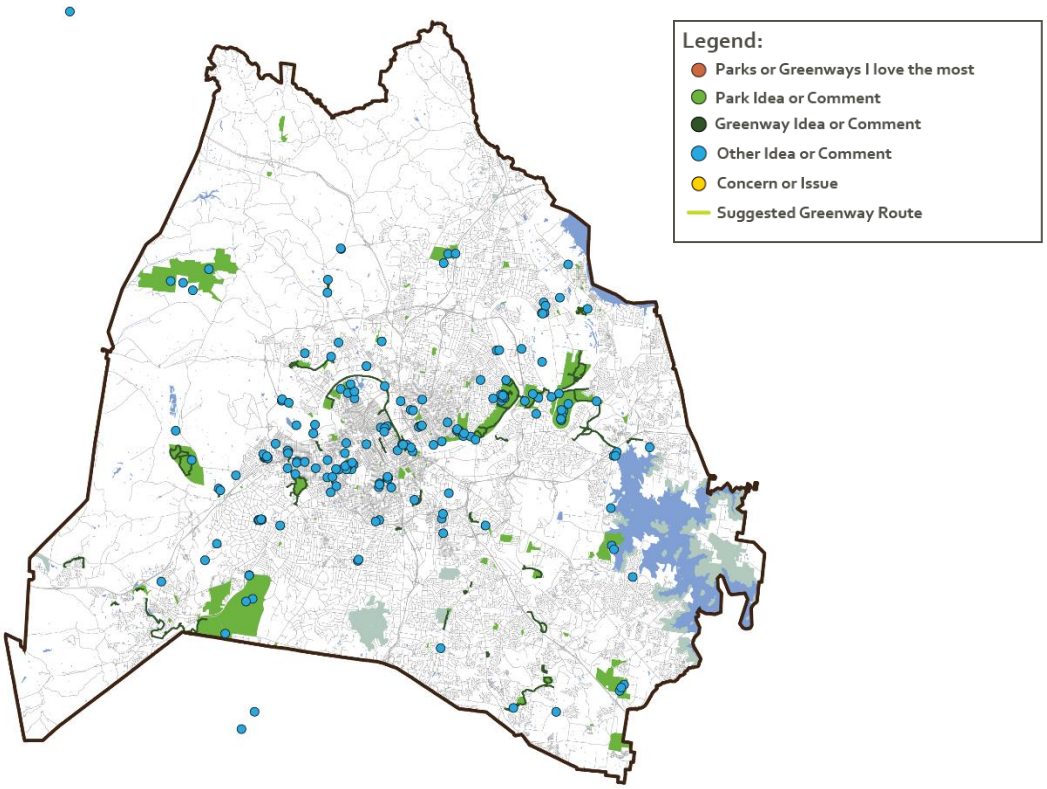
    b. **Examples:**
        - *“Add some places where people can physically interact with the water.”*
        - *"A greenway looping the lake with a series of connected beaches, cafes, ice cream stands, etc. would be a huge win for the city."*

7. **Enhanced Maintenance and Upkeep (52 mentions)**
    a. **Themes:**
        - Upkeep/Repairs needed
        - Renovations to be prioritized

    b. **Examples:**
        - *"Improve crossings on West End for access into Centennial.”*
        - *"Improve maintenance on the southern loop after flooding."*

8. **Waste Disposal and Trash Cans (19 mentions)**
    a. **Themes:**
        - Sanitation concerns
        - Bins/Waste Management
    b. **Examples:**
        - *"We would really appreciate more public trashcans on this section of the Greenway!"*
        - *"More trash cans are needed along the Shelby bottoms greenway."*
9. **Urban and Scenic Greenways (29 mentions)**
    a. **Themes:**
        - Scenic views
        - Pathway connection
        - Urbanism
    b. **Examples:**
        - *"This could be an amazing urban "greenway" if you found a way to make walking down Nolnesville safer- consider this a mini Atlanta Beltline."*
        - *"Would love to see Davidson turned into a full greenway, which could connect over the pedestrian bridge."*
10. **Collaboration with Local Authorities (27 mentions)**
    a. **Themes:**
        - Emphasis on partnerships
        - Coordination/support needed
    b. **Examples:**
        - *"Please consider exploring a partnership with RJ Corman Rail to secure a greenway easement along the Vine Hill branch of the Nashville & Eastern Railway."*
        - *"Start land acquisition to complete greenway. Require new construction projects to either build a section of path or contribute funds to be used for construction."*

MAP COMMENTS: OTHER IDEAS OR COMMENTS



Other Ideas or Comments - Key Takeaways:

- 199 'Other Ideas or Comments" Comments
- Concentration of comments in downtown parks
- **Top 5 facilities mentioned:**
    1. Beaman Park
    2. Warner Park
    3. West Park
    4. Richland Park
    5. William Edmondson Homesite

TOP 10 TOPICS MENTIONED 'OTHER IDEAS OR COMMENTS' COMMENTS:

1. **Community Engagement and Social Spaces (41 mentions)**
    a. **Themes:**
        - Gathering spaces
        - Social interactions

    b. **Examples:**
        - *"We use this park every week. It's a community gathering space where we run into people playing sports, at the playground, at the farmers market, going to the library, or walking their dog."*
        - *"Wonderful space for our family. Great events by Friends of Mill Ridge Park."*
2. **Recreational Activities and Facilities (73 mentions)**
    a. **Themes:**
        - Upgrades/enhancements needed
        - Amenity modernization

    b. **Examples:**
        - *"A lovely park that is always full of people playing sports, walking dogs, having picnics and riding bikes!"*
        - *"Love the pump track and splash pad! Wish there were more around the city."*
3. **Maintenance and Upkeep (52 mentions)**
    a. **Themes:**
        - Upkeep/repairs required
        - Longterm maintenance plans
        - Renovations needed

    b. **Examples:**
        - *"This is a space that is well maintained and a simple space for the nearby neighborhood."*
        - *"Love the disc golf course. Please continue to keep this park well maintained."*
4. **Natural Beauty and Scenic Value (29 mentions)**
    a. **Themes:**
        - Scenery/serenity
        - Natural preservation efforts

    b. **Examples:**
        - *"Hookman Hill is one of Nashville's most treasured natural beauties."*
        - *"The stream restoration in this area is one of the best environmental improvements I have seen at a metro park."*

5. **Child-Friendly and Family Activities (37 mentions)**
    a. **Themes:**
        - Play Areas
        - Family-oriented spaces/amenities
    b. **Examples:**
        - *"Great place to take the kids to run around!"*
        - *"This park is always full of families on the weekends. I would love to see it stay busy and up-to-date, because it really serves a lot of happy families and children."*
6. **Improvement Suggestions and Renovations (68 mentions)**
    a. **Themes:**
        - Renovations/Enhancements needed
        - Expansion/Upgrades needed
    b. **Examples:**
        - *"Small but heavily-used park that could use an upgrade!"*
        - *"This updated playground is perfect for all ages. Thank you!"*
7. **Events and Programs (22 mentions)**
    a. **Themes:**
        - Educational opportunities
        - Community spaces
        - Seasonal events/programs
    b. **Examples:**
        - *"I love the farmer's market at this park! Awesome community event!"*
        - *"I always read the flyers about community events at this kiosk! Appreciate that it's well-maintained and kept up to date."*
8. **Special Features and Unique Attributes (20 mentions)**
    a. **Themes:**
        - Distinctive features
        - Historic landmarks
        - Natural areas
    b. **Examples:**
        - *"Love Easyland Park!"*
        - *"Cornelia Fort airpark is so special!"*

9. **Accessibility and Safety Enhancements (35 mentions)**
    a. **Themes:**
        - Security/protection concerns
        - General access

    b. **Examples:**
        - *"This connection is a short but significant access point for my bike commute home."*
        - *"Wonderful to have such a large car-free area for bikers... especially young/new riders."*

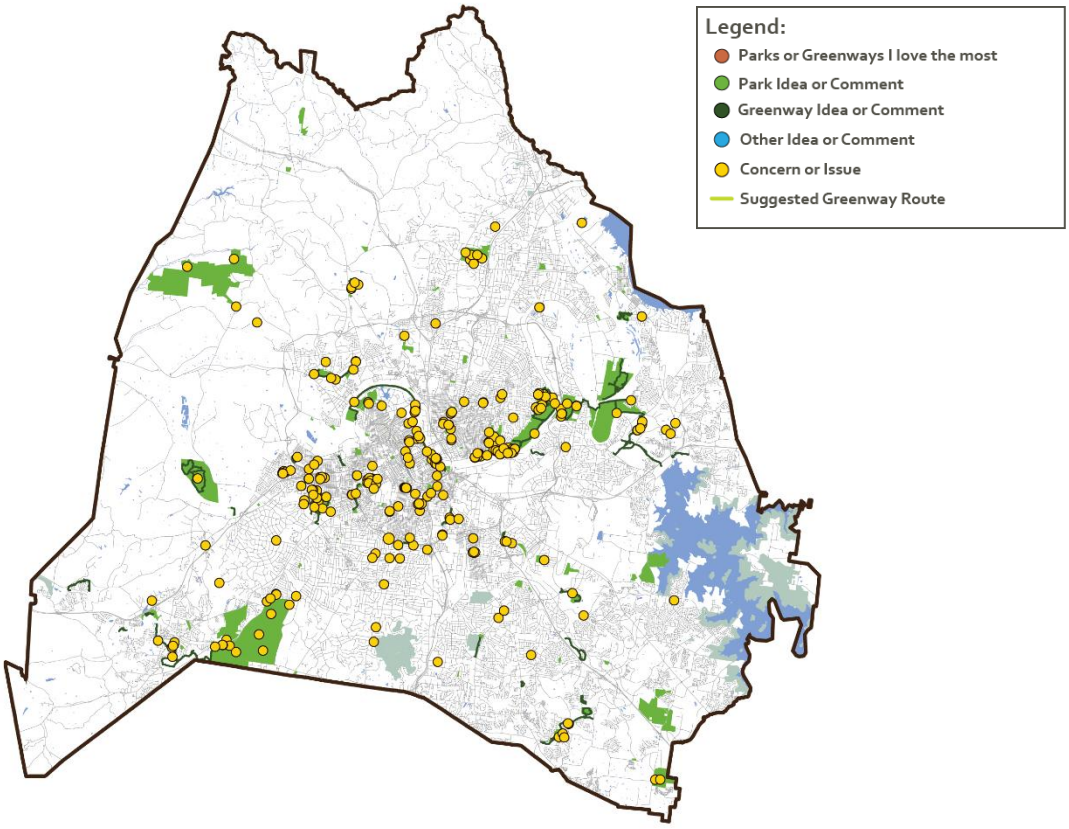
10. **Environmental Protection Efforts (36 mentions)**
    a. **Themes:**

        - Sustainability/conservation efforts
        - Green spaces

    b. **Examples:**

        - *"Love the use of chew crew over mowing here and along the Cumberland River greenway."*
        - *"Develop a hiking trail to connect Beaman Park to Bells Bend Park."*
        - *“Plant some trees for shade around the play area.”*

MAP COMMENTS: CONCERNS OR ISSUES



Concerns or Issues - Key Takeaways:

- 304 ‘Concerns or Issues” Comments
- Concentration of comments in downtown parks and greenway intersections
- **Top 5 facilities mentioned:**
    1. Shelby Park
    2. Naval Hill
    3. Wasioto Park
    4. Centennial Park
    5. Richland Creek Greenway

TOP 10 TOPICS MENTIONED 'CONCERNS OR ISSUES" COMMENTS:

1. **Safety and Security Concerns (19 mentions)**
    a. **Themes:**
        - Homelessness concern
        - General crime/safety concerns

    b. **Examples:**
        - *"Someone has been living in this picnic pavilion for years. they yell at park patron on the playground."*
        - *"Car break-ins are common here. Consider adding security cameras or other security measure to deter thieves."*

2. **ADA Compliance and Accessibility (7 mentions)**
    a. **Themes:**
        - Ramp access
        - Accessibility enforcement

    b. **Examples:**
        - *"No ADA Ramp access to the park."*
        - *"Please add a paved path that connects sidewalk to McFerrin Park loop. Not ADA compliant."*

3. **Maintenance and Upkeep (33 mentions)**
    a. **Themes:**
        - Waste management
        - Repairs/maintenance
        - Playground equipment concerns

    b. **Examples:**
        - *"Naval Hill port-a-potties need more regular maintenance."*
        - *"There is a large unhoused encampment here that makes it feel dangerous to visit this area, even during the day. If nothing else, it would be great if the trash could be removed."*

4. **Infrastructure Improvements (18 mentions)**
    a. **Themes:**
        - Pedestrian connectivity/prioritization
        - Flooding concerns
        - Sidewalk improvements/access

    b. **Examples:**
        - *"Please add/designate a pedestrian sidewalk along Shelby Park Drive. Add pedestrian crossing signage and reduce speed limit on this thoroughfare."*
        - *"There is no sideway to enter in and out of Shelby Park on Davidson. The bike path ends right before you get into the park and feels dangerous to walk/bike into the park from Davidson."*

5. **Park and Facility Enhancements (14 mentions)**
    a. **Themes:**
        - Amenity/upgrades
        - Structural enhancements
    b. **Examples:**
        - *"The condition of this course has deteriorated due to lack of funding and other resources. Being the most used course and having 27 holes in the city, increases in playing fees and memberships must be spent on rehabilitating this important and historic course!"*
        - *"Better playground maintenance/new equipment to incentivize use from families instead of drug use."*
6. **Damaged Infrastructure and Deterioration (17 mentions)**
    a. **Themes:**
        - Infrastructure deterioration concerns
        - Repairs/resurfacing needed
    b. **Examples:**
        - *"Brick walkway here is very uneven and missing lots of bricks."*
        - *"This section has numerous ripples in the pavement from roots buckling up the pavement."*
7. **Environmental and Conservation Efforts (7 mentions)**
    a. **Themes:**
        - Litter concerns
        - Wildlife management
        - Invasive species management
    b. **Examples:**
        - *"There are several beaver dams located between the outflow of the pond and Cooper Creek. These dams impound water and largely shape the water surface elevation and wetted width of the ponds. Suggest removing this from the maintenance regime and just periodically inspecting the culvert for obstruction."*
        - *"There are a number of mature Bradford pear trees in the wet meadow. They should be removed to reduce the chance of spreading throughout this area."*

8. **Lighting and Visibility (10 mentions)**
    a. **Themes:**
        - Lighting needed
        - Playgrounds
        - Pedestrian crossings

    b. **Examples:**
        - *"I wish the new playground had lights. Currently the children play in the dark."*
        - *"What a beautiful new playground here. What a shame that there is zero shade for it. Please plant trees for long term shade, and add shade cloth for short term shade."*

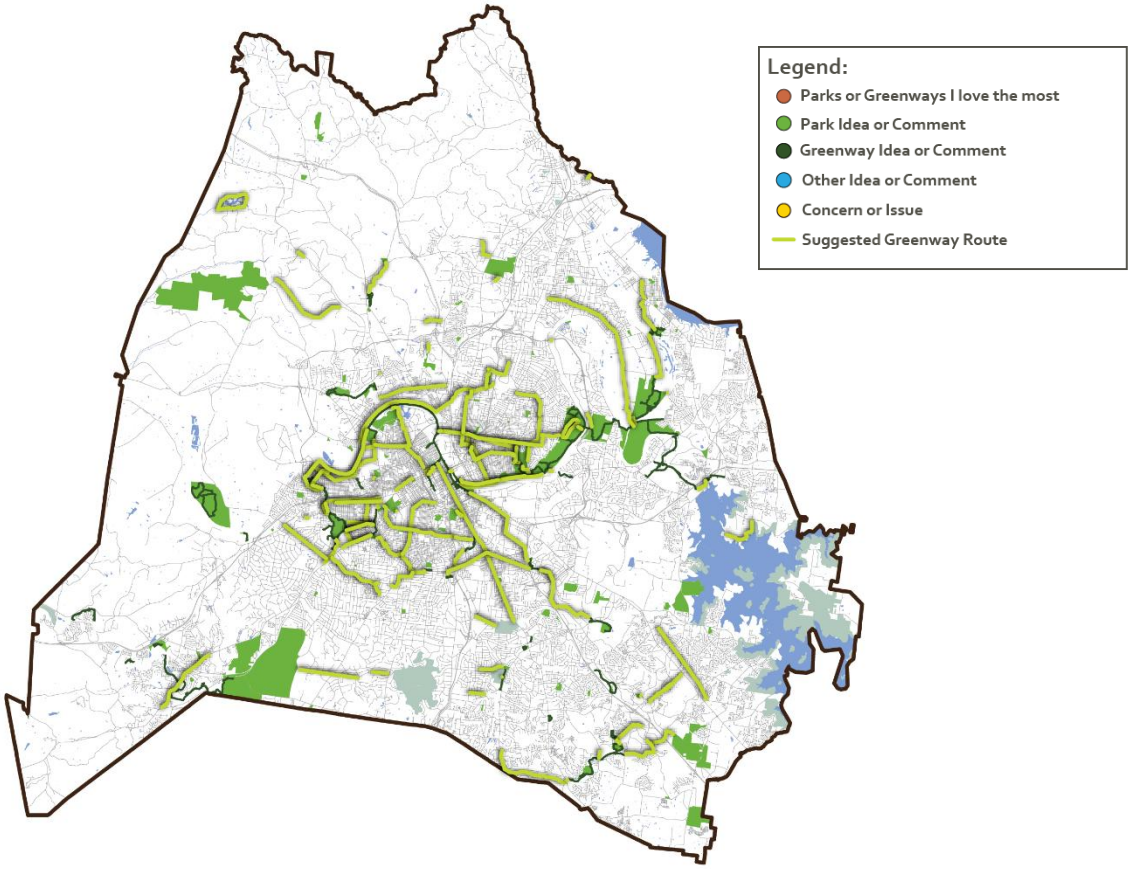
9. **Water and Splash Pads (8 mentions)**
    a. **Themes:**
        - Repairs needed
        - Additional features
        - Maintenance concerns

    b. **Examples:**
        - *"Any updated communication on the current (2025) and future status of splash pad at Wasioto Park? This would be welcomed as we enter the summer season."*
        - *"Splash pad here was a good idea at the time, and its still a good idea now. Metro should have already found a way to make the installer/manufacturer/designer of original pay for repair or replacement here. If not, fundraise and lets get it fixed."*

10. **Restrooms and Hygiene Facilities (14 mentions)**
    a. **Themes:**
        - More permanent facilities
        - Cleanliness concerns

    b. **Examples:**
        - *"The airpark needs permanent restrooms."*
        - *"Please replace the portable restrooms with permanent structures (we can do better than this!) or at least add portable water/hygiene stations to them!"*

MAP COMMENTS: SUGGESTED GREENWAY ROUTES



Suggested Greenway Routes - Key Takeaways:

- 199 ‘Suggested Greenway Routes” Comments
- Concentration of comments connecting downtown parks, existing greenways and major facilities
- **Top 5 facilities mentioned:**
    1. Davidson Greenway
    2. Richland Creek Greenway
    3. Shelby Bottoms Greenway
    4. Connecting Greenways to Downtown
    5. Connecting to Centennial Boulevard

TOP 10 TOPICS MENTIONED 'SUGGESTED GREENWAY ROUTES" COMMENTS:

1. **Connectivity Between Parks and Greenways (32 mentions)**
    a. **Themes:**
        - Greenway links
        - Connectors/access to parks

    b. **Examples:**
        - *"Connect Richland Creek Greenway to 440 Greenway."*
        - *"Connect the Gulch Greenway to the Cumberland River Greenway."*

2. **Safety and Accessibility Enhancements (16 mentions)**
    a. **Themes:**
        - Safety and Accessibility
        - Pathway enhancements

    b. **Examples:**
        - *"Add a greenway along Davidson. This is the most dangerous part of the stretch between Downtown and the Shelby Bottoms Greenway."*
        - *"Creating a dedicated bike/ped lane on Davidson."*

3. **Completion and Extending Existing Greenways (27 mentions)**
    a. **Themes:**
        - Greenway extensions
        - Complete network systems

    b. **Examples:**
        - *"Finish the loop around Lake Sevier."*
        - *"Extend the Richland Creek Greenway so it can connect to the downtown greenway...and make the greenway contiguous!"*

4. **Utilizing Existing Infrastructure (20 mentions)**
    a. **Themes:**
        - Bridges/road maintenance
        - Trail corridor expansion

    b. **Examples:**
        - *"Build the Charlotte Corridor Rail-with-Greenway."*
        - *"Greenway down Riverside under powerlines."*

5. **Enhanced Urban Connectivity (18 mentions)**
    a. **Themes:**
        - Centers
        - Connectivity
    b. **Examples:**
        - *"Connecting Germantown to Shelby (via Davidson) through Cleveland/McFerrin Parks, Frederick Douglass Park, East Park would give biking and other non-street traffic access to each of these neighborhoods through safe and fun routes."*
        - *"Connecting the Nolensville Pike corridor to the north downtown Greenway systems to connect the Fairgrounds, Soccer, Speedway, First Tennessee Park, TN State Museum, Farmers Market, and even the Zoo all in one path. Connecting these neighborhoods through a public option that does not require a bus would be amazing."*
6. **Greenways in High-Traffic Areas (15 mentions)**
    a. **Themes:**
        - Traffic concerns for pedestrians
        - Bikability
    b. **Examples:**
        - *"Metro Public Works had a plan for a multi-use path along Old Harding Pike in 2019. This corridor really needs connectivity for the greenway, parks, library, middle school, WeGo Route 3B, etc."*
        - *"There's no safe way to commute to work on a bike if you live along Charlotte Ave. We can do the greenway over to Richland Park, but then you really have to take the bus b/c the road is just unsafe for bikes into downtown."*
7. **Specific Area Connections (28 mentions)**
    a. **Themes:**
        - Demands for greenway connection
        - Utilization of existing facilities/amenities
    b. **Examples:**
        - *"Cleveland Connector Greenway."*
        - *"Connect Radnor to existing Otter Creek greenway."*

8. **Neighborhood Enhancements (12 mentions)**
    a. **Themes:**
        - Neighborhoods/residential enhancements
        - Paths/connections to neighborhoods

    b. **Examples:**
        - *"A relatively small sidewalk/greenway project could connect McFerrin Park and Douglass Park with a multi-use path. Narrowing Marina st to two lanes, widening the sidewalk along Marina to allow bikes and pedestrians, installing a raised crosswalk at Lischey, and tying into the McFerrin Park greenway loop."*
        - *"A connection to 7th Ave that follows the topography would be an improvement. 8th Ave can be pretty stressful due to school drop-off traffic."*

9. **Utility Corridors (10 mentions)**
    a. **Themes:**
        - Utility corridors
        - Powerline concerns

    b. **Examples:**
        - *"Greenway under powerlines for the growing corridor."*
        - *"Greenway under powerlines connecting to Stratford."*

10. **Community and Recreational Improvements (24 mentions)**
    a. **Themes:**
        - Parks and recreational improvements
        - New connections through sidewalks and pathways

    b. **Examples:**
        - *"Add connectivity to new school sidewalks that are going in. The path through here is disconnected and dangerous due to narrow bridge."*
        - *"Extend the Richland Creek Greenway so it can connect to the downtown Greenway..."*

PARKS OR GREENWAYS I LOVE THE MOST

Description	Category	Created On	Lat	Lng
Love Easland Park!	Parks or Greenways I Enjoy the Most	5/27/25	36.19234699	-86.73941284
Great place to take the kids to run around!	Parks or Greenways I Enjoy the Most	5/28/25	36.19236825	-86.73958582
Small but heavily used park that could use an upgrade!	Parks or Greenways I Enjoy the Most	5/28/25	36.19233731	-86.73927995
Eastwood!	Parks or Greenways I Enjoy the Most	5/28/25	36.19286668	-86.73950976
This park really brings the community together. I love the open greenspace.	Parks or Greenways I Enjoy the Most	5/28/25	36.1923911	-86.73951199
WE LOVE MILL RIDGE PARK! WE LOVE FRIENDS OF MILL RIDGE PARK. THANK YOU DARRELL AND KATHERINE FOR ALL YOU DO!	Parks or Greenways I Enjoy the Most	5/28/25	36.02588902	-86.61420055
A lovely park that is always full of people playing sports, walking dogs, having picnics and riding bikes! One of our favorite parks!	Parks or Greenways I Enjoy the Most	5/28/25	36.19275841	-86.7398107
This place is such a gem and I love so many memories with my daughter here!	Parks or Greenways I Enjoy the Most	5/30/25	36.22808414	-86.72345031
This is a space that is well maintained and a simple space for the nearby neighborhood. One play structure, one picnic shelter, and one multi sport field. Nashville needs more park spaces like this for the growing neighborhoods. The one drawback is no bathroom - only a portopotty is available.	Parks or Greenways I Enjoy the Most	5/31/25	36.10390819	-86.8604782
Love this park - it gets a lot of use and has so much in such a small space.	Parks or Greenways I Enjoy the Most	6/1/25	36.19261618	-86.7392269
Wonderful space for our family. Great events by Friends of Mill Ridge Park	Parks or Greenways I Enjoy the Most	6/1/25	36.02538749	-86.6139883
This updated playground is perfect for all ages. Thank you!	Parks or Greenways I Enjoy the Most	6/3/25	36.05526738	-86.67283432
I absolutely love East Park and go every day. The park and community/fitness center are both huge benefits to the neighborhood. It does make me sad to see a big surface parking lot. I recognize people need to park, but I wonder if we could turn it into a garage without housing on top or at least more facilities? So much of the footprint of a wonderful small park is taken up by just cars.	Parks or Greenways I Enjoy the Most	6/3/25	36.17202484	-86.76154103
New playground at McFerrin Playground is an amazing resource for the community. Additional funds to the community center to support weekend hours would be incredible (if for nothing else than bathrooms and water fountains for playground go-ers!).	Parks or Greenways I Enjoy the Most	6/3/25	36.18173203	-86.76798213
Great park	Parks or Greenways I Enjoy the Most	6/3/25	36.18816415	-86.7598434
love the splash pad here for a safe and easy place for little kids to cool off. I wish it was open more hours and consistently working.	Parks or Greenways I Enjoy the Most	6/3/25	36.16828342	-86.75328381
Wonderful programs and staff at SBNC	Parks or Greenways I Enjoy the Most	6/3/25	36.16609288	-86.72507883
wonderful to have such a large car-free area for bikers... especially young/new riders	Parks or Greenways I Enjoy the Most	6/3/25	36.18851574	-86.70246574
Love the disc golf course. Please continue to keep this park well maintained. It is heavily used and always busy when the weather is nice	Parks or Greenways I Enjoy the Most	6/3/25	36.27357994	-86.74803627
Best park in town with great tree coverage. Farmer's Market is always on my calendar	Parks or Greenways I Enjoy the Most	6/3/25	36.1516687	-86.84494706
The park is in a great growing neighborhood and is in need of repairs/ maintenance for better safety and overall enjoyment!	Parks or Greenways I Enjoy the Most	6/3/25	36.05772449	-86.70615341

Love the use of chew crew over mowing here and along the Cumberland River greenway. Negley has a great staff and it feels safer to access without a vehicle than other parks in the area (excepting the Chestnut crossing).	Parks or Greenways I Enjoy the Most	6/3/25	36.14479027	-86.77416927
The stream restoration in this area is one of the best environmental improvements I have seen at a metro park. This kind of work should be prioritized at other locations within Shelby Bottoms.	Parks or Greenways I Enjoy the Most	6/3/25	36.17167321	-86.73091922
Our family and many others are here multiple times a day. It's a staple for the community!	Parks or Greenways I Enjoy the Most	6/3/25	36.19242519	-86.73918804
This little parklet is wonderful for the neighborhood kids! The only thing that could improve is if there were more of a physical barrier between the play space and the alley where cars drive through. Or you could reconfigure slightly so it's easier for parents to camp out by the alley entrance?	Parks or Greenways I Enjoy the Most	6/3/25	36.14645336	-86.78944086
A wonderful park for the children in our community! Love the new renovations. Keep it up!	Parks or Greenways I Enjoy the Most	6/3/25	36.13662348	-86.80590293
This greenway is so lovely and near our house. We are very excited for it to be exteneded!	Parks or Greenways I Enjoy the Most	6/3/25	36.20762594	-86.84967236
I always read the flyers about community events at this kiosk! Appreciate that it's well-maintained and kept up to date.	Parks or Greenways I Enjoy the Most	6/3/25	36.19725466	-86.70292599
I love watching the "chew crew" sheep at work in the spring/summer!	Parks or Greenways I Enjoy the Most	6/3/25	36.19851719	-86.81766159
Excited to see what becomes of this new park site!	Parks or Greenways I Enjoy the Most	6/3/25	36.05374559	-86.68758167
Appreciate that the bathrooms here are well-maintained and left open for people to use even when the nature center is closed.	Parks or Greenways I Enjoy the Most	6/3/25	36.16609857	-86.72486982
Love this riverside overlook! Would be nice if there a few more along the greenway.	Parks or Greenways I Enjoy the Most	6/3/25	36.16545064	-86.72140482
Love the pump track and splash pad! Wish there were more around the city	Parks or Greenways I Enjoy the Most	6/3/25	36.16259319	-86.79944223
It's great having access to a lovely park and community center right next to the library.	Parks or Greenways I Enjoy the Most	6/3/25	36.17723387	-86.6152229
This is an underutilized greenway/park that's so nice to have!	Parks or Greenways I Enjoy the Most	6/3/25	36.08995803	-86.67691865
This greenway is highly used and well-loved	Parks or Greenways I Enjoy the Most	6/3/25	36.05858731	-86.67466257
This is a fantastic park! There is plenty of space for some new structures. I agree with the ally entrance comments previously.	Parks or Greenways I Enjoy the Most	6/3/25	36.14648826	-86.7898191
The neighbors do a fantastic job of keeping this little park clean. It would be great to have a climbing item	Parks or Greenways I Enjoy the Most	6/3/25	36.14665387	-86.79167518
I love playing the golf course, but also think some sort of protected greenway/walking trail along the outside would be great (a la McCabe/Richland)!	Parks or Greenways I Enjoy the Most	6/3/25	36.17530648	-86.73161022
I love having a Greenway that I am able to bike too. What would make it better is a safer way to access this park. Perhaps an extended bike lane next to the creek.	Parks or Greenways I Enjoy the Most	6/3/25	36.20752994	-86.85086425
I love this park! The renovations have been amazing!!	Parks or Greenways I Enjoy the Most	6/3/25	36.21349253	-86.843858
I love Charlotte Park!	Parks or Greenways I Enjoy the Most	6/3/25	36.15454467	-86.87159092
Seven Oaks Disc Golf Course is a true gem for our city. It should be recognized as such by the Parks Dept! Volunteers are so dedicated to keeping this a top notch disc golf course.	Parks or Greenways I Enjoy the Most	6/3/25	36.10903307	-86.69847832

Love the use of chew crew over mowing here and along the Cumberland River greenway. Negley has a great staff and it feels safer to access without a vehicle than other parks in the area (excepting the Chestnut crossing).	Parks or Greenways I Enjoy the Most	6/3/25	36.14479027	-86.77416927
The stream restoration in this area is one of the best environmental improvements I have seen at a metro park. This kind of work should be prioritized at other locations within Shelby Bottoms.	Parks or Greenways I Enjoy the Most	6/3/25	36.17167321	-86.73091922
Our family and many others are here multiple times a day. It's a staple for the community!	Parks or Greenways I Enjoy the Most	6/3/25	36.19242519	-86.73918804
This little parklet is wonderful for the neighborhood kids! The only thing that could improve is if there were more of a physical barrier between the play space and the alley where cars drive through. Or you could reconfigure slightly so it's easier for parents to camp out by the alley entrance?	Parks or Greenways I Enjoy the Most	6/3/25	36.14645336	-86.78944086
A wonderful park for the children in our community! Love the new renovations. Keep it up!	Parks or Greenways I Enjoy the Most	6/3/25	36.13662348	-86.80590293
This greenway is so lovely and near our house. We are very excited for it to be exteneded!	Parks or Greenways I Enjoy the Most	6/3/25	36.20762594	-86.84967236
I always read the flyers about community events at this kiosk! Appreciate that it's well-maintained and kept up to date.	Parks or Greenways I Enjoy the Most	6/3/25	36.19725466	-86.70292599
I love watching the "chew crew" sheep at work in the spring/summer!	Parks or Greenways I Enjoy the Most	6/3/25	36.19851719	-86.81766159
Excited to see what becomes of this new park site!	Parks or Greenways I Enjoy the Most	6/3/25	36.05374559	-86.68758167
Appreciate that the bathrooms here are well-maintained and left open for people to use even when the nature center is closed.	Parks or Greenways I Enjoy the Most	6/3/25	36.16609857	-86.72486982
Love this riverside overlook! Would be nice if there a few more along the greenway.	Parks or Greenways I Enjoy the Most	6/3/25	36.16545064	-86.72140482
Love the pump track and splash pad! Wish there were more around the city	Parks or Greenways I Enjoy the Most	6/3/25	36.16259319	-86.79944223
It's great having access to a lovely park and community center right next to the library.	Parks or Greenways I Enjoy the Most	6/3/25	36.17723387	-86.6152229
This is an underutilized greenway/park that's so nice to have!	Parks or Greenways I Enjoy the Most	6/3/25	36.08995803	-86.67691865
This greenway is highly used and well-loved	Parks or Greenways I Enjoy the Most	6/3/25	36.05858731	-86.67466257
This is a fantastic park! There is plenty of space for some new structures. I agree with the ally entrance comments previously.	Parks or Greenways I Enjoy the Most	6/3/25	36.14648826	-86.7898191
The neighbors do a fantastic job of keeping this little park clean. It would be great to have a climbing item	Parks or Greenways I Enjoy the Most	6/3/25	36.14665387	-86.79167518
I love playing the golf course, but also think some sort of protected greenway/walking trail along the outside would be great (a la McCabe/Richland)!	Parks or Greenways I Enjoy the Most	6/3/25	36.17530648	-86.73161022
I love having a Greenway that I am able to bike too. What would make it better is a safer way to access this park. Perhaps an extended bike lane next to the creek.	Parks or Greenways I Enjoy the Most	6/3/25	36.20752994	-86.85086425
I love this park! The renovations have been amazing!!	Parks or Greenways I Enjoy the Most	6/3/25	36.21349253	-86.843858
I love Charlotte Park!	Parks or Greenways I Enjoy the Most	6/3/25	36.15454467	-86.87159092
Seven Oaks Disc Golf Course is a true gem for our city. It should be recognized as such by the Parks Dept! Volunteers are so dedicated to keeping this a top notch disc golf course.	Parks or Greenways I Enjoy the Most	6/3/25	36.10903307	-86.69847832

Hookman Hill is one of Nashvilles most treasured natural beauties. Untouched by humans, it showcases the perfect environment we all call home here. The types of bikes used on these trails are far different than those used on greenways, so any such connection will go largely unutilized and thus a waste of city resources, not to mention potentially destructive to this gorgeous natural park. Please protect the limited natural areas Nashville has to offer, for the residents sake and for the sake of the Bald Eagles I have seen nesting there!!	Parks or Greenways I Enjoy the Most	6/4/25	36.08569923	-86.87771853
This connection is a short but significant access point for my bike commute home! It allows me to skip the stressful parts of East Thompson and slow down and enjoy nature before I get home. Lights would make this connection feel safe at night.	Parks or Greenways I Enjoy the Most	6/4/25	36.11887794	-86.72494632
I love having a playground so close to the library	Parks or Greenways I Enjoy the Most	6/4/25	36.15170654	-86.84550249
Love that there is a disc golf course here. Would love to see more around parks in town.	Parks or Greenways I Enjoy the Most	6/4/25	36.17364795	-86.73025031
Frankie Pierce Park is a gem! It's very quickly become the unofficial park for the bicycle community. Music City Dope Pedalers host community bike rides every Friday night at 6:00PM - all are welcome!	Parks or Greenways I Enjoy the Most	6/4/25	36.16483454	-86.78975483
I've always felt like this park is severely underutilized. The whole back area looks like it was designed for a stage! I would love to see more events and concerts here. It would increase the foot traffic and appeal of Demonbreun Hill, Midtown, and Music Row.	Parks or Greenways I Enjoy the Most	6/4/25	36.15149715	-86.79200987
I absolutely LOVE the Shelby Bottoms greenway. It's SO long and provides amazing views for the majority of the trail!	Parks or Greenways I Enjoy the Most	6/4/25	36.18586611	-86.7064363
Please leave what little nature we have left, please keep roads out of Percy Warner.	Parks or Greenways I Enjoy the Most	6/5/25	36.08353578	-86.87802435
Shelby Community Center is the best! The heart of the community!	Parks or Greenways I Enjoy the Most	6/5/25	36.17096733	-86.73522121
I love the farmer's market at this park! Awesome community event!	Parks or Greenways I Enjoy the Most	6/5/25	36.15146843	-86.84581429
Elmington Park is one of my favorites in Nashville! I love all the green space and the new trees and picnic tables that have been added. The updated tennis/pickleball courts are also great. Events likes movies in the park and frequent food truck appearances are also super fun!	Parks or Greenways I Enjoy the Most	6/5/25	36.13391101	-86.82402156
I love how close to my house this park is. It definitely needs some work, but it's a cute little park with a lot of opportunity for growth!	Parks or Greenways I Enjoy the Most	6/5/25	36.15535884	-86.87157475
This is such a great greenway! I enjoy walking here with my dog and my family/friends.	Parks or Greenways I Enjoy the Most	6/5/25	36.14180589	-86.84314327
Mill Ridge Park!!!	Parks or Greenways I Enjoy the Most	6/6/25	36.02553393	-86.61368496
Love Warner Park Nature Center and every program they provide! More of this please!	Parks or Greenways I Enjoy the Most	6/6/25	36.06045615	-86.90642215
SBNC does great work! They have some amazing events every season, and they do so much great educational work through field trips and public programming.	Parks or Greenways I Enjoy the Most	6/7/25	36.16601998	-86.72488136
Warner Park Nature Center holds some of the coolest programming in the Metro Nashville Area, and the research projects that they conduct are seriously underrated!	Parks or Greenways I Enjoy the Most	6/7/25	36.06089315	-86.90600692

The Deep Well parking lot is much improved over the old one. Great job!	Parks or Greenways I Enjoy the Most	6/7/25	36.07477519	-86.88210854
Love renting the Deep Well shelters for a fire and cookout. Should be better publicized	Parks or Greenways I Enjoy the Most	6/7/25	36.07473935	-86.88366464
We love fair park! Specifically the greenway and the native pollinator meadows. They are beautiful in the spring and summer seasons, and a cherished space in our neighborhood.	Parks or Greenways I Enjoy the Most	6/9/25	36.13413397	-86.76018059
Ft. Negley is such a special place in Nashville, with its stunning view of the city and unique history. I look forward to the improvements in infrastructure and expansion of the park into the land where Greer stadium used to be.	Parks or Greenways I Enjoy the Most	6/9/25	36.14508375	-86.77426346
Fields at Shelby Park in conjunction with East Nashville Athletics is the heartbeat of the community. Need to continue to work on improving the facilities (restrooms, infrastructure, dugouts, hitting facilities)	Parks or Greenways I Enjoy the Most	6/10/25	36.16706712	-86.72893451
Miss Heather and crew ROCK	Parks or Greenways I Enjoy the Most	6/10/25	36.26208919	-86.89390376
Warner Park Nature Center program and staff are fabulous!	Parks or Greenways I Enjoy the Most	6/10/25	36.06089405	-86.9064112
We absolutely love the nature play area at Edwin Warner, we find it more fun and engaging than a traditional playground!	Parks or Greenways I Enjoy the Most	6/11/25	36.06054335	-86.90585168
Love the farmers market on Tuesday!!	Parks or Greenways I Enjoy the Most	6/11/25	36.11938614	-86.78916581
Our favorite dog park!	Parks or Greenways I Enjoy the Most	6/11/25	36.12623141	-86.76567979
I enjoy the Soul Line Dancing at Southeast Community Center!	Parks or Greenways I Enjoy the Most	6/12/25	36.05310547	-86.65582348
The neighborhood is so beautiful a park with a nice greenway would make it even better	Parks or Greenways I Enjoy the Most	6/13/25	36.1181961	-86.87361115
Hookman Hill is the best mountain bike trail in the system!	Parks or Greenways I Enjoy the Most	6/13/25	36.08594356	-86.88061363
Cornelia Fort airpark is so special!	Parks or Greenways I Enjoy the Most	6/16/25	36.18978912	-86.70133693
A great neighborhood park!	Parks or Greenways I Enjoy the Most	6/16/25	36.19274941	-86.73943918
This playground is so great for the neighborhood! I always see families enjoying it.	Parks or Greenways I Enjoy the Most	6/16/25	36.18809382	-86.73428449
This field gets a lot of use! Great multi-purpose space	Parks or Greenways I Enjoy the Most	6/16/25	36.18773768	-86.73205277
We love the nature center, the playground, and all the parts of this park	Parks or Greenways I Enjoy the Most	6/16/25	36.16649373	-86.72765621
A garden and green space for all to enjoy and a library would be amazing huge asset to our neighborhood !	Parks or Greenways I Enjoy the Most	6/16/25	36.11926943	-86.8743138
This is a gem of a resource. Please keep maintenance up.	Parks or Greenways I Enjoy the Most	6/17/25	36.16819009	-86.72303936
Link to Centennial Trail	Parks or Greenways I Enjoy the Most	6/19/25	36.2173039	-86.9963556
This is my favorite park. It's in such a great location for the underserved population of Antioch	Parks or Greenways I Enjoy the Most	6/26/25	36.02360437790	-86.6146959054
Amazing dog park. Great playground. Great greenway access	Parks or Greenways I Enjoy the Most	6/28/25	36.19161139689	-86.6754507303
Love the changes worked into this area and playground. Appreciate the work installing trees for future shade. Looking forward to seeing how this expands use in the future.	Parks or Greenways I Enjoy the Most	6/28/25	36.19083906450	-86.6462645608
Amazing nature center with programs, natural playground, shaded trails to ride bikes and strollers. Give it a splash pad and it would be 100% place to be with little children.	Parks or Greenways I Enjoy the Most	6/28/25	36.16607271524	-86.7249461790

Love the paved and shaded trails. Have always felt safe bringing littles. They also love access to playing in creeks and nature center. The full moon picking parties are AMAZING and should be recreated at the two rivers / Stone Hall friends group.	Parks or Greenways I Enjoy the Most	6/28/25	36.08026798541	-86.8697922595
Develop a hiking trail to connect Beaman Park to Bells Bend Park. There are seven pieces of property already in land conservation and other private properties could be added to create this route.	Parks or Greenways I Enjoy the Most	7/4/25	36.24325618901	-86.9443090744
Love this space!	Parks or Greenways I Enjoy the Most	7/15/25	36.19300034579	-86.7396268455
Such a great space!	Parks or Greenways I Enjoy the Most	7/15/25	36.19121247267	-86.7042139524
Natural plantings are fantastic	Parks or Greenways I Enjoy the Most	7/21/25	36.12981323676	-86.7604520697
This is an excellent example of how all Nashville Greenways must be maintained.	Parks or Greenways I Enjoy the Most	7/22/25	36.14227201126	-86.8446302609
Love the access to the greenway here	Parks or Greenways I Enjoy the Most	7/22/25	36.18719519014	-86.8227849547
This greenway is great!	Parks or Greenways I Enjoy the Most	7/23/25	36.13291238605	-86.8497451409
I know it's not a metro park but I'm calling out all the trees planted around the Frist. It makes my downtown walk to work so much more bearable on these hot summer days.	Parks or Greenways I Enjoy the Most	7/25/25	36.15602695768	-86.7835351051
The new playground equipment is great! The kids love it!	Parks or Greenways I Enjoy the Most	7/25/25	36.11157210676	-86.7443232230
Thank you for updating the restrooms and the historical home here!	Parks or Greenways I Enjoy the Most	7/25/25	36.11912942086	-86.7892707516
We use this park every week. It's a community gathering space where we run into people playing sports, at the playground, at the farmers market, going to the library, or walking their dog.	Parks or Greenways I Enjoy the Most	7/28/25	36.15150410934	-86.8457966289
I will always remember family bike rides along the green way with my kids, and creek stomps. We love this greenway and use it frequently. It's part of the reason we wanted to live in this part of town.	Parks or Greenways I Enjoy the Most	7/28/25	36.14469047262	-86.8491903030
Beaman park is a flagship and should be expanded	Parks or Greenways I Enjoy the Most	7/29/25	36.26012963108	-86.9207965632
Area near the water for playground, picnic tables, shelters and outdoor exercise with a paved walking loop around the play area.	Parks or Greenways I Enjoy the Most	7/29/25	36.16304255967	-86.6968934596
My dog loves to be walked to the creek to play with the other dogs in the water.	Parks or Greenways I Enjoy the Most	7/29/25	36.13294279621	-86.8497559667
Excited for the new community center!	Parks or Greenways I Enjoy the Most	7/30/25	36.26477029600	-86.6490042972
The most beautiful park that's well maintained.	Parks or Greenways I Enjoy the Most	7/31/25	36.17171837831	-86.7880426118
This park is always full of families on the weekends. I would love to see it stay busy and up-to-date, because it really serves a lot of happy families and children. Thank you!	Parks or Greenways I Enjoy the Most	7/31/25	36.13655381469	-86.8060384765
This path is really well paved, and because of that lots of people use it! Thank you for including water fountains too.	Parks or Greenways I Enjoy the Most	7/31/25	36.11866242850	-86.7900190189
This park is awesome! I play kickball here and really appreciate the way it is maintained. Thank you!	Parks or Greenways I Enjoy the Most	7/31/25	36.16587065156	-86.8221410859
This space is beautiful and well maintained. I use it all the time!	Parks or Greenways I Enjoy the Most	7/31/25	36.17094180631	-86.7875970106
I love this space!	Parks or Greenways I Enjoy the Most	7/31/25	36.14644569153	-86.7689571665
This is an amazing facility with great staff. The walking trail is great, and there is great space for expansion of these trails.	Parks or Greenways I Enjoy the Most	7/31/25	36.26635935847	-86.7010410809

PARK IDEAS OR COMMENTS

Description	Category	Created On	Lat	Lng
This greenway is connected to nothing! District 35 has no connectivity.	Park Idea or Comment	5/27/25	36.13248723	-86.90562535
Lock Two Park needs a master plan and working with Friends of Two Rivers on activating.	Park Idea or Comment	5/27/25	36.24411138	-86.70372328
Bathroom or more porta potties please!	Park Idea or Comment	5/27/25	36.19050202	-86.70403932
Downtown needs a playground!	Park Idea or Comment	5/27/25	36.15925801	-86.77663215
There is not enough parking at the Aiprark.	Park Idea or Comment	5/27/25	36.19116532	-86.70396402
Add a soccer pitch	Park Idea or Comment	5/27/25	36.16828551	-86.72758194
The Eastwood Neighbors have been actively discussing ways to improve Eastland Park. The list below highlights priorities for upgrades. Additionally, changing the park's name has been a significant topic due to its tendency to cause confusion. 1. Soccer 60 x 40 yards - Regulation-Sized Mini-Pitch 2. Court Update New Fence Multi-Use Sport Court: - Full Court Basketball - 2 Pickle Ball Courts Dedicated Court: - Pickleball - 4 Square - Traditional Hopscotch - ADA Hopscotch 3. Water Fountain 4. Connection from walking path to existing sidewalk 5. Bike Rack 6. New Trees (Variety of Species) 7. Play equipment update 8. New Lighting	Park Idea or Comment	5/27/25	36.19270582	-86.73948843
Add soccer fields on unused baseball fields The kids baseball fields need permanent fences and updates all around.	Park Idea or Comment	5/27/25	36.16824773	-86.72736468
Big fan of East Park. Love to get some updates! It would be terrific to have more sports areas, as well as some landscaping to provide more shade in the future.	Park Idea or Comment	5/27/25	36.1929888	-86.73955098
Update the play ground equipment, make use of the large, mostly unused field, update the court to make it multi-use	Park Idea or Comment	5/27/25	36.19298501	-86.73967765
Need to repave airpark	Park Idea or Comment	5/27/25	36.189641	-86.70160763
Water Fountain	Park Idea or Comment	5/28/25	36.19227575	-86.7395921
Would love to see more trees planted!	Park Idea or Comment	5/28/25	36.19308085	-86.73929554
Court desperately needs an update. Replace basketball goals, resurface and create multi purpose space (basketball, pickleball!, and Foursquare)	Park Idea or Comment	5/28/25	36.19247356	-86.73928466
I'd love to see this open space be used and flattened into a usable soccer practice field	Park Idea or Comment	5/28/25	36.19288507	-86.73936353
This area is a park desert. A park that you don't have to drive to would be nice.	Park Idea or Comment	5/28/25	36.24834069	-86.73469098
Please implement the Plans being created by Eastwood Neighbors Association, c/o Eric Hoke. All are great ideas that would enhance this already popular park.	Park Idea or Comment	5/28/25	36.19270524	-86.73931411
This facility should be turned into a large recreational site with a community center, bus route, soccer fields, walking tack, dog park and updated tennis courts.	Park Idea or Comment	5/28/25	36.11823159	-86.8734183
Add more amenities and activities. We have lots of land/space, but no amenities on this side of the park	Park Idea or Comment	5/28/25	36.02364265	-86.62141032
A soccer field here would be an amazing use of the currently unused space and bring tons of people to the park!	Park Idea or Comment	5/28/25	36.1930371	-86.7397798

An update to the playground equipment would be wonderful!	Park Idea or Comment	5/28/25	36.19253562	-86.73965245
Resurfacing the current court and making it into a multiuse space would allow a lot more people to make use of the space. The current court is cracking and the basketball hoops are not in great shape.	Park Idea or Comment	5/28/25	36.19244462	-86.73938423
McCabe would be a dramatically better park if it wasn't all golf course. Repurposing the North 9 for fields, picnic space, walking paths, etc. would be a massive improvement. All other metro golf courses are part of very large parks that have other amenities. At McCabe everything other than golf is shoved to the sides behind high fences (and its still the most used greenway in the city!!)	Park Idea or Comment	5/28/25	36.1434707	-86.85022381
I'd like to see another hiking trail in Percy Warner. It feels like the park is big enough to support another (beyond the current 2.5- and 4.5-mile loops).	Park Idea or Comment	5/28/25	36.06961726	-86.88460574
Note the lack of greenspace/parks in West Meade. How can that be addressed? Could a hiking trail be created on some of the hilltops/ridges, or other unbuildable chunks of land?	Park Idea or Comment	5/28/25	36.1023901	-86.9084651
The track, field, and courts here need to be better maintained now that the high school is closed. The field grass needs to be mowed, trash cans need to be emptied, and new signage to indicate current usage rules would be helpful.	Park Idea or Comment	5/29/25	36.11773114	-86.87556235
Would love to see a playground added here on the grounds, as our neighborhood has no Metro playground.	Park Idea or Comment	5/29/25	36.11869703	-86.87467079
I would love to see the addition of native shade trees to the park.	Park Idea or Comment	5/29/25	36.19313057	-86.73995125
Better upkeep of existing park structures	Park Idea or Comment	5/29/25	36.13716027	-86.779698
Fort Nashboro is an important historical site. I would love to see it made into an attraction that represents that historical importance and accurately demonstrates how the Fort would have looked.	Park Idea or Comment	5/30/25	36.1641961	-86.77539794
Continue funding Fort Negley. Where and how it would be appropriate, rebuild the fortifications and upkeep the interpretive signs and create a historic aesthetic that would help the visitor have an understanding of the importance of the fort. It's one of, if not the last Civil War forts in the country. Let's make it something people travel for to visit and something Nashville can be proud of.	Park Idea or Comment	5/30/25	36.14488729	-86.77468727
Continue to adequately fund Two River Mansion for its upkeep and expand funding for its historical interpretation.	Park Idea or Comment	5/30/25	36.189579	-86.67703043
Manage Stones River Bend Park in an ecological way, e.g., Native grassland and oak savanna. This would not only give people an opportunity to see our native landscapes but save Parks Dept. money in long-term management.	Park Idea or Comment	5/30/25	36.18506036	-86.65850116
Add this large parcel to Beaman Park.	Park Idea or Comment	5/30/25	36.25563908	-86.93072797
Add a bathroom to Isaac Litton! Lots of families use this and no good facilities.	Park Idea or Comment	5/30/25	36.22791764	-86.72459495

Garbage can	Park Idea or Comment	5/31/25	36.21015083	-86.65283475
Bench and garbage can	Park Idea or Comment	5/31/25	36.16941532	-86.71394621
Bench and garbage can	Park Idea or Comment	5/31/25	36.18391724	-86.69824918
Please keep the basketball court! Eastland Neighbors has proposed a map full of great ideas. We support all of those and also recommend additional swings. We love that the kids can ride bikes, play ball, picnic, get on the playground and run around in this space.	Park Idea or Comment	6/1/25	36.19282908	-86.73971878
Outdoor classroom plaza like entrance to Warner!	Park Idea or Comment	6/2/25	36.17245407	-86.76006248
Allow a walking path around the Reservoir like Crescent Hill Reservoir in Louisville	Park Idea or Comment	6/2/25	36.13889233	-86.78038546
Consider adding a multi-use gravel trail and/or mountain biking trails around this park	Park Idea or Comment	6/2/25	36.18905116	-86.6609764
Need more trees at this park.	Park Idea or Comment	6/2/25	36.17525714	-86.74161596
Need better signage or communication about this park	Park Idea or Comment	6/2/25	36.17625463	-86.73712094
I wish Coleman Park had eBikes(Bcycle)	Park Idea or Comment	6/2/25	36.11217731	-86.74396602
Please incorporate more openings in the fence to access this park. Many families live within walking distance to this park but the only reliable access is by walking down Gallatin, crawling through a hole in the fence, through the Middle School parking lot (the gate is often locked), or by car to park in a lot that is dangerous to pull out of onto the busy street.	Park Idea or Comment	6/2/25	36.22775296	-86.72409526
Please update this playground equipment! It is so dated especially when compared to the other playground at this park. It would be nice to have a good playground by this large pavilion here and maybe it would relieve some of the busyness of the other playground after school hours.	Park Idea or Comment	6/2/25	36.19560861	-86.72779435
Please add a fence to protect the littles from running into the street! It would be wonderful to also have some equipment for very young toddlers too.	Park Idea or Comment	6/2/25	36.19272887	-86.73964664
Toddler playground could use a fence to keep the littles from the busy street	Park Idea or Comment	6/2/25	36.19225641	-86.73936768
This part of the golf course would better serve the community by being an open park. The golf course is only used by a few people at a time and costs a lot to maintain. It could be a shorter or condensed course while freeing up plenty of space.	Park Idea or Comment	6/2/25	36.17631291	-86.73146745
Given our density and property taxes, it is embarrassing how tiny the playground at Morgan park is.	Park Idea or Comment	6/2/25	36.18056764	-86.79037063
Would love to see eastland park fenced on the Douglas and chapel sides for the safety of our kids!	Park Idea or Comment	6/3/25	36.19221212	-86.73916625
More trees please!	Park Idea or Comment	6/3/25	36.1925846	-86.73939343
It would be great to add some night lights to this park.	Park Idea or Comment	6/3/25	36.11347963	-86.77599195
Could someone please improve the maps for Warner Parks??? The ones we have are absolutely horrific.	Park Idea or Comment	6/3/25	36.06992707	-86.88429045
Please add bathrooms.	Park Idea or Comment	6/3/25	36.02723164	-86.67007579

It is time for the former bordeaux landfill to become a park. Over the past few decades, cities all over the world have converted closed landfills into parks. With planning and innovative engineering, these projects have increased the amount of open green space in urban areas, improving the environment and increasing the quality of life for residents. Nashville currently has the opportunity to undertake a similar project at the site of the former Bordeaux Landfill. While there may be many challenges, the benefits of success include the creation of a beautiful Regional level park with no acquisition cost to Parks	Park Idea or Comment	6/3/25	36.17316578	-86.84003554
This park should have trees and landscaping. It's being kept blank for just a few events a year when it's the closest park for most downtown residents.	Park Idea or Comment	6/3/25	36.15900615	-86.77677714
Having 27 holes of golf course in this relatively urban and highly connected setting is crazy. Take 9 away and build a world class park please!!	Park Idea or Comment	6/3/25	36.14195192	-86.84852345
There should be landscaping here with trees and paths rather than a giant open field that is used infrequently.	Park Idea or Comment	6/3/25	36.14832396	-86.81248209
Fully fund Cleveland Park pool to allow for increase in hours per week open and lengthen the number of weeks the pool is open.	Park Idea or Comment	6/3/25	36.18776313	-86.75979763
I wish there was a playground at Wright Middle open to the neighborhood	Park Idea or Comment	6/3/25	36.10021202	-86.73284865
Has Willow Creek Park been abandoned by Metro Parks? With increased density in this area, the demand for a neighborhood park is high and people could enjoy a forested park with trails in this area if it were maintained.	Park Idea or Comment	6/3/25	36.25339505	-86.77104149
Very excited for this new park!	Park Idea or Comment	6/3/25	36.22305153	-86.79050252
Water fountain with dog bowl	Park Idea or Comment	6/3/25	36.24126775	-86.64792342
Consider a new disc golf course along the perimeter of the dog park. Course could be expanded from 9 holes to 18 by including area across 31st near the volleyball court. There are very few pedestrians in this space, so it is currently underutilized and the course would have little to no impacts on the current park uses	Park Idea or Comment	6/3/25	36.14854723	-86.81704865
More large trees planted in the center of this park so it's not just a big patch of grass	Park Idea or Comment	6/3/25	36.20364592	-86.75862304
I wish Pitts Park had swings. The new play structure is very nice but swings would make it an A+!	Park Idea or Comment	6/3/25	36.05707496	-86.70632296
Would love a small park in this area	Park Idea or Comment	6/3/25	36.2486457	-86.73443044
There's a lot of space here- would love to see a splash pad! Would revitalize this part of the park especially w new development coming across street.	Park Idea or Comment	6/3/25	36.19641327	-86.72848851
Update the playground(s) at Sevier Park. They get a lot of use but aren't nearly as nice as others in the city.	Park Idea or Comment	6/3/25	36.11860297	-86.78830163
There are so many young families who come to this park, it would be great to see improvements made to the playground, dog park, and grass area for everyone to enjoy!	Park Idea or Comment	6/3/25	36.05683332	-86.70721694

Expand green spaces at Fair Park. South Nashville is in desperate need of more park space, and I would specifically love to see more green spaces in place of the underutilized parking lots in and around the speedway. More trees and shaded areas as well.	Park Idea or Comment	6/3/25	36.13169056	-86.76198822
Create a public park area to the south of the school. Currently there is an open field that would make a nice place for a short walking path and some benches.	Park Idea or Comment	6/3/25	36.1222881	-86.75685024
Remove fencing around the park area adjacent to the school to make it clear that it is open to the public.	Park Idea or Comment	6/3/25	36.13359738	-86.76648282
This is a hugely popular park with a ton of traffic abs yet there isn't a single flower or flowering tree anywhere. Can we add some gardens?	Park Idea or Comment	6/3/25	36.11951478	-86.78876318
Please update this playground equipment. It's faded and mildewed, and a lot of families live nearby.	Park Idea or Comment	6/3/25	36.20333438	-86.75881213
Percy and Edwin Warner parks need bike racks!	Park Idea or Comment	6/3/25	36.08637626	-86.88165575
This is such a great space for a dog park. There's only one in all of east nashville, and the south Inglewood community is underserved for safe streets to walk their pups, with construction often blocking the streets and few sidewalks. With all the houses within walking distance of South Inglewood park - and very few new builds with yards - a small Rock City Dog Park for the doggies to expend some energy and run around would be a much-needed addition.	Park Idea or Comment	6/3/25	36.19624154	-86.7280495
There is an open field between the Forrest Green TH and the maintenance road at the end of Rosebank Ave. It is actively mowed and not aesthetically pleasing and offers little to no benefits for widlife or human recreation as currently configured. Suggest planting native meadow species to increase benefits to wildlife and aesthetics, while reducing/ eliminating maintenance costs.	Park Idea or Comment	6/3/25	36.19779695	-86.70269878
I would like to see the tennis courts/pickle-ball courts and bike pump track that were listed in the original Stones River Bend Park Master Plan. I would also like to see some bike/walking paths or mountain biking trails in the large river bend section of the park.	Park Idea or Comment	6/3/25	36.19057648	-86.6462325
Splash pad please!	Park Idea or Comment	6/3/25	36.07341204	-86.93432322
I second the idea to redevelop a part of the McCabe golf course into a more rounded public park. Splash pads, band shells, and beer gardens would be a welcome addition. I would love to see more Nashville parks take inspiration from Cincinnati's Washington Park in the Over the Rhine neighborhood. This comment would also apply to parks like Centennial and Sevier.	Park Idea or Comment	6/3/25	36.14271835	-86.84901469
Percy Warner Park is treated as a Belle Meade Park and has limited access to transit and biking. It belongs to all of Nashville and should be easily accessible. It is underutilized.	Park Idea or Comment	6/3/25	36.08628926	-86.88134998

Disc golf course would be a great add on for the new park, or for percy/edwin warner. There isn't one on the west side of town at all,	Park Idea or Comment	6/3/25	36.07505457	-86.9634907
Disc golf course would be a great add on for the new park, or for percy/edwin warner. There isn't one on the west side of town at all,	Park Idea or Comment	6/3/25	36.06001762	-86.89822139
Have sand available in the golf carts to golfers can repair their divots. Quickest way to ruin a course is not being able to repair divots.	Park Idea or Comment	6/3/25	36.05549575	-86.88261635
No real park in West Meade. We do not need or want a community center but open spaces, track, fields, etc.. Hillwood HS?	Park Idea or Comment	6/3/25	36.10520678	-86.90230765
It would be really nice to have a pool somewhere on the west side of town.	Park Idea or Comment	6/3/25	36.16242138	-86.86311723
Would love new trees planted to replace the 3 that have been knocked down from high winds in the last couple of years.	Park Idea or Comment	6/3/25	36.19305265	-86.73996113
Playground! Fields-you already have a baseball field, football field, tennis courts, and a track: Teardown the school and the stadium. Leave the track, football field, and existing courts and baseball field. Add another open field for soccer, football, picnics-whatever, Add outdoor courts for basketball and pickelball. Add a playground. Add a Greenway type trail around the whole thing for walking. Add a SMALL community center for neighborhood meetings.	Park Idea or Comment	6/3/25	36.11738964	-86.87422745
Would like to see this become an official park so that it's not in danger of being sold to developers	Park Idea or Comment	6/3/25	36.13918947	-86.78928429
I didn't know this was a park. I always thought it was private land. This stretch is part of a heavily trafficked pedestrian corridor and improvements like shade would help a lot with the pedestrian experience. Play space or a dog park would probably see high utilization bc of the density of the area.	Park Idea or Comment	6/3/25	36.13167591	-86.80215299
This park could use some fencing so that parents don't have to worry about their kids running into the very nearby road	Park Idea or Comment	6/3/25	36.10812754	-86.74551807
This park gets heavy use for how small it is. The school even uses it during the weekdays. Please expand the playground and also pick up trash more often.	Park Idea or Comment	6/3/25	36.21876805	-86.71708262
When bringing the William Edmondson Homesite into the Metro Parks system, also transfer this parcel (where the youth soccer pitch is) to Parks, to allow coordinated Master Planning for the entire site.	Park Idea or Comment	6/3/25	36.13863467	-86.78913025
Make this greenspace and historic site an official park. The Planning Department, in the Edgehill Neighborhood Plan Update, has designated this as public greenspace. "Ownership"/administration needs to be transferred from Metro Schools to Metro Parks in order to ensure orderly long-term planning, as well as ongoing care and maintenance, which is now done entirely by neighborhood volunteers.	Park Idea or Comment	6/3/25	36.13937997	-86.78966724

A Bike fix-it station here would be amazing since so many cyclists use the airpark and nearby connections. There isn't a fix-it station until the main Shelby Bottoms park by the ballfield, miles away.	Park Idea or Comment	6/3/25	36.19027043	-86.70397183
Please add a small playground in the grassy area in front of the library.	Park Idea or Comment	6/3/25	36.17016663	-86.6671695
Continue developing this park area to include additional walking/biking trails and blueway access points to connect this park to the river network.	Park Idea or Comment	6/3/25	36.18830417	-86.65202378
Please add picnic tables and consider a small shade shelter in this large wide open area	Park Idea or Comment	6/3/25	36.24066087	-86.64333438
So much housing development in this area in recent years, including huge new apartment complex on Taylor Rd/Nolensville Pike. It's difficult to travel on Nolensville Pike and Edmondson Pike (even in a car) to access park facilities, and this neighborhood hardly has sidewalks on most streets. This large, vacant parcel would be ripe for a neighborhood park /playground.	Park Idea or Comment	6/3/25	36.07428572	-86.72200501
Please transfer the ownership of this green space to Metro Parks to prevent a potential sale to developers. Additionally the space is maintained primarily by volunteers as it's very difficult to move forward with improvements while it's under Metro Schools. The space is heavily used by the community as it sits next to the soccer pitch provided by NSC.	Park Idea or Comment	6/3/25	36.13896618	-86.78962328
Would love to see Metro work to have this state owned property changed from a gun range to a park	Park Idea or Comment	6/3/25	36.19263947	-86.86767013
Would love for Metro to encourage the stat to change this from a TWRA lake (with many restrictions) to a state park. The South side has Radnor, West has the Harpeth, and east has Long Hunter, but there are no State parks North of town.	Park Idea or Comment	6/3/25	36.30384273	-86.91471894
This would be a perfect place for a publicly owned velodrome. See: Major Taylor Velodrome in Indianapolis. D. Lane Velodrome in GA.	Park Idea or Comment	6/3/25	36.14450619	-86.77047245
This lot is no longer used as a community garden. If it is publicly owned, could it be transformed into a parklet? Woodbine has no basketball or tennis courts. Could this be a good location for a court complex and small playground?	Park Idea or Comment	6/3/25	36.11966027	-86.7452235
This park area could use enhancement. Install soccer goals? Regrade field? Add basketball or tennis courts in place of the very lightly used parking lot to the north of the field?	Park Idea or Comment	6/3/25	36.12147582	-86.74488823
Would be great to have a playground open to the public (at least on weekends) at Wright Middle!	Park Idea or Comment	6/3/25	36.10004044	-86.73281927
It would be so great if this park could be brought into the Metro Parks system. That would protect it from predatory development and allow for systematic upkeep. The fact that it currently is the responsibility of Metro Schools is somewhat ridiculous.	Park Idea or Comment	6/3/25	36.13895039	-86.78949661

Please allow BCycle to put a station here again. It I would bike down here way more often if I there was a station	Park Idea or Comment	6/3/25	36.15792914	-86.62375987
Money was allocated in participatory budgeting to purchase this parcel, but the city never followed through. Consider purchasing this property for a pocket park next to the library.	Park Idea or Comment	6/3/25	36.21165274	-86.83773949
Would like this park to become an official Metro Park.	Park Idea or Comment	6/3/25	36.13892378	-86.78890578
Should make this a permanent park under parks dept instead of the current status as a neighborhood kept area that's in danger of being taken away by a developer or uncared for under the schools dept.	Park Idea or Comment	6/3/25	36.13945421	-86.78913875
Please make this area a part of Metro Parks. It is the highly significant homesite of renown sculptor William Edmondson and needs to be preserved, rather than at risk of developers gobbling it up, if Metro Schools were to decide they need the money instead of preserving a historic site!	Park Idea or Comment	6/3/25	36.13957676	-86.78944206
Please make this park part of Metro parks so that it can be protected for current and future Nashville residents. It is a treasure!	Park Idea or Comment	6/3/25	36.13894858	-86.78919061
Make this part of the Metro Park system. There's too much red tape for proper development with it being owned by the school system.	Park Idea or Comment	6/3/25	36.13971715	-86.78912209
Please make this a metro park so that it stays a park...this neighborhood is going to double in residents and we NEED the green space!	Park Idea or Comment	6/3/25	36.1387126	-86.78946418
There is plenty of space to add a few more pieces of equipment. The park is getting busier and busier!	Park Idea or Comment	6/3/25	36.14641661	-86.78927538
Please make this space part of Metro Parks Department - the community values it and it needs to be maintained properly as a park space for the community. Thank you!	Park Idea or Comment	6/3/25	36.13921837	-86.78958891
Add backcountry camp site(s) in Beaman	Park Idea or Comment	6/3/25	36.25760555	-86.94224087
Please fence in a dog park here. Much needed amenity for the neighborhood and would prevent folks from using the ball fields for their dogs.	Park Idea or Comment	6/3/25	36.18962818	-86.75818295
The playground here is well over due for an update!	Park Idea or Comment	6/3/25	36.18709189	-86.7599011
Anything yall plus MNPS can do to increase shade along the sidewalks would be helpful. A lot of kids walk in this area and it's very hot without shade cover.	Park Idea or Comment	6/3/25	36.14225996	-86.78468726
The golf course is used by just a few people compared to the greater population. It costs too much to mantain. The course should be reduced in sized and be transformed into a park anyone can enjoy.	Park Idea or Comment	6/3/25	36.17938403	-86.72837854
Fence around the playground (particularly the toddler area) for safety. And more shade!	Park Idea or Comment	6/3/25	36.19242769	-86.73966994
Reduce the size of the golf course and open up as a green area for other people to enjoy.	Park Idea or Comment	6/3/25	36.17651352	-86.72940246

The area between Clay & Cass, 14th & 15th has been left in disuse for close to 10 yrs in a neighborhood where the largest green areas belong to a cemetery and the Dominican Sisters. These two blocks could be a lovely park	Park Idea or Comment	6/3/25	36.18434499	-86.80853224
Would love to see this property become part of the Metro Parks system!	Park Idea or Comment	6/3/25	36.13952426	-86.78977122
Some sort of small metro park along the gulch corridor, especially with a little cafe window, would do very well and I would imagine generate a lot of traffic and allow for metro events in the heart of the gulch as so much commercial and residential development continues around here. Otherwise it feels like every building just has its own little roofdeck and pool and people don't meet in community.	Park Idea or Comment	6/3/25	36.15755681	-86.78614383
This would be an amazing park. It has beautiful views of downtown.	Park Idea or Comment	6/3/25	36.17307997	-86.84000795
Please fund the Fort Negley Master Plan implementation! Would be a massive addition in a fast growing part of town.	Park Idea or Comment	6/3/25	36.14596575	-86.7734024
I wish there was a safer way to walk her. Maybe adding more sidewalks to get to the park.	Park Idea or Comment	6/3/25	36.21349985	-86.84415758
If this became a park that would be amazing!! People already come here for the library. Imagine having a beautiful place to read your books or do homework!!	Park Idea or Comment	6/3/25	36.21149827	-86.8377058
I would love to not hear gunshots all the time because of this gun range. It would be amazing if it could be a park one day.	Park Idea or Comment	6/3/25	36.19345669	-86.86770201
Adding Backcountry sites is a super cool idea, it would be a great place to practice before longer trips!	Park Idea or Comment	6/3/25	36.25672429	-86.94207581
Repair tennis courts	Park Idea or Comment	6/3/25	36.18766991	-86.76021294
It might be neat to open up the service roads to gravel biking and (respectful) mountain biking.	Park Idea or Comment	6/3/25	36.261054	-86.90785904
People use this ballfield as a dog park -- can we please make it an official dog park, and maybe expand it a bit?	Park Idea or Comment	6/3/25	36.15350287	-86.86946196
I agree with other comments about expand the use of McCabe. There are some great restaurants nearby. What if we incorporated them into the greenway for a lovely, walkable experience. Go for a walk and stop for some food in the middle!	Park Idea or Comment	6/3/25	36.14287196	-86.85132601
Would love to see a championship level disc golf course developed in Percy or Edwin Warner Park. The space closer to Chickering and North of the golf course provides a very good opportunity for this with a mix of open and wooded land and flat and undulating land. Another good place would be on the west side of the park along Hwy 100.	Park Idea or Comment	6/3/25	36.06086088	-86.87559413

A 9 hole disc golf course would be an excellent way to activate usage of Wentworth Caldwell Park, especially if it is able to utilize the flood-prone parcels owned by Metro Water. The park is in one of most densely populated areas of Davidson County and is typically closed due to past activity of people experiencing homelessness. Disc golf creates consistent activity in park spaces that discourages unwanted activity like "camping."	Park Idea or Comment	6/3/25	36.07753994	-86.72855143
Here and elsewhere, including a much larger area across Richland Creek from England Park, are open green spaces that were flood buyouts. These are ideal locations for community gardens.	Park Idea or Comment	6/3/25	36.11518751	-86.8382626
The topography of this area is ideal for a mountain bike trail. Coordinate with SORBA on an MOU to make this happen!	Park Idea or Comment	6/3/25	36.18899974	-86.65958958
The old Bordeaux landfill is an ideal place for Nashville to build a "bike park" that could feature a cyclocross course, a mountain bike skills course, and a loop for crit races. Walking trails could still crisscross this lovely area.	Park Idea or Comment	6/3/25	36.1695014	-86.84234835
We would love a park in front of the new Donelson library! A great way to engage with the surrounding and growing community!	Park Idea or Comment	6/3/25	36.17024348	-86.66723632
I'd like to see sidewalks along all the roads in Centennial Park so walkers and runners have a place to move, rather than the road.	Park Idea or Comment	6/3/25	36.15056913	-86.81518378
Centennial Park interpretive signage is damaged, outdated, and in need of replacement. Graffiti blocks readability on signs like this around the park.	Park Idea or Comment	6/3/25	36.14963225	-86.81524437
This would be a cool place for some outdoor workout equipment.	Park Idea or Comment	6/4/25	36.11931472	-86.72419343
Would be great to have a little more parking if possible!	Park Idea or Comment	6/4/25	36.11863889	-86.83640134
Add creek access on the Metro flood buy back properties. Many people like to go down to the creek to fish. Having designated access would provide recreational opportunities like fishing and provide more direct access to the water to relax and enjoy nature.	Park Idea or Comment	6/4/25	36.11704232	-86.71297446
The blueway access point could use a lot of activation.	Park Idea or Comment	6/4/25	36.11763979	-86.71945317
This land is central to the Edgehill community. Moving it into Parks ownership will keep it a park, not more urban development.	Park Idea or Comment	6/4/25	36.14123081	-86.78819911
Please consider replacing the aging playground equipment. Or adding shade.	Park Idea or Comment	6/4/25	36.15475908	-86.87085824
Outdoor gym equipment at different spots around the walking path loop. Perfect for parents to use while kids are at the playground.	Park Idea or Comment	6/4/25	36.18125578	-86.76716961
Outdoor gym equipment! Around the walkway or in a specific spot.	Park Idea or Comment	6/4/25	36.18138895	-86.76799205
Would love a single practice disc golf basket in McFerrin Park. Obviously not big enough for a course but it would be cool to be able to practice throws here.	Park Idea or Comment	6/4/25	36.18193112	-86.76679209

I would like to see the golf course made officially available as a sledding area on snow days. The course is a beautiful neighborhood amenity, but it is hardly used at all in winter. Sledding access would give the area a winter use option.	Park Idea or Comment	6/4/25	36.17737378	-86.72911553
The Rosebank playground now has an ADA-compliant access ramp. I hope that new playground equipment is also on its way!	Park Idea or Comment	6/4/25	36.18464331	-86.71894225
This area has been an abandoned concrete slab since I moved here 10 years ago. It would be really amazing to see this space turned into a community garden, or a natural area with some trees and flowers. There are lots of opportunities for this area, I would love to give it back to the earth!	Park Idea or Comment	6/4/25	36.12730235	-86.8044418
There's a desire path here that people have used for years to enter Centennial Park via the 28th Ave Connector. Pave the path and you'll create a connection for 1 City, Sylvan Park and The Nations!	Park Idea or Comment	6/4/25	36.1500449	-86.81772303
There's a desire path here connecting Centennial Park to the sidewalk on Elliston Place. Pave it and encourage people to walk to Centennial! The entrance on West End is unnecessarily dangers with cars turning from every direction at high speeds.	Park Idea or Comment	6/4/25	36.14788088	-86.80889864
Contine to fund the Fort Negley project! It's important that we preserve that history.	Park Idea or Comment	6/4/25	36.14546183	-86.77448585
Neighborhood could really use a playground and/or a dog park. This lot and the parking lot next to it as well as land next to the public health building are all underutilized	Park Idea or Comment	6/4/25	36.12150032	-86.74470887
This entire area deserve a lot more love! More benches, landscaping, and painted sidewalks can increase visibility while attracting people to the area.	Park Idea or Comment	6/4/25	36.13351706	-86.80097675
The neighborhood could really benefit from added programming at Frederick Douglass Park, including another playground near 8th St, a dog park, picnic shelters/shade pavilions, and outdoor fitness pavilion (like at Cornelia Fort).	Park Idea or Comment	6/4/25	36.17862286	-86.76202956
A running track in Shelby Park would be AMAZING.	Park Idea or Comment	6/4/25	36.16834536	-86.7344391
Add shade structures at the Cleveland Park pool. The hours the pool is open are some of the hottest and the concrete surface gets dangerously hot. It makes it an unpleasant experience for when you aren't in the pool or just wanting to hang out poolside, while your kids swim.	Park Idea or Comment	6/4/25	36.18775084	-86.75992908
This land coming into the Skyridge community could benefit from having a small park with a walking trail with fitness stations! It could help preserve the lovely green space as you enter the community while offering those who live just up the road a chance to walk to a greenway/walking trail and improve their overall health!	Park Idea or Comment	6/4/25	36.25097025	-86.76167835
This would be a great park for a nature center! I'd love to learn about everything that lives in and by the lake.	Park Idea or Comment	6/4/25	36.10841935	-86.61875968

Please add a nature center to this park! The wildlife is amazing and there should be a facility to help people get out into nature. I'd love to learn more about the cedar glades in the area.	Park Idea or Comment	6/4/25	36.02417637	-86.61788713
I'd love to see a community center put in around this area	Park Idea or Comment	6/4/25	36.13220238	-86.71769673
The ballfields feel like they need some updates as the condition looks not the best.	Park Idea or Comment	6/4/25	36.18770102	-86.67625383
This area would be great for grassland conservation. Southeastern Grassland Institute (SGI) should be involved	Park Idea or Comment	6/5/25	36.18325272	-86.66173718
A playground here would be perfect	Park Idea or Comment	6/5/25	36.25604258	-86.70940091
Community garden! It would be so cool to have a garden here where people could learn about native gardening, sustainability, growing their own food, and just have a little oasis to sit in. The Master Gardeners program and volunteers could maintain it. It could be like Farm in the City or the garden at the Ellington agricultural center. It would be such a value add!	Park Idea or Comment	6/5/25	36.19124528	-86.6548296
Park or something somewhere in this area, maybe a community garden?	Park Idea or Comment	6/5/25	36.15789046	-86.7874542
Restroom needed at Cornelia Fort	Park Idea or Comment	6/5/25	36.19047431	-86.70404578
Shelby needs a large playground like Mill Ridge - biggest park closest to downtown!	Park Idea or Comment	6/5/25	36.16593248	-86.72901784
new trailhead to connect with the new loops	Park Idea or Comment	6/5/25	36.24367912	-86.90370105
controlled burn regime instead of mowing?	Park Idea or Comment	6/5/25	36.1514003	-86.92738109
Bring ferry back for access to Bells Bend Park on a bike	Park Idea or Comment	6/5/25	36.14406653	-86.89172965
Some kind of public access/park near the river. This would be a huge asset for West Nashville	Park Idea or Comment	6/5/25	36.1677796	-86.85138529
Make one street on East Bank a "park street" that is car-free but not a traditional greenway in that there are restaurants, shops, and other businesses and places to gather	Park Idea or Comment	6/5/25	36.16735348	-86.76872453
Upgrade playground equipment	Park Idea or Comment	6/5/25	36.18477545	-86.71901482
Seven Oaks is underserviced and many of the facilities are outdated. The picnic shelter and playground need to be updated. I would love to see accessible options on the playground. The ballfields are overgrown and upkept. Many individuals use them to let their dogs run. At least one should be converted to a dog park OR a dog park should be added. Better lighting at night is needed. The trash receptables need to be replaced with options for picking up after your dog. I would love a pollinator garden, and new trees planted. Many of the trees are getting old and brittle. I was SO happy to have the pickleball courts added. I would love to see the rest of the park taken care of. Thank you!	Park Idea or Comment	6/5/25	36.1082864	-86.70032092
adding outdoor exercise equipment to the greenway or within shelby park	Park Idea or Comment	6/5/25	36.1660727	-86.72385089
Cornelia fort or shelby would be a great place for a splash pad. A lot of kids in this area, and would bring more people to park in the heat of summer	Park Idea or Comment	6/5/25	36.18843506	-86.7043294
A playground at this entrance would be really nice!	Park Idea or Comment	6/5/25	36.19779928	-86.70231118
Adding more picnic tables would be great for Charlotte Park!	Park Idea or Comment	6/5/25	36.15477212	-86.87119073

Please add a nature center to this park! The wildlife is amazing and there should be a facility to help people get out into nature. I'd love to learn more about the cedar glades in the area.	Park Idea or Comment	6/4/25	36.02417637	-86.61788713
I'd love to see a community center put in around this area	Park Idea or Comment	6/4/25	36.13220238	-86.71769673
The ballfields feel like they need some updates as the condition looks not the best.	Park Idea or Comment	6/4/25	36.18770102	-86.67625383
This area would be great for grassland conservation. Southeastern Grassland Institute (SGI) should be involved	Park Idea or Comment	6/5/25	36.18325272	-86.66173718

Adding more picnic tables would be great for Charlotte Park!	Park Idea or Comment	6/5/25	36.15477212	-86.87119073

The playground at Charlotte Park isn't too bad, but with the amount of kids and families in the area (and moving into the area), I think it could be definitely be expanded.	Park Idea or Comment	6/5/25	36.15432836	-86.86983829
Elmington Park has food trucks on the weekends - it would be great to bring food trucks to Charlotte Park as well, especially on the weekends.	Park Idea or Comment	6/5/25	36.15465626	-86.87165978
Schedule Food Trucks for Charlotte Park and get the word out!	Park Idea or Comment	6/5/25	36.15456881	-86.87171805
Expand and refresh the playground, the community has doubled in population and there are so many kids here!	Park Idea or Comment	6/5/25	36.15421495	-86.86984542
A regular farmer's market would be a fun idea for Charlotte Park (weekly, bi-weekly, monthly - any cadence would work).	Park Idea or Comment	6/5/25	36.15457615	-86.87146525
Repair the west dock. Riverfront needs renovation! Create dock for ferry to connect west side to east side once East Bank is started.	Park Idea or Comment	6/5/25	36.16211881	-86.77315005
Move train station to coordinate better with CHYM spoke so more people can utilize it. Could it go at Rolling Mill Hill?	Park Idea or Comment	6/5/25	36.16215151	-86.77380516
There are batting cages here at the park, but they seem to always be locked up/chained. Are these functioning? Can we get them back up and running or replace them with something more useful?	Park Idea or Comment	6/5/25	36.1544939	-86.87019273
Add a trail along the edge of the lake and tree line to have a more shaded and nature oriented trail in this area.	Park Idea or Comment	6/6/25	36.19440737	-86.69861865
It would be great to add more playground equipment at the airpark	Park Idea or Comment	6/6/25	36.1901124	-86.70375826
I think Mcferrin would be an excellent location for a Dog Park. We have a large number of Neighbors with dogs in walking distance. Some underutilized space in the park, and ample parking for drivers. Please Consider this location or others.	Park Idea or Comment	6/6/25	36.18135358	-86.76699449
This would be an excellent location for a pump track if you ever want to add another option.	Park Idea or Comment	6/6/25	36.18209195	-86.76673507
Add splashpad area to South Inglewood Park	Park Idea or Comment	6/6/25	36.19778896	-86.72723136
The Silo area would be a great place for a park and beautification for this area.	Park Idea or Comment	6/6/25	36.16517059	-86.85101253
One more shelter at Two Rivers would be nice. Using the one by Briley gets in the way of the disc golfers.	Park Idea or Comment	6/6/25	36.18437775	-86.68779428
Love the GROW Enrichment use	Park Idea or Comment	6/6/25	36.1952507	-86.67938906
The new brick mud barrier is great and could be used in other spots, like the mud pit up by the picnic shelter.	Park Idea or Comment	6/6/25	36.19125732	-86.67574059
Would be great to have pathways / area near the playground where kids have a dedicated area to ride bikes, etc	Park Idea or Comment	6/6/25	36.19003023	-86.70331082
Cornelia should have a park cafe and restrooms - the airpark is so heavily used and a place to get a drink and snack on a summer day would be so welcome!	Park Idea or Comment	6/6/25	36.19068483	-86.70358672

This could be such a great community multi-purpose field! I don't know if there is a way to "book" it for an event. The fence needs repair and a small pavilion for shade could make this an awesome, more frequently used space.	Park Idea or Comment	6/7/25	36.12142024	-86.74489403
This is a health clinic that isn't open very often. If it was used for something more regularly, then the bathrooms could be open for the people playing on the field next door.	Park Idea or Comment	6/7/25	36.12239862	-86.74422744
Please fix the tennis courts at Cleveland Park! It has become so difficult to find a free tennis court available in our neighborhood. The two courts available at McFerrin Park are in high demand, as are the Shelby Park courts, so it can be difficult to actually get out and play consistently.	Park Idea or Comment	6/7/25	36.18672731	-86.76057345
take off 9 holes and use the land for more popularly applicable purposes. sports fields, basketball courts, outdoor swimming pool etc	Park Idea or Comment	6/7/25	36.13994579	-86.84718375
Please add at least 2 lighted tennis Courts to this park. Courts are not reservable in this community and availability of the courts in the area can be limited.	Park Idea or Comment	6/7/25	36.22171314	-86.79076843
Please make this a more accessible park with tiered steps to the top of the waterfall, and a deck/bridge at the top overlooking the park, and picnic tables or covered area and garbage cans.	Park Idea or Comment	6/7/25	36.0944636	-86.91308781
It would be fun to add more playground structures along the riverfront park. Can be more nature play-based and such, but some cities have really good downtown playgrounds that can make the areas more family friendly (Louisville and Lexington come to mind but I'm sure there are others)	Park Idea or Comment	6/8/25	36.1637436	-86.77249731
Turn the fountains back on in summer months. Used to be so fun! Otherwise, convert that space into something so it doesn't just look abandoned.	Park Idea or Comment	6/8/25	36.16334142	-86.77217388
Would love to see more trees planted along the greenway and more shaded lawn areas for picnicking and general leisure. Currently most of the green space is in direct sun and specifically for soccer.	Park Idea or Comment	6/9/25	36.12919603	-86.76125229
More baby swings here!	Park Idea or Comment	6/9/25	36.1567106	-86.8550206
Build a primitive trail loop on Cockrill Bend at this park-owned land. Or solicit volunteers to do so. It's around 50 acres and already appears to have a cleared area for parking. It would just need a porta potty and occasional patrol.	Park Idea or Comment	6/9/25	36.17401026	-86.89333343
This park has so much potential. A master plan would be a great first step with the community pool as the centerpiece!	Park Idea or Comment	6/9/25	36.18759532	-86.75998927
Renovate the existing structures at Cornelia Fort including the addition of a restroom, covered picnic area and more playground facilities including a splash pad	Park Idea or Comment	6/10/25	36.190991	-86.70357099
A Bike Rack is greatly needed for the growing crowd at Richland Farmers Market. The rack near the library fits a limited number of bikes.	Park Idea or Comment	6/10/25	36.15153822	-86.84523778
Get some bison out here.	Park Idea or Comment	6/10/25	36.14885168	-86.92883217
New and improved Community Center!	Park Idea or Comment	6/10/25	36.16190604	-86.86221175

The pool could use more attention and longer hours, as well as better communication	Park Idea or Comment	6/10/25	36.18808938	-86.75982757
There's so much green space here we could turn it into a park!	Park Idea or Comment	6/10/25	36.1762127	-86.77155957
This would be a great spot for a dog park. There should be enough space behind the baseball field and would really make it so the entire park is being used.	Park Idea or Comment	6/10/25	36.18976206	-86.75825551
This basketball court badly needs a makeover. The baskets are fine but the asphalt is cracked with holes everywhere. It needs a resurface. Could potentially paint fun things on the court too (Map of the US or tennessee or nashville?)	Park Idea or Comment	6/10/25	36.18750568	-86.7604748
This playground is decades old and needs to be redone like the absolutely wonderful park at McFerrin.	Park Idea or Comment	6/10/25	36.18714906	-86.76010092
These old shuffleboard courts would be a great spot for a pickelball court. It should be big enough and it doesn't need a fence bc it's pickleball and then that would make the tennis court more open.	Park Idea or Comment	6/10/25	36.18699118	-86.76046581
It'd be great to have a little community bulletin board here for information about the park, neighborhood, etc.	Park Idea or Comment	6/10/25	36.18732775	-86.76011932
Please, please, please, fix the tennis courts. they have been unusable for years while McFerrin got resurfaced a year ago.	Park Idea or Comment	6/10/25	36.18673978	-86.76084168
Would be a great spot for a community pool or splashpad	Park Idea or Comment	6/10/25	36.1928782	-86.73951117
The Proctor Barn property could be a great location for small group camping, especially for youth groups, nature clubs, or educational programs. It's a beautiful, quiet setting that could give people a deeper connection to the land and local history. With minimal infrastructure, it could serve as a low-impact, nature-based experience that aligns well with the park's conservation goals. Opening it up for limited, managed camping could bring new life to the space and help more people appreciate this unique part of Davidson County.	Park Idea or Comment	6/10/25	36.24532349	-86.90709844
I agree with another commenter that this area would be perfect for pickleball courts. Either use this area or convert the tennis courts that currently don't have any netting and aren't being used for anything.	Park Idea or Comment	6/10/25	36.18700056	-86.76073438
Would be fantastic to see a renovated clubhouse!	Park Idea or Comment	6/11/25	36.13994407	-86.84270169
Bathrooms PLEASE!	Park Idea or Comment	6/11/25	36.19040643	-86.70358318
Community Pool so needed for the summer in this area. The Y is at capacity and not as accessible for all residents	Park Idea or Comment	6/11/25	36.19764302	-86.7277288
Please plant trees along the perimeter and dog walking path. Highly utilized park and hard to use in summer with kids without any shade	Park Idea or Comment	6/11/25	36.19296606	-86.73911665
Water fountain	Park Idea or Comment	6/11/25	36.19241818	-86.73952123
Maintenance to enable a more usable Multipurpose field - small field soccer, rugby, frisbee, etc	Park Idea or Comment	6/11/25	36.19291496	-86.73937076
Replace playground structure	Park Idea or Comment	6/11/25	36.18708474	-86.76010793

Would be great to have a dog park area - one for small dogs and one for dogs over 25 lbs.	Park Idea or Comment	6/11/25	36.19304273	-86.73969561
There's a large, unused grassy area on the front edge of the cemetery along Andrew Jackson Parkway that locals already use mostly to walk their dogs, through a ball around, etc. Would it be possible to work with the cemetery to turn this area into a park, small dog park, arboretum, community garden, etc? The grass floods pretty badly during heavy storms so an arboretum or community garden could in theory help with stormwater. There's very minimal community space in this part of town!	Park Idea or Comment	6/11/25	36.2233373	-86.59818729
Develop Fred Brake Field into a neighborhood park.	Park Idea or Comment	6/11/25	36.23893462	-86.66370616
The Ross School playground should become a public park.	Park Idea or Comment	6/11/25	36.18009937	-86.74548295
Add 15 acre park next to Cecil ray Crawford park	Park Idea or Comment	6/12/25	36.00095125	-86.63922179
Add multi-use sports fields or soccer fields at Peeler Park, possibly a frisbee disc golf course.	Park Idea or Comment	6/12/25	36.19525857	-86.6592323
Restrooms please	Park Idea or Comment	6/12/25	36.1907529	-86.70314447
Please make this a park and community center! West Meade does not have any neighborhood access to a park, playground, or facility to gather as a community, despite being a group of ~2,000 homes.	Park Idea or Comment	6/12/25	36.11745728	-86.87266843
Burch Reserve is the best kept secret on the west side of town. It's the perfect place for a quick hike. Would love to see a bench added near the Richards Cemetery. Would also love to see some tree identification markers added along the trails.	Park Idea or Comment	6/12/25	36.06896196	-86.90589514
Would love to see a community center in WestMeade at the old Hillwood HS.	Park Idea or Comment	6/12/25	36.11540676	-86.89149422
The fields are already a park. Turn the center building into a library and community center! There is no library on this side of town. It would be amazing!	Park Idea or Comment	6/12/25	36.11776244	-86.87286728
This would be a great location for a community Center. It is a convenient location and the track, ball fields and tennis courts have always had high usage by the neighborhood.	Park Idea or Comment	6/12/25	36.11816529	-86.87310041
Would be a great location for a community center, library, and/or park.	Park Idea or Comment	6/12/25	36.11820255	-86.87329491
This area needs a community center and park. It is accessible by the bus from Harding, maintain this green space for Nashville	Park Idea or Comment	6/13/25	36.1184313	-86.87335067
Would love the old Hillwood High to be a permanent park/library/community center! Our neighborhood is really lacking in this area, and the old school already has a track and baseball fields!	Park Idea or Comment	6/13/25	36.11791538	-86.8730423
Would love to see this become a park or center that is accessible and open to the entire community.	Park Idea or Comment	6/13/25	36.11844973	-86.87251343
Would be great to have a new park here as part of the redevelopment of this property.	Park Idea or Comment	6/13/25	36.15554952	-86.79129525

The west side of metro Nashville needs a library and community center. Hillwood highschool Would be a great opportunity for residents. Not everyone owns a 1 million dollar home. We need resources.	Park Idea or Comment	6/13/25	36.11829886	-86.87285704
Would love if this was a community center with a gym and kid friendly space. A playground is needed in the neighborhood	Park Idea or Comment	6/13/25	36.11853106	-86.87521097
A community center would be amazing here for thr neighborhood! Building, tennis courts, track ,etc are already in place!	Park Idea or Comment	6/13/25	36.11862767	-86.87499583
Please make this a park, without side walks aome of these neighborhood streets are too busy to walk on.	Park Idea or Comment	6/13/25	36.11788342	-86.87335655
I would like a park with a community center and library	Park Idea or Comment	6/13/25	36.11806222	-86.8734902
West Meade is in need of a community center, library, and playground. The infrastructure is already in place with the fields and old high school building. This area should be preserved for our community.	Park Idea or Comment	6/13/25	36.11836203	-86.87426821
Play structure /library would be so beneficial to local kids.	Park Idea or Comment	6/13/25	36.1187599	-86.87370697
Community Center and Library	Park Idea or Comment	6/13/25	36.11796921	-86.87533553
I would love to see this turned into a community center with a park for recreation. Our neighborhood has none of this yet.	Park Idea or Comment	6/13/25	36.11877674	-86.87294842
The High School Property would make a wonderful park and community center for the neighborhood with walking paths, baseball, football/soccer field, tennis, pickleball, and a playground.	Park Idea or Comment	6/13/25	36.11738112	-86.87284176
I always have to drive to other neighborhoods to let my children play. Please save this nice grassy area & provide a playground, bike paths, sports fields, et. Would love to see a local farmer's market operate here. Please preserve this land for park & recreation use as it is much needed in this neighborhood! Thank you!	Park Idea or Comment	6/13/25	36.11938505	-86.87466639
Library park and community center would be so helpful for my small children to use as they grow up!	Park Idea or Comment	6/14/25	36.11736997	-86.87376794
This area is adjacent to metro park. Kids who live nearby play soccer here. It would be lovely to see this property incorporated Parks and maintained as a ball field, with lighting.	Park Idea or Comment	6/14/25	36.19980793	-86.77057266
Parthenon needs Metro Parks-led revitalization in partnership with Centennial Park Conservancy	Park Idea or Comment	6/14/25	36.14975297	-86.81320009
A library in our area and a park with walking trails would add so much to our neighborhood. Please keep the old Hillwood campus a public area for the good of the neighborhood	Park Idea or Comment	6/15/25	36.11832508	-86.87309062
Add more interpretive/historical signage about the history of the airpark! It is a bit hidden as is.	Park Idea or Comment	6/16/25	36.19056806	-86.70347018
Consider improvement plan drafted by Eastwood Neighbors neighborhood association - includes sidewalk suggestions, court suggestions, add bike racks, and other recommendations	Park Idea or Comment	6/16/25	36.19252196	-86.73972886
Better signage (& maps) needed at both entrances	Park Idea or Comment	6/16/25	36.17612745	-86.73713732

Golf courses are often used by community on snowy days. Consider proactive communication before snowy events about what is permitted in the park so neighbors can be respectful and also enjoy the open space :)	Park Idea or Comment	6/16/25	36.17702318	-86.73318487
possibly add signage about geese & how to behave safely around them, haha	Park Idea or Comment	6/16/25	36.17014258	-86.73007525
Information about Cornelia Fort and her story.	Park Idea or Comment	6/16/25	36.19076447	-86.70322348
Plant shade trees near swings. Add more swings for older kids, especially useful for neurodivergent kids who are older and love to swing.	Park Idea or Comment	6/16/25	36.19269647	-86.73919951
Room for at least one pickleball court with a net! Could share fencing with basketball court. Benches around both courts for spectators or people waiting.	Park Idea or Comment	6/16/25	36.19241932	-86.73919951
Convert these decrepit unused tennis courts to pickleball courts (with nets) which could be used by people of all ages and incomes, and a multi-use sports court for sports like roller hockey	Park Idea or Comment	6/16/25	36.18671409	-86.76072303
If no room for a pickleball court than how about a bounce wall like they have at Ravenwood Park? One things kids in urban areas lack is a driveway or wall to practice hitting things against, whether it's paddle sports, lacrosse, soccer, or baseball/softball. It seems like such a cheap, small thing that can be added to almost any community park, regardless the size.	Park Idea or Comment	6/16/25	36.19252021	-86.73916143
We love this park but it is so cut off from greenways and alternate transit routes - please consider adding sidewalks on Dodson Chapel or extending the bike lane on Central Pike to connect this park with Lebanon Pike	Park Idea or Comment	6/16/25	36.17783097	-86.6143041
Connect Flora Wilson Community Park and Plaza via Grand Ave. with some sort of Pedestrian Street or permanent Slow Street w/ traffic control & public art/beautification. Paint crosswalks on Villa Pl and 15th Ave S to connecting the parks to Grand Ave. A small daycare operates on the corner of Grand and Villa so this would make the area safer and also provide connectivity between parks and give more space to pedestrians and cyclists traveling E/W.	Park Idea or Comment	6/16/25	36.14657602	-86.79073314
Great little community park with playground. Would love to see enhancements to the playground.	Park Idea or Comment	6/16/25	36.14646356	-86.78948814
Please make this part of the parks instead of Metro schools! It needs better care.	Park Idea or Comment	6/16/25	36.13892594	-86.78955246
Please stop mowing the milkweed and prairies by the Wetland area. The area should be bushhogged every other year.	Park Idea or Comment	6/16/25	36.17540665	-86.66040481
I love this park, but it would be even better with more trees along the walking path.	Park Idea or Comment	6/16/25	36.09540132	-86.80487775
Add a community pool, ideally indoor and outdoor with lots of free swim days/hours. Example: https://www.wcparksandrec.com/aquatics/pools/franklin_recreation_complex.php	Park Idea or Comment	6/17/25	36.19738846	-86.72725723
This is a great place to open up the Cumberland River to non-motorized water sports.	Park Idea or Comment	6/17/25	36.15789785	-86.7616752

It would be great to update the bigger playground at Sevier Park to include structures and features that appeal to all ages, similar to Dudley Park or Dragon Park. This would allow older children to continue using this space. The smaller playground, closer to the community center could continue to be suited for toddlers/ young children	Park Idea or Comment	6/17/25	36.11933728	-86.78992794
benches need an upgrade, one was broken when we visited recently (between the two entry points that you can access from Sutton Hill)	Park Idea or Comment	6/17/25	36.1136614	-86.77580075
Preserve this natural area now that it is no longer supporting cattle. It is critical habitat and a migratory bird stopover and at risk of development as traffic increases in this neighborhood.	Park Idea or Comment	6/17/25	36.19478295	-86.70168205
Old Farm Pond has old farm equipment in it and water quality is questionable. Can it be restored?	Park Idea or Comment	6/17/25	36.19718005	-86.70215805
Add additional facilities like a tennis court or playground	Park Idea or Comment	6/18/25	36.08955694	-86.67870869
Expand mountain bike trail to allow hikers/runners.	Park Idea or Comment	6/18/25	36.10753089	-86.62044276
expand sand volleyball beyond two courts. plenty of room to add several court addition to accommodate rapidly growing sport	Park Idea or Comment	6/18/25	36.14962116	-86.81676077
expand sand volleyball court offering beyond only 2 courts	Park Idea or Comment	6/18/25	36.17891696	-86.76167673
make the river area desirable to walk and be around. add some sport courts (tennis, sand volleyball, pickleball) along with pathways and lighting so residents can hangout near the river like in Austin	Park Idea or Comment	6/18/25	36.16622346	-86.77605103
More sand volleyball courts are needed to accommodate non league play during the week. Don't make every court league only.	Park Idea or Comment	6/18/25	36.1793684	-86.76160145
More sand volleyball courts are needed to accommodate non league play during the week. Don't make every court league only.	Park Idea or Comment	6/18/25	36.14962962	-86.81648678
Would love to have these lots be designated natural area.	Park Idea or Comment	6/18/25	36.15340693	-86.68250067
Convert 200+ Acre TPS complex to nationally renowned urban state park with beautiful landscaping, amenities including pickleball courts, thoughtful design, cafe etc	Park Idea or Comment	6/18/25	36.13167343	-86.73151403
City State arboretum? Peace park?	Park Idea or Comment	6/19/25	36.17787461	-86.8669817
Add mile markers at each entrance to walking track	Park Idea or Comment	6/19/25	36.0944864	-86.80434196
Pocket park	Park Idea or Comment	6/19/25	36.09907299	-86.79501578
This could be an amazing park if there were updates to the fields, lighting and restrooms. A soccer field would be an amazing addition.	Park Idea or Comment	6/21/25	36.09525114	-86.71442345
We would like to see a park, community center, walking area	Park Idea or Comment	6/21/25	36.12253166	-86.86847091
Playground in Donelson plaza! We have some boring benches that I guess are ART but can we get some SHADE and some play equipment?! Or a splashpad??	Park Idea or Comment	6/23/25	36.16986031	-86.66660369

Since Fifty Forward is kind of a community center here, could a partnership be struck to build some play equipment and benches in the back where they host the Farmers Market? Could it become more of a permanent community hang spot since the transit center is also going to be expanded? Would be awesome. Doesnt have to be big.	Park Idea or Comment	6/23/25	36.16682225	-86.66521974
Could we get some playground equipment or natural playground at this park???? THere's nothing interesting to do or see here and there's not much shade either.	Park Idea or Comment	6/23/25	36.1847031	-86.66651628
Shelby park needs a public swimming pool. As I understand, we used to have one but it was closed in response to desegregation. Time to right that wrong and do well by Nashvillians who live here now.	Park Idea or Comment	6/23/25	36.17169582	-86.73466538
Shelby community center does tremendous work on behalf of kids and adults in the neighborhood. It's time for a major upgrade of the center building itself.	Park Idea or Comment	6/23/25	36.17069562	-86.7349835
Improve community center and add outdoor pool.	Park Idea or Comment	6/23/25	36.16167148	-86.86349087
There is a creek here and a playground would be awesome!	Park Idea or Comment	6/23/25	36.0995984	-86.92851919
We need a park here!	Park Idea or Comment	6/23/25	36.11816012	-86.87301757
This little triangle has a family cemetery. It would be amazing if the greenway foot path was fast tracked.	Park Idea or Comment	6/24/25	36.20616097	-86.77426894
Shade! The sun it burnseses!	Park Idea or Comment	6/24/25	36.11148307	-86.74433912
We need greenway access in Radnor/Woodbine/Glencliff /Harding Placearea. The expansion of 7 mile creek could help this neighborhood	Park Idea or Comment	6/24/25	36.09665105	-86.71566643
Add more sports to this park https://ussquash.org/community/	Park Idea or Comment	6/24/25	36.16055524	-86.8640597
This would be a great spot for a park. Already has tennis and ball fields. Lots of kids in the area. A playground would be nice.	Park Idea or Comment	6/24/25	36.11781694	-86.8731893
We need a new CPAS building and more parking fast!	Park Idea or Comment	6/26/25	36.14868042	-86.81235855
Mill Ridge Park and the Antioch community need a water feature/splash pad. I hope work on this can begin	Park Idea or Comment	6/26/25	36.02525841735	-86.6148364691
Edmondson Homesite - this should be added to Metro Parks and proposed improvements should be funded.	Park Idea or Comment	6/26/25	36.14013189461	-86.7899034349
I want to reiterate: Make the William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements.	Park Idea or Comment	6/26/25	36.13975053214	-86.7895148855
Make the William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements.	Park Idea or Comment	6/27/25	36.13914304200	-86.7898233676

McCabe Golf Course maintenance is woefully lacking. Especially given that McCabe is the most used golf course in Metro, and i actually makes money for Metro Parks...still McCabe gets the lowest, instead of the highest priority. Specifically, the McCabe sand traps are actually dangerous. The weed cloth is at or above the surface of the sand, but also hardly visible. So it creates a hazardous condition where one could break a wrist if your club catches on the cloth.	Park Idea or Comment	6/27/25	36.13732819671	-86.8464722936
This parcel of land is owned by Metro Parks, given to the city by the Frist family. Odd that it's not listed as a park here. It would be nice for this to be developed with a couple of hiking trails that can be reached by the existing greenway along the harpeth.	Park Idea or Comment	6/27/25	36.07382237754	-86.9617302596
Please keep natural. We need the peace & quite of nature!	Park Idea or Comment	6/27/25	36.18772759684	-86.6570232914
Replace the north nine holes of McCabe golf course with a regular park. 27 holes of golf is too many for an urban park. Getting rid of these 9 holes would also let you tear down a bunch of the ugly fencing around the greenway	Park Idea or Comment	6/28/25	36.14270118529	-86.8493031739
Please make William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements. This is an important green space for this community, and an important historical landmark honoring the legacy of William Edmondson.	Park Idea or Comment	6/30/25	36.13891753063	-86.7890122198
Lock One Park should be activated with low safety barriers, like signage and improved railings. Buoys in the water allow for safer riverfront access. A rain garden meadow would be phenomenal. The concrete foundations currently existing would be great spots to grill, study, and gather	Park Idea or Comment	6/30/25	36.19947777612	-86.7877107662
Allow bikes on the wide gravel paths. There are paths as big as a road, but bikes are not allowed.	Park Idea or Comment	6/30/25	36.17133984484	-86.7139174974
I would love to see a walkway through this park. I would love for my kids to be able to bike our scooter along sidewalks within the park. Currently, there are only sidewalks on two side sides of the park.	Park Idea or Comment	7/1/25	36.15148395789	-86.8455382680
Will this ever become a park?	Park Idea or Comment	7/4/25	36.05364055828	-86.6873631727
Connect park to the school with a trail	Park Idea or Comment	7/4/25	36.17587310385	-86.7385641046
The natural trails in this park are in need of some safety upgrades like bridge repairs, trail stabilization, and restoration of the historic spring house and bottling plant. Some of the areas are so overgrown that you can't see what is there.	Park Idea or Comment	7/4/25	36.17612854595	-86.7368494693
Access to Lockeland Springs park from this side of the park, on Forest Ave.	Park Idea or Comment	7/4/25	36.17801713197	-86.7356541107
We have been waiting a very long time for the construction of our new community center in Old Hickory. It will truly fulfill the engagement, community gathering, and activity needs in The Village.	Park Idea or Comment	7/8/25	36.26517252392	-86.6494608311

This area has a concrete slab. It could be renovated into a picnic area with a covering.	Park Idea or Comment	7/8/25	36.25673447789	-86.6525175321
This property is currently owned by Deloitte. Deloitte is interested in selling. This location would be great for a park, community center, walking/fitness trail, and even outdoor amphitheater for community use. There has been a lot of expansion in the S. New hope area and even more starting. These neighborhoods don't have good access to many parks or recreation activities. There are multiple large apartment complexes around this site that are within walking distance.	Park Idea or Comment	7/10/25	36.16793876600	-86.5991010608
Please complete the wonderful Lockeland Springs Park expansion with trails and signage.	Park Idea or Comment	7/11/25	36.17618943432	-86.7370192343
Please add a park concession/cafe by Cornelia Fort. Would be an amazing addition.	Park Idea or Comment	7/11/25	36.18939109167	-86.7027042689
Would love to see facilities at Wasioto Park reopened. Concession stand and info booth have been closed for years. Splash pad hasn't been working since covid.	Park Idea or Comment	7/11/25	36.16355147772	-86.7722615274
This would be a great place for a community garden / cafe similar to Rosendals Trädgård. Have local crops in partnership with local farmers or residents, a cafe with healthy food and drinks, wine on the lawn, etc.	Park Idea or Comment	7/11/25	36.19194714266	-86.6589091247
This would be a great place for a community garden / cafe similar to Rosendals Trädgård. Have local crops in partnership with local farmers or residents, a cafe with healthy food and drinks, wine on the lawn, etc.	Park Idea or Comment	7/11/25	36.19094208029	-86.6507746896
More pickleball courts would be great. Bathrooms would be outstanding. Crossing Charlotte to use the bathroom at McDonald's is not good for anyone. The one port-a-let near the playground/farmer's market area is a little far, often in very poor condition.	Park Idea or Comment	7/11/25	36.15176246663	-86.8430547688
Great place for some pickleball courts! Every time I drive by here on my way to Maryland Farms in Williamson County, I think "this would be a fantastic place for some courts!"	Park Idea or Comment	7/12/25	36.05332751286	-86.8982950212
This park should include a dog park.	Park Idea or Comment	7/13/25	36.27168729560	-86.7421293261
This little park has a serious invasive plant issue! It needs dedicated removal efforts.	Park Idea or Comment	7/13/25	36.17634960522	-86.7371007800
Adding more sports facilities if possible would be great. Not sure there is room but a track or a pool.	Park Idea or Comment	7/14/25	36.16703984145	-86.7291000599
I wish Whitfield Park had restrooms besides a port-a-potty.	Park Idea or Comment	7/14/25	36.06712838373	-86.7397494002
Add a dog park so that leash laws will (hopefully) be observed more often.	Park Idea or Comment	7/14/25	36.19559227523	-86.7283428051
It doesn't show a park here, but Parcel Viewer shows this land is owned by Metro. With how quickly WeHo has been developing, there has been little planning in place for smaller park space within the neighborhood. This corner has already naturally become a spot for owners to take their dogs, so I would love to see it become a more established dog park / or other kind of park amenity for the neighborhood.	Park Idea or Comment	7/14/25	36.14021610955	-86.7722491522

Glad there isn't a dog park eating up space. really wish there was another entrance. Old Hickory Blvd gets so busy	Park Idea or Comment	7/14/25	36.27488543608	-86.7423207465
The Cleveland Park is not easy to get to from this area because of the train track. It would be great to have a community garden or small park on this side of the tracks.	Park Idea or Comment	7/15/25	36.18877242679	-86.7553159386
These empty lots would be perfect for a small park	Park Idea or Comment	7/15/25	36.17115903116	-86.7539734595
We could do SO MUCH hiking and biking and have such better access to the rest of Shelby if this became pedestrian space. During Covid early times we heard from dozens of families how amazing it was to get to walk those hills. While the majority of the neighborhood would be happy to see golf go away entirely, maybe it could be just Sundays? Or a couple days a week?	Park Idea or Comment	7/15/25	36.17813948192	-86.7333965985
Please keep the basketball courts - they're a huge benefit to the park and youth around it.	Park Idea or Comment	7/15/25	36.19282492827	-86.7394913940
This 25 acre parcel is for saie. The community wants it to remain open space with greenway connecting it to Fontanel Greenway. Ideally, there could be a community center on WHites Creek Pike here.	Park Idea or Comment	7/15/25	36.26335935780	-86.8299834094
I would love to have a walkway around the park with benches, pollinator garden, dog waste pickups receptacles, and new trees planted. There are 3 ball fields and one of which is not used frequently & I would love to see that turned into a dog park. The playground equipment is also antiquated and should be updated.	Park Idea or Comment	7/17/25	36.10907267838	-86.7007075808
This park has very little shade. The parks department recently added a concrete slab with a pavilion for shade, instead of adding trees. Residents should be able to walk along the path entirely in the shade. The children's playground needs more shade trees. This should be standard at all parks.	Park Idea or Comment	7/24/25	36.19280608719	-86.7395101405
Put a disc golf course somewhere around here.	Park Idea or Comment	7/24/25	36.05145397651	-86.9060187932
Would LOVE! To see a dog park place where some of the mounted police used to keep their horses at Ellington. There is a lot of pasture lane empty now since they left. Also a great spot to put in a disc golf course!!	Park Idea or Comment	7/18/25	36.06300863679	-86.7435548332
Set this gate with a timer - its almost always locks so the feild are not used - They could be used way more. Also court sports of some kind Futsol, basketball, pickleball	Park Idea or Comment	7/19/25	36.07698563508	-86.7284118479
I know most of this is spillway but it reminds me of Moss Wright Park in Goodlettsville which maintains sections like this and has practice ball diamonds and extra rec space.	Park Idea or Comment	7/19/25	36.06428352074	-86.7399879800
A Nature Playground would fit this Ag Center similar to the ones at Warner and Shelby	Park Idea or Comment	7/19/25	36.06396605147	-86.7457825799
Sprayground	Park Idea or Comment	7/19/25	36.06694021233	-86.7399060716
Splash Pad	Park Idea or Comment	7/21/25	36.15139899639	-86.8427242980
Backstop is great, but pedestrian access and control along 50th and Park is dangerous	Park Idea or Comment	7/21/25	36.15108360308	-86.8469232826
A Nature Playground would fit in nicely and increase the size of the existing Playground.	Park Idea or Comment	7/21/25	36.15180507774	-86.8453795632

Adding a shade structure and boundary from Charlotte Ave and the parking Lot would be helpful and would encourage more use.	Park Idea or Comment	7/21/25	36.15180112106	-86.8456483645
could you install a port-a-potty here, please?	Park Idea or Comment	7/21/25	36.11355332092	-86.7765766206
Improve edge condition of lake	Park Idea or Comment	7/21/25	36.15033804319	-86.8120607103
Complete refresh and enlargement of Riverfront park is much needed	Park Idea or Comment	7/21/25	36.16306320484	-86.77460624
Expand the downtown riverfront park/plaza to the north	Park Idea or Comment	7/21/25	36.16922267963	-86.7778010792
Bathrooms need a major renovation.	Park Idea or Comment	7/22/25	36.16631624645	-86.7280302290
Open bathrooms to the public.	Park Idea or Comment	7/22/25	36.16759568843	-86.7295988220
Open the amphitheater lawn to the public during non-event days/evenings.	Park Idea or Comment	7/22/25	36.15961291576	-86.7713477357
Utilize the infrastructure included for food and beverage in the shipping container located on site.	Park Idea or Comment	7/22/25	36.16106869878	-86.7732275672
Updated signage and maps are needed to be more welcoming to tourists and locals.	Park Idea or Comment	7/22/25	36.05876443557	-86.9437738408
Greenway is not maintained	Park Idea or Comment	7/22/25	36.15023999772	-86.9254683030
A dog park here would be well utilized and good location	Park Idea or Comment	7/22/25	36.18980490658	-86.7581625555
This area is sidewalk accessible and would be a nice park addition to this side of Bellevue.	Park Idea or Comment	7/22/25	36.08326316488	-86.9490769319
We miss the Splashpad. Nashville gets HOT	Park Idea or Comment	7/23/25	36.17032182323	-86.7870588243
Access to outdoor water. I would be over the moon with a barton springsesque option!! or even just an outdoor public pool!	Park Idea or Comment	7/23/25	36.15338920835	-86.8127834993
I'd love to see this parking lot developed into a small park. The area needs more green space and less concrete - there's plenty of parking at the school itself and on street.	Park Idea or Comment	7/25/25	36.12196015707	-86.7448857611
I already commented on this area - but omg a dog park here would be so amazing.	Park Idea or Comment	7/25/25	36.12186892802	-86.7450184376
Install restrooms at this park	Park Idea or Comment	7/25/25	36.11326304019	-86.7770850543
We need more access to outdoor gym infrastructure at trailheads. They are very limited across the city	Park Idea or Comment	7/26/25	36.15780172269	-86.6206883794
This park needs some shade and would be a great space for some new ways for kids to play	Park Idea or Comment	7/26/25	36.05940419714	-86.9375202087
Pavilions should be added for gatherings	Park Idea or Comment	7/26/25	36.18763558475	-86.6520479836
Add several pull outs /picnic areas for kayaking along the rivers	Park Idea or Comment	7/26/25	36.18172312835	-86.6555789283
Would love to see even more trees planted so that the park is enjoyable in the summer. Recently two large trees were taken down and we lost a lot of shade.	Park Idea or Comment	7/26/25	36.20362215225	-86.7589187246
The open fields would be a great place to plant a native prairie with native grasses and flowers. Could be educational showing what the land would look like in its natural state. Also, some trees in strategic places to provide shade would be nice.	Park Idea or Comment	7/26/25	36.18984561217	-86.7006153749
Enhance this arrival at the Park more with structures, kiosks, Programming	Park Idea or Comment	7/27/25	36.08119145230	-86.8688498048
add additional walking/biking connections to Hermitage park.	Park Idea or Comment	7/28/25	36.17714123764	-86.6147033927
Update water fountain to include dog bowl spigot at ground level	Park Idea or Comment	7/28/25	36.19070697992	-86.6468195262
A restroom here would be beneficial.	Park Idea or Comment	7/28/25	36.01235655169	-86.6908650359

It would be nice to connect Peeler park to other greenways.	Park Idea or Comment	7/28/25	36.20221610617	-86.6514292117
Two rivers needs better restroom facilities that are available year-round. Also, it would be nice if the shelters had a water access point to make catering parties easier.	Park Idea or Comment	7/28/25	36.18483415403	-86.6875294656
Add lighted outdoor Pickleball corts	Park Idea or Comment	7/29/25	36.05943252499	-86.9382456658
Acquire more land to expand Beaman Park	Park Idea or Comment	7/29/25	36.25053271131	-86.9259746346
acquire parkland in bells bend	Park Idea or Comment	7/29/25	36.15117046580	-86.9043408958
Acquire land in highland rim for additional regional nature park	Park Idea or Comment	7/29/25	36.30277609821	-86.8370528957
add canoe launch to Whites Creek	Park Idea or Comment	7/29/25	36.20846361701	-86.8297198487
build hiking trails in trininty ridge park	Park Idea or Comment	7/29/25	36.22168354394	-86.7908195344
Greenway systems along mill creek could possibly be expanded to connect with Shelby bottoms which would greatly facilitate safer connectivity to the city from south Nashville.	Park Idea or Comment	7/29/25	36.12277178709	-86.7238978847
Start purchasing land for conservation and future park/rec area. Team up with community & private organizations to co-op land use & maintenance.	Park Idea or Comment	7/29/25	36.30309365337	-86.8373161554
My family spends a lot of time at this park, especially on weekends for the Farmers Market. We would love to see a permanent restroom for the public to use, instead of the portapotties. We usually end up walking to the library to use their restrooms when they're open, but they probably don't appreciate that.	Park Idea or Comment	7/30/25	36.15196338221	-86.8444109011
Please make Hillwood High School a park/library/community center for the West Meade neighborhood!	Park Idea or Comment	7/30/25	36.11803087793	-86.8731347497
Add a community center and park to the Hillwood High School grounds. Co-locating with a library is a great idea.	Park Idea or Comment	7/30/25	36.11780438596	-86.8756397233
Need community park with playgrounds, places for kids to ride bikes and for people to walk, a community center, multipurpose outdoor space for events/ farmers markets/ etc.,Picnic areas, benches, places for people to gather and meet neighbors. Shaded areas for hot days. Water fountains.	Park Idea or Comment	7/30/25	36.11840768454	-86.8756750214
Develop area around old Hillwood High School as neighborhood park or recreation center/library with greenway access across to McCabe Greenway.	Park Idea or Comment	7/30/25	36.11777339943	-86.8732165010
Pocket park somewhere in this neighborhood would be nice	Park Idea or Comment	7/30/25	36.19396432247	-86.7722209760
Dog park?	Park Idea or Comment	7/30/25	36.26596582756	-86.6504012150
would love to see this park activated and made to feel more inviting. More walking paths? gazebo? art?	Park Idea or Comment	7/30/25	36.25652146844	-86.6524569942
Add fitness stations. There are not parks in Bordeaux or nw nashville with outdoor fitness stations like in affluent areas.	Park Idea or Comment	7/30/25	36.21473702939	-86.8438480307
This paved pathway is not continuous. There's a large gap in the middle of the park which gets muddy when it rains	Park Idea or Comment	7/31/25	36.13751689127	-86.7807275041
A new pickle-ball court would be great in this general area	Park Idea or Comment	7/31/25	36.13671511357	-86.7795821631
This covered picnic area is pretty rundown. It could be renovated.	Park Idea or Comment	7/31/25	36.13738972773	-86.7832030514

Please rebuild the West park location to include an indoor track and exercise facility as well as a bigger and more inclusive pottery studio (like it used to have, only bigger and better!)	Park Idea or Comment	7/31/25	36.16189985762	-86.8642576038
Outhouse for hikers	Park Idea or Comment	7/31/25	36.06603084217	-86.8772707315
Outhouse for Mossy Ridge hikers	Park Idea or Comment	7/31/25	36.06601876440	-86.8770856037
Make this a permanent park, currently only a kind of recognized Edmondson Homesite park	Park Idea or Comment	7/31/25	36.13919405272	-86.7896814921
This would be a perfect place to build a progressive Bike Park. Not a pump track, but a series of rollers and jump lines that are progressive and offer something for all skill levels of riders to have fun riding.	Park Idea or Comment	7/31/25	36.19432873183	-86.7021861327
A bike jump line would be a great addition to this park.	Park Idea or Comment	7/31/25	36.16307370493	-86.8001200098
Bathroom access needed	Park Idea or Comment	7/31/25	36.19543782944	-86.6629011965
Bathroom access other than portapotty needed	Park Idea or Comment	7/31/25	36.20141175173	-86.6566243412
Docked bikeshare station needed	Park Idea or Comment	7/31/25	36.14685651224	-86.7757651648
Docked bikeshare station needed	Park Idea or Comment	7/31/25	36.14491260594	-86.7657378302
Docked bikeshare station needed	Park Idea or Comment	7/31/25	36.16414893758	-86.8233336678
Put a traffic garden for kids and beginning bike riders at the flat entrance to the park	Park Idea or Comment	7/31/25	36.18896494941	-86.7040701089
The only accessible entrance this park is through the driveway/parking lot on Colice Jeanne rd. Adding short sidewalk connections to the paved loop inside the park from 70S and Colice Jeanne (by the fire department) would greatly improve access for people walking to the park, especially elderly neighbors and wheelchair users.	Park Idea or Comment	7/31/25	36.07275848665	-86.9339578102
We should convert the area along Cement plant road and the river into a linear park or natural area. This would make the greenway way more usable, allow for mitigation of flood waters during major rain events and discourage camping by the unhoused population	Park Idea or Comment	7/31/25	36.18862161873	-86.7842579928
Metro should commit more funding to the improvement of existing park facilities at Morgan park.	Park Idea or Comment	7/31/25	36.18043756042	-86.7905574181
Preserve natural land and increase connectivity between planned greenways - and actually make the planned greenways in WHites Creek and adjacent areas	Park Idea or Comment	7/31/25	36.24887649041	-86.8649217794
Preserve natural land/trees/hills and make adjacent trails	Park Idea or Comment	7/31/25	36.23506716020	-86.8634728715
These courts are frequently locked, but if they were unlocked I would use them all the time!!	Park Idea or Comment	7/31/25	36.13634052788	-86.8064971343
I play kickball in a league at this park, and I would love to see a water fountain for filling water bottles and drinking on this edge of the park, please.	Park Idea or Comment	7/31/25	36.16263391661	-86.8646380469
It would be great to have a permanent bathroom structure here, instead of just port-a-potties.	Park Idea or Comment	7/31/25	36.14841618789	-86.8133110759
These paths could possibly be repaved soon - they have large cracks/uneven ground within them, so it makes tripping while walking and running very common.	Park Idea or Comment	7/31/25	36.15161954044	-86.8140661663

15 acres adjacent to the Cecil Rhea Crawford Park with its historic schoolhouse are for sale. These need to be purchased and added to the 7-acre Crawford Park to create a passive-use pocket park. Community support for this is great. Local development pressure is great and population who could use this space is quickly increasing. We need more wild spaces. And to keep our wild spaces Wild.	Park Idea or Comment	7/31/25	36.00157398665	-86.6392667055
Cleaning up the West Meade waterfall and adding a small park would be a great idea!	Park Idea or Comment	7/31/25	36.09434106642	-86.9132539655
Purchasing a piece of BHBC's land to construct a small community park across from the fire station would be a great idea!	Park Idea or Comment	7/31/25	36.11706507500	-86.8857795768
Would love to see a splash pad added to West Park. Would also love to see some shade added to playground area	Park Idea or Comment	7/31/25	36.16192965345	-86.8636959115
England park needs bathroom/port-a-potty access. I see people using the creek area as a result.	Park Idea or Comment	7/31/25	36.15641209298	-86.8548669715
Splash pad hours are limited in summer and not practical. Please expand!	Park Idea or Comment	7/31/25	36.16249385913	-86.7994854954
The renovation eliminate the baseball backstop and ballfield. Need to replace that with a workable, multi-use baseball/soccer field	Park Idea or Comment	7/31/25	36.11996032401	-86.7882665219
The proposed park in this area between Amqui Station and Madison Library would serve a large population and be very popular	Park Idea or Comment	7/31/25	36.25725971404	-86.7163438728
A picnic table or something with some shade here at this so underutilized park!	Park Idea or Comment	7/31/25	36.13632530331	-86.8881343325
Consider an additional forest park or open space to be later developed into a Park in this general vicinity.	Park Idea or Comment	7/31/25	36.13165572183	-86.9652840760
Consider land acquisition for a forest park and/or open space in this general vicinity, to be developed for outdoor recreation at a later time.	Park Idea or Comment	7/31/25	36.03884861060	-87.0136925776
Consider land acquisition for a forest park and/or open space in this general vicinity, to be developed for outdoor recreation at a later time. Connect to greenways for access to underserved communities of north Nashville.	Park Idea or Comment	7/31/25	36.30347115914	-86.8348314521
Expand our current forest parks (Warner Parks, Beaman Park) and connect them to each other [including State Park Radnor Lake] and to neighborhoods using greenways and trails.	Park Idea or Comment	7/31/25	36.24650077596	-86.9278713812
Public pickleball courts somewhere in the Fair Park area would be great!	Park Idea or Comment	8/1/25	36.13292273337	-86.7619850438
Wasioto Park is in need of repair	Park Idea or Comment	8/1/25	36.16240354935	-86.7701477437
This playground equipment needs to be updated.	Park Idea or Comment	8/1/25	36.19246875081	-86.7394322425
Would love to have pickleball courts here	Park Idea or Comment	8/1/25	36.19261833601	-86.7392648512
Need dedicated pickleball courts here	Park Idea or Comment	8/1/25	36.19722228471	-86.7274996790
Need dedicated pickleball courts in east nashville	Park Idea or Comment	8/1/25	36.21576326092	-86.7520438131
Turn the north 9 of McCabe into a regular park. It's crazy to have 27 holes of golf in a dense area like this	Park Idea or Comment	8/2/25	36.14336982164	-86.8506664259

GREENWAY IDEAS OR COMMENTS				
Description	Category	Created On	Lat	Lng
Connecting the Richland Creek Greenway would be a benefit to two big neighborhoods and reduce the safety concerns of crossing Charlotte Ave here on bike and foot.	Greenway Idea or Comment	5/25/25	36.15062273	-86.85452052
This area could use a greenway or other pedestrian facility.	Greenway Idea or Comment	5/28/25	36.24820158	-86.734759
Please consider building a new multi-use path from Woodland St to the intersection of Russell St/S 4th St. This new link is in WalknBike. It would link low-income housing to the future high quality Woodland St bikeway and downtown. It would give people walking and cycling to downtown the choice of going via Russell St to/from Warner Elementary and East Nashville as well as Woodland St. The pedestrian desire line is strongly visible in the grass next to the interstate on-ramp already. The basketball court already provides much of the route. A property developer is planning a new building adjacent to the rest of the route, or it could be on TDOT land.	Greenway Idea or Comment	5/28/25	36.17064958	-86.76589965
Please consider a bicycle ferry service between the existing Heartland Park boat ramp and the existing Peeler Park boat ramp. This would fill a Greenway gap without waiting for the huge capital expenditure (thus having lower financial risk) and indicate how much demand there is for such a link, without building a bridge. It could also be operated at times to suit those residents of Neelys Bend who wish to remain isolated, while indicating to them the actual impacts of such a link, possibly relieving (or justifying!) their fears. There are grants for operating ferry services. A bicycle (and thus Pedestrian) ferry could start with just weekend service and then expand to other times if justified. This would hugely increase the use of Peeler Park. It could provide an employment opportunity for a local boatman. A Sunday extension of the No.76 bus down to Peeler Park boat ramp to meet the Bicycle ferry would enable a car-free circular day out, generating no car traffic.	Greenway Idea or Comment	5/28/25	36.1854109	-86.66494579
Add greenway so that we can access and use ENTIRE park!	Greenway Idea or Comment	5/28/25	36.02718067	-86.62453306
Connecting the greenway over or under Charlotte would let people connect to the main loop of the Richland Creek Greenway along 54th Ave which is a quiet street. Ideally we'd connect the full route along the creek but absent that a way to avoid Charlotte Traffic would help the most.	Greenway Idea or Comment	5/28/25	36.15094898	-86.85464671
Once the new belle meade plaza is done, a tiny slice of greenway along highway 100 that connects to Belle Meade Boulevard would provide a reasonably safe route to Warner Park	Greenway Idea or Comment	5/28/25	36.12319927	-86.85089146

I (and a lot of other bikers) would LOVE a way to ride through Radnor Lake without having to be on Franklin Pike. Maybe a foot/bike-only path that connects the east entrance/Otter Creek onto Tyne Blvd? (Or something similar.)	Greenway Idea or Comment	5/28/25	36.06623626	-86.77672761
It would be so amazing to connect these two greenways. It looks like it was planned that way all along. If the greenway in England Park continued along Richland Creek to Sylvan Park, it would greatly expand access for everyone. Folks could travel from Sylvan Park to The Nations and enjoy 51st. And, folks could travel from The Nations to Sylvan Park and connect to an already large greenway network. I could see it being beneficial to so many different kinds of residents and also local businesses. I'd love to help support this!	Greenway Idea or Comment	5/29/25	36.15025878	-86.85458538
There is a great opportunity to add a greenway to connect communities along centennial blvd. The historic silo could be a nice anchor point to the park.	Greenway Idea or Comment	5/29/25	36.16522915	-86.85120445
Golf course would be great walking trail when golfers aren't present. Wish this were allowed	Greenway Idea or Comment	5/30/25	36.17546403	-86.73050635
Bench!	Greenway Idea or Comment	5/31/25	36.20285196	-86.65760453
Bench!	Greenway Idea or Comment	5/31/25	36.21191712	-86.65766677
Bench!	Greenway Idea or Comment	5/31/25	36.21026669	-86.65284145
Focus on finishing the Central City and 440 greenways. And offshoots to under-greenwayized areas. Focus on our Cumberland River banks for greenways while development so ongoing. Encourage all developers to install. Incentives. Work with State to do a greenway along TSU land by river. so Work with Corps of Engineers to get greenways on their lands (lake etc.) Work with TVA to put more greenways on their lands, including under the power lines.	Greenway Idea or Comment	6/1/25	36.23286057	-86.78073381
Coordinate with Army Corps and NDOT to improve access to Percy Priest swimming areas. It is dangerous to bike from the greenway to any of them currently.	Greenway Idea or Comment	6/2/25	36.15886568	-86.62095743
Add a bridge/connector across the river	Greenway Idea or Comment	6/2/25	36.19407404	-86.66150449
I wish this area had an urban greenway that encompassed the 3 schools on The Educational Mole	Greenway Idea or Comment	6/2/25	36.10340594	-86.73476142
IMO, this would be a great area for a giant loop like Cornelia Fort landing strip. Have it run beside the river and past the boat ramp and circle back along the road.	Greenway Idea or Comment	6/2/25	36.1874952	-86.64934857
We would really appreciate more public trashcans on this section of the Greenway! Lots of folks walk dogs and there's only one trashcan, right by the trail entrance by our house, so it gets fully very fast and is quite stinky!	Greenway Idea or Comment	6/2/25	36.13820896	-86.85032049
A formal greenway connecting Lockeland Springs all the way to Shelby without having to trespass through some backyards and technically break golf rules would be wonderful	Greenway Idea or Comment	6/3/25	36.17596509	-86.73572055
Would love to see Davidson turned into a full greenway, which could connect over the pedestrian bridge.	Greenway Idea or Comment	6/3/25	36.1608869	-86.75614857

would be a pedestrian bridge connecting North Nashville to Bordeaux. The city has been talking about a bridge like this, just like the one that connects East Nashville to Donelson, for at least a decade now. Its importance is stressed in the 2017 Walk Bike plan as an integral part of Nashville's pedestrian infrastructure. A pedestrian bridge would be a definite benefit to the area. It would connect this part of Nashville together in a much better way for pedestrians than before. This bridge would serve Nashville by reconnecting communities as Bordeaux and North Nashville have historically been cut off from opportunities and burdened by past infrastructure decisions. Residents in this area of Nashville have less access to medical facilities and economic opportunities, and deal with infrastructure inequities like a lack of bike and walking paths. They also face higher levels of air and noise pollution, and issues with sourcing fresh food. It would also benefit people in other areas of Nashville as it would open Bordeaux up to them, which will become increasingly important as more development is done north of the river. Currently the only crossing for miles in either direction is the Clarksville pike bridge, which is not safe for pedestrians, due to cars traveling very quickly and poorly maintained sidewalks. This pedestrian bridge could also encourage metro parks to work on the long planned greenway connections in	Greenway Idea or Comment	6/3/25	36.18333193	-86.83162322
I hope you all prioritize the Ashland City Greenway connector as it will connect many neighborhoods and parks across bordeaux.	Greenway Idea or Comment	6/3/25	36.20448365	-86.85543712
Second adding a connection across the river here	Greenway Idea or Comment	6/3/25	36.19411857	-86.66124712
Please build a short Greenway connection under the road here along the track so we can safely get to the wego station from the neighborhood	Greenway Idea or Comment	6/3/25	36.16763193	-86.66722367
The population in this area is exploding and will continue to do so. Consider building a Greenway under the power line easement that connects with the existing whites creek Greenway to give people on this corridor safe access to recreation.	Greenway Idea or Comment	6/3/25	36.20829845	-86.81150791
Ascend should not be allowed to block the greenway when shows aren't happening. The signs in this park show it should be open but it never is.	Greenway Idea or Comment	6/3/25	36.15983518	-86.77091204
The pedestrian bridge needs some landscaping. It's a great piece of infrastructure but also a concrete wasteland. Why not plant some trees and other greenery?	Greenway Idea or Comment	6/3/25	36.16197015	-86.77235178
Bikes should be allowed on the unpaved trails in Shelby. There are many pedestrians on the greenway, and many bikes are capable of traveling off of pavement these days. The unpaved trails are wider and less populated than the greenway	Greenway Idea or Comment	6/3/25	36.18949672	-86.69587526
Would love to be able to walk here when golfers aren't present!	Greenway Idea or Comment	6/3/25	36.17416183	-86.73295316
Would be a wonderful area for a greenway. Woodland has so much potential to bring pedestrians and cyclists and support the businesses!	Greenway Idea or Comment	6/3/25	36.17625989	-86.75335942
Lights on the greenway would be great.	Greenway Idea or Comment	6/3/25	36.14494865	-86.84985781

add separate/parallel pedestrian/bike path along davidson street	Greenway Idea or Comment	6/3/25	36.16431864	-86.73915837
Would be really nice to have more trashcans along the Greenway. It may encourage people to actually clean up after their dogs	Greenway Idea or Comment	6/3/25	36.1402467	-86.8422441
A Greenway near the elementary school could increase the number of walkers as there are no sidewalk connections to the school.	Greenway Idea or Comment	6/3/25	36.21237782	-86.86644733
Can we get a residential bike route/lane that isn't connected to a busy road? Such as Fairway - Woodberry - Lakeland - Ironwood - Ebony. This route would create a safer alternative to those of us who want to commute within Donelson via bike to a greenway but don't want to ride on busy streets like Donelson and McGavock.	Greenway Idea or Comment	6/3/25	36.15586129	-86.65826653
Looking forward to when this part of the greenway is created!	Greenway Idea or Comment	6/3/25	36.16453316	-86.65950509
Bridge to connect to already existing greenway	Greenway Idea or Comment	6/3/25	36.19404304	-86.66105098
"River to Radnor"-- here's your tag line for a visionary greenways project. Let's connect Nashville's lowest point of elevation to its highest point of elevation. Our very own sea to summit. Radnor is incredible by foot or bicycle for the average resident. Let's change this!	Greenway Idea or Comment	6/3/25	36.05648418	-86.79796
I agree with the other comment about a pedestrian and bike friendly bridge or improvements to the existing one.	Greenway Idea or Comment	6/3/25	36.18413491	-86.83133886
Awkward transition on Greenway coming downhill and curvy into the historic site and Broadway area if on a bike. The Greenway merges into the brick paved historic site, busy pedestrian sidewalk area, and traffic light. Lots of street light poles and street trees to navigate in addition to people on foot. No easy transition to the street due to curb.	Greenway Idea or Comment	6/3/25	36.16494841	-86.77585981
Greenway running down Belle Meade Blvd to connect Nashville to Warner Parks. Connectivity between parks and accessibility for all Nashvillians is more important than BM residents' desire to keep out all outside walkers and bikers. Their latest ordinance to ban bike/ped infrastructure and sue the city has no place in Davidson County. Warner Parks are for all Nashvillians. The streets of Davidson County are for all Nashvillians.	Greenway Idea or Comment	6/3/25	36.09386211	-86.85688535
Greenway entry is not accommodating to bikes due to curb and fountain.	Greenway Idea or Comment	6/3/25	36.1796114	-86.79073775
Please add (more) pickball courts and a running track/more walking trails. Would be so great.	Greenway Idea or Comment	6/3/25	36.26553688	-86.70077484
Would be great to see Richland Creek greenway towards the Nations connected to McCabe trail!	Greenway Idea or Comment	6/3/25	36.14703357	-86.85466365
Expand Browns Creek Greenway - connect Fair Park segment to Brown's creek park and continue to expand greenway to the north east.	Greenway Idea or Comment	6/3/25	36.12605937	-86.76775697
440 Greenway in South Nashville	Greenway Idea or Comment	6/3/25	36.12443815	-86.74295875
Would love to see this greenway extension between existing 440 trail and Capitol View! This would also increase connectivity to Centennial Park from West & North Nashville neighborhoods.	Greenway Idea or Comment	6/3/25	36.15263855	-86.82158872

Collaborate with Radnor yard to develop a rail trail/greenway path adjacent to the rail yard connecting berry hill to Crieve Hall area.	Greenway Idea or Comment	6/3/25	36.09256597	-86.75550147
Hardening the Harding X Belle Meade Boulevard intersection would be really helpful for connectivity to Warner Parks for bikes/peds. There really should be greenway on the whole of Belle Meade boulevard as well. Crazy that we let a satellite city with exclusionary zoning gatekeep this core city asset!	Greenway Idea or Comment	6/3/25	36.11930048	-86.85514245
This greenway has been planned for years and is absolutely crucial to bike/ped connectivity on the west side to downtown. We really need to make this happen!	Greenway Idea or Comment	6/3/25	36.15049447	-86.82175043
I have never felt threatened along this stretch, including when I have cycled here near dusk. People keep to themselves.	Greenway Idea or Comment	6/3/25	36.19028863	-86.78419364
Additional shade coverage along this greenway would make it much more pleasant to ride/walk in the hotter months. The little shade stations are great but some trees would be awesome.	Greenway Idea or Comment	6/3/25	36.19953278	-86.81471678
Please extend this greenway! It is so popular and a much needed green space in South Nashville! Please connect it to the library down the street and the soccer fields closer to nolensville!	Greenway Idea or Comment	6/3/25	36.06578063	-86.7396383
Unfortunately most of the unpaved trails at Shelby are fringe wetlands with moist soils that are subject to significant rutting and damage if bicycles were allowed access. Bicycling may be okay in the Autumn dry season but would become an issue in wetter parts of the year, therefor cycling should continue to be prohibited on all unpaved paths.	Greenway Idea or Comment	6/3/25	36.18944438	-86.695708
Please add back access to the Hope Park Mountain Bike Trails, these are still here in back of the high school but can't be accessed.	Greenway Idea or Comment	6/3/25	36.07797069	-86.97942596
There would be overwhelming, positive support for this Cooper Creek Greenway.	Greenway Idea or Comment	6/3/25	36.21212261	-86.71655033
This greenway is great, but for the vast majority of Bellevue you have to drive to get to it due to the lack of sidewalks and the choke points at the river/railroad. I live less than a mile away and still have to drive to access.	Greenway Idea or Comment	6/3/25	36.05910969	-86.94513624
Please prioritize this greenway connection!	Greenway Idea or Comment	6/3/25	36.19718951	-86.69143164
I would love to see long term planning to connect this connector to the existing ten mile long greenway in Ashland city. This would give Nashville a world class cycling destination similar to the Silver comet trail in Atlanta.	Greenway Idea or Comment	6/3/25	36.21238761	-86.97647949
I would love to see this greenway connection prioritized. There are no sidewalks in the surrounding neighborhoods and dangerous roads separate them from the existing greenway. This connector would allow people to walk to the park instead of drive.	Greenway Idea or Comment	6/3/25	36.2178988	-86.84938856
Please connect this in progress greenway to beauna vista pike to make accessing it from Haynes manor easier.	Greenway Idea or Comment	6/3/25	36.21731752	-86.82086833
+1 for a 440 greenway or connecting woodbine to other planned greenways	Greenway Idea or Comment	6/3/25	36.12323029	-86.74183924

I wsh there was a more direct way to access the pedestrian river bridge from the airpark. The current route is extremely indirect, and I would walk to 2 rivers from here more often if it wasn't like an extra 3 miles round trip to go all the way around the riverside greenway.	Greenway Idea or Comment	6/3/25	36.19092212	-86.69603274
+ 1 to the request for a bathroom. There is already a building an plumbing here, TONS of families use the airpark on weekends (its awesome!) and would benefit from there being a real bathroom here.	Greenway Idea or Comment	6/3/25	36.19038768	-86.70420686
Another vote to build this greenway ASAP. The North Inglewood community currently struggles to access greenways because of the distance and danger of roadside walking with no sidewalks here.	Greenway Idea or Comment	6/3/25	36.21142922	-86.71575684
In other cities I've observed greenways with a line striped down the middle which help to direct two-way traffic. I believe this would help prevent a lot of speed/user conflicts on the greenways between e-bikes, cyclists, walkers, runners, etc. It would help remind people to stay 2-people width (side-by-side) rather than stretching across the greenway.	Greenway Idea or Comment	6/3/25	36.19263392	-86.6914423
Prioritize this connection!! So crucial!	Greenway Idea or Comment	6/3/25	36.19448625	-86.65712617
Connection under the bridge to the WEGO Star and bus station and then clear bike lanes to the nearest Greenway access point.	Greenway Idea or Comment	6/3/25	36.16772541	-86.66731676
Continue to expand and/or connect this greenway to the other greenways on this side of town. Add signage to the on-road bike lanes that direct bikers to the next section of the greenway.	Greenway Idea or Comment	6/3/25	36.18154662	-86.82449536
Would love to see more gravel or paved walking paths at this park, which is largely mowed areas.	Greenway Idea or Comment	6/3/25	36.09572905	-86.71360646
No sidewalks or paths along this road and dark at night - would be great to connect Andrew Jackson Blvd with Old Hickory.	Greenway Idea or Comment	6/3/25	36.19368262	-86.61097444
Connect this greenway to the Harpeth River and Riverwalk greenways	Greenway Idea or Comment	6/3/25	36.06895038	-86.97683408
Extend the Harpeth River Greenway eastward along the Little Harpeth through the parks and create a new trailhead with good parking east of Vaughn.	Greenway Idea or Comment	6/3/25	36.0514056	-86.91641463
Connect "orphaned" sections of Mill Creek Greenway to create contiguous network.	Greenway Idea or Comment	6/3/25	36.11495145	-86.71316505
Pave access from the greenway to the bikelane on Ashland city. There is already a desire path cut through here, but it is often full of poison ivy.	Greenway Idea or Comment	6/3/25	36.206357	-86.85481879
Add dividing lines so people understand the paths are bidirectional.	Greenway Idea or Comment	6/3/25	36.16566801	-86.72381209
Create a paved path to connect the north end of Cornelia Fort to the northern greenway	Greenway Idea or Comment	6/3/25	36.19293117	-86.69652935
Please connect the England Park and West Park Greenways!	Greenway Idea or Comment	6/3/25	36.15927406	-86.86411519
Pedestrian/bike bridge across the Cumberland to connect to Bell's Bend	Greenway Idea or Comment	6/3/25	36.14358612	-86.89084747

Please make this happen, it is a significant connector for a a large community which has been historically underinvested and which has a 30+ minute walk to access parks on streets that are in many cases without sidewalks, a need to go over railroad tracks without safety features and/or poorly designed streets with speeding traffic.	Greenway Idea or Comment	6/3/25	36.1609289	-86.80811832
What is the timing on this? I have seen no info on this, live near it, and would love to see it happen to gain access to a network or parks and facilities without needing a car.	Greenway Idea or Comment	6/3/25	36.16647343	-86.81032348
It would be nice to be able to ride my bike to the mall	Greenway Idea or Comment	6/3/25	36.19669937	-86.69109495
Are we allowed to use the paved roads as greenways to walk/exercise? It's unclear. Is it safe for kids? Clearer signage would be helpful	Greenway Idea or Comment	6/3/25	36.17730178	-86.72790649
North Cumberland Greenway Trail opposite the existing greenway	Greenway Idea or Comment	6/3/25	36.20349221	-86.80816974
Please make this Charlotte RwT happen. The connectivity from 440/Centennial and at this point to the Gulch greenway will open up so much of town via greenway, as well as provide the underinvested neighborhoods it passes through with natural spaces options.	Greenway Idea or Comment	6/3/25	36.16670441	-86.79633368
Would be great to connect these greenways.	Greenway Idea or Comment	6/3/25	36.14898861	-86.85523268
Excited to see Wharf Park come to fruition someday!	Greenway Idea or Comment	6/3/25	36.15771845	-86.76320695
I agree with some of the nearby comments, I think this space along the river is currently underutilized and could be a great greenway and improve foot traffic for local businesses along centennial	Greenway Idea or Comment	6/3/25	36.16515361	-86.8511515
I definitely agree with the paved access point!!	Greenway Idea or Comment	6/3/25	36.20639778	-86.85469863
I agree	Greenway Idea or Comment	6/3/25	36.20446071	-86.85529944
It would be amazing to have another pedestrian bridge to connect our side of town to downtown!	Greenway Idea or Comment	6/3/25	36.18287168	-86.83222846
Please build the Opry Connector-or at least provide updates through local media.	Greenway Idea or Comment	6/3/25	36.19029521	-86.68902634
I really hope this happens because it will give my family a safer way to get to the rest of the Greenway!!	Greenway Idea or Comment	6/3/25	36.21815977	-86.849463
At the moment I do not feel comfortable for my son's to walk to school. If there was a Greenway that went by the elementary I would feel so much better with them being walkers!!	Greenway Idea or Comment	6/3/25	36.21296186	-86.8664521
The more access points that you give a greenway or a park the more likely it is for people to walk or enjoy the beautiful scenery. Especially if it is a walkable area.	Greenway Idea or Comment	6/3/25	36.21722919	-86.82106649
This area is beautiful. Please make build a Greenway through here before it all gets developed.	Greenway Idea or Comment	6/3/25	36.19152697	-86.84844194
The other comment suggested a bridge, but what about a bike/ped ferry that runs on Saturdays? It could be an homage to the ferry that ran here till the 90s. It would significantly increase the number of people who go to bells bend too.	Greenway Idea or Comment	6/3/25	36.14314147	-86.89088394

A Greenway or off street connection from the future Riverside project to Hartman park utilizing metro owned would give potentially thousands of people safe access to existing parks.	Greenway Idea or Comment	6/3/25	36.20338951	-86.8209794
Currently people coming from the south are forced on to large roads and have to cross woodland and Jefferson. Prioritizing a Greenway connection here would allow people to move through the area far more safely.	Greenway Idea or Comment	6/3/25	36.17088384	-86.77630007
Expand this greenway.	Greenway Idea or Comment	6/3/25	36.06563277	-86.74022282
I love these ideas and think a ferry or pedestrian bridge would be AWESOME. I love Beaman and Bells Bend Parks and live in Charlotte Park, so this would mean such easier access to those two spots!	Greenway Idea or Comment	6/3/25	36.14331356	-86.89075391
Please connect the England Park greenway to the Sylvan Park/Richland greenway safely!	Greenway Idea or Comment	6/3/25	36.1506211	-86.85483766
I would love for Granny White to be more walkable.	Greenway Idea or Comment	6/3/25	36.05661961	-86.8169087
Add a path/sidewalk along this brook on Curtis Wood. Also add a path/sidewalk on Glendale Lane and connect the two.	Greenway Idea or Comment	6/3/25	36.09447896	-86.77861266
Add bridge/greenway across Seven Mile Creek to help activate publicly owned land along Milner and better connect residents to the park.	Greenway Idea or Comment	6/3/25	36.07646934	-86.72920287
Expand Seven Mile Creek Greenway to Old Hickory Blvd.	Greenway Idea or Comment	6/3/25	36.0456039	-86.74560303
Bike Lane/Greenway along Granny White to connect A fantastic natural resource like Radnor Lake to public transit.	Greenway Idea or Comment	6/3/25	36.07782407	-86.80593364
Build the bridge!	Greenway Idea or Comment	6/3/25	36.19387672	-86.65937419
This greenway should be a priority! Cooper Ln, seeing a lot of pedestrians, and regular access points along here, could significantly improve Shelby Park access and access for people who walk to the bus stop.	Greenway Idea or Comment	6/3/25	36.20432762	-86.70987348
I am always a little nervous about passing under this overpass and behind the Parks facilities-- it's not well-traveled and there is not good visibility around the turns to know if fast bikes or people are up ahead. I wonder if some mirrors would help see what is up ahead.	Greenway Idea or Comment	6/3/25	36.14760386	-86.82225089
Large sidewalks are essential!!! Bikepaths, sidewalks would be preferred to car access-- at this point it's like frogger.	Greenway Idea or Comment	6/3/25	36.16427762	-86.73804703
Would love to see an improved way to connect from the train/bus station to the near by Greenways. Possibly an elevated walk way to cross Lebanon pike	Greenway Idea or Comment	6/3/25	36.16792889	-86.66740954
A 440 greenway in woodbine!	Greenway Idea or Comment	6/4/25	36.12464964	-86.73782465
There is a lot of trash stuck in this river.	Greenway Idea or Comment	6/4/25	36.11827008	-86.72169168
Extend the Whitsett Park Greenway! Metro already owns the land, plus there are several Metro flood buy back properties across the creek. This would be a major connecting point for the neighborhood and a regional asset for South Nashville.	Greenway Idea or Comment	6/4/25	36.11631966	-86.71426926
It would be nice to pave this trail to ease the congestion on the parallel trail.	Greenway Idea or Comment	6/4/25	36.17675943	-86.70752725

This greenway entry point feels very dark and unsafe. As a woman I do not feel that I can use it alone.	Greenway Idea or Comment	6/4/25	36.1534761	-86.85421412
Please properly connect this to McCabe park	Greenway Idea or Comment	6/4/25	36.15216545	-86.85476084
The connection to Opry mills should be a priority!	Greenway Idea or Comment	6/4/25	36.19534548	-86.69023866
Bikes should be allowed on unsaved trails, cyclists avoid wet offroad riding by default so thats not really an issue. If people would like fewer bicycles on these trails specific facilities for cycling (mountain bike trails) would draw more cyclists in to those facilities leaving these trails less busy.	Greenway Idea or Comment	6/4/25	36.18939555	-86.69524561
You should replace the gate here with retractable bollards so bicycles and pedestrians can get through safely.	Greenway Idea or Comment	6/4/25	36.14810303	-86.80914495
This intersection is very dangerous for pedestrians and cyclists! There needs to be more visibility and landscaping, maybe even a single planter, to create more driver awareness of this Greenway.	Greenway Idea or Comment	6/4/25	36.13998483	-86.82380764
The crosswalk connection from the Gulch Greenway crossing into the bike lane is extremely dangerous. Vehicles almost never stop - there needs to be a red light for pedestrian crossing, not just a flashing yellow.	Greenway Idea or Comment	6/4/25	36.15961787	-86.78838555
This turn is extremely sharp and novice cyclists who aren't prepared for the turn are at risk for spilling out. It would be smart to put a sign 10-15 feet before warning cyclists of the sharp turn.	Greenway Idea or Comment	6/4/25	36.15991658	-86.78773943
The original pedestrian bridge designs clearly stated that the center lane is a bicycle lane - however no signage indicates that. I've had tourists yell at me for riding my bike over the bridge! There needs to be more signage so Music City's guests are aware of cyclist traffic over the "pedestrian" bridge.	Greenway Idea or Comment	6/4/25	36.16141453	-86.77317004
This part of Davidson Street desperately needs protection! When this was open, runners, cyclists, and traffic were all intermingling any day of the week and it's shocking that something bad hasn't happened yet (that I know of)	Greenway Idea or Comment	6/4/25	36.16411248	-86.73980769
A pedestrian/bicycle friendly bridge connecting to North Nashville would be an easy way to connect so much of the city. Please consider starting this ASAP!	Greenway Idea or Comment	6/4/25	36.18381358	-86.8308374
I agree with the ideas for more shade along this Greenway! I also think there's an opportunity to add more signage and education about the Cumberland River to attract more of our out-of-town guests to that route. It's currently closed towards downtown, but once it's open it creates a perfect route to explore Germantown, Metrocenter, and Jefferson Street. With a an absolutely stunning view!	Greenway Idea or Comment	6/4/25	36.20140109	-86.80671224
We need connecting greenway or bike paths to come out of the neighborhood and get to other points of access. how about down to the river and across to other greenways.	Greenway Idea or Comment	6/4/25	36.12369606	-86.73679922
Very strong support for prioritizing the building of the Mill Creek Greenway.	Greenway Idea or Comment	6/4/25	36.1238983	-86.72394462

The Cooper Creek Greenway is a must! Connecting North Inglewood to the rest of the Greenway system creates a huge link between communities.	Greenway Idea or Comment	6/4/25	36.2071533	-86.71286161
Connecting the middle school to the greenway network would give teachers and students another way to get there.	Greenway Idea or Comment	6/4/25	36.19600127	-86.83825926
Please build connections to both sides of Clarksville pike at the bridge. This would allow people to safely access business in the area from the greenway, and for people to safely cross under the road.	Greenway Idea or Comment	6/4/25	36.20558207	-86.84028159
Would be great to see this greenway extended so that people can access much closer to I-40 exit.	Greenway Idea or Comment	6/4/25	36.07474033	-86.95614939
Please connect the pieces of the Mill Creek greenway and add access points to the neighborhood.	Greenway Idea or Comment	6/4/25	36.10760389	-86.70981955
It would be great if this greenway could be extended down Coley Davis and under the I-40 bridge over the Harpeth River to connect to Lawson High School.	Greenway Idea or Comment	6/4/25	36.07740182	-86.96188757
Would love to see the Greenway safely cross Stewart's ferry either here or at blue ridge	Greenway Idea or Comment	6/4/25	36.15728095	-86.63713643
a greenway to connect Green Hills to Sevier Park would be ideal here and would create a connection to safely travel downtown by bike	Greenway Idea or Comment	6/5/25	36.10769078	-86.79392405
How can we connect the park to Donelson's main area so we don't have to go all the way to target on the greenway to go to it...	Greenway Idea or Comment	6/5/25	36.17151436	-86.66212512
Shelby Bottoms Greenway maps are way outdated.	Greenway Idea or Comment	6/5/25	36.16679544	-86.72488753
ought to repair this boardwalk someday	Greenway Idea or Comment	6/5/25	36.17763075	-86.63854918
this greenway connection would be invaluable, please prioritize	Greenway Idea or Comment	6/5/25	36.15940344	-86.81004411
Improve crossings on West End for access into Centennial. It is very hostile trying to access the park from south of West End on foot or bike	Greenway Idea or Comment	6/5/25	36.14619294	-86.80993271
The airfield would be a great place to add a large loop around the perimeter with soft surface (crushed gravel or mulch)	Greenway Idea or Comment	6/5/25	36.1897177	-86.70111631
Greenway access from this neighborhood and its parks can be difficult and unsafe due to traffic and shared bike lanes. It would be great to have a trail in the neighborhood that connects to others!	Greenway Idea or Comment	6/5/25	36.18755619	-86.76325255
Add some places where people can physically interact with the water.	Greenway Idea or Comment	6/5/25	36.16521557	-86.72320261
It would be great for the planned Pennington Greenway to have a branch (or sidewalks) that connect it to the Opry Mills greenway from Pennington Bend/McGavock instead of having to go in the opposite direction to get there. There are partial sidewalks on the way there, but nothing that connects fully.	Greenway Idea or Comment	6/5/25	36.22609397	-86.68838342
Trailhead needs a bathroom	Greenway Idea or Comment	6/5/25	36.19723164	-86.70266003
Would love more paths (paved or unpaved) actually in the Sones River Bend Park	Greenway Idea or Comment	6/5/25	36.1888119	-86.65175238
Re install the rental e-bikes	Greenway Idea or Comment	6/5/25	36.16712409	-86.72498026
Clean up the bank and create a nice greenway (not just sidewalk) beside the road.	Greenway Idea or Comment	6/5/25	36.16652426	-86.77582369

Run greenway further west along the Cumberland	Greenway Idea or Comment	6/5/25	36.13502811	-86.90998926
Add a greenway under the powerlines running through this part of town	Greenway Idea or Comment	6/6/25	36.18847162	-86.72014757
There are no sidewalks on this part of OHB nor is there a shoulder. Though parks are close, they are inaccessible except by car. Put in a sidewalk to connect CPA school to the Warner Parks at the baseball and softball fields with a paved connection also to Harpeth Greenway.	Greenway Idea or Comment	6/6/25	36.05156527	-86.88624274
I would love to see this greenway get expanded significantly. There's no long walking/running trails in north Davidson county and it would be incredible to get a few miles of running in here without having to do dozens on laps on the existing small walking path.	Greenway Idea or Comment	6/6/25	36.33757891	-86.86020809
We desperately need more greenway space in the northern most portion of Davidson county. Can we figure out how to connect Joelton community park to paradise ridge park?	Greenway Idea or Comment	6/6/25	36.31674091	-86.87075912
Better signage here. Maybe a greenway map! I used to feel lost at this point.	Greenway Idea or Comment	6/6/25	36.190774	-86.69203045
Connect planned greenway to Donelson neighborhoods via Gaylord Golf Course access point.	Greenway Idea or Comment	6/6/25	36.20830437	-86.67821358
Add a PAVED greenway to use this entire space	Greenway Idea or Comment	6/6/25	36.02769087	-86.62651699
I feel like Mill Creek is a great area for a greenway to serve South Nashville! If there were sidewalks an/or traffic calming on Glenrose, then Woodbine would be able to access without cars.	Greenway Idea or Comment	6/7/25	36.11728116	-86.72096809
A sidewalk and bike lane would provide the last bit of dedicated connection of the Cumberland River Greenway to the 440 Greenway. This would allow you to be on sidewalks and greenways all the way from McCabe Park to Centennial Park to Cumberland Greenway and Downtown.	Greenway Idea or Comment	6/7/25	36.14972518	-86.8180132
Love the trail! Wish it was better marked and maintained.	Greenway Idea or Comment	6/7/25	36.03118961	-86.63257991
Trails or hikes on the north side of Percy Priest	Greenway Idea or Comment	6/7/25	36.15565107	-86.62066769
Crossing Charlotte pike at the greenway here is dangerous and could use pedestrian /traffic protection	Greenway Idea or Comment	6/8/25	36.15092755	-86.85466436
This loop is not shown on the Greenway map at the park. There is a small connector trail that needs to be improved and this paved loop looks to be overgrown.	Greenway Idea or Comment	6/8/25	36.25423603	-86.82702664
It'd be great to have a true access point down to the creek for kids to explore and people to soak their feet after a walk.	Greenway Idea or Comment	6/8/25	36.25823257	-86.82771873
It'd be great if Metro could acquire rights to this trail. It's a great resource right off an existing greenway, but does need a good bit of maintenance.	Greenway Idea or Comment	6/8/25	36.2576998	-86.82539565
Connecting Browns Creek Park greenway to Fair Park would help to make South Nashville safer and more enjoyable for walking, running, and biking.	Greenway Idea or Comment	6/9/25	36.12140598	-86.77260387

Prioritize completing the Brown's Creek greenway, expanding from the current sections at Brown's Creek Park and Fair Park. Much of the land surrounding is prone to flooding, so this would be a great usage of land and improve access to parks and connectivity in south Nashville.	Greenway Idea or Comment	6/9/25	36.14006731	-86.75838052
Cockrill bend provides stunning views of bells, bend across the river, planes taking off and landing, and wildlife in the fields and forests. This would be a perfect place for a Greenway or bike lane. I know a number of people who enjoy riding their bike and/or running on Cockrill bend, but there is very little shoulder much of the way and it can sometimes be hazardous.	Greenway Idea or Comment	6/9/25	36.17170774	-86.88673443
Would like to see Greenway extended all the way around Percy Priest Lake, particularly the east side connecting through Cook Rec Area. West side of lake is violent and dangerous so forget it.	Greenway Idea or Comment	6/9/25	36.1599369	-86.61559633
Relocate greenway closer to river even if flooding happens it will be a more enjoyable experience 99% of the time. Also plant mature trees to line the greenway and provide shade.	Greenway Idea or Comment	6/9/25	36.19978914	-86.79308291
Add more trees along path	Greenway Idea or Comment	6/10/25	36.15439602	-86.8693306
As greenway along cockrill bend would be a boon for all cyclists in nashville	Greenway Idea or Comment	6/10/25	36.17392545	-86.8892526
Connect the trail here with a gravel path	Greenway Idea or Comment	6/10/25	36.16187446	-86.86575035
Buy land in this area, between Poplar Creek and Morton Mill Rd, to expand greenway from Morton Mill Rd.	Greenway Idea or Comment	6/10/25	36.05710359	-86.95738773
Would like to see some sort of greenway access from this side of the river	Greenway Idea or Comment	6/10/25	36.18637448	-86.64066552
Please, please, please, make this overpass handicap accessible.	Greenway Idea or Comment	6/10/25	36.18047901	-86.76218373
Echoing other comment: Add/extend parallel path closer to river that is outside of the levee's vegetation-free zone so it can have extensive tree plantings for shade. Current greenway is directly on top of levee so it's unlikely that vegetation (i.e. shade trees) will ever be allowed. This makes it inhospitable due to a near complete lack of shade over a long stretch of the greenway, so adding an alternative path that is shaded by trees and allows for access to riparian habitat patches would create a nicer and more comfortable alternative. Upper path, although still inhospitable, can still be utilized under flood conditions when lower path is inundated (if necessary), in winter when temps are lower, or if users prefer it for personal reasons.	Greenway Idea or Comment	6/10/25	36.20120985	-86.80265986
Cameras for safety and enforcement against motorized vehicles on the greenway	Greenway Idea or Comment	6/11/25	36.16571811	-86.72407551
Add some places where people can physically interact with the water.	Greenway Idea or Comment	6/11/25	36.18238465	-86.69941784
Need to connect Peeler Park to core of Madison via Greenway and/or bike lanes utilizing Menees Ln, Hudson Rd and Neelys Bend Rd. Everyone has to drive to reach this park.	Greenway Idea or Comment	6/11/25	36.21659071	-86.64786045

Crosswalks should be added at several locations across Park Circle in order to safely cross Park Circle and access the 440 Greenway. They should lead into a concrete path to enter the Greenway without having to walk through the grass.	Greenway Idea or Comment	6/11/25	36.14262433	-86.82346465
Placing doggy and trash cans with lids stations along would be very helpful for neighbors to be able to pick up after their dogs.	Greenway Idea or Comment	6/11/25	36.14310943	-86.82327958
Placing doggy stations and trash cans with lids along would be very helpful for walkers to be able to pick up after their dogs. The trash cans are consistently full and stinky.	Greenway Idea or Comment	6/11/25	36.14214542	-86.84670998
Could this portion be a sidewalk in front of the homes instead? It would connect the greenway and provide a safe walking space on a busy, cut-through street.	Greenway Idea or Comment	6/11/25	36.11572038	-86.79467328
Nashville should connect Bells bend park to the Brookmeade Greenway via a pedestrian bridge.	Greenway Idea or Comment	6/13/25	36.13612781	-86.91062946
It would be great if we could connect Orchard Bend with Rivendell, and then Rivendell to Antioch park.	Greenway Idea or Comment	6/14/25	36.03089815	-86.66771795
Consider adding a shelter to this greenway	Greenway Idea or Comment	6/17/25	36.11393566	-86.77594323
Love this idea of a connector	Greenway Idea or Comment	6/17/25	36.17590426	-86.73453482
Please prioritize connecting to Opry Mills!	Greenway Idea or Comment	6/17/25	36.19386473	-86.68934706
Expand greenway connection south	Greenway Idea or Comment	6/18/25	36.08758953	-86.67680268
This whole area has no greenways and a drive to very small parks. Neighborhoods off Dickerson Pike need safe walkways.	Greenway Idea or Comment	6/18/25	36.22372469	-86.76675059
Would be nice to have a greenway in this area	Greenway Idea or Comment	6/18/25	36.19714591	-86.95345293
How to link a greenway to Green Hills?	Greenway Idea or Comment	6/19/25	36.0960193	-86.80407696
Browns Creek Greenway	Greenway Idea or Comment	6/19/25	36.09438381	-86.79403127
Would be ideal to have greenway connectivity to amenities going in at Century Farms.	Greenway Idea or Comment	6/19/25	36.02306193	-86.66545557
There are tons of neighborhoods going in here, and you've talked about including a park/ parks in this area as well. Since so much land by the creeks can this be incorporated into the trails as a hiking trail? You're asking developers to remove invasive plants so it would be easy to add walking trails as a part of this and that way that work will be maintained and enjoyed by many instead of just be wasted and grow right back. Also connecting it to other locations and offering amenities would be great.	Greenway Idea or Comment	6/20/25	36.00706156	-86.6640372
This could be an amazing greenway if it connected to Nolnesville Pike	Greenway Idea or Comment	6/21/25	36.05746997	-86.74270267
This could be amazing amazing urban “greenway” if you found a way to make walking down Nolnesville safer- consider this a mini Atlanta Beltline. People could walk from a soccer game and actually eat down Nolnesville or pop into a bar, etc.	Greenway Idea or Comment	6/21/25	36.1347326	-86.76023522
I would love to see this connection made so there are safe ways to travel by bike to Shelby Park, Opry Mills, and Downtown from Old Hickory!	Greenway Idea or Comment	6/21/25	36.23803293	-86.6502832
Prioritize the development of this section of Brown's Creek Greenway incl. a pedestrian bridge connecting it to Shelby bottoms	Greenway Idea or Comment	6/22/25	36.15994253	-86.74369993

Work with Mill Creek development who is planning a 400 unit development at 8 Andrew T Whitmore street to initiate the construction of the eastern sections of the Brown's Creek Greenway. What are the mechanisms for the city obtaining easements or purchasing this land to see the greenway realized? Working with developments, the rail authority, purchasing property in the Brown's Creek flood plain? This would be transformative for our south nashville neighborhoods!	Greenway Idea or Comment	6/22/25	36.14091517	-86.75856944
Connect the overpass to greenways and separated bike path.	Greenway Idea or Comment	6/22/25	36.15136317	-86.86346884
It would be amazing to have greenway connectivity from Orchard Bend to Mill Ridge in order to create an extended greenway network through Antioch/Cane Ridge. With all the development going on, now would be the time to look into purchasing land before it is all developed.	Greenway Idea or Comment	6/23/25	36.0284618	-86.63663981
Connect West Park to England Park with a small path along Richland Creek.	Greenway Idea or Comment	6/23/25	36.158541	-86.86147968
Make Woodland St. Bridge car free. Easier grade than the pedestrian bridge. Allow for city busses and party buses. Very little initial cost, for huge returns in mobility.	Greenway Idea or Comment	6/23/25	36.16753054	-86.77576448
Can we fix the boardwalk? It's been closed for almost a year and really limits the ability to use this greenway to its best purpose.	Greenway Idea or Comment	6/23/25	36.16849782	-86.63359805
Consider exploring a partnership with RJ Corman Rail to secure a greenway easement along the Vine Hill branch of the Nashville & Eastern Railway. This corridor could serve as an alternative or complementary route if certain segments of the Brown's Creek Greenway prove difficult to acquire, and could still connect Fair Park to the Cumberland River along a similar path while supporting regional greenway goals. Look to Charlotte Rail Corridor project.	Greenway Idea or Comment	6/23/25	36.13704917	-86.75853258
There are paths cutting through this area behind the children's playground, but they do not connect to the big runway loop (at least not officially - there is a desire line path carved by deer and people in the farthest corner toward the runway). It would be cool if a little footbridge was built to connect these paths with the runway, since that area between gets a bit marshy. This would also allow another access point to the loop when events are happening near the plane hanger.	Greenway Idea or Comment	6/23/25	36.18888273	-86.70280529

I know there are currently plans for this building to become a hub for the arts, but it would also make a really great home for a swimming pool. Were there to be a pool on the western side of the building, locker rooms and/or a snack bar might be built in the bottom of the building. Even if this spot isn't used for a pool, East Nashville is in desperate need of better outdoor swimming options during the summer, and Shelby Park seems like a no-brainer when it comes to choosing a good spot.	Greenway Idea or Comment	6/23/25	36.16431076	-86.74108115
Sidewalks along the road or a greenway near Sawyer Brown would be amazing	Greenway Idea or Comment	6/23/25	36.09635518	-86.93360588
If this is where I'm thinking there used to be a nice little intersection, some benches, a tree, some art... last time I went through it was a construction area. I'd like to see the mini intersection park again	Greenway Idea or Comment	6/24/25	36.18205788	-86.7863243
Every time I am in this parking lot someone drops by and asks me where the greenway trailhead is. A sign on the road nearby might be useful saying trailhead next left.	Greenway Idea or Comment	6/24/25	36.19293087	-86.81662176
We reach a point in walking, skating, or otherwise existing on this trail where you realize you're thirsty and need to head on... some sort of water sign here - be that a water fountain, directions to water and bathrooms, etc would be useful.	Greenway Idea or Comment	6/24/25	36.2013487	-86.80659443
Connect this to the two greenway segments down south/west or give detailed walking instructions for non-greenway access	Greenway Idea or Comment	6/24/25	36.18271156	-86.82401733
Connect this through Ted Rhodes Park and then to the cumberland greenway	Greenway Idea or Comment	6/24/25	36.19341508	-86.80945916
Take the existing train bridge, add in a pedestrian crossing, go south along the water and end up in Bordeaux Gardens Park	Greenway Idea or Comment	6/24/25	36.18289103	-86.83156682
Looking forward to the expansion and creation of this Greenway. So very needed for this area	Greenway Idea or Comment	6/26/25	36.02004200841	-86.6189249848
I would love an access point to the golf course and trail here, connecting Eastwood Neighbors to all of Shelby Park in a walkable way.	Greenway Idea or Comment	6/26/25	36.17996549805	-86.7337407620
Peeler park pedestrian bridge!!!	Greenway Idea or Comment	6/26/25	36.19431360393	-86.6598820087
Peeler Park pedestrian bridge!	Greenway Idea or Comment	6/26/25	36.19548363767	-86.6640534643
Connect Peeler Park to the Greenway in Donelson by building a walking bridge	Greenway Idea or Comment	6/26/25	36.19242578275	-86.6622478894
connect the Peeler Park greenway to Stones with pedestrian bridge	Greenway Idea or Comment	6/26/25	36.19399802610	-86.6617004176
Ebikes are motorized vehicles that travel at 25mph ++. They are a hazard to everyone on the greenway...including themselves. They should be prohibited from the greenway. Use a regular bike. Get some exercise and enjoy nature.	Greenway Idea or Comment	6/27/25	36.13605607192	-86.8436197563
Trails are fun and beautiful. Would be nice for neighborhood to have access, but private property signs don't want strollers or dogs.	Greenway Idea or Comment	6/28/25	36.21273617168	-86.6813998650
Please extend the bike lane on Bell Road so that people can access the Percy priest dam Greenway via bicycle from the Southwestern side. This bike lane is fantastic for the majority of Bell Road and then cuts off shortly before being able to access the greenway and is very dangerous for bicyclists	Greenway Idea or Comment	6/28/25	36.14769167241	-86.6258120396

I love this greenway but it's so hard to get here. Once I'm here, I can access shopping centers I enjoy and nature that is beautiful, but the first 20 minutes (and the last to go back home) are so uncomfortable to get to this greenway	Greenway Idea or Comment	6/30/25	36.13887484073	-86.8417321926
PEDESTRIAN Bridge crossing the river at Peeler Park across the Stones River/Cumberland to Heartland Park.	Greenway Idea or Comment	6/30/25	36.19426214525	-86.6601904481
t's wonderful to see the improvements at Brookmeade Park. We truly appreciate how much safer it feels now. That said, there's still so much untapped potential. The park sits right on the river, yet there's no meaningful water access—at the very least, a canoe launch could be added. Currently, the underdeveloped disc golf course is the only real nod to recreation, and the trail is too short to offer a substantive walk for exercise. Ideally, the trail could be extended into a loop or—better yet—connected to the larger Greenway network. It would be incredible if it could pass through Charlotte Park and link up with the broader system, allowing people to travel from West Nashville to downtown entirely via the Greenway.	Greenway Idea or Comment	6/30/25	36.13050203871	-86.9040422267
Road crossings for bikers are needed so bikers can safely cross busy roads. If bike lanes or greenways were expanded so bikers could get from residential areas to greenways which connect to other parts of town, I would feel safer.	Greenway Idea or Comment	7/1/25	36.12622791501	-86.9026532341
I would love to have a way for bikes and pedestrians to cross between Sylvan Park and Sylvan Heights along Park Ave or somewhere other than Charlotte Ave. I do not feel safe biking on Charlotte Ave but I come up to Charlotte to walk my bike here	Greenway Idea or Comment	7/1/25	36.15141567972	-86.8356604600
I would love to see a pedestrian tunnel connecting Park Avenue in Sylvan Heights to one city. The only connection is on Charlotte Avenue, which I don't feel comfortable biking on. I like to bike on Park Avenue but I have to come over to Charlotte to go under the 440 bridge to get over to one city, which also leads to great bike lanes over to Centennial Park.	Greenway Idea or Comment	7/1/25	36.15171247334	-86.8222623958
Richmond Park could easily connect to the Richland Creek Greenway system. There are great bike lanes and sidewalks down 51st Ave. I see groups running down 51st Ave. daily to access the Greenway. The intersection of Park Avenue and Elkins Avenue does not have crosswalks, but it does have sidewalks. Adding crosswalks at that intersection would allow pedestrians to safely travel from Richland Park to the Richland Creek Greenway.	Greenway Idea or Comment	7/1/25	36.15092845330	-86.8471874881
Connect Beaman and Bells Bend with Greenway and install a Bridge to connect to Brookemeade	Greenway Idea or Comment	7/1/25	36.22420825251	-86.9294790226
Connect Peeler park greenway to stones river bend!	Greenway Idea or Comment	7/2/25	36.19398321487	-86.6618683889
Improve maintenance on the southern loop after flooding.	Greenway Idea or Comment	7/4/25	36.25347318115	-86.8281133600

I'm not sure exactly what the route would be or how feasible it would be, but one greenway recommendation I have is something that could connect the Centennial Park/Vanderbilt area to Wedgewood/Houston. As a biker, the main two routes are Edgehill and Blakemore/Wedgewood, and both are super car-heavy nightmares for bike and pedestrian traffic. Maybe something like taking that proposed route at the corner of Edgehill and 12th and extending it to 21st so someone could navigate through Vandy Centennial from there? Or something that follows 31s/Blackemore/Wedgewood from the greenway at 440/Charlotte to the proposed greenway south of Ft. Negley and west of GEODIS. That connection is one of the significant missing links that I see on this map to connect the neighborhoods of the city with greenways.	Greenway Idea or Comment	7/4/25	36.13993764957	-86.7992120962
Vehicle access to the kayak / canoe boat launch	Greenway Idea or Comment	7/8/25	36.17358623024	-86.6603648478
Plant trees along this entire greenway!	Greenway Idea or Comment	7/10/25	36.20135048993	-86.8005391344
Add pedestrian/bike bridge to connect these two sides of the river	Greenway Idea or Comment	7/10/25	36.18372077225	-86.7827937671
A greenway along S. New Hope down to Stewarts Ferry would be a great way to connect these neighborhoods to more recreation up by the Percy Priest Dam	Greenway Idea or Comment	7/10/25	36.15516933877	-86.5858629356
add rental bikes	Greenway Idea or Comment	7/11/25	36.18548441932	-86.6338815221
Connect Mill Creek Greenway to the Geodis Greenway	Greenway Idea or Comment	7/11/25	36.12175629989	-86.7256782716
Connect Browns Creek Park/Greenway to Mill Creek Greenway.	Greenway Idea or Comment	7/11/25	36.11316799467	-86.7744941217
Connect Browns Creek Greenway to Elmington Park Greenway trailhead.	Greenway Idea or Comment	7/11/25	36.11325916958	-86.7745068669
Please build the greenway that will eventually connect to river greenway and to Centennial park! The students at MLK need this!	Greenway Idea or Comment	7/11/25	36.16298774091	-86.8009082945
If possible, add a separated grade crossing with Charlotte Ave. Perhaps the area next to the rail lines under the street can be used!	Greenway Idea or Comment	7/11/25	36.15317687085	-86.8213024277
Signage to/from Pearl Cohn HS	Greenway Idea or Comment	7/11/25	36.15809564419	-86.8123282887
Signage/connection to/from Head MS	Greenway Idea or Comment	7/11/25	36.1616843091	-86.8064065628
Greenway connection to Mill Creek park/greenway	Greenway Idea or Comment	7/11/25	36.11448276332	-86.7119338305
Connect Richland Creek north of charlotte to the McCabe Golf Course greenway (also Richland Creek GW?)	Greenway Idea or Comment	7/11/25	36.14828724013	-86.8550916132
Connect to the 440 greenway	Greenway Idea or Comment	7/11/25	36.11768164586	-86.7247556331
Connect to Cumberland River GW	Greenway Idea or Comment	7/11/25	36.12354522748	-86.7263423821
Please activate the concession stand at Stones River. Food, beverage, and outdoor rec rental would be great!	Greenway Idea or Comment	7/11/25	36.16155176252	-86.6252372982
Please add concession/cafe on greenway.	Greenway Idea or Comment	7/11/25	36.18718002423	-86.6344421187
Please help fast track Friends of Shelby's naval building project to bring outdoor rec rental and cafe/food/bev to the greenway. This will be a huge additional to the neighborhood.	Greenway Idea or Comment	7/11/25	36.16435233578	-86.7411228206
Please improve water access so that kayak outfitters can operate here and help install a blueway.	Greenway Idea or Comment	7/11/25	36.19914612871	-86.7873566865

Following the bikeway route onto the bike lane on Post Rd. requires navigating this busy shopping center and intersection. It would be a safe improvement for cyclists to have better signage and markings in this area.	Greenway Idea or Comment	7/11/25	36.13183139373	-86.8529068345
Install lighting along this greenway! The sports fields are illuminated into late hours, but the trail is dark.	Greenway Idea or Comment	7/11/25	36.16024235193	-86.8656025550
A greenway looping the lake with a series of connected beaches, cafes, icecream stands, etc. would be a huge win for the city. Beaches should be isolated from boat activity and clean and safe. There is a huge shortage in places to enjoy the water unless you own a boat or belong to a private swimming club.	Greenway Idea or Comment	7/11/25	36.12534196145	-86.6166541479
Connecting Sylvan Park to the Nations along the railroad track	Greenway Idea or Comment	7/11/25	36.15351666634	-86.8370343575
Make the greenway in Bells Bend Park bicycle accessible.	Greenway Idea or Comment	7/12/25	36.14798630624	-86.9247625489
We need a decent park at Whites Creek high school with walking trails in the hills above the highs school and a dog park.	Greenway Idea or Comment	7/12/25	36.27516386705	-86.8136337706
Connect to Mill Creek @ Harding / Ezell Park and onto Blue Hole	Greenway Idea or Comment	7/12/25	36.11718454672	-86.7193931466
Add some type of cameras along this railroad stretch	Greenway Idea or Comment	7/12/25	36.13462830719	-86.8456389789
This little spot has so much potential! If the buildings are owned by Metro, it would be ideal to have a little cafe here and some tables and chairs that would invite people to take a break along the greenway.	Greenway Idea or Comment	7/13/25	36.19049933700	-86.7033947066
Could the Alta Lake Greenway be connected to the neighborhoods north on Dodson Chapel Rd. - it is missing a sidewalk under the I-40 bridge and a ped crossing, ideally with Rectangular Rapid Flashing Beacons. Bikers and families with young children struggle to cross the road, so the greenway is not used as much as it could be.	Greenway Idea or Comment	7/13/25	36.16418101088	-86.6136482364
Sidewalk connection needed to Stones River Greenway, with potential connection to Alta Lake Greenway. Bike commuters and runners/walkers use Bell Rd. to get to the Stones River Greenway, which is dangerous on a narrow road and narrow shoulder.	Greenway Idea or Comment	7/13/25	36.15864732133	-86.6158675217
Expanded hours for the Cornelia Fort Airpark would be great. It is one of the only safe, flat areas that runners and cyclists can get a workout in before or after work/family hours.	Greenway Idea or Comment	7/13/25	36.18897828255	-86.7013851272
Ensure access to greenway from street level	Greenway Idea or Comment	7/14/25	36.16423096281	-86.8018962899
There is no Safe way for kids to get from area to a community center or Greenway. This is also not a safe area for kids to ride their bike around the neighborhood.	Greenway Idea or Comment	7/14/25	36.19213308168	-86.7488122369
Please get this section created soon.	Greenway Idea or Comment	7/14/25	36.12400273083	-86.8058730354
A direct pedestrian connection to Ravenwood park and Stones River Greenway across the river from Donelson would be a win/win/win for the park, the greenway, and downtown Donelson	Greenway Idea or Comment	7/14/25	36.17158051809	-86.6628846464

It would be great to get Fort Negley connected to the other major greenways like the Guclh Greenway or Cumberland River greenway. Potential to connect to the Inner Loop as well and create a full circuit.	Greenway Idea or Comment	7/14/25	36.14487525116	-86.7746799462
I would love to see this Greenway expand north, especially as all these development plans are underway.	Greenway Idea or Comment	7/15/25	36.16713298328	-86.7743769806
Add crosswalk from Sportsplex to Centennial Park.	Greenway Idea or Comment	7/15/25	36.15012823537	-86.8105049335
This park needs more services - a walking loop, bathroom facilities, a pavilion...	Greenway Idea or Comment	7/15/25	36.27530530255	-86.8180583987
The goal should be to connect this greenway with Whites Creek Park via greenways	Greenway Idea or Comment	7/15/25	36.25768742634	-86.8267191926
Need more access to restrooms on this greenway. I've had to use the ones provided for construction because there are none at the trailheads.	Greenway Idea or Comment	7/24/25	36.20115458705	-86.8020529546
Extend greenway to Edmondson Library.	Greenway Idea or Comment	7/17/25	36.05537868858	-86.7433762505
Lots of new apartments in this immediate area with many walkers/runners but there are no sidewalks to get to the greenway nearby.	Greenway Idea or Comment	7/21/25	36.12632254976	-86.9093177858
Would be nice to see the Central Dog Park path / greenway connected to the 3rd Ave Metro Water Park. Seems odd that these are not connected for a few hundred feet.	Greenway Idea or Comment	7/21/25	36.18483127476	-86.7909398594
Connect Greenway via bike and walk lanes along Charlotte Ave to Richland Park, and add landscaping to soften the road edge.	Greenway Idea or Comment	7/21/25	36.15202878505	-86.8499355372
connect this park to a Greenway	Greenway Idea or Comment	7/21/25	36.09301765693	-86.8042149689
connect this park to a greenway	Greenway Idea or Comment	7/21/25	36.09552876722	-86.8048158622
provide greenway trails and/or sidewalks to this park and surrounding neighborhoods	Greenway Idea or Comment	7/21/25	36.00915457502	-86.8800449631
Connect Grassland Greenway to Grassland shopping centers just south on Hillsboro Rd. w/trails and/or sidewalks	Greenway Idea or Comment	7/21/25	36.00624939072	-86.8833105824
Waterfront greenway/linear park	Greenway Idea or Comment	7/21/25	36.16397092956	-86.7725487631
This is a great idea. There is very little utility to these areas under the power lines, but a simple greenway connection would be a great addition to the community.	Greenway Idea or Comment	7/21/25	36.05366625060	-86.7536549102
Add a protected bikeway(s) north south through the middle of Salemtown, Germantown, Sulpher Dell, connecting with Downtown.	Greenway Idea or Comment	7/21/25	36.17509514604	-86.7879627683
Developers should have been forced to install sidewalks that connect. The City must now connect these sidewalks for the safety and health of residents.	Greenway Idea or Comment	7/22/25	36.11793199473	-86.9213642329
Love that there is a planned greenway along this side of the Harpeth River	Greenway Idea or Comment	7/22/25	36.05989836743	-86.9450131497
Build bridge connecting parks. Great location to employ National Guard or reserve engineering unit to use as a training exercise	Greenway Idea or Comment	7/23/25	36.19351659468	-86.6564802773
Start land acquisition to complete greenway. Require new construction projects to either build a section of path or contribute funds to be used for construction Make granting of easements for greenway a real for granting any building permits Work with Wilson County to do the same to make an uninterrupted path	Greenway Idea or Comment	7/23/25	36.17724187102	-86.6279222030
Miss the water fountain here!	Greenway Idea or Comment	7/23/25	36.19270948752	-86.7848019956

I love being able to access the Richland Creek Greenway from here and I would love to see the greenway expand to access Saint Thomas West to the south and West Park to the north.	Greenway Idea or Comment	7/25/25	36.13898700889	-86.8517325594
Connect Belmont to the Greenway!	Greenway Idea or Comment	7/25/25	36.1170974192	-86.7976298349
Add a bridge from Peeler Park to the Stones River Greenway. Improve the paved trails at Peeler Park.	Greenway Idea or Comment	7/25/25	36.19768082363	-86.6496695804
This planned greenway would be amazing; I love to see it happen and connect to Harpeth River Greenway. In lieu of that, a sidewalk on Old Hickory could also help.	Greenway Idea or Comment	7/26/25	36.07380426413	-86.9196937722
additional Greenway connections in Hermitage area	Greenway Idea or Comment	7/28/25	36.16908639405	-86.6180257990
additional Greenway/walking/sidewalk access added in the South New Hope Road area	Greenway Idea or Comment	7/28/25	36.16469459529	-86.5845155454
More trash cans are needed along the Shelby bottoms greenway.	Greenway Idea or Comment	7/28/25	36.19441352960	-86.6928485978
Connect west park to ingland park along creek if land is available	Greenway Idea or Comment	7/29/25	36.16146944300	-86.8641815413
Close Davidson St to cars at the park entrance and create a safe, continuous path for people walking and biking instead.	Greenway Idea or Comment	7/29/25	36.16311899507	-86.7437786647
Has this greenway ever been open?	Greenway Idea or Comment	7/29/25	36.15971802696	-86.7716146068
build the trails along the lake	Greenway Idea or Comment	7/29/25	36.14230109779	-86.6189802825
Perhaps periodic community cleanup days. I think the WC community would pitch in. Metro could provide water, trash bags, & perhaps various hand tools	Greenway Idea or Comment	7/29/25	36.25353473976	-86.8276018649
Perhaps periodic community cleanup days. I think the WC community would pitch in. Metro could provide water, trash bags, & perhaps various hand tools	Greenway Idea or Comment	7/29/25	36.25580798411	-86.8230602145
Create interactive signage about the cultural history of Whites Creek. Include information about the Trail of Tears.	Greenway Idea or Comment	7/29/25	36.24354425314	-86.8261674413
Add greenway here to connect 12 South/Melrose neighborhoods to Geodis, the fairgrounds and the dog park safely and enjoyably.	Greenway Idea or Comment	7/29/25	36.12639424402	-86.7705021078
There should be a direct connective greenway between Richland Creek Greenway and the 440 Greenway through Cherokee Park/Richland.	Greenway Idea or Comment	7/29/25	36.13603718025	-86.8400495090
The passage under the rail bridge is not very safe. Can we add a barrier between traffic and the unmarked pedestrian path?	Greenway Idea or Comment	7/29/25	36.13667864635	-86.8419137292
Once the Cumberland River zProject finishes cleaning up the water way, lets make a connecting greenway the whole rest of the way to and along Franklin Limestone Rd.	Greenway Idea or Comment	7/30/25	36.07836140328	-86.6636615084
So excited for this greenway connection!	Greenway Idea or Comment	7/30/25	36.14913630519	-86.8185061717
Connect Fontanel greenways to garden park	Greenway Idea or Comment	7/30/25	36.25070537004	-86.8288234102
Coordinate w planning department to ensure this development builds the SP required hiking trail and parking area connections for metro parks	Greenway Idea or Comment	7/30/25	36.20287139725	-86.8347857947
Connect this greenway to an improved Whites Creek Park at the high school. Maintain this greenway better (downed trees cleared, mow the sides of the path) or require the landowner to do it. Security at the parking lot.	Greenway Idea or Comment	7/30/25	36.25671129476	-86.8286982902

Connect Hartman Park greenway to Whites Creek Park, as the Parks Plan intended. Thank you!	Greenway Idea or Comment	7/31/25	36.21779344976	-86.8219052749
Docked bikeshare station needed	Greenway Idea or Comment	7/31/25	36.19578701614	-86.6632599104
Docked bikeshare station needed	Greenway Idea or Comment	7/31/25	36.18515136513	-86.6858475859
Docked bikeshare station needed	Greenway Idea or Comment	7/31/25	36.19703194220	-86.7031057977
Docked bikeshare station needed	Greenway Idea or Comment	7/31/25	36.15531104137	-86.7645474735
Docked bikeshare station needed	Greenway Idea or Comment	7/31/25	36.19236045351	-86.7850620475
A greenway along wedgewood would be so helpful for connecting hillsboro and wedgewood houston - it gets really risky/scary to bike this road between 8th and martin or brandsford around the highway entrance/exit	Greenway Idea or Comment	7/31/25	36.13419597981	-86.7790774530
Pedestrian/Bike bridge to connect Peeler Park to the Stones River Greenway - this would connect two large greenways and also give Madison access to the rest of the greenway system.	Greenway Idea or Comment	7/31/25	36.19359601122	-86.6605454058
A greenway or protected bikeway along Neelys Bend Rd would be very helpful since it is currently not safe for biking or walking	Greenway Idea or Comment	7/31/25	36.23276827775	-86.6697348841
The Northeast Connector/Old Hickory is such a good idea. Rte 45 is currently very difficult to walk or bike on, and so accessing Cedar Hill, Madison, and Old Hickory Parks are all difficult	Greenway Idea or Comment	7/31/25	36.26444695403	-86.7290860576
Connecting this planned greenway to proposed park space in Amqui Station would significantly improve accessibility for a wide swath of these Madison neighborhoods!	Greenway Idea or Comment	7/31/25	36.25467766493	-86.7204032734
Connecting the Whitfield park greenway to Radnor and Warner parks would be amazing for my family. Further connecting it through the Forrest Hills and Green Hills are to Saint Thomas West would mean that I could bike to work safely off surface streets. I would be very tempted to buy an E-bike and use it to get around the city. That's my dream!	Greenway Idea or Comment	7/31/25	36.05122468628	-86.7456183920
Connecting Fair Park to Sevier Park via Greenway would be a gamechanger to connect these neighborhoods!	Greenway Idea or Comment	8/1/25	36.12331702933	-86.7711520731
Connecting Fort Negley and Fair Park via greenway would be great	Greenway Idea or Comment	8/1/25	36.13683841747	-86.7738200020
Connecting the Gulch Greenway to Edgehill Ave somehow would be very useful	Greenway Idea or Comment	8/1/25	36.14597675877	-86.7860648391

OTHER IDEAS OR COMMENTS

Description	Category	Created On	Lat	Lng
Beaman Park is not named on the map. You have to click to know the name!	Other Idea or Comment	5/27/25	36.15214697	-86.92352427
Parks ought to have the ability to reserve stuff (sports fields, courts, shelters, online). Bet that people would book more and your staff would have less time on the phone if you didn't have to call to do all that stuff.	Other Idea or Comment	5/28/25	36.15056273	-86.80984373
This is the main intersection that most folks need to cross to get to Richland Park from the Nations. It would be great if we could make it safer for pedestrians, eg. brightly painted crosswalks, improved crossing signals, improved lighting, or even new signage about the nearby parks.	Other Idea or Comment	5/29/25	36.15198431	-86.84851093
Adding more sidewalks throughout the Nations could help expand access to these parks.	Other Idea or Comment	5/29/25	36.15772433	-86.85464667
Would like to see an interactive website showing the showing the daily reservations for the field/track at Rose Park (e.g., I have been asked to leave the track by security due to: Belmont soccer having an event, a private photoshoot occurring). An interactive listing would tell individuals when the track is occupied/reserved.	Other Idea or Comment	5/30/25	36.14278716	-86.78416622
This section of Cooper Creek is heavily eroded. Would love to see some restoration of this area to improve water quality	Other Idea or Comment	5/30/25	36.19972931	-86.70011153
New facility! As West Park is in the process of rebuilding the gymnasium and community center space the opportunity to implement a Squash program is here! Please consider having Metro Parks and Recreation Board include Squash court space in the new West Park building.	Other Idea or Comment	5/31/25	36.16198959	-86.86389944
It is not that clear that this is public space.	Other Idea or Comment	6/2/25	36.1751055	-86.74164278
Would love to see a three-part water fountain here (dogs, children, adults) to service walkers, tennis players, and playground.	Other Idea or Comment	6/2/25	36.18215072	-86.76788389
There is a large parcel here that is owned by the city that would be an excellent place for unpaved trails.	Other Idea or Comment	6/3/25	36.22058271	-86.81968649
Sidewalk connections to nearby neighborhoods would increase use and safety of users.	Other Idea or Comment	6/3/25	36.21427856	-86.84361125
Warner Parks should be accessible via WeGo. It's a great natural resource and shouldn't require access to a car and the ability to drive to reach.	Other Idea or Comment	6/3/25	36.07251576	-86.87909941
Improve public facing communications/information from East Park Community Center. This building has a wealth of resources for the community, but it is really difficult to find up-to-date information about programs, pool schedule, swim lesson availability.	Other Idea or Comment	6/3/25	36.17261722	-86.76193457
More parking	Other Idea or Comment	6/3/25	36.24105581	-86.64244666

Make the indoor pool free for adults during the summer as a little treat. There aren't many people who work in Nashville who can still afford to live in Nashville. Many others are on fixed incomes. This is a nice pool and I'd love to be able to swim here once per week. It is hot and I'm about to be an empty nester, so I feel very lonely too. It would just be super nice to have something to look forward to. If anyone else reads this, I hope you're having a good day and please be kind to others.	Other Idea or Comment	6/3/25	36.15028112	-86.8081948
If Nashville attracts a MLB team, the stadium should be built at the existing site of the Sounds ballpark instead of TSU's wetland site. Seek creative inspiration from old jewel box stadiums.	Other Idea or Comment	6/3/25	36.17272042	-86.78468941
Warner Park needs to be more accessible by bike and transit. A Greenway or linear park should connect Warner to other parks and greenways.	Other Idea or Comment	6/3/25	36.08611987	-86.88176101
Tons of empty and unused space at this park. This could easily be developed into much needed housing and make Warner Parks more accessible to people who are unable to afford a home nearby.	Other Idea or Comment	6/3/25	36.05232064	-86.89847009
I would love to see a farmers market somewhere at the fairgrounds.	Other Idea or Comment	6/3/25	36.13031775	-86.76474159
Would be great to see Dakota Ave connected via sidewalk between Sylvan Heights and Sylvan Park. There is an unofficial path that crosses the railroad tracks that residents frequent as the neighborhoods are otherwise cutoff from each other.	Other Idea or Comment	6/3/25	36.14806938	-86.83513624
This area is ripe for wet meadow restoration.	Other Idea or Comment	6/3/25	36.18930111	-86.70104276
As others have mentioned, this area should be managed for ecological purposes. There are ample oppurtunities for wetland restoration in/ around the existing ponds at lower elevation as well as upland restoration closer to the greenway.	Other Idea or Comment	6/3/25	36.18202406	-86.65904116
Please add river access somewhere along this corridor. It would be nice to get my kayak down to the river without walking through poison ivy	Other Idea or Comment	6/3/25	36.21244755	-86.82485159
Please add river access in this area to activate whites creek and this portion of the Cumberland.	Other Idea or Comment	6/3/25	36.18677542	-86.85977117
The city owns a boat ramp here. I suspect the reason it is unused and marked as trespassable property is that there is no parking, but the city could/should partner with Riverwood Church of Christ (who has a large unused parking lot nearby) if that is the issue. People can walk up from there and this would be a great float to downtown.	Other Idea or Comment	6/3/25	36.21675648	-86.70697934
Would like to see better info about the aquatic resources available here so that people actually know that they exist	Other Idea or Comment	6/3/25	36.14266481	-86.78349274

I know lots of community sports/running clubs use this and other high schools. I think Parks could potentially partner more with MNPS, especially high schools, to program these spaces and serve more community members (especially adults/seniors) that would otherwise not use the schools' recreation facilities.	Other Idea or Comment	6/3/25	36.19966061	-86.71832146
I know this isn't a Metro Parks facility, it was some kind of developer agreement when the apartments went in, but the extra wide sidewalk with landscaping basically functions as a greenway for this entire community! I think the city should negotiate more 'pseudo-greenways' like this with all the private developments going in.	Other Idea or Comment	6/3/25	36.21777052	-86.68921077
It would be nice to have parking on this side of Lebanon pike as walking next to that busy of a road can be a spooky experience	Other Idea or Comment	6/3/25	36.18789719	-86.63557949
crossing Old Hickory is so dangerous, I can't walk my kids to the park even though we live less than a mile away. PLEASE can we try to get a stop light and cross walk	Other Idea or Comment	6/3/25	36.26690248	-86.7451985
I think this historic site should be part of Parks rather than the School system. It is a certified arboretum and adjacent to William Edmondson homesite. Rather than neighbors having to empty trash it would serve the site well to be preserved and cared for by the Metro Parks System.	Other Idea or Comment	6/3/25	36.13972177	-86.78966455
Interactive Water Feature: A programmable splash pad and fountain area that doubles as visual art and a summer play space for kids.	Other Idea or Comment	6/3/25	36.14241385	-86.78381594
Since this is a park so close to Music Row it would be nice to have: Civic Lawn and Performance Stage that supports public concerts and events, such as those by the local musicians and festivals. Event-Ready: Equipped with built-in electrical and lighting infrastructure to support events without needing excessive setup.	Other Idea or Comment	6/3/25	36.13859466	-86.78994618
Could we add water access/launch point somewhere along the cumberland in the Nations?	Other Idea or Comment	6/3/25	36.16813235	-86.83713396
Upgrade the playground here to meet the need for children of all ages.	Other Idea or Comment	6/3/25	36.16215175	-86.79923328
A ton of underutilized green space here at the school. How could we make better use of this green space for the entire community? Playground. Access to the track and non-turf fields. A small park for the neighborhood.	Other Idea or Comment	6/3/25	36.16272977	-86.81359851
Paint the Cleveland Park pool house to match the new paint on the community center	Other Idea or Comment	6/3/25	36.18814331	-86.7597214
+1 for a more "natural" park here! We have so much field/open grassy space and heavy landscaping in parks around the city. Rare largely undeveloped areas like this should be conserved.	Other Idea or Comment	6/3/25	36.17955642	-86.66021368

This could be a good place for community sports league for younger kids. There are many children in the Edgehill area but few options to participate in organized sports nearby (or maybe there are but the advertising is poor?). I would rather take my child here for kids' soccer than drive to Green Hills and Brentwood	Other Idea or Comment	6/3/25	36.14348703	-86.78399756
A cafe stand in this area and consistent events similar to Fridays by the River in Shelby would do very well.	Other Idea or Comment	6/3/25	36.14766211	-86.80966126
The parks department should purchase and refurbish this cool old building. Could be cool offices for the department or a cafe/community center alongside the golf course, greenway, and tennis courts.	Other Idea or Comment	6/3/25	36.19389969	-86.81784678
It would be amazing to have a place to put kayaks or canoes in as well as in point where we can take them out downstream.	Other Idea or Comment	6/3/25	36.1876791	-86.85953731
Metro owns the land here and it could be used as river access for kayaking or fishing.	Other Idea or Comment	6/3/25	36.18566527	-86.85474612
It'd be great to have access for kayaks or canoes on the Bordeaux side as well!	Other Idea or Comment	6/3/25	36.17315855	-86.83594739
I'd like to be able to purchase Parthenon admission online in advance. Can Parks look into online sales?	Other Idea or Comment	6/3/25	36.14999969	-86.81271615
Nebraska is a road many use to connect from Mccabe to 440 Greenway - it would be nice if there was a sidewalk on either side and a designated protected area for pedestrians as pass under bridge (train tracks) for runners/bikers	Other Idea or Comment	6/4/25	36.14282	-86.82684411
Would be great to have a better connection between Richland Park, 51st, and the two greenways (one coming from McCabe, one coming from England Park) to make it better for going between Sylvan Park and the Nations which would likely help a lot of businesses in the Nations, as well!	Other Idea or Comment	6/4/25	36.15110019	-86.84880568
Mountain bike tires are terrible for greenways, they will wear very quickly on a paved surface causing ecological damage. Greenway bike tires cannot handle the terrain of an unpaved mountain bike trail. This proposal just doesn't make sense or good use of city resources.	Other Idea or Comment	6/4/25	36.08594086	-86.88185413
Please fix the tennis courts. If the community will not allow pickleball courts then please just repave as tennis courts.	Other Idea or Comment	6/4/25	36.15388269	-86.87182271
Please consider allowing some food establishment to take over that main building. It would be SO perfect!	Other Idea or Comment	6/4/25	36.19060058	-86.70364419
I love the fitness room at the East Park Center, but it could definitely benefit from some more updated machines like a better leg press, pulldown/lat machine and seated row machine! Just a few switches of equipment could really take this fitness room over the top!	Other Idea or Comment	6/4/25	36.17255094	-86.76180596
I agree with other comments for this area. It's perfect for grassland/wildflower habitat. There is already a lot of milkweed present and I would love to see more.	Other Idea or Comment	6/5/25	36.17681168	-86.66059631
pedestrian bridge!	Other Idea or Comment	6/5/25	36.14356121	-86.89189315

Adding lights around the airfield would allow for nighttime activities (cycling, running, skating, walking, etc)	Other Idea or Comment	6/5/25	36.18772245	-86.7033297
Cornelia NEEDS a bathroom. And let's repurpose the old building for a cafe!	Other Idea or Comment	6/5/25	36.19049622	-86.7034409
I know many other parks in the area participate in Movies in the Park. Given the amount of families in the area, I think adding Charlotte Park to the lineup would be really cool.	Other Idea or Comment	6/5/25	36.15432224	-86.87084511
Pickleball courts should be placed near tennis courts. More activites to get folks active and have sports clubs	Other Idea or Comment	6/5/25	36.15385807	-86.87156277
Movies in the Park	Other Idea or Comment	6/5/25	36.15419479	-86.87081365
This field is used as a dog park because it's in disrepair, please modify to be a small off leash dog area!	Other Idea or Comment	6/5/25	36.15349775	-86.86950888
Consider adding Badminton nets and or volleyball nets here, low cost and ways to get the community engaging with each other and active	Other Idea or Comment	6/5/25	36.15416812	-86.86944834
Transitioning this baseball field to an actual dog park (or two dog parks for dogs of different sizes) would be really beneficial. Adding a dog waste bag station here would also be helpful!	Other Idea or Comment	6/5/25	36.15353966	-86.86971811
Pedestrian Bridge. Develop Bells Bend into another park similar to Edwin/Percy Warner Parks!	Other Idea or Comment	6/5/25	36.13584244	-86.90414814
DEDICATED PICKLEBALL COURTS PLENTY OF ROOM NEAR EXISTING COURTS AND THRUOUT THE PARK	Other Idea or Comment	6/6/25	36.17012081	-86.73466132
Bathrooms accessible outside	Other Idea or Comment	6/6/25	36.1705045	-86.73499177
This 250-acre tract adjacent to Beaman Park should be a top priority for acquisition. Its proximity to existing parkland makes it a natural extension of Beaman and a critical piece of the broader Beaman-to-Bells Bend conservation corridor. Protecting this land would prevent incompatible development, preserve forest habitat, enhance biodiversity, and expand recreational opportunities in a rapidly urbanizing part of Davidson County. With the area under increasing development pressure, timely action is essential to secure this land for future generations.	Other Idea or Comment	6/8/25	36.2542332	-86.9308075
This side of England park needs a stroller/wagon/bicycle entrance to the pathway. In addition, a sidewalk from this entrance to at least the 4 way stop intersection of delray, Michigan, and Morrow.	Other Idea or Comment	6/9/25	36.15814096	-86.85534952
Dedicating this as a dog park would be great. Add more trash cans.	Other Idea or Comment	6/10/25	36.15355484	-86.8694104
The local Patio company down the street offered to build a pavilion here. Partner with them to get it done, please!	Other Idea or Comment	6/10/25	36.15484737	-86.87135523
Food trucks would be great on weekends.	Other Idea or Comment	6/10/25	36.15450499	-86.87116043
Add another trash cans here.	Other Idea or Comment	6/10/25	36.1559366	-86.87260005
The paint on this community center looks great but it could use further upgrades.	Other Idea or Comment	6/10/25	36.15465369	-86.87001015
Adding a pedestrian bridge here would unlock west nashville to all the wonders of Bells Bend Park just as Clees Ferry once did.	Other Idea or Comment	6/10/25	36.13486018	-86.9029119

Would be great to see an additional traffic signal on Charlotte Ave & 35th Ave N. It is currently very difficult for pedestrians to cross Charlotte Ave in this area given high rate of speed and lack of signals. Would help connect pedestrian access in Sylvan Heights area.	Other Idea or Comment	6/10/25	36.15280903	-86.82683998
Very concerned that no one is talking about how to connect East Nashville to the East Bank. Gone is the Grace bike lane as well as the Cleveland rd extension over the interstate.	Other Idea or Comment	6/10/25	36.18711326	-86.77509953
This green space is under-utilized! A dog park, benches, workout equipment, and structures would be great to have here.	Other Idea or Comment	6/10/25	36.18849601	-86.80793646
Is this open to the public?	Other Idea or Comment	6/10/25	36.19159043	-86.81280138
This is an open field that is being used for unrestricted dog play. I think this would be a great place for a dog park	Other Idea or Comment	6/11/25	36.14463123	-86.84963429
Acquire this bottomland along the Cumberland River for a park, natural area or greenway potential.	Other Idea or Comment	6/11/25	36.24742382	-86.66224646
The greenway gets crowded by the playground due to little kiddos running around (so cute by the way!) This would be a perfect area to widen the greenway/sidewalk	Other Idea or Comment	6/11/25	36.11849141	-86.78967166
This stretch of the river would be a great place for a rowing boathouse. It would be easily accessible, safer (on the water) than Percy Priest, and add to the downtown rover usage.	Other Idea or Comment	6/12/25	36.15827078	-86.76629691
Add a running track around the football field and soccer fields along Cheyenne Blvd at Neely's Bend Middle School.	Other Idea or Comment	6/12/25	36.24464436	-86.67374848
Complete the walking track at Neelys Bend Elementary School, possibly add exercise stations.	Other Idea or Comment	6/12/25	36.23863876	-86.6730797
Improve the baseball field at Neelys Bend Elementary School to include infield and bases.	Other Idea or Comment	6/12/25	36.23846107	-86.67505895
Improve the baseball field at Neelys Bend Middle School to include infield and bases.	Other Idea or Comment	6/12/25	36.24270425	-86.67245618
Add a small soccer field at Neelys Bend Elementary School.	Other Idea or Comment	6/12/25	36.23815858	-86.67437706
This area is perfect for a library or community center. West Meade does not have either of these amenities. The property already has tennis courts and a track which is a great start.	Other Idea or Comment	6/13/25	36.11774874	-86.87435476
There are several new developments and neighborhoods in the Cane Ridge area that have sidewalks inside of them, but are not connected by sidewalks. Connecting these neighborhoods by sidewalks would greatly improve walkability, including walkability to nearby parks like Mill Creek	Other Idea or Comment	6/13/25	36.00872703	-86.6628546
Expand greenway walking trail to this area as well	Other Idea or Comment	6/13/25	36.11585299	-86.71407213
Community centers should be open weekends. I have seen expanded hours on Saturdays, but they still open late compared to weekday open hours. There are none that I know of open on Sundays, so there are no fitness facilities available.	Other Idea or Comment	6/14/25	36.17229024	-86.76204889

Centennial gets SO much use, especially around events or on weekends! Consider improving bus access AND launching marketing campaigns to increase use of transit/bikes (and even carpooling) to get to Centennial park, especially for events (craft fairs, musicians corner, etc). This would alleviate some parking issues.	Other Idea or Comment	6/16/25	36.14950074	-86.81217729
So much room for new trees	Other Idea or Comment	6/16/25	36.14736833	-86.8188905
A community garden or some better landscaping	Other Idea or Comment	6/16/25	36.13756048	-86.78137259
Pickle ball courts would be great over here!	Other Idea or Comment	6/16/25	36.01083082	-86.69324749
Will the developers of the Belle Meade Kroger have a riverwalk open to public?	Other Idea or Comment	6/17/25	36.11486914	-86.86010682
Arboretum?	Other Idea or Comment	6/19/25	36.17274549	-86.84919538
Would love 1) more pool hours for open and lap swimming, and 2) swim safety lessons on a regular basis.	Other Idea or Comment	6/23/25	36.08677887	-86.60908571
This former high school has such great space to be used by our city. I have been able to vote there during early voting. Walk on the track (did this even when it was still in use as a HS) We could reinvent it for so much more than what's being done right now. West Meade - Belle Meade do not have a community center. When the CM for this part of town asks for a community meeting it is often held at a church because of the lack of true PUBLIC community space. Can this location be repurposed as a community center and renovated to include spaces inside for our citizens? We could use a Seniors Day Care. Fitness Facilities (weight room, dance space, gym, Racquet sport courts, art rooms...) After school programing for the adjacent MS and nearby ES and charter schools. There is a need for a community facility and the Former Hillwood High School building is easily a place that can fulfill this need. It could surpass the arts facilities in Centennial Park if made available to the people of Nashville.	Other Idea or Comment	6/24/25	36.11831172	-86.87332817
We need a new CPAS building and lots of parking.	Other Idea or Comment	6/26/25	36.14751538	-86.81324498
Please add the hiking trail map to the Metro Parks' webpage. You currently can't get any information on these hiking trails online.	Other Idea or Comment	6/26/25	36.02466976434	-86.6147520869
Looking forward to more development aimed at the needs of the community in this huge swath of land in Mill Ridge Park	Other Idea or Comment	6/26/25	36.02107817114	-86.6178759807
Add a pedestrian bridge from Peeler Park	Other Idea or Comment	6/27/25	36.19216565736	-86.6624296533
Include the William Edmondson Homesite within the Metro Parks system and do whatever is needed to protect it since it is the park for this historically African American community.	Other Idea or Comment	6/27/25	36.13743919364	-86.7901879059
Example of place that is hard to walk on greenway without shade.	Other Idea or Comment	6/28/25	36.19024519570	-86.6678127337
Was sad when the farmers market left this area. Would have liked it in a park, though I understand reasons for having to relocate.	Other Idea or Comment	6/28/25	36.18967571096	-86.6769971662
We love this park and would love to see an outdoor pool available here to give the community safe swimming opportunities.	Other Idea or Comment	6/28/25	36.02297995581	-86.6167735223
Bring Bcycles Back	Other Idea or Comment	6/30/25	36.15648711419	-86.6231439069

Bring thr Bcycles back these were the furthers east places to access Bcycle systems	Other Idea or Comment	6/30/25	36.19186422991	-86.6810641200
renovate and expand the looby community center to better sanctify Looby's name as well as the residents that use this place. Materials should reflect the care and softness this space deserves.	Other Idea or Comment	6/30/25	36.19248805108	-86.8080589443
Create a connection between Ted Rhodes and The Looby Community Center. You should be able to access the cumberland greenway from Looby and visit Looby easily from Ted Rhodes.	Other Idea or Comment	6/30/25	36.19670261987	-86.8108333318
How will people access this park? Especially pedestrians?	Other Idea or Comment	6/30/25	36.22147190617	-86.7889372382
Make the William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements. Also would like to have this connected to the greenway system which could include connection to Rose Park and Fort Negley	Other Idea or Comment	7/1/25	36.13899812009	-86.7896693927
When biking from Sylvan Park to Vanderbilt/12 South, there is not a great way to bike with kids safely. The Murphy/West End intersection does not feel safe to me as a biker. I have consulted with other neighbors and was advised to walk my bike through that intersection and then walk over to this sidewalk/walkway that connects to Fairfax Avenue. This has become my go to route to bike to that area of town. I would love to see a safer way for a bike to get from Sylvan Park to Vanderbilt.	Other Idea or Comment	7/1/25	36.13784224348	-86.8204446201
Revitilize the playground area/ park by Haynes School on West Trinity Lane to something similiar or better than the one at the Northwest YMCA. Updating that park/ playground area would change the whole landscape of that corner for the better. increased visibility to the school, housing, and local business	Other Idea or Comment	7/4/25	36.20710523740	-86.7995870801
Start a Metro program advocating for land conservation of the highland Rim Forest.	Other Idea or Comment	7/4/25	36.24996920621	-86.9238405006
Parks or Greenways I Enjoy the Most Develop a hiking trail to connect Beaman Park to Bells Bend Park. There are seven pieces of property already in land conservation and other private properties could be added to create this route.	Other Idea or Comment	7/4/25	36.16897597597	-86.9350708296
It would be great if this could become a public park with walking paths. Could even make the school into a community center or public library.	Other Idea or Comment	7/4/25	36.11808265103	-86.8736238651
Is there anyway to work in more than just a handful of hiking/running trails in this massive park?	Other Idea or Comment	7/5/25	36.07091285928	-86.8839345168
I second this comment - there's not a playground in this area of town and I live nearby and would love to frequent a playground that my son and I could walk to.	Other Idea or Comment	7/7/25	36.20717879376	-86.7995989323
The city should also aim to properly connect Rayon City to Old Hickory Village, which would encourage more neighbors to walk to our new community center.	Other Idea or Comment	7/8/25	36.26660454045	-86.6564938911
Highland Rim Forest Presdrvation	Other Idea or Comment	7/8/25	36.25518053657	-86.9396516721

Let's look at other cities doing a great job with their riverfront. Actually attended by locals to hang out. What can make our waterfront USED?	Other Idea or Comment	7/8/25	36.16196911751	-86.7703576535
Lets make the running and biking "along the river" not along the "road" Look at Austin, Tx. Look at Little Rock AR.	Other Idea or Comment	7/8/25	36.16048118440	-86.7674927239
Plant trees along this bike lane	Other Idea or Comment	7/10/25	36.16207904943	-86.7514938238
A sidewalk along Bell road would be great. It's a dangerous road to try to walk along limiting access to the parks and other areas.	Other Idea or Comment	7/10/25	36.16151725424	-86.5975518948
Elevated connection to Bicentennial Mall (I know this is state property, perhaps they want to throw money at parks!)	Other Idea or Comment	7/11/25	36.17183647807	-86.7891195901
Updated Library!	Other Idea or Comment	7/11/25	36.11120295202	-86.7440917375
Would be great to have these restrooms open at the lake!	Other Idea or Comment	7/11/25	36.10476862123	-86.6241985842
It would be great to add some MTB trails here	Other Idea or Comment	7/11/25	36.26221031148	-86.9125312055
A splash park would be awesome here for the kids in summer	Other Idea or Comment	7/11/25	36.16729994679	-86.7303233249
This would be a great place for a cafe with great coffee, wine, local beer, cafe food, indoor/outdoor dining, community gardens, etc.	Other Idea or Comment	7/11/25	36.19048700252	-86.7012372109
Update the former HHS track for community runners	Other Idea or Comment	7/12/25	36.11782084809	-86.8757322109
It would be nice to have a small dog section to the dog park. Many people from east travel to Germantown to access the dog park there.	Other Idea or Comment	7/14/25	36.17126552298	-86.7346771017
Cafe / Restaurant would be perfect here. Maybe take over / renovate an existing Hangar. More Parking would probably be required.	Other Idea or Comment	7/14/25	36.19062389833	-86.7013844847
Squash here? they have tennis courts and a huge building that could be retro fitted for a few courts.	Other Idea or Comment	7/16/25	36.11811816357	-86.8753954768
Bring back the docked bike share station that used to be here. It was a great location for tourists and locals alike.	Other Idea or Comment	7/24/25	36.14949023235	-86.8141703446
Bring back to docked bike share station that used to be here. Shelby Bottoms has some of the best greenways in the whole city to enjoy by bike. It is a shame those without personal bikes no longer have convenient access to rental bikes to experience said greenways.	Other Idea or Comment	7/24/25	36.16702346294	-86.7250826625
Bring back to docked bike share station that used to be here. The Two Rivers Greenway may be the best greenway in the whole city to enjoy by bike. It also serves as an important bike commuter route for those in the Donelson area. It is a shame those without personal bikes no longer have convenient access to rental bikes here to enjoy the greenway or use it for their commute.	Other Idea or Comment	7/24/25	36.18776479100	-86.6866532588
Bring back to docked bike share station that used to be here. The Stones Rivers Greenway is another excellent greenway to enjoy by bike. It also serves as an important bike commuter route for those in the Donelson area. It is a shame those without personal bikes no longer have convenient access to rental bikes here to enjoy the greenway or use it for their commute.	Other Idea or Comment	7/24/25	36.15872692382	-86.6209996187
Add docked e bike share here	Other Idea or Comment	7/24/25	36.13428691795	-86.8243610643

Add docked e bike share here to tie in with upcoming Athena Bikeway Project	Other Idea or Comment	7/24/25	36.14312358544	-86.8232194090
Add docked e bike share here	Other Idea or Comment	7/24/25	36.14769263582	-86.8207373222
Add back docked e-bike share	Other Idea or Comment	7/24/25	36.15873177955	-86.7770483327
Restroom facilities neeeded	Other Idea or Comment	7/24/25	36.19077566127	-86.7038314921
Sevier Lake Cafe	Other Idea or Comment	7/24/25	36.16884765871	-86.7297537906
buy for shelby park soccer fields	Other Idea or Comment	7/24/25	36.16409644943	-86.7456327719
bridge kayak boat house and rental with picnic and party area	Other Idea or Comment	7/24/25	36.16532351422	-86.7215638070
create folly pavilions and formal campgrounds	Other Idea or Comment	7/24/25	36.18272997648	-86.6606166134
create gathering overlook pavilions along the river	Other Idea or Comment	7/24/25	36.19574590923	-86.7864902314
BRING BACK THE SPLASH PAD	Other Idea or Comment	7/24/25	36.16236423590	-86.7737601605
make this more park activing use and ground expasion to connect the baseball field	Other Idea or Comment	7/24/25	36.17141435884	-86.7862646980
Enhance the playground here and move the adult exercise stations away from the playground area.	Other Idea or Comment	7/20/25	36.19146980961	-86.7023336662
Fix the splash pad	Other Idea or Comment	7/20/25	36.16203309125	-86.7731401185
Add a sprayground	Other Idea or Comment	7/20/25	36.27215957418	-86.7421175382
Add a sprayground	Other Idea or Comment	7/20/25	36.18624791325	-86.6557359863
Would be great to see this new Greenway connection prioritized!	Other Idea or Comment	7/21/25	36.15687318519	-86.8145078245
Would be great to connect McCabe Park greenway to Richland Creek greenway as to increase access to the Nations.	Other Idea or Comment	7/21/25	36.14792545101	-86.8551418203
Provide greenway or sidewalk along this route from Grassland Estates neighborhood to Grassland Park.	Other Idea or Comment	7/21/25	36.00742264447	-86.8771393073
Provide trails, sidewalk or public transportation to/from this shopping district and downtown Franklin and Grassland Park, surrounding neighborhoods.	Other Idea or Comment	7/21/25	35.99735809860	-86.8863345139
Add a restoom	Other Idea or Comment	7/21/25	36.19062856554	-86.7038255266
Refurbish the exteriors of the hangar and air traffic control building with repaired signage and murals.	Other Idea or Comment	7/21/25	36.19068801229	-86.7036015622
more wildflowers and native grassland vegitation in the large fields would be amazing.	Other Idea or Comment	7/21/25	36.18951502181	-86.7026912652
Offer food and beverage options or what about allowing food trucks on certain days.	Other Idea or Comment	7/22/25	36.19123649095	-86.7037076120
I would love to see this area developed with added greenway, hiking trails, and activities.	Other Idea or Comment	7/22/25	36.17754994974	-86.6610187767
Crosswalk with flashing lights - This is a common pedestrian crossing area for many residents and sometimes there is heavy traffic leaving and going into the shopping center	Other Idea or Comment	7/22/25	36.08188845632	-86.9442557793
I would love for the old Woodbine School to have some community benefit - arts programming? Library? Not necessarily instead of the great services it offers but some way for it to be an amenity to those of us who live nearby, to bring us in.	Other Idea or Comment	7/25/25	36.12239845968	-86.7443938372
The old TPS complex…. How can we make this an amenity to the community?	Other Idea or Comment	7/25/25	36.13432663768	-86.7403030875
What the heck?? I know of the garden at the Woodbine School - I'm shocked if there's one here too.	Other Idea or Comment	7/25/25	36.11960707342	-86.7452495393
Would love to have a neighborhood entrance and small parking area for mountain bike trails!!	Other Idea or Comment	7/25/25	36.27239041394	-86.7368309318
Make McGavick safer to bike on	Other Idea or Comment	7/26/25	36.18037336055	-86.6785092738

We need more access points /picnic areas along the all along the Cumberland river !!!	Other Idea or Comment	7/26/25	36.21035366999	-86.6746052499
Please make this a public boat/kayak access point with trailer parking.	Other Idea or Comment	7/26/25	36.21694792927	-86.7052002332
Add group pavilions and picnic areas	Other Idea or Comment	7/26/25	36.10261579140	-86.6225205186
This should be public NIT private access to the lake. There should be public pavilions/picnic areas.	Other Idea or Comment	7/26/25	36.12636194016	-86.6249747070
Fix backstops and add lights to fields	Other Idea or Comment	7/26/25	36.40988690067	-87.0134986549
Lights for softball and soccer field like other parks	Other Idea or Comment	7/26/25	36.09492750013	-86.8046785630
Add a bathroom	Other Idea or Comment	7/26/25	36.09565630624	-86.8041525722
SKATE PARK TURNED TO ICE RINK IN THE WINTER	Other Idea or Comment	7/26/25	36.18181461197	-86.7662281450
Move the East Nashville Farmers Market to East Park	Other Idea or Comment	7/27/25	36.17305487289	-86.7605405056
Make gym 24/7 or at least open later	Other Idea or Comment	7/28/25	36.15144519212	-86.8092952160
Can we please add lighting to the dog park to extend the hours of usage in the fall and winter	Other Idea or Comment	7/28/25	36.15649016216	-86.6219937158
Add a pavilion with shade and picnic tables	Other Idea or Comment	7/29/25	36.15660586866	-86.8549790472
Whites Creek Park needs a shelter/picnic area, bathroom facilities, & a walking track.	Other Idea or Comment	7/29/25	36.27487181139	-86.8187037161
Build 4 pétanque courts at the old Hillwood High School. Add restrooms or renovate the current one. www.usapetanque.com	Other Idea or Comment	7/30/25	36.11812791479	-86.8731477856
Provide improvements to West Meade Waterfall minipark	Other Idea or Comment	7/30/25	36.09446939367	-86.9133371957
I second this - move the farmers market to a park!	Other Idea or Comment	7/30/25	36.17318632893	-86.7598271369
Add restrooms + programming to the buildings here. expand the play area.	Other Idea or Comment	7/30/25	36.19080900991	-86.7023862096
Plant some trees for shade around the play area.	Other Idea or Comment	7/30/25	36.19019956487	-86.7015171739
Need sidewalks connecting all these neighborhood streets to the airpark. Rosebank feels very dangerous to walk on to access the park even if you are only on it for a short amount of time. esp. with strollers.	Other Idea or Comment	7/30/25	36.18911057049	-86.7092539011
West Meade has mo Metro Parks destinations or facilities (unless you count the tennis courts and field fields at Hillwood High). There is no playground for children and no public swimming pool.	Other Idea or Comment	7/30/25	36.10405128174	-86.9050236660
Add fitness stations along greenway or at whites creek park	Other Idea or Comment	7/30/25	36.25680188080	-86.8276129991
The park needs a picnic shelter/pavilion, walking track/trail, upgraded baseball fields, more bleachers, pickle ball court, native trees planted for much needed shade, playground, restrooms, drinking fountain, and expanded parking. Also better signage as most people do T even know this is a Metro Park!	Other Idea or Comment	7/30/25	36.27454051384	-86.8184306883
Renovation would be nice. Ingress/egress needed. Picnic shelter, signage and connection to the greenway at Fontanel.	Other Idea or Comment	7/30/25	36.24930921399	-86.8278997382
Keep current tennis courts and track on a repair schedule. Potentially add greenway, shelter, restrooms, playground, etc.	Other Idea or Comment	7/30/25	36.11794761545	-86.8750410526
please repave this basketball court	Other Idea or Comment	7/31/25	36.13734476063	-86.7813162459

This was once a temporary dog park that was great - just a fenced in area that's now not being utilized. The fencing is just laying in the magnolia trees not being used. If this could be reconstructed, well lit, and publicized, it would be a great spot.	Other Idea or Comment	7/31/25	36.16947479336	-86.7865790472
I go the Edmondson Pike library all the time...I had no idea it connected to a Greenway. Better signage at the library building or entrance or in the parking lot? Also, some grassy space next to the playground would be a great spot for more little-kid focused nature activities	Other Idea or Comment	7/31/25	36.04496472155	-86.7452742330
Future community center and large park (with ADA playground and splash pad)	Other Idea or Comment	7/31/25	36.11837109077	-86.8737144893
public pool or splashpad	Other Idea or Comment	7/31/25	36.15162075354	-86.8430078301
LL baseball field or historical site	Other Idea or Comment	7/31/25	36.11765236362	-86.7922187481

CONCERNS OR ISSUES				
Description	**Category**	**Created On**	**Lat**	**Lng**
Someone has been living in this picnic pavilion for years. they yell at park patron on the playground.	Concern or Issue	5/27/25	36.19539937	-86.72787163
Water Pooling issue, need for more of a plaza space in front of the school	Concern or Issue	5/27/25	36.17240038	-86.76019751
No ADA Ramp access to the park	Concern or Issue	5/27/25	36.17845553	-86.76067307
Naval Hill port-a-potties need more regular maintenance.	Concern or Issue	5/28/25	36.16527033	-86.74168481
Water fountains throughout the park are frequently broken, would be nice to increase budget to repair them!	Concern or Issue	5/28/25	36.17058928	-86.73368845
There is a large unhoused encampment here there makes it feel dangerous to visit this area, even during the day. If nothing else, it would be great if the trash could be removed.	Concern or Issue	5/29/25	36.19040434	-86.78416376
there are several maintenance issues at this track that need to be taken care of - consistent trash removal and mowing are at the top of the list.	Concern or Issue	5/30/25	36.11768508	-86.87590839
The condition of this course has deteriorated due to lack of funding and other resources. Being the most used course and having 27 holes in the city, Increases in playing fees and memberships must be spent on rehabilitating this important and historic course!	Concern or Issue	5/30/25	36.13861522	-86.84834152
Please replace the portable restrooms with permanent structures (we can do better than this!) or at least add portable water/hygiene stations to them!	Concern or Issue	5/30/25	36.17128943	-86.73026181
Please add/designate a pedestrian sidewalk along Shelby Park Drive. Add pedestrian crossing signage and reduce speed limit on this thoroughfare.	Concern or Issue	5/30/25	36.17208873	-86.73377151
Any updated communication on the current (2025) and future status of splash pad at Wasioto Park? This would be welcomed as we enter the summer season.	Concern or Issue	5/30/25	36.16202508	-86.76993949
I am echoing the comment about the SplashPad! We need more splashpads in Nashville and its a shame this one has been off for years	Concern or Issue	5/30/25	36.16291356	-86.77081359
The name Eastland Park is confusing, as it's not on Eastland Ave. I always have to say "Eastland Park on Douglas Ave" when I tell people where it is. It should be called Eastwood Park as it is part of the Eastwood Neighborhood.	Concern or Issue	5/31/25	36.19287074	-86.73915409
brick walkway here is very uneven and missing lots of bricks	Concern or Issue	6/2/25	36.17325762	-86.76028164
This water fountain rarely works.	Concern or Issue	6/2/25	36.16716785	-86.73219204
This water fountain rarely works.	Concern or Issue	6/2/25	36.19049363	-86.70304652
Shelby Park boat ramp has been broken for years	Concern or Issue	6/2/25	36.16514079	-86.72739507
Metro Parks removed the trash can on the boat ramp contributing to additional ramp hazards	Concern or Issue	6/2/25	36.16500788	-86.72779798

Bathrooms at Wasioto Park consistently closed	Concern or Issue	6/2/25	36.16304457	-86.77210432
Metro Parks cares more about special events than allowing locals access to the waterfront	Concern or Issue	6/2/25	36.16343427	-86.77200219
Entire waterfront not used by locals	Concern or Issue	6/2/25	36.16201024	-86.77318085
Broken splash pad for years	Concern or Issue	6/2/25	36.16240133	-86.77086847
Why was there no river access in the Naval Building revamp?	Concern or Issue	6/2/25	36.16379779	-86.74067278
Please add a paved path that connects sidewalk to McFerrin Park loop. Not ADA compliant.	Concern or Issue	6/2/25	36.18217587	-86.76544218
Please add a paved path that connects sidewalk to McFerrin Park loop on the SE corner. Not ADA compliant.	Concern or Issue	6/2/25	36.18120459	-86.76570861
Way too much loitering. Crime. Theft. Gangs hang out on the bridge. Throwing items at boaters. Come down to steal stuff off the docks from boaters. Need a consistence police presence in the park and on the bridge late night. Turn off all the power so the homeless camps can't charge their phones and computers all day with their dogs attacking people.	Concern or Issue	6/2/25	36.16285362	-86.77141936
I wish the new playground had lights. Currently the children play in the dark	Concern or Issue	6/2/25	36.11187325	-86.74452143
This update to the nature play area is so nice but without maintenance or supervision it is already getting hazardous. Last time I was there I saw kids playing barefoot near wood lying around with screws sticking out, broken flower pots, and aluminum cans discarded in the play area. Some signage to kids and parents about leaving no trace could be helpful.	Concern or Issue	6/2/25	36.16658925	-86.72417285
This section has numerous ripples in the pavement from roots buckling up the pavement. I've submitted requests on HubNashville over the past two years with no success. I've also complained about graffiti near Two Rivers Park (tunnels) and happy to see this is being monitored and painted over pretty often, thanks.	Concern or Issue	6/2/25	36.16870085	-86.72243055
Besides keeping the graffiti painted over is it possible to somehow address the standing water puddles inside the tunnels?	Concern or Issue	6/2/25	36.18975073	-86.68763389
This playground at Pitts Park desperately needs to be updated. The metal is falling apart, rusted, with sharp edges; the surface is gouged and uneven. We've been to many playgrounds in the area, and this one needs work the most.	Concern or Issue	6/3/25	36.05710699	-86.70624621
Add ramp to pedestrian bridge for access/connectivity between Douglass Park and McFerrin Park. Current option is stairs only.	Concern or Issue	6/3/25	36.18064976	-86.76201147

Charlotte Ave between 33rd Ave N and 31st Ave N is not very pedestrian friendly. The sidewalks are extremely narrow and consistently covered in glass and garbage. There is no westbound bike lane. Additionally there are homeless camps under both sides of the 440 overpass. This is the only connector between Slyvan Heights and downtown. Would recommend 1) expanding sidewalk and/or creating a mixed use path on the north side of Charlotte Ave for these couple blocks and 2) clearing out the homeless encampments. The land is already graded so would not require high cost to improve pedestrian and bike access here.	Concern or Issue	6/3/25	36.15297888	-86.8226781
Without the boardwalk section of the Stones River Greenway opened it is more difficult to complete a route to J Percy Priest. Cyclists must leave the greenway and cut through private property to skip this section. This workaround also involves more interaction with cars.	Concern or Issue	6/3/25	36.17841762	-86.63684664
This intersection is scary to cross as a pedestrian or cyclist. The blind approach coming down the hill to the west makes it difficult to see oncoming traffic and be seen. This hurts the accessibility of Fort Negley and other parks across 65. Better pedestrian/cyclist crossing points for 65 in general would improve connectivity greatly.	Concern or Issue	6/3/25	36.14204104	-86.77576471
There are several spots of active lateral erosion in this area between the greenway and Cumberland River. Suggest reinforcing these areas with rip rap or other means.	Concern or Issue	6/3/25	36.19575293	-86.69328396
There are a number of mature bradford pear trees in the wet meadow. They should be removed to reduce the chance of spreading throughout this area.	Concern or Issue	6/3/25	36.19748293	-86.69918645
There are several beaver dams located between the outflow of the pond and Cooper Creek. These dams impound water and largely shape the water surface elevation and wetted width of the ponds. I have seen maintenance crews removing these dams despite the fact that it impacts the aquatic wildlife in the area. Suggest removing this from the maintenance regime and just periodically inspecting the culvert for obstruction.	Concern or Issue	6/3/25	36.19804541	-86.70225319
Do something about the off leash dogs and their humans that have taken over this part of the park. Either put in a dog park on this side of town or enforce to off leash laws. My 4 year old son always wants to play over here but we can't because of the off leash dogs. The one time there were no dogs and we let him play he stepped in and fell into dog poop. The off leash dogs are a hazard and unwelcome nuisance.	Concern or Issue	6/3/25	36.14471268	-86.84923268
Why is this park always closed? Please open it!	Concern or Issue	6/3/25	36.07699038	-86.72804375

Second the comment about the stairs. Additionally there is no warning signage, so a bike or a disabled person can make it almost all the way across before they realize they have to turn around.	Concern or Issue	6/3/25	36.18069662	-86.76216269
Both ends of Magnolia Boulevard are odd as a pedestrian, particularly the bit on the Wedgewood side. The traffic signals, sidewalks, and crosswalks are configured in a way that forces pedestrians to wait long periods for multiple street crossings (you have to cross three times at Wedgewood and Magnolia if you want to continue walking on sidewalks). This strip which includes Portland Park should be reconfigured to promote pedestrian and cyclist usage, as this is one of the parts of the city with the highest pedestrian traffic. Looking at improvements here could improve the access of the Edgehill neighborhood to the Kroger grocery on 21st (would still be a longer walk but currently you can't really navigate a small handcart on sidewalks on the shadier side Magnolia bc of the overgrowth and, again the whole waiting to cross many times when it's very hot outside and there's no shade thing).	Concern or Issue	6/3/25	36.13366684	-86.80080361
Please make sure these crossings are safe. People drive very quickly on West Hamilton.	Concern or Issue	6/3/25	36.21445025	-86.82409121
Splash pad here was a good idea at the time, and its still a good idea now. Metro should have already found a way to make installer/manufacturer/designer of original pay for repair or replacement here. If not, fundraise and lets get it fixed.	Concern or Issue	6/3/25	36.16249095	-86.77014796
9am - 5:30 pm fitness room hours on weekdays. Who exactly is that serving folks? The neighborhood is chock full of working families, those are the hours I'd recommend closing for. Open from 6-9am and 4-9pm instead.	Concern or Issue	6/3/25	36.19733313	-86.72674869
This whole park needs a heavier police presence. The park, facilities, land and usage-rate are all awesome, but if you're here as it gets close to dark, there are way too many people hanging out in cars doing things that have no place in a park. There is also a heavy amount of smoking going on at the playgrounds in this park for some reason, which isn't great for children.	Concern or Issue	6/3/25	36.26950235	-86.74865096
This stretch is the darkest/most remote section of the greenway where it can sometimes feel unsafe.	Concern or Issue	6/3/25	36.17628621	-86.70503871
Bike fix-it station was missing parts and not fully functional last time I tried to use it.	Concern or Issue	6/3/25	36.16635468	-86.72971167

Update signage about hiking trails in pastureland portion of the park. The signs are all outdated and it is unclear whether this is public access walking land or if it remains private property.	Concern or Issue	6/3/25	36.18765781	-86.65060771
This railroad crossing is a tripping hazard, difficult connection for wheelchairs, and hazard for bike tires. Super bumpy, chipping asphalt that needs to be scraped and re-done with concrete. I know SRM is a component here, but at least the greenway path on the curve should be improved.	Concern or Issue	6/3/25	36.17725037	-86.78336587
This is the closest park to a fast growing and dense neighborhood that is somewhat pedestrian friendly. Pedestrian access to the park from Wedgewood Houston is currently unpleasant due to lack of shade	Concern or Issue	6/3/25	36.14382737	-86.77349749
Water fountain seems to never be running	Concern or Issue	6/3/25	36.19716536	-86.70280088
Part of this greenway is often closed following weather. Improve river bank to prevent flooding	Concern or Issue	6/3/25	36.18169172	-86.63366672
The bridge has been broken for a long time which makes this portion of the greenway very short	Concern or Issue	6/3/25	36.17856665	-86.63645468
The pond sometimes smells and there is a lot of litter along the pathways and hidden behind the pavilions. Consider better filtration systems for the water and hosting litter cleanups / staffing	Concern or Issue	6/3/25	36.27143456	-86.743041
Hard to call this a greenway when it's the width of a sidewalk and doesn't go anywhere/cross anywhere safely. Always littered with trash and surrounded by dangerous, dense parking lots.	Concern or Issue	6/3/25	36.08090835	-86.72444373
Do not build an access road to Cheekwood by using Warner Park land. A private organization should not be able to solve their problems with community land.	Concern or Issue	6/3/25	36.08888534	-86.87569817
Entrances to greenway off of Craighead are often closed. Need to work with Fairgrounds to ensure access for bicyclists is maintained. Also need to work with Metro for a mid-block crossing at Seminole for daily use and especially for game-day foot traffic.	Concern or Issue	6/3/25	36.12975328	-86.76058148
We need a police presence to keep homeless people away from the park and our kids	Concern or Issue	6/3/25	36.11211546	-86.74553093
Please fix the bridge!!!	Concern or Issue	6/3/25	36.17853004	-86.63665262
This intersection is an absolute nightmare for cars and pedestrians.	Concern or Issue	6/3/25	36.13657496	-86.79513883
Please add/designate a pedestrian sidewalk along Shelby Park Drive. Add pedestrian crossing signage and reduce speed limit on this thoroughfare.	Concern or Issue	6/3/25	36.17204559	-86.73347781
Need a safe crossing of Charlotte Ave (refuge island might be cheapest) to connect greenway to Sylvan Park and other greenway system. The current situation is unsafe to cross.	Concern or Issue	6/3/25	36.15092085	-86.85476744

Now that this alley is paved, the traffic is even faster. The park is filled with children under 5 that run back and forth...I am concerned someone is going to get hit or killed.	Concern or Issue	6/3/25	36.14645035	-86.78959111
Would be nice to see sidewalk here	Concern or Issue	6/3/25	36.0201734	-86.68096037
Tennis court refurbishment	Concern or Issue	6/3/25	36.18672964	-86.76067202
So many of the railroad crossings around this area are unsafe (no lights or gates, not flush with the road) and the result is usually noise pollution for the entire community. Can this be fixed as these greenways progress?	Concern or Issue	6/3/25	36.15819479	-86.81250243
I wish Coleman had updated fitness equipment and a wider variety of weight machines.	Concern or Issue	6/3/25	36.11214755	-86.74384992
I second this concern. Especially if you're walking with small children or babies. Please make sure that you put the crosswalk in a very noticeable position where there's no way that cars could not see pedestrians trying to cross.	Concern or Issue	6/3/25	36.21423327	-86.82404101
Thirded on the pedestrian bridge stairs	Concern or Issue	6/3/25	36.18064194	-86.76222436
Please fix the tennis court at Charlotte Park!	Concern or Issue	6/3/25	36.15436856	-86.87042906
Please rebuild the picnic pavillion at Charlotte Park	Concern or Issue	6/3/25	36.15485745	-86.87089792
Naval Hill should be a great disc golf course, but currently due to lack of maintenance it is falling short.	Concern or Issue	6/3/25	36.16511375	-86.74264366
Can the paths here be mowed more frequently/at all? I love to hike here but as of 6/3/25 many of the paths are covered in grass over a foot tall.	Concern or Issue	6/3/25	36.15063044	-86.92838855
Echoing Greenway closure concerns with Ascend Amphitheater.	Concern or Issue	6/3/25	36.15979298	-86.77074721
We need to STOP closing our greenways for developers and construction. They can find ways to keep these important transportation corridors open while they perform their work.	Concern or Issue	6/3/25	36.17411182	-86.78165513
This parking lot is extremely dangerous. On busy weekends, cars park all over the drive, the grass near the lot, the grass off 27th Ave, and grass along the road to the Centennial Event Shelter. Cars even park on the walking trail, making it impossible to see pedestrians. Parking signs and parking enforcement, as well as more parking, is a must.	Concern or Issue	6/3/25	36.15029632	-86.81341085
These walking trail crossings are not visible when cars are parked in this grassy area all along Parthenon Ave. It means that walkers, strollers, joggers are impossible to be seen by cars, and is an accident waiting to happen.	Concern or Issue	6/3/25	36.14912012	-86.81517036
Having no restrooms in Centennial Park is a major issue. This building was torn down, and no restrooms besides porta potties exist.	Concern or Issue	6/3/25	36.15134169	-86.81231589
My family enjoys hiking, walking, and riding the trails at Percy Warner Park. Do not build a road through the park!	Concern or Issue	6/3/25	36.07809547	-86.87885985

This would be a great greenway connection for my bike commute if the Fairgrounds gate weren't frequently closed.	Concern or Issue	6/4/25	36.13069498	-86.76100793
Please replace the shelter. It was torn down during Covid and never replaced	Concern or Issue	6/4/25	36.15501369	-86.87140357
Please add a real restroom to Charlotte park. A porta potty serving this size park with so many young families is really not realistic.	Concern or Issue	6/4/25	36.15470812	-86.86991383
A sidewalk on Deal to the park is very needed. Tons of people walk their kids and dogs here and it is unsafe with cars speeding by and zero sidewalks	Concern or Issue	6/4/25	36.15540765	-86.86681627
This stretch feels so unsafe to the point I no longer use it	Concern or Issue	6/4/25	36.18870657	-86.78429765
Residents in the Bonnas have no way to safely access the Greenway and the connector at Hickory Hill is not within walking distance for most of the neighborhood. With the development in Parkhaven some consideration should be given to creating an additional connector that serves the rest of the neighborhood and not just Parkhaven & Stone Hall	Concern or Issue	6/4/25	36.19459495	-86.64106194
There is only one ADA ramp into this park, which is often blocked by vehicles of church goers or patrons of Music Row. Please build a second ramp at the other entrance and place signage/enforcement there to keep people from blocking that ramp.	Concern or Issue	6/4/25	36.14669038	-86.79130489
Just here to echo my concerns about this disc golf area! It looks like it could be just as popular as Vinny Links Golf Course if it was fixed up and maintained.	Concern or Issue	6/4/25	36.16529377	-86.74209782
Do not allow a road to be built through Percy Warner bike trails! You're taking something away from the community and giving it to private organizations.	Concern or Issue	6/4/25	36.08855599	-86.87555194
Please open this as soon as possible and stop allowing developers to disconnect our communities and put cyclists and pedestrians in danger!	Concern or Issue	6/4/25	36.17396801	-86.78146977
This section of the Greenway is constantly flooded and filled with debris as a result, making it both hazardous and discouraging as a route. It needs to be raised and properly drained!	Concern or Issue	6/4/25	36.17297749	-86.78296504
Consistent flooding, debris, and mud collecting in this area. It creates a hazard for cyclists, strollers, and dogs!	Concern or Issue	6/4/25	36.17165615	-86.73535636
Cycling on Granny White is so dangerous especially around the curves leading south ton Radnor, but many people do cycle here. What is a responsible solution to this danger?	Concern or Issue	6/4/25	36.07143702	-86.80927993

No protection for pedestrians and/or bikes from vehicles passing under this narrow bridge. Would recommend creating barrier on north side of underpass.	Concern or Issue	6/4/25	36.14273078	-86.82604704
Greenway is closed for private development construction which significantly limits connectivity between Germantown and downtown	Concern or Issue	6/4/25	36.17324676	-86.78094755
I love this section of greenway, but when we have large rain events there tends to be raw sewage or something that is coming out of the man holes. When I walked this back in March there was toilet paper everywhere and it dampened what was otherwise a beautiful day. Also I would love to see this connect to the other sections of the mill creek greenway.	Concern or Issue	6/4/25	36.09054184	-86.67916044
Need Sidewalk or Greenway! dangerous to walk/run	Concern or Issue	6/5/25	36.16618073	-86.7906084
North end of lake needs maintenance to keep it from filling in	Concern or Issue	6/5/25	36.17097701	-86.73062792
Historic shelters on Naval Hill are in disrepair. One is completely closed off.	Concern or Issue	6/5/25	36.16510548	-86.74256621
some sort of holes in the multi-use field. orange fence around them for a long time now.	Concern or Issue	6/5/25	36.16719671	-86.73068975
what can be done to reduce the number of baggies filled with dog crap being left on the trails by inconsiderate visitors	Concern or Issue	6/5/25	36.26897018	-86.90565242
Greenway is closed and I don't know how long. I don't feel safe on the detour with my kids. I use this section for my commute and recreation on the weekends	Concern or Issue	6/5/25	36.17452516	-86.78199896
Ground frequently muddy or dusty with no grass due to trees/shade. Mulch tends to wash away. Install artificial turf (NOT rubber).	Concern or Issue	6/5/25	36.18478515	-86.71927402
Please put some time, attention, and money into this baseball field. Maplewood HS uses it as their home field, and it's just horrible. The worst I've ever seen. At least put roofs on the dugout.	Concern or Issue	6/5/25	36.22840561	-86.79196144
Lock Two is a forgotten park that could be a gem if given some love - the ONLY walkable park for folks in this area and the playground is very outdated and the historic sites are rundown.	Concern or Issue	6/5/25	36.24424262	-86.70222669
Lots of off-leash dogs and people on bikes on the I paved trails.	Concern or Issue	6/5/25	36.19608954	-86.69798503
The tennis courts at Charlotte Park have been locked and left in disrepair for many years now. Other parks in the area have usable courts, but they are often busy/in use. It would be awesome for the park and the community if these could be repaired (with lighting for evening usage) and if pickleball lines could be added.	Concern or Issue	6/5/25	36.15387625	-86.8720027
The Tennis courts are in dsrepair. Please repair them they are great for our community.	Concern or Issue	6/5/25	36.15387981	-86.87226014

Pedestrian infrastructure to get into the park from this side is lacking. It would be great to have sidewalks or a greenway to get down to the lake and fields.	Concern or Issue	6/6/25	36.1724439	-86.72782694
I do not feel safe running alone at this park	Concern or Issue	6/6/25	36.27104193	-86.74510075
More regular cleaning of the dog park portalet would be appreciated	Concern or Issue	6/6/25	36.19147018	-86.67725763
Better signage is needed to discourage young children. My friendly lab will plow over a toddler. And then the parents look at me like it's our fault. It's on the rules list, but a "No Kids Under 10" sign on the gate would be useful.	Concern or Issue	6/6/25	36.19123826	-86.67725088
It would be great to repave! The decay of pavement makes rollerskating tricky and fall prone.	Concern or Issue	6/6/25	36.19045072	-86.70284656
It would be great to repave! The decay of pavement and larger cracks makes rollerskating tricky and fall prone. Have had more than one accident caused by the cracks!	Concern or Issue	6/6/25	36.189562	-86.70161777
This isn't a real community garden. This is land that is privately owned with a house on it that has been vacant for at least 3.5 years. I believe this owner may be getting tax privileges somehow for calling this a public space when it absolutely is not.	Concern or Issue	6/7/25	36.11967892	-86.74524484
There is a significant unhoused population here that makes the park feel unsafe and increases the presence of litter.	Concern or Issue	6/7/25	36.11243614	-86.74467891
This intersection is dangerous. It needs a longer LPI at the very least and a whole redesign at most. Pedestrians do not have enough time to cross safely before motorists can drive in the same space as the crosswalk. Another easy solution is to make a pedestrian island that would force drivers turning left out of Publix lot to take the turn slower.	Concern or Issue	6/7/25	36.1597753	-86.78772144
(Ignore the other comment on Church, I meant to put that here) This intersection is dangerous. It needs a longer LPI at the very least and a whole redesign at most. Pedestrians do not have enough time to cross safely before motorists can drive in the same space as the crosswalk. Another easy solution is to make a pedestrian island that would force drivers turning left out of Publix lot to take the turn slower.	Concern or Issue	6/7/25	36.16285915	-86.78897078
Access to the Greenway is limited by when this fence is open...	Concern or Issue	6/7/25	36.12964876	-86.76055468
Please don't destroy the mountain bike trails for a road :'(Especially not for a private entity.	Concern or Issue	6/7/25	36.05831732	-86.88402666
I find the dual bike lane on 51st dangerous for cyclists. Too many intersections to negotiate. Works better on roads like Davidson.	Concern or Issue	6/7/25	36.16067926	-86.84895367

Pedestrian infrastructure to get into the park from this side is lacking. It would be great to have sidewalks or a greenway to get down to the lake and fields.	Concern or Issue	6/6/25	36.1724439	-86.72782694
I do not feel safe running alone at this park	Concern or Issue	6/6/25	36.27104193	-86.74510075
More regular cleaning of the dog park portalet would be appreciated	Concern or Issue	6/6/25	36.19147018	-86.67725763
Better signage is needed to discourage young children. My friendly lab will plow over a toddler. And then the parents look at me like it's our fault. It's on the rules list, but a "No Kids Under 10" sign on the gate would be useful.	Concern or Issue	6/6/25	36.19123826	-86.67725088

Access to the Greenway is limited by when this fence is open...	Concern or Issue	6/7/25	36.12964876	-86.76055468
Please don't destroy the mountain bike trails for a road :'(Especially not for a private entity.	Concern or Issue	6/7/25	36.05831732	-86.88402666
I find the dual bike lane on 51st dangerous for cyclists. Too many intersections to negotiate. Works better on roads like Davidson.	Concern or Issue	6/7/25	36.16067926	-86.84895367

Always a lot of debris in the bike lane here. Probably from water runoff. Not sure of the best way to fix the issue.	Concern or Issue	6/7/25	36.13007235	-86.75494984
Lots of off leash dogs! It would be great if leash laws were better enforced.	Concern or Issue	6/7/25	36.01307784	-86.68744177
Add lights to the tennis/pickleball courts. The sports are gaining popularity and are becoming increasingly full lights will all later play time while park is still open.	Concern or Issue	6/7/25	36.23515631	-86.77132803
We need seating at the tennis courts. We need debris clean up at the courts. We also need the forestry overgrown to be cut back/down from behind the tennis courts.	Concern or Issue	6/7/25	36.20995547	-86.82564282
The Old Hickory Trail up here is completely destroyed.	Concern or Issue	6/7/25	36.28988914	-86.67455523
This area gets a lot of use by many different age groups. It's one of the few places where my teenagers feel welcome hanging out, socializing and getting exercise. I'd love to see this repaired and expanded. This park also really needs more restroom facilities.	Concern or Issue	6/9/25	36.18715109	-86.68680232
Stop kicking off sledding from the golf course during snow days.	Concern or Issue	6/10/25	36.17448444	-86.73187609
Impossible marked crosswalk - literally a suicide mission trying to cross White Bridge here. Should have HAWK beacon or traffic signal installed.	Concern or Issue	6/10/25	36.13941781	-86.85744695
I live across from this greenway and LOVE IT. BUT- with Brown's Creek running through it and occasional flooding with heavy rains, I REALLY wish the city would clean out the creek/remove brush to keep the creek flowing when water is higher than usual. With the increase in new and oversized houses that have been built the run off into the creek is increased and while my property is usually not flooded - it has been happening more and more. My neighbors who back up to the creek get their crawlspace flooded every time - this didn't use to happen when the creek was routinely cleared of overgrown brush and debris. There are also issues with overgrown brush in the Greenway which is my neighborhood - some is blocking the paths. There are a few trees that need to be cleared as they have fallen in the past year and while not blocking the paths/they are affecting the creek being able to appropriately flow/drain - see above comment.	Concern or Issue	6/10/25	36.11338108	-86.77566121
A footbridge is needed to cross Long Hollow Creek on the north fork of the Laurel Woods Trail. The trail currently crosses through a mesic woodland habitat where Synandra hispidula, a rare spring wildflower, grows. When water levels rise during rain events, hikers tend to walk off-trail along the creek, causing damage to the surrounding plant community	Concern or Issue	6/10/25	36.26454704	-86.93671225

Please install a safe crosswalk across Rosa Parks from 24th Ave N. This is the main way to cross the street to get to the greenway, tennis courts, and sports fields. It's incredibly dangerous to cross. A proper crosswalk would give people much better access to these parks.	Concern or Issue	6/10/25	36.19244511	-86.81563767
Please install sidewalks on 24th Ave. It would make the walk to the park much safer!	Concern or Issue	6/10/25	36.19169432	-86.81521844
This needs to be completed.	Concern or Issue	6/10/25	36.11566541	-86.78489923
The Proctor Barn is a unique piece of Nashville's rural history, and the leak in the roof really needs to be fixed before it causes more damage. It's one of the last remaining structures of its kind in the area and could play a bigger role in future education or community use. Preserving places like this shows that we value not just our green spaces, but the stories and history tied to them	Concern or Issue	6/10/25	36.24333326	-86.90391902
A pedestrian was recently killed at this Greenway crosswalk by a driver who failed to yield. The new dog park and nearby development has drawn more foot traffic to this Greenway. It needs to be made safer with calmer traffic. Prioritize safety of parks and greenways users over needs of drivers.	Concern or Issue	6/10/25	36.18125353	-86.78874829
We would love to be able to walk/run/bike from our neighborhood to the Harpeth Greenway off Coley Davis, but there is no safe way to walk on 70S under the interstate.	Concern or Issue	6/11/25	36.08463056	-86.9580354
Can get highly congested and dangerous with bikers. Please widen path or provide dedicated walking and biking paths that are both paved, ideally separated	Concern or Issue	6/11/25	36.16625633	-86.71893386
Water/splash pad and Please plant trees for the long term.... It's barren out here and gets nasty hot in the summer.... Hard to utilize with kids	Concern or Issue	6/11/25	36.18992983	-86.70375382
Paved Stormwater Channel should be removed! All of the runoff and pesticides from the golfcourse are being dumped into the creek	Concern or Issue	6/11/25	36.14070961	-86.8491576
Pedestrians need a safe way to pass underneath the train bridge here in order to access the 440 Greenway. Numerous people walk under this bridge everyday and cars cannot see the pedestrians. Very dangerous.	Concern or Issue	6/11/25	36.14267006	-86.82573434
Complicated and busy intersection to cross from one side of 21st to the other.	Concern or Issue	6/11/25	36.13402565	-86.80079089
Greenway connects to the sidewalk, but not the bike lanes on KVB. Could be corrected with a ramp	Concern or Issue	6/11/25	36.15944476	-86.76990805

This doesn't appear to show the sound barrier wall in relation to the homes built here since 2017 (most only have 14-20ft between the house & sound barrier). It is unrealistic and unsafe to put the greenway between these backdoors and the 10-15ft. cement wall for both the residents and community members enjoying the parks/greenway.	Concern or Issue	6/11/25	36.11576163	-86.79496296
Troublesome intersection for pedestrians during peak hours. Can a pedestrian signal or flashing stop light be hung to avoid running the stop sign?	Concern or Issue	6/11/25	36.11969835	-86.78732699
Safety concerns from experience	Concern or Issue	6/11/25	36.14339627	-86.78389518
Challenging merge onto wedgewood from the neighborhoods of 12 South. This is on my daily commute.	Concern or Issue	6/11/25	36.1343178	-86.78085927
In light of the pedestrian killed further down on Third we need to revisit the traffic calming on this street. This corner specifically is also incredibly dangerous. The park right here is a children's park but there is no safe way to cross. There is a major blind spot at third and coffee.	Concern or Issue	6/12/25	36.18690264	-86.79345616
Bicentennial is not well lit in the mornings. Particularly in the winter with the time change this makes it an unsafe place to walk until the sun rises, but the sun doesn't rise until 7AM for most of winter.	Concern or Issue	6/12/25	36.17214293	-86.78830869
use of tennis courts is currently restricted though metro parks had previously approved a reno project here. this should be high priority item to get completed so the neighborhood has access to this area again	Concern or Issue	6/12/25	36.15377259	-86.87187274
Restrooms at the ballpark need some major improvements please.	Concern or Issue	6/12/25	36.16656342	-86.72942774
Zig Zag bridge needs repair.	Concern or Issue	6/12/25	36.16800585	-86.71961301
Need better sidewalks and/or bike lanes to access nearby park and cross train tracks. This portion of 4th very narrow and fast moving cars--dangerous to pedestrians.	Concern or Issue	6/12/25	36.14279721	-86.76535014
The West Meade Waterfall Park is a wilderness park but it has been neglected. It needs a trash can which is weekly emptied, it also needs a trail to its top with signate "Please stay on trail". But no benches or picnic tables.	Concern or Issue	6/12/25	36.09453151	-86.91340365
The Nations is home to lots of dogs without a place to run freely. Please add a dog park, lidded pet waste bins, and water fountains accessible to dogs in west park.	Concern or Issue	6/13/25	36.16270674	-86.86237742
Need Public Bathrooms at airpark	Concern or Issue	6/13/25	36.19065343	-86.70141614
Zig Zag foot bridge is broken	Concern or Issue	6/13/25	36.16795583	-86.71792497
Zig zag bridge needs to be rebuilt	Concern or Issue	6/13/25	36.16761174	-86.71854808
Public bathrooms needed. Hangar buildings need to be repaired	Concern or Issue	6/13/25	36.19178632	-86.70026949

This turn is incredibly dangerous and needs to be addressed. There should be a stop light here or the park entrance needs to be adjusted. This is a major Park entrance and this issue has been ignored for too long, allowing for a casualty and several accidents at this turn.	Concern or Issue	6/13/25	36.06112383	-86.91099419
Invasive Plant removal along the Richland Creek Greenway -- there is a lot of bush honeysuckle.	Concern or Issue	6/13/25	36.13514006	-86.84542624
Please NO road through Warner to Cheekwood	Concern or Issue	6/14/25	36.08479684	-86.88172083
Would like to have dogs-on-leash at Burch Reserve.	Concern or Issue	6/14/25	36.06391663	-86.90834106
add more parking	Concern or Issue	6/14/25	36.15083165	-86.81577898
add more parking	Concern or Issue	6/14/25	36.14923387	-86.81571667
add more parking	Concern or Issue	6/14/25	36.15090425	-86.81133639
add more parking	Concern or Issue	6/14/25	36.15174688	-86.81443354
this corner is impossible to see cross traffic, the large tree/bushes blocking the whole little parking lot makes this area sketchy, unsafe to drive and walk	Concern or Issue	6/14/25	36.14953779	-86.81445011
almost all lights are out or not working in the parking lot	Concern or Issue	6/14/25	36.15027598	-86.8136153
either fence this off to prevent parking and destroying the grass, or better establish this or other areas as park parking	Concern or Issue	6/14/25	36.14891628	-86.81484021
public art in centennial park is in poor condition and deteriorating, per 2017-2018 report	Concern or Issue	6/14/25	36.14834626	-86.8100271
Car break-ins are common here. Consider adding security cameras or other security measure to deter thieves	Concern or Issue	6/16/25	36.19036579	-86.70421735
Improve basketball court - paving, goals, & fencing - not great quality or in great condition	Concern or Issue	6/16/25	36.19257724	-86.73931311
Please enforce leash restrictions. We have been attacked by dogs, who's owners swear they are "under control".	Concern or Issue	6/16/25	36.06697476	-86.88681253
Signage is needed to encourage bikers to notify when coming up on walkers/runners.	Concern or Issue	6/16/25	36.19624841	-86.69795211
Please prioritize fixing the bridge on the greenway! It opens up a whole connection of recreation opportunities	Concern or Issue	6/16/25	36.18314164	-86.63356113
Sidewalks need finished and are in need of repair. Lighting is needed	Concern or Issue	6/16/25	36.13758783	-86.78027045
Please extend sidewalks to this end of Graybar Lane - will help with walking and improve connectivity to the park	Concern or Issue	6/16/25	36.11107118	-86.80998128
this playground is very out of date and needs a refresh...a splash pad would be great here too	Concern or Issue	6/16/25	36.1711143	-86.73528386
I agree with previous comment. This would be a great improvement. At one time a landscape architect did a proposal to clearly link the two parks and create rounded corners and walkways	Concern or Issue	6/16/25	36.14657511	-86.7906429
The fence here needs repairs and is not much of a detergent for anyone especially children to stay on the grass	Concern or Issue	6/16/25	36.14649531	-86.79002119

Please add more parking here since it's so popular and hard to turn around when full.	Concern or Issue	6/16/25	36.02046176	-86.6814575
Please do not plant any more trees along this open prairie space. It feels safer without trees along the greenway.	Concern or Issue	6/16/25	36.0149691	-86.68489611
too many people walking across the path. Consider separating lanes (walking only, wheels)	Concern or Issue	6/17/25	36.16561285	-86.72289237
The airpark needs permanent restrooms.	Concern or Issue	6/17/25	36.18910621	-86.70242374
Greenway has been closed for months. Repair or provide signage for alternate route.	Concern or Issue	6/17/25	36.1794916	-86.63480952
Pave path from Nature Center to creek and along creek to greenway. Nature center is accessible but not park	Concern or Issue	6/19/25	36.06077449	-86.90618765
Entrance is confusing at best and dangerous at worst. Use/See Chickening Road entrance to parking, golf center, Park as model	Concern or Issue	6/19/25	36.06112957	-86.91066372
Continue sidewalk	Concern or Issue	6/19/25	36.10868409	-86.80061554
Continue and connect sidewalk	Concern or Issue	6/19/25	36.12159945	-86.76568327
Continue and connect sidewalk	Concern or Issue	6/19/25	36.12110283	-86.7657212
Continue and connect sidewalk from Lipscomb to Sevier Park	Concern or Issue	6/19/25	36.10857717	-86.79378801
Continue and connect sidewalk to 21st Avenue	Concern or Issue	6/19/25	36.10870815	-86.81202302
it used to be. The vibe changed drastically after the	Concern or Issue	6/20/25	36.16698003	-86.72417616
The issue is the deterioration of the park aspault at Cornelia Fort; the old runway. It is in continuous decline. Hoping there is a plan to repave. In addition, bicyclist often ride too fast. Maybe add speed himps to slow them down.	Concern or Issue	6/23/25	36.19003484	-86.70084572
There is no sideway to enter in and out of shelby park on davidson. The bike path ends right before you get into the park and feels dangerous to walk/bike into the park from Davidson	Concern or Issue	6/23/25	36.16355126	-86.74303138
Dangerous getting into the park. People drive way too fast. I fear for my son's safety riding his bike to the park.	Concern or Issue	6/23/25	36.16309706	-86.7445376
Love this entry to the park, super close to my house. Had my car robbed here about a year ago by someone triangulating my key fob's signal to get into my car, and then re-lock it while I was walking. Not sure what a possible solution might be, I just wanted to share that this happened and it absolutely sucked. I'm in Shelby nearly every day, and so grateful for this incredible asset to our city!	Concern or Issue	6/23/25	36.19733592	-86.7028363
This road is SO dangerous. Traffic in and out of school is a nightmare. They don't even let kids walk to school anymore because of it. ALSO, the playground is fully visible from this road and that seems like such a huge safety and security issue. I'm begging someone to plant a treeline barrier or put up a brick wall barrier so that our kids aren't visible from the road.	Concern or Issue	6/23/25	36.11466796	-86.92285405

Cyclists are aggressive, demand pedestrians yield to them, and consistently operate at unsafe speeds. I am not talking about people on bicycles I am talking about competitive cyclists who are out for mileage and speed. These cyclists need a safe space for the type of exercise they seek and should be banned from greenways due to safety concerns. Enforcement of the speed limit and single-file cycling is badly needed if they are going to use the greenway.	Concern or Issue	6/24/25	36.14514979	-86.85173636
This stretch of greenway is unsafe due to golfers. Increased fencing is needed and the existing fencing needs to be better maintained. Also golfers need to be mindful of walkers who do not need to hear profanity and witness public urination.	Concern or Issue	6/24/25	36.1450869	-86.85257589
Bridge is a disaster when it rains hard - takes a lot of effort to remove trash and it's been repaired many times from the tons of debris that hit it. Could we consider raising it up so it does not get damaged by floods?	Concern or Issue	6/24/25	36.11816922	-86.72425973
Area was trashed from the large homeless camp - there are no waste facilities available. May I suggest a garbage can for people to use in this general area?	Concern or Issue	6/24/25	36.18731915	-86.78473036
I'm not anti-pot, but this area is ridiculous. At 5pm you park there you're getting high just trying to get out of the car from the second hand smoke. It's where the Metro Center restaurant employees drop by for after work festivities and has taught my young kids a thing or two about what adult life entails.	Concern or Issue	6/24/25	36.19255166	-86.82489246
What a beautiful new playground here. What a shame that there is zero shade for it. Please plant trees for long term shade, and add shade cloth for short term shade. (Ex: McFerrin Park's new playground)	Concern or Issue	6/25/25	36.21398685	-86.844041
Please add trees and/or shade cloth so that children can make use of this great playground in the hot months.	Concern or Issue	6/25/25	36.19062585	-86.80663387
Extend the Richland Creek Greenway so it can connect to the downtown greenway...and make the greenway contiguous!	Concern or Issue	6/27/25		
Please repair the water fountains.	Concern or Issue	6/27/25	36.18563807357	-86.6874421556
Please repair the water fountains	Concern or Issue	6/27/25	36.18709114142	-86.6870412005
Better playground maintenance/new equipment to incentivize use from families instead of drug use.	Concern or Issue	6/28/25	36.24424168521	-86.7023919062
Please work to improve communication to the general public so that events, programs, and opportunities are available via social media, websites, or even local bulletin board postings versus Word of mouth by having a friend or family member working at this location.	Concern or Issue	6/28/25	36.08705303137	-86.6116495184

North Cumberland Green Way, connecting east and West Nashville as well as the flood planes of lower Bordeaux.	Concern or Issue	6/30/25		
Greenways should get pedestrians to local amenitites. The extra dollars should be spent to connect planned and existing greenways to our existing entertainment.	Concern or Issue	6/30/25		
Please just conect the greenways. No more disjointed greenway systems	Concern or Issue	6/30/25		
Connect Shelby to eastwood	Concern or Issue	6/30/25		
Need to mark bumps in pavement where trees roots create cycling hazards	Concern or Issue	6/30/25	36.19261652362	-86.6916785596
People experiencing homelessness have significantly changed the use of this park. People experiencing homelessness use the pavilion 24 hours a day. Many neighbors say they don't feel safe at this park.	Concern or Issue	7/1/25	36.15159836087	-86.8441505574
Older pickleball courts in desperate need of resurfacing. Shade options desperately needed in vicinity of courts or sunshades at side of courts- pickleball and tennis. Routine maintenance is long deferred- many nets on old and new pickleball courts are missing center net cords. Residents pay a fee to play that apparently is not dedicated to maintaining the facility. Court operating hours especially on Sunday are too late given heat conditions in the summer (and close too early). Why not allow the public to use the courts without fee at times that the center is not open and lock gates during facility hours to allow residents to play earlier before heat conditions make it too hot to play or later.	Concern or Issue	7/1/25	36.15128151498	-86.8090824825
This area is supposed to be part of Lockeland Springs Park	Concern or Issue	7/4/25	36.17687177998	-86.7352426122
dangerous crossing for hikers and cyclists here at the blind curve/uphill where the trail crosses Old Hickory- could use signage to warn motorists of crossing	Concern or Issue	7/4/25	36.05741927274	-86.9019174991
This portion of Davidson St, from the end of the complete street east of 14th St to the start of the greenway near the trestle, is not very pedestrian friendly. Which is a real shame given how great everything is east and west of this stretch. One can run/walk/bike from downtown to the Percy Priest dam without worrying about a single car, except on this stretch. The new pavement is great, and the speed cushions help, but it sure would be nice to have a buffered area for pedestrians here.	Concern or Issue	7/5/25	36.16437025714	-86.7364565605
Obviously no small thing but the greenway at Mccabe at it's current size is not suitable for bikers in addition to the walkers and runners. I think the greenway should either be widened or bikes disallowed	Concern or Issue	7/7/25	36.14131211933	-86.8429514130

This has been padlocked since covid. Unacceptable. It has taken Metro longer to fix this tennis court than it did to build the Golden Gate Bridge. NIMBY's shouldn't be allowed to thwart the pickleball courts.	Concern or Issue	7/11/25	36.15369747460	-86.8718927187
sidewalks are desperately needed here - would love to walk from Hermitage Park to the Stones River Greenway but it is unsafe	Concern or Issue	7/11/25	36.17879851999	-86.6177497592
boardwalk needs repair	Concern or Issue	7/11/25	36.17671822132	-86.6146868523
Need much more consistent access for kayak outfitters. They should be able to operate throughout events and construction downtown.	Concern or Issue	7/11/25	36.16488435609	-86.7735817803
The boat ramp can get congested and unsafe for kayakers when jet skiers camp out and purposefully cause wakes and waves on weekends.	Concern or Issue	7/11/25	36.16504293761	-86.7278870482
Please make a biking/pedestrian greenway on Belle Meade boulevard. Will help with safety and improve the overall experience.	Concern or Issue	7/11/25	36.08780056815	-86.8623960611
There should be a bathroom & changing area here, as it is a very popular parking destination	Concern or Issue	7/11/25	36.08311554067	-86.8668456510
The bathrooms in the nature center are often closed, and the port a potties get gross. It'd be great to have permanent access to bathrooms and a place to change.	Concern or Issue	7/11/25	36.16339325393	-86.7444935241
Return porta-potty.	Concern or Issue	7/12/25	36.11720179714	-86.7195165282
Sidewalks desperately needed connecting the Hermitage Library/Park with Old Hickory Blvd. Very dangerous area for pedestrians.	Concern or Issue	7/13/25	36.18242859673	-86.6115514340
Repair the play area and spray ground. It was an amazing spot that families from many neighborhoods could access and enjoy.	Concern or Issue	7/15/25	36.16215016727	-86.7698745114
This is a dangerous spot for pedestrians...going under the train bridge. Visibility of oncoming traffic is low.	Concern or Issue	7/15/25	36.17239207196	-86.7278168745
The boulders here are really important. Cars come flying down the hill and sometimes don't stop at the end of Riverside. The boulders have been hit and moved multiple times. They need to be close enough together to prevent cars from coming through, but far enough apart for strollers and wagons.	Concern or Issue	7/15/25	36.16817381522	-86.7254418158
Please fix the zig zag bridge!	Concern or Issue	7/15/25	36.16796912108	-86.7180952782
Bikes go WAY too fast here, and have little forgiveness for dogs, children and groups of walkers.	Concern or Issue	7/15/25	36.16574981476	-86.7203679399

It would be nice to see more benches, water fountains and trash cans (or even specifically dog poop trash baggies/cans) along the greenway. I often see that people have bagged their dog's poop but there isn't a close by trash can, so they leave it until they walk back so they're not holding it for their entire walk. And some people don't even pick up after their dogs, so maybe some poop bag/trash stations would deter this.	Concern or Issue	7/15/25	36.16569110624	-86.7226809882
This on/off ramp for Ellington is terrifying for pedestrians to cross. Some sort of signaling or lighting would be beneficial here.	Concern or Issue	7/15/25	36.19319131909	-86.7519636907
Is this Approved or voted on?	Concern or Issue	7/19/25	36.05303527848	-86.7681037673
Homeless camps under I-440 Bridge and narrow sidewalk. Recommend to widen sidewalk / make multi-use path on Charlotte Ave under 440 and add lighting under bridge to increase safety connection to Sylvan Heights	Concern or Issue	7/21/25	36.15309335510	-86.8225956627
Difficult crossing for primary bike route through downtown. Would be great to install a traffic light here.	Concern or Issue	7/21/25	36.15320274811	-86.7695781488
Signal Cross needed across Charlotte at Greenway Connector	Concern or Issue	7/21/25	36.15103329896	-86.8545995572
Signal Cross needed across Charlotte Richland Park Farmers market	Concern or Issue	7/21/25	36.15200019610	-86.8470954791
Signal Cross needed across Charlotte	Concern or Issue	7/21/25	36.15204614944	-86.8459385166
This is a very dangerous entry/exit. Consider relocating it or adding a light or both.	Concern or Issue	7/21/25	36.06118883915	-86.9109062244
The walk to/from Pinewood and the parking garage feels isolated and is dark at night. Does not feel safe.	Concern or Issue	7/21/25	36.15807059774	-86.7674493423
This is area has poor fencing, large homeless concentration and tons of trash.	Concern or Issue	7/21/25	36.16619788642	-86.7763538868
Homeless camp by McDonalds	Concern or Issue	7/21/25	36.14597844739	-86.8114044994
add playground for kids	Concern or Issue	7/21/25	36.17118346238	-86.7880995962
Greenway is structurally failing in this location and needs immediate repairs. Caution tape is up.	Concern or Issue	7/22/25	36.06314194379	-86.9536704473
Homeless/Unhoused must be removed for the safety of citizens.	Concern or Issue	7/22/25	36.19133625749	-86.7844178579
Please improve the Cleveland Park pool and bathhouse. It's such a wonderful place, but it needs attention and improvement!	Concern or Issue	7/22/25	36.18745893426	-86.7599673738
The Cleveland Park playground, basketball courts, tennis courts, and picnic shelters need to be updated and improved. This park could be so beautiful will some help and attention!	Concern or Issue	7/22/25	36.18718934458	-86.7603187288
Please restore the tennis courts, it's time and there is so much demand	Concern or Issue	7/22/25	36.18686756196	-86.7606914955
The pool house needs to be painted to match the community center as well as renovated inside. Pool itself needs improvements to be more stable and increased hours to serve east side more	Concern or Issue	7/22/25	36.18762203824	-86.7599802338

The park, greenway, and creek need some major TLC. There is a lot of garbage.	Concern or Issue	7/22/25	36.11810477451	-86.7231011127
This is a dangerous crossing design! Coordinate with NDOT to change this crosswalk into a raised crosswalk, narrow approaches from each intersection leg and add crosswalks to each leg. Add lighting please!	Concern or Issue	7/22/25	36.14325205626	-86.8233599641
Need a sidewalk to the Harpeth River Greenway Trailhead	Concern or Issue	7/22/25	36.06105310268	-86.9431978868
Please add a sidewalk along Old Harding Pike to allow safe walking & cycling/dog walking to the Harpeth River Greenway trailhead.	Concern or Issue	7/22/25	36.05960669879	-86.9443957751
Please add a signalized pedestrian cross walk at the intersection of Sawyer Brown Rd and Old Harding Pike so that kids, seniors, non-driving population can safely access the Harpeth River Greenway.	Concern or Issue	7/22/25	36.06230431040	-86.9427607488
Parking is stressful making it difficult to plan a trip to visit	Concern or Issue	7/22/25	36.06354166033	-86.8106200912
This stretch is soo dirty :(	Concern or Issue	7/23/25	36.18805655754	-86.7842697885
Safety in this park is a concern. Fences have been installed at the street entry, but foot access is easy from Dickerson pike and Old Hickory. I'd love to see some better natural or tall fencing in place to discourage entry outside of the marked entry. Would also love an entrance from the neighborhood side (not dickerson or ohb) for safely accessing the trail loop from Madison and Goodlettsville neighborhoods.	Concern or Issue	7/23/25	36.27038563805	-86.7407271549
Sidewalks desperately needed between Burgess and Charlotte to accommodate heavy pedestrian traffic through bottleneck area in front of Nashville Humane Society compound	Concern or Issue	7/23/25	36.14712747178	-86.8596443349
Please keep trees and brush trimmed. This area features a curving downhill slope that cyclists love to ride fast on. Encroaching trees branches and large brush growth force pedestrians to middle of pathway on a blind curve, increasing the likelihood of a dangerous collision with a cyclist.	Concern or Issue	7/23/25	36.13576910972	-86.8508217855
Please extend covered walkway fencing to protect from stray golfballs. More than once I've had one bounce within inches of where I was walking. This strait fairway / greenway stretch is especially vulnerable	Concern or Issue	7/23/25	36.14239526342	-86.8515673605
Accessing the Richland Creek Greenway from the west side of White Bridge Pike is dangers due to the poorly maintained sidewalks, wide road, and high vehicle speeds. There are a lot of potential greenway users over here who effectively have to drive to get there even though it's a super short distance.	Concern or Issue	7/23/25	36.13735655021	-86.8578512774

We desperately need a traffic light, it is both dangerous to enter and exit as well as being untimely to do so!!!!	Concern or Issue	7/25/25	36.26745243492	-86.7462763731
Water fountain is not operable, we need this fixed. It's hot!!!	Concern or Issue	7/25/25	36.27221801117	-86.7439918077
Where will the trail go? Some of the homes over here have no backyard as is.	Concern or Issue	7/25/25	36.11914078786	-86.8012369601
I love this greenway, but it tends to flood on a regular basis.	Concern or Issue	7/26/25	36.05452904016	-86.9440278041
Very dangerous place to walk- impossible for anyone with kids. Needs sidewalks	Concern or Issue	7/26/25	36.06040263691	-86.9436798668
Edges of Greenway on map are not accurate. Some of the green shaded area along Culbertson Road belongs to 6036 Culbertson rd. Property.	Concern or Issue	7/26/25	36.01291362416	-86.6838985292
Make Lebanon pike after to walk/bike on in Donelson!!!!	Concern or Issue	7/26/25	36.16916339432	-86.6842340346
Do NOT spend taxpayers money to build a new road to Cheekwood on park property when they already have several access roads!!!	Concern or Issue	7/26/25	36.08644955217	-86.8793945272
Fix backstops and drainage of ball fields	Concern or Issue	7/26/25	36.09457343899	-86.8041908219
undersused. Not safe when not used for sporting events. What else can be done to get community involvement? Have activities here?	Concern or Issue	7/26/25	35.99054078037	-86.6201241090
Build restrooms and add disc golf tee signs to each hole	Concern or Issue	7/28/25	36.16552902216	-86.7427798824
Build restrooms and add safety patrols	Concern or Issue	7/28/25	36.27350375384	-86.7517249712
Update restrooms and maintain year round	Concern or Issue	7/28/25	35.99047295035	-86.6234131915
Update restrooms and maintain year round	Concern or Issue	7/28/25	36.10825911747	-86.6979998015
My kids enter the park from this intersection and there are too many cars moving quickly, especially on farmers market days where each of the streets is lined with parked cars on both sides of the street. I would love to see crosswalks here for pedestrians to safely enter the park from the west corner of the park.	Concern or Issue	7/28/25	36.15090302123	-86.8471484623
Fix Cumberland Park!	Concern or Issue	7/29/25	36.16245347907	-86.7700538622
Hiking trails at fontanel are in need of maintenance	Concern or Issue	7/29/25	36.25578325551	-86.8229419899
greenways at fontanel are dilapidated	Concern or Issue	7/29/25	36.25352945843	-86.8274730867
Cherokee road is a busy road for cars and pedestrians. This road should be a priority for sidewalks.	Concern or Issue	7/29/25	36.13337918779	-86.8399155368
Lets make this land protected with a greenway, natural waterway park. We have too much industrial disturbance as it along Franklin Limestone Rd.	Concern or Issue	7/30/25	36.07859490490	-86.6716223400
The Highland Rim area needs conservation plan with Parks and other Metro and non-profits	Concern or Issue	7/30/25	36.23490681856	-86.8899339080
Move Nature Center entrance to Old Hickory Blvd intersection. Current location is dangerous and scary	Concern or Issue	7/30/25	36.06017856928	-86.9158054810
This park should be open to the public	Concern or Issue	7/30/25	36.23971685562	-86.6342791878

I don't use this part of the greenway because it looks hazardous and unkept. Needs routine maintenance.	Concern or Issue	7/30/25	36.25430373570	-86.8272901548
This covered picnic hut is always very filthy. The roof and structure doesn't seem safe. It's usual only used by homeless people that deal and use drugs (they use the fireplace as a drop-off area for the drugs).	Concern or Issue	7/31/25	36.13784507466	-86.7820607719
This old structure is frequently used by homeless people for overnight camping.	Concern or Issue	7/31/25	36.13816548118	-86.7813428159
This area with overgrown brush is frequently used by homeless people for overnight camping.	Concern or Issue	7/31/25	36.13810666739	-86.7795932706
Unhoused camp under the overpass is unsafe. Need lighting and patrols on greenway.	Concern or Issue	7/31/25	36.20535045562	-86.8404387378
Brush is extremely overgrown creating unsafe conditions for solo walkers, runners, bike riders.	Concern or Issue	7/31/25	36.20736914969	-86.8517762832
Brush is overgrown along the entire greenway creating unsafe conditions for use.	Concern or Issue	7/31/25	36.20456921984	-86.8374290679
Given that the Council Member is pushing increased density against the community's wishes. An example of a Community Benefits Agreement could be to create a green space or walking area for community residents.	Concern or Issue	7/31/25	36.28752023753	-86.7321755188
If Metro is serious about public health, they will prioritize parks and walking spaces in communities that have poor health outcomes. It is not safe to walk here unless you are with someone. Finding someone to walk with is not always feasible. CEdar Hill park has been an after thought for over 20 years. JUST DO BETTER. The tax payers in our neighborhood also deserve a quality park experience like the more affluent neighborhoods across town.	Concern or Issue	7/31/25	36.27217308934	-86.7477758647
The greenway becomes unsafe for people by themselves, especially women, past this point going north. The greenway needs to be maintenanced, cleaned up, and patrolled.	Concern or Issue	7/31/25	36.18220343022	-86.7860819948
Hard to tell if the trails are supposed to be accessible to the public or not - if so, they need a lot of work	Concern or Issue	7/31/25	36.25676413522	-86.8252960591
The Nashville City Cemetery is home to many of Nashville's Iconic early settlers. From original Fisk Jubilee singers to James Robertson. The Cemetery has a huge need for repairs, restoration, and site activation. It it's wedged between so many wonderful neighborhoods and is more frequently used as a park.	Concern or Issue	7/31/25	36.14754958142	-86.7693061026
Parking is scarce or not available	Concern or Issue	8/1/25	36.16204818327	-86.7696839544
Would like Wasioto Park to be better maintained and also have available and accessible parking. Wasioto Park is located at 592 S 1st St, Nashville, TN 37213	Concern or Issue	8/1/25	36.16249598551	-86.7702137437

Wasioto Park and what it represents is a valuable part of Nashville's history. Where is the signage? People need to know where to go, why it was renamed. They need to be able to park and spend time at a well maintained park we all as Nashvillians can be proud of!	Concern or Issue	8/1/25	36.16261560203	-86.7704575649
This place is incredibly dark. We really need lights to make it safer around dusk. Also, bathrooms. There isn't a single bathroom.	Concern or Issue	8/1/25	36.15628764910	-86.8546283954
The road is too wide and needs a street calming project!	Concern or Issue	8/4/25	36.15864410543	-86.8511664176
Plan to Play 2017 recommends two new regional skateparks (big – Two Rivers scale or bigger) and some neighborhood scale skateparks. None of these have ever been funded by the Mayor and Council.	Concern or Issue	8/20/25	36.19257622256	-86.6834790580

SUGGESTED GREENWAY ROUTES		
Description	**Category**	**Created On**
Add a greenway along Davidson. This is the most dangerous part of the stretch between Downtown and the Shelby Bottoms Greenway	Suggested Greenway Route	5/27/25
Bells to Beaman greenway/connector	Suggested Greenway Route	5/27/25
Connect Richland Creek Greenway to 440 Greenway	Suggested Greenway Route	5/27/25
Connect the Gulch Greenway to the Cumberland River Greenway	Suggested Greenway Route	5/27/25
Creating a dedicated bike/ped lane on Davidson	Suggested Greenway Route	5/27/25
This connection has been talked about for years. What is happening to connect to Opry Mills?	Suggested Greenway Route	5/27/25
Finish the loop around Lake Sevier	Suggested Greenway Route	5/27/25
Need access to 6th Ave	Suggested Greenway Route	5/27/25
connect richland creek greenway and belle meade boulevard, which provides (reasonably) safe access to warner parks	Suggested Greenway Route	5/28/25
Build the Charlotte Corridor Rail-with-Greenway	Suggested Greenway Route	5/30/25
20th St Greenway could be like Richland Creek Greenway, but flatter!	Suggested Greenway Route	6/2/25
Boardwalk along Browns Creek	Suggested Greenway Route	6/2/25
I usually used Woodland St Bridge to connect the greenways when cycling rather than the pedestrian bridge since it's a more direct connection to Cumberland Greenway without having to go through Broadway craziness. Adding a bikeway/lane here would make that connection more obvious to others.	Suggested Greenway Route	6/3/25
Connecting Mill Creek greenway to Shelby would be a game changer!	Suggested Greenway Route	6/3/25
Metro owns this land, and it's begging for a greenway to connect West and England Parks	Suggested Greenway Route	6/3/25
Connecting Germantown to Shelby (via Davidson) through Cleveland/McFerrin Parks, Frederick Douglass Park, East Park would give biking and other non-street traffic access to each of these neighborhoods through safe and fun routes.	Suggested Greenway Route	6/3/25
Connecting the Nolensville Pike corridor to the north downtown Greenway systems to connect the Fairgrounds, Soccer, Speedway, First Tennessee Park, TN State Museum, Farmers Market, and even the Zoo all in one path. Connecting these neighborhoods through a public option that does not require a bus would be amazing.	Suggested Greenway Route	6/3/25

Metro Public Works had a plan for a multi-use path along Old Harding Pike in 2019. This corridor really needs connectivity for the greenway, parks, library, middle school, WeGo Route 3B, etc.	Suggested Greenway Route	6/4/25
Possible Greenway Route- low traffic area- 1oth ave in need of sidewalk	Suggested Greenway Route	6/5/25
connection to Eastland - opens park up for so many more patrons	Suggested Greenway Route	6/5/25
There is so much development north of Centennial Blvd. here, but it is extremely dangerous to cross, with very little crossings and four lanes of traffic. An urban greenway in this location (replacing two general travel lanes) would do a ton to improve safety in the neighborhood, connect to West Park, etc.	Suggested Greenway Route	6/5/25
Connection from planned greenway along river to Centennial Blvd (Opt. 1)	Suggested Greenway Route	6/5/25
Perimeter loop- preferably soft surface (crushed gravel or bark mulch)	Suggested Greenway Route	6/5/25
Better connectivity between cornelia fort and the bridge	Suggested Greenway Route	6/6/25
Greenway down Riverside under powerlines	Suggested Greenway Route	6/6/25
Greenway under powerlines connecting to Stratford	Suggested Greenway Route	6/6/25
Greenway under powerlines	Suggested Greenway Route	6/6/25
Greenway under powerlines for the growing corridor	Suggested Greenway Route	6/6/25
Cleveland Connector Greeway	Suggested Greenway Route	6/6/25
Davidson Greenway, make the bike lane a full protected greenway connecting downtown to Shelby	Suggested Greenway Route	6/6/25
Provide better pedestrian connectivity through the park. There's no pedestrian pathway connecting parking and other points of the park, so pedestrians and cars are often sharing the road.	Suggested Greenway Route	6/7/25
A relatively small sidewalk/greenway project could connect McFerrin Park and Douglass Park with a multi-use path. Narrowing Marina st to two lanes, widening the sidewalk along Marina to allow bikes and pedestrians, installing a raised crosswalk at Lischey, and tying into the McFerrin Park greenway loop.	Suggested Greenway Route	6/11/25
This would be a useful connection to this neighborhood	Suggested Greenway Route	6/11/25

Including greenway here could connect to transit on Buena Vista Pike. It seems like a missed opportunity not to include.	Suggested Greenway Route	6/11/25
A connection to 7th Ave that follows the topography would be an improvement. 8th Ave can be pretty stressful due to school drop-off traffic	Suggested Greenway Route	6/11/25
Would love to see an entrance near the SE corner of Centennial Park, and this connection would make it much easier to safely traverse east/west	Suggested Greenway Route	6/11/25
Generally recommend connecting park paths to nearby intersections, as this makes it much easier to walk or roll to the park.	Suggested Greenway Route	6/11/25
Extend Whitsett Park Greenway	Suggested Greenway Route	6/13/25
There's no safe way to commute to work on a bike if you live along Charlotte Ave. We can do the greenway over to Richland Park, but then you really have to take the bus b/c the road is just unsafe for bikes into downtown. I'd love a greenway that connects up to other greenways that will get you downtown.	Suggested Greenway Route	6/18/25
Connect Radnor to existing Otter Creek greenway	Suggested Greenway Route	6/19/25
Connect Warner to existing Otter Creek greenway	Suggested Greenway Route	6/19/25
It would be ideal to have greenway connection to Century Farms, utilizing Turkey Creek and widening the existing sidewalk network	Suggested Greenway Route	6/19/25
It would be ideal to add a connection from Mill Ridge to Century Farms, utilizing and widening existing sidewalk network.	Suggested Greenway Route	6/19/25
connect existing greenway via easement to Century Farms	Suggested Greenway Route	6/19/25
A connector to the new sidewalk/bikeway along Nolensville Pike would be very beneficial	Suggested Greenway Route	6/19/25
Holt Creek Greenway Connector	Suggested Greenway Route	6/19/25
Add connectivity to new school sidewalks that are going in. The path through here is disconnected and dangerous due to narrow bridge.	Suggested Greenway Route	6/19/25
Extend the Richland Creek Greenway so it can connect to the downtown greenway...and make the greenway contiguous!	Suggested Greenway Route	6/27/25
North Cumberland Green Way, connecting east and West Nashville as well as the flood planes of lower Bordeaux.	Suggested Greenway Route	6/30/25

Greenways should get pedestrians to local amenitites. The extra dollars should be spent to connect planned and existing greenways to our existing entertainment.	Suggested Greenway Route	6/30/25
Please just conect the greenways. No more disjointed greenway systems	Suggested Greenway Route	6/30/25
Connect Shelby to eastwood	Suggested Greenway Route	6/30/25
A greenway connecting some of the main roads to the recreation areas would be great. Either to Cooks or to Seven Points. A great way to connect the neighborhoods, maybe run it along the water some so there can be canoe/kayak ramps.	Suggested Greenway Route	7/10/25
To Connect Mill Creek Park and Browns Creek Park	Suggested Greenway Route	7/11/25
To Connect Mill Creek Park to the Cumberland Greenway	Suggested Greenway Route	7/11/25
Sugartree greenway, connecting harding town center to green hills would be a game changer	Suggested Greenway Route	7/14/25
Complete the loop!!	Suggested Greenway Route	7/14/25
extend the richland creek greenway	Suggested Greenway Route	7/14/25
connect richland creek to metro center	Suggested Greenway Route	7/14/25
crestmoor connector	Suggested Greenway Route	7/14/25
green hills connector	Suggested Greenway Route	7/14/25
Murphy Rd. has disconnected sidewalks and bike lanes that constantly have people parked in them. Use the bike lane space and create a greenway.	Suggested Greenway Route	7/24/25
Create greenway under power lines in Crieve Hall connected from Franklin Pike to Seven Mile Creek Greenway	Suggested Greenway Route	7/17/25
Connect Seven Mile Creek Greenway to Crieve Hall Elementary playground	Suggested Greenway Route	7/17/25
People use this bridge to connect the Ag Center and Park - it needs a dedicated lane/sidewalk.	Suggested Greenway Route	7/19/25
N/A	Suggested Greenway Route	7/19/25
Coordinate with property owners for a Tax deduction for property along the future greenway for Easement and Convant	Suggested Greenway Route	7/21/25
Connect North Nashville and West Nashville Greenways	Suggested Greenway Route	7/21/25
Saint Thomas addition to Greenway	Suggested Greenway Route	7/21/25
Charollot Ave Trolly Greenway	Suggested Greenway Route	7/21/25
Could be nice to provide a walkable connection for the folks on Maudina (including a large apartment complex) to access the stores, restaurants, and bus stops on Charlotte.	Suggested Greenway Route	7/23/25

Connect greenway to Burgess, enabling access on the northern end of it to the apartment complex here and many residents in houses nearby.	Suggested Greenway Route	7/23/25
CONNECT OUR PARKS TO THE RIVER	Suggested Greenway Route	7/26/25
CONNECT OUR PARKS TO THE RIVER	Suggested Greenway Route	7/26/25
PED BRIDGE ACROSS THE RIVER - CITY OF PEDESTRIAN BRIDGES. CITY THAT CELEBRATES ONE ITS GREATEST GEOGRAPHIC RESOURCES, THE RIVER	Suggested Greenway Route	7/26/25
connect the greenway with bridge on or connect to Briley Pkwy Structure	Suggested Greenway Route	7/27/25
connect greenways along Hillwood	Suggested Greenway Route	7/27/25
Shelby to Lockeland Springs down all the woodland neighborhood hubs to East Park to Frederick Douglass Park over the Ellington Pedestrian Bridge	Suggested Greenway Route	7/27/25
Connect to Oakwood Park, introduce traffic calming on Hart Lane/protected lane	Suggested Greenway Route	7/27/25
continue Oakwood Park Connectivity	Suggested Greenway Route	7/27/25
Meridian N/S connection	Suggested Greenway Route	7/27/25
Murphey Road Tie in	Suggested Greenway Route	7/27/25
South loop connection through Vanderbilt to Downtown	Suggested Greenway Route	7/27/25
North Nashville to Downtown Connection	Suggested Greenway Route	7/27/25
East West Buchanan Connection	Suggested Greenway Route	7/27/25
Centennial Park to Wedgewood Connection	Suggested Greenway Route	7/27/25
Wedgewood Geodis Connection	Suggested Greenway Route	7/27/25
I would love to see a bike/pedestrian path that follows along Park Ave instead of Charlotte Ave. It would be great for it to connect One City (and the new proposed greenway there!) to 51st Ave (which connects both the west side of town, the nations, and sidewalks along 51st to the greenway). One day it could connect to the proposed greenway along Richland Creek. I highly prefer this happens along Park Ave to Charlotte Ave for safety. I would not feel comfortable biking with my kids along Charlotte Ave but would along Park Ave.	Suggested Greenway Route	7/28/25
Hiking trail along existing fire road located along ridgetops. Obtain trail easements from the only approximately 10 landowners in this segment. Develop a plan for long distance ridgetop hiking network in Nashville Highland Rim forest	Suggested Greenway Route	7/29/25
connect proposed greenways	Suggested Greenway Route	7/29/25
trails around lake	Suggested Greenway Route	7/29/25

greenway connecting new park to future whites creek greenway	Suggested Greenway Route	7/29/25
connect proposed greenways	Suggested Greenway Route	7/29/25
connect greenway to park	Suggested Greenway Route	7/29/25
connect greenway to park	Suggested Greenway Route	7/29/25
we would love a bridge connecting these two greenways- then we could access downtown from Madison!	Suggested Greenway Route	7/29/25
Connect Fontanel with Whites Creek Park with a creek side path. Include historic, interactive signage about the history of WC...including the Trail of Tears.	Suggested Greenway Route	7/29/25
I know there's a pedestrian bridge planned somewhere in here. Connecting the greenway would be ideal	Suggested Greenway Route	7/30/25
If this sidewalk to the east is considered a greenway, why isn't the whole thing a greenway?	Suggested Greenway Route	7/30/25
Neelys Bend Greenway to connect Madison Station Blvd to Peeler Park and across to Stones River Greenway	Suggested Greenway Route	7/31/25
Connect McCabe to England	Suggested Greenway Route	7/31/25
Connect England to West Park	Suggested Greenway Route	7/31/25
Connecting downtown to Shelby Bottoms Greenway would be helpful	Suggested Greenway Route	8/1/25
Extending a greenway to Lakewood/Old Hickory connects an entire section of the county to the greater system.	Suggested Greenway Route	8/4/25
Connect 440 greenway to McCabe Park greenway, opening up W Nashville to the broader greenway system.	Suggested Greenway Route	8/4/25
Extend the greenway.	Suggested Greenway Route	8/4/25
Connect these greenways	Suggested Greenway Route	8/4/25
Connect greenway to old hickory village	Suggested Greenway Route	8/4/25
Fowler Street dead end could be re-used	Suggested Greenway Route	8/4/25
Connect these parks!	Suggested Greenway Route	8/4/25

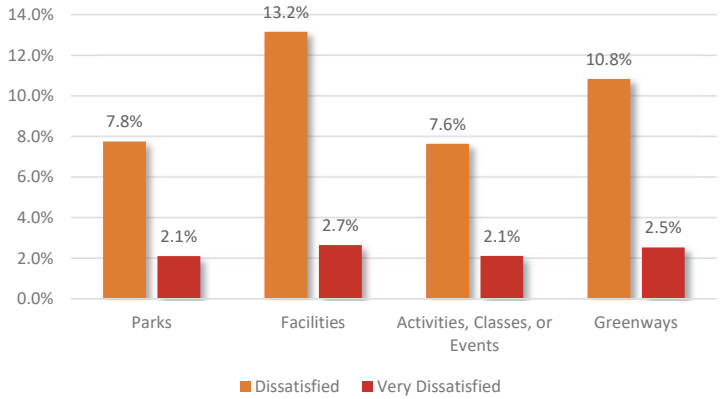
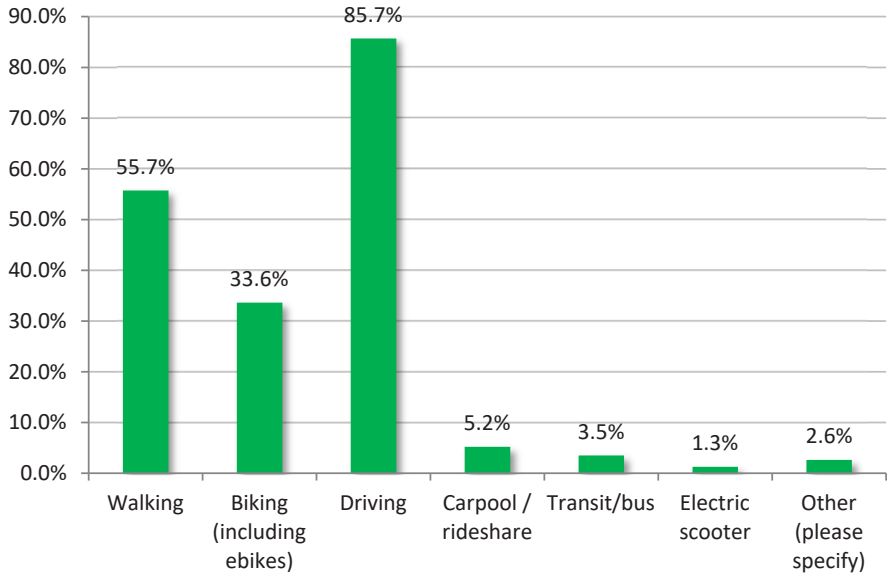
Facilities	13.2%	2.7%
Activities, Classes, or Events	7.6%	2.1%
Greenways	10.8%	2.5%



Q6: Which modes of transportation do you use to access parks? (select all that apply)

Answer Choices	Responses	
Walking	55.7%	1410
Biking (including ebikes)	33.6%	850
Driving	85.7%	2168
Carpool / rideshare	5.2%	131
Transit/bus	3.5%	88
Electric scooter	1.3%	32
Other (please specify)	2.6%	66



Other (please specify)
AccessRide
Rollerblading
Running
It's not safe for me to bike on Hwy 100 even tho I live across the street
Everything is too far away to walk/bike
access ride
With rollator or using wheelchair
Running
I would use bus/transit but not all parks have stops close, all parks should have a bus stop close
Strollers for kids
Running
Skateboard
Running
None….our parks, etc are not safe.
Skateboarding
Except we need a sidewalk - have to walk in the ditch to get to the Harpeth River Trailhead on Old
Walker
Kayaks
Skating
Kayak
Running
J
I must drive to a greenway as it is too far from my home and I don't have any sidewalks on my street
I do not own a car.
Motorcycle
t
Truck and horse trailer
Car
Horseback riding
Horse
Truck and horse trailer
but i wish i could walk or take the bus
Scooter
Would like to walk but not possible
motorcycle
Hiking
Running
Running
would walk if I could
Skating
golf cart
Horses
Because we do NOT have a neighborhood park, we rarely use the park system
Running
Na
Golf cart
There are not enough parks in my area, for the population increase
Exersis
Entrance to Warner Park Nature Center from Hwy 100 is dangerous and must be addressed
You can't walk anywhere, have to drive because we have no sidewalks

Para transit with WeGo
Running
No sidewalks, roads too narrow
Skateboarding
would love to have a safe place to walk
running
Running
running
Running
Running
Running
Kayak
Running
Skateboarding
running

Actions speak louder than words, we are tax paying citizens we should not have to search for information and updates. We pay more than enough money for information to be communicated in real time. The government is lazy and innovation is long overdue.
I don't get any news

My two primary uses are the golf courses and the Greenways. I am at the golf courses every week so primarily rely on the course management to provide us critical information which is usually posted in the club house. Our golf leagues at McCabe and Harpeth also relay information from course managers. I get my Greenways info from Greenways for Nashville.

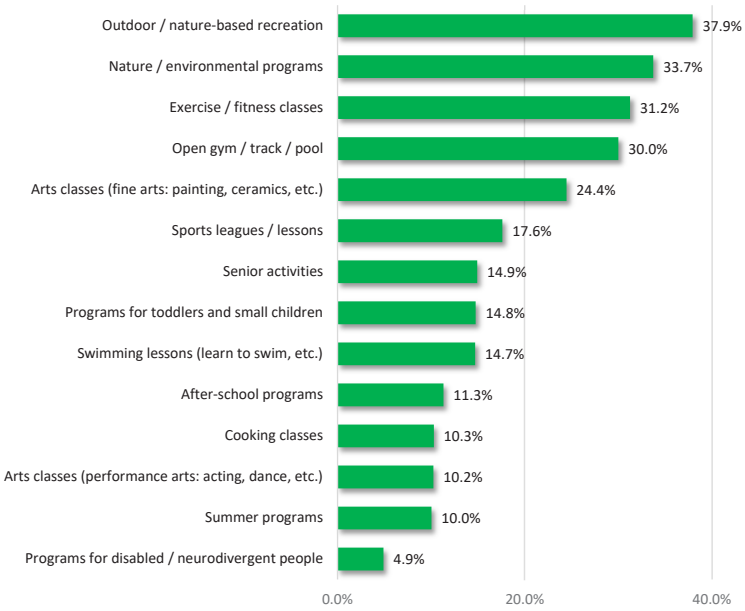
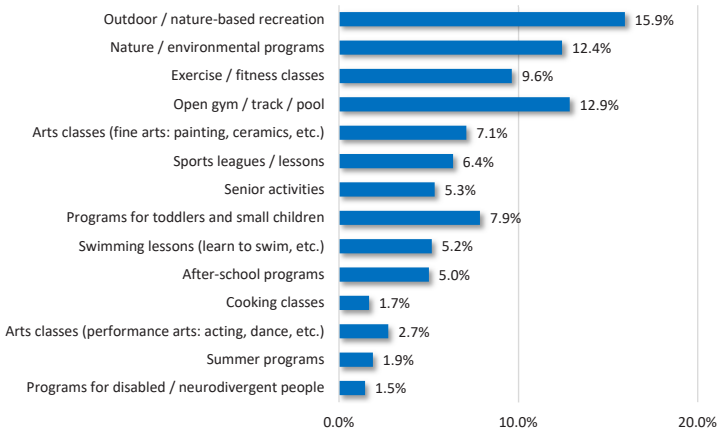
Outdoor / nature-based recreation	15.9%	12.9%	9.0%	37.9%	296	240	168	704



#1 Ranking



Other (please specify)
I would like a pull-up station at Rose Park
And Open Space Natural Area acquisition (for future development of hiking paths as our city grows)
ballet & Tap dancing for seniors
Historical tours/programming at our historical sites
More homeschool programs please
Programs for 9-12 year olds - they are too old for "children's programming" but too young for the teen programming so there is a huge gap
More Parking spaces at Percy Warner, Belle Meade entrance
Community Gardening
Bicycle riding education
Golf
Outdoor pools
Completing the Ravenwood regional Park
More programs for kids who like riding bikes but are not of the age of mountain biking. (Bike Parks/ Skills Courses/ Pump Tracks)
I live near Radnor Lake and use few Metro Parks programs because, so far as I know, there are no Metro Parks programs down here.
Parkinson's boxing , be loud, etc
Swim classes and any type of outdoor/nature activities are not currently needed in my household, but are the most important for the
Memory Cafes for seniors
Tennis courts and safe, dedicated bike lanes
Exercise classes
No public swimming pools in or near West Meade
Adult swimming (no children or old people classes that interrupt lap swim)
Indoor pool/ walking track
WE use BoostFit off of Highway 100. so there's less unmet need
Warm pool. Pool is too cold in winter
sewing classes
Nature led hikes
Programs are available centrally, but our household would be better served by neighborhood/community programs.
Community gardens
More indoor pickleball courts; more greenways that are not as crowded
Need to be able to ride though parks. Roads blocked off and need to be accessible to all tax payers, not just walkers and runners
I like places to volunteer to work with children.
Indoor pool would be great for the seniors in our 37080 community
Computer
Golf
community engagement opportunities
LIVE MUSIC!!
Indoor lined pickleball courts
Public areas that are not manicured so there are places for youth outdoor education
Tennis courts
Senior fitness for those who work
Places for beginner to learn to roller skate and inline skate
RacquetBall courts/leagues!!!!!!!
I have tried to get tai chi going at my local community center, but there is great resistance even though the studio space appears to be
Strengthening and balancing for adults and handicapped.
Keep private entities out of Percy Warner Park
Craft classes like knitting, sewing, crochet, scrapbooking, woodworking
Rugby fields
hiking on unpaved tarils
More hiking trails and facilities to support hiking. Portable restrooms are embarrassingly filthy and poorly maintained.
Classes to teach people how to compost & live more sustainably, Gardening classes
I would rather pursue classes by private companies
Community Programs , farmers markets, activity days seasonal events etc.
Pickleball
Music for seniors
SQUASH, I play and when I graduate I won't have a place I can play in town! Please build a squash court.
Metro needs more pools, both indoor and outdoor for summertime youth engagement.
please just give us open spaces without classes and city interference. less classes more space
chances for multi-cultural collaborations
WE NEED A DECENT PARK IN WHITES CREEK!!!!!
Pickleball
Gardening from Master Gardeners of Nashville would be nice.
I'm single and I exercise a lot, but on my own -- especially since covid
Shaded play space for children
Dog Parks
Line dancing and 2stepping dancing zumba
Fitness classes
After school
Need more open space land acquisition

Teen time extended for basketball court use or more gyms with available court time to run teen leagues not just adults
Programs specifically for teenagers
Model Rockets in the park…why not
Increased security
Art classes
pubic bathrooms are scarce, and access to cover and storm protection is also scarce when at the parks.
Animal recognition and environmental awareness of the animals needs, how to assure the animals at the parks are not suffering, sick hurt
Equestrian activities
outdoor swimming pools to have longer hours...and even night hours for when folks get off work.
Dog focused areas - more off leash options are local parks and hiking areas
The Master Plan for the William Edmondson's Homesite in Edgehill has envisioned a cultural center, in honor of William Edmondson, your
Allowing the Greenway to access Madison
Full Service Restrooms
Partnerships with the libraries
Showers for the Homeless
Equestrian areas need to not be cut back at all
access to launch kayak, rentals
Community pools!!!
Tennis
swimming! right now the YMCA is really the only affordable and convenient to go
Equestrian Programs
Bathrooms
Pet programs (dog)
I think Nashville specifically needs more dance/performance art spaces like the Performing Arts Studios in Centennial Park.
Swimming lessons for adults
Language Classes!
Keeping park land as natural, unprogrammed space is also important to me!!
Dog activities
More Art classes and Dances classes offered in the evening (after 5PM)
Open Gym / Track / Pool also Most Important. We need a big field where we can play cricket, tennis.
An outdoor pool like Shelby park used to have would be great!
I love soccer. It would be amazing if you will build a soccer stadium
open courts times
Library
More partnerships with The Porch Writers' Collective :)
Pickleball courts/open court time
Pickleball clinics. Shelby offers Drill sessions sometimes, but even more is welcome
Weekday events for seniors at Shelby. I work on Saturdays so weekdays are often open to help clean-up of Shelby (& I'd welcome
Soul Line Dance
Natural areas with unpaved trails where native species can thrive
Sour line dancing helps me with my fitness goals
Paved areas in Warner Parks have limited accessibility by physically impaired people, greatly limiting their access to pleasant views and
Line dancing
Pickleball lessons
small city parks with greenery-trees and benches where people can relx and meet.
Rowing
indoor soccer leagues
Bellevue community center needs a public pool!!! Thanks
Camps for kids under 6
greenways; historical sites; community centers; cultural arts programs
More classes in general. A wider variety and in more centers
meeting space - i.e. local HOA's, Neighborhood meetings - NO CHURCHES! repeat NO CHURCHES!
After school programs to accommodate the growing population in Antioch
Pickleball courts
I use Hamilton Creek marina weekly
Charlotte park playground!!! We need help making this park updated, it is VERY utilized by the community
Program awareness; I don't know what Metro has to offer
pocket parks
I don't do a lot of these things, I'm single with no children. But I still believe they are all important for the Nashville community.
Outdoor pool
Need dedicated PICKLEBALL COURTS/facilities. Nashville has been left in the dust. Every available existing court needs pickleball lines
There is very little available for the youngest and oldest folks in our community.
We need more green space, especially in downtown area
intermediate tennis and dance classes in East Nashville
More Yoga options at East Park and better communication about meeting cancellations etc
Getting the new Kirkpatrick Park included in the Envision Cayce program up and running. The Cayce chdren have been without a
Pickleball leagues in all 4 sections of the county
Active senior activities
Greenways (paved bicycle)

in green hills, we need our park to be a place for the community gathering. more programming and an eatery would help this
Pickleball
cornhole leagues/groups for adults, including seniors (Senior Olympics)
farm of horse related activities
Programs and places that welcome and provide positive environments and activities for older children and teens
Mountain bike trail
physical exercise opportunities safe from spread of disease and physical harm
Appreciation of our native trees and landscape as well as hio
Programs at times that working families can attend
Regarding parks, I mostly use for walking, using greenways and parks trails
No e-bikes on paved trails and roads! Very dangerous!
Dance for adults
Dog parks
All of the arts & craftsman classes can be increased. We need not just fine art arts or performance, but more craftman skills as well
Rugby Fields
History programs, outdoor art/history tours
More greenway connectivity
Adult golf lessons
I may not have seniors or small children on my household but I fully support this programs
Nature programs
Golf courses- are a very important well used activities that you are not addressing
SQUASH, Our city needs to build squash facilities in the West Park rebuild
Golf courses
Play..organized play with adults and kids.. families
Golf
Our household is an avid golfing family. My partner and I each play 2 times per week and would play more if tee times were available.
Golf
Golf
More outdoor education
Open family swim
All programming is done by Friends of Mill Ridge Park
Pickleball
Dog Parks & Dog Facilities, especially ones with shade structures and that are open late.
Cooking classes
Outdoor pool
Nashville and Middle TN has a need for additional ice rinks
Community Events
Free golf lessons
Golf course improvements
GOLF!!!!'
Golf

Q15: Is there anything else you would like to share about Nashville's parks, park facilities, and amenities?

Responses	Thematic Analysis (auto-tagged)
I love Nashville park facilites I just wishe we could be up to date with some modern building designs and that younger children were a little more included	
There is a need for after school program in the west nashville area (Nations).	
love the rec centers and all our city's parks! More pools please!	
The main things I would ask for specifically - more running trails/paths connecting SAFELY though the city. SHADE at local playgrounds. I don't know why we have these lovely playgrounds with nothing sheltering kids and equipment from the sun. Nature learning programs.	
Would like Wasioto Park to be better maintained and have enough parking to allow for frequent visits.	
We need more dedicated pickleball courts.	Pickleball Court Infrastructure
Parmer Park needs some updates and repairs. The buildings at Cornelia airpark need some exterior repairs as well.	Infrastructure Repairs, Park Maintenance and Infrastructure, Park Facility Maintenance
Parking facilities are majorly needed adjacent to Centennial Park to keep up with daily visitors and events.	Parking Facility Expansion
I would like a Pull-Up station for adults at Rose Park	Adult Fitness Equipment
Nashville has great parks and outdoor resources but there needs to be more equitable investment across the county. For instance, in Madison the closest outdoor pools are the YMCAs in East Nashville or Sumner County (both about 18-20 minutes away by car).	Park Accessibility and Equity, Outdoor Pool Access, sm_neutral
Hiking paths and paved greenways have been shown to be priorities for Nashville citizens-- we need to keep pace with open space and natural forest parks acquisition in the western half of Davidson County (Nashville's Highland Rim Forest) before it is lost to development.	Trail and Greenway Development, Park Land and Acquisition
need skating facilities, indoor and outdoor need larger indoor gather spaces or venues	Skating Facilities, Indoor Gathering Spaces
Nashville lacks access to swimming pools. Centennial is nice but often most of those lanes are taken up my NAC. Would be nice to have a couple of long, deep lanes for people where we're not fighting for space all the time. And good outdoor pools? Where are they?! Would also love to see a connected Greenway system through the downtown. I will occasionally bike to work but it gets really sketchy in places where the Greenway suddenly dumps me into a giant road for a while	Swimming Pool Capacity, Trail and Greenway Development, Greenway Development
I don't understand the need for the fencing around the richland park greenway	
Keep improving the golf facilities	
We love our parks but it is really hard to get to them since they're either major landmark parks or spread through the county. We'd love to see a ton of investment in the greenway system to connect the parks together, allowing for the greenways and parks to become the green beating heart of our neighborhoods. We'd prefer not to have to get in a car and drive to the park, we'd like to be able to bike there.	Park Connectivity, Trail and Greenway Development, Greenway Development
Easy transportation for some of the senior citizens	
Parks' refusal to invest in baseball fields and lighting is infuriating. Also, there should be swimming pools and skate parks.	Swimming Pool Development, Community Pool and Swimming, Baseball Field Investment, Skate Park Creation
West Meade needs a park! We are the only neighborhood that doesn't have their own!	
We do not need any more public workout facilities. They are expensive and difficult to maintain and compete agaisnt private facilities. We do need neighborhood pools and open spaces. I love the Hamilton Creek marina-fabulous.	Neighborhood Pool Development, Public Workout Facilities, Community Pool and Swimming
Would love to see the City Cemetery be restored	
We would love to have an indoor pool and maybe easier navigation/more information on programming directly on the website.	
Mill Ridge is wonderful. I would like to see more scheduled structured activities for families, young kids, adults.	Family and Child Recreation
My biggest concern is crime at the parks, especially the risk of having one's windows smashed in broad daylight. This happened to me on a Sunday afternoon in a crowded parking lot at Edwin Warner. The only thing in my car was a gym bag with dirty clothes. I will never do that again. I do like being able to keep watch on my car at the smaller parks like Parker and Woodmont. Can we have cameras and/or security guards at the major park parking lots. Another concern is trash at the community parks...my dog is always trying to pick up wrappers, plastic bottle caps, etc.	Park Safety and Security
The walking bridge at Stones River Greenway has been down since last spring, making the greenway from Kohl's parking lot to the Percy Priest Dam impassible. Why does is it taking so long for this repair to happen??	Trail Development, Greenway Maintenance, Trail and Greenway Development
You guys are awesome! I love the Nashville parks so much and hope to see them stay busy and keep growing!	
We would like to see more primitive trails in North Nashville/Bordeaux/Whites Creek with significant efforts to preserve the tree canopy. One of the options was more shade/shelters but if we keep the trees we can have more shade without disturbing the natural beauty. Cut a trail through them and it's great. Also, middle school targeted activities would be amazing. Finally, the class schedules are hard for working parents. Particularly if the child plays sports - so if there could be more sports leagues run through Metro Parks with classes at the same time, it would be a win win.	Trail Development, Youth Activity Programming
There needs to be more emphasis by parks and recreation on our greenway system. In addition, a better system for working with developers to make sure the developers are assisting with our greenway system (more encouragement and less hassle) and that developers are seeking ways to enhance their property with more open spaces. This survey is lacking ideas, questions and input about our greenway system.	Greenway Development, Trail and Greenway Development, Developer Collaboration
More group and Senior trips to Places like Museums etc	

Whites Creek Park needs bathrooms, parking, shelter, walking trail to go around the school to the top of the hill, pickle ball courts. The greenways in the area are not maintained, there are trees down, walking bridges washed out. There are no organized park activities in the area.	Park Facility Improvements, Greenway Maintenance
There is a city owned lot at entrance of Percy Warner on page road with room for about 100 spaces but it has only 20 or so in deference to Belle Meade. Mayor could get credit for opening up park for all of Nashville, not just Belle Meade See FB site, Facebook.com/WarnerParksforallofNashville	
Two rivers skatepark could use resurfacing in some areas. The concrete is rough in areas and it has been that way from the time it was built. Surfaces need to be smooth for skaters.	Skate Park Surface Maintenance, Skate Park Maintenance
One of the most important needs is a restroom facility at Cornelia Fort. Additional shade would also be very beneficial.	Shade Structures, Shade Infrastructure, Restroom Facilities, Park Facility Amenities
We need organized community agriculture in more Metro parks.	
Donelson doesn't have a community center, so a lot of services are missing. I also have to drive to all parks in Donelson because nothing is safely accessible by foot and fairly dangerous by bike.	Park Accessibility and Equity, Community Center Facilities
Self defense offerings, they fill up quickly and aren't offered frequently. I am unclear if guns are legal in parks, seems like it was posted, I don't see now. I don't want to be in the park with people and their guns.	
Making parks more accessible to non car users	
The availability of evening fitness classes at McCabe Community Center has decreased over the past few years, which has been disappointing to our household. We loved taking advantage of evening yoga classes and cardio.	
Can you put a playground in St. Bernard Park on 21st Ave S in Hillsboro village area?	
Save more green space in the ever changing and over developing city. Nashville needs more places like Warner Parks and Shelbybottoms. More staff like Heather Gallagher!	
Mill creek greenway is a beautiful park. Congratulations to the designers, and to the maintenance staff. It's always clean and well cared for. A fish stocking program for this section of mill creek would be nice, however, TWRA doesn't think it's possible due to federal regulations protecting crayfish.	
Would love to see Nashville's parks more visibly embrace efforts to support bird/pollinator habitats through native plantings and local-focused choices for landscaping - would also be a cool teaching opportunity for kids and residents	
We would love continued development of Ravenwood regional park and the bridge to peeler park	
Cornelia Fort Airpark needs indoor bathrooms accessible to the public. Spaces that have only portapotties should be considered for indoor bathroom access.	
Overall, I love the Nashville park system and I hope it can continue to improve. More greenways to connect areas of the city would be ideal as would more pocket-parks. We do well as a city with large scale parks, but more neighborhoods could use pocket-parks for immediate access.	Pocket Park Development, Trail and Greenway Development, Greenway Development
We are very excited about the possibilities at Ravenwood Regional Park and are looking forward to seeing the final facilities completed on the master plan.	
Trail access from the beaman barn to the 12 mile loop More live music	
Metro has fallen way behind our pure cities in terms of per capita spending on parks. And in terms of access to parks by segments of our population. There seems to be a total lack of vision about how to improve the quality of life in Nashville with access to Parks and Greenways. It appears there have been no major land acquisitions in the last 10 years, and it is distressing to think of all the land being developed that could be used for parks. Where is the vision and long range planning? Updating this plan to play sounds good, but unless there is some very strategic thinking and commitment to move forward, I'm not convinced it will do any good.	
I'm so appreciative of the existing parks, park facilities, and amenities! I would be more likely to take advantage of these resources if safety was also improved.	
The Nashville area is in desperate need of a good Bike Park. We have tons of MTB trails, but those do not work for many people in the cycling community. Bike parks (Bentonville Arkansas' Railyard, Baker Creek in Knoxville) are great for all levels of riders and allow a place for kids to progress there skills even if the parents do not ride. They are also available to riders with all different types of bikes. They do not require $1k bikes to enjoy. Many cities across the US have built these types of parks and it could be a huge success for Nashville.	Bike Park Development
I have to travel to get to an actual park with activities. I would like to see more available in Donelson/ Hermitage.	
The most disappointing thing is the lack of safe bike lanes to go to public parks. When families have to load into a park to visit a local park, it kind of defeats the purpose. It would also be VERY valuable to have additional recreation actives (like trails or playgrounds) for kids at Sports complexes. Parents know that we're hauling the whole family to our kids activities, and for siblings to have something else to move their body and keep active rather than sitting in a chair to watch would be so helpful	Recreation Activity Expansion, Bike Lane Safety
Would love to see updated and renovated centers in predominantly under resourced neighborhoods - Edgehill/Easley, Cleveland, Parkwood (?), add a center in Whites Creek area.	Community Center Facilities
Please maintain the Whites Creek Greenway. It is isolated, overgrown and unsafe. Un-housed men camp sleep under the underpass at Clarksville Hwy, making it unsafe for youth and woman. Hartman Park is not maintained like parks in more affluent neighborhoods. We must do better.	Park Accessibility and Equity, Park Safety and Security, Neighborhood Park Equity
The gym collapse at West park was very upsetting. As much money as Metro has sunk into the worthless roundabouts and visually unappealing bike lane poles, it is absolutely pitiful that a roof collapsed.	Park Maintenance and Infrastructure
Need better playground structures for small toddlers. Parks need more swings - two toddler swings in a park isn't enough	Family and Child Recreation, Playground Equipment, Playground Development
The exercise facilities at Sevier Park are amazing, but the hours are limited. Closed on Sunday? Closes at 4 on Saturdays? Those are the two days I'm most available to take advantage of the facilities.	Park Accessibility and Equity, Exercise Facility Hours

Consider more Metro Parks programming options in Green Hills. I realize this is a relatively affluent area and the residents generally pay personally for their recreation needs. Still, the community could be stronger if there was a more vibrant set of Metro Parks programs and facilities. Maybe find a church in the area that would let you use their grogrounds and part of their building for Metro Parks purposes.	Park Programming, Community Recreation Services, Community Recreation Opportunities
Accelerate Fort Negley's park development. It's in a prime location, has ample property for history and nature, and should be an active place to honor history and enjoyed by today's community	Park Amenity Development, Historical Site Preservation, Park Development
I wish there were more animal-proof garbage cans inside the parks. The only ones I know of are by the Edwin Warner Nature Center. I wish leash laws were enforced (they NEVER are).	Pet Regulation Enforcement, Park Waste Management
Bathroom or outhouse facilities on the trails	Restroom Facilities, Trail Facilities
More greenways and better connectivity between parks/greenways	Trail and Greenway Development, Park Network Expansion, Greenway Development
Bellevue needs to reopen its pottery wheel throwing ceramics programming. A lot of money went into this facility, and now there isn't opportunity to utilize the beautiful pottery room. Please consider offering (paid for) open studio access with staff to facilitate it.	Recreation Programming, Arts and Crafts Facilities
Would be great to see the Fort Negley master plan implemented.	Park Master Plan Implementation
Online reservations with equitable access for all golf courses is sorely needed.	Golf Course Reservation System
Park activities and open green spaces are SO IMPORTANT to growing children in a fast growing city.	Family and Child Recreation, Urban Child Development, Green Space Importance
More aquatic classes and dance fitness classes like 615 Soul	Aquatic Programming, Community Pool and Swimming, Fitness Class Offerings
Nashville needs strategic open space planning with funding for land acquisition Highland Rim Forest is critical for clean air, water, and biodiversity Focus on preserving large forests surrounding Davidson County Metro Parks ranked 74th out of 100 major US cities (2025 ParkScore Index) Nashville spends less per capita on parks than national average	Park Funding, Open Space Planning, Land Conservation
Orchard Bend Park does not have a brick bathroom like other neighboring park such as Owl Creek Park, Lavergne, Green Hills. The playground area is way too small and not enough swings or picnic table, seating in this park. This park is in Antioch and it does not even compare to the other parks. It is a fairly large park with little amenities to accommodate the community, I have to go to another park with my grandchildren. Also, Metro should drive by this area on a more regular basis and they should park and sit to ensure everything is okay. By having this type of security, would be a deterrent for criminals. Please reconsider this park and add more play area for the children and adult swings. Please have a bathroom built. This Orchard Bend Park deserves to have an upgrade with newer and nicer things in this park.	Park Infrastructure Upgrades, Community Safety
Thank you for caring	
Reservoir Park is generally very nice however there are significant issues that need to be addressed. The covered picnic hut in the middle of Reservoir Park is almost always filthy with trash, homeless people and their belongings, drug dealing/using and overnight camping (in the hut and along the north edge of the park near the Reservoir fencing). It's not safe or clean enough to be used by anyone other than the homeless in the park. The conditions make the park very unsafe for children and adults that would like to enjoy the park. Park Police and MNPD are aware of the conditions and public safety issues but don't seem to have the ability/tools to control the problems. These are continuous issues that never improve for more than several days at a time. The existing paved pathway through the park has a large gap in the middle. The basketball court in the middle of the park needs to be repaved. A pickle-ball court would really be appreciated. Many of the trees seem to be diseased and large branches frequently fall to the ground. Would be great to start planting more replacement trees. A community garden would also be a nice addition.	Park Safety and Security, Park Amenity Development
Charlotte Park is in need of help, especially the playground. The Hillsboro Dragon park got a beautiful renovation and honestly I would be happy with getting the used playground equipment from the prior setup, as it was still so much better than what Charlotte Park has today. We have LOST amenities over the years, the tennis court is chained since 2020 (and was a reason why I even moved to the neighborhood), the pavilion covering the picnic tables was demolished, the handicap swing broke and was never replaced. The park seems to have been actively neglected and is only LOSING amenities as more and more families move into the area. No one in the neighborhood wanted a disc golf course… we want updates to what we HAD/HAVE: a playground, a tennis court re-opened, and a pavilion re-built. The neighborhood even attempted a grassroots effort to get participatory budget funding and was told we had the most number of submissions for funding, only for no funds to have been allocated to the neighborhood park.	Neighborhood Park Maintenance, sm_negative, Park Amenities, Neighborhood Park Investment
More public restrooms. Why are the Richland Park Restrooms closed all of the time?	Public Restroom Accessibility
.	
Additional parking is needed for the continued growth at Hadley Park Center. Especially around the center!!! Have arrived in the pass only to leave due to all parking spaces full.	Park Parking Capacity, Parking Capacity, Community Center Facilities
Thanks for clearing up Brookmeade park	
-Our Whites Creek Park is sorely lacking in amenities and facilities. - Expand Whites Creek park and connect the greenways - Conserve and promote Nashville's Highland Rim Forest - Create a hiking trail connecting parks within the forest, like from Radnor to Warner to Bells Bend to Beaman to Whites Creek. - Give Nashville a brand image of green space, forest, and resiliency - Fund a Conservation Assistance Fund that financially assists conservation easements on, or acquisitions of, key NHRF parcels.	Park Development, Park Amenity Development, Trail and Greenway Development, Park Land and Acquisition
Please transfer the Edmondson Homesite Park in Edgehill from Metro Schools to Metro Parks	Park Management Transfer

Need permanent outdoor bathrooms, pavilions, and paved parking lots for Whites Creek Park/WCHS location	Park Maintenance and Infrastructure, Facility Development
I love that you all care :)	
We need maintenance on the Fontanelle Greenway.	Greenway Maintenance
I am pushing for a dog park to be added to the Crooked Branch Greenway or somewhere on or near Old Hickory Boulevard in District 11.	Dog Park Development
In areas of senior programs, provide parking close to building and provide better crossing and speed bumps on street etc.	Senior Facility Accessibility
Safety in parks outside downtown area: Percy Priest, Cane Ridge, etc.	Park Safety and Security
I recommend clearer signage at Mill Ridge Park. I did not realize that the red farm house was part of the park. I do love the work being done at the park! However, parking for the Community Event on Saturday the 27th was a ridiculous mess.	Event Parking, Park Signage
I love the parks, facilities, and amenities. I wish there was more programming for adults 25-40 that isn't solely family oriented.	Adult Recreation Programming
Our daughter had an amazing introduction to classical dance through Centennial Youth Ballet from the 1990s until 2008. We hope you continue to strongly support it and similar performance arts program. We have always wished for a public swimming pool closer to West Meade. There are private pools in country clubs, but they were too expensive for us to join.	Community Pool and Swimming, Performance Arts Programming
I love the fitness classes at the Sportsplex but wish there were more classes available throughout the day / week	Fitness Class Scheduling
Important to preserve open natural spaces still available as city grows	Open Space Preservation
Hadley needs a water fountain in senior area; need push button on main entrance of senior area We got dance spaces but need more yoga Senior chair volleyball	Senior Recreation Programming, Fitness Class Offerings, Facility Amenities
We need more green space in East. Shelby is great but the rest of the area is a concrete jungle. Especially all along Gallatin. Would also love an indoor pool and community center for adults, especially for the arts like performance, painting, and pottery. I am always looking to rent a performance space for shows as there's a lot of performers in the area but never enough space.	Green Space Development, Performance Arts Spaces, Community Center Facilities
Hadley Park needs an automatic front door for wheelchairs. The swimsuit thing has not been replaced in years (women's locker room). Need a bike rack. a water filter fountain / water bottle filler is needed on the Senior side and the gym side.	sm_negative
We need more clean water fountains around the parks!	Water Fountain Availability, Water Fountain Infrastructure
Would love a park in the West Meade/Hillwood area	Park Amenity Development, Park Development
we need new chair in the center the center need to be remodel floor and all wall need to be repainted Hadley Park need the tree need to be cut down	sm_neutral
Need swings at Hadley Park Senior Program needs to be longer hours	Park Amenity Development, Senior Program Hours, Playground Equipment
There needs to be cooperation with Native American groups in decision making. We need more connections between parks. Both narratively and physically. We need better signage that emphasizes 1.) the importance of wild (yet holistically managed areas 2.) the rich Native American history AND present activities of local natives	Native American Engagement, Historical Interpretation, Park Connectivity
Bingo. Go out once a month to eat	
Metro Arts programs are in serious need of an overhaul. Specifically the pottery/ceramics programs which have become so mismanaged and so non-customer friendly that they are considered worthless. Management needs to be changed. The Bellevue community center pottery studio was poorly designed and is not being used to the full extent that it was designed to do. The community is not being served.Class registration is online at midnight. Who in their right mind would think that is a good idea? Shouldn't the customer come first, not the staff?	Arts Programming, sm_negative
More lap swim hours please. Level the pool table at Cleveland Park Community Center.	Community Pool and Swimming, Swimming Facility Hours
Neighborhood parks and many more sidewalks! Make Nashville a pedestrian friendly city with an abundance of parks and sidewalks!!	Pedestrian Infrastructure, Neighborhood Parks
There is a serious lack of opportunities for seniors across the county	Senior Recreation Opportunities
Do not like to see people camping in picnic shelters or other parks property.	Park Usage Regulations
Bathrooms are desperately needed for Hillwood HS athletic fields and tennis courts. The port a potties are never cleaned or with supplies like toilet paper. The neighbors and hs athletic teams use these facilities daily. Also, West Meade waterfall is becoming damaged by visitors that don't understand the delicate nature of the steep slope and waterway. The slope is eroding and flora and fauna are being damaged by people walking wherever they want instead of on a marked trail.	Environmental Conservation, Trail Management, Park Facility Restroom Infrastructure, Trail Development
Need to be kept cleaner. Not safe for families. Not following the law by allowing homeless to live in parks, smoking dope, drinking alcohol, fighting, pulling knives on other homeless. NOT safe for children!	Park Safety and Security, Park Safety Concerns, Homeless Population Management

WestMeade needs a park with a playground like the one at Ravenwood, level paved walking paths, shelters and open areas with ample seating for neighbors to meet/ form community. Bike trails where kids could ride their bikes. A community center and picnic areas with shelters. The Hillwood highschool property would be a great location. Younger families are moving into the area-it would be great for there to be a community place where children could play on playgrounds, kids could ride bikes, everyone could walk (especially seniors) I would love to have a place where we could meet others in the area and have that neighborhood/community cohesiveness. (So many of our roads in this area are hilly with houses further apart. Harder to meet people)	Community Space, Park Development, Neighborhood Connectivity, Neighborhood Recreation, Park Amenity Development, Community Space Creation
Yes--please quit calling the "waterfall" at the end of Jocelyn Hollow a "park." We, in this neighborhood--I grew up here have never considered it a park and we do not want or need additional traffic. Jocelyn Hollow is LESS walkable and bike ridable because of this "park" designation. So it has had unintended consequences, hasn't it?	Neighborhood Park Designation, Traffic Impact
West Meade is woefully underserved by Metro Parks.	Park Accessibility and Equity
The Hillwood neighborhood is underserved with park facilities. Why not turn the old Hillwood High School into a multiuse park facility?	Neighborhood Park Facility Conversion
We really need more intentional spaces and activities for children in our neighborhoods that are SAFE and not overrun by the homeless population.	Park Safety Concerns, Playground Development, Family and Child Recreation, Park Safety and Security
More enforcement of leash laws.	Dog Park Management
People who use Fair Dog Park are the worst at picking up after their dogs. We need a dog park in Sevier Park.	Park Amenity Development, Park Facility Expansion, Dog Park Management
The West Meade area needs our own park and library! I would LOVE to see Hillwood High School turned into a community center/park/library for our area.	Neighborhood Amenities
Parks need to be maintained, cleaned, patrolled. Need free chair yoga. Pool at Centennial used to be warm for seniors in the winter. Now it is freezing.	Park Maintenance and Infrastructure, Senior Recreation Facilities
Huge supporter of Highland Rim project.	Park Development Project Support
Since the last report, getting out in nature is becoming a medical prescription. With that in mind, Metro Parks needs to expanto increase its efforts to preserve open space and forested land. Improvements on these lands do not have to happen rto happen right away but with the cost of land going up, these purchases need to happen as land in strategic locations comes up for sale. This is my top priority and now is the time.	Park Land and Acquisition
I wish we had more splash pads around a town. Why is the Cumberland park splash of and park no longer maintained?	Splash Pad Maintenance, Park Facility Upkeep
Appreciate the work done by the people involved. Key is keeping facilities clean and in good working order.	Park Maintenance and Infrastructure, Park Facility Maintenance
We love the Cleveland park pool! A similar pool at Shelby would be a dream.	Community Pool Expansion
We need either more frequent Port-A-Potty changes or more permanent full service restrooms at many parks for families to use.	Park Restroom Facilities
Greenways need better attention to maintenance, especially slippery bridges.	Greenway Maintenance
Information for each center is not shared the same. Some maintain social media sites, some have information boards, and some have neither. It needs to be a central location for all activities OR each center needs to do better about making it public what activities are held there. It is difficult to find information online for some centers.	Activity Visibility, Park Information Communication
Would absolutely love a splash pad in Charlotte park. We have a moms group with over 200 moms with young families in it!! This would help keep these families in our area.	Splash Pad Installation, Family and Child Recreation
Connect them all with really well protected --solid barriers such as curbs--bicycle lanes.	Bicycle Lane Infrastructure
Some of the parks (for example Parmer Park) have old metal play equipment that is not safe. I think it's nice to have some pickle bar courts too.	Recreational Court Facilities
When is the bridge on the Morton Mill/Warner Greenway going to be opened? It's been closed for months.	Park Maintenance and Infrastructure, Greenway Bridge Maintenance
The reduction in cost for after school care and or summer programs will be great	Program Cost Reduction
Love metro parks- in a dream world with unlimited budget and resources I would love to see metro add another public golf course or two at the bigger parks like Bells Bend, Cane Ridge, or Cedar Hill	Public Golf Course Expansion
We need more flushing toilet structures, as many as possible	Restroom Facility Expansion
need more info about what is going on to the community at home	Community Communication
My wife and I have lived in Bellevue for 55 years. Even when our kids were small we loved to ride through Percy and Edwin Warner parks, especially on Sundays after church or later in the evenings before dark. We would get on the Main Drag of the park and drive slowly the complete loop of about 11 (aprox) miles or so. Now that my wife and I are in our late 70's approaching 80 many of the roads are blocked so that you can no longer do that. You go in one spot and next thing you know you are forced out of the park onto the main roads in the area. It started years ago blocking off a lot of Edwin Warner park where it is a straight drive in and back out the same road.and later many of Percy Warner's roads. On a ride through the park this week we noticed new gates that have been built to close more areas. We feel the main drag of both parks need to be reopened to make a continuous circle for the use of all tax payers, not just the walkers and runners that use them now.	Park Accessibility and Equity, Park Road Access
We live in Madison, just off Briley parkway. There is not a place to go walk without driving, and the large lots do not have sidewalks. I would love some sort of greenway within walking distance of my home - perhaps in the green space along Briley Parkway. A greenway to walk to the senior center would be lovely, but I realize that would involve purchasing land between the large lots that people live in.	Trail and Greenway Development, Neighborhood Connectivity, Greenway Development
The staff at Warner Parks Nature Center is helpful, informative, and friendly. Top-tier!	Park Staff Quality

The community loves the Joelton Community center on Morgan Rd! We would love to see a couple of things added, an indoor pool. We dont have anywhere to swim but go to the YMCA in Springfield. More shelters for activities to rent.	Community Pool and Swimming, Indoor Pool Installation, Community Center Facilities
Shelter/picnic/bathroom areas at Whites Creek Park	Park Facility Amenities
water fountains need to be turned on far earlier in the season than they currently are. We also need more water fountains in town. Put the fountain back on the metro greenway near riverwalk.	Water Fountain Accessibility
Love Metro Parks!	Park System Appreciation
Plants more trees	
Track	Track Facilities
We love the dog parks! Please keep them and take care of them! They are awesome! And if there is a way to volunteer to help with the up-keep of the dog parks, please make that information available to those of us that use and cherish them!	Volunteer Engagement, Dog Park Management
Need more borrow book libraries	Community Center Facilities
I would love to see more restrooms and trash cans and dog waste bags throughout trails or greenways to encourage users to help keep the trails clear	sm_neutral
I play golf at McCabe. There is a large demand for golf but I do not see it supported by Metro. I pay to play golf and would play more if they had the staff to accommodate the people wanting to play. I do not use the walking trails by myself due to not feeling safe. Golf can make money for the Parks and pay for itself. I am a senior and I see everyone from school age kids to seniors playing at McCabe.	Park Safety Concerns, Golf Course Management, Park Safety and Security, Recreational Facilities
Would love more RESTROOMS Have you ever seen the greenway in Atlanta? There are ice cream shops, coffee shops, etc along the greenway path. It's amazing. To be able to experience both in the same breath.	Greenway Commercial Development, Restroom Facilities
I want to be able to walk to a park. I have to drive. We have green space in front of our library that's kinda wasted. Why can't a multiuse splash pad playground go there? So many places with boring open green space that could be more useful. Communtiy gardens, pavilions, natural play structures, etc. We need more parks like Europe! And small towns!! I hate having to drive to do things all the time.	Neighborhood Park Access, Community Space Design
need for more skateparks, from small skate spots sprinkled around the county to a couple of large outdoor facilities. It would be incredible to have an indoor facility that is open to the public for times when weather don't permit safe outside activity. We are looking forward to the next part of the Wheel Park at Watkins Park. We want to engage more with the Nashville Parks Foundation to support financially systemwide to Metro Parks. The farm or community garden by Mill Ridge Park needs access to water beyond the rain barrels. With the building going on that side of the road, there should be water that can be accessed from that area not to have to bring in water in hot conditions and dry spells.	Community Garden Infrastructure, Skatepark Development
Make sure playgrounds have shade like the Hermitage library playground otherwise the equipment is too hot to use safely.	Playground Safety Design, Playground Development
I'm always excited to see the use of native trees, shrubs, and flowers in Nashville parks! Removing invasive species and replacing them with native plants would provide a great service to our local ecosystem and ultimately our community. Also, there are underused lawn spaces that require consistent mowing. If planted with a native garden, we would no longer have the mowing expense and there would be significantly less maintenance and water needed. I've noticed that many trees particularly in Centennial Park are mulched incorrectly using the "volcano" method. Please educate the landscapers to keep our vital trees healthy and long lived. Centennial Sportsplex and specifically the ice rinks is a wonderful asset to Nashville! The maintenance crew does great work but the facilities in general could use some revamping. I was surprised to learn the Predators practice there with how worn out it looks compared to other ice rinks.	Park Maintenance Efficiency, sm_positive
We need to bring back outdoor community pools. The history behind this is shameful. The city looks like they'd prefer to perpetuate segregation. This could be done first at locations with existing community centers.	Community Pool and Swimming, Park Accessibility and Equity, Community Pool Restoration, Equity Concerns
We would love a bridge connecting Peeler Park to Ravenwood Park or Stones River Greenway	Park Connectivity
Keep up the maintenance and renewal of the facilities and trails.	
We love the Pump Track at Watkins Park, the playgrounds at Frankie Pierce, all the events at Centennial, and being out in nature at Warner and Beaman Parks. We could use affordable access to outdoor swimming pool. We won passes to Splash Country but haven't been yet. But just regular pool access would be wonderful. The Greenway is great. Just make sure it stays unlocked at the baseball field! Thanks for all you do for our amazing parks!!!	Park Facility Diversity, sm_positive
There are some roots on the Cumberland greenway by the golf course that have caused serious speed bumps for bicycles	
Charlotte park desperately needs maintenance and updates. Especially to is playgrounds and courts	Playground Development, Park Facility Maintenance, Playground Upgrades, Park Maintenance and Infrastructure
A lot of the events I see happen during the work day. Would love to see mire activities at the parks after 5 pm!	Park Event Scheduling, Evening Park Activities
I have concern about the chemicals used to maintain the golf course green. Especially regarding chemical run off into ponds, lakes, and river; and the impact that these chemical have on wild life.	Park Maintenance and Infrastructure, Chemical Use in Park Management

The park closest to our house (near Lowe's and Walmart off Charlotte Avenue) is currently closed. We think most of the trees need to be removed so that the trail is more visible and is safer. We also think this area may be good for a dog park or playground. There is a large water tower in the area that would look much nicer if it were painted with a beautiful wall mural.	Park Aesthetic Enhancement, Park Facility Expansion, Park Amenity Development, Park Safety Improvements, Park Maintenance and Infrastructure
Please provide much greater focus on parklands acquisition. Metro Parks fell far behind the 2017 goals, and must place much greater emphasis on acquiring future park lands. Please develop a Nashville Highland Rim Forest Master plan. Please acquire additional park lands on the highland rim forest to provide an interconnected park system in the unique region. Prioritize acquisition of additional lands at Beaman Park. Work with state parks, develp private/public partnerships to protect the region, provide planning for conservation of private lands in the area.	
I think we need both better playgrounds (with shade included) and community splash pads, the options for when it is hot outside (which is often) are VERY limited.	Playground Design Improvements, Summer Recreation Options, Playground Development
There is a huge need for indoor play spaces for kids. Playgrounds are too hot in the summer without enough shade. An indoor play area could be simple (some things to climb on, toys, books) but so helpful when the weather is not great for outside play. The lack of splash pads and swimming pools is also honestly shocking. Fix Cumberland Park and build 10 more. This would be a really simple way to show the people who live here that they matter, instead of putting all our money toward tourists and big corporations. Other cities have far more basic amenities for families and kids. These things are not hard but would make a huge difference in our quality of life.	Water Recreation Infrastructure, Recreational Facilities
I wish parks had more natural areas and more instructional activities about nature.	Nature Education, Natural Area Preservation
Some of the parks need more shade! The brutal sun is too much for kiddos.	Playground Shade Provision
Hermitage area there's no pool, activity room ,inside walking area. Rooms for meetings or gatherings with kitchen	Recreational Facilities
Would really like to get West Park community center back with new updates like a gym, splash pad, pickle ball courts etc. I also would like to see the greenways more connected (west to ingland and mcabe)	Community Center Facilities, Trail and Greenway Development
Outdoor lighted Pickleball courts at Harpeth Knoll park. Plenty of room.	Pickleball Court Development, Recreational Facilities
East nashville needs a huge splashpad. It is a huge opportunity to make money too! It is so hard to get outside during the summer	Summer Recreation Options, Splash Pad Infrastructure
Need more dog parks, especially in the nations!	Dog Park Management
Nashville needs a strategic open space planning with funding for land acquisition. We need to focus on preserving forests surrounding Davidson County. I want to stress the value and importance of the Highland Rim. It is critical for clean air, water, and biodiversity.	Forest Conservation, Open Space Planning
Trails for gravel biking would be great. There are currently trails for mountain and road biking, but no gravel trails.	Gravel Biking Trail Development, Bicycle Trail Development
At Hartman Park there are a lot of overgrown weeds, bushes and trees that need to be cut and removed. It is unsafe for walkers. There are poles and cut tree branches that have been on the grounds for years and never removed. The grounds are not being kepted like other parks.	Trail Safety Improvements
Improvement restrooms facilities	Restroom Facility Improvements
I would like to see more trash cans available in Shelby Bottoms Greenway. I always wind up carrying dog poo for multiple miles and it is unpleasant.	Park Waste Management
It would have been great to have access to a splash pad during this insanely hot weather, the only one I know of downtown has been closed since 2020 and I haven't heard of any updates in years. We also had to beg for what seemed like months for the water fountain in the dog park to be turned on. Some shade structures in Frankie Pierce dog park would be awesome. I think the area in front of the big colorful mural could be fenced off and made into a little dog park.	Splash Pad Availability, Dog Park Management
I just love the team and the open-mindedness of everyone I've met through parks, great people and great times!!	
Ive noticed Nashville does have quite a few wonderful parks, but the area I live in,... the parks are old and run down (one building recently collapsed) with minimal programs, minimal bathroom access, and no access to indoor fitness. A lot of us over here are elderly or disabled and really need ways to stay healthy indoors because of this heat. I appreciate you sending this survey out!	Park Amenity Development, Park Facility Modernization, Indoor Fitness Options
More splash parks (or at least maintain the ones you have) currently driving to surrounding counties and cities for this need. More nature play for young kids - encourage kids to get outside and away from screens (currently drive 20 minutes to nature center for this need and offerings are for older kids) Bathrooms at the parks and facilities. Port-a-Potties are poorly maintained or overrun by unhoused neighbors. Unable to use pavilion due to unhoused neighbors sleeping in the park	Nature Play Areas, Water Recreation Facilities, Park Restroom Management, Park Bathroom Maintenance
Would like to have a baseball field and grass to be cut more often	Sports Field Maintenance
I would love to see a splash pad at West Park!	Splash Pad Development
Smith Springs CC is a great place and beautiful facility. Only need is for a larger playground, for playing fields (baseball, football, soccer) and outdoor courts (basketball, pickleball) There is plenty of green space but it's not ideal for outdoor sports activities.	Recreational Facilities
Great place, Smith Springs is the perfect center.	
I think it would be wonderful if we could look into lights for the dogs parks, especially the Percy priest dam dog park. In the fall it gets dark very early and that park would be relatively easy to light and would make life much easier for the many people who frequent that park.	Dog Park Management
WE NEED SHADE OVER PLAYGROUNDS! Not just trees that will take 15 years, we need it now. During the summer, it is already in 80s by 8 am and there is no reprieve from the sun to let kids get energy out.	Playground Shade Provision
#8: indoor tracks, meeting spaces / classrooms, Historic sites #10: shelters, pavilions, or shade structures; skate parks, multi-use lawns	Park Shelter Development, Recreational Facilities

1. We do not take our dogs to dog parks. People don't pick up after their pets and I have seen people bring their sick animals, on purpose, to the dog parks to poop. They didn't want it in their yard. 2. Nashville heat index temperatures are dangerous. For safety reasons, all public parks should have shade cloths, covered areas and cooling areas provided. Playgrounds don't have shade so playground equipment is unusable most of the summer. As I type our heat index is 104 degrees. It is dangerous for all that live in Davidson County. I go to Mt Juliet for splash pads.	Playground Shade Provision, Dog Park Hygiene, Park Safety Improvements
Recognizing that cost is likely a large part of this, maintenance/repairs seem to be a VERY low priority in many situations. Davidson St. through Shelby has been blocked off for months with no end in sight. The "zig-zag" boardwalk in Shelby has been blocked for nearly 2 mos with no end in sight. The new boardwalk bridge over the marshy area adjacent to the events lawn at Shelby has featured an exposed 2x4 as an "on ramp" (rather than a smooth slope) for months with no sign of any repairs. Rather than worrying about new "things," how 'bout repairing existing stuff first??	Park Maintenance and Infrastructure
There is a great need of public tennis courts in all areas of Davidson County (especially eastern sections of the county). Tennis is a life long sport, so it benefits all ages! Centennial Sportsplex is always full/booked—with lots of players from surrounding counties (not Davidson Cty taxpayers). Hadley Park tennis facility is the same.	Tennis Court Expansion, Tennis Court Development
Harpeth River greenway needs to be maintained better and should connect to Bellevue amenities to provide more of a destination when using the trails. One bridge is out (but nearly replaced) and a boardwalk is failing apart and the aasphalt needs repairing in several places. Trimming branches and bushes is also needed. Several drainage issues. If it was in better condition, it might attract more visitors like Shelby Bottoms.	Trail Connectivity, Trail Development, Greenway Maintenance
Lights on the popular greenways would be helpful.	Greenway Lighting, Greenway Development
We need a disc golf course at the new Ravenwood park	Disc Golf Course Development
The Hermitage Community center needs to be rebuilt as a regional community center to include a pool. We also need to more heavily invest in after school and summer programming for students, in particular families who may not have transportation to get to the community center.	Youth Programming, Family and Child Recreation, Community Center Facilities
Bathroom facilities at parks and disc golf courses should be updated, maintained, and remain open all year.	Restroom Facility Improvements
Hours of community centers should be extended beyond many working hours so that residents can actually access programs. Would love to see connection from multiple neighborhoods/complexes into Stones River greenway via sidewalk over dam on Bell Road & along Dodson Chapel.	Community Center Hours, Community Center Facilities, Greenway Development, Trail and Greenway Development
We have access to quality, affordable dance programs and arts programs for both of my kids, as well as playgrounds, community centers, and nature centers. We love living in Nashville because of all of these opportunities for learning and playing!	
We need rest rooms, not stinky porta-potties!	Restroom Facility Improvements
Protect and add to our natural areas!	Natural Area Conservation, Natural Area Preservation
Me and my partner's favorite activities are roller skating and ice skating but lack of skill and confidence makes skate parks and many multi use trails a daunting challenge for roller skating while the combination of costs and limited schedule availability for public and beginner skate sessions make roller and ice rinks inaccessible to us many days out of the month.	Recreational Skating Facilities
I'd love toddler trails, story book trails. Toddler activities or list of best activities for small children (structured or unstructured). Afterschool and summer programs that run until 6pm.	Family and Child Recreation
Would love to se3 the parks well maintained. For example, Steeplechase is only maintained prior to the big annual event. It needs work done all year around. The grass cutting this year in Warner parks is terrible. Trails need to be filled in or paved as gullies have formed over a foot deep which is very dangerous for hikers. Maintain what we have before doing more.	Trail Development, Trail and Greenway Development
Need far more security at Cane Ridge Park. Level of criminal activity in the mountain bike and model airplane parking areas is off the charts, back parking by ball fields too. Nobody does a thing about it and nobody answers the park police non-emergency number either. I've quit going there anymore out of fears for my safety and don't want my car broken into. Reported crime over there may be low, but it's because it's impossible to report it in a timely fashion. Percy is better, but if the MTB parking lot is moved over to Deep Well, it'll be worsened.	Park Safety Improvements, Park Safety and Security
I wish there were more evening arts classes, since my work hours do not allow me to go to daytime classes. I also wish there was an option to get access to indoor fitness equipment without having to pay additional fees.	Indoor Fitness Access, Evening Recreation Classes
The parks need accessible and clean bathrooms	Restroom Facility Maintenance, Restroom Facility Improvements
I wish my neighborhood will be pedestrian friendly	Pedestrian Infrastructure
Parking	Parking Facilities
Love Centennial Park also, especially art center and herb garden!	
I would like to see a community pool in Sylvan Park, ideally located at Richland Park.	Community Pool and Swimming, Park Facility Expansion, Park Amenity Development, Community Pool Request
Bathrooms and lights for softball fields at Green hills park	Sports Field Infrastructure, sm_neutral
There are NO options to play racquetball in Davison county unless you work/study at Vanderbilt or Lipscomb since the downtown Y eliminated them. We have to drive to Lebanon, Clarksville, or Murfresboro. This is unacceptable!!!! It was not even an option on your lists!!!	
Let's get some tai chi going!	Recreational Program Suggestions

Coleman Park needs more parking. This facility is also being used for commune events and meetings. Our community has grown and we don't have enough parking. You could take out the underused community garden and turn the into at least 70 additional parking spaces!	Parking Capacity, Park Amenity Development, Park Facility Optimization
I can't help but notice how mindlessly the handicapped parking at Coleman. The handicapped parking is located at the steps! While the area for easiest access for people with walking difficulties or wheelchair is in the next level up. All Handicapped parking should be on the second level. For ease and safety.	Accessibility Design
Would love walking trails to be shaded.	Trail Development, Walking Trail Improvements
Better advertisement of events/classes/offerings. Out of sight, out of mind!	Event Communication, Program Marketing
Would love it if the short greenway trail by Mill Creek and Donelson Hills could be extended somehow into those neighborhoods between the river and Lebanon Pike as you head into downtown Nashville. I live in the Belle Acres neighborhood and we're limited to only our small neighborhood because the multiple neighborhoods aren't connected. If there were a greenway trail , maybe following along where the power lines are, it would provide a longer trail for residents to walk without having to drive someplace else.	Trail Development, Trail and Greenway Development, Greenway Development
I actually didn't know that things like art and cooking classes happened through metro parks. I think getting the word out would go a long way to people actually joining the programs!	Event Communication, Program Awareness
Would love more communication about current parks offerings	Event Marketing, Program Communication
I would love to see more greenways, especially ones that connect to each other, both for longer paths overall and for ease of movement in the city. If I had a greenway I could walk to or use to walk to the one I currently use, I would get to work that way, as well, which would help reduce traffic. Also, the main greenway (Harpeth Creek, I believe) I use tends to flood, which makes it challenging to use for significant parts of the year. If there's a way to limit that flooding or simply work on other greenways in the west part of town, that would help many of us in this area.	Trail Development, Trail and Greenway Development, Greenway Development
Would've liked easier explanation and marking of disc golf courses and when it is open	Recreational Facilities, Facility Signage, Disc Golf Course Information
Sevier Park needs more hours of open gym for the basketball court. The Wave Pool is fantastic, please keep that forever but, a bit more cleanliness would go a long way.	Facility Cleanliness, Gym Facility Hours, Facility Hours
Warner Parks must be protected but by closing so many roads, people like us seniors with limited mobility can no longer access some picnic areas and other natural areas. The option of being taken there in a golf cart isn't appealing to us as it is time consuming and doesn't allow for spontaneous visits.	Park Accessibility and Equity, Senior Park Access
Get Cheekwood out of Percy Warner Park. Let Cheekwood solve its own issue. It is violating the deed	Park Management, Land Use Dispute, Park Boundary Disputes
As a resident of Charlotte Park I would really like to see progress made on the pickleball courts and renovations done to add restrooms near the playground.	sm_neutral, Park Amenity Development
Please create more toddler friendly play grounds, splash pads, and outdoor pools! There are very few. Most playgrounds have dangerous drops or are only suitable for older children. Get a mom to help you design the playgrounds.	Playground Development, Family and Child Recreation
Need more soccer fields	Sports Field Expansion
More drinking water stations are needed throughout the greenways and parks. Also the existing ones often don't work. More dog poop disposal options. Often the trash bins next to benches stink of dog poop- maybe move the trash cans of provide specific containers away from seating/play areas?	Waste Management Improvements, Park Amenity Development, Park Amenities, Waste Management
As an OLD retired ex-Parks employee, I have a suggestion..make sure the newly installed equipment can be easily maintained by our Maintenance staff!!	Equipment Maintenance, Park Maintenance and Infrastructure
Another dog park? The closest on to me closes at 6pm and it's hard for me to get there that early. Or lighted dog parks for winter months.	Dog Park Hours, Park Lighting, Dog Park Management
More Senior Aquatic classes	Senior Recreation Programs
Love Wave Country. We go to it multiple times throughout the summer. It's clean, well-staffed, concessions are affordable. Definitely needs and deserves some maintenance work. Also, with the times, it would be helpful to have a one-off bathroom. I've heard from a few gender neutral folks they have trouble there picking and choosing. Love the greenways. Would love to see Antioch Pk in Glencliff be a greenway. We also don't have a park in our section. Woodbine has Coleman, Radnor has Turner, but we do not have one. Would love to see some investment in the Wright Middle School playground and sports fields, but not sure if that could be open to the community.	Wave Country Maintenance, sm_positive
I really appreciate the staff at Coleman Community Center. I also appreciate that we can use the facility for community meetings. I LOVE this place!	Community Center Facilities
West Nashville, specifically West Meade/Belle Meade/Hillwood have zero things for families! We have no splash pads, no community center, nothing! Not everyone who lives in 37205 is rich with access to all sorts of amazing things. Nashville in general cares much more about tourists than it does about actual families with school age kids who live here!!! Please turn the old Hillwood High school grounds into a community center, sports fields, walking tracks, splash pad, community garden, library for the families who live here!!!!!	Neighborhood Park Development, Community Facility Needs, Community Center Facilities, Family Recreation Facilities
I did not even know some of these options were even possible from metro parks	Program Awareness
As far as I know, there are not Parks near me.	Park Accessibility and Equity
The BIGGEST thing that would be helpful would be programs to remove pavement and increase green spaces especially small ones - trees in the medians, along sidewalks, etc. I believe it makes a huge difference to change your everyday route of travel, much more than an isolated park or program.	Urban Landscape Improvement
I think the Cleaveland park pool should be opened to the community in addition to more tennis courts and a grill or place to eat there ! We also have a need for a bridge sports program from kids who don't want to do full time travel soccer , but want serious coaching and competition . This currently does not exist until East Nash Soccer has started …hopefully this will continue to grow . East nashville is a desert for good soccer programs .	sm_neutral

I would love for an outdoor pool with a diving board, umbrellas and shade. We have so many kids that would enjoy this space. It is also essential for all children to know how to swim.	Pool Facility Improvements, Community Pool and Swimming, Outdoor Pool Design
natural areas with native plants	Native Plant Landscaping
Zip code 37189 is sadly lacking in parks and activities for green spaces.	Park Accessibility and Equity
Nashville hosts the Disc Golf Pro Tour every year at Mill Creek Park. They use a temporary course at that site to host the event. I'd love to see that course become permanent.	Disc Golf Course Development
Cedar Hill needs to be cleaned up and made more safe across the board. The entry gate is a start but there are definite signs of homeless, drug use, and what looks like possible gang affiliated action taking place in the MTB trails, wooded areas, and frankly out in the open of some parking lots. This is the closest facility to my home and I truly enjoy the MTB trails; however, this park is overall not a safe place.	Park Safety and Security, Trail Maintenance
We need more public indoor/outdoor bathroom facilities. Docked e-bikeshare needs to not only be returned to park property but welcomed and encouraged. We need to add more greenways and extend existing ones where possible. They should also connect to each other as well as NDOT bike infrastructure more cohesively.	Park Facility Infrastructure, Park Infrastructure Improvements, Greenway Development, Trail and Greenway Development
green hills park tennis courts next JT moore is in and has been for years and years	
Please prioritize the Kirkpatrick park. There are several safety issues that need to be addressed. Also, the hours for the splash pad have been confusing	Park Safety and Security, Facility Hours, Splash Pad Operations
We would LOVE small neighborhood parks in our neighborhood. Bellevue Manor has a non-buildable, empty lot that would be great for a small park.	Neighborhood Park Development
Longer hours for pools would be appreciated! More programming in north Nashville	North Nashville Programming, Pool Hours, Community Pool and Swimming
I really like what we have and would love to see it grow! Parks are so important for our city.	Park System Appreciation
Since Nashville Community Education shut down it would be great to have more adult ed crafts, music, exercise etc classes somewhere in the city.	Adult Education Programs
It would be really great if there were more sports fields available for adult women's sports… ES Rose is somehow always booked out more than the max 2 weeks in advance by Belmont soccer…	Sports Field Availability, Field Reservation System
Nashville Parks needs more turf fields for use in winter when the other park fields are closed - both indoor and outdoor. ES Rose is the ONLY one and it's impossible to book. Belmont should NOT receive priority just for donating to it, they can build their own field or go through the same rental process as everyone else. More fields need lights so they can be used in the evenings when sports leagues have practices.	Sports Field Availability, Field Lighting
We would love another field to play rugby with proper rugby uprights as the sport continues to grow in Nashville	Sports Field Expansion, Recreational Facilities
We live close to cedar hill park and I wish it had further safety precautions. My husband uses the mountain bike trails there, but only during the day, we would never go there at night. I know a fence was installed, but the park has full easy access from Dickerson pike so the fence on old hickory is not really doing anything but blocking auto traffic. I do not go there by myself for safety reasons, but I wish I could as I often like to walk my dogs and would utilize the green way there if it were safe. I'm also a friend of Alyssa Lokits who was murdered in broad daylight this year while running at a metro park greenway. Safety is absolutely top of mind for me I hope Metro Parks is of the same mindset. More safety measures are necessary in our greenways so folks can walk, run and bike alone without worry. I'm an avid dancer and longtime Nashville resident and I am fully and always impressed with the dance programming offered by Parks. I respect what Parks brings to the community and I'm proud we have accessible arts programming.	Park Safety and Security
Would love to see free/affordable pickle ball leagues and outdoor pools for lap swimming in West Nashville! :)	sm_positive
would love to have more fields that sports teams can use. i play on the nashville women's rugby team and struggle to find places to practice	Sports Field Availability
More bike focused activities!	Bicycle-Focused Activities
I am not a parent with children (but a social worker and previous educator), so I don't know the landscape of what is or isn't provided to children across Davidson County. I believe if there is a deficit in any programming/facilities/development throughout the county, then monetary efforts should go towards providing for the well-being of Davidson County's children. Secondly, more outdoor spaces with lessons/classes/organized sports and recreation are needed. I think we have a lot of unused outdoor public spaces in Nashville. There is absolutely a need to create more of these spaces, especially in communities where quality outdoor space/public parks aren't walkable or in existence, but I also think there could be better marketing efforts/offerings about the current spaces that are open to the public. I think finding ways of sharing knowledge about and incentivizing the use of these spaces should be a priority. I think there needs to be promotion, intentional and community-planned utilization, and awareness/access marketing efforts for the already existing spaces. I also think public safety is a key issue. I live in the Seven Oaks neighborhood, and I walk through Seven Oaks Park every day, and often notice/feel the weight of the fact that there are no adequate safety precautions in place for me to access if I were to find myself in an unsafe situation. Having alert systems/emergency columns with safety buttons would help me to at least feel that I might be able to run and access crisis support if in an unsafe situation where I felt my life was threatened. There is a great playground in this park, and if I had a child, I would want to bring them to this park, but I would certainly hesitate to take them by myself because the park is often empty/isolated. I want to note that police presence would not make me feel safe, and I know it would not make many patrons of the park any safer.	Community Space Development, Program Marketing, Park Safety and Security, Program Awareness
Better access to restrooms year round along greenway Access to water year round along greenway Increased graffiti removal	sm_neutral, Park Maintenance and Infrastructure, Trail and Greenway Development
Outdoor covered picnic shelters with table and benches. Benches along walking tract.	Park Amenity Development, Park Amenities, Walking Trail Facilities
Please put a pavilion and a water fountain back in Charlotte Park. We have asked for several years.	Park Facility Restoration, Park Maintenance and Infrastructure
Bathrooms or well maintained portables	Restroom Facilities

Can we please add indoor pools to every community center. With the influx of people no one wantsvto drive to downtown from bellevue just to swim. How did the build a new community center with no pool. Please get them at every community center ASAP. We have a group looking into legal options to get them as well.	Community Pool and Swimming
There is definitely a need to acquire more natural areas and create trails to interconnect Beaman, Bells Bend, and Warner Parks	Trail Development, Park Connectivity
Thank you so much for all you do!	
Please close the Clevrland Park pool.	Pool Management
Subject: Cleveland Park Pool Needs Immediate Attention Hi Mr. Neloms and Ms. Morrow, I hope you're both doing well. I wanted to reach out and ask that the Cleveland Park Pool be given some much-needed attention. This pool is such a unique asset to our neighborhood and the city, but neighbors are frustrated that it often isn't open during its posted hours. From what I understand, a new pump is urgently needed to keep the facility running consistently. Regular maintenance—especially keeping the water properly treated—would go a long way toward preventing the unexpected closures that have become all too common. The bath house also needs serious upgrades and a deep clean. A clean and welcoming environment is key if we want people from across the community to feel safe and encouraged to use the pool. Lastly, extending the pool's summer hours would make a big difference. Longer, more reliable hours would give families, kids, and neighbors more chances to enjoy it and help make it a true gathering place. Please consider allocating the resources needed to get the Cleveland Park Pool back on track. With some investment and care, it could be a shining example of what summer in Nashville should look like. Thanks so much,	Facility Reliability, sm_neutral, Pool Maintenance
Please, continue your efforts to improve our parks. We need them. Thanks!	Park Improvement Support
Thinking through these questions on behalf of community members I work for and with, are we asking questions about the nneeds of teens and youth? In the alternative, could we ask middle school, high school, and college-age youth to answer a version of this survey and analyze their reported needs? Also, it would be interesting to ask how folks want to travel to and from parks. I have to drive, but would use public transit specifically to visit parks where I want to walk, but not leave my car unattended. Thanks!	Youth Park Needs, Park Transportation Access
H illwood hs should become a community center and park!!!!!! We pay high property taxes, but lots of us are not rich, or members of country clubs etc. Our kids should be able to walk or bike to a metro facility too!!	Public Recreation Access, Community Center Facilities
I wish the Bellevue Community Center had more senior activities in the evening (after 5 pm) and on weekends. They all seem to be during the day when some of us need to work. Also, would like to have more pickleball. Can an outdoor court be built?	Recreational Facilities, Senior Activities
Connect more greenways	Trail and Greenway Development, Greenway Development
Would love each Greenway Trailhead to be accessible by walking or cycling. For example, there is no safe access to the Harpeth River Greenway Trailhead on Old Harding Pike - folks have to walk in the ditch next to speeding traffic. A signalized pedestrian crossing should be added at Old Harding Pike & Sawyer Brown Road so and a sidewalk on the greenway side of the road should be added so that the thousands of residents in River Plantation and surrounding neighborhoods could walk or bike to the Greenway.	Pedestrian Safety, Trail Connectivity, Greenway Development, Trail and Greenway Development
I try to utilize the Harpeth River Greenway for bicycling, but it can be dangerous after a rain. Inadequate grading results in slick in slick mud areas that can take multiple days to dry.	Trail and Greenway Development
Greenways are transportation facilities and need to be designed as such. People such as my household use greenways to get to work, run errands, etc. and if 3/4 of pedestrian fatalities are at night/evening, we need lighting to allow for safe travel to/from work/errands. Please coordinate with NDOT to upgrade these into proper transportation facilities because that is how they are being used today.	Trail Safety, Lighting Infrastructure, Greenway Transportation Design, Park Safety and Security, Greenway Transportation Function
Cleveland Park is being sorely neglected. Please follow through on updating our tennis courts. The pool house needs to be painted to match the community center and also renovated inside. The pool itself needs work to be more stable and should be open way more in the summer and marketed as well.	Park Facility Renovation, Tennis Court Maintenance, Community Pool and Swimming, Pool Management, Park Amenity Development
CLEAN UP THE GREENWAY ITS TRASHED????	Greenway Cleanliness
Better monitoring of trash & recycle disposal on a consistent basis.	Waste Management
Security cameras for the parks.	Park Safety and Security
more greenways (or trails) along Cumberland River and Harpeth River	Trail and Greenway Development, Greenway Development
I don't know if this is a parks thing but I would really like for Nashville to be more walkable. I would like to be able to walk to the greenway rather than having to drive to it in order to walk the greenway	Pedestrian Accessibility
The need to be safe. Greenways often travel through unsafe areas with growth for someone to hide in or through areas where questionable people loiter around. Cars parked at Shelby and other areas are constantly broken into. People robbed. Need separate or designated paved trails for walking or biking. Speeding bikes and skating should not be mixed with people walking and vice-versa. Bikes should not be mixing with cars on the streets. City should be policing streets, not punishing evey resident and user with these damaging "cushions".	Trail Design, Transportation Infrastructure, Park Safety and Security, Trail Development, Trail User Separation

Cleveland Park needs a lot of attention! Our neighborhood is growing fast and also brings in a lot of tourism for the city. Thank you for updating the community center. Please also update our playground, tennis courts, basketball courts and picnic shelters. This park could be such a beautiful place for people to play and gather. The pool is an amazing and unique feature in the park also, but it's very frustrating how often it has to close in the summer because of faulty equipment and supplies. Please update and clean the bathhouse and pay more attention to the needs the Cleveland Park pool has. People will flock there if it's a beautiful, safe place and if the hours it stays open are extended. So many pool facilities in other counties or cities have a water slide or something to make it extra fun. Get creative and make this pool something Nashville is proud of!	Park Facility Renovation, Park Facility Upgrades, Community Pool and Swimming, Pool Management, Recreational Amenities, Community Recreation Space
I'm a real estate developer and would love to see increased focus to the Greenways. Chattanooga is a great example of the investment into facilities and paths along the river that forever will change the development and tax income. Facilities and classes can be pursued and ran by private companies the city should not be doing that.	Private Sector Involvement, Greenway Development
Cleveland park pool needs Maintinance and needs to be open longer hours. It is always closed and would be such an asset to our community.	Pool Management, Community Pool and Swimming
Integrating food/drink opportunities into our parks seems to be a big missed opportunity. It would attract and keep people in parks and satisfy a need while bringing in revenue.	Revenue Generation, Park Concessions
I'd like to see more and better playgrounds for kids. I'd like to see more bike/ped trails, more protected-bike-lanes in the inner loop, and an expanded downtown riverfront plaza to the north	Playground Development, Riverfront Development, Bike Infrastructure, Trail Development, Urban Public Space
My kids are grown, so its mostly my husband and I using the parks now - though we were very active in the children's recreational activities and fields before and many of the free concerts and plays. It would be nice for there to be more areas to discover things while walking in the parks - similar to the follies built in the earlier years - Windmill Hill, the Cave Spring, and various art-related things like the Dragon in Fanny Mae Dees Park. The parks have seen many years of tornadoes and storms and we could use more tree plantings. It would be great to have more places that could accommodate hammocks and picnics and hang time for families and friends. Kayak launches would also be great.	Landscape Enhancement, Recreational Infrastructure, sm_neutral
Please put a restroom at Cornelia Fort Airpark and spruce up the hangers and old building. I love the re-wilding of the meadows there and I hope that continues.	Park Maintenance and Infrastructure, Restroom Facilities, Park Facility Maintenance
Need a Greenway in Green Hills. The community is rather isolated from any connection to Nashville Greenways.	Trail and Greenway Development, Greenway Development
Metro makes it VERY hard to know when and what classes are available to the community centers—no newsletter email or similar. Eventbrite is a horrible way to manage signups, since there is no way to be notified when there are new classes. The websites for teh community centers are rarely updated and make you jump all over the place to find classes.	Program Registration, Community Center Facilities, Community Center Communication
Please add more permanent bathrooms - or at least PortAPotties	Restroom Facilities
The parks website is organized in a helpful way but it's challenging to navigate to the right information if it's not a major theme/topic on the first page.	Website Navigation
The facility requires better long-term and semi-annual maintenance. Generally, more focus on beautification needs to be prioritized. Grass alone shouldn't be the only feature. What attracts people are areas that are clean, well-maintained, and inviting.	Facility Beautification, Park Aesthetics
My community was asked what we wanted/needed at Brookmead, apart from clearing of the area, citizens were not listened to further some of the citizens were disrespected by the Parks and Recreation leaders. I personally emailed, and called several times to ask if I could plant wildflowers native to the area and was not given the courtesy of getting any type of reply. Leaders of the P & R make high salaries, which I do not think they deserve, and yet they ignore members of the community and disrespect them. These people should be servant/leaders, and as stated not ignore and disrespect residents.	Community Engagement, Park Leadership
When the Brookmeade Greenway first opened many years ago, I took my young grandson there often and had a great time until the homeless started taking it over and it eventually became too dangerous to go. He's 28 now and even though it has been "given back to us ", it is still very much a work in progress. We were lucky enough to have some land owned by the Corp of Engineers behind our house. My kids who are now in their late 50s and all the neighborhood kids used to play back there and we kept it cleaned up. Even the corp of engineers would clean up fallen trees. Now it is a waste land. A huge tree recently fell on their side across the creek and onto our property. I was told we were responsible for what fell on our property and they saw no immediate concerns with it backing up the creek. We have cleaned up the massive amount that fell on our property. People with cross bows now hunt back there and we were told they are allowed and we can be cited if we interfere. Homeless people are moving in. Last count there were 2 tents. I was told nothing would be done about it unless they start causing problems. We no longer go back there. I guess I'm just a bit disillusioned. I'm so old now it really doesn't matter. Work yourselves to death cleaning up our greenways. The government will just eventually take them back. No one can say it hasn't happened before.	Park Safety and Security, Greenway Safety, Land Management
Please keep the homeless out!	Park Safety and Security
Why can't the Bellevue Grernway be maintained like the others in Nashville. Even a minor rain ruins the greenway, preventing us from bicycling or walking. Shelby Park NEVER has this problem. After a hard rain, the greenway is unusable for up to 5 days. It is highly dangerous when wet and muddy/ I've seen injuries including serious injury. Not right.	Trail Conditions
only 2 spray-grounds (with terrible hours) on the website not counting random fountains. have to go out of the county to meet need. Upgrades to Whitfeild park have been underwelming. i rank voted a few years ago for them and only have seen updated/repaired current equipment and not thoughtful execution on the very small new additions. it also needs a fence or barriers because its too close to a very busy parking lot. Feels like the only way to get something done is to have a friends of group for the park. Mill Creek and Ravenwood obviously new but they hit the mark. the upgrade at antioch park was ok--the swings are in a bad spot too hot (not thought out) contractor preference was noticed not to mention whoever manages that park looks up the picnic table s and basically destroys the atmosphere.	Spray Ground Facilities, Park Development
My greenway is well maintained	

The multiple choice questions for amenities did not include dog parks as a choice. Would love to see more dog parks. I am happy with the parks and facilities in East Nashville, but wish there was something within walking distance of the East Hill neighborhood.	Neighborhood Park Access, Dog Park Management
Make community centers responsible to users rather than treating them like enemies. Have been lied about, accused, and banned for reasons that were untrue and never substantiated. The director and a staff member at McCabe should fired.	Community Center Facilities
I'm so grateful for all the hard work and intention put into these programs to benefit everyone in our community!	
No	
I'm not sure how to answer a lot of these questions simply b/c I just walk at Peeler and bike at the Airpark. And bike through Shelby. I don't bike on greenways b/c 15mph speed limit is too slow for me. However, AS A CYCLIST... I'd be cool if y'all lowered that speed limit. (We cycling friends go WAY to fast on the greenways.) I do TRAIN HARDCORE at the Airpark. My main point is that a local running store is using the Airpark as an even space to promote their programs and corporate sponsors. Last Wed morning (7/16) there were hundreds of people there at 6 am. Asics had a sponsor table set up. And cycling was dangerous trying to weave through all those people. Sometimes the Airpark gets crowded with local walkers, runners, and cyclists which is FINE. But for a business to use the Airpark as an event space seems unfair. However, if it WILL BE used for events, I recommend painting a line down the middle so event people can use one side and the general public can use the other. And perhaps charge money for any businesses using the airpark for events that promote their stores and vendors.	Park Event Management, Trail Usage Regulations
In open areas like Bells Bend, there really need to be intermittent shaded awnings along the trail that people with heat sensitivity can take refuge in. It's a wide open field with zero shade in between the barn and the loop trail, and this makes it extremely dangerous for people who have certain conditions or who take certain medications. As an example, I love this area, but as a result of my medication, I am unable to visit this park currently. A few weeks back, I very nearly didn't make it back to the barn and had to break out my emergency cold packs, even with adequate water and electrolytes.	Park Maintenance and Infrastructure, Trail Safety, Park Design
More events	Park Programming
We really need more water features that can be played in. These summers are hot! We also need to make sure the bathroom facilities are well maintained.	Water Play Features
Golf courses are understaffed, especially concessions and grounds	Golf Course Staffing
I would love a greenway connecting the Crieve Hall neighborhood to Edmondson Pike, especially the library. I'd also love to see the green space under the huge power lines to be utilized for the public: greenway, hiking trails, bicycle paths, etc.	Trail and Greenway Development, Utility Corridor Public Space Utilization, Greenway Development
Keep providing volunteer workday programs. Consider some type of 911 call box on greenways, trails and watertrails, especially at trailhead. Improve trail blazes on all trails at Edwin Warner	Park Volunteer Programs, Volunteer Program Maintenance, Trail Maintenance, sm_neutral
Ceramics at equestrian center	Park Amenity Development, Recreational Facilities
I would love to see more access to pools!!	Public Pool Access, Community Pool and Swimming
It seems all the parks are on the west side of town in nice to do areas. Would love some better walking trails in the Glencliff area. Definitely need toddler safe (fenced in and NO MULCH) playgrounds in Nashville as a whole. I do realize there's the new playground by the library on Thompson, but it's so packed we haven't ventured to check it out with 1 year olds. Plus if you want to walk to it you have to cross a major intersection.	Park Geographic Distribution, Neighborhood Park Access, Playground Safety Design, Playground Development
1. Horse trail in Percy Warner park should be expanded use to allow for mountain biking, could be alternating days of use to avoid conflicts, for example 6 months of the year one use is M, W, F and Sunday and the other is T, T, Sat, then the other 6 months the days flip. The months would also alternate as in even and odd months for distribution through out the year. This would be a simple way to expand mountain bike trails without necessarily creating new trails. 2. More mountain bike trails are needed. Perhaps in Edwin warner or Burch reserve? Since the creation of the mountain bike trails in Percy, the use has sky rocketed over the last 6 years in particular.	Trail Use Management, Trail Development, Mountain Bike Trail Expansion
Chicago opened this outdoor Squash court and art space. Nashville could do this too. https://www.psasquashtour.com/news/project-beacon-to-open-first-u-s-public-outdoor-squash-court-in-chicago/	Park Amenity Development, Innovative Park Facilities
The thing that deters us from going to the park often is due to not having any shade for parents and kids. I think there should be a tarp/canopy at the playgrounds and maybe seating with shade for everyone.	Playground Shade Structures, Playground Shade Infrastructure
Na	
I would love to see more trees I. Eastland Park as well as a pickleball court.	Recreational Facility Expansion
Walkability! More small parks with playgrounds and exercise stations located within the hearts of neighborhoods!! We need green spaces we can actually use. Nashville does have several larger parks but they are not safe to walk to. We need small, like 1/4 -1/2 acre small, parks that can encourage people to walk and get active, making it accessible and easy to get to and therefore use.	Park Accessibility and Equity
Please All Metro Schools Employees To Exercise For Free	Employee Recreation Benefits
Security	Park Safety and Security
The facilities at Whites Creek Park need to be updated to be commensurate with parks in other parts of the city. Nashville needs strategic open space planning with funding for land acquisition. Since the Highland Rim Forest is critical for clean air, water, and biodiversity, there should be a focus on preserving large forests surrounding Davidson County, and Whites Creek has ample opportunities to do so.	Forest Conservation, Open Space Preservation, Park Facility Modernization, Park Amenity Development, Open Space Land Acquisition
stop spending money on classes. use those funds for more people by adding, expanding, improving parks and greenways.	Park Infrastructure Investment
There is a deficit of metro parks (that I know of) in 37211 - community center @ Ellington would be ideal	Community Center Facilities

I love Nashville's parks!	
Summer camp is a life saver and in much higher demand - especially with Shelby and Mr Roberts leadership - than capacity allows. Same with after school care. The East Nashville playgrounds, nature play, greenway and Cornelia areas have been a key feature to my kids' childhood and part of our neighborhood joy. I would happily have more big kid art classes, nature events (like intro to birding!) and swimming but please keep everything we already have!	Neighborhood Park Amenities, Youth Programming, Youth Recreation Programming, Summer Program Capacity, Neighborhood Recreation Opportunities
Please fix the splash pad at Wasioto park!	Park Maintenance and Infrastructure, Splash Pad Maintenance
Southeast Regional Community Center needs an indoor pool	Indoor Pool Facilities, Community Recreation Facilities
Need senior activities like field trips to museums, art galleries	Senior Recreation Programming
Request for additional restroom facilities along greenways and hiking trails	Trail Restroom Facilities, Trail Facility Infrastructure
It is so great that the McFerrin Park has been redone but sadly the tennis courts have already been vandalized, and the surrounding empty lots and abended areas are an eye sore and attract crime.	Neighborhood Park Maintenance, Park Vandalism, Neighborhood Aesthetic Improvement
I see so many really cool events, but they are often during weekdays (like bird banding events at warner parks). I understand balancing staff time and availability, but would love to see events like that available on weekends. I also participated in the purple martin kayak last year and LOVED it, thought it was such a cool a creative way to see Nashville and the purple martins roost. Just wanted to rave about such a unique opportunity that was provided and think more programs like that could be well received. Appreciate all the Metro Nashville Parks do for the area, and know there's still so much for me to learn about and participate in!	Weekend Recreation Programming, Park Event Scheduling, Unique Recreation Programming, Unique Nature Experience Events
I think the Sportsplex is at max capacity and in need of increasing to keep up with cities like Huntsville and Bowling Green	
The trails need attention in removing debris and trash.	Trail Maintenance
I can't thank Metro Parks enough for its work throughout the Metro area. The progress we can see in the Open House PPT slides is remarkable. One area for further improvement is access to Greenway trails. While having 110 miles sounds like a lot, it isn't enough for a county of our size. Also, the trails can be quite disjointed which makes it difficult to ride for longer distances. "Electric Avenue" is an idea to leverage the crisscrossing TVA power lines by placing paved, multiuse trails under them. This existing greenspace could double the lengthy of greenways in Davidson county and connect to greenways in adjacent counties. For example, Crockett Park in Williamson county is ois on the same North/South TVA power line as the short greenway at Whitfield Park on Edmondson Pike. In addition, that North/South TVA power line intersects with East/West power line near Ellington Ag Center which runs adjacent to Radnor and then all the way to the Harpeth River trails near Edward Warner park and beyond. While this would be a politically complex development, it is a natural fit with the master plan, as these two examples are only the beginning of the opportunity to leverage existing greenspace in a highly developed urban area. Mike Brennan Crieve Hall Neighborhood Association 612 221 1299 michaelgavanbrennan@gmail.com	Greenway Development, Trail and Greenway Development, Utility Corridor Trail Development
Need to concentrate on areas in more urban, less affluent neighborhoods that lack the tree canopy that provides cooler temperatures and stress relief. Let's depave areas that don't need pavement and add native wildflower patches and trees to green up areas.	Tree Canopy Expansion, Urban Green Space Development
Thank you Nashville for the wonderful variety of parks we have and all the activities they provide and excellent staff. ti	
McCabe Community Center is great but the community is still highly disappointed in how Anthony Cooper was treated when removed from the center- he is like family! Would love to see another outdoor track	Outdoor Athletic Facilities, Community Center Facilities
More programming is needed for tweens and teens - they've outgrown the playgrounds (though Nashville could build playgrounds that fit them), and they need activities to learn and socialize. They need third places.	Youth Recreation Programming
I wish the greenways were more extensive so I could safely bike to work, the grocery, etc. I know this is a city issue rather than something that is within your control as an organization, but I do not feel safe biking anywhere. I wish we had more protected bike lanes. I would also like to see more green areas or community gardens	Community Garden Development, Trail and Greenway Development, Greenway Development
Name changes are fine if the park is in good shape. Otherwise it's tokenism. The fact that it's so hot and there are no splash pads or public pools is atrocious.	Water Play Facilities
Whites Creek is a terribly under-served area that needs attention. It's at least a 25 minute drive to any facility. The Greenway at Fontanel is not properly maintained. It's infested with poison hemlock.	Park Geographic Distribution, Trail Maintenance, Greenway Maintenance, Park Facility Distribution
Playing tennis at Centennial Sportsplex for 25-yrs, it is great to see the courts resurfaced BUT with heat being a global issue for everyone, we desperately need covers for the bench areas from the sun during changeovers. Also, coverage area for those watching USTA matches and such. I believe there is a frugal means of achievement of the solution so please, please get such done as too many years have gone by with no sun coverage for players during June and July months. Also, please add more lights to indoor courts 2 and 3 as courts 1 and 4 benefit from the walls offering additional reflection.	Shade Structures
Bells Bend constructed mountain bike trails in the woods but then allowed them to deteriate so they cannot be used. The parks manager shows not interest in maintaining them. The park list mountain biking as an activity but the main trails are not available.	Trail Maintenance, Mountain Bike Trail Management, Mountain Bike Trail Maintenance
no	
The Friends of Mill Ridge park do an amazing job of providing programs. They offer a variety of activities. My answers don't reflect their work, but the lack of additional support from Metro Parks in SE Nashville. The Smith Springs facility is also great and does wonderful programming. There's lots of room for improvement, including having a nature center in SE Nashville.	Community Recreation Facilities, Park Programming, Community Park Programming, Nature Center Development
Lengthen Seven Mile Creek Greenway + Landscape a bit	Trail and Greenway Development, Greenway Development

Restroom at Peeler Park—perhaps at new horse facility? I do use, if needed, the porta potty at model airplane field. It's always clean and well stocked!	Park Facility Infrastructure, Park Restroom Facilities
Helping more people with more regular how-to garden activities would be really useful. Thank you.	Community Education Programming
It is sad that as hot as it is the parks don't have enough shade and splash parks. In Toronto, a city with real proper winter, there are splash features at every park. The public pool in Cleveland Park should not be rented out to a private swim club and taken away from neighborhood kids half the summer. There are simply not enough activities to do in the summer with children.	Water Play Facilities, Public Pool Access, Summer Recreation Facilities, Summer Recreation Programming
No. Keep up the good work!	
Difficulty lies in getting to parks-not enough parking.	Park Accessibility and Equity
The lack of bathroom facilities in nearly every park I've been to has been virtually nonexistent or locked every time for some reason. This is clearly a need for everyone and to padlock a bathroom or only have two porta John's in one of the most visited part of a park is ridiculous. The last of care for the water access points for boats and kayaks is disappointing and the entirety of Cumberland Park is completely ignored. It is constantly run down, metro should pay for the signage change since they don't even put anything into now. The elevator is constantly broken, the splash pad has been broken for years, it's is mostly barren or gravel along the river on the hill where people want to go kayaking and enjoy the skyline. This park should be top priority but after years of using the park for my job, it is clear it isn't even on the list at all	sm_negative
I would like closer Greenway access	Trail and Greenway Development, Greenway Development
As an avid greenway and road cyclist, I will say that the greenways and parks with paved surfaces have not been well maintained at all this year, making it somewhat dangerous to use them. Lots of potholes, poor cleanup of storm damage, including mud and fallen trees, and frequent issues with flooding closing greenways down with no evidence that anything is being done to improve the situation (especially true of Bellevue Greenway). I don't know if you want information on Percy Warner Park, but it's just not being cared for as in the past, and even in fall and winter, there are often huge quantities of sharp broken hickory nuts and acorns that are rarely blown off the road. I've had one bike tire blowout from this...	Trail Surface Condition, Trail Maintenance, Greenway Maintenance, Trail and Greenway Development
a swimming pool at McCabe would be nice	Swimming Pool Facilities, Community Pool and Swimming
More greenways to more efficient laces/connect to each other and parks	Trail and Greenway Development, Greenway Development
Can we fix the splash pad at Cumberland Park? It's been down for at least 4 years now . Also more splash pads and playgrounds.	Playground Infrastructure, Splash Pad Maintenance, Playground Development
There is a significant issue created by electric powered vehicles on the Greenway. These primarily include high powered E bikes and powered unicycle type devices with people riding full on motorcycle gear. There will be a tragedy on the Greenway involving children or other vulnerable people as a result of the excessive speed and recklessness created by electric powered vehicles there.	Park Safety and Security, Greenway Safety, Electric Vehicle Regulations
Would like to see cafes, restaurants, coffee shops, and bars through public private partnerships that bring people into parks and allow them to fully enjoy them. Also would like to see much better canoe and kayak access so that there is a true blueway throughout Nashville. Again, public private partnerships with the kayak/outdoor outfitters is very important.	Park Commercial Development, Water Recreation Access
The nation's Neighbourhood has grown tremendously and we desperately need a new community center after West Park collapsed. We are also in desperate need of more swimming pool access in Nashville and ways to access bodies of water	Community Pool and Swimming, Community Center Facilities
I am concerned about the current state of Cumberland Park, bridges in Shelby Park and on the Harpeth Greenway, and the lack of connecting greenways in the city.	Park Maintenance and Infrastructure, Trail and Greenway Development
Would love if the boardwalk around the trees/creek at Hermitage Park was fixed. Thank you for starting work on the Stones River Greenway boardwalk.	Trail and Greenway Development, Park Boardwalk Repair, Greenway Development
The Parks director needs to resign, preferably immediately. West Nashville parks are so neglected. West Park had the gym literally collapse and it will likely take 5 years to rebuild. West Meade park is still infested by hobos and is completely unsafe and looks like it was designed after the Riverbend Maximum security prison over in Cockrill Bend. Would Freddie O'Connel take his kids to play over there? Probably not. And don't even get me started on Charlotte Park.... The tennis courts have been padlocked since COVID! I was excited when they were going to put in pickleball courts, but a few NIMBY's have hijacked that process. It is completely unacceptable. The Golden Gate Bridge in California was built in less time than it has taken to fix a tennis court! Get your act together because leadership starts at the top.	Park Management Criticism, sm_negative
Please please do some maintenance on Wasioto Park! I understand the project is put on hold due to the pending East Bank project, but the disarray of this park is very visible right now! And so sad—we used to love that splash pad! Thank you!	Splash Pad Restoration
More greenways and especially protected bikeways!! Not just with flex bollards or speed cushions but actual separation and protection from cars is needed. I've seen cars run over flex bollards many times and while speed cushions get most people to slow down, they also make most drivers swerve into the shoulder/bike lane.	Protected Bike Lanes, Greenway Safety, Trail and Greenway Development
Shelby Bottoms Greenway is over maintained. The nature trails are as wide as highways. More wide open spaces in smaller parks should have more mow yearly only areas. Keep playgrounds and ballfields that are used only. Trails for biking & walking are good. Have programs for elderly that encourage interaction/conversation and less teaching. It doesn't have to complicated & can even be a little downright silly.	Senior Recreation Programs

In Hermitage, there is a bit of a need for recreation areas. The only park is not located very close to many of the neighborhoods and is not very accessible from any other transport other than vehicle. The same for the percy priest dam park. There are no sidewalks along bell road, so the only safe way to get there is by driving. There is a place on Old Hickory blvd that I believe would be a great place for a park, walking trail, and fitness center. It is 5824–5836 Old Hickory Blvd Hermitage, TN 37076. There is roughly 20 acres that sit in front of the Deloitte office there. I spoke with someone in the Deloitte office in New York a couple of years ago and they were interested in selling off that land. This could be a good opportunity for metro parks to expand there. I don't remember their contact, however, Erin Evins does have a community outreach contact for the local Delloite office. There is also not very many options in Hermitage for fitness activities that are open to the public. All of the fitness centers there are paid membership gyms. A metro fitness facility - even with a low fee - would be great. The land by the Deloitte office I think would be a great place for that. Group classes, and fitness instruction could be done there.	sm_negative
I want safe connectivity for greenways! We need more safe crossings over the Cumberland river! Would love to see connection between Cleveland/McFerrin park area and Germantown	River Crossing Safety, Trail and Greenway Development, Greenway Development
I am a biker. One frustration is the lack of connectivity with the bike lanes and greenways.	Bike Lane Connectivity
We need more PUBLIC pickleball courts in our community. Expanding access would: promote physical health and wellness for residents of all ages; encourage intergenerational recreation and community bonding; provide a cost-effective, inclusive activity for individuals and families; and help alleviate overcrowding on existing courts.	Pickleball Court Expansion, Recreational Facilities
Connect the Mill Creek Greenway between Blue Hole Rd. and Ezell/Harding Place. Currently it's not connected and I have to drive to access either portion.	Trail and Greenway Development, Greenway Development
Would love to be able to walk to the mill creek greenway safely from our house. Right now we either have to walk on old hickory with no sidewalks or a back road and a bridge that isn't very safe	Pedestrian Safety, Trail and Greenway Development, Greenway Development
Making sure that the basketball teams are open to everyone and not just specific teams.	Basketball Court Access
There are not enough of the following classes: painting, drawing, digital photography, digital editing (Adobe products). Also, if you miss the sign up period you're pretty much screwed for like 4 months. The supplemental classes on Eventbrite strongly caters to ceramics and not a lot else.	Arts and Crafts Class Availability
Wish there were more pools available	
Would really love to see bike pathways and green ways that connect to the South Nashville area. We commute downtown to work via bike & there are so little safe ways to bike around. It would be incredible if the South Nashville, Whitsett/ Glengarry area had more walkable billable roads to get us around town !!	Bike Lane Connectivity, Safe Transportation Infrastructure
Thank you for the greenways and trails already provided and maintained. Would love to see more! Especially more moun tain bike trails accessible by paved greenway trails.	Mountain Bike Trail Development, Greenway Development, Trail Development, Trail and Greenway Development
no	
We need shade! Old Hickory Library has quickly becoming too small to handle children's events. Basement is flooded and moldy, unsafe for children to utilize. Playground and community center under construction. Hoping we have -extreme- shade options for this summer heat.	Community Center Facilities
Grateful we have a city that values green spaces and parks	Green Space Appreciation
Would love more greenway connectivity on the Southside	Trail and Greenway Development, Greenway Development
New and improved/updated restroom facilities throughout all of the parks. Official Dog Park sites throughout all neighborhoods. Updated and lighted greenways. More available equestrian trails. More available biking trails. New and updated Larger Community Centers/ Fitness Centers.	Park Facility Upgrades, Community Center Facilities, Trail Development, Park Maintenance and Infrastructure, Trail and Greenway Development
Sad to see the greenway near Old Harding closed for so long.	Greenway Maintenance
More access points to rivers, and creeks. Vehicle Access to the boat launch at Ravenwood Park	River Access, Boat Launch Facilities, Recreational Facilities
Me, my wife, Isabella, and our daughter, Hazel, all live in Rayon City. We would love to go to the lake area with the beach near our house, but the area is not kept nor does the police department regularly patrol. That area is full of potential for walking trails, outdoor sports, and much more. We would love to see that area glow up over the coming years.	Lake Area Development, Lake Recreation Potential, Park Safety and Security, Park Area Development
Centennial Park and Shelby Parks are a blessing to the community.	Park Appreciation
I miss Adult Tennis league at Centennial Sportsplex. I can't play anymore, but I valued this for a couple decades while it lasted. Also, miss Spin classes.	Sports Program Reduction, Recreational Facilities
Would love a pool indoor or outdoor at Southeast or Antioch Community Center	Swimming Pool Development, Community Pool and Swimming
Ban or reduce the use of plastic grocery bags	Environmental Policy
Large pavilions for weekly farmers markets with electricity access would be amazing. Keeping the vendors under a pavilion keeps them from compacting any event fields and ruining the grass. The roof protects from the summer heat or rain. These should be standard in every park. So should community gardens.	Playground Development, Community Garden Development, Park Infrastructure Improvements, Park Amenity Development
Thanks for all the great infrastructure you have with your current resources! River Access and recreation is underutilized in Middle TN and we have such great waterways. Currently our waterways are utilized by industry and that seems to be it. I'd start with Whites Creek, since there already is a community center right there. But we also have Mill Creek, Stones and of course the Cumberland. Moreover, with more folks on the river, they can catch things that are polluting our waterways (such as a burst raw sewage pipe and illegal siphoning of water from the river- just a couple of things that have been reported recently from paddles). Towns that utilize their rivers well thrive: Paducah Ky, Chattanooga, etc. And while Nashville is a thriving city it would be great if our waterways were included.	River Recreation Development, Water Resource Utilization, River Access
Protected bike lanes on Charlotte Pike would help a lot.	Protected Bike Lanes
Need indoor pickleball courts and updating most of the pickleball courts at Sportplex.	Indoor Pickleball Facilities, Court Maintenance

I love spending time in the parks with my friends and family, however my nearest park Stones river/ Percy priest lacks the infrastructure for other recreational activities that are mentioned here. There is also a strong smell of sulfur or gas that makes it very difficult to breathe comfortably.	Environmental Quality
We need outdoor public pools! Also, native and edible landscaping - we could grow so much food if we utilized even small spaces for pocket orchards, community gardens, pollinator gardens, etc.	Swimming Pool Development, Community Pool and Swimming, Landscape Sustainability, Native Landscaping
We are in the Nations and would love an update on what's happening with the West Park community center. Please rebuild!	Community Center Facilities, Community Center Reconstruction
Where to start....the newer community centers are great, but maintenance of these facilities is lacking. The pickleball courts at Centennial are barely maintained. There are cracks in the old courts, nets need new cords. There are cheap barricades between the courts, I see the same trash on the courts for weeks before it is picked up. I am always aghast at the number of cars with Williamson County plates playing hockey and taking up all the parking spaces. Davidson County has always subsidized the entertainment and recreation of people who live outside the county whether it be at Centennial or the local golf courses. They should have to pay more, since they live outside of the city to avoid Davidson County Tax rates, which subsidize their entertainment. The city has done such a poor job managing the parks, that I would like to see all Metro Parks moved out from under the politicians and under an independent commission. New Orleans does this and their parks are exceptional. Their tennis center looks like a country club. Metro steals the park and course use funds to pay off debt for downtown projects. If it does move under an independent body the funding needs to be set at a fixed percentage of Metro's budget to prevent further theft from politicians in cahoots with the chamber of commerce for more downtown sprawl. The airport seems to run independently, though they are wasting money away at an alarming rate, developing, tearing down, and rebuilding the airport non-stop. It is a nice facility. So, the independent model works except that the Airport Board is clearly run by people who are beholden to contractors who urge them to raise user fees and spend them on new projects.	Park Management Criticism, Park Funding Structure
The variety of arts and crafts classes could be better (mosaic, sketching, glass fusion, candle making, etc.) and there are not nearly enough class times offered. You literally have to be up at midnight to get in to the art classes. There are not enough "other arts" classes for adults - casual theater, improv, writing classes	Adult Recreation Programs
A park in our neighborhood would be ideal with walking trails. There are no sidewalks.	Walking Trail Infrastructure, Neighborhood Park Development
Most parks I see in the West and North Nashville area are in need of more trees and shade.	Park Shade Infrastructure
I would love to spend more time in the parks. Unfortunately there aren't enough parks that have access to most amenities. I would like to see more spaces where people can gather and do more activities and spend time with multi-generational families. The closest park to my home is the stones river dam and lake, the smell of sulfur is so strong that it makes it hard to breathe comfortably.	Park Accessibility and Equity, Environmental Quality, Multi-Generational Recreation
Nashville needs a beautiful greenway with lush grounds and clean water as a central drawing point in the city that is accessible to all.	Trail and Greenway Development, Greenway Development
Make everyone follow the law. Keep parks safer. Keep homeless out of parks.	Park Safety Concerns, Park Safety and Security
As a near daily user of Centennial Park and the Sportsplex, I have one strong recommendation. Please make the crossing of 25th Avenue betweeen Centennial Park to the Sportsplex safer by installing a marked crosswalk or other pedestrian safety measures. This is a common spot for cross-street pedestrian traffic, and cars frequently speed down 25th Avenue. Additionally, making the sportsplex more accessible to non-car traffic would be helpful. There is no sidewalk option that goes the whole way from 25th Ave. to either the entrance to the pool/ice rink or the fitness center. On the pool/ice rink side, there is a sidewalk from 25th Ave to the parking lot, but then you have to navigate past all the parked cars next to the building, and on the fitness/tennis court side, there is a gap in the sidewalk between the end of the parking spaces and 25th Ave, meaning folks who walk have to contend with either the grass or the cars leaving the parking lot. Essentially, if you are walking or biking to the sportsplex, at some point you will either have to contend with navigating grass or a crowded parking lot for at least a few yards.	Park Accessibility and Equity, Pedestrian Safety
I think that McCabe park is the best example of how a facility can improve the needs of a neighborhood. The community center combined with the greenway trail is a real plus to the neighborhood. I like that the parking is also utilized for neighborhood businesses. I really hope that metro will rebuild the West park center like the McCabe center. I loved taking ceramics at the West Park location. There is a huge need for more art, education, exercise and recreation opportunities in the Nations neighborhood! I have also taken a class at the Bellevue community. The facility is so nice, and it was built with a terrific ceramic studio, but classes ceased being offered there. If a facility is going to include the infrastructure for ceramics, then there should be enough funding, staffing and effort to fully utilize that facility. Otherwise you are wasting tax payer dollars.	Recreation Program Availability, Community Center Facilities
You need working bathrooms. It is disguising having to take a potty training toddler to a porta potty at a metro park in July because metro doesn't provide working bathroom facilities. I eventually stopped going to metro playgrounds and go to parks in Williamson county because ALL parks in Williamson county have working bathroom facilities. I don't understand why my tax dollars can't pay for parks in Davidson county to have bathrooms, but Williamson county can figure it out. Also, it seems as if metro puts lots of money into building a park, then walks away and doesn't fund upkeep. Examples would be the downtown splash pad (used to be riverfront park, can't remember new name) which has been closed for years. My oldest is 12 and I think it's probably worked half of his childhood. Another example is Whitfield park. I've lived in the area 16 years and I'm not sure if it ever has had a working bathroom. My children have used the sports fields and the porta potty is disguising. Luckily we live close enough to Williamson county to use their sports fields which are better maintained and have working restrooms.	Park Restroom Facilities, Restroom Facilities
We need to expand our existing parks and greenways. Increase funding for parks and promote land conservation initiatives.	Park Expansion, Land Conservation

If I had to choose an improvement it would be complete the Greenway connector that will allow access to Opry Mills from the pedestrian bridge area. That small area would allow so many people in East Nashville to access the events, shopping and activities at the Opry facilities without driving. It is on the plan. Please get that done.	Trail and Greenway Development, Transportation Infrastructure, Greenway Development
Great park system.	
Provide space for grassroot organizations to provide youth programming during normal business hours and after normal business hours	Youth Programming Spaces
I use the greenways to get to work on my bike. It's changed my life! More please!	Bicycle Infrastructure, Trail and Greenway Development, Greenway Development
I love our metro parks and community center!	
Need hike/bike patrols on greenways	Park Safety and Security
Availability of lap swimming during early morning weekdays at Smith Springs Community Center	Community Pool and Swimming, Community Center Swimming Facilities
I am very grateful for Metro Parks and they are exceptional despite my tough critique in the survey. I wish there was more preserved land set aside as rugged, natural woods and cedar glades such as Beaman or Long Hunter/Cedars of Lebanon SPs, but I know acquiring land isn't easy. With Nashvilles growth we face more and more people hiking and using parks that also often bring poor etiquette and this has often made my hikes frustrating instead of enjoyable. At Beaman especially, off leash dogs are such a constant issue I quit hiking with my leashed pets there. I have several friends who feel the same about that park. Metro could really do well by having a PSA campaign about trail etiquette via social media and email blasts, or by partnering with influencers to spread the word about good hiking etiquette. So more land set aside for rewilding/nature conservation, and PSA campaigns to encourage new park users to recreate responsibly.	Nature Conservation, sm_negative
Need more safe playgrounds and play areas for kids and families in Madison. Cedar Hill is not safe anymore.	Playground Safety, Neighborhood Park Improvements
The amount of trash present at Whitsett Park in Mill creek is really sad. It has been there for several years now, and isn't in a place where it's easy or safe for pedestrians to access it and pick it up.	Park Maintenance and Infrastructure
Please please open more splash pads! Also add more programming for kids on evenings and weekends for families that work/kids who do not homeschool	Splash Pad Expansion
I love the park system, but am frustrated that the is no accommodation for model rocketry. I have to drive to Kentucky or Columbia Tn to launch a rocket.	Recreational Activity Accommodations, Recreational Facilities
The need I see is something difficult to achieve and that is security.	Park Safety and Security
The greenways and outdoor parks are not safe. Coleman used to be a good place to walk outside. Now it is not. It is not safe to walk on corridors greenways or parks in district 16	Park Safety and Security, Greenway Safety
Would love to see nicer/more restrooms at Shelby, Cornelia Fort, and East Park	Restroom Improvements, Park Restroom Improvements, Park Maintenance and Infrastructure
Make drainage improvements to Old Timers and Hiter baseball fields at Shelby Park. Neither field drains properly, making them unusable after even the smallest amount of rain.	Sports Field Drainage, Sports Field Drainage Improvements
t	
Please build the Peeler Park Pedestrian Path.	Pedestrian Path Development
One of the greatest problems with existing outdoor facilities - pickleball and tennis courts- is the hours of operation in the summer. Courts open at 10 am on Sunday and close at 5 pm requiring play at the hottest time of the day. There is zero shade anywhere near the courts. Facilities should shift hours in the summer to open early especially on the weekend and especially where the city is not willing to invest in indoor facilities. The outdoor pickleball courts are not maintained at all. On top of taxes, we pay $10 an hour to play on courts with poorly maintained nets. The older courts which cost slightly less per hour are smaller than regulation and have wide cracks with gravel coming through on almost every court, poorly maintained nets and again zero shade. Open play which is typically at least minimally organized has no organization at all by park staff even though each player pays $10 to join. I play regularly at the city park facility in New Orleans for the same hourly rate on public courts that look like they belong at a country club. The tennis/pickleball facility also has a nice indoor and outdoor rest areas with lots of shade, ice machines and a snack bar. City park Nola is run by a non profit conservancy with some funding from the city. I feel like metro should consider that model for the larger park facilities if tax dollars plus facility fees won't cover basic maintenance and upgrades (like sun shades and seating near courts) and staff organization or programming. The city also needs to I stall more dedicated pickleball courts or at least permanent lines on existing tennis courts. It's a sport for all ages and would really encourage more physical activity.	Pickleball Facility Improvements, Sports Court Maintenance, Court Operating Hours, Recreational Facilities
Upkeep on the greenways is sub-par :(Lytle park has seen very little progress since it was purchased in 2013 (12 years ago!!!) This park should be open to the public by now in some capacity.	Greenway Maintenance, Park Development Delays
Outdoor basketball courts need a lot of work. Many courts need resurfacing and update rims and backboards.	
The lack of greenway connectivity makes Nashville car-reliant. I wish I could feel safe biking to parks, but biking on the road with no separation isn't comfortable. If greenways connected each neighborhood hub to parks and to each other, Nashville would be a better place to get around.	Bicycle Infrastructure, Bicycle Infrastructure Safety, Greenway Development, Trail and Greenway Development
Our forests and old growth areas should be protected. We are losing trees at an alarming rate and I'd like to see the Parks Department take some action to counter that. Most all Nashvillians want more trees and less development. Why is the City in general and the Parks department in particular standing by as trees are decimated and our air quality continues to worsen? I love Nashville and want to protect what's left of our green spaces, natural areas and forested areas. Please help us!	Forest Conservation, Urban Tree Preservation
Expanding any of the facilities and programs you've listed in this survey will be impossible if the city doesn't protect and expand the green space that it owns. I know the city budget is tight, and the "urgent" typically wins out over "important". But the window of opportunity won't be open much longer. Developers keep pushing to clear our forested areas. No going back once they do. Please be farsighted. If the city can't acquire more forested green space, at least enforce and expand the preservation laws that are in place. More houses won't make Nashville a more desirable place to live 40 years from now, but more green space will.	Green Space Preservation, Urban Development Concerns

Shelby Bottoms needs work on the pavement bumps- they surprise cyclists and at least could be marked clearly rly so we can watch for them. The zig-zag bridge needs help/ $.	Greenway Surface Maintenance, Cycling Safety, Trail Development, Trail and Greenway Development
Connect the greenways please. Make it a system interconnected parks so that feasibly one could bike from one park to another.	Trail and Greenway Development, Greenway Development
We need more wildlife and natural areas.	Wildlife Conservation
We need to expand our greenway network to better connect our greenways to more parts of nashville. The greenways really need to easily connect together in a low-stress network.	Trail and Greenway Development, Greenway Development
More historic sites, please.	Historic Site Development
Would love to see some sort of rock climbing/bouldering walls set up.	
A lot of my friends use your parks and greenways more than my family or I do. Keep up the good work!	
I'd love to see more offerings for tennis classes/ opportunties to play tennis outside of leagues.	Tennis Programming
I feel most of our parks need updating and improvements!!!	Park Maintenance and Infrastructure, Park Facility Upgrades
I am a Nashville native, who's parents brought me to the public parks when I was very young. I am pleased to see money spent to improve the Centennial Park area, but feel it is still not as welcoming to family gatherings as it was in the past . We regularly had family reunion picnics, took swim classes ,fished in the lake, road the paddle boats, used all of the playground equipment, walked the Japanese garden, climbed into the train engine. I was just there a couple of weeks ago for the unveiling of the Le Quire Sculptures and the Music corner. Great improvements and traffic rerouting seemed a little confusing. The areas on the 25thgardens . side seem to be ignored and under used. The entrance on 31st is not easy to access and the West End entrance is not user friendly due to traffic. Street parking is still nasty and risky, and the gardens are no longer lush and exotic. It appears that the parking lot for the Parthenon is just that... for the Parathion only, or at least that is what I was told, when I was stoped trying to use the Handicapped parking lot. I grew up in the Nations and also spent a good bit of time at the Charlotte Ave. Park there, especially in the summers, swimming and checking out books and reading in those great park swing/gliders. Good memories, took my kids and grandkids there too. Thanks at the	Park Accessibility and Equity, Park Facility Improvements
The greenways are wonderful, and Nashville would benefit from more of them. On the "green," the environment would greatly benefit from having native flowers, grasses, etc. planted. Ultimately, this is also much lower maintenance and cost, as it only needs to be cut once a year. My understanding is that Plan2Play called for an expansion of 4500 acres of open space and parkland, and we've accomplished a very small percentage of that to date (e.g., approximately 12%). In particular, conserving Nashville's Highland Rim Forest has been "in the plans" since Metro's first long range plan in 1980. However, very little has been done to actually permanently protect the Forest from development and we as Nashvillians strongly request that open space and conservation of the Forest be prioritized and funded.	Forest Conservation, Native Landscape Conservation, Native Landscaping, Trail and Greenway Development
The trails need to be better maintained. There needs to be more park maintenance and encouraging others to help maintain outside of parks	Park Maintenance and Infrastructure
I would like for the Mill Ridge greenway to be paved.	Trail and Greenway Development
We really enjoy and appreciate all the facilities and programs available through Metro parks! I believe that some of these facilities could be used more fully and that communication could be clearer with the community. For example, for years I have wanted to get my children swimming lessons at Smith Springs community center. Although they have told us at various times that there may be swim lessons there, it is always unclear when those take place, when sign-ups begin, who to pay, who can participate etc. It does seem at this particular community Center that information is most readily available to the family and friends of employees there and is not always consistently communicated via the website or social media presence. As a result, we have never been able to take advantage of swimming lessons at this location.	Community Center Communication, Community Center Facilities
The POND at centennial park is A DISASTER AND HORRID!! Dirty smelly with starving hungery turtles and geese and squirrels there!!! Clean the pond FEED THE POND WITH MINOES MONTHLY or WEEKLY! Feeding stations for the geese and squirrels would pay for the food!! The kind where u get a cup of food for a dollar!!! Or just bring them food and have a financial donations area!! Post a park veterinary hotline SOMEPLACE AT THE PARK! We have seen deer, squirrels and geese with broken limbs and wings, one was starving due to the engury and the other bleeding and getting in touch for animal help is almost impossible!! PLEASE CLEAN POND AT CENTENNIAL AND FEED THE TURTLES AND GEESE AND SQUIRRELS!!	Park Wildlife Management, Park Ecosystem Care
Allowing a for profit theater company to use the park and claim it is community theater is wrong. The Franklin Playhouse charges excessive tuition and ticket prices were way too high for the average family to enjoy the opportunity for live theater. The fact that these kids paid tuition to be in the show and then tickets were so much was not a good use of a metro public facility. You need to better vet the organizations you create partnerships with	
These needs may be being met at some parks, but I have struggled to learn about them happening.	Program Awareness
Greenways are great, but often are not usable for much of the year due to heat on pavement from no shade. Anyone who would walk with a stroller would not intentionally walk a greenway in that scenario. Metro is deficient in the amount of spaces safe for young children- splash pads, handi-accessible playgrounds with fencing and shaded area for both kids and adult area, indoor playrooms for toddlers, etc. This makes it appealing to head to the suburbs with young families due to supportive amenities for young children.	sm_negative, Trail and Greenway Development
More adult arts and culture classes/ events at all community centers	Community Center Facilities

More Greenways, totally connected to leisure and work around nashville. Faster repairs on Greenway. Ebikes for rent on greenways.	Bicycle Infrastructure, Transportation Infrastructure, Greenway Development, Trail and Greenway Development
Percy Warner Park equestrian facilities are an incredibly valuable asset to our local and widespread equine communities.	Equestrian Facility Preservation, Recreational Facilities
I'd love better pedestrian walkways to parks/playgrounds. There's frequently not soap in the restrooms at Fannie Mae Dee's playground. I'm so grateful for the restrooms there though.	Playground Development, Park Accessibility and Equity
Please build the Peeler Park Pedestrian Path	Pedestrian Path Development
Make the William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements. While currently under the purview of MNPS, the site is a vital part of the Edgehill community. Currently, the Friends of the William Edmondson Homesite, Park, and Gardens as well as other neighborhood groups to the bulk of the stewardship of the site via volunteer efforts.	Historic Site Preservation, Community Park Stewardship, Community Park Development
Please more greenways and bikeways. It's bonkers to have to load everyone up in the car, gear and all, to connect to a greenway. I love to be able to leave my house on my bike.	Bike Infrastructure, Trail and Greenway Development, Greenway Development
There's a lot of open space in small neighborhood parks. The local one to me, Harpeth Knoll Park, is 10 acres but only one or two acres are "in use" by the playground, and a few more for sports/dog walking. The rest is just a big, empty field that gets soggy after a good rain. People in the neighborhood would like for some way to work with Metro Parks to get trees planted in a few acres, possibly ones with edible fruit that could be enjoyed by anyone in the neighborhood.	Community Tree Planting
It has been frightening to visit Centennial Park in the last couple of years. One time I watched as a couple of people who were mingling in a crowd near a food truck at the Parthenon scouted out people who they appeared to be intending to rob / lift wallets from. Also the "church" services for homeless people at the SW corner of the park attracts enough frightening homeless people who seem to feel quite free to actually set up tents and stay there to cause me real concern about anything after dark. The music program and the arts program at Centennial are much too limited.	Park Safety and Security, Park Safety Concerns, Cultural Program Limitations
The unhoused population and drug activity in Centennial Park continues to increase and it doesn't seem to be addressed	Park Safety and Security, Homeless Population Management
Please build Peeler Park Pedestrian Path.	Park Amenity Development, Park Maintenance and Infrastructure
An indoor dog park would be great! With the extreme summer temps we continue to have, I would love to have temperature regulated facility to walk the dogs. Not a dog day care, a facility that owners must stay and use with their dogs….an indoor park	
There needs to be more diversity in the arts programs. Extend beyond just painting and drawing. Get into the manufacturing arts too. Examples: calligraphy, brush lettering, scroll saw art, laser art etc...	Arts Program Diversity
I would love to be fully engaged and at our neighborhood community center. We need to continue to aggressively preserve green space in Northwest Nashville…. North Nashville, Bordeaux, Jolton, and white creek areas	Green Space Preservation
Please work hard to keep the natural areas, that -- natural. Sometimes the learning-gardens, etc. make the natural areas quite unattractive Take the Grow Enrichment site at Two Rivers, for instance -- that was always such a peaceful, beautiful, unadulterated piece of land. Now oftentimes, it has trash and buckets lying around, and is intentionally un-mowed.	Natural Area Preservation
McCabe Golf Course's sand traps are dangerously unmaintained. The weed barrier cloth is at or near the surface in most of the traps, but it is hardly visible. This makes for a hazardous condition where striking the weed barrier could cause serious injury.	Golf Course Maintenance
Too many homeless people sleeping in parks! Specifically Centennial! Please keep our parks clean and safe!	Park Safety and Security, Park Safety Concerns
The William Edmondson Home Site Master Plan includes a library that is much needed and past due for the local community. We would hope that the Metro Park System would keep in mind the amount of communication with Nashville's city council over the past 10 years that has secured the council's support and protection of this historical site.	Historic Site Preservation, Historical Site Preservation, Community Development
The police need to patrol in the parking lots and trails more. Too much crime in some of them.	Park Safety and Security
Make the William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements. This is an important historic landmark that should become part of our great Park system.	Historical Site Integration, Historic Site Integration
Programming is of little interest.	
Need rest rooms. Not enough and not portapotties	Restroom Facilities
I would love to see a park or Greenway in my neighborhood, Edgehill. I used to walk at the park but got attacked and then that young girl was killed there. It is not a safe place for walking.	Park Safety and Security, Neighborhood Park Safety
Please build the Peeler Park Pedestrian Path!	Park Amenity Development, Park Maintenance and Infrastructure
Metro Parks Arts does a great job with their programming. But they're underfunded and more importantly understaffed. Fund them. I'd have picked more camping options for outdoor activities, but for concern that they'd quickly become homeless camps. Fix this.	Park Safety and Security, Arts Program Funding, Homeless Encampment Management
Peeler Park is very important & also too isolated for me to utilize area alone.	Park Accessibility and Equity
They are available but not always convenient, have limited access, or understaffed.	Park Accessibility and Equity
Make the William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements	Historical Site Integration, Historic Site Integration
Mill Ridge had the best disc golf course in the state. It's a shame to lose it!	Disc Golf Course Preservation
I want to strongly urge Metro Parks to make William Edmondson Historic Site an official Metro Park.	Historical Site Integration, Historic Site Integration
I think the William Edmondson Homesite park and the adjacent arboretum which are currently part of metro school system should now be part of Metro Parks System to keep momentum moving forward to provide resources for neighborhood residents	Historical Site Integration, Historic Site Integration
Doesn't always feel like they are adequately cared for... regular mowing, tree maintenance, etc.	

I would love for the Greenway to extend across the river into Peeler Park So that our community can have access to the rest of the city without having to drive!	Trail and Greenway Development, Greenway Development
Metro Parks Department should be in charge of William Edmondson Homesite Park & Gardens. This is a part of Nashville's overlooked history that is in danger of being erased. Residential neighborhoods have as many treasures as the popular, splashy sites catering to tourists.	Historic Site Preservation, Historical Site Preservation
A pedestrian path at Peeler Park over the river to connect with Stones River Greenway would be great.	Pedestrian Path Development, Greenway Development
Whites creek should have a park with facilities and a community space near the historic district. The playing field near the high school is not a community park. We should also use parkland and greenways to preserve and enjoy the Highland Rim.	Green Space Preservation, Community Park Development
Please include William Edmondson homestead as part of metro parks	Historical Site Integration, Historic Site Integration
Please fund the long approved project for the pedestrian bridge to connect Peeler Park to the greenway so we dont have to drive to east nashville.	Park Amenity Development, Pedestrian Bridge Construction
Parking; bathroom facilities,	Parking Facilities, Park Facilities, Restroom Facilities
Please build the peeler park pedestrian bridge.	Park Amenity Development, Park Maintenance and Infrastructure
E-Bike Facilities for parks and greenways!	Bike Infrastructure, E-Bike Infrastructure
The Centennial Performing Arts Studio Building (CPAS) is in extreme need of more parking spaces and the return of our drop-off area in front of the building. While we are pushing for more individuals to participate in the stellar dance programs, we need the parking spaces for the caregivers. It is quite frustrating. Even with security, we still have individuals who slip in the parking lot who are not there for anything related to the building before security arrives for their designated hours. The programs at the Centennial Performing Arts Studio Building are outperforming the building itself. It's beyond time to address a new building in the park that contains a theatre that holds up to 1,500 individuals in the audience, the best technology that can be beneficial for all the programs that are housed in CPAS at minimum. It could be a source of revenue with the understanding that the Metro Dance/Arts/Music, etc. programs get first right to make reservations. Lots more dance/exercise studios so that adults can take classes at the same time as their students and more variations of dance classes can be offered on a regular basis. One of the best times was when the Mat Pilates class was held at the same time as my daughter's class in the same building so we could both benefit from the time spent in the same building. More art studios for adults and children including ceramics and an outside area for old clay, etc. Other arts such as painting, sewing, upholstery (please bring this back to the Nashville community), and many more. Enough dressing rooms strategically placed for access to the stage and some that are placed near studios. Restrooms that are designated for the dancers and the restrooms connect to the studios without public access. An indoor track would be great too for the parents/families of students who would like to walk but need to be near their students... like one of the community centers in East Nashville that used to hold dance classes. I realize people walk in the park, but the weather is not always conducive for walking outside. An area for people who work remotely while their children are in classes along with a fenced in area for people to dine outside but keeping it private from individuals who are not in the building. The idea is that if you have something for each family member to do, more people will use the facilities, participate in programming which further invests in the community.	Facility Amenities Enhancement, Performing Arts Facility Improvement, Arts Program Expansion
We love using the equestrian facilities - cross country (steeplechase infield), arena, barns. Thank you!	Equestrian Facility Appreciation
Need better indoor pools. Bigger. More hours.	Indoor Pool Facilities, Community Pool and Swimming
Full-Service Restrooms are needed outdoors this survey does not have that as an option. Portable restrooms should be illegal. Amazon gets a billion-dollar tax break meanwhile it is 2025 and the best most parks can do is outdated portable restroom. We have to do better!!!	Restroom Facility Quality, Restroom Facilities
Provide more equine based activities and access	Equine Activity Access
Please work on the Highland Rim project	Green Space Development
The public libraries would love to have more partnerships. Let us help y'all help us help our mutual neighbors!	Community Partnerships
Some of the unpaved hiking trails like in Warner Parks could use clearer color-coded signage about trail length, direction, etc.	Trail Signage Improvement
It would be great to see more time & care put into the parks, especially the greenways. Whitsett & Coleman Parks both have so much potential, but they are constantly littered with trash and encampments. The wooded trail at Whitsett does not feel fully safe to walk, especially alone. Every time the creek level rises significantly, massive piles of garbage form around the bridge. And many spots along the greenway smell like sewage.	Park Safety and Security
Please leave Percy Warner an equestrian based park as it was meamt to be. Please keep the horse trails and equestrian facility available to use for the public at all times. I gre up riding these trails for the last 35 years and will continue to do so as long as I can. I also attend multiple horse shows a year here.	Equestrian Trail Preservation
1) I would like to see a dog park at Paradise Ridge Park. 2) I would like to see the Community Center open more often with access to the rest rooms. Or possibly remodeled so we could have access to the rest rooms when the facility is closed.	Park Facilities, Community Center Facilities, Dog Park Development
Outdoor showers need to be available for the Homeless and free laundry facility and free clothing if needed on site to pick for sanitary reasons of our populations. Free Haircuts, Free Stores for food and small household items like towels, bedding, dsmall dishes.	Homeless Support Services
Would love to see more art classes for kids and adults, specifically I've been looking for ceramics and struggle to find any. If you provide things then marketing it better would be helpful. Also, everyone loves bingo so can we offer more family friendly games and activities? My children have been so disappointed that bingo is only available to seniors and I feel like there are not enough activities that you can do as a family. It's all for specific age groups, not for families	Family and Child Recreation, Arts Program Expansion

TN has a huge equine population with places to ride disappearing rapidly. Equestrian trails can be multi- use with proper trail etiquette maintained.	Equestrian Trail Preservation
The facilities at the soccer fields in Bellevue are abysmal. No one seems to care that portable toilets are placed in a floodway. These tip over in rain and dump into the Bellevue community and Harpeth River. Metro Parks needs to permanently solve this problem or prohibit future use of the space.	Park Facility Infrastructure, Recreational Facilities
South Nashville is greatly lacking in green spaces. Why is Seven Mile Creek Greenway not completed? Or Mill Creek? WhThere is a single park in my district and it is a dog park. Every park in South Nashville is bustling with activity, because we want and appreciate the parks as much as any other park of town. Some of the green space near us is even closed at all times (Wentworth Soccer Fields), despite our need for it. It seems obvious that the Parks Department does not care about South Nashville.	Park Accessibility and Equity
We have been using the equestrian facilities at PWP for decades. The cross country course is fantastic and the ability for the pony club to use the barn, arena, and show office for meetings is such a privilege. Really hoping the new improved grass area for dressage arenas makes its way through because that will improve the park in an amazing capacity.	Park Facility Improvements, Recreational Facilities, Park Amenity Development, Equestrian Facilities
The Donelson Hermitage area is in need of a community center with access to exercise equipment/classes and more for young people. The YMCA is too expensive for many. I'd like to see more programs for all ages and abilities available in my area	Community Center Facilities
please add more river access for kayaks / sups / other boats. The more we activate the riverfront and stop acting like it's not there, and creating opportunities and spaces for people to learn how to safely engage with / respect our waterways, the less drowning deaths we'll have. Or at least emergency crews will be able to respond quicker…	River Access and Safety, sm_neutral
The equestrian facilities at Percy Warner are a wonderful resource. Please preserve them!!	Equestrian Facility Preservation
Yall arev doing a great job!	
I am grateful for Metro Parks services!	
Greenway experience is degraded by dog owners and bicyclists. Too many dog owners allow their dogs to rush up to strangers, sometimes unleashed. Too many dog owners do no pick up after their dogs. Others pick up after their dogs only to throw down the bag when no one is looking. That might be improved with trash cans at intervals. Most bicyclists do no observe the speed limit or the "on your left" rule. Many bicyclists do not slow down when threading their way through groups. They expect everyone else to get out of their way. They want to share the road with cars, but not share the greenway with pedestrians. In short: The rules of the greenway are not enforced and many people take advantage of that.	Greenway User Behavior, Trail Etiquette Enforcement
They need shade. Coleman park lost trees in a storm, it's now a heat pit. Playgrounds need to be covered. Splash pads - needed.	Playground Development, Park Shade Infrastructure, Playground Design
I was disappointed to find out that after building the southeast rec center, there was no pool. I still had to travel out of my community if I wanted aquatic activities.	Aquatic Facility Availability, Community Pool and Swimming
Bathrooms - clean bathrooms are important. Thank you.	
Can you please install more real bathrooms. I am consistently surprised when I visit other cities and they almost always have plenty of nice, real bathrooms at their parks and Shelby Bottoms Park does not. The ones there are almost never unlocked and the ports potties are usually disgusting.	Restroom Facility Improvements
Fitness classes - one centralized fitness class calendar for all fitness centers instead of having to go to each centers website and each of their pdf calendars	Fitness Class Information Centralization
There is no community center in green hills, despite many opportunities to add one. I go to african dance classes at Sevier Community Center, but it is not really close to say Hillsboro High School. There should be a community center near all the public high schools.	Recreational Program Distribution, Community Center Facilities
Community center fitness classes - one centralized activity calendar so we can see what classes are available on any day instead of having to go to each centers' webpage and opening a pdf file.	Fitness Class Information Centralization
We feel pickleball courts can be created at Air Park; tennis and pickleball do not successfully share space at the Shelby tennis courts. We also, feel there is more room to build more. They could be part of an after-school program for children. There are probably plenty of people that would help with a fundraiser to build more. Children/families being helped and nature preserved are two main ideas for me. I have loved watching you recreate the natural stream near the lake, and I look forward to taking my grandchildren to the nature playground.	Nature Playground Development, Recreational Facilities
Need a park in The Nations east of 51st Ave. closest park from my house is three quarters of a mile and a 15-20 minute walk	Park Accessibility and Equity, Neighborhood Park Distribution
The worst part about nashville is outdoor pool access.	Outdoor Pool Availability
There is no pool access other than the YMCA or $3k+ membership, community or neighborhood pools would be amazing, even if it's a $300 summer membership, people will pay to have a more affordable neighborhood/community option!	Pool Access Affordability, Community Pool and Swimming
The greenway does not feel safe	Park Safety and Security, Greenway Safety Concerns
A public pool with swim lessons near Crieve Hall would be a great addition to that area!	Pool Facility Location Planning
We NEED pools!!	
We would love to see more outdoor pools. Nashville really does not have many and this is a hug opportunity. I would love to see an outdoor pool put in at West Park since work is already going in to a new community center. It is so important to have pool options as a cool summer activity and a way to teach kids and people to swim!	Community Pool and Swimming
I think one of Nashville's (and East Nashville in particular) biggest needs is public outdoor pools. As the globe continues to heat up and our summers get hotter and hotter, pools are a critical resource for the public to have access to in order to cool down.	Climate Adaptation, Public Pool Access, Community Pool and Swimming
Specific trails and areas for cyclists. Speed limit enforcement signage. Dogs on leash enforcement signage.	Trail User Behavior Enforcement, Park Safety and Security, Trail User Behavior

I sooooo wish Donelson had more/better playgrounds. Like, why cant we have a playground in the green space in front othe library? Why cant we have a playground at the Donelson transit center / Fifty Forward? I think we could make such better use of the space at Donelson Plaza. And wouldnt it be FREAKING COOL if the empty space in Donelson Plaza could be repurposed into a COMMUNITY center!!!! The space that was Southern Thrift? Oh man, I wish I had millions of dollars to do that lol. Also, I wish that the Two Rivers Park had more like interesting things to DO or SEE at the park -- I know its for disc golf but give them some obstacles! Give us some FOUNTAINS, some TREES, some cool wild feral gardens with native wild flowers and plants. Give us a bee hive sanctuary. Look at parks in Europe that have lots of interesting things for the public to enjoy. Art, natural playgrounds, sculpture, food and beverage vendors, play structures, exercise equipment, disc golf, putt putt, gardens, fountains, carousel, bridges, lakes, ponds, etc. Get interesting!! Two Rivers is soooooooooooo boring.	Playground Expansion, Playground Development, Park Amenity Development, Park Amenity Diversification
I am so thankful for the amenities we have, I know it takes a LOT of work to keep everything maintained! 1) The Two Rivers Greenway over by Lebanon Road/Kohls has a lot of issues and it would be awesome to have more information about the ETA on repairs of things. 2) I know the aquatics programs are a big lift, but I would love to see more access to indoor pools over time - I use the ones at Smith Springs Community Center and Coleman Community Center, and would love to a) have more opportunities for open swim in the early mornings and late evenings (before and after work) and b) eventually have more pools in general. 3) Additionally, I have been at open swim when other adults are trying to learn to swim, and I commend them! I think standing water safety classes (a one time, few-hour class once a month) could be really beneficial for our communities, given all the lakes and rivers in the area.	Greenway Maintenance, Community Pool and Swimming
Hold a contest for mini greenway routes between neighborhoods, schools and parks. Create along waterways as flood prevention. Use abandoned land, public or city properties. Look for easy ways to increase safety and efficiency for walkers and bikers.	Trail and Greenway Development, Neighborhood Trail Development, Greenway Development
I have traveled 7 miles for fitness classes or recreation practice facilities with barely feasible class times for my work schedule. And no monthly pass options for reoccurring participants. And I've contemplated traveling further just to ask which times certain facilities at another park host publicly accessible leagues vs private games. I don't believe that kind of commute and irregularity effectively meets the for Metro Parks. Parks are closer to me, but are only grass fields and walking trails, which I use every day but it would be nice to have recreation options with neighbors closer to home and schedule friendly times.	Park Accessibility and Equity
We need more soft surface runnable/walkable paths. Either crushed gravel or bark mulch. Greenways are an amazing system but we need to be able to get off of pavement. Best area for this would be around the Cornelia Fort Airpark or to make the trails at Shelby a different surface.	Trail Surface Diversity
Skateparks in need!!!!	Skatepark Development
No	
Williamson County offers amazing classes like the Master Horsemanship program, Horticulture, Cooking/Canning, etc that are severely lacking here in Davidson. While I understand the classes may not be the same, the idea of offering inexpensive classes that teach a skill I know would be most welcome. The library also offers some good classes, but they are hard to find and not marketed well at all so most people have no idea they are happening.	
The main issue I encounter is lack of parking at busy times on Saturdays and Sundays and Holidays.	Park Parking Capacity
We used the track at Hartman Park back in the fall and were really enjoying it. We went on to the greenway- Whites Creek . The issue we had was the deafening sounds of the gun fire from the nearby metro police training facility. This was very discouraging and made us not want to return although we thought the trails were lovely.	Trail Noise Disturbance
My area has no Greenway connection. We have to drive to the closest location. No dog park. No nature or environmental program. Our sidewalks are terrible and not even on our side of the street, so we have to cross a busy road to access a sidewalk. We have no track or safe paved area to teach kids how to ride bikes. No pool with accessible swim safety lessons for kids. The tennis courts behind Glencliff High School are wonderful, and we enjoy the playgrounds at Glencliff Elementary and Coleman Park. Just wish we had safe access to walk or ride there on bikes.	Neighborhood Infrastructure, Recreation Facility Access
Mor fields with lights for outdoor activities that are at night such as grass volleyball, soccer, ultimate frisbee, etc. More pickleball courts More sand volleyball courts	
Would love to see more sand courts and areas just for volleyball as it is a sport on the rise	sm_neutral
There are very few sand volleyball courts in Nashville, and those that exist are largely taken every night for leagues. The volleyball community in Nashville is growing quickly, but we lack facilities to nurture that growth. Other cities often have upwards of 10-20 courts in one park or location. Moss Wright park in Goodlettsville just put in 4 beautiful sand courts with floodlights, and the community has grown significantly since. Despite being a substantially larger city, Nashville's best option for sand vball is still half that of Goodlettsville. As someone very passionate about volleyball, I would love for the city to enable this community to grow!	Sand Volleyball Court Expansion, Sports Community Growth
Interconnecting the neighborhoods to the existing parks to make them walkable is a massive need, Nashville isn't the most walkable city but anything to help alleviate this with more dedicated crosswalks and sidewalks would be incredible	Pedestrian Infrastructure, Neighborhood Connectivity, Neighborhood Walkability
More sand volleyball courts!!	sm_neutral
Need more greenway/sidewalk connectivity to amenities. A lot of greenways in the Cane Ridge area don't connect to anything. More shade along greenways and trash receptacles would be nice. A community pool would be lovely.	Park Shade Infrastructure, Greenway Development, Park Amenity Development, Trail and Greenway Development
We need more culturally relevant activities in our neighborhood park centers that focus on arts, ceramics, painting, etc. Our children should be a primary focus with enrichment activities that help them grow into productive citizens.	Arts Education Programs, Cultural Arts Programming, Youth Enrichment Activities
A long distance greenway suitable for biking, walking/running, or Ebiking would be a huge asset to the city. Think Beltline in Atlanta or the highline in NYC.	Trail Development, Long-Distance Greenway Development
I think park programs and increasing park land will always be underfunded if we only rely on public funding. We need a better way to engage the private sector in supporting our parks.	Park Funding Strategy

Extend greenways and bikeways	Trail and Greenway Development, Greenway Development
Please add mile markers at Green Hills Park track. Please pave path from Warner Parks Nature Center to greenway because Nature Center is accessible but not gravel path to and along creek. How many pocket parks could there be? Can we have an arboretum? Can we have Parcours-see Sand Run Park, Treaty Line Area, Parcours Trail, Akron, OH parks https://www.summitmetroparks.org/parks-trails/sand-run-metro-park/	Park Facility Improvements, Park Amenity Development, Trail Development
It is criminal how few public restrooms there are. Nearby playgrounds and for locals and tourists and the unhoused.	Public Restroom Availability
A Greenway in the Woodbine neighborhood!	Trail and Greenway Development, Greenway Development
Coming from California Nashville does a wonderful job with their parks. I am a senior so don't have the need for children programs but would be nice to see more options for seniors. Also for pickle ball court please consider a sign in board at the court allow one game at a time for rotations. Some players dominate the courts.	Recreational Facilities
More options & affordability for sports, dance, art classes for adults & seniors.	
Living in my area of Inglewood (north of Hart Lane between Gallatin and Ellington), it feels dangerous and time-consuming to walk to any Metro Park. I'd love if there was a park closer to me that I could access via sidewalks and crosswalks!	Neighborhood Infrastructure, Pedestrian Safety, Park Accessibility and Equity
I have become scared to walk and bike on the greenways alone. I would like better safety options. I would also like to see trails connecting neighborhoods near my home, like there are in some places in West Nashville. I have a fair amount of parks and greenways near me but they are mostly self contained and don't connect to other parks.	Greenway Safety, Park Connectivity, Park Safety and Security
I would love parks to be intentionally designed and landscaped with use of evergreen trees so they aren't barren in winter. I would like to be able to walk to a greenway/large park from my house. I would like for the 200+ acre TPS complex to be converted to urban state park for the south Nashville community. Thank you.	Park Accessibility and Equity, Urban Park Development
Please include more sand volleyball courts!	
We have more demand for sand courts than what is available. Also, private businesses shouldn't control all of our public courts every night of the week. Maybe reserve every other night for open play.	
Rob Curry with the Morgan Park rec center has been GREAT! Patient, caring, enthusiastic, creative, supportive of our family.	Staff Recognition
The pavilions are unusable in many parks because homeless people are living there permanently, sleeping on the picnic tables. Not enough playgrounds in neighborhoods. Need a real playground at the Cornelia Fort Airpark…. And BATHROOMS! That park is so busy now. The new water feature at the kids dirt park in Shelby Park is flooding the woods nearby and is quickly becoming a mosquito habitat. Needs adequate drainage.	Park Facility Maintenance, Park Safety and Security, Playground Availability, Park Maintenance and Infrastructure
The county needs more sand volleyball courts. The current court setup is well maintained but not large enough in quantity to support the amount of players that live here now. The recreational leagues dominate all the courts and allow no time for pick up and open play. More courts are needed to fill this gap. Don't just keep filling them with leagues every night.	Sand Volleyball Court Quantity, sm_negative
There are far too few sand volleyball courts for open play. Centennial park courts are awesome courts! But they're scheduled for use sooo frequently by leagues (for low level players) that there is hardly opportunity for high levels players to schedule open play. There are also very few other courts that are well maintained and close enough to play at. Nets are sagging/sand is dirty and shallow and uneven.	Court Maintenance
I really just want there to be more sand volleyball access. Or at least restrict access to volleyball organizations. There's very little time for people to get to a court and play pickup outside of their work schedule. Most courts in Nashville are taken by a for profit league and there's no way to play otherwise. It would also be great if there were grass fields with lighting that weren't taken by leagues either.	Open Play Opportunities
Centennial park has so much ample space to expand the volleyball courts to the left of the current offering. Thousands of people play sand volleyball in Nashville and we are limited to less than ten courts throughout the entire city	
Thank you - Too much of our urban, open space is programmed for golf courses. Golf courses are not a good use of our limited resources. We're encouraging greater density and those residents need more space for walking, picnicking, and enjoying nature. The McCabe Parks recent fencing project to exclude pedestrians from the golf course it the most awful investment of funds I've seen as a 20 year resident of Nashville and Sylvan Park. On snow days when the golf course was closed, families enjoyed the snow until the golfers fenced them off the course. Are we, as a city, seriously dedicating over 100 acres for a 27 hole golf course along a creek impaired for nutrient? During covid the gold course became a shared use space.	Golf Course Land Use, Urban Open Space Management
Please add fences! And restrooms that are close to the playgrounds!	Park Safety and Security, Playground Facility Improvements, Playground Development
Old Hickory NEEDS a dog park desperately. There are so many families with dogs and no place to safely let them run. It's a big hole we are missing in our community.	Dog Park Management
I worry about car break-ins in the parking lots of parks.	Park Safety and Security

Shelby Park ball fields require a complete overhaul. Actual investment from the city to raise the playing surface so the fields drain properly. Maintenance would be nice. I could go on about what a jewel Shelby is to the city, but it appears lost on those who don't use it regularly. Basically in the shadow of a 3.5 billion dollar stadium that we don't need are youth sports facilities that are in dire need of a couple million dollars of investment.	Sports Facility Maintenance
Could use bathroom facilities at Cornelia Fort Air Park	Park Facility Improvements, Park Amenity Development
The city needs plans to connect greenways and parks. Acquire more land to protect from development.	Trail and Greenway Development, Park Land and Acquisition
Would like support for the Nashville Highland Rim Conservancy project.	Conservation Support, Conservation Project Support
1. Expand the Greenways 2. Metro could have a few more facilities like Centennial Sportsplex 3. Shuttles to transfer people to and from various centers for classes/exercise/events 4. Co-ordinate with Goodwill and other used goods centers to acquire sports equipment that teens and others can use when they can not afford the gear 5. Have teen career training for summer jobs -ask companies what their need for summer help is and facilitate training at Metro parks areas	sm_neutral, Recreation Facility Diversity, Trail and Greenway Development, Youth Employment Programs
Buy land for current and future needs. Nashville needs strategic open space planning with funding for land acquisition. Highland Rim Forest is critical for clean air, water, and biodiversity. Also would like to to see a focus on preserving large forests surrounding Davidson County.	sm_neutral
I really enjoy visiting the Parthenon with my family and friends, but it seems every time I've gone this year there's been days where it's closed, certain galleries aren't up to par. The foundation is crumbling and falling apart. There's mold and leaks throughout the building and it's such an amazing museum, but it seems to be falling apart each time i come and that's so disheartening to see.	sm_negative
It's wonderful that the community centers are used for summer camps. However this cuts the availability for open gyms down to nearly nothing. Outdoor courts or extended hours would be great.	Recreation Facility Hours
Natural areas are difficult to maintain. It doesn't feel like adequate funding is provided from Metro to support land management. Instead, this is left to friends groups to take on who lack expertise in this area (or have competing priorities), or, is piled on as a responsibility to parks staff who are primarily managing the general public visiting parks and don't have bandwidth to take on land management. I think that responsibility is too large to be a line item in a job description. Dedicated resources should be provided to ensure our remaining greenspaces stay healthy. This includes flora/fauna management.	Park Land and Acquisition, Natural Area Management, Land Conservation
I love Centennial Sportsplex and have a monthly membership and you cannot beat the price. My only complaint is that the hours are to be desired. Needs to be open earlier/later/longer.	Recreation Facility Hours
Having some newer/repaired gym equipment in the Coleman Park Community center would be great!	Community Center Facilities
More community centers with an outdoor pool would be nice. We live in south nashville and don't have many options for outdoor pools in the summer.	Outdoor Pool Availability
I love the staff at the parks. I love Bells Bend and Beaman Park. I cannot remember if Radnor is Metro or state. I loved that park when I lived closer to it. I love the farmers market at Richland Park and the food trucks and sporting event at Elmington Park. Thanks for all you do!	Park Staff Appreciation, Park Diversity
Metro Parks SHOULD be THE place Nashvillians go if they want to learn a new skill or take a class. I've lived in other cities where the community centers offered hundreds of courses all across the city 3 times a year. Whether it was taking a cooking course, an art class, a history, lesson, a knife skills course or even a foreign language, the community center is where this should be done. Nashville is also full of university students who need volunteer hours in order to graduate. Metro Parks should take advantage of this situation by having volunteers teach courses that create income for the centers.	Volunteer Engagement, Community Education Programs
Cornelia Fort Airpark needs actual restrooms, not just the two chemical toilets. Wasioto Park on 1st street was beautiful and we loved going to the splash pad, but it fell into disrepair almost immediately. Bring it back! And program events at the amphitheater!	Park Amenity Development, Park Facility Improvements, Park Event Programming
Paper survey. Multiple items checked. #8: add Fitness/ workout centers, Nature Centers	Nature Centers, Fitness Facilities
I'd love to see an art festival come to Shelby park I molar to the festival at Centennial Park. There is ample space for vendors to set up!	Park Event Opportunities
I feel parks / amenities are great, just not at all in my general area 37013 zip.	Park Accessibility and Equity
Paper survey. Many extra items checked. #8: add Historic Sites, Homework areas #9: add Basketball, Football, Ice Hockey / skating, Sand volleyball #10: add Disc golf, playgrounds, walking/running tracks #11: add Fishing areas, Swimming pools (indoor and outdoor) #12: Equestrian checked as 2nd greatest need #14: everything checked as Most Important	sm_neutral
Please fix zig zag bridge in Shelby Bottoms. Also, the natural trail cutoff right off the Fortland Rd entrance is always a muddy muddy mess. Please fill in the trouble spots where the puddles form. Most were made from the use of heavy equipment during the sewer project. That trails is not usable about 50% of the year because of the mud.	Trail Maintenance, Park Maintenance and Infrastructure
Bathrooms are needed, especially at Cornelia Fort Airpark	Park Facility Improvements, Park Amenity Development
We need a bathroom at Cornelia airpark please! It would be great if we had a splash pad at Shelby park.	Park Facility Improvements, Park Amenity Development, Splash Pad Development
We need access to the Cumberland River for rowing and other paddle sports.	River Access, Water Sports Opportunities
Please complete the greenway connector from Browns Creek Park to Sevier Park. Consider upgrading Sevier Park to a newer, multi-age park similar to Dudley Park or Dragon Park Consider adding a shelter to Browns Creek Park	Park Facility Upgrades, Greenway Development, Park Maintenance and Infrastructure, Trail and Greenway Development

I find the hours of the facilities just so disappointing. The facilities aren't open most of the time, the parks close for almost any kind of weather, and while the facilities are good their availability is super limited. I loved Inglewood Community Center and the afterschool programming there. Nashville's soccer field access is disappointing - and the fact that both Williamson County and Rutherford County have soccer facilities with turf fields and lighting and Nashville doesn't have any is disappointing. I also think Parks partnering with MNPS could help maximize the spaces and lands we have.	Recreation Facility Hours, Community Programming, Soccer Field Infrastructure, Facility Hours
Community pool hours are too restrictive. Cleveland park pool only has an open swim between 10am and 2pm on Saturday. As far as I can tell the pool at the Centennial Sportsplex isn't open at all on Saturday or Sunday. They need to be open on these key days and be more flexible about the hours when people can use them.	Community Pool and Swimming
We really want a community pool with lots of open swim time days and hours!	
I enjoy the line dancing classes	Golf Course Funding, Line Dancing Classes
Metro Parks just raised fees on golfers significantly, yet the department does not prioritize devoting more funds to the courses for continued improvement. I can think of no other parks activity that asks more out of the pockets of the participants yet puts them last in priority. Meantime, greenways are continually prioritized like they're sacrosanct.	Parks Funding Allocation, Recreational Facilities
Need more peaceful placed to go to meet neighbors- community gardens, library, tennis, soccer, art	Community Space Development, Community Gathering Spaces
More pools please and spin classes in Antioch.	Community Pool and Swimming
Playground upgrades and splash pad and/or pool are needed the most for our needs	Playground Upgrades, Splash Pad Development
Wish more greenways connect without having to enter roadways to run or bike. Not enough sidewalks on main roads and neighborhoods to connect. Also need more lighting and police presence/patrols on greenways for safety.	Greenway Safety, Trail Connectivity, Park Safety and Security, Trail Development
Please add a bathroom at Cornelia Airpark and fix the many emerging cracks in the former runway. It's such a wonderful place to rollerskate but it's getting rougher and crackier.	Park Facility Improvements, Park Amenity Development, Park Maintenance and Infrastructure
Convert Hillwood High School to a community center with a pool and library. There are several private clubs in the area but most of our neighborhood is retired or young couples. I have never been a member of a club. I am a retired nurse and would like our community to have a center for swimming, seniors, exercise, and children activities.	Community Center Facilities
Shelby bottoms needs more police patrol. There is a guy named caveman that terrorizes Shelby bottoms park. We have brought up the safety concerns for years and metro police have not addressed getting him moved out of Shelby bottoms!!! He lives there and screams obscenities at people and threatens them.	Park Safety and Security
Beautiful Greenways!	Trail and Greenway Development, Greenway Development
More playgrounds please. We love Mill Ridge Park and Ravenwood!	Park Facility Appreciation, Park Facility Recommendations, Playground Development
Bathrooms at the Airpark Bike/ped facility along Davidson Street Zig Zag Bridge repair at Shelby	Park Accessibility and Equity, Park Infrastructure Improvements, Facility Amenities
Cedar Hill needs more security. It's not safe to be there and there are weird things happening in the woods near pavilions.	Park Safety and Security, Park Safety Concerns
Boo to motorized and TOO fast racing cyclists on the greenway.	Park Safety and Security, Greenway Safety Concerns
I would love to get some restrooms at Cornelia Fort Airpark! The port-a-potty is not great for families with kids.	Restroom Facility Needs, Restroom Facilities
We love all of Nashville's parks and facilities - we would love even more if existing facilities were repaired to be fully functional - especially the Stones River Greenway bridge en route to the Percy Priest Dam.	Park Facility Maintenance, Greenway Development, Park Maintenance and Infrastructure, Trail and Greenway Development
Parks are all beautiful. Upgrades needed at Wasioto Park and Beaman Park. Greenway need to be monitored to ensure safety. West Nashville needs more park area, maybe creating something in Westmeade, perhaps at old Hillwood High School?	Park Facility Upgrades, Park Expansion, Park Safety and Security, Park Maintenance and Infrastructure
Shelby Bottoms Rec center is in need of a facelift, and I think that is under way? We need a refurbished gym that includes repainted court surfaces that includes THREE pickleball courts. We also need a bathroom at Corneilla Airport for the great events happening there!	Facility Amenity Improvements, Facility Amenities, Recreation Center Renovation
Bathrooms at Cornelia Fort please!	Restroom Facility Needs, Restroom Facilities
Restroom at Cornelia Fort. More frequent service on bus route 4 to access Shelby Bottoms.	Restroom Facility Needs, Public Transportation Access, Restroom Facilities
More shaded playgrounds are needed.	Playground Design Improvements, Playground Development
We need pickleball courts and leagues. Membership fees at Centennial Sportsplex should be discounted for Davidson County residents at the same rate of discount given to Metro employees. McCabe Golf Course and greenway needs attention - cart paths are in bad shape in some areas and the course is OVERPLAYED; greenway wooden walkway handrails are rotting and fences need repair. Warner Parks roads need pavement repair. I'm not complaining - I love our parks!	Membership Fee Equity
Shelby Bottoms Greenway is fantastic. However, the greenway surface has deteriorated. Specifically, the approaches to the bridges are rough or washed out, and present a danger to cyclists. Also, about two dozen "root pops"; i.e., mounds in the pavement caused by tree roots growing under the asphalt, present a hazard to cyclists and roller bladers. These would not require a complete resurfacing and can be spot repaired. When Amy Grant crashed in the Warner Parks, Metro resurfaced the roads. Will it take someone to get seriously injured for Metro to do repairs in Shelby Park?	Cyclist Safety, Greenway Surface Maintenance
A permanent bathroom is needed at Cornelia fort airport to accommodate the gatherings and music events.	Restroom Facility Needs, Restroom Facilities

I have never seen fine arts classes availability so if that is offered it needs some different advertising. Would love to see this in the Shelby area.	Fine Arts Program Visibility
At the outdoor exercise areas, the chin-up bars tend to be really high! I can't get up there, and I'm 6'1". Love the greenway, I don't know how it could be improved, it's in great shape. Also like the pickleball open-play in the gym, and sometimes outside at Shelby Community Center	Recreation Program Appreciation, sm_positive, Greenway Maintenance
I support the initiative to add a bathroom at Cornelia Airpark high risk streets in East Nashville should get sidewalks before any more money is spent on greenways/bikeways/etc.	Restroom Facility Needs, Sidewalk Infrastructure, Restroom Facilities
Mostly great, appreciate the effort, work and cost, very much. Three concerns/ frustrations: We desperately need active and regular enforcement of rules and laws - particularly around dogs. Some folks may not be aware and need guidance, others are entitled idiots. - bikes speeding on greenways (dangerously fast, often - ridiculous behavior) - dogs off leash on greenways/ in parks (it's out of control and occasionally very dangerous) - dog parks - great idea, but not sure it's working well or worth cost in practice (people are idiots w dogs, at times)	Greenway Safety, Dog Park Management, Park Rule Enforcement, Park Safety and Security
I wish we hosted more music/arts at the parks,	Arts and Music Programming
Cornelia Airpark needs a bathroom	Restroom Facility Needs, Restroom Facilities
You do a great job! What great people!	
Cornelia Air Park needs good bathroom facilities.	Restroom Facility Needs, Restroom Facilities
Would love bathroom facilities at Cornelia Air Park!	Restroom Facility Needs, Restroom Facilities
The Cumberland River Greenway is really just a sidewalk at this point- between all the construction, the trash by the river, the, the path crossing over busy streets (that led to the death of Dot Dobbins last week)- I WANT to love the CRG- and I WANT to use it to walk downtown but it's a far uglier walk than cutting through bicentennial park. I'd love to see that cleaned up.	Urban Landscape Improvement, Trail and Greenway Development, Greenway Development
We need greater access to clean restroom facilities with baby changing areas when community centers, etc adjacent to outdoor spaces are closed!! This is so important. How have playgrounds been built without full daytime access to these facilities??	Restroom Facility Accessibility
Shelby Park is the best park in Nashville! I love living here for this park and the work that they do. I love the Shelby Park community and the workers that take of us so well.	Park Community Appreciation
Indoor walking options for summer and winter. Along with affordable cost start classes	Recreational Facilities, Affordable Programming
The Parthenon building has been looking like it is falling apart on the outside. Please put more funds into restoring the symbol of Nashville so it will be around for generations to come!	Historic Site Preservation
Connected bikeways plz!!!	Bikeway Connectivity, Trail and Greenway Development
homeless people taking over playground pavilions	Park Safety and Security, Park Safety Concerns
It would be amazing to have designated bike v. pedestrian lanes across the greenways. Or areas that cater to specific ride v. walk.	Greenway User Segregation
Preserving green space amidst development is crucial. Metro parks should place a greater emphasis on native plantings for landscaping.	Green Space Preservation, Native Plant Landscaping
Very concerned about possible new road into Warner through the mountain bike trails. Please don't turn this property over to Cheekwood!	Park Land Use Concerns
Yes! The trails in Edwin and Percy Warner Parks need attention and upkeep. The roads are especially in need of paving so that it is safe to bike in the parks.	Trail Maintenance, Park Road Infrastructure
We need more unpaved natural areas for walking and or running as well as areas to protect native flora and fauna.	Native Ecosystem Protection, Natural Area Preservation, Wildlife Conservation
More greenways, more connectivity between greenways so that they can actually be a viable mode of alternative transportation, more trash cans on greenways, faster service when greenway issues are reported, more focus on invasive plant removal and riparian zone repair, more pressure on developers to do more for greenways when their projects are on or near a greenway, get someone to lead the department who has a vision, thinks outside the box, and isn't terrified of change, growth, or new ideas	Trail and Greenway Development, Park Management Innovation, Greenway Development
I do love the access to attend free exercise classes such as 615 soul line dancing. It provides me with instructions and well as community. I have lost 10lbs from just these classes because it keeps me on track with my exercise goals.	sm_positive, Free Exercise Programming
Overall, the city does an excellent job keeping up with a different means of its residence. In regard to the parks. They are beautifully maintain for the majority of the time. Although parking can be an issue at different locations.	Park Maintenance and Infrastructure
Prohibit dogs in the Warner parks because poop bags are disposed of along roadsides, pathways and even thrown in trees. Dog parks are easily accessible and available. The parks are beautiful and can be a huge attraction for visitors. Open blocked off roads for limited times during the day, ie: 8-4pm and weekends 8-6pm.	Park Access Regulation, Dog Park Management
Please add more native plants and pollinator gardens along with educational signage within Metro Parks! Also, please water any trees that are newly planted so they don't die prematurely.	Park Landscape Maintenance
Greenway connectivity between coley Davis area and Morton Mill area Turn the water on year round on the greenway parking areas that have spigots (or invest in freeze proof spigots so they can be available year round) Raise the elevation of the Greenway near Footpath terrace, as it floods and fills with mud several times each season	Trail and Greenway Development, Greenway Development
Overall infrastructure updates needed	Park Maintenance and Infrastructure, Park Infrastructure Updates

Pathways to the parks could be better marked and crosswalk signs would improve the safety for access to the parks. I've seen more of these in areas like Brentwood and Centennial Park. Would love to see similar safe crossings near Coleman Park and Mill Creek Greenways.	Pedestrian Infrastructure, Park Safety and Security
Keep the line dance classes. They are amazing	Recreation Program Appreciation, Exercise Programming
No Swan Ball extravagance	
I love shaded walking trails and shaded playgrounds. Its easier to keep cool under large trees in the nashville hot summer.	Shaded Recreation Areas
In the past, trash collection and maintenance of port-a-potties has been less than satisfactory. Weekly is not often enough.Overall, I am grateful that I live near the Warner Parks. I would like to see the Greenway make it from Old Harding to I40 near the Home Depot in Bellevue.	Park Maintenance and Infrastructure, Trail and Greenway Development
I'd love to see more native plants in our green spaces and parks.	Native Plant Integration
It would be a wonderful thing to incorporate a new park into the redevelopment plans for the former Beaman and Reed car dealerships on West End.	Park Expansion, Urban Redevelopment
No	
I think we have wonderful parks and facilities in Davidson county and I'm so grateful. My biggest concern is safety. My car was broken into at Percy Warner park.	Park Safety and Security, Park Safety Concerns
Recently there was a proposal requesting to construct a road through Cane Ridge Park to access a school soon to be constructed. I considers parks to be sacred and protected, not only now, but forever. I am grateful the park department rejected this request. Parks are to serve many future generations , people who are not yet born and depend on us to protect.	
More indoor pickleball.	
We need Soul Line Dancing	Community Recreation Programs
Thank you for keeping woodmont park grass cut so consistently. I would love for the porta potties to be housed inside a structure. They are unsightly and smelly as we walk the path beside them. Thank you for adding extra gravel for parking on Wilson Blvd. Please remove tree trunks after cutting down dead trees. Nashville has great parks. Thank you to all of the staff at every level!!	sm_positive
Please do not allow Cheekwood access from Hwy. 100 or any other road or highway through any part of Percy Warner Park.	
We need a big community pool in east nashville!	
Would love to see pilates classes in the downtown parks and an ice rink downtown would be AWESOME!	sm_positive, Fitness Programming
Neighborhood pools available for people to use for a small daily fee would be a great addition. We love the natural areas like Warner and Shelby and would like to continue to see those be priorities. The addition of indoor playgrounds, gyms and programming for young kids during the winter months would also be wonderful	sm_positive
I love the greenways and parks of Nashville. They are well-maintained by staff that always seems knowledgeable and helpful. I love having opportunities to interact with your naturalists and park staff who can explain the history of the parks and identify flora and fauna. I would love to see the TN Naturalist program expanded to include a chapter in Nashville at Warner or Beaman. (Owl Hill Sanctuary in Brentwood participates - why not Nashville?)	Park Staff Engagement, Nature Education Programs
I love that Metro Parks offers several high-quality golf options -- it's the only way that I can afford to play the sport. I would love to see Metro implement a differentiated cost structure for residents and non-residents so that a) residents (taxpayers) have more access to tee times and b) residents pay lower rate than out-of-county and out-of-state customers. There is already precedent for this in the membership structure. This is a standard across the country in public golf and would ensure that residents have full access to this service of Metro Parks. Thank you!	Golf Course Pricing Policy, Golf Course Management, Resident Pricing Policies
Since I stopped driving, my access to parks has been dramatically reduced. I can no longer go to Bells Bend, Beaman, Warner Parks, Hamilton boat launch on Percy Priest Lake. Needed: Restore the ferry to Bells Bend. Run a WeGo bus on Bell Road with lake access. Run the WeGo 3B (or 3C?) bus up to Warner Parks: no need for a lot of buses, perhaps just a few on weekends when the pool at Centennial Sportsplex is closed. Restore Saturday swimming at Centennial Sportsplex.	Park Accessibility and Equity, Public Transportation Access
We need more public pools!	
It would be amazing if you offered some of your indoor spaces / nature centers for children's birthday parties. My son loves nature and would be thrilled to have a party in one of the nature centers. His birthday is late December so an outdoor pavilion isn't an option.	sm_neutral
Originally, a goal wa set for the city that no resident has more than a 10-min. walk to the next neighborhood park. This goal needs to be pursued especially in underserved areas of the city and downtown.	Park Accessibility and Equity
We do not have a neighborhood park or center to gather as a community in West Meade or Hillwood, despite being one of the largest areas in Nashville. We also lost the high school and were promised it would be a community center/park with no follow through. In addition, I would bet we as a neighborhood pay more in property taxes than almost any other area. I get that needs might be higher in other areas, but ONE PARK is not too much to ask for.	Neighborhood Park Development
Great need for updates in Charlotte Park! Need to get the pickleball court plan moving forward, rebuild a pavilion, add water fountains back to the park, update the playground, and make sure the paths are cleared regularly from brush growing over them.	Park Amenity Development, Park Maintenance and Infrastructure, Park Infrastructure Improvements
Soul line Dancing is my favorite part of Nashville's parks and facilities. I can exercise and have fun at the same time.	Community Recreation Programs
NA	
Fisk park is severely under resourced when it comes to a functional water fountain. The fountain is often off, even in heat of summer. A May JAMA research paper detailed that proximity between One to 6 miles from a golf course increase Parkinson's disease risk exponentially. I would like the golf courses to be more transparent on herbicide/ pesticide(s) use and frequency. I love our parks! Access to nature is a huge balance to mental health. It would be helpful if levee greenway had trees to block wind in winter and sun in summer. This would make it more accessible for more of the day. Also- PLEASE cultivate our native TN grasslands wildflowers in this space! It would be spectacular. A real asset to the beauty of the city/state. It would be great to have a canoe/kayak launch at this greenway too.	Park Infrastructure Improvements, Park Safety and Security, Park Environmental Stewardship, Trail Development, Trail and Greenway Development

We are so grateful for the Nashville Parks program. Specifically, Hadley Community Center has an amazing program and center. They offer so many great things and we have been able to leverage their swimming and other programs like sports and tot time. I wish that some of the community centers closer to us, like Morgan Park or Looby, could begin building bigger programs but I'm not sure how to engage to help support them more.	Community Center Facilities
I attend Soul Line Dancing three times a week in the Antioch area. This is important to me to maintain this class. I am a senior and it allows me to get out and mix and mingle and most of all exercise my body and mind. It is a great program and I thank you for sponsoring it.	Community Recreation Programs
I enjoy going to the line dance class at Southeast Community Center. I also enjoy walking on the trails specifically at Stones River Greenway (near dam). I would like to see repaving efforts at that particular trail because there are a lot of people that use it. I would like to see no smoking on the trails because here lately I've seen more people particularly young people smoke which I don't care for. I would also like to see more safety efforts for trails especially those that offer more distance than just around a community center that has wooded areas and can get more miles in. I did see a park ranger on a 4 wheeler a few weeks back and that was great to see and his presence alone there was a feeling of being safe. In the parking area at Stones River by dam there seems to be more trash due to people parking and meeting on the lawn or in the lot so maybe add a few more trash cans.	Trail Safety, Community Recreation Programs, Trail Maintenance
No	
Centennial sportsplex is highly used by the community and needs some updates. Bathrooms, exterior landscaping, etc. or it will just get sad looking. People from all over the country visit it and it's a reflection of our values as a city. Woodmont park needs more shade trees near basketball and playground.	Park Amenity Development, Recreation Facility Upgrades
Nashville has many acres of wooded natural areas and miles of primitive trails for hiking, trail-running etc. This I consider to be the single most well-rounded pursuit of both mental and physical heath and essential to the development of a balanced individual. Undervaluing the importance of trails, of wooded respite from the traffic and tourists, in favor of more parking lots, more roads and more "development" shortchanges our park system and makes us look shortsighted. More emphasis should be placed on not only the addition of land but in our continued investment in the stewardship of such resources.	Trail Development, Natural Area Preservation
Finding ways to add some safety to the greenways/trails	Trail Safety
Nashville's parks are more than just green spaces—they are vital community hubs. They offer a safe, accessible environment where people of all ages can gather, move, and grow together. We've seen firsthand how park facilities help break down barriers to wellness by providing space for programs like 615 Soul Line Dance that are free, culturally responsive, and rooted in fellowship.	Community Recreation Programs
It would be great to have a public boathouse for the rowing community to use. It would also be great to have dedicated rowing access to the Cumberland near downtown. These two things trump all prior answers in terms of what I would find most useful and helpful.	Water Recreation Facilities
I'd enjoy more shuffleboard courts! Also more artificial boulders would be appreciated :D	
It's disappointing that we have to travel out of county for most amenities (pool, splash pad, large accessible flat greenways, etc). In the south Nashville area the playgrounds and greenways are either very small, in questionable safety areas or outdated playgrounds. Also, some of the newer playgrounds are built for older ages (ie 5/6+ rather than 3-4 year olds).	Park Facility Quality, sm_negative
Would love to see existing parks revitalized and usage maximized.	Park Facility Revitalization, Park Infrastructure Improvements
Sevier Park would greatly benefit from a new playground designed for elementary aged kids and a splash pad/water play area. The existing playground are meant for younger children and they're frequently crowded. It's also a long, hot summer and having water facilities available would make it much easier to spend time outside!	Playground Upgrades, Water Play Facilities, Water Recreation Facilities
No	
Improve your security. I limit my time in Metro Parks due to the aggressive and threatening homeless population. Metro Police will not respond in a timely fashion unless a gun is visible or you have a body on the ground.	Park Safety and Security, Park Safety Concerns
Enhancing the amenities and availability to access the Cleveland Park pool	
Need access to bathrooms at outdoor spaces	
Need of more and cleaner restrooms	
Eastwood Park could use a dog park area and pickleball court.	
We are very grateful for the staff at the Shelby Community Center. We use the facilities all the time, for after-school, Rally Cats, recreational tennis, hiking in the woods, etc. There is always something going on there, and the staff are very welcoming. I'd love if if there were more workout options at the Shelby Community Center (similar to East Park), and the dream would be a pool!	Community Center Facilities
South Inglewood Park desperately needs more trees lining the walkways.	
The Nashville Ag center has a huge field that is left unused. would be great to put in a turf field/basketball court/sport court for families all across south nashville to use.	
Would love more parks in Hermitage! Even small spaces. It would also be great to have designated bus stops for all parks and community spaces.	Neighborhood Park Development, Public Transportation Access
Please improve the facilities of Cleveland Park: ensure pool is operational, update courts to pickle ball courts, create a formal soccer field, improve/update playground, create restrooms that are accessible during the day.	Park Amenity Development
Please add an indoor and outdoor pool to bellevue community center or somewhere for the bellevue community. I'm shocked that theirs a fairly new community center without a public pool. We need others across the counties so schools can have swimming as a sport and the community doesn't have to pay high prices to swim. Thanks P.S. please add the pool for bellevue next years budget	

1) I would love if we could get closer to the river to see it better and walk closer to it. We lived in Austin, another city with a river going through it, and walking along the path right next to the river was one of our favorite things to do. The Cumberland doesn't seem very accessible, which is a shame because a river running through the city is such a feature. Would also love to paddle board/kayak on it but I never see anyone out there so don't know if it's safe, plus don't know how to access. 2) Shelby Bottoms could use a restroom. There's one by the fields in a building there but it's out of the way when we're on the paths in Shelby Bottoms and doesn't really seem like we're supposed to be there	River Access, Park Facility Amenities, Trail Facilities
Rosebank Elementary's playground needs attention and a great deal of work. Specifically, accessible playground equipment so all of our school friends can play together. We need equipment for older kids too. Better garbage and dust control. My kids come home filthy after school when there's no rain. The gate needs to be secured too. It's too open and there's no signage to make it clear it's only for school use during school hours.	Playground Safety, Playground Upgrades, Park Safety and Security
Bellevue is so fortunate to have the wonderful community center, Harpeth greenway, Warner parks, and Red Caboose park which my family utilize often. Harpeth Knoll has the space to be an incredible park; I think it's underutilized with a playground only suitable for ages 5-12. Metro definitely needs more splash pads and one in that location would be very popular! I don't know that there's space for a pool at the Bellevue community center but public pools are definitely another area that is lacking. We would LOVE a little playground near the community center if there is space there- we use the playground at HG Hill park every time we go shopping in Nashville West area and a similar option for shopping at One Bellevue would be awesome.	Playground Development, Park Facility Improvements, Community Recreation Amenities, Park Amenity Development
More swimming options in local neighborhoods. More small trails in local neighborhoods.	Community Pool and Swimming, Neighborhood Trail Development
Our kids are at Centennial park for dance classes for about 25 hours a week and the sportsplex for two hours per week. The number 1 problem that we consistently have is with parking and safety. Accessibility of public bathrooms in the park makes using centennial park much harder. The chemical toilets/port-a-potties are absolutely disgusting. Used Feminine products and condoms are often strewn all over the floors of those areas and it is unsafe for the kids to be around.	Parking Infrastructure, Park Safety Concerns, Park Accessibility and Equity, Park Safety and Security, Restroom Facility Conditions, Restroom Facility Maintenance
I'd like more restrooms available at greenway and park locations that are safe and clean. Would also love a community pool at Shelby bottoms!	Community Pool Development, Restroom Facility Improvements, Community Pool and Swimming
Metro Parks dance department is THE BEST KEPT SECRET IN NASHVILLE. Phenomenal instruction, amazing community of inclusive dancers, EXCELLENT dance education. We need better parking for the studio at Centennial Park.	Dance Program Quality, Parking Infrastructure
A pedestrian path from Riverside Drive to Sevier Lake in Shelby Park	Park Infrastructure Improvements
Of the community centers I have most often used McCabe for fitness classes and walking and walking on the track. I have used Hadley for water exercise classes and have used Bellevue indoor walkimh track. Bellevue for walking on the track.	Fitness Facilities
Please update the playground at Rosebank. It is very out of date and the entire community and school would benefit!	Playground Upgrades
Greenways and passive nature parks are needed more every day	Greenway and Nature Park Expansion, Greenway Development
Cleveland park could easily put netting in the outdoor tennis courts or turn them into pickleball courts. The space is there but it isn't being used for anything. Also the homelessness desperately needs to be addressed in Cleveland Park	Park Homelessness Management, Park Court Repurposing, Tennis Court Repurposing, Homeless Population Management
We have old tennis courts in Cleveland Park that are not being used for anything as the nets have been taken down. This would be a great space to create pickleball courts or replace the netting and turn them back into tennis courts. The homeless problem in the park also desperately needs to be addressed.	Park Homelessness Management, Park Court Repurposing, Tennis Court Repurposing, Homeless Population Management
I love the updated playground at McFerrin park, thank you! I would like to see Cleveland Park get a new and improved playground and for the tennis courts & basketball courts to be refinished.	Playground Development, Park Facility Maintenance, Playground Renovation, Park Maintenance and Infrastructure
Metro Nashville has great golf courses and greenways. The Warner Park hiking trails are also great.	Hiking Trail Quality, Park Safety and Security, Recreational Facilities, Greenway Development
Public transportation is so important! Offering more transportation to metro parks will give access to underprivileged communities - those who would most benefit from the resources available.	Public Transportation Access
Not about facilities, but programs -- could be more accessible in terms of information (e.g. physical ability requirements, general/expected speed) and availability online (often it says to "call the park" for information or to register).	Program Information Accessibility
We need native trees and plants integrated into the landscaping. I would love to see Senior activities for those in our neighborhood as well.	Native Landscaping, Senior Activity Programming
Parks need to be more accessible which means we need more sidewalks, bike lanes, etc. We also just need more parks! We also need more dog parks in my neighborhood.	Park Accessibility and Equity, Park Expansion, Dog Park Development
There are not nearly enough public pools in Nashville. In fact I only know of Centennial Park there should be many more pools. There should be more fitness class options at each community center and there should be more options for art classes or dance classes or other cultural enrichment.	Community Pool and Swimming, sm_negative, Cultural Enrichment Programs
Shade at Cleveland Park. Can th tree cut down by the playground be replaced?	Park Shade Infrastructure

We need pollinator gardens and community garden space at as many locations as possible! East Park is one of the main parks we use because it is also the playground area for Warner Arts Magnet where I teach and my kids attend. There are no flowers in the entire park area. We have low income families living right down the street and it would be really lovely if we could grow things to benefit our community. I am not an engineer, so I don't know how possible it would be here in Nashville but a belt line project similar to Atlanta's would be great if done with intentionality. Connecting as many of our spaces as we can and making the city ACTUALLY walkable/bikeable would be amazing.	Community Garden Development, Green Space Enhancement, Urban Connectivity
Thank you for all you do! I have trained for two half marathons on the greenways and I love them <3	Greenway Recreational Use, Greenway Development
18+ hours for outdoor pools	Outdoor Pool Hours
We need more protected open spaces and forests	Open Space Preservation
Thank you	
Please do not alter the mountain biking trails in the Warner parks. They are extremely popular and convenient and keep lots of people of all ages off the streets where it is not safe to bike. The mountain biking community is large, active and excellent stewards of the trails and the parks. These current trails are great for all skill levels and conveniently located for school clubs - both public and private.	Mountain Biking Trail Preservation
The Cleveland Park Community Pool is a fantastic resource, but it is unfortunately closed and has very difficult hours. I wish Parks would prioritize getting community pools open, and also communicating their status to the community.	Community Pool Accessibility, Community Pool and Swimming
These would/are all options!	
The tennis courts at Green Hills Park are in truly awful condition. These could be used by JT Moore Middle School students if they were in better repair. This is a need that has been ignored for years.	Tennis Court Maintenance
Protect Warner Parks and all Metro Parks from pressures to use park land for non-park purposes. Prohibit the construction of a new road that would serve as the entrance to Cheekwood by using Percy Warner Park land. This would be very detrimental to the park and would set a dangerous precedent throughout the Metro Parks system.	Park Land Conservation
I love that I live within walking distance of 3 outstanding parks/greenways. Wish there were more sidewalks to improve safety to get there.	Sidewalk Infrastructure, Park Accessibility and Equity
I would like more dedicated pickle ball courts.	Pickleball Court Development, Recreational Facilities
The majority of the facilities are deplorable. Take a walk around the East Park community center or the Coleman Park community center and really look at the ceiling, the floors, the doors and windows. Everything is in poor condition. The sinks are not attached to the countertops, The dance floor is buckled, the water fountain is almost always broken, The place rarely gets cleaned. I've lived in other cities where the community centers were THE place to take any kind of class. Metro Parks should really amp up their offerings and make it the place that all Nashville pavilions go to if they want to learn, play or be creative.	Program Expansion
The collapse of the West Park Community Center gymnasium, while unfortunate, presents a unique opportunity to reinvest in a facility that better serves the needs of a rapidly growing and changing neighborhood. This area of Nashville is seeing significant residential development, yet remains underserved when it comes to public recreational and community spaces. Rebuilding the community center with expanded indoor and outdoor amenities, flexible gathering spaces, and accessible programming would help meet current demand while also planning for future growth. It's a chance to design a facility that reflects the diversity, energy, and needs of the surrounding community — one that can become a true neighborhood hub.	Community Center Facilities, Neighborhood Recreational Spaces
I would love lighting for nighttime playing on metro fields, for example on Ted Rhodes. Light limits our ability to play while there is light only, but adding lighting to more fields would help increase options not only during late evening, but also during not-the-summer when there is more light. Right now, I'm playing ultimate frisbee Monday nights at West Park (West Nashville) and the fields are awful (they're all dirt—we were caked last night), but we can't play on better fields (like Ted Rhodes) because there's no light at those fields. So, here are my two asks: please add light and fix up the turf where possible.	Field Surface Maintenance, Sports Field Maintenance, Field Lighting Infrastructure
I am a huge proponet. I do not think Churches should be able to "take over" public facilities for "regular services" . Neighbors cant park to picnic, use the outdoor courts etc. It doesnt seem to meet the mission of Public Parks.	Public Facility Usage Policies, Public Facility Usage Policy
I live in Riverside neighborhood off Morton Mill. In our neighborhood we have a lot of families now with small children who walk the neighborhood and use the greenway across the street. Unfortunately the traffic on Morton Mill is not very to conducive to this. The vehicles travel at high speeds and makes it dangerous for young kids to use the sidewalk of our neighborhood next to that road to ride their bikes, etc. In addition, it is difficult for families to get across the street to use the greenway due to the fast traveling traffic and is hard to obtain access with a stroller. I was hoping for some type of solution so we can enjoy our neighborhood sidewalk and the greenway across the street. Maybe speed bumps, traffic circle, or cross walk?	Greenway Development, Trail and Greenway Development, Neighborhood Traffic Safety
Sidewalks so we can walk to them!!	Sidewalk Infrastructure
Share ideas of how to make it a safer area	
I wish there was more access to restrooms at the parks especially at the Shelby baseball fields. The restrooms are often locked and we play games that last hours. It is inconvenient.	Park Restroom Accessibility
Charlotte Park is very bland for how nice the encompassing area has become. So is England Park, although it is in a floodplain. It would be really nice if it was easier to get West Park from Charlotte Park. Like a sidewalk.	Park Landscape Enhancement, Park Connectivity, Park Landscape Improvement
We need better lighting & longer hours at our parks with multipurpose fields. I work 9-5, I want to be able to play some soccer with my buddies but the fields are unlit and closed by the time I've bathed my kids and cleaned up from dinner. We have great facilities, but they aren't open during hours working people can use them.	Park Hours Flexibility, Field Lighting Infrastructure
More gathering spaces with shelter, tables, seats, restrooms would be highly popular and very appreciated.	Park Amenity Development, Park Gathering Space Development

Antioch has been underserved for a long time. There in no community pool- indoor or outdoor- we need both And no YMCA option either. Antioch is too crowded and not a pleasant place to live anymore. Citizens needs to be fined for dumping mattresses, furniture on sides of the road and for littering	Community Pool Development, Community Maintenance Concerns, Community Pool and Swimming
Would love to see more dog friendly areas, pocket and small parks, and more multiuse spaces like greenways for transportation and mini libraries in parks or compost drop offs on parks land.	Multiuse Park Development, Dog Park Management
Please add pickle ball courts nearby	Pickleball Court Development, Recreational Facilities
Please invest in Cornelia Fort Airpark	Park Infrastructure Investment
Hermitage needs a new community center. We have a gym and a ping pong table. Other comm centers I have visited have indoor swimming and exercise equipment. Hermitage has been forgotten.	Community Center Facilities
We would love to see the Richland Park Greenway connected between McCabe, West Park and England Park. We would also love to see the Parkland on Cockrill Bend have primitive trails For hiking and running. Finally, it would be nice to see the Lytle farm turned into a park.	Trail Development, Trail and Greenway Development, Park Land and Acquisition
I think the paved trails are pretty rough. Lots of root damage / points where there are significant “speed bumps” of sorts. I’m not sure if it’s the base material used etc - but the Cleveland metroparks paved paths are much much better. Maybe discuss with them how to structure the paved areas so they don’t have so many bumps.	Trail Surface Quality
Two members of my household would use more access to skate parks. The Two Rivers Skatepark needs maintanence and expansion and I think the community could really use several more smaller skate areas connected to paved trails.	Recreational Facility Maintenance
Bike paths to safely get to/from downtown to neighbourhoods. More parks.	Park Expansion, Bike Path Infrastructure
The Ravenwood Park needs onsite Park Ranger to monitor use of facilities. I have seen people sleeping in their car with a mattress tied to the top. Teens are taking over the playground and will destroy the equipment for younger children. Need real bathrooms not portable toilets. I would like to see more patrols on the connected Stones River Greenway to keep homeless people from camping under the Stones River Bridge. I do not feel safe on the greenway in some areas.	Restroom Facility Improvements, Park Safety and Security, Facility Monitoring, Homeless Population Management
Important to keep what we do have clean (ie from moss build up, spider webs, trash, etc). Important for families to get to the parks and facilities safely.. sidewalks and stop signs on all directions/surroundings Important to have clean shade!	Park Facilities, Park Safety and Security
Nashville has a great park system but with the population growth, it is critical that we add new parks and the acreage of the existing parks. I am a huge advocate of the greenways but the Richland Creek greenway is so crowded that it is difficult to walk on the weekends with bikers, dogs and scooters. From my understanding, Metro had definitive goals to add land via an open space plan as defined in the last Plan to Play, and those were not met. Development is encroaching on our green space is definable ways.	Green Space Preservation, Park Expansion, Greenway Development, Trail and Greenway Development
Centennial Park’s growth/updates have been amazing! Same for the updates at Dragon Park. Would love to see more park updates for smaller parks closer to me. I see so much potential at many parks but they just need some updating.	Park Updates, Neighborhood Park Improvements, Park Renovation, Park Maintenance and Infrastructure
Charlotte and England parks need updated. More swings, playground equipment. England Park definitely needs sidewalks to get to the entrance of the park safely!	Playground Equipment Upgrades, Playground Development, Park Safety and Security
Really would love a splash pad at West park and at the corner of 51st on the greenway. More shaded playground spaces (dragon park is amazing but we have to drive to).	Recreational Amenities, Playground Shade Structures, Splash Pad Installation, Playground Shade, Park Amenity Development
Very appreciative we have the amount of greenways that we do. Big selling point for Nashville.	Trail and Greenway Development, Greenway Development
South Nashville urgently needs more safe, accessible walking and biking paths. Fair Park is a great start, and we love using it, but it needs to be better connected. Linking the greenway to Browns Creek and Sevier Park would greatly improve options for biking, running, and getting around without a car. Neighbors in our area are especially eager to see progress on the 440 Greenway Master Plan. Extending it from I-65 past Nolensville Pike would make a big difference in helping people safely enjoy the outdoors and travel between neighborhoods. Right now, we're very close to being part of a more connected network of parks and greenways, but the missing links are in underinvested areas like the fairgrounds and Woodbine. Much of the city's recent greenway and park development has focused on places like East and West Nashville or Germantown, which already have strong infrastructure. South Nashville deserves the same level of attention and investment.	Neighborhood Park Access, Transportation Infrastructure, Park Infrastructure Investment, Trail and Greenway Development
River access needs a serious revamp. Needs are not met, access points are in disarray. For gods sake PUT IN A BATHROOM SOMEWHERE IN SHELBY BOTTOMS!	River Access Improvements, Park Facilities, Park Facility Amenities
I strongly believe sports fields and green spaces should be open to the public at all times except during league play. It is ridiculous to kick people out of parks for regular use.	
Keep the golf courses and driving ranges open 7 days a week. There is a tremendous demand in this city and I don't understand why they are closed selective days. We need increases fees to hire/maintain staff and the upkeep of the courses	

Beaman Park and the Beaman to Bells Bend Corridor is an invaluable piece of our park system and community. Land conservation and acquisition should be prioritized to keep this last rural stronghold of Nashville intact. This corridor represents one of the few remaining areas where large, contiguous natural landscapes still exist within Davidson County. It provides critical wildlife habitat, protects water quality, supports biodiversity, and offers residents a chance to connect with nature in an increasingly urbanized region. Prioritizing land acquisition in and around Beaman Park and Bells Bend is essential not only to expand recreational opportunities but also to protect and restore forested land in Davidson County. Forests in this corridor play a vital role in sequestering carbon, buffering climate impacts, and maintaining ecological health. Strategic expansion of these parks would secure one of the most ecologically significant areas in the county before it is lost to development. Protecting and expanding this greenway corridor would ensure that future generations have access to wild and ecologically rich spaces, and it reinforces our city's commitment to sustainable growth. Beaman and Bells Bend together are not just parks—they are living classrooms, wildlife sanctuaries, and a testament to what makes Nashville unique.	Land Conservation, sm_positive
My spend tax payer dollars on restrooms just to keep them closed and put nasty porta-johns out instead?	Park Facilities, Park Maintenance and Infrastructure
Specific to Orchard Bend Park and its extension along Culbertson Road: Please allow the extensive open fields to revert back to reserves for native plants and related wildlife. Instead, we see regular hay baling operations which destroy the natural environment.	Native Habitat Preservation
Archery ranges	Recreational Facilities, Archery Facilities
The old library building in Bellevue needs to become a museum for sharing historic preservation to generations to come!	Historic Preservation
Hartman Park Tennis courts need seating for players and seating for players in waiting. The outdoor basketball court area has seating for spectators and players waiting the tennis courts should have the same. The tennis courts at Hartman need better maintenance and debris clean up. We shouldn't have to clean up the area ourselves. Hartman and Park both need court squeegees this will allow players to clean the area of water from rain and also add wind screens to the playground side of the courts at Hartman and add the screen to the houses and walkway sides at parkwood this would allow players to have less distractions during game play. Parkwood tennis courts need lights. Ted Rhodes, Madison, Hartman, Cedar Hill all have lights. We shouldn't have to leave our neighborhood park just to play tennis when there's already power running beside the courts. This will allow for players to play and spread out playing time. Ted Rhodes & Parkwood tennis courts need bathrooms. PortaPotties are really disgusting. Add pickleball courts to Ted Rhodes and Parkwood parks. Add Tennis Courts to the New Trinity Hills Park.	Park Facility Maintenance, Recreational Facilities
Charlotte park needs a new playground and bathroom!! Splash pad would be incredible as well.	Playground Development, Park Facility Improvements, Park Facilities, Playground Upgrades
No	
Appreciate all the work you all do to keep this city amazing. And thank you for the excellent well thought out and intentionally developed surveys. <3	
Just wanted to compliment the history work including tours! Also had an amazing time at an improv workshop the other day!	Park Programming
Desperate need of more pools!	Recreational Facilities
Please connect the East Nashville and downtown greenways via dedicated pathways!! Bike lanes on streets are often not safe - cars don't look for bikers even on quieter streets in East Nashville. Thank you!	Bike Safety, Trail and Greenway Development, Greenway Development
Splash pad in SE nashville area	Splash Pad Installation, Recreational Amenities
I have experienced my individuals impacted by homelessness utilizing the parks and greenways as their temporary residence. This may already be happening, but partnerships with local non-profits and government agencies serving this population should be a part of Metro Parks operating plan.	Community Support Services, Homeless Population Management
Double down! Great parks make a great city! I can't wait for the new Shelby Park center on Davidson!	Park Amenity Development, Park Development
Please look into improvements at Charlotte Park playground! :) we have been missing a swing forever and the park is pretty worn and used by the community frequently!	Park Renovation, Playground Equipment Upgrades, Playground Development
While I appreciate Coleman Park and Whitsett Park, they are both very small and don't connect to anything. Could these parks connect to one another somehow or to another greenway? Additionally, both parks have litter and many unhoused people camping there. I have helped with litter cleanups in and along Mill Creek, but there is still so much garbage. The unhoused population between Coleman Park and the 7 Eleven deters me from using that park more regularly.	Community Safety, Park Connectivity, Homeless Population Management
There isn't enough youth fields for sports in the parks. It has been proven time and time again that children involved in sports earn better grades in school, and have less behavioral issues, and benefit these kids through life.	Youth Sports Facilities
Stop requiring reservations for everything and let spaces be open 24/7	
The lawn around Hartman Park must be kept neatly. There is an area that the trees , bushes, and grass is overgrown. It is a horrible sight.	Park Landscape Maintenance
Every park, every development needs a FMRP blueprint. We need community people who care.	Community Engagement
Access to restrooms! Even at parks with restrooms, I have found those to sometimes be locked or closed in daylight hours	Park Facilities, Park Facility Amenities

The nature centers are fabulous and offer great programs. I would love to see greater staff capacity to continue to offer exceptional programming. I'd love to see more accessible trails and boardwalks for seniors and those with disabilities.	Nature Center Programming, Accessible Trail Design, Greenway Development
It is important to preserve trees and greenspaces in as many ways that we can. That could include public private partnerships and conservation easements supported by Parks but maintained by private owners.	Green Space Preservation
Just would like to see more nature hiking trails	Trail Development
A greenway that completely circles the city would be wonderful, since the streets (including bike lanes, except the ones with barriers) are VERY dangerous and cause multiple deaths annually as our city grows. I appreciate the effort of the city to build bike lines, but it's not working. There either needs to be more lanes with barriers (like in NYC), or monitoring and punishment for aggressive drivers. I stopped riding on roads years ago due to nearly being hit - intentionally. Many of my friends have experienced the same. Which is sad, because my office is only 3 miles from my home. There's bike lines the entire way except on the downtown roundabout and 8th Ave, where I've nearly been hit. So, I will be one more car on the road.	Bike Safety, Trail and Greenway Development, Greenway Development
We need bathrooms and water fountains that work along paved greenways. Mill Creek greenway has no bathroom and no working water fountains. Also, with the ability to put in insulated fountains, there's no need to shut them down in the winter. There are some amazing greenways I avoid as an avid runner simply because access to these basic amenities are not met. I'll often drive to Brentwood, where these things can be found almost every three miles.	Park Facilities, Greenway Amenities, Greenway Development
Add more to Mill Ridge Park for young adults and seniors.	Park Amenity Development, Park Recreational Offerings
Two Rivers skate park could use some attention. It gets a lot of use but the park isn't in the best shape. We also need something closer and more accessible. Being 20-30 minutes away from the skatepark is alright but not ideal especially on busy days. Something in Ashland City would be fantastic, I realize this is metro and not Cheatham County but there is a serious lack of things for youth and teens to do in without going to Nashville.	Youth Recreation, Skate Park Improvements
I am proud to live in a city with beautiful parks, but I feel that more "pocket parks: in neighborhoods would serve more people and enhance the city and living experiences.	Neighborhood Park Development
Safety concerns prevent me from using the greenways alone	Park Safety and Security
Participated in learn to skate at Centennial Sportsplex and it was a wonderful program. I only knew about it through a friend. It would be great to know about more things like that w/o having to search every few months.	Park Programming Awareness, Park Programming
I go to parks a lot for farmer's markets.	
I wish there was 1 i could walk to. There are a lot of neighborhood parks in east nash or west but nothing in my immediate area in hermitage.	Neighborhood Park Access
I think needs are being met and metro parks are headed down a good path but I think there needs to be more push to preserving our natural areas and leaving them as natural, emphasis on attaining natural land for hiking and recreational use (along with preservation and conservation of the wildlife there), and a LOT more effort into buses or public transportation to get people out to the nature centers, greenways, and outdoor rec sites	Park Transportation Access
As a family with a toddler, we love utilizing Nashville's parks and playgrounds! We wish there were more opportunities for splash pads and shade structures for summertime play.	Family and Child Recreation
There should be more bluebird boxes in open spaces, like Cornelia Fort Airport, and the open fields in the Warner Parks. Bluebirds are very attracted to open spaces, where there is a lot of flyway. There should be more than one port-o-let at Cornelia Fort	Park Facilities, Park Facility Amenities, Wildlife Conservation
I think parks does a good job, but more programs and additional facilities and BUDGET would always be welcome. Would love a connected greenway across all parks but that will be up to Metro to work on. Thank you.	Park Programming, Greenway Development, Park Maintenance and Infrastructure, Trail and Greenway Development
The Parthenon is a historic structure in Parks and the most popular tourist site in Nashville. It could use maintenance and revitalization that demonstrates its importance to the city's identity and revenue, including a new larger or expanded lobby and bigger bathrooms, and appropriate updates that make it more resilient to bad weather. Put Rose Park's lights on a timer and powered with solar panels. I think they should be turned on automatically and turn off at 11pm. Rose Parks bathrooms should be open during park hours and patrolled	Historic Site Maintenance, Park Amenity Development, Park Facility Improvements
We have so few amenities for families when compared to surrounding counties!!!	Family Recreation Facilities
Amazing to me that at the golf courses trees are being cut down and I understand that it is for safety reasons. What i dont understand is why in the world new trees are not being planted. In another generation, perhaps two, there will be no trees on the golf courses.	Environmental Conservation, Golf Course Tree Management
Repair the tennis courts.	Tennis Court Maintenance
There are homeless ppl at my local park Richland and I wish I could help they seem to have a handle on it for the flea market days but I wanted to say this is the worse thing I see but I guess there's nothing you can do they may even be adventure seekers maybe	Homeless Population, Park Safety and Security
We need more parks and more trees. Greenways need new pavement. North Nashville has 0 walkable parks.	Park Expansion, Urban Green Space, Greenway Development, Trail and Greenway Development
We need BATHROOMS, there is no where on this survey mentioning clean bathrooms. Two parks I visit with my children only have portable toilets with no running water or sanitation. For these large parks that accommodate large crowds bathrooms at Ravenwood or Hermitage do not exist. I understand that homelessness is an issue, but the park can close the bathrooms from dusk to dawn to deter long term loitering. Many cities, such as Phoenix accomplish this. Please invest our taxes into public restrooms. It keeps children and the shared spaces healthy and clean	Public Restroom Access, Park Bathroom Facilities
More classes in the evening. People do work.	Park Programming Scheduling

Pickleball is the easiest game to learn from youngsters to elders. There's enough green space to add courts everywhere. Folks are willing to pay to book online! By the hour, max 2hrs, etc to help maintain. This opens up league opportunities of all ages with park tournaments, trophy/plates. With proper plantings & new paddle technology, lower decibel level is obtainable. Win-win! Currently, with just few court options, teams take over for the day. Online signup is critical. Thank you for asking!	Pickleball Court Expansion, Recreational Facilities, Park Facility Booking
I am concerned about thefts from vehicles parked at certain parks. I will not go to Beaman park because of safety concerns. How can Metro keep the public and our cars safe at the parks?	Park Safety and Security, Vehicle Security
The bathrooms a the baseball fields at Shelby park are in need of repair. Especially the men's room.	Park Facility Maintenance, Park Bathroom Maintenance
Investment should be made in current disc golf infrastructure	
Playgrounds and parks play a key role in our family life for keeping the toddler busy, taking us all (dog included) on walks in nature.	Family Park Usage
We need more easily accessible bathrooms at parks. Your programming is great. It's just scheduling is difficult- evenings or weekends I'm sure are hard to staff.	Park Programming Scheduling, Park Bathroom Access, Park Bathroom Facilities
Very impressed with most parks.	
It would be great to have more lap swim hours/availability and consistency (e.g., less pool closures) at the East Park Rec Center.	
More support for local disc golf courses at parks would be awesome!	Disc Golf Course Support
The picnic shelters at Richland Park are unusable due to homeless occupation. Some benches by the tennis courts are unusable for the same reason.	Park Accessibility and Equity, Homeless Population
With the river all around Davidson Co it is a shame there are so very few assessable areas for elderly and mobile restricted people to get the river for fishing, canoe and kayak	River Access, Park Accessibility and Equity
Let's make more parks. Let's make more art spaces. Let's create studio space for artists. Let's have more art in our parks.	Park Art Integration, Creative Space Development
More access to Metro Soccer Complex during the year would be great. Soccer fields at Centennial Park would be great. Better soccer fields at Fair Park would also be great.	Soccer Field Availability, Soccer Field Expansion
For my household - no children - continuing river access is my #1 priority / passion :)	River Access
We just moved away from the Charlotte Park area, and did so sadly because of Metros neglect of growing population of young families in the area. The playground is in dire need of upgrades, there is no shaded area or covered pavilions and there is no dog park or fenced area leading to many dogs off leash, Metro demonstrated willingness to provide upgrades in the form of a disc golf and pickleball courts, which will not benefit the many families with young children who own homes and want to contribute to community, instead it lures young adults in nearby apartments and thus developers. There is no lack of facilities that accommodate families in more affluent areas, where those homeowners have more power, such as Green Hills, Lockeland Park, and Sylvan Park but lowers and middle income families and children continue to be neglected by the city.	Playground Upgrades, Community Park Development
I live in Green Hills, which is relatively convenient to Warner Parks, which I visit about once a week. But I wish there was a walkable greenway or something like a sculpture park or a community garden IN GREEN HILLS. Thank you for asking!	Neighborhood Park Development, Green Space Creation
Water fountains replaced in Shelby bottoms. Permanent bathrooms and second welcome center would be great at Cornelia or donelson side	Park Facility Improvements, Park Amenity Development, Bathroom Infrastructure
People drive too fast on streets through parks. Parks should be located and designed to encourage people to walk and bike to them.	Park Traffic Safety, Park Safety and Security, Pedestrian Infrastructure
Please renovate Riverfront, 1st Ave, Gay Street area. Cities like DC and NYC have amazing greenways along water ways and ours is just dangerous. We need more greenways and green spaces.	Riverfront Development, Trail and Greenway Development, Greenway Development
Finding programs online is exceptionally difficult. I know there are opportunities out there that we miss. It feels ridiculously ooutdated, but I feel like a catalog of Parks and Rec options would be incredibly helpful.	Online Information Accessibility, Park Program Discoverability, Park Program Discovery
Golf courses are closed on certain days, why do that, it's golfing season, hire more people. Also courses have started closing at 5 pm, Metro use to stay open till dark, allowing for people who work to play 9 holes after work. Looks like a lot of missed revenue, by closing on certain days and early every day. Metro went up on rates this year but offer a lot less, membership rates are crazy…I'll join Hermitage next year	Park Facility Hours, Golf Course Operations
Please fix Charlotte Park's tennis courts. If lights and pickleball lines could be included, that would be even better! Thank you!	Pickleball Court Addition, Tennis Court Renovation
Please place the rental e-bikes back in the parks, especially at Shelby by the Nature Center trailhead. I talked to so many people who used them that said they otherwise would not be able to physically reach areas of the greenway. Adults were learning and re-learning how to ride bicycles there. And it was the perfect way for neighborhood folks to access e-bikes for trips downtown. I am aware there were concerns about bikes traveling quickly on the greenways, however the fast sport bikers cause more of a safety problem for walkers.	E-Bike Park Access
Please please restore the tenniss courts, add pickleball courts and start doing events at England park!!! There are so many residents who would benefit and use that space more often to create community	sm_neutral, Tennis Court Restoration
I would love to have better bathroom facilities in our more popular areas like trailheads and parks.	Park Bathroom Facilities
I think as an employee of Metro parks and what I seen at other facilities there could be a bit more hands on with the school programs and more accessible playgrounds	School Program Integration

The skatepark at Two Rivers is great but aging. It needs upgrading, and a great start would be to destroy the pool and replace it with a smaller, better pool. It was a terrible design to begin with, and when the tile and coping were replaced the pool was virtually ruined. Another easy addition would be a full pipe. Concrete would be great—they can be purchased and trucked in, but old milk production silos set on their sides with their ends cut off would work too. 14' diameter or more would be ideal. The large flowbowl is great, don't mess with it. Smaller spots scattered around the city would be good. At existing parks, if there is a large drainage ditch, cover it with concrete and *boom* you have a skate spot. The pump track is great! ALSO! More about the Mississippian/Moundbuilder indians. It was an entire civilization with several unique features throughout Nashville; Nashvillians need to know more about their city's original residents.	Cultural Heritage Interpretation, Local History Education, Skatepark Infrastructure
We love all of the parks we have frequented and are impressed with the facilities and support.	
More Greenway connections More benches along green n	Park Seating, Trail and Greenway Development, Greenway Development
Maybe locations have facilities or amenities, but are in dire need of renovation or upkeep (the Lock Two park for example).	Park Maintenance and Infrastructure, Park Facility Maintenance
Maplewood HS baseball plays at Parkwood. It is a disgrace. One of the poorest, most disenfranchised student populations has to play, as their HOME field, at a run down, overgrown, delapedated facility. The dugouts doen't even have roofs! This neighborhood, and this team deserves so much better. I can't imagine how they feel when teams come to play at Maplewood's home field, and how Maplewood players feel when they see other teams' home fields. The condition of this park is below bad. It shows absolute neglect of a public park and disdain of those who use it. PLEASE put some time and attention toward this park.	Sports Field Maintenance, Park Facility Maintenance, Community Equity, Trail and Greenway Development
Bicycles should be allowed on some off paver trails in Shelby Park greenway, especially Cornelia Fort trail which had been an old road to begin with. The mowers do more damage to the trails than bicycles would. Most bicyclist will use the paved trails anyway but some of us do like to get off the beaten path. Who makes those restrictions?	Bicycle Trail Regulations, Trail Access, Trail and Greenway Development
It can be difficult to get to a greenway from the center of East Nashville, between the river and Shelby, as there is not very safe or direct pedestrian routes and the trailheads are relatively far to access without driving.	Pedestrian Infrastructure, Trail and Greenway Development, Greenway Development
My number one parks priority is getting the new Kirkpatrick Park included in the Envision Cayce program up and running. The Cayce chdren have been without a walkable park for over a decade. They gave up their park to allow the Kirkpatrick Park apartments to kick off the process and allow a no-displacement model for the Envision Cayce project. However, that was done with the promise of a large central park to be built from the Kirkpatrick Community Center down to S 5th St. That promise seems to at worst have been indefinetely postponed, but it seems more like the City and the Parks department intend to outright break that promise with each passing day.	Urban Redevelopment, Community Park Development, Park Amenity Development
Shelby park would be perfect for outdoor exercise equipment and a splash pad	Park Exercise Facilities, Water Play Areas
Build a dedicated pickleball facility conducive to weeke development tournaments and paid leagues	
I would love for teens to have more of a presence at parks. I feel like I see young families and older folks but very rarely any teens taking agency or ownership of the park spaces. I'd like to see more teen programming like Studio NPL does. Maybe youth can use greenways and bike ways to get to their favorite parks safely.	Teen Park Programming
The needs of active seniors walking, hiking, bird watching, etc are not met	Senior Park Activities
we need more water facilities. More splash pads and outdoor pools. would love to see a splash pad at Cornelia Air Park. so much space but the summers are so hot out there. A water feature would be incredible.	Water Play Facilities, Park Amenity Expansion, Splash Pad Installation, Water Recreation
Restrooms. Most parks only have portable toilets. Restrooms are needed - especially at the Cornelia Fort Airpark.	Park Bathroom Facilities
The grounds crw who maintain the greenways, especially after storms drop debris everywhere, as AMAZING. The routes are always cleared in a speey manner. Thank you!	Greenway Maintenance
It's SO nice to have greenways and trails and art classes available to the public for free (or at a low cost)! More walkability (sidewalks) are needed!!!!	Community Program Affordability, Park Accessibility and Equity, Walkability Infrastructure
Tennis court resurfacing, please! And in Green Hills, we need our park to be a place for community gathering, more programming, and restrooms and and and eatery (similar to Sevier Park).	Tennis Court Maintenance, Community Park Development
Would like affordable swim classes for under 3 years old.	Swimming Lesson Affordability, Community Pool and Swimming
I like the availability of metro parks but some parks don't seem to get the attention of others. Charlotte Park has been without a shelter for years after it was torn down. The basketball court was decreased in size and goals removed. The tennis courts have been chained and locked for years. The T-ball field has been turned into a dog park. The wet weather stream areas have been allowed to overgrow. The playground is old and needs updated and expanded. A pump track or skatepark would be a nice addition.	Park Facility Upgrades, Park Maintenance and Infrastructure
Centennial Park is marvelous and the jewel in the crown of our parks. I would hate to see a New Year's Eve Bash located there as has been proposed from time to time. It would be so destructive and it is close to the senior tower, Parthenon Pavilion, and residences. The Fannie Mae Dees Park is beautiful, tree-filled, and the new playground is wonderful. Of course the dragon is spectacular and beloved. The community uses every aspect of it every day. It would be such a community asset if Parks could purchase The Ruby event space on that block for a community center.	Park Preservation, Community Space Development, Park Amenity Development, Park Amenities
More wildflowers at ravenwood park	Park Landscaping
Would love to focus on connectivity and eco development opportunities along the spaces; safety key too and collaboration across sectors to make it happen!	Eco Development, Park Safety and Security, Park Connectivity
Very thankful for greenways - they are fantastic!	Trail and Greenway Development, Greenway Development
I love Nashville's greenways, and going forward, they need to focus on connecting people to places. A greenway between neighborhoods or to a coffee shop is WAY more useful than a dead-end loop. Greenways are transportation for people walking or running or rolling, and they are great! More of them in more useful places would be awesome!	Trail and Greenway Development, Transportation Infrastructure, Greenway Development

The administration, from the director to the community center staff, need to stop being so scared of losing their jobs and pensions and start acting like people dedicated to the needs of the citizens. Citizens are treated like “problems” whose concerns are interpreted as the cause of the feeling of being “unsafe” without any articulated reason or demonstrated action by community center patrons. The administration of the Sevier Park, Coleman, and especially McCabe should be fired. Staff who consider citizens as enemies should replace the ones antagonistic to community center users. DEI seems to be the cause of the weakness and corruption of the staff in the centers I mentioned. If you want to hear personal testimony of the abuse I have suffered from the community center staff I would be happy to meet anyone who is not complicit in the pervasive staff abuse and dishonesty. Michael Poindexter at mpoindexter@comcast.net or 615-397-7092.	Staff Performance, Community Center Facilities
It would be great for there to be more "adult lessons/tips" for sports lessons that aren't for just kids. A lot of the programming that is "for new learners" will be for kids. Ex: Ford Ice Center has hockey lessons for kids, but adults it is unorganized.	Adult Sports Programming
Desperately need more availability for youth sports programs	Youth Sports Programming
The suburban parks like Shelby, Warner Parks, Beaman, McCabe are all in great shape and activated. The urban parks such as Hadley, Ted Rhodes, Sevier, E.S. Rose, Fort Negley, Reservoir, Morgan, West Riverfront, and Wasioto Parks all need attention and activation. They all need more staff, restrooms, after-school programming, community programming, safety increases, and a larger footprint by extending activation into the surrounding neighborhoods. Specifically, downtown parks have been barely there. The activation at Church Street park is a good start - there needs to be a steady presence of staff/safety as well as programming for the community. How does Metro Parks plan to put the needed amount of funding and attention into these urban and downtown parks?	Community Programming, Park Activation, Urban Park Development
There are no Nature Centers on the South East side of the city so I always have to travel fairly far to any Nature Center! There are multiple parks on the east side of town that could benefit from a Nature Center including Mill Ridge park or Ravenwood. There is a lot of really awesome plant and wild life out there. I also think the areas around briley/murphreesboro pike could really benefit having a community center. There are a lot of familes in the area and many could use the services of a community center. Right now the closest is either Coleman or Smith springs and those can be fairly long drives especially with traffic. It would be great to have an option people could bike or walk to.	Community Center Facilities
The fitness equipment in the East Park Community Center could use some upgrading - specifically some of the fitness machines. The Madison Community Center fitness center could also benefit from more plates and dumbbells.	Fitness Equipment Upgrades
There needs to be more trash can that don't allow animals or people to open them up and pick things out of once they are placed in the trash.	Trash Can Design
It would be great to have trash cans along the I-440 greenway (there is only one located by the Metro Parks building) and it would be great to have more than 1 trash can on the McCabe greenway and potentially one additional water fountain (including dog fountain) on the other side of the McCabe greenway than the one by the baseball fields.	Waste Management, Greenway Amenities, Greenway Development
All community centers need a yoga and meditation based class offered at least once in the morning and once in eveng daily.	Community Center Facilities
More investment should be made in Frederick Douglass Park to improve facilities. Another playground, picnic shelter/pavilions, and a dog park are needed. We need more accessible greenways, especially in urban areas.	Park Facility Improvements, Greenway Development, Park Amenity Development, Trail and Greenway Development
Overall, they do a wonderful job! One main complaint: maintenance continues to damage and kill trees with weed eaters. A few weeds around the base of the tree are better than killing the trees. Countless trees planted by volunteers and others have been damaged. It's frustrating to spend time planting and watering new trees only to have maintenance damage them.	Park Maintenance Practices
Extend the hours!	Park Operating Hours
Warner parks should be accessible via WeGo. This is one of the city’s best assets, but it’s unavailable for people who aren’t able to drive. Parks like Centennial and Walk of Fame should have more landscaping (trees, elevation changes, etc.) rather than large empty spaces that are only used a few times a year for events.	Park Landscaping
Safety and Maintenance is not adequate at the parks in my area. Overnight car camping and illegal activity happen at the marrowbone pull off location at Beaman park regularly. And the effort to put signs up to say not to do it makes the community laugh at the parks department effort. Design spaces to be used with intention. Signage is a lazy way to say you did something. It’s hard to enjoy nature when disrespecting people easily takeover a space and use it inappropriately. Spend more money on operations and maintenance and less on building things that can not be maintained or protected properly.	Park Safety and Security
Mountain bike trails for average risers, bakers grove at long hunter is perfect but you closed it to bikes and mountain bikers built it	Mountain Bike Trail Access
There are no public green spaces in the SoBro/ Rutledge Hill area. City needs to buy some space before it is all developed.	Urban Green Space Preservation, Urban Green Space Development
Pavilion at Centennial park should be opened or tear it down! I understand why it is closed, but it makes the park look really bad. I have to pass it to enter the park Also pave a path entering the park from the corner of 28th Ave. This path is well worn and the roots are a trip hazard	Park Infrastructure Improvements
I'd love to see a more walkable city overall!	Urban Walkability
Keep the water fountains working and maintained better please. Do better at keeping motorized vehicles off the greenway.	Park Safety and Security, Greenway Maintenance
I'd really like to see some updates regarding the Opry Mills connector greenway.	Trail and Greenway Development, Greenway Development
Ravenwood is awesome but the toilets are disgusting. An appropriate upgrade is suggested. It’s a disincentive to return.	Park Maintenance and Infrastructure, Park Facility Maintenance

Make the gravel trails at Shelby accessible to bikes. They are wider and less traveled; it would help with traffic on the greenways.	Trail Accessibility
Gated/fenced, splash pad at Charlotte park. So many young families with babies and toddlers have moved into this neighborhood. Expand the shelter house thing at Charlotte park to include an overhang or covered concrete floor where picnic tables could be setup, next to playground.	Park Maintenance and Infrastructure, Park Facility Upgrades
Some of the facilities (like Charlotte park) are in need of major repair.	Park Maintenance and Infrastructure
Please build the Peeler Park Pedestrian path!	Trail Development, Park Maintenance and Infrastructure
We need to make sure that parks like Fort Negley, Sevier Park, Fair Park are connected to the surrounding neighborhoods with connector greenways and walkable/bikable streets.	Urban Mobility
I live in an island that is not really walkable to any parks in Inglewood/east Nashville. Would love greenways connecting us to parks (any space along railroad tracks?) or a pocket park so we don't have to drive or cross major roads to access one.	Neighborhood Park Access, Trail and Greenway Development, Greenway Development
The most used greenway trails need to be widened or to have lanes marked (left, passing, right). Some walkers take up more than half the width of the trail by walking multiple people wide, which would be fine if they dropped back to fewer people abreast when the space was crowded or someone was passing. I think they must not realize that for pedestrians of all paces and cyclists to share the space, people need room to pass in the middle, which doesn't work when they take up 2/3 of the width of the greenway. It will be great when it is possible to go from Shelby bottoms all the way to peeler park on greenway trails without cars.	Trail and Greenway Development, Trail Etiquette, Greenway Development
Charlotte Park amenities are in need of attention. The shelter was removed and needs to be replaced. The accessible swing broke and needs to be replaced. We need additional playground equipment to meet the growth in the neighborhood. I have loved taking advantage of the ceramics classes at the CAC. However, the pottery offerings are dwindling in times and class offerings.	Park Amenity Development, Community Programming, Park Amenities
Please do not bulldoze the beautiful and natural trees and plants that line the northern portion of Percy Warner Park. I visit this area regularly for its natural beauty on my mountain bike and have seen countless wildlife there including enormous birds of prey and owls, turtles, and deer. There are plenty of places to drive and park in Nashville but not many places as special as Percy Warner. Do what is right and protect this treasure of Nashville!	Natural Habitat Preservation
It seems like there are no questions about teen activities or facilities. Young adults need programmed activities and mentorship. They need the ability to learn autonomy and adventure. Offering more opportunities to teenagers to get involved can help support park programming, a youth economy, and facilitate youth buy-in for future adults using the space. They'll need safe passage to the parks and community centers. Greenways could be fantastic connectors between parks, community centers, and schools or libraries. This type of infrastructure could save the city from having to develop youth ways along neighborhood streets-if youth can get interesting places by walking or rolling. Youth ownership is crucial for successful parks.	Family and Child Recreation, Park Connectivity, Youth Programming
We love using the greenways and would love to see the continued expansion of those, especially in the Donelson. We would love to see more parks in Donelson. As our family grows we look forward to engaging in more park programs. We would love to enroll our daughter in sports programs including soccer, tee ball, dance, golf, swimming and more. We would also love to participate in toddler/young kid art classes.	Youth Sports Programming, Trail and Greenway Development, Greenway Development
Much appreciation for the greenways! Proper wayfinding and signage is DESPERATELY needed. And please either commit to functional, working water fountains, or tear them out. Non-functional/broken fountains are everywhere in this damn town. Bring back Bcycle!	Greenway Signage, Park Amenity Development, Park Amenities, Trail and Greenway Development
Here at the Red Caboose Park, we have recently had issues with gun violence and people experiencing homelessness. It's challenging, I know, but parks are places we want to take our children for safe outdoor recreation. I took my toddler and young child to this park weekly, or more frequently, prior to the gun violence. I don't feel safe taking him really anymore. Plus, he is a bit too old for that playground. Still, I would love to be able to share the outdoors with him him and feel safe doing so.	Park Accessibility and Equity, Park Safety and Security
You have to fix the bridge on the stones river greenway, and put a camera or something to keep it from being destroyed again and again!	Trail and Greenway Development, Greenway Development
Please regulate e-bikes and scooters. They are very dangerous!	Park Safety and Security, Greenway Safety
We are SO fortunate in Nashville to have such great and so many parks	Park Appreciation
Pottery class supply does not meet demand. Programming is not at facilities in close proximity to me. Lights at Whitsett Park would formalize the use of green space as soccer field.	Park Facility Improvements, Park Amenity Development, Community Programming
Greenway access is nice but can always be improved! Any future park plans should include pedestrian/mixed use pathways with bike lanes.	Mixed Use Pathways, Transportation Infrastructure, Greenway Development, Trail and Greenway Development
Let's not have them overrun by homeless persons.	Park Safety and Security
The west side needs a pool. And love. I also want to learn more about how Parks will balance natural resources that are under assault with the rising expenses for open space lands. Deals keep falling apart, if they even begin at all.	sm_negative, Recreational Facilities
In many cases, parks are the safest way to get from one point to another by walking or biking, but there are many cases where this is unnecessarily inconvenient. We should design parks to be arrived at on foot or by bike, not just cars.	Active Transportation Infrastructure, Park Accessibility and Equity
There are several built facilities that have only very limited access or activation, including Fort Nashborough, certain certain nature centers, etc. Also, lap swimming is very limited, even for Sportsplex members.	Recreational Programming
Would love to see more disc golf courses throughout the county, both 18 hole championship courses and shorter 9-hole courses within walking distance of higher density areas (apartment complexes, etc).	Disc Golf Course Development

The South Nashville region (Nippers Corner, Crieve Hall, Whispering Hills) is incredibly underserved. As a mom with two young kids, I need greenways that are paved for my stroller! I usually walk the same stretch of Seven Mile Creek Greenway multiple times in order to get my mileage in. I also love the disc golf baskets at Green Hills Park. It's not an official course, but fun and informal for my kids. Would love to see more disc golf-related programming. Lastly, Splash Pads would be incredible. Last time I tried to go to a splash pad in Metro Nashville, it wasn't working.	Family and Child Recreation, Regional Park Equity, Recreational Programming
Our Crieve Hall/ Tusculum neighborhoods do not have easy access to these things in our are	Neighborhood Park Access
Please add more pickleball courts. Upgrades to playgrounds have been great!	sm_positive, Playground Upgrades
The dirt park at Shelby was recently renovated and it actually got worse than it was before. If you are going to update facilities don't have ass it. Do it right and invest the money to go big vs. small changes that end up taking a long time.	Facility Renovation Quality
Please repair Stones River Greenway boardwalk!!!	Trail Maintenance
More greenways!	Dog Park Management, Dog Park Development, Greenway Development, Trail and Greenway Development
The fitness schedule at McCabe is not accurate on Parks website. Very frustrating. We need more dog parks. Please aquire more open land when available - expand Beaman Park - land next to it is available.	Dog Park Management, sm_negative, Park Land and Acquisition
Adding more equipment to the gyms would be great! More treadmills and a stair climber specifically!	Fitness Equipment Upgrades
Bells Bend built great mountain bike trails through the woods and then failed to maintain them. Trees fell across the trails etc. I've complained to the Park manager and she has no interest in maintaining the trails. I emailed a parks employee and got no response.	Park Management Communication, Trail Maintenance
More public art and beautification.	Public Art and Beautification
Greenways should not be a Parks Department responsibility. Greenways are walking and biking trails that, if better and more effectively connected to one another could provide crucial pedestrian access across the city. Greenways refusal to be an NDOT department is actively killing pedestrians and preventing Nashville from being connected to one another. New park amenities are great; what do they matter if you can't get to them? Increasing park programs is wonderful; who cares if I can get hit by a car on my way there? Vision Zero, BPAC, and Greenways should be working together. Not siloed. This will allow for bikeshare expansion in Nashville. With our hilly landscape, ebikes make it more accessible for riders to traverse the whole of out city. The fact that we do not have a single greenway system that is connected (Boyd Greenway is a loop to nowhere.) almost feels intentional and it should be rectified. There's no reason we cannot have a FULLY connected greenway system that keeps pedestrians and bikers off the roads, throughout Davidson County.	Trail and Greenway Development, Transportation Infrastructure, Greenway Development
I would love for parks to try to activate with cafes. From a capital perspective the linking of parks via greenways and use as legitimate transportation route options is a priority. I also have started to see, but would strongly encourage the continued prioritization of, the planting of more native wetland/grassland/ecosystem rewilding on Metro golf courses. I love to play golf on our courses, but there are often many wide open areas that are not a part of specific areas of play that could be re-wilded and used to minimize ecosystem disruption, carbon sinks, water and and air purification etc.	Park Activation, Park Connectivity, Trail and Greenway Development, Ecosystem Restoration
I live in Buena Vista/ Buchanan Arts District and this neighborhood is sorely underserved in the parks department - this isn't just an issue for my household, but for the community at large. There are so many children under the age of 18 in this part of Nashville with no Metro Park to speak of. We have Elizabeth Park which is fine, but it's not enough. Would love to see more investment in this part of Nashville!	Family and Child Recreation, Community Park Needs, Neighborhood Park Investment
Living in West Meade, we have no recreational facilities that doesn't require driving. Depending on where one lives, you might be able to pplay tennis	Neighborhood Recreational Access
We love Coleman Center and the staff is truly outstanding and all they do there. The fitness room which is utilized by many ages and ethnicities has equipment that is not updated, often broken and just not a decent standard for fitness. Thank you!	Fitness Facility Equipment Maintenance
hi	
Please add a restroom to Cornelia Fort.	Facility Amenities, Park Facility Amenities
N/a	
Looking forward to seeing what activities/lessons/programs will be available at our new Old Hickory Village Community Center!	Community Center Facilities
I wish more of the park, facilities, and amenities were available without needing to get into a car. We are in a dead zone with a toddler, which means we'd have to walk 20-30 minutes just to get to a park.	Park Accessibility and Equity, Neighborhood Park Distribution
Accessing the Mill Creek Greenway from my neighborhood is difficult. I have to cross Culbertson Rd and then walk down a rocky path and then over a bridge to access the Greenway. There are only 3 parking spots at Mill Creek Greenway off Old Hickory.	Parking Infrastructure, Trail and Greenway Development, Greenway Development
We have some decent baseball fields that need some love - eg Cleveland Park, McFerrin Park.	Sports Field Maintenance, Sports Facility Maintenance
Nashville Parks really only need two simple things: benches to sit/rest/ponder and functioning water fountains. These are fundamental and we're doing a terrible job offering them.	Park Basic Amenities
The quality of amenities needs to be improved. New facilities get lots of accolade and attention, but maintenance and funding are desperately needed in places that already exist. Restrooms and lobby space in facilities such as the Parthenon are not adequate. Porta potties at Shelby are so overused and lacking paper. Fitness equipment has "broken" signs at East Park. Parking is not adequate at Centennial Park and Shelby Park including train trestle area and Cornelia Fort Airpark. Parking at Centennial is absolutely unsafe on weekends, with cars blocking emergency access, parking in grass, blocking walking path, etc. Parks staff have dangerous offices across facilities with low air quality, radon, etc.	Park Infrastructure Quality, Parking Management, Park Facility Maintenance, Park Maintenance and Infrastructure
The improvements to Coleman Park are GREAT, but are overshadowed by the constant presence of homeless people in the park and surrounding areas	Park Safety Concerns, Park Safety and Security
Bathrooms- not nearly enough and they are not maintained. The ports potties in place are unusable.	Restroom Facility Maintenance, Restroom Facilities

We need more inclusive playgrounds	Family and Child Recreation, Playground Development
My biggest need is public restrooms and water fountains!	Park Basic Amenities, Public Restroom Availability
Honestly the water fountain situation is just abysmal. Half of them don't work, and the placement (I.e. around McCabe) is just odd. They are all clustered on one side of the park and not spread out. It is very difficult to be a distance runner in Nashville.	Water Fountain Infrastructure
Full development of the greenway system is my highest priority for parks	Trail and Greenway Development, Greenway Development
Scheduling of athletics fields is severely lacking. The process is extremely manual. The upkeep of those fields is severely lacking for parks that do not get as much attention.	
We love using the parks and just wish there were more larger parks closer to Hermitage. It seems the West side has Warner parks, Beaman, etc. and we have smaller chunks of land and less pavillions/resources available. This area is also less walkable in general so providing more green and walkable areas would be fantastic.	Walkable Green Spaces, Regional Park Distribution
There should be a small playground at the new Donelson library. More greenways please!	Playground Development, Trail and Greenway Development, Greenway Development
Nashville has some wonderful amenities and programs available through Metro Parks but the website/lack of web presence makes it difficult to find out how to use them. For ex, there are few or no photos of the Easley Community Center (also it appears that this is actually called the Rose Community Center) and it wouldn't be clear to someone doing a web search that there is a pool there. Info about locker rooms, pool passes, etc is difficult to find. It is similarly difficult to find info about how to use Sportsplex- I took swim and skating lessons there as a kid so I know that there must be options to do that there, but it wasn't intuitive to find that info- the landing page for Sportsplex doesnt mention swim classes.	Park Information Accessibility, Park Website Information
Upkeep of existing playground equipment and making sure that the space is safe for children to play. Community spaces are good for the whole community but playgrounds need to be safe for young children and free of adults and teens in those spaces.	Playground Safety
air park should have pickleball, splash pad, and more play ground waste of space to not have more there.	Park Amenity Development, Park Facility Diversification
na	
I recently moved from Buena Vista/Germantown to Woodbine. My time in parks has significantly decreased in that year. I usually have to drive to a park, whether it's a stop through Morgan Park while working in Germantown, or Centennial or Shelby Bottoms for a walk. I would ride my bike to Morgan Park and the connected Greenway. In my year in woodbine, I went to William Coleman Park 1-2 times. I went in the evening and didn't feel great about the homeless people off in a dark corner of the walking path. Taking this survey, I also realized I have never taken a class through the parks dept or looked at those options. I'd love a nature class and will have to check those out!	Park Safety and Security, Park Safety Concerns, Neighborhood Park Access
Really want more splash pads. The situation with the one that we paid for downtown is extremely embarassing considering the cost-to-availability and where it is located. The community centers needs to be open more often, specifically south inglewood. Love the improvements that Shelby has seen over the past few years. The parks maintenance/landscaping guys are the best employees at the city. The pride in the work above and beyond what is just "necessary" really shows through.	Park Maintenance Quality, Splash Pad Development, Community Center Hours, Community Center Facilities, Park Maintenance and Infrastructure, Splash Pad Expansion
Connectivity! I feel like we have high quality spaces and facilities but they can be difficult to get to because they're so scattered around the city. More infill and connectivity between them is ideal.	Park Connectivity
General updates to Coleman: better/more biker rack(s) Benches and lights Pavilion More trash bins. Sidewalk restoration as Patches on the walking track are quite rough. Erosion Control above the new playground. Landscaping, because it's rather desolate. ADA access from Nolensville Pike and Thompson Lane.	Park Facility Improvements, Park Amenity Development
We need a dog park in south Inglewood! I added to the map but we have barely any sidewalks, new builds with no yards, construction on the roads and the closest dog park right at the bottom of east Nashville. People are event renting out their yards to provide other dog owners with a safe space to run their pups around! There is plenty of space in south Inglewood park and already two playgrounds - which is great. Let's build a safe space for dogs to run free!	Dog Park Development, Dog Park Management
Parks close to early. People working a job don't have time to enjoy our facilities and parks because they close soon after we get off work and get the kids fed.	Park Operating Hours
There needs to be more access to clean bathroom facilities	Public Restroom Availability, Restroom Facility Access
Yes, At the recreation center where the ice rink center is the young employees are not very helpful.They love to talk on their cell phones and are not very helpful to the folks that need to sign up for a class. Diffficult to sign up for a class and nobody helps. Interested in art classes but having trouble signing up. It seems that the students that are in the class sign up every session first and no room for new people to enroll. I have spoken to Steve Odom and he was not helpful at all.	Recreation Center Customer Service, sm_negative
With regard to Centennial park in particular, it has become overrun with homeless people. We used to love taking the ffamily to that park / playground but it now seems unsafe. My oldest son runs a lot in that park and I worry about his sasafety	Park Safety and Security, Park Safety Concerns
There is simply not enough green space in downtown Nashville!!!! Efforts must be made to protect some open space and to connect those we do have to create opportunities to walk between parks on greenways, connect existing greenways etc. Help us leave our cars at home!	Park Connectivity, Urban Green Space, Urban Green Space Preservation, Trail and Greenway Development

There was not one thing listed about BATHROOMS! How could you leave BATHROOMS off this list? Centennial park does not have 1 Public Restroom! Cornelia Fort does not have 1 Public Restroom. And Shelby has 1 restroom facility at the beginning of the greenway! These are the parks I consistently use, but imagine this is a problem at every other park. Imagine if you built something like you would find in a Truckstop and staff it from 6am to 7pm. That could be out sourced to a non-profit, to provide employment to homeless or face employment barriers. Showers could be subsidized to homeless with a small fee for a shower. Europe and Latin America all charge for use of facilities. It is expected and as a tourist I expect it. The facilities could not be built with cheap materials. It would have to be tile, stone and concrete, with good ventilation and robust sewer connections, robust toilets, robust sinks. I have seen stainless toilets used in public facilities in New Orleans. While not ideal, they are easy to maintain and clean. By having these staffed you do not have the surprise of broken sinks, faucets, toilets, doors, shower etc. Small fees would pay salaries, supplies and maintenance and might cover the cost of building new facilities. I am flabbergasted that restrooms did not make this list.	Public Restroom Infrastructure, Public Facility Management, Restroom Facility Development
The Charlotte Park tennis court has been unusable since 2020. This is a very popular park with a lot of people and I would love to see that repaired and expanded. I'd also like to see a greater investment in playgrounds. And more water fountains at people and dogs can access while in the park during summer	Playground Investment, Playground Development, sm_negative
Have a hill course with transportation to the top of the hill. Conveyer belt type transportation. In summer, a water slide on artificial grass. In winter an ice or snow slide with inner tubes	Park Amenity Development, Recreational Innovation
Please make connecting greenways a priority!	Trail and Greenway Development, Greenway Development
More splash pads and expanded splash pad hours please! There is a huge need in our city for fun, safe outdoor activities for kids.	Family and Child Recreation, Children's Recreation, Splash Pad Expansion
I wish we didn't have to drive across town to access a playground or ride our bike on a greenway. It would be nice to have a park in walking distance. And there are not enough swimming pools in Nashville. When trying to teach our children this life skill, I was left searching for where to begin or where to go for classes or even access to a pool. We need more green spaces, playgrounds, and pools/spash pads in our area!	Community Pool and Swimming, Park Accessibility and Equity
I enjoy what is offered already. I dislike the fact that I have to drive to access anything, especially consider how relatively close I am to so many major greenways.	Park Access Convenience
Public pool is needed. Improvements to Cleveland Park pool would be a start.	Splash Pad Installation, Public Pool Improvement
Splash pads in east Nashville please!	Splash Pad Expansion
We need more greenways and unpaved trails in the city, especially bordeaux!	Trail Development, Trail and Greenway Development, Greenway Development
I don't feel that the parks in 37218 receive the same funding and attention as parks in other zip codes	Park Funding Equity
Mr. Robert at Shelby CC is doing a FANTASTIC JOB and is an asset to the community! We reallyyyyyyy need splash pads to be working and accessible. There is a lack of safe and accessible water activities for young families in the city and these would fill that void.	Water Recreation, Splash Pad Availability, Splash Pad Accessibility
The Watkins Pump Track is a great asset. Do more.	Park Amenity Development, Recreational Infrastructure
With the new transit tax in place and part of that being used to cover sidewalk expansion, it would be great to see more connectivity between neighborhoods and parks/greenways. I live within walking distance of a greenway but unfortunately have no way to walk there safely as there is no sidewalk and the roads are extremely busy.	Sidewalk Infrastructure, Neighborhood Connectivity
We absolutely love Isaac Litton Park—it's a fantastic space for families, especially those with young children. That said, it really needs a permanent restroom. The current porta-potty isn't a practical or sanitary long-term solution. An outdoor water bottle refill station would also be a great addition and promote healthy, active use of the park. We'd also love to see improvements to the greenway. As the East Bank development and Oracle campus come online, it's likely more people will use the greenway to commute from Inglewood to downtown. Right now, there are frequent traffic jams between pedestrians and cyclists. A bidirectional, divided path—similar to Central Park's in Manhattan—would make a huge difference in safety and usability for everyone. Finally, we're grateful for all our parks, especially in this part of the city. Shelby Bottoms is a gem, but trash pickup could be more consistent. While we know it's not only the city's responsibility to keep the park clean, a more robust trash management plan would help preserve its natural beauty for all to enjoy. Thanks for all you do to support our parks. We're proud to call Inglewood home and appreciate continued investment in these important public spaces.	Greenway Safety, Park Facility Improvements, Park Safety and Security, Park Amenity Development
It is essential to start thinking about connectivity to include both greenways and blueways. The Shelby Park boat ramp needs repair.	Facility Repair, Park Infrastructure Repair, Greenway Development, Trail and Greenway Development
Water fountains rarely work, especially in Shelby Park. Please add more bike fixing stations.	Bike Infrastructure, Park Amenity Development, Park Maintenance and Infrastructure
I would appreciate investment in actual bathroom facilities (not just port a potties) in more places along Shelby Bottoms Park & Greenway. For instance, permanent investment in toilets at the Cornelia Fort Airpark is a no-brainer and should be prioritized.	Permanent Restroom Facilities, Permanent Bathroom Facilities
Greenway needs to be completed to better connect neighborhoods. Security cameras, better lighting or other security presence in remote areas need to be provided. Parks need to be provided in areas that are underserved now. Accessible parks for children and others with disabilities need to be strategically located. Small and dog parks should be provided and maintained with adequate water sources.	Park Accessibility and Equity, Park Safety and Security, Trail and Greenway Development
The Donelson- Hermitage area could use a community center. I'd love to have an indoor pool and programs that benefit the older population.	Senior Recreation Programs, Senior Recreation, Community Center Facilities
I don't feel safe bringing my young kids to any Davidson county parks. Crime is rampant. Incredible unsafe all around.	Park Safety and Security, Park Safety Concerns
Need for more open spaces -for our future. Experience of nature in natural form. Also for our health thru trees etc.	Nature Experience, Green Space Preservation

Golf courses are an important source of revenue to the parks and are used by a large majority of residence. they are not given use priority nor maintainence priority by the Board. They are a revenue maker !!!! Much monies are lost because they are closed at inappropriate times. Too much emphasis on biking trails on the streets which is a hazard to bikers as well as drivers on the busy streets, especially on high travelled road ways and highways !! Also, bikers do not obey the road signs thus causing danger to themselves and drivers.	Golf Course Management, Cycling Infrastructure, Recreational Facilities, Trail Development
The parks need way more benches! I use the greenways to keep me active but it's a hardship finding a place to rest. Further, there need to be trashcans — and maintenance support to keep them from overflowing.	Waste Management, Park Seating
Connect greenways! Stones River to Peeler!!!	Trail and Greenway Development, Greenway Development
As West Park is in the process of rebuilding the gymnasium and community center space the opportunity to implement a Squash program is here! I would like to talk to your team about the possibility of partnering with two established Squash programs to bring this sport to the people of Nashville. If the Metro Parks and Recreation Board can include court space in the new West Park building. We already have coaches, and ready to play children - we just need the courts to play on. Lisa Williams TullisWilliams@gmail.com	Community Program Partnership, Community Program Expansion
We need to ensure we continue to grow our park systems in a way that can help us be climate-resilient and provide clean water to the community. We should be banking land and growing our natural areas to protect crucial greenspace in the city as well as creating small pocket parks.	Climate Resilience, Green Space Preservation
Nashville has excellent nature parks, but for resiliency and for recreation, existing parks need to be expanded as land becomes available. With climate change looming as an existential threat and with a human-caused mass extinction well underway, Nashville must conserve all the forested land it possibly can for the cooling effect, to absorb and store carbon, and to support biodiversity. Likewise, Nashville has excellent greenways but needs many more miles of greenway trails for transportation, recreation, and conservation. To reach its full potential, the city must be a place where a resident who so chooses can live without a car. An expanded greenway system, in combination with enhanced transit, can help Nashville become such a place.	sm_neutral, Trail and Greenway Development
Yes….I pay thousands of dollars a year to play Golf on metro course, have a yearly membership and our Parks Dept Head makes a point of spending the majority of the money made, millions, on other things leaving a Bare minimum to operate and maintain the very thing that makes the most money! YET…YOU DON'T EVEN MENTION GOLF COURSES IN THIS SURVEY.! I am SICK of the neglect, and the current quote Heads of the Park System, the only good thing about this is I plan to make it my goal in life to see you Gone! I once worked for Metro, it's a shame you are making a laughingstock out of it!	Park Management Criticism, Golf Course Funding
PLEASE, please, please replace the portable restrooms around Shelby Park with more permanent structures and/or add proper plumbing/water access for personal hygiene. Thank you!	Permanent Restroom Facilities, Permanent Bathroom Facilities
They need ada bathrooms and trash cans. plenty of trash cans are needed all around nashville. more rangers or whatver they are called. I rarely hike at Beaman because of scary people.	sm_negative, Park Maintenance and Infrastructure
Wish there was more water fill stations.. with good water Shade is amazing when it's available in the summer! Free or low cost Events are incredible!	Community Programming, Community Events, Park Shade, Water Station Availability
Love all the greenways and need more connectors	Trail and Greenway Development, Greenway Development
no	
More staffing at Metro golf courses is needed.	Golf Course Staffing
My wife and I have been trying to get into the summer crafts classes (stained glass, pottery, etc.) at Centennial Park with a few friends for the past several years. Each year, we try and don't get into any of them. The problem seems to be the lack of spots and teachers. I understand that is not entirely within your control but is something that seems to be in demand and that the public would benefit from. Perhaps even having these types of classes at different locations throughout the county would help. I am glad Metro is buying large tracts of land all throughout the county for open greenspace, e.g., Lytle Park. I'm a professional ecologist, so admittedly bias but I would like to see these types of areas managed with appropriate native landscapes and habitats. There are non-profits and organizations that would jump to partner with Metro to consult on and help manage these areas. The first name that comes to mind is the Southeastern Grasslands Initiative. I know they have visited Lytle Park and showed a lot of interest in it. I grew up in Nashville and my family has been in Tennessee since 1802. I love the history of Davidson County, Middle Tennessee and our State. Two Rivers mansion, Fort Negley and Fort Nashboro are prizes. I would love to see them and our other historical sites be better funded and utilized. The new visitor's center at Fort Negley is wonderful. Let's keep investing in these sites. Let's give these sites the funds needed to become what they could and should be. These places are part of our story. Once they're gone, they're gone, and you can't get them back.	Recreation Program Availability, Green Space Preservation, Community Class Availability, Historical Site Preservation
PLEASE add a pool to Sevier Park! Either indoor, or outdoor. PLEASE! It's a big community need!	Community Pool and Swimming
WTF is Futsal. You should find out who added that. I dont think it is real. They might be trying to catfish you.	

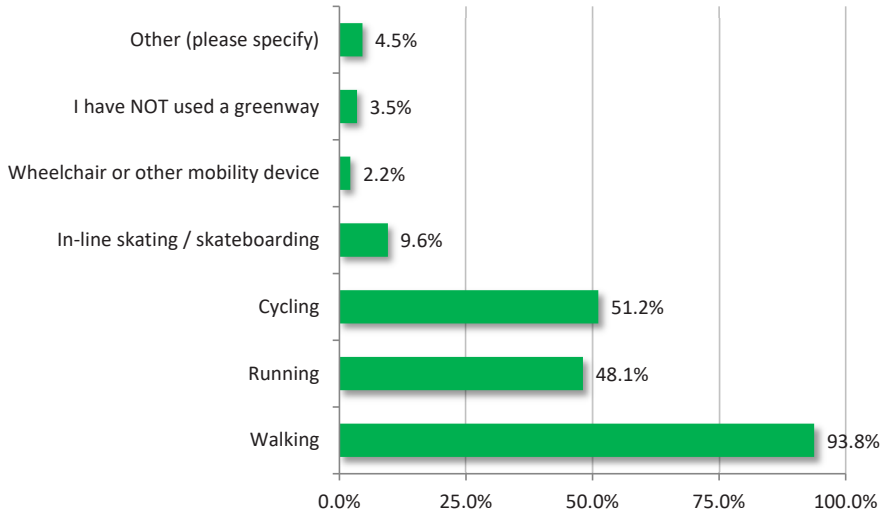
While Nashville has several golf courses, funding for course maintenance is embarrassing and staffing is limited so most cannot be open 7 days a week. The demand for tee times at all the courses far exceeds availability which means lost revenue when the course is not open. We gladly pay to play golf, but don't see an equal investment by Metro in a sport that is big in Nashville. This is an activity that can be enjoyed by all ages and is one of the only sport my partner and I enjoy together. I am particularly dismayed at the course conditions at McCabe and Ted Rhodes. McCabe has a very popular Greenway bordering it where users including me and my non-golfing friends routinely use the golf club house restroom facilities and parking lot. Golfers gladly share the space, but I don't sense the Course is regarded in the same level of esteem as the Greenways by Metro Parks. Our golf leagues at McCabe and Harpeth treat the awesome staff like family and include them in any functions we have. Our leagues also have fund raiser events to support a variety of charities in Nashville. Many Nashville newcomers join our golf leagues to meet people and develop friendships. Because of its central location, McCabe is a "melting pot" of members from all across Davidson and surrounding counties. Our golf courses are essentially community centers without walls.	Community Recreation, Golf Course Management, Recreational Facilities
More resources are desperately needed at the city's golf courses. Golf was not a choice in most of the questions on the survey. Since golf is a popular game for all ages, there must be attention given to the shape these courses are in due to neglected funding.	Golf Course Funding
McCabe Golf Course is one of the busiest courses in the state (public or private) is closed on Mondays and is short staffed both in the club house and grounds. It is a shame to have beautiful inner city grounds wasting away because there is “no money” for a public golf in this city of so many visitors.	Golf Course Operations, Golf Course Staffing
Greenway maintenance is a substantial problem and it's very frustrating.	Greenway Maintenance
Reservoir park has so much potential! However it’s a bit scary and is not kept clean	Park Safety and Security
Make Hillwood High a community center and park. Like Parmer park but with a community center attached. In the meantime, please address keeping the space clean and neat. The Hill family donated that land and their wishes should be respected.	Community Center Facilities
Shelby needs bathrooms accessible to the ball fields, playgrounds and shelters not located near the community center.	Park Accessibility and Equity
A full service driving range in Bordeaux. Repurpose the Bordeaux Hospital property to accommodate other indoor sports that can be used for tournaments. This will help stimulate that area economically. It will also give a place for place for sports programming.	Recreational Facilities
Hillwood HS track area and tennis courts need better maintenance now that the high school is closed. Many people in our neighborhood use them. The grass on the soccer field is tall and full of weeds. The trash cans are never emptied. It looks neglected. There is no playground in our neighborhood. There is plenty of room for a playground on the grounds and would be a great benefit to our neighborhood.	Playground Development
RESTROOMS! We need a maintained facility at the top of trailheads with parking lots, especially Forrest green trailhead. Not a porta potty	Permanent Restroom Facilities, Permanent Bathroom Facilities
Donelson needs a community center! There are areas of town with multiple locations available to them and we have none. The center nearest to us, hermitage (20 min drive), is lacking in facilities and community offerings. Shade coverings at Two Rivers Playgrounds Security patrols at GROW enrichment area. Both parking lot and on the trails. Two rivers mansion is under construction, but even prior to the construction they has moved away from community offerings such as movie nights, free concerts, and community festivals. The few remaining events have become pay to attend. I would like to see the site return to an accessible community space that serves the neighborhood. Pipe dream: indoor pool, splash pad, bring back community center swim lessons	Community Programming, Park Safety and Security, Community Center Facilities
Donelson needs a community center! There are areas of town with multiple locations available to them and we have none. The nearest to us, hermitage (20 min drive) is also the location most lacking in facilities and community offerings. Shade coverings at Two Rivers Playgrounds Grow Enrichment area needs security monitoring in parking lot and on the trails Pipe dreams: indoor pool, splash pad, bring back community center swim lessons Two rivers mansion is currently under construction but even prior to the construction they were hosting fewer community events such as movie nights, free concerts, etc. and the events they did host outside of the farmers market (which has now moved) were becoming more paid entry. It would be great if it could return to being a community space scince it is part of parks.	Community Programming, Park Safety and Security, Community Center Facilities
I would love to see garden beds and more native plants incorporated into Paragon Mills Park.	Park Landscape Enhancement
I would like to see more playground equipment for children with disabilities. The splash pad at the river walk park by the pedestrian bridge was the best. Why is that park closed, it’s such a waste of an awesome space.	Family and Child Recreation, Playground Development, Park Facility Utilization
I would love to see sidewalks on Davidson entering Shelby bottoms park. There are too many runners/bikers trying to share the road with a lot of car traffic	Sidewalk Infrastructure, Park Safety and Security, Pedestrian Safety
The McCabe weight room is used extensively by the community yet there are only one each for many of the light free weights and bars, the fabric on the associated benches is worn a torn. And many of the machines, such as the for legs, are missing there counter part.	Fitness Equipment Maintenance, Weight Room Facility Condition, Community Pool and Swimming
We live in the middle of the city and until very recently were over a mile from any public park or greenway access point. It shouldn’t be so hard to access green space. We should also work to connect our greenways even if it requires multiuse urban paths.	Urban Green Space Connectivity, Trail and Greenway Development, Greenway Development

More open trails. The Airplane field is purposely left unattended and so the trails are full of ticks in the spring and summer since they aren't maintained at all. This was once a glorious area and has since been overtaken by Nashville Sports League who seem to think they own that section of the park. There is always garbage in the parking lots because they are constantly full. And, SO many signs not to park in the grass, etc., which people do anyway. It's become a really unsightly thing and quite frankly, tragic. The other side of the park is always jammed packed with people so there really isn't a place to go for a low key solo walk like the area around the Airplane Field.	Park Usage Management
The former Hillwood High School is currently unused (other than law enforcement training). It feels like a great opportunity to formally create neighborhood fitness/meeting/whatever facilities with much less cost and effort.	Neighborhood Facility Repurposing
Please stay open later in summer, when it's light way later.	Park Operating Hours
Greenway connectivity is sorely needed. We have nice greenways like Richland Creek that with a few incremental miles thoughtfully planned could connect to eg. the Cumberland River, the 440 Greenway, and Warner Parks. Parks has built nearly no new greenway in the last five years other than a few atomized, developer funded pieces. We should be working between parks/greenways and NDOT to provide connected, multi-modal options that connect across our city for runners, walkers, bike commuters, etc.	Greenway Development, Trail and Greenway Development, Multi-Modal Transportation Infrastructure
Pools!!!! There are not enough community pools in Nashville. Specifically Inglewood/east Nashville. I have to drive to other areas for a pool.	
Would love to see toddler friendly or all age equipment at the cheekwood park (swings!!!) Would love to see Shelby bottoms playground updated like dragon park We need an outdoor track!	Playground Equipment Upgrades, Playground Development, Recreational Facility Expansion, Park Amenity Development
Being able to walk to the percy priest dam from the Hermitage library, there is a gap without a sidewalk at the corner of dodson Chapel and Bell Road	Pedestrian Infrastructure
Friends of Mill Ridge Park is the greatest asset the Parks Department has in the entire southeast part of the City, the fastest growing and most diverse part of the City. We need MORE amenities added to Mill Ridge Park. We need a "big kid" playground for our youth - the small basketball court is packed every day, all day. We need more amenities and activities in Mill Ridge Park.	Family and Child Recreation, sm_neutral
I am disappointed at the lack of funding for maintenance of existing parks. As I understand it, we have a deficit of over 100 million dollars in unfunded maintenance. This is something that Metro council needs to seriously address with a permanent funding source. In a city this large, with this many tourists, our parks should be fully funded by both Metro and private foundations and businesses. It's a shame to see parks overgrown and/or locked due to unfunded maintenance.	Park Maintenance Funding, Infrastructure Investment
I am so grateful to have metro parks and recreation. I would love to see more shading structures covering playground equipment. We live closest to the hermitage park and some of the equipment is already degrading even though it was redone in the early 2020s. I'd love to see more activities at the community center there as well. I'd also love a splash pad there!	Playground Shade Structures, Playground Development, Community Center Facilities
Outdoor lighted Pickleball courts or indoor with lines.	Pickleball Court Development, Recreational Facilities
We love our greenways! I wish I felt safe running on them alone as a woman, but I do run regularly with a run club. I enjoy them deeply in the safety of a group, but wish they were better monitored so I felt safe running alone.	Park Safety and Security
The boardwalk section between the dam and Kolhs has been closed for over a year. This really needs to be addressed. Next there are no sidewalks available to accessible to many of the greenways in Hermitage or Donelson making it dangerous to ru/walk from your home to the greenway. Last there are not enough restrooms along the greenway.	Restroom Facilities, Trail and Greenway Development, Greenway Development
Would like there to be more information about progress and timeline of the repairs to the stones River greenway boardwalk	Greenway Repair Communication
We need better facilities at parks. I'm tired of using portable restrooms, most disc golf courses don't have easy access to facilities and seem to be ignored. I can piss in the woods but I have nowhere to go for a shit because I'm not doing that in a porta-potty. Nashville deserves proper restrooms!	Park Restroom Facilities
Nashville Parks should be open later, especially during the summer. It is a shame that we have great facilities like Fair Park that close at 7:30/8:00pm. This is especially unfortunate in hottest parts of summer when dogs & kids can't play outside until the sun sets. Having parks lit & open until 9 or 10pm would allow people to use these facilities in their off hours & without getting a heat stroke.	Park Operating Hours, Summer Recreation Accessibility, Summer Recreation Opportunities
Would love to see a bike race series, for example a weekly MTB evening weekday race.	Recreational Event Programming
A key challenge that many of the mountain bike trails are facing is adequate drainage. Without shedding water properly, these trails are wearing far more quickly than their actual age. Percy Warner rides like a completely different trail than just a couple years ago, and it's mostly due to a lack of drainage.	Trail Drainage Management
Our family was initially excited about Ravenwood, but now it is obvious that whoever designed the playground area was not aware of safety issues -- the huge rope climbing structure; the sand area that is being misused with sand being thrown around; sand being placed in the carousel-type thing so that it no longer even turns; steep hills in the toddler area; metal slide in toddler area (you can fry an egg on the surface); lack of shade areas for toddlers; lack of restrooms; the basketball court attracts guys who curse loudly and make the area unsafe for families with children. I hope that the new playground in Old Hickory will be a safer place for our neighborhood.	Playground Safety Design, Playground Development, Family and Child Recreation
Paragon Mills park needs some major help! Many families play here but it's worn down. There is a beautiful creek and potential for walking spaces. Needs love!! Our area desperately needs a community center. The closest one is Coleman park but I feel like this part of south Nashville needs a community center.	Park Renovation, Community Center Facilities, Park Amenity Development
We really need places to go in the heat of the summer that have shade. We need playgrounds with shade structures because trees aren't big enough to create shade and the playgrounds get too hot for the kids to play. We also needs pools and splash pads! Where are all of the kids supposed to cool off in the summer? This stuff is especially lacking in west Nashville in the nations/Charlotte park area	Playground Shade Structures, Playground Development, Summer Recreation Options, Summer Recreation Facilities
We absolutely love all of the updated new playgrounds. They are amazing. We'd love to also see nature playscapes and public outdoor pools!	Playground Innovation, Community Pool and Swimming, Trail Development
We have a lovely greenway which I used to use, but I do not feel safe walking it anymore.	Park Safety and Security, Greenway Safety

I would love to see more swimming lessons being offered for toddlers/kids. I live closest to the Coleman Community center which has an indoor pool and I have never seen swim lessons offered for kids there. I would like to take a painting class but there are not enough classes offered in the evenings so they fill up in a heartbeat. Also, I want Nashville to implement an adventure playground, similar to those in NYC and California, where children can be free to build and play as they see fit without premade play structures (https://en.m.wikipedia.org/wiki/Adventure_playground).	Playground Development, Recreation Programming, Community Program Expansion, Recreational Class Offerings
I would very much like to see stricter regulations for off leash dogs. I love taking my dog for walks at different parks but am hesitant and nervous after multiple unpleasant encounters with owners not following the in place leash laws. This decreases my enjoyment of parks and rec areas as well as my sense of safety	Dog Park Management
Fenced in playgrounds would be amazing!!	Playground Safety Design, Playground Development
We in West Meade would really love the old Hillwood High to become a public park, and if possible and rec center too. We do not have any playgrounds or outdoor gathering spaces to meet with neighbors and play. More and more young kids are moving and a park in biking/walking distance to west Meade and hillwood would be amazing for the community.	Neighborhood Park Development, Community Recreation Space
More cycling support of all kinds.	Trail Development, Cycling Infrastructure
Would really love a connected greenway system that enabled travel around the city free from cars but also to surrounding communities	Trail and Greenway Development, Greenway Development
We would like more facilities like picnic shelters and bathrooms at Brookmeade park. Now I have to drive 20 minutes to the nearest park to get these things.	Park Amenity Development, Park Facility Expansion
Safety in parks is a huge issue. There is a large need for more Parks staff out and about in the parks - this does not have to be police, it can be a park ranger or ambassador - someone present, eyes on the park to deter crime, report on maintenance issues. Not listed above are outdoor programs like walking groups, movies in the park, and other community events hosted outside of facilities. The trails are great, but the signage in Shelby Bottoms is lacking. the Greenways maps are 15 years out of date and deteriorating. It's great to have facilities, but the maintenance of the facilities is lacking. Centers in need of painting, upgrades to amenities, bathroom upgrades, trails with roots jutting out of them, picnic shelters barricaded because of structural issues, playground rubber that is deteriorating.	Park Safety and Security, Trail Signage Improvement, Trail Signage, Park Maintenance Oversight, Park Maintenance and Infrastructure
There are so many wonderful spaces in Nashville parks, but many of them are not kept up to the level they should be. I worry that parks are not fully staffed.	Park Staffing, Park Maintenance and Infrastructure
Kids (particularly teens) are in need of third spaces to interact and spent time with each other. Up-sized playgrounds, cafes within the Metro Park system would be very beneficial. I would also love mroe concession opportunities in Metro Parks so my family could spend long, unplanned time there without having to go find food/drinks elsewhere.	Family and Child Recreation, Park Concession Services
We need to take back our Adult Sports Leagues specifically Softball/Baseball. We have leased our field out & forced adults to go elsewhere.	Adult Sports League Facilities
More disc golf based on the increased usage since COVID	Disc Golf Facility Expansion
At Centennial Sportsplex 1/2 the parking lot should become a parking garage and add a third ice rink to the complex.	
It would be great if we could get the trails along Ellington (on Edmondson Pike) connected to the Edmondson Pike Library. That would be a game changer for the community. Would also love to see the powerline easements available for trails. That's a lot of area that connects the city.	Trail Connectivity, Trail Development, Alternative Trail Corridors
I would like to see parks utilized more for community gathering through events, activities, education, etc.	Community Park Programming
We need fully fenced in playgrounds.	Playground Safety Design, Playground Development
Please have sufficient garbage cans to reduce the possibility of littering.	Park Waste Management
Golf courses should be open 7 days a week! Food and drink should be available 7 days a week. This is a huge revenue source that is being missed. Fill the positions! Open the doors! Provide the amenities!!!	Recreational Amenity Availability, Facility Amenities, Golf Course Operations
I appreciate all the work the parks department does. Connecting and creating more greenways should be a priority. Soccer is the world's most popular sport. We should have some more fields, even if not full sized. Also, many parks in other cities have goals that the public can use. We should consider having permanent goals in some areas.	sm_positive, Trail and Greenway Development
Golf courses are not getting staffed to capacity. There is a great need to increase the staffing at the golf courses so Metro Government can serve the Nashville community. The courses are not able to remain open for the hours they used to in years past. The golf facilities make a lot of money that goes into the general fund. Greenways and community centers get a bigger share of the funding. The golf courses have the largest public participation. Please fund them fairly.	Recreational Facilities
I am almost at retirement age & I plan to enjoy more golf. Unfortunately several of your courses are open 6 days because of staffing needs . This is not amenable to my needs	Golf Course Operating Hours
Who would distribute a Metro Parks survey and NOT include Golf Courses?? Who approved this survey for distribution - someone who doesn't work for Metro Parks?? This survey missed one of the most important and enjoyable divisions of the Metro Parks: golf courses. Unbelievable. Do better. This is a joke.	
I wish Golf would have been included in this survey. We have several Metro courses that bring in quite a bit of money. They should be a priority. Those that work at these courses are overworked and need more help to maintain the courses.	Golf Course Maintenance
I took this survey to address the state of the golf courses and golf amenities and was dismayed that they're not even mentioned. We are blessed with amazing golf courses, but we are being undeserved by metro. Short hours, filthy clubhouses and sparse staff is unacceptable.	Golf Course Facility Management

Q16: Which of the following ways have you used a greenway? (select all that apply)

Answer Choices	Responses	
Walking	93.8%	1923
Running	48.1%	987
Cycling	51.2%	1049
In-line skating / skateboarding	9.6%	196
Wheelchair or other mobility device	2.2%	44
I have NOT used a greenway	3.5%	71
Other (please specify)	4.5%	93



Other (please specify)
I loved walking when Richland Creek & when the west Nashville greenway opened until I quickly felt UNSAFE
Stroller walking
Meditation, creek access
water Aroberic
Dog walking

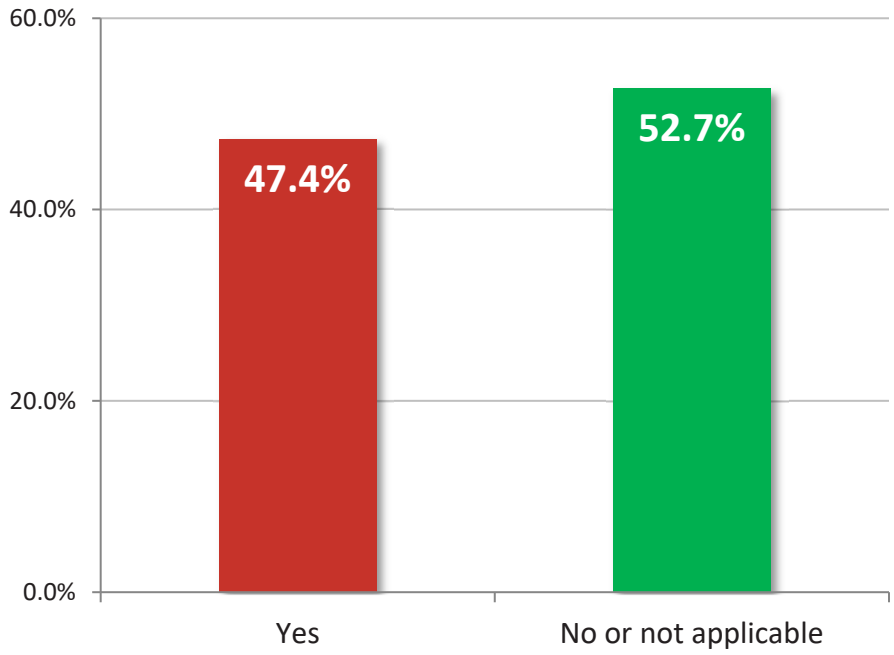
I went almost everyday when my dog was alive. She died in 2018.
I haven’t visited in 12 months
Not safe, don’t use anymore
To pick up debris and trash

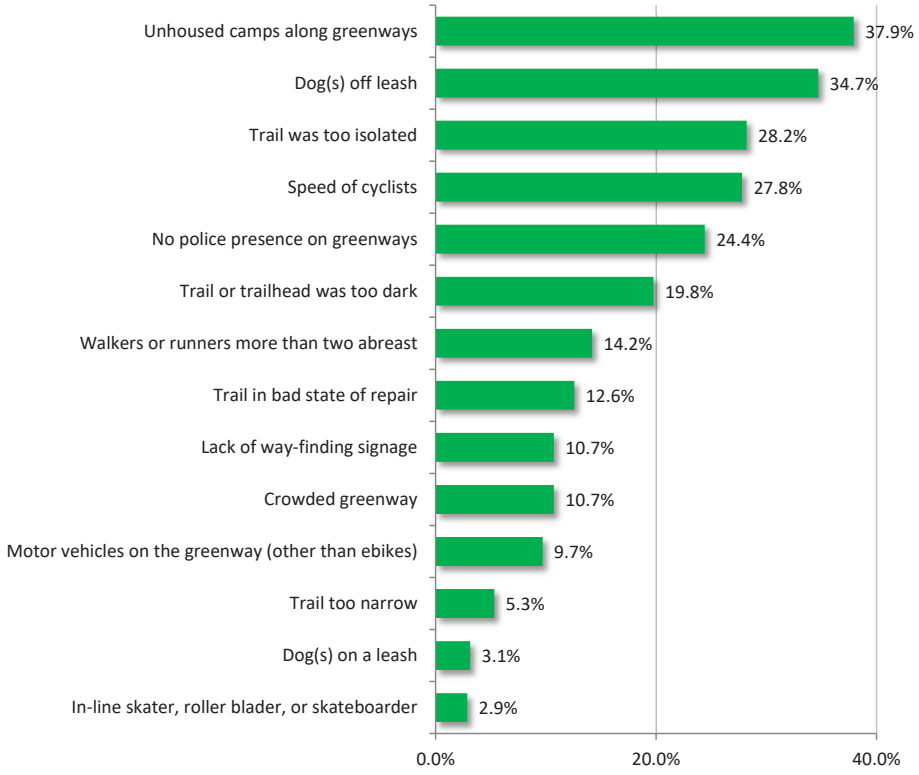
Q20: Have you ever had a time when you felt unsafe on a Nashville greenway?

Answer Choices	Responses	
Yes	47.4%	930
No or not applicable	52.7%	1034



Q21: If you felt unsafe on a greenway, which of the following best describe the reason(s) you felt unsafe?

Answer Choices	Responses	
In-line skater, roller blader, or skateboarder	2.9%	34
Dog(s) on a leash	3.1%	37
Trail too narrow	5.3%	63
Motor vehicles on the greenway (other than ebikes)	9.7%	115
Crowded greenway	10.7%	127
Lack of way-finding signage	10.7%	127
Trail in bad state of repair	12.6%	149
Walkers or runners more than two abreast	14.2%	168
Trail or trailhead was too dark	19.8%	234
No police presence on greenways	24.4%	289
Speed of cyclists	27.8%	329
Trail was too isolated	28.2%	334
Dog(s) off leash	34.7%	411
Unhoused camps along greenways	37.9%	449



Other (please specify):
n/a
I read about people being attacked. Woman murdered on Mill Creek greenway.
Bikes on paths they don't belong
chance of meeting a mugger, etc.
Intoxicated violent people using greennway
Ebikes
Would prefer no e-bikes on greenways.
Specifically, it was a combination of several of these things - several mornings I would walk at 7am so the Richland Greenway was less populated, there was no police presence, and there were several young homeless men who were erratic in their behavior.
Large trucks from Parks workers blocking entirety of greenway width
A few incidents in the news about the stones River Greenway
drivers on their way to the golf course can be aggressive
Mr friend ended up in the ER bc of buckle in the otherwise pristine Cumberland Greenway
Just once, at Stones River, there was a man in a tent
Homeless people hanging around, smoking, babbling nonsense at strangers, etc.
Car vandalism and robbery
Cars being broken into at parking lot
Not sure if it was a true Greenway, but avoided downtown under bridges if I was walking by myself, lots of homeless people.
Hear gunshots
Intimidating men following/watching activities.
Individual homeless people living on benches at the Richland Park gwy
Frequent car break ins in parking lots
Hoodlums riding their bikes into people trying to walk the greenway; homeless camps with their attendant dangers; unleashed dogs.
Homeless/drug users
Safety of car at trail head
n/a
trail goes under a railroad track and is isolated
Slippery bridges
Parking areas need cameras and LPRs
feel safe
scooters
News reports of incidents occurring within and outside of Davidson co.
Men loitering and not walking
didn't feel unsafe
E-bikes
Construction
Faded makeshift stop signs and golf course drivers will not yield and charge you.
Individual
Random person on bike followed me in isolated area... I turned around and went back to parking lot
Overgrown brush
People on scooters just about run you over
Pandemic
Triple-wide strollers taking up most of the width of the trail.
steep hills are terrifying on roller skates
A man flashing people on a bench
McCabe Greenway is super crowded
Parking lot car break-ins at BB and Beaman
Debris water or mud making hazards
No alarm button for emergency if needed
Someone told me a man tried to choke her.
Guy who was clearly mentally unwell came out of the bushes and ran after me for half a mile. Screaming
After a man was held up at gunpoint on Christmas eve morning, I felt I had to stop using our greenway. I asked if someone from the Coleman Center could facilite guided waldk sof rgroups, maybe once per day, but they felt that the greenway was too far form the Community cneter for that to be permitted
Unsafe with dog owners who do not leash the dogs

Too much sunlight, pavement. Needs shade from trees.
All people deserve the greenways, and all people should be respectful to everyone. That said open drug use and young people creating unsafe environments with their bikes and also intimidation is not needed.
People leaving bags with dog poop in the middle of the trail as if the dog poop fairy is going to come pick them up.
Car break in at White Bridge Trailhead
Isolated areas,how we have cameras now
Sketchy looking people
n/a
Unauthorized Dirt bikes, utvs, 4 wheelers
car was broken into at Shelby Bottoms. Have noticed auto window glass frequently in other trail parking lots I frequent.
Just one time at Warner Park I felt slightly unsafe, but most of the time, the greenways feel safe.
Pathway covered in slick mud
Crosswalks are not safe. Coordinate with NDOT please.
Violent homeless, drug use
The riverfront greenway has homeless everywhere that must be removed.
A group of motorcyclists rode on the Cornelia Fort runway and into the woods.
it was isolated and was after the assault on the trail
active police situation with a mentally unstable person -- had run into the shelby greenway
I think a lot of those are unavoidable. Comes with the territory. Known hazards.
Car break in
N/A
Learned that someone exposed himself on the greenway and there is not public safety presence at our greenway
Creepy men following too closely
A combo of darkness and water/ice on the greenway (it would be in the pre-dawn/dawn hours of the morning in the winter so that might be on me)
groups of people walking and taking up the entire width of the greenway, not allowing cyclists to pass easily. Walkers are often deep in conversation and not paying attention to what is going around them. Parents with young children or leashed dogs not keeping them on the correct side of the path. Also, after heavy rains, bridge at Shelby are slick and some turns at Shelby and Harpeth Greenways are filled with a slick layer of mud.
lack of shelter if caught in a storm, but I blamed myself not the parks
Crime in the parking lot.
homeless people
Sketchy people
Blind corners when foliage is overgrown - especially problematic on a bucycle
bike lanes trashed, one time someone was driving on the greenway.
Dog waste on greenway
Dogs off leash or on long flexi leashes are a big problem -- especially for cyclists.
Homeless
E bikes and e powered unicycle
Dangerous crosswalk
Unusual/disturbing behavior from other visitors
appearance of a homeless person's residence off the trail--only saw it once
Being alone on trail
One of the bridges on the Shelby greenway was out for years, so they rerouted greenway users through the park on this weird trail. I was out there alone per usual, had to get rerouted into the forest, saw some random man crossing the path, then another random cyclist (man) stopped and asked me for directions, and I was losing my mind—I felt so unsafe.
My car was broken into once, but I left valuables in view, so I blame myself.
Mostly the unsafe feeling comes from hearing about other instances of folks not being safe on the greenways.
Homeless

To clarify "motor vehicles on the greenway" I am specifically referring to places where the greenways cross streets (i.e. Acklan Park Dr. for the 440 greenway or Van Buren/Taylor/Monroe for the Cumberland Greenway in Germantown). The places where the greenways encounter vehicular traffic are by far the places where I have felt unsafe. I do not expect drivers to drive at a safe speed or to be aware of or care about pedestrian space.
Felt threatened by individual while walking alone, no safety phones or emergency help areas on trails
Mentally ill persons shouting and waving weapon like objects.
Park user brandished a handgun towards us.
N/a
N/A
Walkers/bikers with headphones or earbuds who are unable to hear when you announce yourself when coming from behind them.
twice: vehicles broken into (friend's suv at Bells Bend nature center) and catalytic converter cut out (husband's suv at Beaman trailhead)
Grass to high
rude behavior and not enough public bathrooms
approached by someone who seemed suspicious
LARGE MEAN BREED off leash!
Leaving vehicle with known break ins
Pedestrian intersections on the way to the greenways.
I make it a point, as a single female, to not be on greenways alone. But when I walked my dog (he's no longer living), sometimes I'd think, "I shouldn't be this deep in here" and I'd certainly turn around. TBH, I always try to watch my surroundings. You're not safe anywhere anymore.
EBikes ARE motorbikes and regularly speed by at 25mph ++. They should NOT be allowed on the greenway. Use a regular bike. Get exercise.
Many dog owners are completely and I think purposely oblivious to their dogs behavior and do not take accountability for their dogs actions. The dog is just a wonderfully dumb animals. Long leads are problematic.
Strange man acting awkwardly
Individuals who are in a state of mental distress/drug use ambling about
Not sure my teenaged granddaughters are safe.
Bicyclist are bullies at Ted Rhodes Golf Course/Metro Center. We should be able to file a criminal complaint. It
People don't pick up dog poop. Not unsafe, but unpleasant
Weird shirtless guy with a golf club followed me
The news prevent people from feeling safe in parks.
Not used
there had been reports of women being attacked until they caught the offender
I'd like to clarify that the unhoused answer deals a lot more with a mass of garbage on the trail than the people living off the trail.
Angry, aggressive cyclists who do not observe the speed limit or requirement for them to yield to pedestrians,
One wheels and electric motorists going 25+ mph on the pedestrian paths
The shooting that happened at the Mill Creek Greenway. The effort to add more lighting, security cameras,
man exposing himself along the trailway, more than once
Trail under a bridge where homeless hang out.
Garbage, sketchy people, and unhoused camps in greenway
Homeless idiots
Dangerous, mentally unwell aggressive men
Other users acting inappropriately
I am usually with a friend so I don't feel unsafe, but it can be crowded. If I was not so familiar, I might think we needed more signage.
Group of young men who didn't look like they were there for any good reason hanging out
I wouldn't say that I felt unsafe but all of the above have happened and felt concerning. I have found people who have been lost in the park for HOURS.
New pavement Chickering nice but deep dropoffs and narrow roads to be shared with 2 way car traffic
strange people on trails
Long leash for a large dog

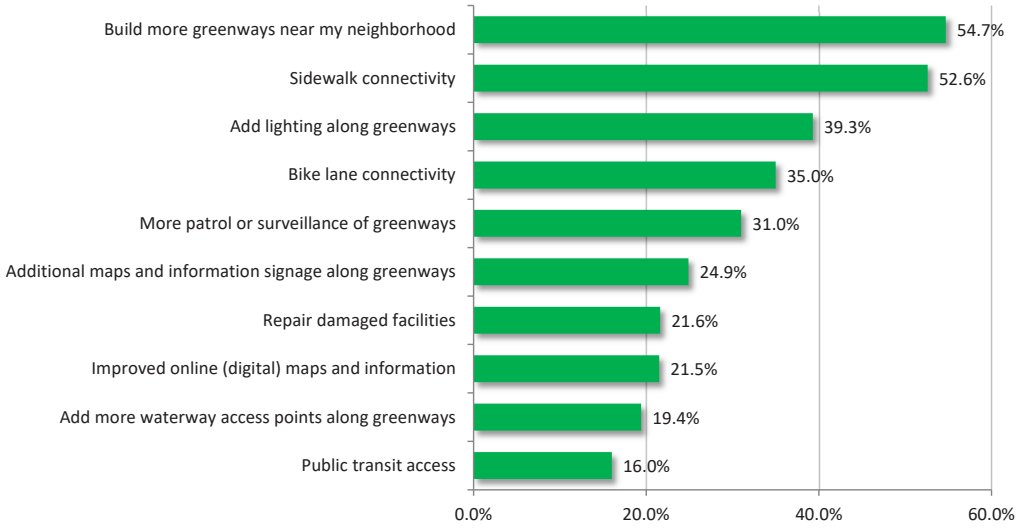
Weirdos in the park. Unhoused people living in the woods
Police were there because of a suspicious man in the woods lingering
Busy road (Battlefield) to access greenway has no sidewalk or bike lane
To many trees planted along open air path. Felt too hidden
Caveman at Shelby park makes me feel unsafe
Never seen police presence on greenways and we've had (and seen others') our car broken into on two greenway trailheads. The homeless encampments along the route up to Germantown needs to be disbanded and perhaps it has been - after an uncomfortable experience along the river up that way we've not been back. The riff raff along the river downtown by the Woodland bridge and north and south of the river over there needs to be eliminated and more police presence down there.
The McCabe Greenway seems safe. I have worries about other greenways, after hearing about a woman getting raped.
History of car break-ins at Shelby
Someone harassing ppl on greenways
Walkers with noise canceling headphones not paying attention to cyclists
Cumberland River: Construction makes path unclear, it crosses traffic in a dangerous manner (i.e. Dot Dobbins death), unhoused individuals combined with low foot traffic in areas feels unsafe.
i was followed to my car by a man
Multiple kidnapping victims that was shown on the news discourages me
Car break-ins at parking areas
Ponding sections of the greenway on the far side of the big field past the golf course on Old Harding Rd
Homeless encampment nearby
I no longer use the greenways alone.
Crazy person shouting
Walking the Harpeth River Greenway under Hwy 100 near Ensworth always feels "sketchy."
Once or twice I've experienced loitering single men at random parts of the trail
there were some teens in a structure just hanging out and once there was a homeless person in the woods
Not applicable
Homeless person on the greenway
I have felt unsafe there before, but it was because I did a marathon training run in the morning while it was still dark outside. I don't necessarily think you should add lights, though. It would change the vibe. I do sometimes wish I felt like I could walk or ride more easily with my kids, but it's narrow enough that it feels unsafe with cyclists. But again, I don't know how to change that since I am also one of those cyclists, haha. My kids are great on their bikes, but I live in fear of them taking a blind corner to wide and having a head on collision with another rider, so we mostly stick to riding at Cornelia Fort.
Add cameras to watch cars
e-bikes are so quiet you cannot hear them before they are on top of you
Motorized vehicles other than wheelchairs should be banned. I have had to dodge people on hoverboards too
Cyclists do not always follow the etiquette to alert walkers that they're passing.
Homeless camps
A few dudes going real fast on a one wheel electric device
Homeless people
Some homeless folks hanging out nearby
bike in the hands of amateurs on Shelby
I have not felt unsafe
Definitely with vehicles such as ATVs on the greenway near Orchard Bend Park
Scary person present
The group of individuals approaching me
Incident where a man seemed to follow myself and a friend for a stretch on the greenway. While we were unsure if his intentions were bad, his behavior was suspicious and unusual for the greenway and it made us feel uncomfortable.
sus person
Road crossings are unsafe
I've never felt unsafe but I do have a safety protocol when I run on greenways which includes telling someone I am on the greenway, my trackable location and where my car is parked.

All of the above
too few people and felt remote
Cyclist go so fast they will kill you if you get hit, esp during busy mornings & weekends, they need bike lanes
Na
I avoid using greenways I feel to be unsafe
Creepy men
NA
People at top of frisbee golf hill after the park is supposed to be closed shooting guns
Crossing streets where people are driving dangerously fast
Cyclists who do not say "on your left" or "passing" when passing, or who pass on the right + pedestrians who step to the left to let people pass on the right instead of staying to the right.
E-bikes
Bridge on Stone River Greenway is frequently closed for repair.
homeless individuals with mental health issues
Other visitor acting in a lewd manner
do not feel unsafe
Contruction happening along greenway, so dangerous obstacles and dust everywhere
How are camps not considered housing. Are you referring to illegal bum camps
not applicable
Have never been to greenway; afraid of attack by human or dog.
Men acting unsafe toward women when trail is isolated
Early Covid days when I dodged other walkers; but grateful that they were open!
Witnessed an assault on the greenway
Person coming from out of brush toward me while I was reading a historical marker
I don't put myself in situations to feel danger, but increased lighting is needed in parts of McCabe. Police presence in Centennial would be nice given where the park is.
speed of RACE cyclists, travelling in packs. Pedal assist Ebikes are not the safety problem!
I encountered Parks Police driving an F150 down the length of the Cumberland River Greenway. This is NOT the location for a large vehicle to be patrolling. I chose to take this greenway to avoid traffic, not to encounter it.
Man with knife spotted by other greenway users and we didn't know if we should have continued walking or not.
Please install cameras or LPRs
homeless persons
Suspicious persons on the greenways
As a woman, I'm always on edge.
Homelessness in Cleveland park
So infrequently used, someone could grab me and take me into the woods without anyone seeing or noticing
Homeless
I never feel unsafe when with others. Cyclist do WHIZ past you and that is startling.
Parking lots
Na
I have run into threatening people
Homeless camping out along trails
A snake was laying on the trail at Ezell. I did not like the way he looked at me. Feral dogs sometimes are there.
The McCabe greenway has a long stretch that parallels the railroad track with dense ground cover. I will not walk that stretch of trail alone.
Homeless or sketchy people
Homeless people
Drug dealing and explicit activities at GROW enrichment site.
Drug dealing and explicit activities at grow enrichment site and trails
Drug activity (meth and intravenous)
Break in's are a constant problem. Men on motorbikes stalk folks and hide out in the woods.
being chased by other people on greenway, very scary. I generally go with my dog now.

being early in the morning and alone
Suspicious persons on trail
Answer above is specific to the Metro Center greenway near 2nd Ave
Existence of crime in other parts of Nashville that I frequent (e.g. midtown West End area) make me generally wary after dark.
Individual attempting to break into parked cars
Gangs
Not comfortable yet with the one off of Charlotte by Lowe's. Was a big homeless camp.
Parking lots with poor visability and reports of vehicle break ins
Cameras and emergency activators are needed on all greenways.

Q22: Which of the following improvements would increase your use of greenways? (select all that apply)
Table/Chart: Davidson County Residents ONLY

Answer Choices	Responses	
Extend greenway operating hours	9.4%	168
Public transit access	16.0%	287
Add more waterway access points along greenways	19.4%	348
Improved online (digital) maps and information	21.5%	385
Repair damaged facilities	21.6%	388
Additional maps and information signage along greenways	24.9%	447
More patrol or surveillance of greenways	31.0%	555
Bike lane connectivity	35.0%	627
Add lighting along greenways	39.3%	704
Sidewalk connectivity	52.6%	943
Build more greenways near my neighborhood	54.7%	980



Other (please specify)
No way to make them safe in nashville
Playground at Mill Creek Greenway
Enforcing no camping rules and relocating the unhoused who are now permanent residents
none
Removal of homeless encampments
Increase the number of greenways and primitive trails connected to those greenways
Ban ebikes
Restrooms
More shade on cumberland levee
Fixing the bridge at stones River
More miles of Greenway
More restroom facilities at trail heads
Fontanel Greenway needs routine maintenance
Cameras, emergency call station
Maintain Fontanelle Greenway
weather...too hot
Prevent homeless camps or vagrants in the greenway.
cooler weather
I have to bike over the river on on Clarksville pike to access green way, and the bike lanes have a lot of gravel and glass in them, and cars drive very fast. It discourages me from biking to greenway
None
Like when mile markers are noted.
Fix and reopen the bridge on the Morton Mill/Warner greenway. Why is it closed? And why did they plant CORN over a field of wildflowers on
Restrooms
Cut grass at Fontanel
Greenway connectivity
extend length of greenways
Connect the greenways
Please repair West Park Community Center
Cut overgrown brush in park area and area leading into the greenway
Add restrooms at some of the entrances.
na
Sidewalks on Cherokee road!
Better bathroom family facilites
Add Restrooms
Better mobility
Limit flooding on greenway
Enforce dogs on leash
I don't know if much can be done, but the mosquitos are sooo dense in the forested areas by water (along old glenrose). It's practically uninhabitable at times.
Plant trees along walkways. Heat is dangerous…
I think our system is great but more connectivity between greenways would be great where possible
Keep greenways clear of overgrowth, many paved paths are narrowed because of encroaching brush and tree limbs. Tall grass too close to pathway intersections creat dangerous blind spots.
Connect to surrounding communities, Wilson County
interconnecting existing parks
Removing trash left by homeless camps like drug paraphernalia and needles
Grading for proper drainage
ADA compliance.
i wouldn't want to disrupt the natural appearance of most greenway sections by adding a bunch of lights, but some sections in more urban areas would benefit from having lights.
Remove homeless
Maintain the brush near the greenway
I live near the heart of Madison... I understand its pretty hard to connect other than bike lanes on Saunders and Hart to get us to Riverside bike lanes. Gallatin Rd is WAY TOO SCARY even in the bike lanes plus broken glass. Hey, sweep the bike lanes regularly!!! :)
we just don't spend enough money on our greenways...
enforcing dogs on leashes
Leash laws being observed
Connecting the various greenways so you can explore the city without using roadways. Cafes or beverage stands along the greenways would entice you out and allow some relaxation along the way.

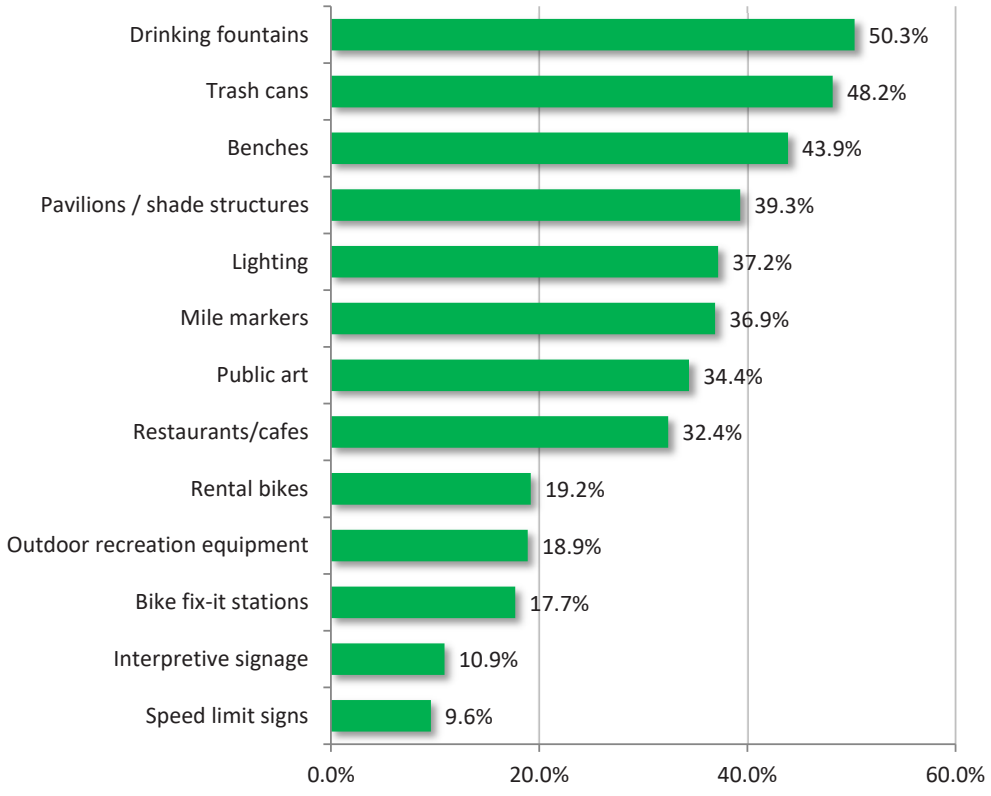
Cameras
Water fountains
More Greenways
Access to Seven Mile from across Edmundson. Widen sidewalks + crosswalks + slow traffic down + quiet traffic down
Suitable weather
I'm satisfied with greenways now.
Enforce rules, like dogs on 6' leashes, people walking two abreast, and maintaining paved surfaces
Limit electric powered conveyances
Adding coffee shops, cafes, bars, etc. along greenways would be amazing!
Getting the hobos off the Greenspaces
More parking near greenway
native plantings--adding natural beauty that helps our ecosystem
clarity on how to connect east and west sides of town through downtown
Connect existing greenways to make longer ones. I see many good plans on the map.
Bikes for rental
Need blueways, water trails in access points
Opry connector
The mosquitoes have been so bad at the Bellevue Greenway. I think I will avoid going there till summer is over because I was bitten up so bad!
More PSA work to encourage polite walkers and discourage off leash dog owners from going off leash
Trash receptacles and potatoes along the greenways
Challenge inventive to get me out more!
Connections to other greenways (e.g. Peeler Park to Stones River Greenway
rest rooms
more greenways
parking area security
I now live on the Metro boarder with Williamson County. Luckily I can use the parks there. They are far superior to the one in my area of S. Nashville.I go to Radnor and Warner parks some.
It not being so dang hot
Shade! It's miserably hot with a strollers and toddlers during the summer when they are out of school
Please build the Peeler Park Pedestrian Path
designation of specific one way bike lanes to avoid collisions or near collisions
I use them as much as I want already.
More off leash options for having dogs
Prohibit Ebikes. They are motorbikes and go 25mph ++. They are a hazard.
Shade!
Please build the Peeler Park Pedestrian Path
H
Bridge from Peeler Park to the greenway in Donelson
Connections to other greenways (e.g. Peeler Park to Stones River Greenway
Please build the peeler park pedestrian bridge.
Connect a current greenway to Mill Ridge Park or other parks in my neighborhood
More frequent litter cleanups
NA
Keep horse trails separate from hiking/ biking
Not used
lighting would be nice in some areas like paved sections but not in areas intended to be more natural
BATHROOMS
Greenways free of dogs (and irresponsible owners). Long leashes and aggressive dogs=hazard.
Greenway to Greenway connectivity, more extensive connected trail system
Dedicated bike lane
Require dogs on leash
Signs that tell people which side of the trail they're supposed to be on pending direction of the way they are walking.
If I could access the entrance within a 10 min walk, it would be AMAZING. right now i dont feel safe riding a bike in Nashville so I drive to the nearest one.
More dog-walking stations/places to dispose of waste
More tree canopy
Non-pavement options
During the open hours of the Greenway I would like to know there are rangers in the nature station who could be notified if something was wrong on the trail, like a stalking man or other threat. Kmowing there were people on site during the open hours would make me feel safer. Not police, but park rangers.
Increase greenway connectivity to downtown

Remove homeless camps and garbage
More greenways overall so that they aren't so crowded.
Wood on bridges get really slick when wet/moldy.
Prohibit motorized vehicles (including e-bikes).
N
I wish the greenways were connected to more places that I want to go....
Extend greenways
Parking lot surveillance
Please don't add lighting in natural areas.
More connection to dedicated bike paths, not just bike lanes
Safety cameras.. we had a neighbor robbed at gunpoint in broad daylight in our neighborhood Greenway.
Better connections between greenways, extend greenways to my workplace
Lanes on greenways dedicated for cyclists and electric scooters/bikes
More open restrooms and dependable working water sources
Nonetheless needed
Shelby Ave and 9th Street REALLY needs a traffic light, for many reasons. One reason is people from that area, Edgefield, could get to Shelby Park really easily
Enforce dogs on leash
removal of trash, addition of greenery to the greenway (especially close to the plant area in Germantown where it is a concrete, hot walk.
Make pedestrian bridge ada compliant. The bridge from McFerrin park neighborhood to Douglass is not accessible for
Shade. More trees, wildflowers
Nothing
I do not feel safe alone, even with my big dog. Several times, homeless men have emerged out of the bushes and startled me.
Cross walks at Park Circle connecting 440 greenway
None, I don’t golf
Creating a pathway under the train bridge/tunnel on Nebraska/Wrenwood to access the 440 Greenway and then extending the 440 Greenway and
I love all of these ideas and hope they are happening! (I live in Eastwood)
Dedicated paved walking & biking paths (wider or preferably separated)in Shelby Park especially
Connect the Harpeth river greenway sections off Coley Davis and Morton mill
Address homelessness
I would love to be connected from Cleveland Park to Shelby Park
No cops!
More lighting, longer hours. More trash cans and better litter control.
Would love to see there be smoother pavement. As noted in my other comment - check with the Cleveland metroparks for how they build their paths. They are alway smoother / have less root damage
Repair pavement on greenways open to in-line skating (worsening cracks in ares like Cornelia Fort are making skating more treacherous over time!)
Opportunities for vendor stations (bike repair/rentals, refreshments, etc)
I would prefer less lighting. I want to be in nature.
N / at this time
Enforce Leash Laws!
Information on safe ways to connect between multiple greenways
connectivity between greenways
Cut grass, bushes, and overgrown
Extension of the shelby bottoms / two rivers greenway to connect to Opry Mills Mall
If lighting is added on greenways, it should be Dark Skies compatible, in design, color spectrum, timing, dimming capability, and brightness
If there were parking at the neighborhood connector entrances I could drive to and use those entrances - experience more of the greenway instead of the same old sections.
Restrooms and water fountains
Add greenway trails (paved) at Mill Ridge Park
Bathroom access
Improved drainage after rainfalls in low areas.
Address the safety
Remove unhoused camps
I do not use greenways often and have no plans to increase my usage.
Separate lanes for cyclists
Historical markers, such as around the Shelby loop trail/nature center.
repair to unpaved trails, e.g. fill regular mud holes

Connect more Greenways.
I had a flat bike tire on a greenway and two cops fixed it for me.
removing people who live along greenways on public property
Bathrooms
Plant native wildflowers
Work program for unhoused and mental health
More connectivity between greenways that does not incorporate walking on a street
downtown connectivity and keeping connections open even if there is an event
Please build the Peeler Park Pedetrian Path
Connect the greenways for longer stretches
more sidewalks throughout sylvan park area to get to greenways easier would be great!
Parks needs to accept that Greenways are transportation corridors, they aren't purely recreational. Greenways shouldn't have "operating
I wish our greenways were like Atlanta's beltlines where it is not only an ecological-friendly, beautiful walk, but connects to hip spots and has venues along the way. I also don't want to breathe in the air off of the interstates so I try to avoid the greenways that are near them--which is almost all of them. :(Negates those health benefits.
mountain bike trails
Restrooms at Cornelia Fort
more connectivity among greenways
Repair/improve rough approach to the bridges.
More greenway connectivity
Water fountains
Safe access to Greenway entrance points is the biggest hurdle to greenway use.
Remove homeless from the greenways
Connectivity between parks. Specifically, I would like to use the Greenway system or linear park system from the Cumberland River Greenway to Radnor ("River to Radnor"), Centennial Park, Warner Parks, and Bells Bend.
Integrate greenways and blueways
The Stones River Greenway is 2.2 miles away from my residence... but since there aren't any sidewalks or bikelines leading there, I have to drive.
Prioritize adding greenways that are less isolated and more useful for cyclists to commute.
Improve safety. Please.
None
More miles of greenways, especially to make it easier to ride my bike to/from downtown
More benches or rest stops
Run the GW near the creeks and connect them all plz. It is floodplain anyways nobody else is using it.
Address safety issues with flooding.
Accessibility of nonpaved trails (too muddy)
Keep areas mowed
Enough parking spots
Connect greenways to enable longer trips
We need a paved greenway at Mill Ridge Park
Add more greenways generally to reduce crowding at existing locations. Repave to remove bumps and cracks/holes for better cycling experience.
Prevent unhoused camps
Additional lighting would potentially make sketchy drug deals less likely so close to the greenway!
Helping people who are sleeping in parks and greenways so they don't have to anymore.
Maintain the amenities!
Only when walking my dog

Q23: Which amenities would you like to see added to greenways? (select all that apply)
Table/Chart: Davidson County Residents ONLY

Answer Choices	Responses	
Speed limit signs	9.6%	173
Interpretive signage	10.9%	196
Bike fix-it stations	17.7%	319
Outdoor recreation equipment	18.9%	340
Rental bikes	19.2%	346
Restaurants/cafes	32.4%	582
Public art	34.4%	618
Mile markers	36.9%	663
Lighting	37.2%	668
Pavilions / shade structures	39.3%	707
Benches	43.9%	789
Trash cans	48.2%	867
Drinking fountains	50.3%	904



Other (please specify)
kilometer markers, runners use kilometers.
Nothing
Poop bags for dog owners
n/a
Port-o-pottys/latrines
vending and drink machines
Working drinking fountains year-round!
Restroom at Cornelia Fort
BCycle stations specifically!!!
Restrooms
rest rooms
Bridge to peeler!
Hiking trails at stones River
Yes, please spend the money on increasing mileage of greenways
More restrooms
bathrooms or outhouses on trail loops
Bathroom
Trail upkeep
Restrooms
dog park
Police boxes/stations, surveillance cameras
More maps about where you are along the trail.
police presence
Restrooms
None
Recycle cans
permanent restrooms
Mile markers would be nice but also need to blend in with nature as that is our main draw to the greenways
Trees
Restrooms
Restroom
Grass cut
Neighborhood bulletin boards
Bathrooms
public art and interpretive signage bring people to areas as a destination to visit and learn about community,
Bathrooms
Bring bcycle back to parks!
Bathrooms
Bathroom facilities. Older folks could be considered disabled if they can't take a comfort stop from time to time.
Restrooms
Emergency phones or cameras
Restrooms
Bathrooms
It is hard to protect most amenities from vandilism.
Cameras
Bathroom family facilities
more trees

Grass cut and maintained
Restrooms
Restroom
There are drinking fountains here and there, but they don't always work.
Dog poop trash cans
Restrooms! even Porta-lets work; there is sometimes miles between them currently.
Trees. Trees. Trees. There should be an option for green space and canopy coverage as amenities.
Dividing lanes so people understand paths are bidirectional
license scanners, police call buttons along trail ways, lit trail markers
More restrooms
Ponds/water features
none - good as they are
Nothing - they are almost perfect! Only thing would be a sidewalk to get there safely!
Playground
Bathrooms
easy access to the river for canoes, and fishing. Covered picnic tables
More police oatrol
cameras
Native Shade trees
We host an annual Trail of Tears Commemorative Walk on our greenway and would like permanent interpretive signs related to that.
Bathroom facilities
Restrooms
Cameras
km markers
Bathroom
Restrooms
Water bottle refill station, recycling bins
Dog stations with bags and trash receptacles.
Signage directing users to run/skate single file on the right.
wider trails with designated bike lane
Trees! (shade along the cumberland greenway or Davidson rd bike lane)
Permanent Updated restroom facilities
native plants, especially wildflowers, canopy trees for shade and birds, and berry-producing shrubs
Water bottle stations/water fountains. One real restroom would be nice.
The greenway is great, just maintain what you have and connect it to South Nashville, don't add more stuff like lighting, benches and pavilions which Metro has a history of failing to maintain.
trees and greenery - especially along the metro greenway to block the sun and wind
Bike racks near off pavement trails to block bike and walk
cell phone charging stations
Would advise against lighting where it’s safe to do so, as this affects local bird and insect populations (esp lightning bugs)
Restroom facilities
FILTERED water
The Peeler Park Pedestrian Oath has been in the top four Council priorities the last five years in a row, most often #1 or #2. Listen to the people and build this decades awaited pedestrian path to connect our greenways, community, and city.
rest rooms

Toilets
restrooms
better expiations of when pets are allowed and under leash
Small bad weather safety areas, lighted with phone charging stations for emergency! They should also have fire pull alarm or some kind of flashing light on the rooftop that can be turned on for an emergency location!
Trees. I don’t want shade structures. I want a greenway to feel green, and not like a pedestrian highway
Connections to other greenways (e.g. Peeler Park to Stones River Greenway
Connections to other greenways, Peeler Park to Stones River Greenway.
"Drinking fountains that are maintained"; I reported the non-functioning faucets at the Skate Park 10+ years ago and they've still not been repaired. Why put fountains anywhere if there are no plans/budget to maintain them for the public. Please don't put signs all along the greenway. It's enjoyable because you're getting away from all that urban-ness. And yes, there should be a trash can at the entrance to every greenway...but not deep into the greenway.
Bathrooms
No amenities needed
Connections to other greenways (e.g. Peeler Park to Stones River Greenway
Patrols
Jin
Add dog park at Peeler Park
connect the greenway at Peeler to Stones
Connections to other greenways (e.g. Peeler Park to Stones River Greenway
Bathrooms
FULL SERVICE RESTROOMS, MILE MARKERS WITH LIGHTS
Restrooms
Shower stations, free laundry rooms, free stores for Homeless
Not used
Cyclists need separate paths - the mix of pedestrians and competitive cyclists is unsafe
Dog poop stations
Restrooms!!!!! Even porta potties! In Shelby bottoms!
Tree canopy
Water bottle fill/dog water bowls
Yes to trash cans AND recycling cans. The next thing, though, is making sure that they're emptied frequently.
Toilets
Bathrooms
Bathrooms
Often water fountains don’t work.
N
Signage about dog leash law
directions or I.D. of my location along the trails
Please have the drinking fountains turned on April 1. Please. This year many were still off well into mid May.
Dog waste containers
Public Restrooms - Specifically in Centennial Park
Dog supply stations. signs addressing rules for Greenway usage "walk on right"
More dependable and working restrooms
Need more trash cans in Shelby Bottoms. There should be one at every trail head
Fitness Stations

None
Bathroom facilites at Cornelia Fort
Poop bag stations
poop stations
Exercises stations along length of greenway
Restrooms
Bathrooms
Restrooms!
Signage requesting bikers to inform of approach
Branding/visual queues
bathrooms
Electric wheelchair rental
Bathrooms or Port-a-potties
bathrooms
Gun range for target shooting
Bathrooms
Wildflowers, native plants, removal of invasives
Dog waste stations at McCabe and 440 Greenway
more stations along trail for dog walkers to put poop in
None
Bathrooms. Or porta-potties, at least.
More greenway rules signage
Trach cans with lids! And doggy bag/trash stations!!
Wayfinding signage
more off limits signs
Bike racks
Trash. Cans. Please.
Bathrooms / toilets of some kind
positive messaging: More signs saying what you CAN do, as opposed to "NO"
Bathroom facilities
restrooms
Restrooms not porta-John’s
Fitness stations
Bathrooms
Hydration stations, beverages only
Some of these options suggest greenway hubs, where one might find services, information, water
People to cut the grass, bushes , and cut the overgrown shrubbery
access points to the Cumberland River
restrooms
If lighting is added on greenways, it should be Dark Skies compatible, in design, color spectrum, timing, dimming capability, and brightness
Bathrooms nearby
bathrooms.
None until the safety aspect is addressed
More restrooms with flushing toilets at trailheads
Restrooms
More frequent rest rooms
Enthusiastic no restaurants / cafes lol
areas where people can wade in the water

Working dog drinking fountains
Restrooms
Wildflowers
Demolish bum camps.
The Opry Mills Connector I've been hoping for over the last 13 years
Some kind of restroom facility even if just port-a-potties
Dog litter stations
Play areas
Dedicated bike/pedestrian lanes
Connections to other greenways (e.g. Peeler Park to Stones River Greenway
Police call box
More signs
LPRs
Bathrooms (for example at Cornelia Airpark)
Water bottle filler
Dividing lanes so people understand paths are bidirectional
Emergency buttons/help phones
leave greenways natural, and fix damaged greenways
Drinking fountains that work. Repair current greenways
Picnic Tables
Poles and obstructions in that are easily navigated by slow bikes or walkers to get rid of the peloton bikers on greenways
People/dog water fountains
BATHROOMS
Restrooms
Plant Identification Signs
Just more greenways!
Unsure why Metro Parks removed the trash can at Shelby Park boat ramp
There seems to be a bathroom at the Stones River Greenway trailhead at the Dam... but it's never opened..?
Trees!!!
Bathrooms
Toilets
none
I don't need more amenities, but I do need more miles of greenway trails.
Rebuild the Golf Club Houses
signs indicating that trails are patrolled
easier access to golf tee times
Portapotties.
Security cameras
Native plants like milkweed, coneflowers, blue gamma, bluestems, and more!
Bathroom
Better pavement for cycling (cracks, bumps, and holes reduce riding enjoyment).
Metro PD monitoring stations to determine crime. Lots of homeless folks trying to break into cars, etc.
Toilets (Not porta potties)
Bathrooms
We don't have a greenway in Crieve Hall!
Just more connectivity
Ability to walk the amenities!

Q24: Is there anything else you would like to share about Nashville's greenways or have ideas for improvements? (be as specific as possible)

Responses	Thematic Analysis (auto-tagged)
more dogs on leash law signs	
n/a	
Safe connectivity from West to East Nashville is very much needed.	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
More Pull-Up stations	User Experience and Amenities
More greenways are always better. Let's continue the great work and reach more areas of our communities:)	Greenway Connectivity and Expansion
Create master plan for land acquisition in order to CONNECT Greenways to Metro Forest Parks in western Davidson County; Radnor Park to Warner Parks to Bells Bend to Beaman Park-- new park in Whites Creek area-- connect them and connect greenways to these open space and forest parks.	Park and Green Space Development, Greenway Connectivity and Expansion
spend more money on maintenance of existing assests	Trail Maintenance and Improvement
I would love to see some Greenways built down park plaza and 25th Ave n facing Centennial Park. Those roads don't have much traffic. North Nashville, where I live, also could use some safer ones as well	Greenway Location, Safety and Security
The unhoused population who have taken up permanent residence on the Cumberland river greenway have made the greenway unsafe and unusable. This completely cuts off the metrocenter and downtown connections and pushes foot traffic to city streets.	Homeless Population Impact, Safety and Security
strong police presence	Safety and Security
We have a lot of greenway segments that are disconnected from one another. We would love to see Plan to Play prioritize connecting these segments to one another so that the greenway system feels like an actual open space network, like Atlanta's beltline, not a series of parks that you'd need to drive to. We love our Greenways, but with more funding, they could be so much more and connect our neighborhood to others through green space.	Park and Green Space Development, Greenway Connectivity and Expansion, Funding for Green Spaces
I wish we had more connectivity between the shorter greenways in our neighborhood	Greenway Connectivity and Expansion
Our greenways have been a great improvement to the city's liveability	City Liveability
Overall I'm happy with Shelby , the staff is nice. I have not visited the community center, I think the programs I was interested in for my kid didn't have the information available on the website	
I would love to have a greenway built in the Antioch area — 37013.	Greenway Connectivity and Expansion
The parking lot at the entrance to the greenway connector at end of Hickory Hill Lane is completely unlit. This makes ffor a dangerous spot at night where criminals park to deal drugs, etc. We really need night lighting at this greenways entrance!	Safety and Security, Lighting Infrastructure
The best primitive trails connected to a greenway are at Shelby/McGavock - I'd like to see more primitive trails closer to my neighborhood. The Fontanel is good but it's unclear whether folks are allowed to access the trails there. Also, the Stones River walkway was not fixed the last time I was there and that was a great place to walk while my child was at soccer practice. Most importantly, I'd like to see a greater preservation effort in the face of development - if we take out all of the trees, we are setting ourselves up for catastrophic environmental events - more flooding, more tornadoes, more heat.	Trail Access, Landscape and Environmental Design, Trail Maintenance and Improvement
Better hours/:longer and changes fir Seniors in the Pool and exercise etc	Facility Programming
There should be an emphasis on developers assisting with greenway maintenance and expansion if looking to build close to greenway and to make sure that there is a system (streamlined and more hassle free) so make this happen. Also, more encouragement for developers to value open spaces in their buildings.	Community Engagement and Social Aspects, Open Space Preservation
Would just love them to be extended into my area (Inglewood)!	Greenway Connectivity and Expansion
Putting a gathering point at the beginning of each greenway with trashcan,dog waste bags, water fountain, map of greenway with distances and place for Greenway information. These can serve as a way to update people on the progress of each greenway or express needs, or specific community program opportunities. It also gives you a place to meet.	Community Engagement and Social Aspects, Greenway Connectivity and Expansion
Ban ebikes	E-Bike Regulation, Bike Regulation
I explored almost all greenways on the west side this spring while training for a long run, and the water fountain in Centennial Park (and the Frist Museum) was the only reliable source of water en route. All other park/greenway water fountains were not functioning, including Richland Park, Cumberland River greenway, RP greenway, and Elmington Park. I'd also love to see the greenways better connected, either by other greenways or by protected bike lanes. Even with the recent improvements bike lanes (except for on 12 South) remain dangerous. They become repositories for gravel, trash, and mud, and the plastic dividers offer little protection. They need a more permanent barrier between traffic and bikes, and the bike lanes shouldn't vanish. (Heading east on Murphy Road, for example, the bike lane abruptly disappears, forcing bikes to merge into traffic coming off the interstate.)	Water Fountain Maintenance, Bike Infrastructure and Cycling, Greenway Connectivity and Expansion
-Finish Greenway connector to Opry Mills -Improve connectivity in downtown greenways	Greenway Connectivity and Expansion
I would use the Shelby Bottoms Greenway from the Two Rivers trailhead to commute as often as I could if there was a BCycle station at Two Rivers. This would improve my daily mobility because I could integrate exercise into my daily routine.	Transportation and Mobility Infrastructure
Post no guns allowed signs	Safety Regulations
We love Ravenwood. Please develop	Park and Green Space Development
Greenway "operating hours" are laughable considering that much of the network near downtown is part of the Music City Bikeway, which is a commuter-focused transportation network.	Greenway Operating Hours

More greenways that provide access to shopping and other daily errands. More connectivity across the city to be able to travel longer distances across the city without sharing the road with vehicles. Can we emulate portions of the Atlanta Beltline?	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
Restrooms / Portopotties	User Experience and Amenities
Im not a fan of trail runners. They disrupt the quiet and fail to respect trail etiqutte. Likewuse bikes, going to fast and not yielding to walkers.	Trail Etiquette
It would be nice for the Ravenwood regional center to be as child focused as Shelby bottoms nature center	Facility Programming
Greenways are so popular. It's hard to understand why our city is not expanding them in a significant way. Likewise, it's hard to understand the procedural barriers the city erects to keep developers from incorporating greenways into their projects	Development Barriers, Greenway Connectivity and Expansion
It could be cool to build small bike skills obstacles next to the greenway to make the greenway more fun for cyclists as well as removing some of the bike traffic off the paved portion. Bentonville AK and Baker Creek in Knoxville both have these optional paths.	Trail Design and Infrastructure, Transportation and Mobility Infrastructure
The lack of safe sidewalks and bike lanes to move citizens to park areas is the biggest need. This is a beautiful city with wonderful weather. If the city/county had better bike lanes and sidewalks many more people would transit via these paths, releasing congestion on roadways. It's far too beautiful of a place to be so pedestrian unfriendly.	Pedestrian Infrastructure, Safety and Security
More connectivity so longer bike rides and better maps showing available routes	Navigation and Wayfinding, Greenway Connectivity and Expansion
Markings on road for bikers vs. walkers	Navigation and Wayfinding
The more greenways the better! Connectivity so people can use them to get to work, school, etc.	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
Expand greenways into natural areas, not just urbanized zones Create incentives for developers to invest in greenways Connect trail systems to major parks (Bells Bend, Beaman, Warner, Radnor, Whites Creek) Unpaved trails are high priority for citizens and tourists, and low cost Set aggressive goals for private/public partnership	Community Engagement and Social Aspects, Park and Green Space Development, Greenway Connectivity and Expansion, Conservation Strategy
Orchard Bend Park needs to have a major upgrade with swings for adults and children and more play area equipment for the children such as a big slide, a brick bath and Metro finest driving by every so often to check on the community.	Park Facility Upgrades, Safety and Security
Maybe separate biking from walking lanes…?	Trail Separation
Extend a way to connect McCabe greenway to the Nations or Charlotte Park. OR extend sidewalks to Ted Rhodes golf course greenway entrance to Centennial	Greenway Connectivity and Expansion
-Fontanel Greenway needs maintenance - Expand Whites Creek park and connect the greenways - Conserve and promote Nashville's Highland Rim Forest - Create a hiking trail connecting parks within the forest, like from Radnor to Warner to Bells Bend to Beaman to Whites Creek. - Give Nashville a brand image of green space, forest, and resiliency - Fund a Conservation Assistance Fund that financially assists conservation easements on, or acquisitions of, key NHRF parcels.	Park and Green Space Development, Greenway Connectivity and Expansion, Trail Maintenance and Improvement, Conservation Strategy
Cameras please!!! And we need emergency call stations. As a woman I find it so dangerous that metro does not have any of these. It's unacceptable	Security Infrastructure, Safety and Security
Support/buy into Highland Rim Forest preservation plans	Conservation Strategy
promote more benches near safes and/or restaurants, with recreational equipment that will be for whole families to use.	User Experience and Amenities
Safety. Trail in Cane Ridge is not a place to walk, jog, walk dog as is isolated. Perhaps Metro's Mounted Patrol could be part of security and be wonderful interaction but understand the cost for additional park rangers/police is prohibitive .	Security Presence, Safety and Security
More connectivity. Would be great for maps to show bike lanes as well as Greenways so we know how to get to them.	Navigation and Wayfinding, Greenway Connectivity and Expansion
none of the access points near me have sidewalks leading to them! always feels very dangerous to get there, especially with a stroller or small child on bike/scooter.	Pedestrian Infrastructure, Safety and Security
Would love to see the expansion of greenways and the connection of them to one another.	Greenway Connectivity and Expansion
Digital maps are okay but maps along the trails would help. In general, we need more green space.	Park and Green Space Development, Navigation and Wayfinding
not using greenway	
more sidewalk were if safe to walk anywhere	Sidewalk Infrastructure
I think Metro Parks needs to focus on preserving large forests surrounding Davidson County. Cooperation with Highland Rim organization could be a benefit. Nashville is experiencing both a population growth and a decrease in its tree canopy. Maetro Parks should lead the way in reversing this the canopy loss trend. If we could connect all the parks and green spaces we could set a precedent for other cities. Also take a look at elevated animal crossings over busy roads so that that wildlife can be interconnected to the various green spaces.	Landscape and Environmental Design, Greenway Connectivity and Expansion, Wildlife Connectivity
more may feel safer if there were more police presence on bikes riding the trail	Trail Safety Measures

The Nashville greenways are one of the best things that Nashville has created in the last decade or two. E Bikes should not be allowed	Greenway Appreciation, E-Bike Regulation
Focus on acquiring land and preserving the Highland Rim forest	Forest Land Acquisition
As a senior I would like to have easy access relatively flat areas of greenway space near me. At one time we did more strenuous walking, but now we need a nice space in nature where we can walk comfortably. Need plenty of benches and easy access. This would be a tremendous benefit for those not in the best shape who want to increase their stamina/stability. (My husband has Parkinson's and is working toward not needing a cane. We are looking at joining a place like the Y, but it's costly)	Senior-Friendly Trail Design, User Experience and Amenities
Not removing homeless is a huge issue!	Homeless Population Management
Yes--please STOP trying to connect them everywhere. It is a senseless idea. There are plenty of neighborhoods, sorry to break your heart that do not NEED the greenway. Mine (WestMeade) is one.	Greenway Connectivity and Expansion
Greenways feel unsafe.	Safety and Security
I wish the greenway on Davidson road actually went somewhere	Greenway Connectivity and Expansion
It would be great if all greenways were connected.	Greenway Connectivity and Expansion
Shelby Park splash pad would be a huge success and much needed in the neighborhood	Park and Green Space Development
Eliminate slippery wooden bridges	Trail Surface Safety
Connect them all in a substantial way, and fully protect them.	Greenway Connectivity and Expansion, Trail Protection
While I would recommend a FEW more benches, it should not be many as unfortunately that may encourage more unhoused to loiter. The parking areas need cameras / LPRs for safety. We are greatly enjoying the greenways but also have had some unhoused come out of the woods to approach our teen daughters (athletes) while they were on a run. That has resulted in us being hesistant for them to run alone and instead make sure their dad or I are at each end. I am VERY appreciative of the new safety app posted to help alert and get help along the way as that has increased our feeling of safety. While bike riders for the most part are courteous we've learned to be careful to watch our time of day and avoid peak times (weekends) to avoid being hit by cyclists traveling at high speeds. We don't want them banned. People simply need to read. :)	Trail Safety Measures, Cyclist Behavior Management
Please fix and reopen the bridge. And explain why you plowed up a field of wildflowers and grasses to plan corn of all things beside the greenway.	Landscape and Environmental Design, Trail Maintenance and Improvement
Extend greenways through the city center connecting to other greenways	Greenway Connectivity and Expansion
More trees would make the trails better in the summer heat.	Trail Shade Improvement
I think we should have frequent patrol when the sun goes down	Trail Safety Measures
Love them and use them everyday	
The Greenway @ Fontanel is in dire need of maintenance. Especially the south side of the creek. More people would use it if it were managed better.	Trail Maintenance and Improvement
more water fountains along greenways	Trail Amenities Expansion
The greenery needs to be better kept/maintained. Tree limbs hanging over path.	Trail Maintenance and Improvement
Need ALOT more parks So few for enormous buildings	Park and Green Space Development
I would like benches but I worry that it would encourage more men that are just loitering and homeless groups.	Trail Seating Considerations
I love the greenway. Wish more people used it	Community Engagement and Social Aspects
are there stewardship or clean-up days for greenways?	Community Engagement and Social Aspects
Need to have accessible bathroom	Trail Amenities Expansion
I would love to see the greenways connected to major parks like Radnor	Greenway Connectivity and Expansion
Keep investing in greenways. Even accelerate investment.	Greenway Investment Acceleration
Playgrounds along greenways	Trail Amenities Expansion
Nashville greenway system is far behind peer cities in terms of number and length of greenways. Most greenways are too short, not connected enough to provide meaningful recreation. Nashille seems one of the only cities not significantly expanding the greenway system, which is regretable. Louisville is expanding their greenways by hundreds of miles. Atlanta is adding a flagship new greenway system. Rails to trails seems not even a thought in Nashville. Nashville needs to significantly increase the number of length of greenways miles to catch up with peer cities. Nashville needs to catch up.	Comparative Urban Infrastructure, Greenway Connectivity and Expansion
Greenways are a critical part of our transportation infrastructure. They should be more accessible and more connected. I live half a mile from a greenway but there are no sidewalks to get there, and the bike lane that we do have ends abruptly before the greenway starts, forcing my kids and I to merge with traffic. We need more greenways that actually connect to our existing bike routes and to destinations within the city, not just through parks.	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
I would like to see West park connected to ingland park or mcabe	Greenway Connectivity and Expansion
I would love for the greenways in west nashville like west park to connect to other ones so they are longer.	Greenway Connectivity and Expansion
I would love access to a greenway from my neighborhood! I live in McFerrin Park	Greenway Connectivity and Expansion
You should add dog poop bags at all public parks and greenways as well as trashcans	Trail Amenities Expansion
There could be bathroom facilities at the head of some of the Greenways. Older folks wouldn't have "access" and could be considered disabled if they can't take a comfort stop. I think of that at Radnor.	Trail Amenities Expansion
I would love to see a connected trail systems to major parks (Bells Bend, Beaman, Warner, Radnor, Whites Creek). Please expand the greenways into natural areas, and not just urbanized zones. Perhaps you can create incentives for developers to invest in greenways	Park and Green Space Development, Greenway Connectivity and Expansion

Maintain the grounds better at Hartman Park.	Trail Maintenance and Improvement
Improvement paviment at Peeler Park	Trail Maintenance and Improvement
Because of the greenways and walk ability of my neighborhood, I barely drive anywhere. More people should try to do this.	Neighborhood Walkability
If they can add (clean) benches and lighting	Trail Amenities Expansion
Would like to have trees and bushes trimmed	Trail Maintenance and Improvement
I would love more pocket parks (imagination parks) with trees, water and small shelters. Limited playground equipment. Parents supply toys. More spaces with sand boxes and open safe space away from parking. Greenways are wonderful! however No one pays attention to signage. Anyone over the age of 9 should have respect for others and their abilities.	Trail Design and Infrastructure, Trail User Behavior
It would be nice if the Stones River Greenway was never closed due to flooding.	Trail Flood Resilience
Need a masterplan for connecting greenways and increasing lenght of greenways along rivers, creeks, and railroads. Bike lanes on city streets are extremely dangerous! Much safer to spend our tax dollars on greenways that provide safe biking but actually take you to destinations.	Greenway Connectivity and Expansion, Safety and Security
Fixing the boardwalk between the Y and Kohl's trailhead.	Trail Maintenance and Improvement
We could bike to greenway if there was a sidewalk on central pike near Lebanon road	Sidewalk Infrastructure
More access & availability in North Nashville areas.	Greenway Connectivity and Expansion
Rest rooms needed	Restroom Facilities
Would love to see greenways be used more to strengthen the bike network and make getting around town on bikes easier and more accessible to people not willing to bike on the road.	Bike Infrastructure and Cycling, Transportation Accessibility
The reason I stay in Nashville is proximity to beautiful greenways and hiking trails!!	Greenway Appreciation
I wish the bike zones are more protected	Bike Infrastructure and Cycling
Keep it clean. Keep it simple.	Trail Maintenance and Improvement
Racquetball again!!!	User Experience and Amenities
The bridges on the Richland Creek Greenway are in need of attention (especially compared to, say, Shelby Bottoms).	Bridge Repair, Trail Maintenance and Improvement
N/a	
As I mentioned before, I'd love to see them connect to one another to extend them.	Greenway Connectivity and Expansion
They don't extend to my neighborhood. We have a large walking/ running population in Belmont-Hillsboro, it would be fantastic to have a Greenway access point.	Neighborhood Access, Greenway Connectivity and Expansion
Restrooms	Restroom Facilities
No	
With better sidewalks and bike lanes in our neighborhood, we could enjoy them even more! Right now, though, the closest entrance to a greenway is too far away for us to walk.	Neighborhood Access, Sidewalk Infrastructure
Ours (Whitsett Park) is wonderful, but since there have been hold ups, I am afraid to use it, even with one other woman.	Safety and Security
It would be awesome to connect the existing greenways. I live in west Nashville and I would love to be able to walk from Richland Creek Greenway to West Park.	Inter-Neighborhood Linkage, Greenway Connectivity and Expansion
More of them!!!	Greenway Connectivity and Expansion
The idea of a greenway within walking distance is awesome! Mine is a mile away and you have to take roads without sidewalks to get there.	Walkability, Sidewalk Infrastructure, Neighborhood Access
It would be great to have a greenway from east nashville to down town and along the river ! It's so under developed over that way and so many tourists would love it as well as locals, a path from east to down town would be smart for parking /events with lighting for late night walks back to home/car ! Biking too!	Greenway Connectivity and Expansion
Get as much as possible connected. Where the greenways have to cross vehicle traffic do as much traffic calming as possible.	Greenway Connectivity and Expansion, Safety and Security
Greenways need greenery. Trees need to be planted strategically to combat heat.	Heat Mitigation, Trail Design and Infrastructure
Docked e-bike share provides bikes so that more people can enjoy our greenways and use them to move about the city in a way that is both safe and fun. Parks Departments in cities like Madison, WI have great relationships with their docked bike share vendors so it is easy to enjoy their facilities on a rental e bike.	Bike Share Program, Transportation Accessibility
We need more greenways. Are we working on ways to connect greenways across the city? They seem few and far between, so haven't been that useful. Atlanta has a really great one which would be great to model after somewhat	Greenway Connectivity and Expansion
I would love to use them to get places but it feels like they're currently more like destinations (at least near where we live) rather than connections to other places.	Transportation and Mobility Infrastructure
Please repair aging pedestrian bridges and rotting wood structures on McCabe Greenway	Bridge Repair, Trail Maintenance and Improvement
Cyclists are too fast and do not announce themselves so I have nearly been hit several times. Either a bike lane or walking only areas would be nice.	Trail Segregation, Safety and Security
More trail running options. Unpaved running locations.	Trail Design and Infrastructure, Running Options
Speed up repairs to damaged sections	Trail Maintenance and Improvement
Indoor pools at all community centers	User Experience and Amenities
Connecting Beaman and Bells Bend with a greenway and then adding a bike/hikers ferry across old Cumberland River at old ferry crossing to add connecting trail to Warner Parks (and Radnor Lake).	Inter-Park Linkage, Greenway Connectivity and Expansion
The greenway often doubles as a green belt of natural conservation in my neighborhood. The steps y'all take to maintain native biodiversity mean the world to the ecosystem in my neighborhood.	Landscape and Environmental Design
They are nice but way too disconnected. Why are there no greenways through large swaths of the city?	Greenway Connectivity and Expansion

Please, build a greenway in the Lipscomb / Glendale area. We use Lipscomb but a greenway (and there are public lands) to Hillsboro High or Sevier Park or both would be wonderful to get more neighbors walking / connected.	Neighborhood Access, Greenway Connectivity and Expansion
Provide proper grading for drainage	Infrastructure Drainage
The scenic quality of the greenway is most important. River views are super! Creek vies are good. Open vistas are great.	Landscape and Environmental Design
I would like to see more walking access to get to the greenways and I would like for the greenways to be more usable for commuting around the city	Neighborhood Access, Transportation and Mobility Infrastructure
They must be invested in and maintained. They must be patrolled and homeless people removed immediately. There is no reason they should be impeding taxpayers' sites.	Safety Management, Trail Maintenance and Improvement
Need Greenway access in Green Hills.	Neighborhood Access
continue to build the most intergrated greenway network	Greenway Connectivity and Expansion
They need to be connected so they can be better utilized as pedestrian transit corridors. Also, with the popularity of E-Bikes in Nashville's hilly landscape, charging stations could be warranted soon.	Electric Bike Infrastructure, Greenway Connectivity and Expansion
I feel extremely unsafe at Brookmeade Greenway.	Safety and Security
Maintenance on the Harpeth River Greenway takes a really long time. More expedient/efficient maintenance and repairs would be appreciated.	Trail Maintenance and Improvement
With proliferation of various electric bikes, it would be good to update and refine Metro Park policies and post some new signs reminding all types of cyclists (human powered and especially electric/battery powered) that the rule on greenways is “yield to pedestrians” and that there is a speed limit for cyclists. I am seeing increasingly faster and more obnoxious e-bikes, electric bikes, electric unicycles, etc… on our greenways and they expect pedestrians to move over for them.	Electric Bike Regulations, Safety and Security
I just found out there is one 2 miles away!	Neighborhood Access
Greenways can be wonderful for families, but before adding more, maintain and improve the ones already in place.	Trail Maintenance and Improvement
The greenways are unsafe and very lightly patrolled. Hire more park police.	Safety Management
Please fix Bellevue’s Greenway. The trail requires special paving equipment and the grounds/land on each side of the greenway require major repair to prevent mudslides and puddling waters. It’s a mess after any rain.	Drainage Issues, Trail Maintenance and Improvement
lots of fragmented greenways along mill creek and seven mile - makes its it not not very fun and dangerous because if you pass someone they will know your path and can attach on the way back	Greenway Connectivity and Expansion, Safety and Security
Just want to reiterate the above that drinking fountains, benches, and shade help make the greenways accessible to seniors, particularly those with mobility issues or those that struggle in the heat.	User Experience and Amenities, Senior-Friendly Design
No	
Yeah, just had the idea to sweep bike lanes!!! They are FULL of broken glass on Davidson and here in Madison. If Saunders had speed cushions and bike/walking/running lanes, that would GREATLY help connect Madison to the East Nashville bike lanes.	Trail Maintenance and Improvement, Transportation and Mobility Infrastructure
I usually travel outside of Hermitage to do any greenway exploration because the ones closest to my house are filled with people passed out under trees and bushes.	Greenway Usage, Safety and Security
Public input website for users to report issues and ask questions	User Feedback System
More greenways in my area (37211). Would love more than anything toddler-friendly playgrounds (fenced-in, no mulch, and shade).	Playground Infrastructure, Greenway Connectivity and Expansion
Love them!	
Securing the Highland Rim as a whole.	Regional Conservation
Na	
Please Add More Lighting And A Larger Gym And Picker Ball Courts At McCabe Park	User Experience and Amenities
The National Park Service in charge of the Trail of Tears is poised and ready to help us with a plan. The Fontanel greenway is on the Trail of Tears route, and neighbors would like it to be renamed in honor of the Trail of Tears. Additionally, we request that you connect trail systems to major parks (Bells Bend, Beaman, Warner, Radnor, Whites Creek Park) and expand greenways into natural areas, not just urbanized zones. Creek)	Park and Green Space Development, Trail Historical Significance, Greenway Connectivity and Expansion
Rental ebikes right by the greenway were wonderful. I miss them a lot. I’d take regular rental bikes too.	Bike Rental Services
N/A	
Keep the natural areas surrounding the greenways healthy to maintain the beauty and benefits of being in nature.	Park and Green Space Development
Addie connect a greenway in Green Hills	Greenway Connectivity and Expansion
The seven mile greenway is pretty short and doesn't feel like it connects to anything or could actually be used for anything besides recreation.	Greenway Connectivity and Expansion, Recreational Utility
Need Greenway access from the Ellington side of Gallatin	Greenway Connectivity and Expansion

I can't thank Metro Parks enough for its work throughout the Metro area. The progress we can see in the Open House PPT slides is remarkable. One area for further improvement is access to Greenway trails. While having 110 miles sounds like a lot, it isn't enough for a county of our size. Also, the trails can be quite disjointed which makes it difficult to ride for longer distances. "Electric Avenue" is an idea to leverage the crisscrossing TVA power lines by placing paved, multiuse trails under them. This existing greenspace could double the lengthy of greenways in Davidson county and connect to greenways in adjacent counties. For example, Crockett Park in Williamson county is ois on the same North/South TVA power line as the short greenway at Whitfield Park on Edmondson Pike. In addition, that North/South TVA power line intersects with East/West power line near Ellington Ag Center which runs adjacent to Radnor and then all the way to the Harpeth River trails near Edward Warner park and beyond. While this would be a politically complex development, it is a natural fit with the master plan, as these two examples are only the beginning of the opportunity to leverage existing greenspace in a highly developed urban area. Mike Brennan Crieve Hall Neighborhood Association 612 221 1299 michaelgavanbrennan@gmail.com	Infrastructure Optimization, Greenway Connectivity and Expansion, Infrastructure Development
Plant native plants along the greenways to demonstrate our city's commitment to supporting our ecosystem. Engage greenway users with interpretive signage with QR codes that give natural and historical information.	Navigation and Wayfinding, Landscape and Environmental Design
Love the Richland Creek Greenway! Has anyone considered putting a camera along the areas that are more remote? Specifically the stretch along the railroad tracks - when I'm alone and no one is out that's a nerve wracking area.	Safety and Security
We need more creativity in building greenways that go into and through commercial areas. Right now, our greenways are primarily in more natural, rural or suburban areas and for recreation. We need new models for greenways in urban settings with residential, office and restaurants/retail. Now only will this serve a lot of Nashvillians in urban areas, but it also helps us use greenways as a viable transportation option. Even on the next page, where "greenway land" is described - it's totally a rural/suburban definition - no reference to how greenways can go through and serve urban areas.	Trail Design and Infrastructure, Transportation and Mobility Infrastructure
Actually enforce the rules. Dogs off leash, cyclists blasting through, dog shit not being picked up.	Rule Enforcement, Trail Etiquette
Whites Creek, North Nashville, and Bordeaux are completely forgotten and neglected by the city council. We deserve better facilities.	Neighborhood Infrastructure Equity
Stop using concrete sidewalks and use asphalt so one can use a walk behind running carriage with kids so it is smooth and cyclist can get to Greenways easier without all the bumps and such with concrete sidewalks. Concrete sidewalks are outdated!	Accessibility, Trail Maintenance and Improvement
The docks for rental bikes should be at the parking areas for all parks and greenways. Making it difficult to use these bikes is ridiculous.	Bike Rental Accessibility
No	
Absolutely love the greenways, but the level of repairs and maintenance needed is also disruptive to use - eg areas closed at Shelby Bottoms & Park - zig zag boardwalk closed & Davidson Road closed - challenging to connect to other bike lanes	Connectivity Challenges, Trail Maintenance and Improvement
I would like for Nashville to create a destination cafe, similar to The Orchard tea room in Grantshire, a ~5-minute bike from Cambridge, or Rosendals Trädgård, the gardens, farm, and restaurant located in Stockholm. We should create a destination cafe with Greenway access for people to bike or walk to and enjoy local ingredients, great coffee, wine, bread, etc. Maybe even live music. It could be a public-private partnership and could incorporate community gardens and rewilding efforts.	Destination Cafe Concept, Community Garden Integration
Better connectivity without having to ride on busy streets	Greenway Connectivity and Expansion
Some if not most Cyclists and Ecyclists speeds are extremely dangerous, and some act supremely entitled. Many don't signal their passing and they spook people and dogs. I'd say E-bikes need to go but cyclists go just as fast if not faster and behave just as reckless.	User Behavior, Safety and Security
no.	
I love the greenways and parks. I am a very regular user--3-4 times per week mostly to bike, hike, and run. The biggest issue that I experience is loose dogs. I have almost wrecked my bike dodging dogs. One time I politely reminded the owner that the dogs were supposed to be on a leash, he started yelling at me and calling me names. Dog owners get so ugly that I've quit saying anything at all. I wish that there could be more enforcement of the leash law. Several years ago, it was enforced for a time period and people were so much better about leashing.	Trail Etiquette, Dog Control
MORE RIVER ACCESS FOR KAYAKING	River Access
I'm an active user of my nearest greenways for recreation, usually walking/dog-walking or cycling. I would like to see improved ease of access to the greenways without driving to the trailhead. Despite all of the nearest trails to me being bicycle and pedestrian friendly, I can't travel all the way there without interruption of bike lanes or sidewalks. Second improvement would be additional lighting on sections of greenway, as I sometimes commute and cycle via greenway in the fall/winter months when it gets dark early.	Trail Access, Trail Lighting, Lighting Improvements
PLEASE blow the 11.2 route within Percy Warner Park off more often -- especially after storms and in fall/winter after hickory nuts fall on 3 mile hill and the stretch of 11.2 just beyond that. And fill potholes on all surfaces within the park. There's currently a sinkhole in the road near the Deep Wells trailhead, along the 5.8 route. It looks like a section all the way across the road is going to sink in.	Trail Maintenance and Improvement, Road Surface Repair

Please connect Watkins park to the greenway system- I teach at coach at MLK and we NEED this so much- we love the greenways but getting to them is a stretch for some of the less experienced kids.	Neighborhood Access, Greenway Connectivity and Expansion
Would be nice to have e-bike rentals.	E-Bike Rental
It would help my neighborhood to connect the Browns Creek Greenway to the Elmington Park Trailhead. That short 4 stretch would be a huge addition to my neighborhood!	Greenway Connectivity and Expansion
Please DO NOT add lights. It adds to the light pollution and confuses the wildlife. The park hours, sunrise to dusk, is perfect. There is no need for lights. Keep it natural.	Natural Preservation
Please deal with excessive speed and recklessness of electric powered vehicles on the Greenway	Vehicle Speed Control
Please add more bike rental options by greenways. More kayak rental options from existing outfitters would be great so that it's easier to access the river. Please add cafes and restaurants along the greenways. This would take Nashville to another level!	User Experience and Amenities, Rental Services
We need additional greenways that connect existing greenways to provide car-less routes for walking/biking. Riding on streets is dangerous.	Greenway Connectivity and Expansion, Safety and Security
Please have rental bikes available at Two Rivers Park - they would be great for greenway access into Shelby Park for those of us who live in Donelson/Hermitage.	Bike Rental Services
Finish the projects in a timely manner. An old terrace at Ravenwood Park has been fenced off for a year and repairs still haven't begun. Ravenwood Park still only has Porta Potties.	Park and Green Space Development, Park Facilities, Project Completion
Unless you are ok with me popping a squat, a few more porta potties please!	Restroom Facilities
Please just make them safer from cars and connect them so you can safely link between trails throughout the city. Amenities (shade, benches, etc) are nice but safety from cars is the top concern I have. For context, I bike commute from Shelby Airpark to Vanderbilt so have had many close encounters with near accidents but the greenway infrastructure helps immensely.	Connectivity, Safety and Security
Make connectivity a priority! Build trails along creeks! Shade, shade, shade - provided by trees	Landscape and Environmental Design, Greenway Connectivity and Expansion
Improved connectivity with various greenways.	Greenway Connectivity and Expansion
The Greenway closest to my house is short and isolated. I would enjoy it much more if it connected to others.	Greenway Connectivity and Expansion
Please connect Mill Creek Greenway between Blue Hole Rd. and Ezell/Harding Pl. Currently, I have to drive to either section instead of being able to walk to greenway.	Greenway Connectivity and Expansion
I will share again that getting the greenways to connect down into South Nashville would be incredible! We would like to use the greenways to commute to work in downtown Nashville from our home in the Glengarry Neighborhood	Commuter Access, Greenway Connectivity and Expansion
Lytle Park is a great candidate to add an incredible bike park to our great city. Please have a look at Valmont Bike Park in Boulder, CO. It is a 42 acre bike park owned and maintained by the city. It has features suited for 3 year olds on balance bikes, all the way up to the some of the best pros in the country.	Bike Park Development
no	
Can we do more to reinforce pedestrian safety in our parks as part of Metro's Vision Zero efforts? While most people know to keep right on shared-use trails, they assume that is also the correct practice outside of parks. Many pedestrians in neighborhoods without sidewalks may not realize that the safest option is to walk on the left side of the road, facing oncoming traffic. In fact, this is part of our state law: "When practicable, use the left side of the roadway facing traffic when not on a sidewalk." (TCA § 55-8-134) As we work toward eliminating traffic-related deaths and serious injuries, raising awareness of this simple practice—both in and beyond our parks—could be a small but meaningful step toward safer streets for all.	Traffic Law Awareness, Safety and Security
Lighted greenways, especially for when it gets dark earlier. Emergency call towers throughout. Zero homeless on trails/greeways and surrounding areas.	Trail Design and Infrastructure, Homeless Management, Safety and Security
We'd love a greenway in Old Hickory, closer to our home.	Greenway Connectivity and Expansion
We have been waiting for the construction of our new community center in Old Hickory. It's taken a long time, but we're excited about it, and it will truly fulfill many of the needs I've listed. Our area has no other WALKABLE resource like this, which is so important. The city should also aim to properly connect Rayon City to Old Hickory Village, which would encourage more neighbors to walk to the community center.	Park and Green Space Development, Walkability, Neighborhood Connectivity, Community Center Development
A Pavillion for outdoor concerts	Outdoor Event Spaces
Not having access to fresh clean water to drink on a hot day on the greenway is scary.	User Experience and Amenities
River Access Points.	River Access
Nashville is well behind other major cities in their investments, services, amenities and infrastructure with their parks.	Park and Green Space Development
I would love to see "outdoor recreation equipment" for children along the greenways. These are relatively common in Scandinavian countries. Not full playgrounds, just small climbable structures off to the side on trials for kids to explore. This would also be a cool opportunity to involve local artists, which is my second strong recommendation! As a Nashville native, Dragon Park is still the gold standard of public art/park collaborations and any small or large scale art projects do so much to personalize a space and make it memorable.	Children's Recreation Features, Public Art Integration
The greenway is awesome, maintain the trail and connect the thing to the south loop so the part of the city that pays the highest tax burden can access the thing.	Greenway Connectivity and Expansion, Trail Maintenance and Improvement
Converting the old Hillwood High School to a park would be ideal.	Park and Green Space Development, Park Conversion
Improved connectivity to bike lanes and to other greenways would make them more usable. It's fantastic that you can ride from downtown Nashville east to Percy Priest Dam or west to Bellevue primarily on greenways, however some places lack connections or are dangerous. Example: crossing from Percy into Edwin on Old Hickory. North-South greenway routes would be nice- or decent bike lanes. Hoping that the Bellevue terminus is extended beyond the railroad tracks and connected to the soccer fields soon. More greenways in North Nashville would be nice.	Bike Infrastructure and Cycling, Greenway Connectivity and Expansion
Visit/research other cities who have invested heavily in their public parks. Metro is well behind most major cities in terms of amenities, facilities, access, art , and beauty.	Park Infrastructure Benchmarking

please add more restrooms in permanent structures that are routinely cleaned and monitored	Restroom Facilities
Honestly, I love the greenways that I do use and don't have a lot of feedback for their improvement. The biggest issue I have with them is that they feel isolated and disconnected from each other and I would love more than anything else to see them combined into a larger, connected network. As someone who lives in midtown and bikes as my primary mode of transportation, and feels like I take my life into my own hands every time I do, having these greenways connecting neighborhoods would be life-changing for me. Just seeing the Charlotte Corridor in development on the map, which would give me a safe route to Bicentennial and Germantown, feels like a massive leap for my safety, mobility, and enjoyment within Nashville.	Greenway Connectivity and Expansion, Safety and Security
Please invest in West Park in the Nations!	Park and Green Space Development
Nashville did well when we started our Greenway program but progress has stalled. We need to expand our Greenway Network! And connectivity to further city bikeways	Greenway Connectivity and Expansion
Add the Opry Mills connector…please	Trail Connector Development
More garbage or recycling cans along trails to reduce unnecessary debris.	Trail Waste Management
Need volunteer staffed bike & hike patrols similar to Towpath trail in Akron/Cleveland Ohio.	Trail Patrol Services
We have to drive at least 10 miles or 20 minutes to get to the nearest Greenway. We wish there was one closer.	Greenway Connectivity and Expansion
t	
Build new parks, facilities, and greenways.Greenway. i would specifically like to see more nature play areas and activities for children, as well as community gardens and nature communication. Let's also repurpose the defunct pools at the Peeler Park Greenway. What once was for keeping our community separate could ve repurposed to bring our community TOGETHER!	Park and Green Space Development, Community Garden Creation, Nature Play Areas
weaving of public art and history, significance of environmental benefits	Environmental Education, Public Art Integration
Bike lanes Sidewalks Public education campaign for motor vehicle drivers to ensure safety of bicyclists and pedestrians	Bike Infrastructure and Cycling, Public Education, Safety and Security
Motorized vehicles have gotten out of control. Electric Unicycles, 4 wheelers, Electric Dirtbikes (Surrons).	Trail Vehicle Regulation
I take advantage of the linkages already in place between greenways. Shelby/2 rivers is a 22 mile ride for me. I can link that with the downtown greenway to go even further. And I will sometimes link together the West Nashville greenways.	
The staff at Shelby park's Nature Center are stellar, as are the staff of Friends of Shelby Park. Love to take advantage of the classes at the nature center, and I now serve on FOS board.	
While all of the ideas above would be great improvements to the greenway, we obviously can't afford to implement everything. I believe the top priority should be connectivity—please focus on connecting the greenways.	Greenway Connectivity and Expansion
We need a more comprehensive greenway network. Connect together the greenways and fill in the gaps.	Greenway Connectivity and Expansion
I am seeing improvements and hope a fair amount of the property tax increase for this year, will help fund some of the suggestions I have mentioned. I am proud of the progress but the neglect over the years means it does not happen immediately, but you are adjusting to needs.	
Care of the animals that live around our parks and greenways is atrocious!!! I am horrified by what I have seen!!	Wildlife Conservation
I think tree canopy cover would help so much. The greenway right now feels like a highway with pavement where you cook in the summer months. The summer months are when we're out of school and want the kids to have their bikes and our stroller out. So only makes sense to use the greenway in the limited fall and spring seasons.	User Experience and Amenities, Landscape and Environmental Design
We need greenways and bike lanes thought about as an integrated network that connects and lets people get places or string together longer runs or bike rides	Transportation and Mobility Infrastructure
Quit blocking greenways for construction. Provide signage for detours. When construction ceases, remove detours & obstacles to greenways	Trail Accessibility, Construction Management
The Peeler Park Pedestrian Oath has been in the top four Council priorities the last five years in a row, most often #1 or #2. Listen to the people and build this decades awaited pedestrian path to connect our greenways, community, and city.	Pedestrian Path Development
The Peeler Park Pedestrian Oath has been a Council top priority for years. Please listen to those of us that use this Greenway every possible day and build this Pedestrian Bridge Path to connect our community to the other greenways and communities in our city.	
We frequent bells bend and beanman. Seating and water along the way would be super helpful!	User Experience and Amenities
I would have loved for Ravenwood Park to have stayed all natural and not had a children's playground perched on the hill and all that...but I get it. But I sure hope that Lytle Farm will be intentionally kept as natural as possible.	
Ebikes are motorized vehicles that travel at 25mph ++. They are a hazard to everyone on the greenway...including themselves. They should be prohibited.	E-Bike Regulation, Trail Vehicle Regulation
The Peeler Park Pedestrian Path has been in the top four Council priorities the last five years in a row, most often #1 or #2. Listen to the people and build this decades awaited pedestrian path to connect our greenways, community, and city.	
Please connect the Greenway Across the river into Madison! Peeler Park is so beautiful and I think the city would really benefit from getting more access to it and us getting access to the rest of the Greenway!	Greenway Connectivity and Expansion
A dog park at Peeler would be nice.	Dog Park Development
I don't use greenways often because I have a creek and woods, and can take my dogs. But I would love to see connected greenways.	
Expand connectivity throughout the city	Greenway Connectivity and Expansion

The Peeler Park Pedestrian Oath has been in the top four Council priorities the last five years in a row, most often #1 or #2. Listen to the people and build this decades awaited pedestrian path to connect our greenways, community, and city.	
e-bike and micro mobility stations would be really nice! There is a lack of waste baskets on the stones river greenway and I often times have to carry my dog's waste long ways until I get to the dog park or Kohl's. That stretch is about 6 miles.	Mobility Stations, Waste Management
MILE MARKERS WITH SOLAR LIGHTING WOULD BE HELPFUL.	Navigation and Wayfinding
Do not add lighting! We are a bird safe community	Wildlife Preservation
I only care about the Homeless in Nashville who need those spaces for Tiny Homes, Pallet Homes, Pavilions with free stores, laundry room, shower stations and pets to be welcome	Homeless Housing Solutions
Please extend Mill Creek Greenway and Seven Mile Creek Greenway! Please advocate for bikelanes along Edmonson Pike	Bike Infrastructure and Cycling, Greenway Connectivity and Expansion
It's already noisy in most areas, I'm hoping that motor bikes and loud activities are not part of the plan since noise is everywhere and a park should feel like getting away from the noise of the city.	Noise Reduction, User Experience and Amenities
I'd like to see some mini parks in the greenways. You have parks at the head of greenways, but not in them that I've run across. My favorite stopping point on the Metro center -> downtown Nashville greenway was just removed for a construction project and that was sad. It was a little intersection with benches and some art. It is missed. Art, cool spaces along the trail, as well as trails with nothing would be cool. Also a map at every bench, just put it on the back of benches if you want. Too many people stop to ask you where they are when you're sitting for a bit.	Wayfinding Signage, User Experience and Amenities
Limit Greenway to people only. Feel uneasy when passing large dogs. Dog should only be allowed at a dog park	Dog Policy, Safety and Security
More protection from golfers and golf balls is also needed at Richland Creek Greenway. Signs have recently been added to watch for golf balls! Not much protection there. More fencing is needed and the fencing needs to be kept in good repair. The recent new fencing to keep people off the golf course is good, but the protection for the greenway users also needs to be expanded and maintained.	Trail Maintenance and Improvement, Safety and Security
I love the Greenways - thank you!	
The best part about Shelby Bottoms is the ability to surround yourself with nature and still be so close to the city. However, the park is so well used that it needs more trails; for bikes, for runners, and for those casually walking and enjoying it. Yet somehow, without impacting the wildlife that inhabit the park. Additionally, the roads around the Shelby sports areas are often used as cut through for cars and there are not enough sidewalks or designated areas for people and bikes. The cars don't care that they're speeding through the park	Trail Capacity, Park Traffic Management
Greenway to Greenway connectivity to make a more comprehensive Greenway system throughout the city Loop Greenways instead of point to point	Trail Design and Infrastructure, Greenway Connectivity and Expansion
Greenways that are loops in addition to the point to point trails	Trail Design and Infrastructure
Can you connect the McCabe greenway to the Nations?	Greenway Connectivity and Expansion
I would love to see the greenways connect. It would be great for biking, commuting, and overall greatly improve the outdoor experience of Nashville	Greenway Connectivity and Expansion
I love the greenway closest to my house, but its use has been limited for NEARLY A YEAR as the boardwalk has been shut down. I would love to see facilities repaired promptly before any new features were added.	Trail Maintenance and Improvement
Would like to see bikes and cyclists not allowed in certain pedestrian only areas. Would like for large running groups to stop taking up the entire trail. Would like signage showing what side of the trail you should be walking on.	Navigation and Wayfinding, Trail User Etiquette
Look at how Europe does things!! Public spaces are always multipurpose and offer multiple points of interest. Exercise/play equipment; beautiful vistas, scenery, or art; historical sites/markers; botanical markers (signs saying what flowers and plants are); signs with information about local wildlife in 3 languages (English, Spanish, Arabic or Chinese); places to rest; shade and sun. You could partner with local nurseries to donate funds for the info signs (add "sponsored by Company Name". You could partner with local artists to donate art or to create informational signs about the flowers and trees ("drawings done by Artist Name" or "design by Artist Name"). Create opportunities for local vendors to set up shop *along* the Greenway -- maybe not food trucks but like food CARTS, like all of the street vendors in Mexico. You could even host fundraising festivals to earn money for cool art, signage, more native plants, etc. and set up outside of various entrance points in different communities; do a "Greenway Passport" challenge where you visit multiple greenway sites and collect stamps to be entered into raffles. Host singles greenway walker nights with the routes highlighted, do different routes around the city every month. Let me know if you wanna hire me for your marketing team LOLOLOLOLOL Im sorry, Im just really passionate about community spaces. After spending a LOT of time in other countries, having a THIRD SPACE is something that I wish we had here. Or rather having more third space options that dont require me to DRIVE A CAR to them. IT kind of defeats the purpose to have to drive to the third space, especially if its outside of my immediate community. So this idea of FREE community third spaces is something Im super passionate about and want to help create more of in Nashville (and more specifically Donelson). The greenway could help promote more of that at our local parks and greenway access points!!	Community Engagement and Social Aspects, User Experience and Amenities
Operational water stations on the greenways are critical for safety - there are areas where if someone were to faint due to dehydration, it would be extremely dangerous. While lights could be nice, I think they could also be disruptive to the animal wildlife that live along the greenways, so I would prioritize water stations above lighting.	Safety and Security
All public buildings should be accessible through safe multimodal infrastructure. Parks, libraries, schools, police and fire stations, hospitals all safely accessible without a vehicle would be a paradigm shift in American planning.	Transportation and Mobility Infrastructure

Great walking trails have trees for shade and biophilia, which often requires going further to with larger crowds. There also needs to be more bike friendly trails for both enjoyment, but also helping people self encourage use of cycling in more frequent and as a daily use transport option.	Trail Design and Infrastructure, Transportation and Mobility Infrastructure
Better signage and mileage signs to landmarks (see Chattanooga riverwalk or New Albany riverwalk)	Navigation and Wayfinding
I would love to have a greenway that connects to or through restaurants (think Atlanta Belt line) but also has trees, native plants and lighting for safety	Trail Design and Infrastructure, Safety and Security
Being able to find specific trail information easily online (including both mile markers, distances, etc) as well as an event schedule all in one place would be most helpful.	Trail Information Accessibility
it would be nice to see more mounted patrol or bike cops	Safety and Security
It would be lovely to have a greenway in crieve hall. I understand Whitfield Park kind of has one and we have the zag Center trails but it would be nice to have something at the Ag center that is closer to the path on the West Side off of White Bridge	Greenway Connectivity and Expansion
Please don't add lighting to greenways! It will disrupt wildlife!	Wildlife Preservation
Trail signs that say prone to flooding if it does flood. Increased connectivity between greenways. Plant identification charts. Maybe a ropes course in the woods?	Navigation and Wayfinding, Greenway Connectivity and Expansion
We've historically only built greenways along waterways, which makes for a lovely stroll, but not always a direct path that's good for transportation. I would love to see more use of utility easements for greenways, since they tend to be more direct paths that connect neighborhoods to schools and commercial areas, typically are already cleared (so less need to cut down trees and clear natural land), and can create a network of trails off the back side of neighborhoods and apartment complexes that allows people to avoid the traffic/pollution/noise/congestion/danger of major roads.	Greenway Connectivity and Expansion
Greenways need much more funding	Funding
A cohesive network of connected greenways would be ideal with zoning that allows for business and residence alongside them giving patrons the ability to walk to a restaurant or event.	Greenway Connectivity and Expansion, Urban Planning
We need more greenways	Greenway Connectivity and Expansion
Have longer, more interconnected greenways.	Greenway Connectivity and Expansion
Link greenways together. Need greenway from Green Hills Park. Link greenways to Centennial Trail in Cheatham County. Create arboretum.	Trail Design and Infrastructure, Greenway Connectivity and Expansion
Better Clean up around waterways.	Trail Maintenance and Improvement
Please do not add more surveillance or police presence to parks or greenways. All people will stop coming to parks if that happens.	Safety and Security
n/a	
Convert TPS complex to urban state park and greenway. Connect woodbine to greenways via sidewalks. Would love to see cute cafes in the greenways that are designed to harmonize with natural character of greenway. Please add visual evergreen tree barrier around border of Coleman park to block out and hide busy intersection of Nolansville Ed and Thompson Ln	Park and Green Space Development, Trail Design and Infrastructure
I work in the capitol view area and it feels like we are almost connected to the greenways. Also I live on Belmont so I could technically bbike to work, but the amount of drivers I see on their phones during my commute make me feel unsafe even though there are protected bike lanes.	Safety and Security
On the Stone River Greenway when you leave from the YMCA trailhead in Donelson, you are up against a law enforcement training facility. There are some paths that are marked that you cannot go on them and some gravel roads that are not marked (appears to be old faded signs). I am unsure if these are greenway or the training facility. And since it is a law enforcement training facility I am very hesitant to go try to find out. Signage would be great. Also there are maps at the beginning at trailheads but along the way would be great too, especially in more wooded greenways.	Navigation and Wayfinding
I would like to see the Highland rim incorporated in the Greenways so we have a ring around our city of land that keeps the air quality better.	Landscape and Environmental Design
The greenways are pushed to the edge of the golf course at McCabe and now pedestrians are fenced in. What was once a relaxing walk has become super stressful and crowded. Iy isn't good for a mental health walk to be so fenced in.	Trail Design and Infrastructure, User Experience and Amenities
Plant fruits and vegetables and flowers	Landscape and Environmental Design
I wish there were more destinations along the greenways--playgrounds, places to picnic, places to buy food or fun places to visit.	User Experience and Amenities
We feel satisfied with the greenways on the hermitage side of our area, but I would love to see more towards the Antioch side	Greenway Connectivity and Expansion
The homeless people are a problem when dealing with safety.	Safety and Security
I think they should be left in as natural a state as possible. Any plants planted should be natives.	Landscape and Environmental Design
San Francisco is a good model for outdoor athletic facilities. Expand greenways into natural areas, not just urbanized zones. Create incentives for developers to invest in greenways.	Urban Development, Greenway Connectivity and Expansion
The greenways are one of our cities best assets and places for community connection. Bring back the bike rentals. I saw parents using them all the time to ride along their kids who were learning to bike. and please please please add signage.	Navigation and Wayfinding, Bike Rental Services

I would remove the parking area for Whitsett Park Greenway on Wompole Dr and have all parking on the East Thompsin Lanr side of the park. This parking area in the middle of a neighborhood only invites people to come and park fir nefarious reasons such as drug dealing and preying on neighborhood walkers. If they want to walk the paved area of Whitsett Park on Wimpole they can walk across Old Glenrose to the pedestrian bridge that takes you to the Wimpole Drive side. This parking area should never have been added in the middle of the neighborhood. Thete is more than enough parking on E Thompson and is more noticable to law enforcement. We once had a beautiful community garden on the Wimpole Drive side thst was handled ny hands on Nashville. Would love to see that come back. Pleeeease get rid of the common parking on Wimpole Dr. as well as the homeless camps along Mill Creek which invite more nefarious behavior into our neighborhood. I know people who live in Glencliff Estates who are afraid to take their children to this park. It us very sad	Neighborhood Security, Safety and Security
Start thinking outside the box. With dwindling green space in Nashville Urban greenways need to be a part of your program in areas where green space is not available.	Park and Green Space Development, Urban Greenspace Planning
Would like to see Mill Creek 6W sections be connected.	Greenway Connectivity and Expansion
More signage that is easy to link between Greenways. Maps, signs, miles in neighborhoods towards nearest Greenway.	Navigation and Wayfinding
Food trucks Ice cream trucks ATM if possible	User Experience and Amenities
Turn the bridge (the one past the Fortland Rd entrance) that goes over the gully into a rainbow bridge so people can put pet collars there. It is such a lovely space and would be beautiful there.	Community Engagement and Social Aspects, Trail Design and Infrastructure
separate walking and wheeled lanes/pathways	Trail Design and Infrastructure, Traffic Separation
Please complete the greenway connector from Browns Creek Park to Sevier Park. Consider adding a shelter to Browns Creek Park	Park and Green Space Development, Greenway Connectivity and Expansion
Swimming!	
God! Enough about greenways! Parks Dept. seems obsessed.	
McCabe is very dark and can be slippery for biking	Bike Infrastructure and Cycling, Safety and Security
Less trees planted along walk way. I'm a single woman that likes to jog alone and avoid the forested greenways over the open-air locations for safety reasons.	Landscape and Environmental Design, Safety and Security
Stop the motorized vehicles!	Vehicle Restrictions
Priority for greenway connectivity and safety	Greenway Connectivity and Expansion, Safety and Security
Please add a bathroom at Cornelia park.	Park and Green Space Development, Park Facilities
More shade is needed and safety concerns at Shelby Bottoms due to homeless living in Shelby bottoms park More police presence is needed. Better working relationship with park managers and police. Caveman's gotta go	Infrastructure Improvements, Park Safety
Very nice landscaping and bridges.	Landscape and Environmental Design
Playgrounds, outdoor exercise equipment is needed	User Experience and Amenities
possibly widen in high traffic areas	Trail Design and Infrastructure
Keep racing cyclists more aware of others, less condescending, and careful of young children at play. I cycle too but recognize every one else has equal right of play.	Bike Infrastructure and Cycling, Safety and Security
Please add bathrooms at Cornelia Airpark	Park and Green Space Development, Park Facilities
We can't wait for more connected greenways, to help ride bikes across the city and to great destinations.	Greenway Connectivity and Expansion
Greenway should be safe and accessible for all and there needs to be monitoring to ensure safety as well as to make sure people are ensuring control of their pets. If bicycles are allowed, greenways need to be wider and bike lanes clearly marked.	Trail Design and Infrastructure, Safety and Security
Above Sevier Lake (opposite side of Community Ctr), entering from river side, there's a stone wall on edge of pathway/hill that's literally falling apart. Continuing along, the primitive trail just stops - need a clear route to descend the hill into the park - I've had to step through the trees/branches where the primative path has now overgrown.	Trail Design and Infrastructure, Trail Maintenance and Improvement
See above comment about traffic light at Shelby Ave and 9th	
spend the money on installing more sidewalks in East Nashville before improving/expanding greenways/bikeways. General pedestrian safety should be Nashville's #1 priority, even if it means moving funding away from other places. for example, I support the installation of a bathroom at Cornelia Airpark but I would rather see that money spent on sidewalks instead since not having a bathroom is an inconvenience at best and does not threaten public safety.	Funding Priorities, Pedestrian Infrastructure
I would like the subdivision to add more walking trails to connect to the green way. If we could walk instead of drive we would go more.	Greenway Connectivity and Expansion
Shelby Park has too many folks sleeping there overnight.	Park Safety
I create outdoor interpretive spaces for a living... and the CRG has so much promise. I was so disappointed that the only river walkway wasn't maximized; revitalization of Chicago's river walk is a GREAT example of what can be done and how it directly feeds back economically to the city.	Riverfront Development
Wayfinding and visual queues that designate greenways and the "brand" is consistent across the city.	Navigation and Wayfinding
Please exercise caution when adding lighting to greenways as lighting may take away from the natural environment	Lighting Design
Pleaseeeee fix up Radnor Park we love it but that paved path is a mess!	Trail Maintenance and Improvement
Cycling connectivity needs improvement	Transportation and Mobility Infrastructure
While there is a bike fix station at Cornelia, last check it was not operational. So adding is wonderful, but they need to be maintained/operational.	Trail Maintenance and Improvement
Get rid of bush honeysuckle and privet and plant native species	Landscape and Environmental Design
Toilet access	Park and Green Space Development, Park Facilities

Would be so grateful if the greenways were connected somehow, so it's possible to bike/walk between them. Would also be wonderful if there were food trucks, restaurants, etc. so the greenways were not just for walking but for commuting, making the walking purposeful rather than just for exercise.	User Experience and Amenities, Greenway Connectivity and Expansion
Whatever beef there was years ago with the ebike company should end. The places that make the most sense to have ebike rentals are near greenways. Removing ebike rentals from parks and greenways was a weird power move that only hurt the overall recreational experience of parks and greenways. And what is the point of the greenways friends group? They throw a party and a race. The other friends groups are so much better, raise way more money, give way more money to the parks dept, aren't snobby, and offer real programs (a party isn't a program). Across the board, leadership at metro greenways specifically and parks in general seems terrible. y'all add like a tenth of a mile every two years. do more, do better	Park Management, Park and Green Space Development, Bike Rental Policy
I would love for Nashville greenway to Mimick the ones in Brentwood.	Trail Design and Infrastructure
None. Nashville is doing a great job.	
Add more greenways and make them more connected.	Greenway Connectivity and Expansion
It's very far to get from my neighborhood (Old Hickory Hills) to a greenway (Mill Creek Park). We have to drive to get there. It would be nice if there were more sidewalks or greenways nearby.	Greenway Connectivity and Expansion
Update the maps to give context for nearby points of interest or historic significance	Navigation and Wayfinding
Connect neighborhoods and amenities. I live in Autumn Oaks neighborhood and would love to safely cross Culbertson Road to use the greenway on the other side of mill creek.	Greenway Connectivity and Expansion
Clean out the debris at the bridges on Mill creek that stops water flow.	Trail Maintenance and Improvement
Police on the trails and at parking areas for vehicle break-ins. Local restaurants or food trucks with seating would be so fun!	User Experience and Amenities, Park Safety
It would really help the population in west Nashville if the Brookmeade portion of the Cumberland Green were to be connected to the Cumberland Greenway in Metro Center.	Greenway Connectivity and Expansion
make the cyclists have their own lane!	Trail Design and Infrastructure
Love McCabe greenway. I'll drive to walk the loop there more than I would go anywhere else. One of the only times we've gone to Shelby, we got VERY lost! :)	Navigation and Wayfinding
no	
Fisk park is severely under resourced when it comes to a functional water fountain. The fountain is often off, even in heat of summer. A May JAMA research paper detailed that proximity between One to 6 miles from a golf course increase Parkinson's disease risk exponentially. I would like the golf courses to be more transparent on herbicide/ pesticide(s) use and frequency. I love our parks! Access to nature is a huge balance to mental health. It would be helpful if levee greenway had trees to block wind in winter and sun in summer. This would make it more accessible for more of the day. Also- PLEASE cultivate our native TN grasslands wildflowers in this space! It would be spectacular. A real asset to the beauty of the city/state. It would be great to have a canoe/kayak launch at this greenway too	Park and Green Space Development, Trail Design and Infrastructure, Landscape and Environmental Design, Park Facilities
The Germantown to Shelby Greenway stretch is great for cyclists, the Davidson greenway is protected from cars and feels really safe and stays clean from debris. Alternatively, on Rosa Parks going towards West Nashville - that protected bike lane gets filled with debris so it is difficult to ride in. Many of the greenways, particularly the one in Germantown, are not lit up at all. During the winter when it is dark so early it makes it difficult to walk dogs in the morning and evening. I noticed this past year that even places like Bicentennial Mall don't have any lights and the sun doesn't rise until 6:45AM most of December through January, this means that it feels pretty unsafe to walk in what should be a very safe area to walk in.	Trail Lighting, Transportation and Mobility Infrastructure, Park Safety
McCabe trashcans are always full/overflowing with dog waste bags and other trash. Need more regular trash pick up.	Waste Management
I think adding some trash cans for dog walkers to put poop in would be good. There are a few but far in between.	Waste Management
Please add more bathroom or portapotty facilities at trailheads or on long trails.	Park and Green Space Development, Park Facilities
Have an emergency call boxes or safety stations along the route.	Safety and Security
Nashville needs something like Crockett Park to connect neighborhoods together.	Park and Green Space Development, Neighborhood Connectivity
Sidewalks in neighborhoods are crucial for connectivity to greenways	Sidewalk Infrastructure, Neighborhood Connectivity
My biggest ask is that the greenways all get connected to make it easier to walk/bike around Nashville.	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
More shade trees along greenways.	User Experience and Amenities, Landscape and Environmental Design
Get rid of the homeless camps.	Safety and Security
Creating a pathway for pedestrians to pass safely under the Nebraska/Wrenwood bridge to access the 440 Greenway is essential. So many walkers pass through there everyday, and it is unsafe. I've seen countless almost accidents. Doggy/trash station would be amazing so that people can take care of their pet's business.	Safety and Security, User Experience and Amenities
Just need more! Or maybe not even more, but better interconnectivity. A lot of the greenways don't really take me from one place to another -- at least not places where there are things to do, things to see, etc. I'll get from one place to another on our greenways and end up needing a car to get somewhere that I can do something.	Urban Accessibility, Greenway Connectivity and Expansion
Add water vending machines and charges. Security Cameras with panic button	User Experience and Amenities, Safety and Security

Connect the Harpeth greenway section off of Coley Davis to the section off of Morton Mill	Greenway Connectivity and Expansion
There is great urgency to acquire land and build greenways in our most urban areas before land is used for other purposes	Land Acquisition, Urban Development
Again, we need to address the homeless issue in Cleveland Park	Safety and Security
Please enforce motorized vehicle use!	Vehicle Restrictions
Safety: I am a woman and I do not feel safe on the Greenways alone too early in the AM or around dusk. I have had multiple encounters with who I assume to be unhoused people and while it has mostly been OK, it does make me uneasy and less likely to be out there.	User Experience and Amenities, Safety and Security
please add more signs for areas that are off limits. too often do i see parents letting children wade into nature preserve areas with creeks and such	User Behavior, Environmental Protection
Na	
Continue and expand the use of the greenways system to acquire open space, limit development in areas that flood, and protect natural areas.	Park and Green Space Development, Flood Prevention
I live across from a greenway and LOVE IT. BUT- with Brown's Creek running through it and occasional flooding with heavy rains, I REALLY wish the city would clean out the creek/remove brush to keep the creek flowing when water is higher than usual. With the increase in new and oversized houses that have been built the run off into the creek is increased and while my property is usually not flooded - it has been happening more and more. My neighbors who back up to the creek get their crawlspace flooded every time - this didn't use to happen when the creek was routinely cleared of overgrown brush and debris. There are also issues with overgrown brush in the Battlemont Greenway (near Springbrook and Pleasant Valley) which is my neighborhood - some is blocking the paths. There are a few trees that need to be cleared as they have fallen in the past year and while not blocking the paths/they are affecting the creek being able to appropriately flow/drain - see above comment.	Trail Maintenance and Improvement, Flood Management
More bike/walking greenways will make bike commuting safer and will reduce car congestion.	Transportation and Mobility Infrastructure, Traffic Reduction
Think about adding urban green ways where traditional green ways are not possible. There are many sections of the city where a true Greenway is no longer an option due to urban sprawl. Let's rethink this and start, including Urban greenways along streets where public space would allow benches, picnic tables, Exercise, equipment, community, gardens, playgrounds, etc..	Park and Green Space Development, User Experience and Amenities, Community Space Development
Building a continuous conservation corridor and hiking trail connecting Beaman Park, Warner Park, and Radnor Lake would be a transformative project for Nashville's Highland Rim region. This trail would link some of the most ecologically rich and scenic natural areas in the county, preserving vital forested landscapes and wildlife habitats while offering an unparalleled recreational resource for residents and visitors alike. Supported by local conservation groups and outdoor advocates, this corridor would not only protect important green space but also promote outdoor health, environmental education, and community connectivity. Completing this trail would establish Nashville as a leader in urban-adjacent nature preservation, providing a legacy of natural beauty and ecological resilience for generations to come.	Conservation Corridor, Landscape and Environmental Design
I live in Riverside neighborhood off Morton Mill. In our neighborhood we have a lot of families now with small children who walk the neighborhood and use the greenway across the street. Unfortunately the traffic on Morton Mill is not very to conducive to this. The vehicles travel at high speeds and makes it dangerous for young kids to use the sidewalk of our neighborhood next to that road to ride their bikes, etc. In addition, it is difficult for families to get across the street to use the greenway due to the fast traveling traffic and is hard to obtain access with a stroller. I was hoping for some type of solution so we can enjoy our neighborhood sidewalk and the greenway across the street. Maybe speed bumps, traffic circle, or cross walk?	Pedestrian Infrastructure, Safety and Security
More of them, and sidewalks so we can walk to them safely.	Greenway Connectivity and Expansion, Sidewalk Infrastructure
Connect Charlotte Park to The Nations	Greenway Connectivity and Expansion
Again, more hours, more lighting. Especially with hotter summers and short days in winter, we need more lighting and longer hours to enjoy these great amenities.	Greenway Operating Hours, Lighting Infrastructure, Lighting Improvements
Some lighting would be useful for gathering spaces, but lighting along the pathways would lead to extra light pollution that disturbs the local wildlife and ecosystem.	Lighting Impact, Wildlife Preservation
Add colorful nature themed educational signs Like at longhunter state park	Navigation and Wayfinding, Nature Interpretation
Speed of cyclists is a problem.	Bike Infrastructure and Cycling
Would speed bumps slow down cyclists?	Cyclist Speed Control
I would love to see the Richland Creek Greenways connected between McCabe, England Park, and West Park	Greenway Connectivity and Expansion
Rentable shelters (not unlike Warner Parks) for events.	Event Facilities
Bikers are dangerous and should be banned from using greenways. I have been almost hit several times and for that reason limit my walking on them. I am 74 and really don't want to end up in the hospital with bike tracks on my face! The bikers are rude and are going way too fast.	Safety and Security, User Experience and Amenities
Love the Richland Park Greenway! It gets so much use.	Greenway Popularity
I lived in Anaheim, CA for 7 years. I could ride my bike anywhere because of bike lanes and greenways. Every river had a greenway to the beach. I hope some day every creek in Nashvilke will have a greenway. Although I wonder how it would impact the otter family behind Edmonson Pike Library.	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
Clarity on biking safety and rules i.e. who has right of way, providing a warning when approaching walkers (too many times bikers ride up on walkers and/or get too close with no warning). Need more bike lanes or biking only greenways for cyclists who want to ride 20+ miles.	Bike Infrastructure and Cycling, Safety and Security
Prioritize south Nashville greenway implementation from master plan - 440 greenway and connecting Fair Park to Browns Creek Park	Urban Development, Greenway Connectivity and Expansion

One of the most visionary and impactful improvements to our Greenways system would be completing a Highland Rim Trail connecting Beaman Park to Warner Parks. This would link two of Nashville's most ecologically significant and beloved natural areas, creating a continuous corridor of forest, trails, and wildlife habitat across the western Highland Rim of Davidson County. Such a trail would not only provide unmatched recreational opportunities for hiking, birding, and nature connection, but it would also serve as a backbone for conservation — encouraging strategic land acquisition, protecting forested land, and preserving the unique topography and biodiversity of this region. This kind of long-range greenway planning demonstrates true leadership in balancing urban growth with environmental stewardship.	Conservation Corridor, Landscape and Environmental Design
Mill Creek Greenway is supposed to connect between Antioch Park (near Blue Hole Rd /Antioch Pike) and Orchard Bend Park, I think. This would provide an excellent addition of terrain for bicycles, runners, walkers and families of all types.	Trail Design and Infrastructure, Greenway Connectivity and Expansion
Ban the use of e-bikes. Too fast for greenways they need to utilized on the bikeways on the streets.	Cyclist Restrictions
No	
Love them, thank you for them!	
Would love to see the construction of the proposed Greenway connection from Orchard Bend Park to the Greenway section along Hickory Park Drive.	Greenway Connectivity and Expansion
Intermittent maps of how the different paths connect around Nashville would be super helpful. Right now the maps available online are confusing and having them in person along the routes would encourage people to use them more.	Navigation and Wayfinding
I wanted to specify that I want to see more interpretive signs along trails allowing the community to connect with their local ecosystems.	Navigation and Wayfinding, Nature Interpretation
I would really like to see drinking water with bowl access for dogs. One time, I was walking along Shelby Bottoms greenway and my dog got dehydrated. I had to leave her, run back to the car for more water (I had only brought one bottle), and then race back to her. It was really scary and I wish there was water along the trails so she had more access.	Pet Facilities, User Experience and Amenities
Signage (possibly in multiple languages) to help people know to stay to the right.	Navigation and Wayfinding, User Behavior
They hv pretty much maintained well. Trash cans along the way would be nice but I'd strongly hesitate due to fear they may not be emptied timely. Better need woul be poop stations for dog owners poop is the worst and most negative for me on the Greenways.	Waste Management, Trail Maintenance and Improvement
Some of the older greenways are narrow for the amount of use that they now get. We need to finish the I-440 greenway.	Infrastructure Improvement, Infrastructure Capacity, Greenway Connectivity and Expansion
I love Shelby Bottoms!	
Bisecting the lanes to indicate flow of traffic could be helpful. Lots of users are oblivious to those around them. Also, make it easier for small events to take place periodically. Personally, I would love to put on a small race or two to show off my local greenways, but the permitting fees make that prohibitive. Even as a parks fundraiser.	Traffic Flow, Event Permitting
Skateparks please! Designed by someone who knows what they are doing. Two Rivers and Springfield are fantastic examples. Gallitan and Hendersonville are better than nothing but pretty similar. Murfreesboro is great just busy and a really long drive as is the one in Dickson.	User Experience and Amenities, Sports Infrastructure
Cornelia Fort is used extensively and it's really the only pleasant place to rollerblade and skate - however, it the surfaces have really eroded and there are significant cracks and small pebble zones that lead to falls and tricky navigation (especially for kids)... it would be AMAZING and life changing if paving could happen on the main loop as well as the zone directly infant of parking that you have to take to access the airfield loop. Would be even more amazing if they got painted the paint that reduces heat absorption (saw where they did a test of this in front of the Sheriff's station)	Heat Reduction Infrastructure, Trail Maintenance and Improvement
I dont go alone anymore. It would be nice to have someone patrolling area	Safety and Security
Adding more greenways in highly urbanized areas and also allowing their to be sections for rewilding (adding native flowers and plants back) would be beneficial to both people and Nashville alike. The greenway by Geodis stadium is a good example in the section where the native flowers have been planted along the greenway is amazing! More greenways like that and also finding safe ways to connect greenways to each other for easier access would be fantastic as well. What I don't want is destruction or tearing down of natural areas, native trees, etc. We should be re-wilding and reclaiming the land that has been urbanized and turn it beneficial for people and nature alike	Landscape and Environmental Design, Greenway Connectivity and Expansion
We need more and we need connectors to form a true system. Shelby is great, but it does not really extend anywhere that is heavily traveled. More More More	Greenway Connectivity and Expansion
Separate bike lanes from pedestrian lanes…	Trail Design and Infrastructure
quit spending money on greenways and put those funds towards staffing and maintenance of golf courses. The increase in pricing of the golf membership and lack of time to play (since courses closed because of staffing) is poor management decisions. None of the increase in golf fees is even going to the golf courses issues of staffing and maintenance. But rather to all these greenways-wish provide absolutely no revenue at all.	Resource Allocation, Golf Course Management
Police the road bike riders. They are aggressive and go to fast.	Bike Infrastructure and Cycling
They need a lot of work	Infrastructure Improvement
I use greenways all the time. However, I cannot safely walk or ride to them	Accessibility Challenges
Seems odd to me the trailheads aren't consistently in google maps last I was looking for one	Navigation and Wayfinding
Consider painting a yellow/dividing line down the middle of paved trails to remind/encourage people not to walk/ride in wide groups.	Trail Etiquette Markings
PLEASE do not add more lighting - the light pollution increase from changing out the old sodium(?) streetlights has been terrible; we don't need to add to it.	Light Pollution Concerns

I'm happy to see the drinking fountains downtown are functional this year :) thank you My biggest passion is making sure our kayak outfitters have access to the river. I know it doesn't make much money for the city, but I feel like it's such an important activity! as an alternative to Broadway, and a great educational opportunity about the importance of the Cumberland river. I assume city funding directly impacts the availability for parks employees to oversee the public restrooms in the Bridge Building - it would be nice to have those available and clean later than 2pm every day.	Public Restroom Availability, River Access
More unpaved trails in Shelby would be great to take advantage of shade coverage from the trees	Trail Surface Variety
We have several greenways (e.g. the downtown one) that would be super useful, but they're in terrible shape. We visited the Atlanta Beltline and it really puts us to shame. We should be turning the downtown greenway into something similar.	Greenway Modernization
Greenways are a critical part of Nashville's active transportation infrastructure and their ability to connect commercial activity, work, school, etc. should be considered a net positive, not a downside.	Transportation and Mobility Infrastructure
We need a connected greenway system in west Nashville. Any way to connect Brookmeade to the Nations? Are there plans for Bells Bend? Would be so cool to connect Brookmeade to Bells Bend via a pedestrian Bridge.	West Nashville Development, Greenway Connectivity and Expansion
Living close to a greenway is one of the best perks of living in this city. Greenways should be extended as much as possible so all residents of Nashville have this access.	Greenway Connectivity and Expansion
Adding more greenways toward the Nations/Charlotte Park would be amazing!	Greenway Connectivity and Expansion
Bathrooms at entrances would be great! It's probably not possible, but expanding greenway's paved footprints and creating "bike lanes" on the greenways would be safer for both riders and walkers. I ride the Shelby Greenway all the time and it's hard to see people around corners if they're walking two abreast or aren't on the side of the paved trail. I also think mulching some of the non-paved trails would be nice too. It's so muddy during the winter and spring that it's not that useable at times.	User Experience and Amenities, Trail Design and Infrastructure
Keep purchasing land as you can, especially in densely populated areas—this is not only for human sanity, but as the wildlife continue to expand (deer going from none 10 years ago to deer everywhere) these serve as food plots. Nobody is going to want to watch starving deer. Areas like the old Inglewood Riding Academy could be purchased and connected by road trail or other trail via easements to the greenway.	Land Acquisition, Wildlife Preservation
It would be great to have lights on the more urban greenway bike paths and to have more continuous bike paths linking the the greenways.	Bike Infrastructure and Cycling, Lighting Infrastructure
A playground at the entrance of the Forrest Green Trailhead would be enjoyed by the whole neighborhood!	User Experience and Amenities
More sidewalk connectivity is super important to me - I have to drive to access any greenway because there are no sidewalks that give access and the road is too busy to bike on.	Sidewalk Connectivity
Allow bicycles on Cornelia Fort Trail in Shelby Bottoms since it was an old road anyway. Gives us the opportunity to do some off road riding. Bicycles don't do damage like the mowers.	Trail Usage Regulations
Add emergency call stations	Safety and Security
I bike the greenway as much as I can. I bring my own water. I love the greenway.	
Lighting and food/water stations would amazing additions!	User Experience and Amenities
I would love to see a commuter push for greenways. There's something so satisfying about a full greenway. Shelby Bottoms on a Saturday, when you've got strollers, strolling, running, biking, wandering, Pausing, it's all so beautiful. Imagine that all day, every day	Transportation and Mobility Infrastructure
I love the idea of restaurants/cafes near greenways! That would add a great community feel and place to linger before/after using the facilities. I would also love to see rental bikes at greenway trailheads as well as better bike parking. If, for example, I bike to the greenway but am meeting a friend for a walk. There should be ample and visible bike parking at all greenways and parks	Bike Infrastructure and Cycling, User Experience and Amenities
several greenway trailheads currently have no signage/no map	Navigation and Wayfinding
I will add again, but it would be nice if the greenway that ended at Frankie Pierce Park extended to the Bicentennial Capital Park. or if there was ANY sidewalk added to 10th Ave N	Greenway Connectivity and Expansion
Connecting Green Hills Park to Sevier Park via a safe multi-use path along Granny White would be a game changer - a wonderful connection for Green Hills and a great, safe exercise route to get us to downtown.	Greenway Connectivity and Expansion, Neighborhood Connectivity
Please build the Charlotte Rail with Trail!	Rail Trail Development
Signs prohibiting dogs off leash	Pet Regulations
Plant wildflowers at Ravenwood park. The peninsula is perfect for a big open field of wildflowers	Landscape and Environmental Design
They need more sidewalk connections. Having a greenway nearby is great, but if you can't get to it safely, it isn't as useful. I'd also like to see greenways connect up schools more often, so kids (particularly middle and high school students) can get to and from schools safely. The autonomy of independent mobility would enable more kids to participate in sports and after-school activities.	School Access, Sidewalk Connectivity
Greenways that have a shared use for walkers and bikers can often feel unsafe. There are certain routes that are more used for bikers and if there is a way to dedicate space for bikes and separated space for walkers, that would help. There are MANY greenways that I would not walk on due to an unsafe feeling. Any greenway in the urban core with high density should have lighting at night AND safety presence. There needs to be security staff monitoring and enforcing as needed, 24-7 in some of the areas.	Trail Design and Infrastructure, Safety and Security
I'd love to see some of the segments connected. Some greenways seem to be fairly fragmented.	Greenway Connectivity and Expansion
More greenways/walking trails/parks in the northeast portion of the city, along Dickerson Pike on the Goodlettsville side of things would be amazing! I live in a newer community up north of Dickerson, and I have to travel by car and out of my neighborhood to get to any good walking trails. It would be nice to be able to walk from my neighborhood to the heart of East Nashville, let's say, via a protected greenway.	Greenway Connectivity and Expansion

We've been promised the Opry mills connector for at least 13 years. A fully connected pedestrian network of greenways and bike lanes would be amazing to use to get around town	Transportation and Mobility Infrastructure
Trash cans that don't allow animals or people to open them and pick out trash	Waste Management
You're doing a great job! There are always opportunities for improvement, but overall I feel very lucky to live by 2 great greenways.	
Along Shelby Bottom Greenway there has been an issue with pet litter. Adding stations for responsible pet owners would be great.	Pet Waste Management
Safety! As a female I hesitate to go by myself or with my daughter out of fear. More cameras, more police on bike patrol would be very comforting.	Safety and Security
Stop trying to demonize ebikes Actually build some greenways south of downtown	Southern Nashville Development, E-Bike Policy
Greenways should be ways for people to get around without driving, not just for recreation. They should connect to businesses, schools, etc.	Transportation and Mobility Infrastructure
Greenways will too disjointed. Need for a continuous system for biking and walking without entering traffic and re- entering greenway	Greenway Connectivity and Expansion
A great deal of public money has been used in creating a commendable public asset that is under the same threat as public schools or any public gathering. Also, money was spent on creating this survey, but the programmer did not ensure comments were properly displayed within the survey.	Public Asset Management
More dedicated cycling and walk lanes would make everyone safer.	Pedestrian Infrastructure, Safety and Security
There is a large empty paved lot at the end of my road, I would love to see it turned into a community garden or greenspace. On the corner of West Linden Ave and 21st Ave in Hillsboro Village.	Urban Land Repurposing, Park and Green Space Development
Make them more for transportation by creating a complete network.	Greenway Connectivity and Expansion
I really love our greenways, and I'm looking forward to seeing what is in store in the future! I'd really like to see some kind of update regarding the Opry Mills connector section of the greenway.	Greenway Connectivity and Expansion, Infrastructure Development
Keep up the good work! We are building for many future generations as well as ours.	
Make the gravel trails usable by bicycles	Trail Surface Accessibility
The portion of walking paths in the back of west park can be creepy. Unhoused folks and surrounded by foliage and trees. Feel like no one else can see you if an emergency happened	Path Visibility, Safety and Security
There is a Richland creek greenway "access point" close to my house but it ends at Charlotte Pike and doesn't actually connect to McCabe which makes it hard to use. It would be helpful if the greenways connected and were longer.	Greenway Connectivity and Expansion, Trail Continuity
The Peeler Park Pedestrian Oath has been in the top four Council priorities the last five years in a row, most often #1 or #2. Listen to the people and build this decades awaited pedestrian path to connect our greenways, community, and city.	Community Connectivity, Pedestrian Path Development
I would like to see the urban system completed. There is a section that would connect Centennial Park to The Farmers Market and the Gulch. This seems really important to connect people and neighborhoods to Their jobs. And the 440 Greenway will hopefully connect my neighborhood to the Geodis soccer stadium.	Neighborhood Transportation, Greenway Connectivity and Expansion
Widening the most popular greenways, like Shelby Bottoms, would provide more comfort and accommodate the increasingly diverse ways people are using the greenways, like e bikes.	Trail Capacity Improvement, Greenway Connectivity and Expansion
There are areas in Shelby bottoms that would really benefit from more signs pointing to the various trailheads and access points.	Navigation and Wayfinding, Wayfinding Signage
Please do not bulldoze the beautiful and natural trees and plants that line the northern portion of Percy Warner Park. I visit this area regularly for its natural beauty on my mountain bike and have seen countless wildlife there including enormous birds of prey and owls, turtles, and deer. There are plenty of places to drive and park in Nashville but not many places as special as Percy Warner. Do what is right and protect this treasure of Nashville!	Park and Green Space Development, Landscape and Environmental Design, Wildlife Conservation
Would love a public restroom at Cornelia Airpark and space for neighborhood small businesses	User Experience and Amenities, Community Space Development
I think greenways should be more welcoming to youth and better connected across the city. I'd love to go hop on my nearest Greenway at home and take it all the way downtown or to Donelson.	Youth Accessibility, Greenway Connectivity and Expansion
Continued expansion and connections between Donelson and East Nashville	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
Signage, signage, signage!!! Greenways are not racetracks, speed limits, short leashes for dogs, do NOT stop on greenway, there are toddlers here, there are strollers here... etc... Signs can be humorous and fun, and still make a point. AND WAYFINDING!!!	Navigation and Wayfinding, User Behavior Guidance
Nashville has an incredible Greenways system. It could be a super-safe pedestrian and cyclist pathway through our city--especially in the more urbanized areas. I realize it would not be easy to connect the Riverwalk Greenway, but by working to connect more Greenways, we could improve mobility around the city. In Minneapolis, their Greenways became so popular that businesses reoriented their storefronts to face the Greenway instead of parking lots and streets. I think that some of our urban Greenways could be significant tributaries of access in that way.	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
More infrastructure for cyclists, more integration with sidewalks, expansion of park and greenway system/access broadly	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
More connectivity	Greenway Connectivity and Expansion
Build more. If you're not going to have an effective mass transit system, I need a greenway closer to old hickory	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
Opportunities for group activities for those who don't have many family/ friends here.	Community Engagement and Social Aspects
Would love to see a restaurant/cafe with beer garden along a greenway, similar to those found throughout Germany (or the Katy Trail in Dallas).	User Experience and Amenities, Greenway Commercial Integration

More connectivity between greenways. Would love to have something like the Beltline in Atlanta that has restaurants, breweries, coffee shops, etc. along it!	Commercial Integration, Greenway Connectivity and Expansion
Whatever it takes to create much more connectivity via Greenways a la the Beltline in Atlanta. Being able to get from Germantown to TSU and from Shelby to Donelson via Greenways are awesome... but they need to be connected *THROUGH* neighborhoods, not just two long distances away. Connecting Shelby and Germantown while navigating through Inglewood, Maplewood, Highland Heights, Cleveland/McFerrin Parks... connecting Shelby to downtown throughthrough Edgefield and the East Bank. These things would radically tranform Nashville's car depedency in an increasingly populated area.	Landscape and Environmental Design, Greenway Connectivity and Expansion
It would be great if at the Shelby bottoms greenway you would remove the paths that used to go to a bridge but now go to no where. There is no signage to anything that says it is a dead end.	Navigation and Wayfinding
Please repair Stones River Greenway boardwalk!!	Trail Maintenance and Improvement
Just more greenways, and make them connected.	Network Connectivity, Greenway Connectivity and Expansion
Please keep building them!	
Having stations for rental bikes near greenways would be great for people who don't own a bike to see if they like it and potentially buy their own bike to use regularly! I have considered buying a bike but am scared I won't use it enough but I think being able to rent one first would help me to feel confident buying one and using it for transportation	Bike Rental Infrastructure, Transportation Accessibility
Place b-bikes at the parking areas for greenways.	Bike Rental Stations, Greenway Connectivity and Expansion
Put ebike back along the greenways connect all the greenways to each other. Make it possible to bike from Ted Rhodes to Mill Creek Park	E-Bike Infrastructure, Greenway Connectivity and Expansion
Connectivity is top of the list. I live close to the 440 greenway and am cheering on its expansion around the 440 loop, but even moreso the connection to the eventual charlotte rail-with-trail project. I want to use greenways to get around the entire city not just as little islands. Where greenways aren't possible, linking with protected bike lanes and sidewalks is a close second. Dumping a greenway onto a street with no bike lane or an unprotected one makes longer travel much harder. I also think where possible, building greenways and natural stream buffers along our waterways (Browns creek, Mill creek, Richland creek, the cumberland, cooper creek, etc.)is an opportunity for both ecological and transportation benefits.	Greenway Connectivity and Expansion, Transportation and Mobility Infrastructure
Make the Shelby golf course way smaller and make a green area for everyone to enjoy. I get having a public golf course but The are closer to Eastland Av. could be turned into a park serving people from Rolling Acres, Eastwood, Rosebank and Inglewood communities.	Urban Green Space, Park and Green Space Development, Community Recreation
My ideas are for expanded greenway access and the building of several new metro parks in North Nashville - Buena Vista/ Buchanan Arts District.	Park and Green Space Development, Greenway Connectivity and Expansion
hi	
Walking to a greenway is not convenient at this point, which means we need to drive to access it. I'd love to see the network grow and provide access to more people.	Accessibility, Greenway Connectivity and Expansion
While the greenway is technically just one mile from my home, it is difficult to access as there is no sidewalk on Old Hickory or Culbertson Rd to Mill Creek Greenway.	Pedestrian Infrastructure, Greenway Connectivity and Expansion
I love greenways, I wish there were more toward Inglewood/Madison (my neighborhood) and greater connectivity to greenways from city side walks (non existent in my neighborhood, despite being densely populated and in the city.	Park and Green Space Development, Greenway Connectivity and Expansion
Dividing lanes so people understand paths are bidirectional	Navigation and Wayfinding, Trail User Guidelines
benches and working drinking fountains are fundamental; desperate need in Nashville	User Experience and Amenities, Trail Maintenance and Improvement
New greenway	Greenway Connectivity and Expansion
I would like to see parks partner with the Lokits family for a memorial for Alyssa Lokits.	Memorial Park Development
Unless all campers are welcome, do not allow camping or sleeping on greenways	Trail Usage Regulations
Signs to clearly designate rules between pedestrians and cyclists are needed. Both groups are not careful enough around each other	Community Engagement and Social Aspects, Safety and Security
It's important that Greenways have a lot of foliage and trees to provide shade. Otherwise they can become unbearably hot during the Summer	Trail Design and Infrastructure, Landscape and Environmental Design
Add more public access points to the Greenway system (shelby greenway is a great example of multiple entrance spots to the neighborhoods. I live primarily on the east side and it would be great to finish connecting the greenways so I could bike all the way to the West side easily.	Greenway Access Points, Transportation and Mobility Infrastructure
When we biked the Silver Comet in Atlanta, we noticed a center line down the paved trail helped pedestrians and cyclists share the path more effectively.	Trail Design and Infrastructure, User Separation Guidelines
Build a separate bike path through Shelby park	Bike Infrastructure and Cycling
Always need more! and a better connected network of bike lanes and greenway	Bike Infrastructure and Cycling, Greenway Connectivity and Expansion
Safety continues to be an issue. The camping along greenways problem needs to be addressed.	Homeless Encampment Management, Safety and Security
In other cities, I have observed that people stick more to one side if there is a stripe down the middle indicating two way traffic. This makes it easier for people to pass at varying speeds/uses.	Greenway Traffic Flow Design, User Movement Patterns
Again, leave them open longer. I don't want to walk on the greenway when it's 98* outside; I want to enjoy them in the evening with my dogs.	Temperature Comfort, Greenway Operating Hours
Please prioritize connecting existing greenways to each other!	Greenway Connectivity and Expansion

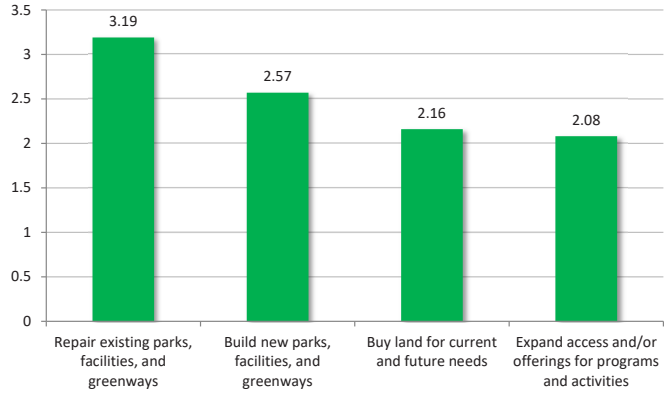
Yes, the city needs to prioritize connecting parks with greenways. Right now I am unable to safely bike from Germantown to Centennial Park. Protected bike lanes with buffering green infrastructure (trees, bioswales, etc...) should create linear park-like settings for safe transportation throughout the city, particularly between parks, as part of the Greenway system. I'd also like to see trail oriented development encouraged and incentivized in certain corridors. We should be upzoning and allowing mixed use development within 0.5 miles from most greenways to reduce reliance on cars, create amazing ped/bike only districts, and make the benefits of greenways accessible to everyone (nature, fitness, transportation). Greenways should also proceed with being constructed even if they're not paved. The City of Austin has great examples of this.	Greenway Connectivity and Expansion, Urban Development Strategy, Transportation and Mobility Infrastructure
Easier ways for getting to greenways or more greenways in my neighborhood.	Greenway Connectivity and Expansion
We need more Greenway distance on bordeaux! We also want to be connected to the rest of the city!	Greenway Connectivity and Expansion, Neighborhood Connectivity
We'd also love to see improvements to the greenway. As the East Bank development and Oracle campus come online, it's likely more people will use the greenway to commute from Inglewood to downtown. Right now, there are frequent traffic jams between pedestrians and cyclists. A bidirectional, divided path—similar to Central Park's in Manhattan—would make a huge difference in safety and usability for everyone.	Greenway Traffic Management, Safety and Security
Updates to Plan 2 Play should take into consideration the blueways and water access points as well as the greenways. Multi-modal transportation should be part of the greenways plan. Build a bridge like the Shelby pedestrian bridge from Peeler Park to Stones River Greenway so residents can use greenways to get downtown.	Transportation and Mobility Infrastructure
I really enjoy the mostly-natural aesthetic of the Stones River Greenway. Please don't add a bunch of random stuff to it... an available bathroom and water fountain would be nice... but that's all.	User Experience and Amenities, Greenway Aesthetic Preservation
Trees and their shade make using greenways much more comfortable. Portions of greenways without overhead tree canopy can be extremely hot in the summer.	User Experience and Amenities, Greenway Shade Coverage
Prioritize adding greenways that are less isolated and more useful for cyclists to commute.	Greenway Commuter Accessibility
Build more of them!	Greenway Connectivity and Expansion
Two Rivers at the wave pool... please allow public to park in entire parking lot when wave pool is not open. Also, need restrooms!!!!!! Even the biodegradable toilets would be better than having to go off trail.	Parking Accessibility, Restroom Facilities
Please make safety a priority. Unhoused camps, drug deals, violent crime etc is so prevalent and underreported.	Safety and Security
We need more! And connectedness between segments accelerated.	Greenway Connectivity and Expansion
Connect Stones River to Peeler Park	Greenway Connectivity and Expansion
It would be great if I could walk to sevier park- I'm SO close but there is no sidewalk on woodmont.	Sidewalk Infrastructure
Nashville needs to expand its greenway system to make it easier for more people to use greenways for transportation, to connect with nature, and to spend time outdoors with friends and family.	Transportation Accessibility, Greenway Connectivity and Expansion
No	
The Nature Center/Bottoms parking lot car break-ins has been a legacy issue so not sure if current preventative practices are working.	Parking Area Safety
We just need more of them given how Nashville is growing	Greenway Connectivity and Expansion
Very disappointed Metro golf courses were not included in this survery.	Survey Scope Criticism
Frankly I'd rather have sidewalks, but green ways take forever to be built. Maybe get people to volunteer to help prepare. I am old and sickly now, but fifteen years ago I would have loved to be able to volunteer to clear brush or trail cut along the creek.	Community Engagement and Social Aspects, Infrastructure Development
Make more of them, that reach all neighborhoods all over, and are connected. Do exactly what first world cities in The Netherlands and Denmark have done to create a bicycling culture.	International Urban Design Inspiration, Greenway Connectivity and Expansion
Off leash dogs have become a major problem on the metro center greenway. Maintenance of greenways and lack of response to reports about maintenance needs are also a major issue.	Dog Management, Trail Maintenance and Improvement
Add a greenway to Edgehill, Wedgewood Houston or Hillsboro area!	Greenway Connectivity and Expansion
Hillwood High school should become a park with walking trails and sports fields.	Park Conversion Proposal
Less unhoused encampments on greenway and more enforcement presence on greenway	Unhoused Population Management
Restrooms	Restroom Facilities
Greater enforcement of the speed limit on all greenways, especially near playgrounds and shared areas.	Speed Limit Enforcement
Enforcement of the 15mph speed limit	Speed Limit Enforcement
I would like more ecological history about the land, its botanical and geological history and what plants we can find and use for things like food and bug bites etc.	Ecological Education
Designated bike lanes would be nice for when there's a group of riders, it might encourage them to ride 2 by 2 or in a single line. Not sure if this is the right area to add this but the bike lanes from Davidson to Shelby bottoms stops at the gold course. It can be scary biking/running/walking to the park in that section because of the motor vehicles. Would love to have bike lanes added to that section.	Bike Infrastructure and Cycling, Safety and Security
I just want them to be more connected and I want to understand how they connect. I want to talk to the maintenance crew about how they clear the mud/water after a hard rain, they actually make it worse and grade it such that the water does not drain- making it flood more frequently-- and then they have to come back out! Better processes woudl build efficiency and would keep our greenways scenic.	Drainage Management, Greenway Connectivity and Expansion
Trash cans for disposing of dog waste	Dog Waste Management
coffee carts along the richland creek greenway would clean up !	Commercial Amenities

The greenway trailheads with maps are old and outdated within Shelby Park. There's now an updated map that's been installed around Shelby Park that's much more detailed and should replace the older signs and trailheads along the Shelby Bottoms Greenway. I've heard many other people complain about this as well.	Wayfinding Signage
Dog waste trash cans	Dog Waste Management
Sidewalk connectivity is so need it. We cannot go to the stones river Greenway from the Hermitage library due to the lack of sidewalks or bike lines.	Sidewalk Connectivity
We need a greenway at Mill Ridge Park	Greenway Connectivity and Expansion
There's a bridge that has been out with no timeline to fix it that has impacted our entire run club and everyone that uses it. It would be great to see the existing greenway being maintained as well as expanding access to it	Trail Maintenance and Improvement
Lighting and sidewalk connectivity are desperately needed along the greenway from Hermitage to Donelson.	Sidewalk Connectivity, Lighting Infrastructure
In the long term, I would love to see new cycle paths as you see in Europe. These should have smooth pavement, a center line, and big mileage (20+ mile loops possible).	Bike Infrastructure and Cycling
Light them & keep them open later so people can enjoy after work and after the hottest hours of the day.	Greenway Operating Hours, Lighting Infrastructure
I really feel as though 24/7 Metro PD monitoring stations in greenways would deter a lot of crime and disobedience to leash laws I have noticed ticking up over the last 2 years. Those are the two primary problems myself/my neighbors have with the greenways and a unified solution with not a lot of required man hours to implement.	Dog Management, Safety Enforcement
There is a spot on the Cumberland River Greenway (going away from the city near the bridge by the golf course) where the pavement has shifted and there is an unavoidable bump in the road. I would like to see that repaired soon. It's been that way for a while now	Trail Maintenance and Improvement
I love our city's parks and greenways! I genuinely think enforcement of leash laws is a safety issue that needs to be enforced for the safety of park patrons as well as their dogs.	Dog Management, Safety Enforcement
More greenways!	Greenway Connectivity and Expansion
We would like amenities at BrookmeaDe Park. Such as picnic pavilions and bathrooms with running water. Also it is supposed to be open dawn to dusk, but it's often closed way before dusk so that I have to go elsewhere for my walk after work.	Operating Hours, User Experience and Amenities
More greenways please!	Greenway Connectivity and Expansion
Tired of greenways being a priority.	Greenway Funding Criticism
Get with Friends groups about helping to fund interactive / interpretative signage.	Navigation and Wayfinding, Funding Collaboration
Safety stations and / or security cameras would be helpful	Safety and Security
Connect existing infrastructure with protected bike lanes or other infrastructure (sharrows don't count)	Infrastructure Improvement, Bike Lane Connectivity
Signage to make the entrance to Brookmeade visable and inviting! Add "Home of Music City Disc Golf". Advocate for success!	Disc Golf Promotion, Greenway Signage
Other than adding more, I hope that the richland creek greenway can connect West Nashville/Nations to Sylvan Park.	Greenway Connectivity and Expansion, Neighborhood Connectivity
Yes it doesn't seem like metro cares about special interest groups. I am 58 nearing retirement age. I enjoy weekend golf and plan to play more in 18 months. I walk the course for exercise & enjoy playing with my friend. Metro does not seem to hold golf as a priority. Yes us older citizens would like to see more of our tax dollars go to our activity. Golf.	Senior Recreation Priorities, Recreation Funding

Q25: Metro Parks is facing a number of challenges today; a growing deferred maintenance backlog of over $215 million, growing demand from increase in population and changing trends, and continued increases in operational costs. How would you rank the level of importance of the follow FOUR priorities? Using the arrows for each row, click up or down to change the ranking of each priority, or click and drag the priority option to desired ranking. Ranking 1 = most important, ranking 4 = least important.

Table/Chart: Davidson County Residents ONLY

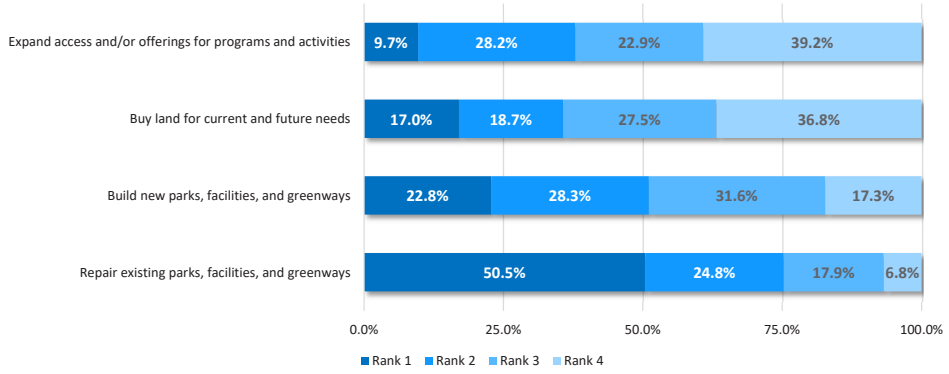
	Rank 1		Rank 2		Rank 3		Rank 4		Total	Score
Repair existing parks, facilities, and greenways	50.5%	951	24.8%	468	17.9%	338	6.8%	128	1885	3.19
Build new parks, facilities, and greenways	22.8%	430	28.3%	533	31.6%	596	17.3%	326	1885	2.57
Buy land for current and future needs	17.0%	321	18.7%	352	27.5%	519	36.8%	693	1885	2.16
Expand access and/or offerings for programs and activities	9.7%	183	28.2%	532	22.9%	432	39.2%	738	1885	2.08



#1 Ranking

	Rank 1	Rank 2	Rank 3	Rank 4
Repair existing parks, facilities, and greenways	50.5%	24.8%	17.9%	6.8%
Build new parks, facilities, and greenways	22.8%	28.3%	31.6%	17.3%
Buy land for current and future needs	17.0%	18.7%	27.5%	36.8%
Expand access and/or offerings for programs and activities	9.7%	28.2%	22.9%	39.2%

	Repair existing parks, facilities, and greenways	Build new parks, facilities, and greenways	Buy land for current and future needs	Expand access and/or offerings for programs and activities
Rank 1	50.5%	22.8%	17.0%	9.7%
Rank 2	24.8%	28.3%	18.7%	28.2%
Rank 3	17.9%	31.6%	27.5%	22.9%
Rank 4	6.8%	17.3%	36.8%	39.2%



Q26: Which types of spaces are most important to you or your household? Using the arrows for each row, click up or down to change the ranking of each priority, or click and drag the priority option to desired ranking. Ranking 1 = most important, ranking 5 = least important.

Table/Chart: Davidson County Residents ONLY

	A small park that's a short walk from home and meets your neighborhood's immediate needs, like a playground, basketball court or picnic shelter.	A medium sized park, within a short drive or longer bike ride from home, that contains a wider range of amenities like a ballfield, fitness loop, dog park, event lawn or community center.	A large regional park that may require a bit of a drive, and may contain major natural areas and hiking trails, community sports facilities, disc golf, or space for large festivals.	A specialty park that provides tournament-level sports facilities or other unique destinations.	Greenway land that usually follows a natural feature like a stream and connects community destinations. It may contain trails for bicycling, walking, and other passive recreational uses.	Preserved or interpreted historic or cultural sites.
Most Important	25.1%	11.8%	11.3%	4.0%	40.2%	7.6%
2nd Most Important	20.2%	25.5%	14.4%	5.6%	23.7%	10.6%
3rd Most Important	17.8%	25.5%	17.9%	8.3%	15.2%	15.2%
4th Most Important	16.6%	21.9%	22.0%	12.3%	10.1%	17.2%
5th Most Important	14.1%	10.6%	21.7%	22.2%	6.5%	24.9%
6th Most Important	6.2%	4.7%	12.7%	47.6%	4.3%	24.5%

6th Most Important	117	89	239	897	81	462

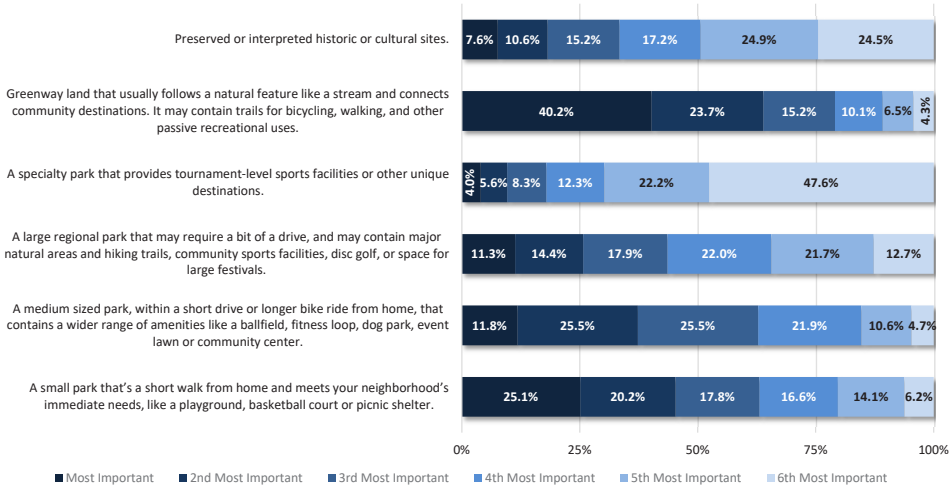
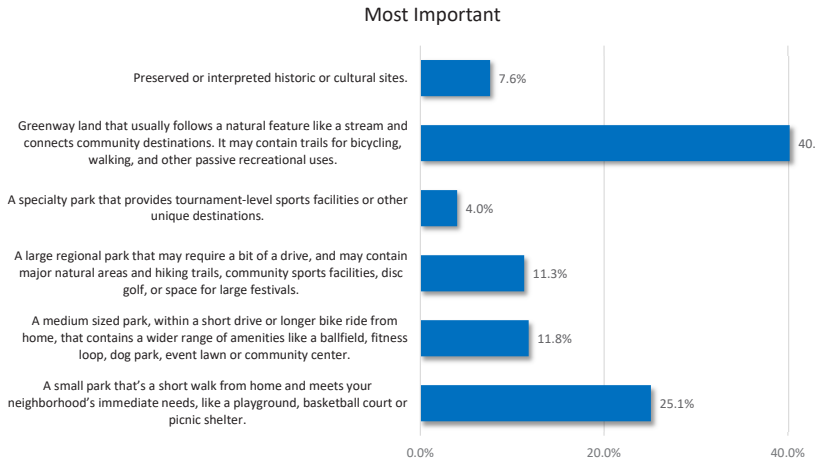
2nd Most Important	381	481	272	105	447	199
Most Important	473	222	213	76	757	144

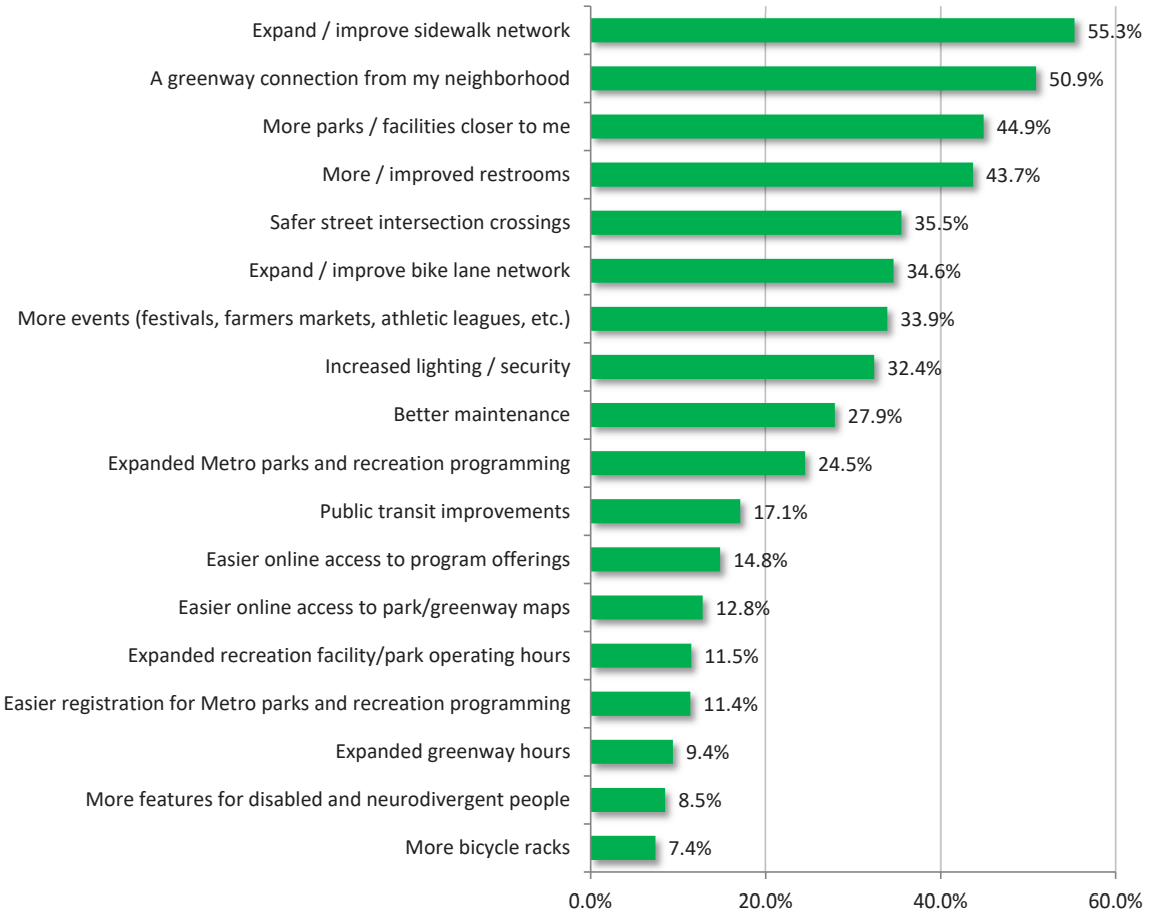




Q27: Which improvements would increase your ability or interest in visiting parks, recreation facilities, or greenways? (select all that apply)

Table/Chart: Davidson County Residents ONLY

Answer Choices	Responses	
More bicycle racks	7.4%	139
More features for disabled and neurodivergent people	8.5%	160
Expanded greenway hours	9.4%	178
Easier registration for Metro parks and recreation programming	11.4%	214
Expanded recreation facility/park operating hours	11.5%	216
Easier online access to park/greenway maps	12.8%	241
Easier online access to program offerings	14.8%	279
Public transit improvements	17.1%	322
Expanded Metro parks and recreation programming	24.5%	462
Better maintenance	27.9%	525
Increased lighting / security	32.4%	610
More events (festivals, farmers markets, athletic leagues, etc.)	33.9%	639
Expand / improve bike lane network	34.6%	653
Safer street intersection crossings	35.5%	670
More / improved restrooms	43.7%	824
More parks / facilities closer to me	44.9%	847
A greenway connection from my neighborhood	50.9%	959
Expand / improve sidewalk network	55.3%	1043



Other (please specify):
blank
Shade structures covering playground equipment
Pull-Up Bar stations
Additional hiking and walking trails & land acquistion in expanded natural area forest parks. (Radnor Park is overrun with crowds, and Warner Parks are becoming overrun; look at new forest parks in the Highland Rim forest near Bellevue and in NW Davidson Co, near Whites Cr and Joelton-- expand our Forest parks).
Patrols and safety on the greenway and relocation of unhoused.
Stay with the basics.
More historical events
More natural space and primitive trails, expanded greenway connection, more water access
Ban ebikes
More weekend / after work activities for parents of small children; loved the Friday night kids concert we just went to in July at the Sevier Park community center & the big bands concernts in Centennial
Safety for outskirts of greenway
Fixing the bridge at stones River
Well, these questions only gave me the choice for more facilities close to me, I believe that we need more facilities throughout the city.
A real bike park in Nashville. Not just a pump track.
more pickle-ball courts
Police presence and surveillance measures
More greenways please!!!
better prepared staff to work with senior citizens
Senior-friendly parks
Better roads, period, in Nashville. They are in the worst shape I have ever seen.
Recycling at all parks...Not offered now at all community centers
Fix the bridge!
Open Roads to make more available for older and handicapped
Golf
Playgrounds!
more natural parks
More water activities (splash pads, pools with adequate staff)
More pools and water features in this area of town
Restrooms open during operating hours including sundays
More dog parks
Tennis courts
Greenways are an incredible benefit to the community. Keep expanding and maintaining! Much easier to acquire land for these than larger park areas.
More security
I realize I keep harping on this . . . tai chi classes
Rowing machines so people who can't walk can row for full body workout.
Prevent flooding
Enforce dogs on leash
Better parking.
cafes/restaurants/kiosks/shops/venues
Trees. Less concrete and asphalt. Green space that is more than grass.
more natural areas even without public access. The most sensitive slopes of Nashville's Highland Rim Forest need to be acquired for conservation and resiliency purposes to offset density of development
No homeless camps
Safety

open up more field and green space. Stop locking down parks. ie Wentworth is locked so Whitfield gets over crowded
Please repair tennis courts! At Sevier Park
squash courts, please?
n/a
safety
More Natural spaces
EV chargers at greenway trailheads
I used to see MNPD biking on the greenway- not as much anymore
More Blueway Access
docked rental bikes at parking areas
More parking
PICKLEBALL COURTS!!!
Better cleanup of key access points like boat ramps and Riverfront Park.
You need to make it safe so women can use it without being threatened
Hire more Police Officers to Patrol.
Safety and cleaning at Red Caboose Park
labeled trees and plant specimens
Email updates about park events
more nature and environmental education classes
green areas that are not developed so you can enjoy the woods and trails
t
Shaded pavilions or sunshades near existing facilities
Beer gardens in the park
Build a pedestrian bridge for connect peeler park across the stones river to connect with heartland.
Better signage, updated community center calendars, easier access to offerings
security (cameras, people, etc.) for parking areas
safety from weather and predators are important to me
Better maintain what already exists. Bathrooms at some parks are worse than portapots which are placed when bathrooms have been out of service for months
Water fountains
Continual maintenance and improvements to PWP equestrian facilities
Having conveniently-accessed community centers in every neighborhood that have fitness rooms would help the population to be more fit. I'd rather had a community center in Donelson than a new library. The new library doesn't even have more books, etc. than the old one. And they use it like it's a community center (have yoga classes, community meetings, etc.). Therefore, a true community center would have been better as it would have facilitated all of our community meetings and our fitness needs. The old library perfectly fit our community's library needs already. It's important that communities be healthy, physically and mentally...and exercise does that for us.
Better maintenance of McCabe Golf Course...especially the sand traps.
dogs on leash
An increase in wintertime activities to combat seasonal affective disorder (SAD) when its cold outside.
Peeler pedestrian path/greenway connector to Stones
Connect Peeler Park to the Greenway in Donelson
REGISTAR BIKE TAGS LIKE MOTOR VEHICLES FOR SAFETY.
Increased security
Homes for the Homeless need to be in all our parks until the need is met for a city to be successful.
More horse trails
Not losing access to any equestrian facility
Access to a swimming pool that accomodates seniors
I would love an app that showcases all the offerings for events and more on a daily basis for the Parks department.
PLAY EQUIPMENT. Natural play ground stuff. Exercise equipment. Benches. Rocks and logs and shit for kids to climb on.

More pool hours, please!
More horse & dog parks within davidson county
Adding volleyball courts
I worry about artificial light affecting the wildlife in the parks. I understand lighting is needed for safety but the wildlife that lives there should not be harmed.
All golf reservations should be on same system online vs calling for tee time. Vinny links has online reservations-Shelby golf course does not provide online reservations. Make it consistent for all golf reservations.
better land use decisions that prioritize neighborhood residents and the city's goals for dense, livable, family neighbors
All the above
More parks with hiking trails
More senior activities, and inter-generational activities
Public swimming pool
Maybe on site security??
more facilities with soccer fields that aren't locked or basketball courts
A community pool with indoor/outdoor options with lots of days and hours that it is open!
Add another new golf course.
Weekday events for retired neighbors
splash pads for kids
Larger pools targeted at exercise rather than recreation (East Park is not a viable option for those looking to do laps).
More natural unpaved trails that includes native flora and fauna.
Restrict dogs to dog parks
Physical maps and location markers
Dog friendly water fountains, and pet waste bins at every medium and large park
Indoor access during winter months
More Soul Line Dance Activities
Food and Beverage
More info as you go greenway about recognizing local biodiversity and the work that is being done. More info on projects community can $uppory
I love line dancing classes. Please maintain or expand offerings.
Playgrounds and splashpads
Better security
Sidewalks/safe avenues for reaching the greenway are number one.
YAY BIKE LANES! Again, my kids (5 and 8) are great on their bikes, but getting us all *to* the greenway feels challenging because of a lack of designated and actually safe bike lanes.
Add indoor pool to all community centers without one. Prioritizing bellevue first
Dedicated, separate paved biking and running/walking paths, especially at Shelby bottom trails
more parking in Centennial park- specifically dedicated to the CPAS Dance studio
Sevier Park needs an indoor pool that is equal to or rivals Hadley Park. "walk in"sloped access and LOTS of senior time during the day.
Longer hours everywhere. Make parks available for people when the can actually use them.
Reminder signs to keep dogs on leashes; pick up poop.
businesses along the way to use as destinations
More swings, more shade
Water features. It's so hot in the summer that taking small kids out is difficult.
Fitness stations along greenway
Updates facilities at Charlotte park
Skatepark
police presence
Quit spending money on greenways that produce no revenue.
Pickleball courts/facilities using large sunshades that blend in with environment
Opryland train engine Rachel

Walking access to parks
Better management of homeless-keeping the parks/freeways clean and safe
Repair and Refresh Charlotte park
Improve the quality of what is here. For example, we don't need a new skatepark; we just need parts of it improved/updated. We shouldn't have crumbling historic structures in Shelby Park.
Orient maps so that what the reader is facing is up. Few people know/care which way north is, and it's difficult to orient
Active senior activities
Trees are critical to parks. Tree care is a priority. Making sure all water fountains work. Signage prohibiting dogs off leash.
More nature centers!
Areas for pedestrian/nature hiking only. No dogs, playgrounds. Just natural areas.
More awareness/publications of program offerings.
In the grand scheme, parks are not a priority. Violence and disregard of traffic laws required more attention.
Swimming, outdoor pools
Promoting adjacent greenway events via local community networking
Improving the playground area for toddler and younger children and adding restrooms with changing stations
Upgraded playground equipment
Build more greenways
Moving back to Nashville
Ability to purchase Parthenon tickets online in advance
unless all campers are welcome, stop camping on greenways and in parks
BATHROOMS
Increased public access to the Cleveland Park pool (more days open and more time open to the public)
Also, please fix the bridge on the Greenway so that we can continue our straight shot to Shelby Bottoms.
Better access to the river
Safety
Expanded existing nature parks, more miles of greenway trails, and more open gym hours for playing pickup basketball
Golf
Please bring back the Shelby Park farmers market!
upgrades and more staffing at Metro golf courses
Use of ecological management for natural areas.
Public golf course
Amenities near the greenways (e.g., cafes, shopping)
More practice facilities for Golf.
Community center in Donelson
Community center in donelson
Add more items at Mill Ridge Park. Add more things to do at Mill Ridge Park. It has become our "home" and we do activities with Katherine weekly. We only get to explore a small part of a big park. Add greenway so we can bike the entire park.
More cross country MTB trails and road bike connectivity.
FYI, I am unable to access the interactive map offered on the next page
A community center in south Nashville off harding
Fenced in playgrounds
Golf courses
Why isn't golf a priority for metro senior citizens.
Focus on golf!!!!
Improve condition of golf courses

Q28: Do you have any other thoughts on how Metro Nashville Parks and Recreation can improve? (be as specific as you can)

Responses	Thematic Analysis (auto-tagged)
we need more restrooms/dog parks/safety near water areas	
no	
Summer camps for kids older than 13 would be great. Actual bathrooms (not portables) at parks.	Park Facilities and Amenities, Community Programming, Park Infrastructure and Development, Recreational Programming
I am permanently disabled. I water walk several times week at Hadley Park. Better pool equipment is needed. For instance, a pvc walker to enter the pool so all that rust, etc doesn't get in the water and the wheels will actually rotate. ADA compliant dressing rooms/showers/bathroom stalls. Make sure everything is in good repair.	ADA Compliance, Park Maintenance and Infrastructure, Accessibility Improvements, Park Access and Accessibility, Pool Equipment Upgrades
I would love to have Pull-up Bar stations for Adults at Rose Park on Edghill, more specifically by the pavilions facing downtown.	Park Facilities and Amenities, Adult Fitness Infrastructure
More greenway access, splash pads, and outdoor pools in Madison	Greenway Expansion, Water Recreation Facilities
Metro Parks is over-emphasizing facilities and under-emphasizing acquisition of open space in natural forest land in our amazing resource: the Western Highland Rim forest. This is SHORT-SIGHTED. People prioritize the need for being in nature and hiking/walking--as our city grows we need more open space lands for this purpose. If Metro fails to acquire open space lands, it will be too late-- due to development and higher out-of-reach costs of such property as the city expands. Unpaved trails are in demand and very low in cost and upkeep.	Trail Development, sm_negative, Open Space Acquisition, Natural Land Acquisition
more opportunities to get feedback like this survey	Community Investment and Development, Community Engagement and Outreach
Return the greenways to their primary purpose as a recreational and transit option for residents by strictly enforcing trespassing, camping, and littering laws currently ignored by the unhoused.	Homeless Encampment Policy, Homeless Encampment Management
Enforcement or leash law and keeping bikers on the pavement	Trail Usage Enforcement, Park Rule Enforcement
Please consider your greenways as dual-function. They are linear parks that are part of both the open space and transportation network. We need these facilities to be connected in order for them to be valuable at a regional level.	Greenway Network Planning
Community Center has had numerous issues since opening. Water, bathroom, and elevator problems. When HVAC is on, sounds like someone bouncing a basketball. This is the Bellevue Community Center	Facility Infrastructure
There is a small, less than 2 acre area close to my home that is owned by Metro. It is in the middle of a neighborhood. It would be perfect for a "micro" park. Small walking track, picnic area, etc. I suspect that there are quite a few areas in Davidson County that Metro owns property that cannot be used for any business or home development, but would be perfect for "micro parks".	Community Park Design and Development, Neighborhood Park Expansion, Unused Property Utilization, Micro Park Development
more care given to purchasing chairs, tables, and other furnishings. They are of poor quality	Park Maintenance and Infrastructure, Park Facility Furnishings
Metro Nashville desperately needs more water access in the summers- splash pads and public pools! The existing splash pads seem to have very limited hours that aren't super practical in the summer time. Would love a splash pad at West Park. We desperately need more sidewalks in our neighborhood (Nations). Aside from neighborhood parks with easy access, we prefer wooded parks with unpaved trails like Beaman, Bells Bend, and Warner Parks. Would love to see more interconnected bike/transit paths. We love biking to Centennial for events. We love Earth Day events, music in the park, and Richland Farmer's Market. We are so hopeful for a new and improved West Park community center with fitness space/classes, tot times, and after school programming when our children are older. The Nations would benefit from a dog park as the soccer/multi use fields are regularly used as dog play areas which can be damaging. PLEASE increase bathroom access/availability- they are always locked. England Park does not even have a port-a-potty and it's very tough with a toddler!	Community Park Design and Development, Water Recreation Facilities, Park Development and Planning
stay with the basics. Avoid fads. Oh, I hate the spikes in our streets that are an eyesore and impede traffic; the effort to turn every street into a one lane street with huge bike lanes ;the new concrete abutments that reduce driving space and create road hazards; our streets are being made even narrower; this is bizzaro urban design.	Infrastructure Planning, Urban Design Critique
Increase physical access to parks - greenways, neighborhood connections, bike rentals, etc.	Park Accessibility, Park Access and Accessibility, Transportation and Connectivity, Transportation Connectivity
West Meade's property taxes are doubling and we could use that revenue for one park	
I would like a park closer to Hart Lane /Ben Allen but am concerned that it might not be safe depending on the upkeep / patrolling	Community Park Design and Development, Park Safety and Security, Park Development and Planning
Safety is my biggest concern. There is a park (I think it's known as Sam's Park) near me that I avoid because I had a very scary experience there early one evening. A young man followed me in his car as I was leaving in my car. I had to keep driving around to eventually get him to stop. That park definitely needs more police presence.	Park Safety and Security
I would like to see the greenway that starts at Whitfield park and borders the Ellington Ag Center expanded to connect south to the shopping area. We also need adequate, safe crosswalks across Edmondson Pike. There are many people who could use the greenway to walk or bike to shopping. It could also be extended north to pick up the neigborhoods toward Harding Place.	Transportation and Connectivity, Greenway Expansion, Pedestrian Infrastructure
Greenways need to feel safe for all users. We should have more parks along our riverfront	Greenway Safety
Increase the natural spaces in the city, it provides immense health benefits! Also, programming more aligned with folks working during the day.	Community Programming, Park Access and Accessibility, sm_positive
na	
The Whites Creek Area needs an archeological park/ Historical park to highlight the cradle of Nashville's History and only National Hisoric Register: Rural Historic District. It should combine outdoor experiences of walk and hikes and the presence of significant episode of history for reflection and interpretation. For example: There is a Trail of Tears walk on the Greenway that makes you want to maintain and treasure the space.	Cultural Heritage Preservation, Historical Park Development
Expand page road parking lot at Percy Warner; ban e-bikes in parks and greenways	Park Access Management, Park Access and Accessibility, Vehicle Restrictions, Transportation and Connectivity

More water fountains, better street crossing protection, more protected bike lanes. Not sure if this is part of Parks and Rec, but many stop lights are not activated by the weight of a bike, and riders have to either run a red light or wait for a car to approach.	Infrastructure Safety, sm_negative
Maintain two rivers skatepark concrete	Park Maintenance and Infrastructure
Metro really needs to dedicate some time to policing their parks and greenways. I notice more and more homeless encampments, drug use, trash, etc. The pedestrian bridge has people pretty living on it. Gulch greenway along RR tracks is another place that needs attention.	Park Safety and Security, Homeless Encampment Policy
More community agriculture access.	Community Agriculture
Listen to what the youth want in parks!	Community Programming, Recreational Programming
Gun free	Park Safety and Security, Safety Policy
Making small accessibility changes to parks can go a long way to improving the experience for all users	Park Accessibility, Park Access and Accessibility
Use the community centers as hubs for all age groups - our local community center does really well catering to children and seniors, but doesn't offer arts classes/evening fitness/book clubs, etc. that could build community for young adults in the neighborhood. Continue maintenance and infrastructure improvements on existing greenways and parks to ensure their quality remains high!	Community Engagement and Outreach, Community Investment and Development
Diversity in staffing and programs.	Staff Diversity, Program Diversity
Can you put a playground at St. Bernard Park on 21st Ave S?	Playground Development
Bring bikeshare docking stations back onto parks property.	Transportation and Connectivity
Earlier tee time registration for golf metro season pass members	Golf Program Management
The greenway that runs through Germantown that goes north past the water treatment plant is unsafe for women especially by themselves. I would love to use this greenway but will not.	
Limit multi use trails. I realize it's a personal preference but in my experience bikes are obnoxious. Well defined lanes and speed limits. No mountain biking on unpaved hiking trails. Specified hours for trail runners who are often as obnoxious as mountain bikers.	
Bathrooms at Ravenwood playground	Park Facilities and Amenities, Facility Infrastructure
Have a vision for making us the best city for Parks at least in our region, if not nationally, and devote the manpower and resources to achieving that goal.	Park Development and Planning, Park Infrastructure and Development
If building a bike park isn't possible at this time, could a portion of a park be used for a DIY Bike park. Allowing those of us who enjoy building features a place to build our own bike park with out fear of them getting torn down or removed.	Bike Park Development, Recreational Infrastructure
Please don't just think about adding additional spaces, but rather think more holistically on how to connect spaces with Greenways/bike lanes to make our communities feel connected to the green space all around us. Nashville is too special to have to drive to experience green space. We should be embracing and living in the green space all around us.	Greenway Network Planning, Greenway Connectivity, Transportation and Connectivity, Urban Green Space Integration
Incorporate the support and development of parks in a community benefits agreement when developers and council members seek to re-zone (harmful) against the communities wishes.	Community Investment and Development, Community Development Policy
Continue focus on maintenance. We have great park assets (like Fort Negley) that could be seriously leveled up.	Park Maintenance and Infrastructure, Park Maintenance
Please rebuild the West Park location with an indoor exercise facility and track. It's HOT! We need more places to play and exercise that are indoors. We also need the space for art classes	Indoor Recreation Spaces, Community Center and Facilities
Focus on underserved neighborhoods; provide local green spaces for all neighborhoods and keep them safe	Community Park Design and Development, Park Safety and Security, Park Development and Planning
Orchard Bend Park 5605 Pettus Rd, needs to have a major upgrade with star of the ark equipment for the children and adults. This is to include the inside and outside.	Park Facilities and Amenities, Community Park Design and Development
Increase funding for land acquisition and natural parks Many Plan to Play goals from 2017 remain unmet for land acquisition and new trails Include Nashville Highland Rim Forest conservation in strategic plans Need bold goals for expanding park system	Land Acquisition, Park Development and Planning, sm_neutral
It would have been great to have a playground in easy walking distance when my grandchildren were younger. My husband and I would greatly appreciate tennis courts in our own community, as well as dedicated bike lanes and a much nearer greenway on which to bike	Neighborhood Recreation Infrastructure, Recreational Infrastructure, Transportation and Connectivity, Playground Development, Transportation Connectivity
Better communication with area neighborhood associations and residents would be beneficial. It's challenging to understand the plans for our local park. More efforts to address public safety issues (including gunshots) would also make people less fearful of going to our local park.	Community Engagement and Outreach, Park Safety and Security, Neighborhood Communication, Community Investment and Development
more indoor pools would be so great	Indoor Pool Facilities
Update playground equipment (I.e. at England Park)	Playground Equipment Upgrades
Charlotte Park is in need of help, especially the playground. The Hillsboro Dragon park got a beautiful renovation and honestly I would be happy with getting the used playground equipment from the prior setup, as it was still so much better than what Charlotte Park has today. We have LOST amenities over the years, the tennis court is chained since 2020 (and was a reason why I even moved to the neighborhood), the pavilion covering the picnic tables was demolished, the handicap swing broke and was never replaced. The park seems to have been actively neglected and is only LOSING amenities as more and more families move into the area. No one in the neighborhood wanted a disc golf course… we want updates to what we HAD/HAVE: a playground, a tennis court re-opened, and a pavilion re-built. The neighborhood even attempted a grassroots effort to get participatory budget funding and was told we had the most number of submissions for funding, only for no funds to have been allocated to the neighborhood park.	Neighborhood Park Maintenance, Community Park Design and Development, Park Maintenance and Infrastructure, sm_negative
Cameras and emergency call stations.	Park Safety and Security

- Expand Whites Creek park and connect the greenways - Conserve and promote Nashville's Highland Rim Forest - Create a hiking trail connecting parks within the forest, like from Radnor to Warner to Bells Bend to Beaman to Whites Creek. - Give Nashville a brand image of green space, forest, and resiliency - Fund a Conservation Assistance Fund that financially assists conservation easements on, or acquisitions of, key NHRF parcels.	Ecological and Natural Landscape Management, Greenway Connectivity, Park Development and Planning, Forest Conservation, Park Infrastructure and Development
provide transportation for senior programs. Also provide and/or build a community building that Parks and Recreation can accommodate large events and other reservation as needed and used for Metro Parks programs etc.	Senior Program Transportation, Community Center and Facilities, Community Event Facilities
N/A	
The first priority (after public safety and security) should be children and young families.	Park Development and Planning, Family-Focused Park Development
Invest in more parks and greenways throughout the county. Work with other Metro entities for sidewalk and bike lane connectivity.	Park Development and Planning, sm_neutral
I love the parks and want more of them! We need more nature.	Park Development and Planning, Ecological and Natural Landscape Management
Better access to enter the building. When parking is only available in the back, a person has to pass five doors to enter. Most of the time the sixth door is locked. The sidewalk is a distance away to get to the door. A sidewalk that connects from the back handicap parking to the patio would be helpful. Also, it would be most helpful if the assigned door was unlocked	Park Access and Accessibility, Building Entry Design
Now is the time to think big. We need a future goal that involves preserving as much of the forested areas of Davidson County as possible. Money should be used toward that goal. Perhaps some energy can be allocated to neighborhood "adopt a park/greenway" efforts so that maintenance can be off loaded to volunteers who have the capacity to do that kind of work. What makes Metro Parks unique is its access to large amounts of funding that can and should be used to save the remaining forested areas of Metro Nashville. 100 years from now, no one will care that the water fountain was broken, the trail unkempt or a new ball field not constructed. But they will care if the forests are all gone and we did nothing to stop it.	Volunteer Park Maintenance, Park Volunteer Programs, sm_neutral
1) Exercise equipment should be repaired or replaced on a regular basis 2) There should be more female friendly type of equipment 3) I've been waiting for the elliptical to be repaired for about a year. I can't use the glider machine because of my double hip replacement	Adaptive Exercise Equipment, Adaptive Equipment Design, Exercise Equipment Maintenance
make sure more tennis courts are reserved for tennis only - the pickleball players are making it difficult for tennis players	Tennis Court Usage Policy
Park landscaping and 'beautification' needs some input from educated naturalists. Invasive plants are a huge problem, and site landscaping is often done by just planting "pretty" things instead of useful native plants. Park land offers a valuable opportunity to aid vanishing natural areas and tree canopy, it is not being managed with these intentions.	Native Plant Landscaping
Security and cleanliness. I often take my grandchildren to Richland park after school. Lately the pavilion near the playground has several people there who appear to be living there. The picnic tables and benches there are dirty/smelly. And the people are sometimes a little scary. This park has been great. The children all play together and we have met several adults who are there with their children/ grandchildren.	Park Safety and Security, Park Cleanliness
Sometimes registration for events is filled immediately by homeschool groups. It would be nice to give others a chance to register.	Event Registration Fairness
Thank you for this opportunity for feedback--please be open minded enough to listen carefully to those who make points that you may disagree with.	
West Meade and Hillwood need parks that are accessible to all! When I heard a Metro employee saying that we didn't "deserve parks because [we] have large yards", I was horrified. Parks should build community, in large part by being accessible. To tell my grandmother, my pregnant niece, or my sibling recuperating from surgery, to tell anyone, that they should either walk in the streets or use hilly yards as their way to get outside and enjoy nature is not being aware of physical differences people have, not being aware of the difficulties and dangers of what's being suggested, and is quite inappropriate from anyone, much less a government employee (not to mention that using only private property for recreation doesn't build community).	Park Accessibility, Community Park Design and Development, Park Access and Accessibility, Community Investment and Development
no	
security, security!	Park Safety and Security
Like I said, please make Hillwood High School a community center/library/park for this area. The absolute LAST thing we need is more houses whose inhabitants will be creating more traffic.	
Pay the employees, workers more and Director level much less. I worked as a VP in corporation. We did not buy new furniture for our offices. We had a storage facility where we chose pieces for our offices. The mayor needs to be more involved in spending. Get rid of all paper communication. Bad for the environment.	Employee Compensation, Communication Sustainability
No	
Conservation, Conservation, Conservation. Interoperative signs large enough to see from the greenway. My usual park greenway has very small tree labels that you have to stop to read... so no one does. Plant shade where people walk, play and park. Plant the next generation of trees now as the ones we have now are dying naturally or from stress of pest, diseases and drought.	Park Signage, Ecological and Natural Landscape Management, sm_negative
Finding better ways to activate space encourages more people to visit. When the park is too small it's less activated making it feel less safe which discourages people to visit. Medium to large parks with more activation and activities creates a feeling of safety and community. Splash pads for toddlers and families, skate parks for teens, and senior activities would be fantastic!	Park Space Activation, Park Usage and Management, Diverse Park Activities
More green space is needed in poorer sides of town like Antioch. We have too many industrial and densely populated areas in such a small part of Metro Nashville.	Green Space Equity
Replace slippery wooden bridges	Trail Development and Infrastructure

Sevier court tennis courts need repair badly. But my fear is if fixed- more pickle ballers will come out. I know you're aware of the battle between picklers and tennis courts. I believe tennis courts are for tennis. Only. Period. Picklers can put their nets up in unused parking lots. No need for pickle ball courts in the parks.	Tennis Court Preservation, Tennis Court Usage Policy
Improve access to programs and activites at each community park/center	Park Access and Accessibility
Make it easier for people to support parks and recreation	Community Support Mechanisms, Community Park Support
Be more communicative when people have questions about repairs.	Repair Communication
I would love to see a large presence of park land in the new east bank development. It might not be the parks departments scope, but inserting the department to demand native plants and ensuring the infrastructure will help clean the runoff before entering the Cumberland. I would also like to see a riverfront greenway connected to Shelby Park greenway.	Urban Development Integration, Environmental Conservation, Park Land Development, Greenway Connectivity
Not realistic, but would love more golf opportunities	Golf Facility Expansion
Nashville is getting so populated that all parks, greenways, athletic facilities; workshops, etc are too crowded.	Park Capacity Management, Park Usage and Management
More Restrooms!	Community Center and Facilities, Restroom Facilities
Open roads through parks	Park Road Access
New restrooms for community center on Morgan Rd. That people can use when the gym is closed.	Community Center and Facilities, Restroom Facilities
I need to be more informed about what is available.	Program Awareness
I would like to see more blueway maps similar to what the Harpeth River has with clearly defined put ins and take outs with mileage in between for Stones River and others.	Blueway Mapping
free parking near trailheads	Trailhead Parking
Tell Randall to plant more trees	Tree Planting
Check out equipment	Park Maintenance
I play golf at McCabe. There is a large demand for golf but I do not see it supported by Metro. I pay to play golf and would play more if they had the staff to accommodate the people wanting to play. I do not use the walking trails by myself due to not feeling safe. Golf can make money for the Parks and pay for itself. I am a senior and I see everyone from school age kids to seniors playing at McCabe.	Golf Course Management, Park Safety and Security
Bellevue Community Center is overall a beautiful bldg. very convenient	Community Center and Facilities
More bathrooms, more shops along the greenway to increase foot traffic	Greenway Commercial Development, Community Center and Facilities, Restroom Facilities
More playgrounds in the shade with diverse activities for multiple age groups, exercise stations and Rue Goldberg challenges.	Playground Design, Multi-Age Recreation Spaces, Multi-Age Park Activities
spend more money on facilities that already exist, looks bad not taking care of what we already have. New stuff will come. When we have opportunities to receive new land or property or facilities, we need additional money to maintain that new asset.	Facility Maintenance Investment
Please connect Peeler park to Ravenwood park or stones river greenway!	Greenway Connectivity
Classes for kids!	Community Programming, Recreational Programming
These are family neighborhoods with poor and rundown playgrounds, I often drive out of my neighborhood to take my daughter because Charlotte park is so run down	Playground Maintenance
Love the outdoor summer events and more community events like the Friday night concerts by the river etc. More large community events in general that connect neighbors	Community Events, Community Programming, Recreational Programming
Acquire more regional park lands and greenway lands. Complete Highland Rim Forest Parks system master plan. Expand acreage of Beaman Park.	Greenway Expansion, Park Land Acquisition
Bring the East Nashville farmer's market back to the park! The hot parking lot on Woodland is miserable. More programming for kids, especially after school, on weekends, and during the summer. The Shelby Park nature center is great but a lot of the events are in the morning during the week. More indoor play spaces for kids More splash pads (2 working ones in all of Nashville is ridiculous) and pools. Fix Cumberland Park - our kids used to love it but it has been completely neglected. Take ownership of the good things we have and maintain them for the people who live here. Bring Bcycle back to the parks Make parks and greenways actually accessible by bike. You should not have to drive to access a greenway.	Park Facilities and Amenities, Community Programming, Park Access and Accessibility, Park Infrastructure and Development, Community Events, Recreational Programming
Lighted outdoor Pickleball courts	Park Facilities and Amenities, Sports Facilities
Expand the Cleveland park community center pool. There is space to renovate into a full pool with slides, mini shaded playground for young kids, and a splash pad for young children. Then charge a fee to enter. This will also require adequate staff and lifeguards. The YMCA pool in east is at capacity and too crowded to enjoy. The Cleveland park pool hours are limited, and because of inadequate staffing, rules are not enforced. There are often unsupervised or under supervised children who are screaming and cussing at the pool. The pool should be fun for everyone.	Community Center and Facilities, Pool Facilities
More dog friendly!	Dog-Friendly Spaces, Dog-Friendly Amenities
Please prioritize the future and acquire land for greenspaces while there's still some left to acquire.	Park Land Acquisition, Green Space Preservation
Restrooms and trash cans	Park Facilities and Amenities, Park Amenities
Have a bus or van, maybe even a little trolley to give tours of Nashville greenways and allow people to get better acquainted with their environment.	Park Accessibility, Greenway Tours, Environmental Education
Restroom access near playgrounds 7 days/week	Park Facilities and Amenities, Park Amenities
I can never seem to find the activity offerings at West Park online	Program Information Accessibility
Online registration for programs (after school, summer camp, sports leagues) After hours security of parks Increased staffing to provide more community center activities More playgrounds in the area for youth, athletic fields, and outside playing courts for adults	Online Registration, Park Facilities and Amenities, Park Safety and Security, Recreational Programming
Lights at the dog parks please	Dog Park Improvements
Build shade OVER playgrounds	Playground Design
Longer hours or 24/ access to the gyms	Facility Operating Hours

More tennis facilities/courts—either as an addition to existing parks or added to plans for new parks.	Park Facilities and Amenities, Sports Facilities
There is a new gate at the Wave Country entrance. The Donelson Run Club has a Monday morning run at 6am year round. We are worried that the gate will be closed during the winter.	Park Access and Accessibility, Park Access
Lights and fences for basketball courts, as well as fixing any that aren't flat, get flooded, or have holes or damaged boards/nets. Build more basketball courts in general. Basketball is a cheaper/easier to access sport for all people that doesn't require expensive equipment or knowledge/experience to play (such as pickleball). It encourages kids to play if there is a court near them with night lighting rather than getting involved in potentially dangerous activities. Basketball should be a priority in all communities.	Park Facilities and Amenities, Community Programming, Youth Recreation, Sports Facilities
Fix the broken bridge on 18th hole at Seven oaks disc golf course. It's been out for over a year and embarrassing	Park Maintenance and Infrastructure, Park Maintenance
Website is often confusing and can be difficult to navigate to info happening at specific centers.	Website Usability
plant more trees along walking paths and sidewalks that connect to the park, i cant walk to the park if i get cooked on the sidewalk but the thought of wasting gas when places are so close leads me to just stay home	Park Accessibility, Tree Planting, Park Access and Accessibility
Cane Ridge is underused, and feels unsafe in "off hours." What can be done to better use that facility?	Park Safety and Security, Facility Utilization
Get rangers out of the nature centers doing check-ins throughout the park on a regular basis throughout the day. No more bird banding.	Park Ranger Services
Racquetball courts!!	Park Facilities and Amenities, Sports Facilities
No	
I think as a senior we are left out. Hobbies,bingo,monthly art classes,book clubs. Some things that get elderly out of their homes. Depression and loneliness are two of the biggest reasons elderly decline. These should be offered at every center.	Community Programming, Recreational Programming
Parks and greenways within neighborhoods that do not require a drive and/or have access to public transit. Public transit more accessible.	Park Accessibility, Park Access and Accessibility, Public Transit, Transportation and Connectivity
Honestly sidewalks to get places is the big thing -- I live walking distance from southeast community center and park, but I have to drive because the road is unsafe and there isn't connecting sidewalks. I've walked before and it only takes 15 minutes even with the road, but it just feels unsafe.	Park Accessibility, Sidewalk Infrastructure, Transportation and Connectivity
All season disc golf	Park Facilities and Amenities, Sports Facilities
Have more senior activities at existing community centers, especially focusing on music.	Community Programming, Recreational Programming
The website is difficult to navigate. Create an easier way to showcase events	Website Usability
Traffic flow and parking, for instance Cedar Hill desperately needs a traffic light it is not safe or timely to get in and out of the park.	Traffic Safety
Soccer has become increasingly popular in Nashville but there is an overall lack of field space so Nashville residents have to travel outside the city to play games.	Park Facilities and Amenities, Sports Facilities
You do a good job! Thank you	
No	
You do a lot with a little, and we're grateful. My request would be "spread the love" with small and more frequent green space (parks, playgrounds, etc.) availability for those who cannot drive or bike.	Park Accessibility, Park Access and Accessibility
More awareness of what is actually offered by the parks that is easy to find not buried somewhere on the website	Program Information Accessibility
Pocket parks! Would love to see islands of green in the (HOT) concrete hellscapes along Nolensville, Murfreesboro Road, parts of downtown, etc. Love the partnership with Root Nashville!	Tree Planting
Shelby and east Nash sports program Are so important to our community ! Better bathroom facilities would be really helpful at some of these parks as well as a pool!! It is so so hot in nashville and I think a pool would be used so often by so many !	Park Facilities and Amenities, Community Programming, Sports Facilities, Park Amenities
An outdoor pool would bring community together and keep more kids in the neighborhood	Community Investment and Development, Community Engagement and Outreach, Pool Facilities
native plants	Ecological and Natural Landscape Management
Whites Creek is a natural green area. Nashville needs to keep this area, particularly the Highland Rim Forest, to preserve clean air, water, and biodiversity.	Green Space Preservation
I'd love to see a disc golf course somewhere in Edwin or Percy Warner Park. The 5 courses Nashville has (listed on the nashville.gov website) are all east of 65. A full 18 tucked away in somewhere in the Warner parks would give the west side of town such a cool option for the sport.	Park Facilities and Amenities, Sports Facilities
Nashville needs to protect its current tree canopy, in both urban and forested rural areas. The parks department needs to prioritize planting trees in parks and on greenways where people are walking. It is really disheartening to see new concrete features added to parks when there is no natural shade. Funding priorities should be practical, and shade from trees is highly practical.	Tree Planting, Ecological and Natural Landscape Management, sm_negative
Bring back docked e-bikeshare to your property.	Transportation and Connectivity, Bike Lane Infrastructure
Provide poop bags so more people will pick up after their dogs and garbage cans to deposit them in	Dog-Friendly Amenities, Park Amenities
The sidewalk connectivity & safer intersections are the biggest ones for me. We live off White Bridge and, while there are technically sidewalks, it feels like you're taking your life into your hands to try to cross that road to get to the Richland Creek greenway.	Park Accessibility, Sidewalk Infrastructure, Transportation and Connectivity, Traffic Safety
Prove Metro can maintain current system before expanding. Fix broken fences and bridges, increase lighting and ask MPD to patrol parking areas on a regular basis	Park Maintenance and Infrastructure, Park Safety and Security
More parking areas for Greenway access. The Richland one has a secluded parking lot with about 8 spaces. My car several other cars were broken into once. Other parking is a neighborhood culled sac that has signs saying it belongs to the HOA there discouraging people from parking there (how is that public access), the Nashville Tech parking lot (which I think you might need a parking pass for though I haven't had any problems without one) and the area behind the old Stein Mart which is deserted except for occasional homeless people.	Park Access and Accessibility, Greenway Access

safety for single walkers, runners, bikers on greenways. Dog walk program for people that do not have dogs to take them running so they're not alone.	Community Programming, Greenway Safety, sm_neutral
I am on the women's rugby team and we don't have a consistent, well lit, well maintained field to play on for practices, so I would love to see easier access to reserving sports fields for weekly practices	Park Maintenance and Infrastructure, Park Maintenance, Sports Field Reservation
Use high school or trade school students to design, build facilities as both a learning experience and cost saving Work with courts to use minor offenders (traffic etc) to do community service for such things as trash, graffiti removal Identify "small" projects such as picnic bench repair/painting, installation of signs, suitable for youth groups and advertise these thru existing social media/publications	Community Service Programs, sm_neutral
Preserve large forest tracts to conserve interconnected habitat and to support clean air, water, mitigation of storm water runoff, and cooler air for balancing of downtown heat island effects.	Ecological and Natural Landscape Management
Indoor pools at every community center	
Please keep your maps and signage as up to date as possible. It's embarrassing to walk with my friends and see signs either faded or altogether gone.	Park Signage Maintenance
Cut the grass in Parks more frequently than every 2-3 weeks.	Park Maintenance and Infrastructure, Park Maintenance
no	
Focus on keeping the parks clean, safe, and in good repair. We have a decent amount of parks but a number of them feel unsafe or out of date. Granny White Park in Brentwood and Dragon Park are to examples of great parks that should be replicated.	Community Park Design and Development, Park Maintenance and Infrastructure, Park Safety and Security, Park Maintenance
More sidewalks to connect us to existing parks	Park Infrastructure and Development, Park Connectivity
Provide proper drainage for greenways	
Already super! But even more river views can make it even better.	Riverfront Development, Scenic Views
Building access to the parks is more important than expanding the parks. If people cannot easily get there, than the new parks won't be used	Park Accessibility, Park Access and Accessibility
Safety	Park Safety and Security
Please improve Cleveland Park playground, basketball and tennis courts, and POOL!	Park Facilities and Amenities, Community Park Design and Development
Invest in maintaining your parks like the new Harpeth Greenway bridge. These investments will pay dividends in years to come when individuals and corporations develop land along your parks.	
We spend a lot of time down at shelby bottoms and our kids play sports down there. The lack of clean/functional bathrooms is a big challenge. They are either locked or in disrepair.	Park Facilities and Amenities, Park Restroom Maintenance, Restroom Facilities
.	
I would like to see more attention focused on the riverfront. We have a tremendous asset in the river running through our city and yet we shy away from programing it - or even maintaining access to it.	River Access, Riverfront Development, Public Access
contuine to collaborate with other departments of Metro at a higher capacity and intent.	Inter-Departmental Collaboration, Community Engagement and Outreach
Put more amenities and programming at Brookmeade Greenway	Greenway Amenities, Greenway Programming
Keep parks simple and focused on nature. Focus less on programs, festivals, athletic leagues. Repair and clean up Centennial park - it is not looking great these days. Use less herbicides! Seriously, why is Metro spraying so much poison all over Metro Parks, including Warner Parks, which should be a wild and pristine natural area. Do more manual weed maintenance and less spraying.	Park Maintenance and Infrastructure, Park Development and Planning, Environmental Practices, Park Maintenance
Listen to the local members of the community and actually consider their concerns	Community Investment and Development, Community Engagement and Outreach
Just clean up and improve what is already there. You ask us about all the improvements we would love to see and there is no money for it.	Park Maintenance and Infrastructure
Maintain Bellevue Greenway and Brookmeade (I still find the occasional syringe from addicts who lived there)	Greenway Safety
Build basketball courts and futsol courts - with times lights - they will be used and not ware out as easy. Mow larger sections of the park -- college lawn less low cut turf - it will get used. Also large shade sails are needed for more than just the slides at Ravenwood and Mill Ridge - those new parks get hot and are not useable. also add sprayground to more parks with existing playground - Springfeild, Whitehouse, and the Northwest YMCA have good examples. Also i would pay for one like brentwoods splash pad - my toddlers are much safer at those and they have way more fun. and when possible add a fence or barrier to the 2-5 playground - those kids need it	Park Facilities and Amenities, Park Shade, Playground Design, Sports Facilities, Park Infrastructure and Development
I just really appreciate all that you do - I visit greenways and parks almost every day and it is so important to me.	
Dog Parks are a great feature even if they are small. They help connect people, especially older folks who may live alone and younger adults/ singles. Just a good way to promote community.	Community Building, Community Park Design and Development, Dog Parks
No	
Income from golf courses help fund these other important activities so they should not be left behind in planning	Golf Course Management
A lot of serious cyclists use Saunders to go north ultimately crossing OHB and getting into "the country" behind Hunter's Lane. Safter and easier access from Riverside/Hart up Saunders, to Chadwell, would be amazing. The neighborhoods by Chadwell School are calm enough not to need actual bike lanes and the speed cushions in that neighborhood have helped A LOT. Getting over the Brick Church Pike is the ultimate goal. We use OHB, Bell Grimes, and Hunter's Lane. Brick Church takes us to the Promised Land! It would connect 12 South over the Ped bridge, too, via Davidson, Shelby Park, Riverside lanes. And I reiterate, street sweep those bike lanes. We flat often thanks to all the broken glass! But all in all, the system is amazing as is! Thank you, METRO!!!	Transportation and Connectivity, Bike Lane Maintenance, Bike Lane Infrastructure

Places that have safety measures in place when they are located close to a parking lot. For example the Richland Park playground needs major improvements, in general and specifically to the fencing near the parking area	Playground Safety
Connect sevenmile creek greenway to other greenways Midsized park built in South Nashville	Park Distribution, Greenway Connectivity
Maintain in park roads more	Park Road Maintenance
Pool at equstrian park	Park Facilities and Amenities, Park Facility Amenities
McCabe, centennial, & Percy are all in good shape. Would be great to have more places like McCabe in other neighborhoods. East has Shelby park, but there aren't really any decent parks south of town near Glencliff. I think there is one but it needs revamping. Metro should focus on this area.	Park Maintenance, Park Distribution, Park Maintenance and Infrastructure
Pools!!!	Park Facilities and Amenities, Park Facility Amenities
My sport isn't offered by our parks. But it could be. Right now I can play at my school, but after graduation the closest community court is either in Atlanta or Louisville (these both require a fee based membership)	Sports Facility Availability
Na	
More visionary leadership practices that we have long shunned here - and also allowing corporate sponsorships and restaurants in Parks to help fund maintenance - like SO MANY OTHER BIG CITIES DO. This would help the funding gaps that have been identified.	Corporate Partnerships, Funding and Resource Allocation, Funding Strategies, Park Usage and Management
None at the moment.	
n/a	
Please Add Text Messages To Get Metro Parks Info	Communication Channels, Communication Infrastructure
Many Plan to Play goals from 2017 remain unmet for land acquisition and new trails, please increase funding for land acquisition and natural parks. Please include Nashville Highland Rim Forest conservation in strategic plans.	Ecological and Natural Landscape Management, Land Acquisition
tell the DOT to stop taking lanes out of streets for bike lanes. especially when biking is being added to parks. the bike lane at 1st and dickerson has screwed up traffic, now it is a total mess	
We loved when the Shelby golf course in East was shut down and we could walk there. The hills are magical and while I see merit in making an expensive sport more accessible and affordable, many more in the community would benefit from open access to walking and biking there. Plus it would expand close access to the park - I could walk/bike to all of the Shelby greenways and amenities if I could traverse the golf course.	Park Access and Accessibility, Park Access, Land Use, Land Use Strategy
new roof for the sportsplex add more youth sports to the sportsplex...volleyball, basektball, gymnastics	Park Maintenance, Community Programming, Sports Complex Upgrades
N/A	
Continue ways to have better accessibility to nature. Better maintenance at smaller parks and playgrounds.	Park Maintenance and Infrastructure, Park Maintenance, Nature Access
If there are volunteer trash pickup programs for parks and greenways, advertise their existence. If there is not one, it'd be great to have one.	Community Engagement and Outreach, Community Cleanup Programs, Volunteer Programs, Community Investment and Development
Ravenwood is an excellent (and our favorite) park, but could benefit from better bathroom facilities, better maintenance (sand pit is empty), and more trails to the west. A direct connection do downtown Donelson would be a game changer.	Park Facilities and Amenities, Park Maintenance and Infrastructure, Park Connectivity, Park Infrastructure and Development
more land! i know you can't do this but id love you to use eminent domain to build more parks	Park Land Acquisition
Follow best practices for land management (mow when best for wildlife, stop use of pesticides, herbicides and rodenticides that can hurt people and wildlife), plant native trees and plants: basically embrace an ethos that our parks provide refuge for not only people but the entire ecosystem. There is established science that shows the long-term damage that accepted practices inflict. Let's get on-board with life-supporting practices!	Ecological and Natural Landscape Management
Strike a better balance between land dedicated to golf courses and neighborhood and community park needs - convert existing golf course land to parks, greenways and natural areas.	Park Land Allocation, Golf Course Conversion, Land Use Optimization
Metro needs to let go of the "do it alone" mentality and be more open/supportive of public/private partnerships. There will never be enough money to meet the backlog of deferred maintenance AND meet the needs of a growing population. It's time to get creative and flexible with the private sector in building, maintaining, operating parks and activities. Also, we need to think now about where to buy future land to address climate change and heat island effect. There are some - primarily lower income - communities in Nashville that will be least equipped to handle increasing heat and we can help with that by having more parks and more trees.	Community Investment and Development, Funding and Resource Allocation, Climate Resilience Planning
More water fountains, more enforcement, make cars stop instead of pedestrians on greenways that intersect roads.	Greenway Safety
In Whites Creek, we need a park that maintains water quality of the creek. Access for canoes would be great. We need an improved park at Whites Creek high school. We need trash cans at the Greenway at Fontanel so people won't let their dogs poop all over. We need for whoever mows out there to STOP MOWING DOWN ALL THE WILDFLOWERS!!!	Creek Water Quality, Creek Preservation, Park Maintenance and Infrastructure, Park Maintenance
No	
I love Metro Park. Wish there was a regional aspect to it do financial needs could be supported by outlying neighborhoods.	Regional Funding Strategy, Funding and Resource Allocation
I personally love the bike lanes that lead to Greenways. Within the 37211 zip code I would love to see and others have stated to me as well, the extension of the Ellington Ag Center paved walk and cycling asphalt all the way up Edmondson Pike to Nippers Corner behind Starbucks and such if possible. A connection from Huntington Parkway at a minimum would be fabulous!	Bike Lane Expansion, Bike Lane Infrastructure, Greenway Connectivity
no	
Grateful for all you do - parks are significant contributor to my quality of life	
More water stations, more bathrooms & changing areas (for example, at the Belle Meade Boulevard entrance to Percy Warner Park, Deep Well, etc.), more integration with natural water features (swimming holes, natural swimming pools, beaches, etc.)	Park Facilities and Amenities, Park Amenities, Water Station Improvements
Splash pads and heat safety should be prioritized as Nashville gets hotter every summer.	Park Facilities and Amenities, Summer Recreation, Heat Safety

ADD PICKLEBALL COURTS to Ravenwood park!	Sports Facility Expansion
more mountain bike trails	Trail Development, Mountain Bike Trail Development
I'm fairly happy with what Metro Parks provides to our community.	
I would love to see more parks employees around at parks. More times than not, when visiting Metro parks I find visitor centers closed, restrooms closed, amenities closed, etc. While I recognize that staff costs for these positions and maintenance are burdensome, we also see parks in the area succeed with the support of nonprofit and volunteer help. Our larger parks with organizations set up for their oversight (Shelby, Warners) are able to drum up volunteer programming, large fundraising events, invasive plant removal, etc. At the same time, I see parks with only Metro support lack this same programming and/or staffing (Wasioto, Riverfront, Hamilton Creek, Stones River Greenway Trailhead). Maybe there is opportunity to establish some formal or informal volunteer or nonprofit support for some of the more overlooked or smaller locations. i.e. volunteer nature/community center shifts, community cleanup and maintenance programming. Establishment of "Friends of Metro Parks?"	Community Programming, Park Staffing, Community Engagement and Outreach
I wish I could ride my Bike to the greenway but there are no sidewalks and minimum bike lanes for me to do that	Bike Lane Infrastructure, Transportation and Connectivity
Build it for the people that live here, not the tourists	Community Investment and Development, Community Park Design and Development
I'm very grateful for what we have, but better maintenance of paved and dirt surfaces would make hiking and biking safer and more enjoyable.	Park Maintenance, Trail Development and Infrastructure
I will say it again, please DO NOT add lights to the trails. The parks themselves, and parking lots, fine. However, the trails should be kept as natural as possible.	Trail Development and Infrastructure, Trail Preservation
Having the greenways connect from the different neighborhoods, especially from South Nashville up to Downtown and East Nashville would make it much safer for residents to travel and explore the city without having to use a car.	Greenway Connectivity
Maintenance of existing facilities appears to be the key currently. Expanding needs to happen, but seems pointless if we are not maintaining what we currently have.	Park Maintenance and Infrastructure, Park Maintenance
Hire more cops	Park Safety and Security
Just please improve the safety. Cars frequently do not stop at stop signs in East Nashville, making it unsafe for pedestrians. The lack of sidewalks in East is also very unsafe (ie Eastland by Tiffany/Beth Dr). And please improve bike lane and greenway barriers from cars to keep bikers/pedestrians and our children safe!	
More events in the surrounding areas of the metro rather than just downtown. Many of the park events happen in downtown parks, centennial, bicentennial, and areas like that. More events or love for the surrounding communities like Hermitage, Donelson, Bellevue, and others would be great	Community Investment and Development, Event Distribution, Community Event Distribution
Conectar parques y greenways de manera segura	Greenway Connectivity
Squash courts in the Rebuilding of WEST PARK	Sports Facility Expansion
Nature forward efforts with planting trees along existing greenways. Cumberland River Greenway and Davidson Bike lane are rough being so fully exposed. Make more safe crossings of the river. Looks like Jefferson has a painted bike lane now - but it needs to be protected! And traffic control measures for drivers could be put in place to make that feel safer. More connectivity over all. Gulch greenway to demonbreon bike lane needs connection (it's my commute with my toddler and would feel a lot better if that small segment were connected.)	Greenway Development
Proper maintenance is important. Appropriate trash receptacles are important along with timely emptying	Park Maintenance and Infrastructure, Park Maintenance, Waste Management
Continue filling in the greenway network.	Greenway Network Expansion
Don't make exclusive and make sure people are participating outside of	Community Investment and Development, Community Inclusivity
no	
Allow residents of nearby parks to assist with their maintenance and upkeep, and decoration.	Park Maintenance, Community Park Design and Development
Hire more Police Officers to Patrol the Parks.	Park Safety and Security
Cleanliness and Security	Park Safety and Security, Park Cleanliness
N/A	
We have been waiting for the construction of our new community center in Old Hickory. It's taken a long time, but we're excited about it. It will truly fulfill the needs I've listed. Our area has no other resource like this, which is so important. The city should also aim to properly connect Rayon City to Old Hickory Village, which would encourage more neighbors to walk to the community center.	Neighborhood Connectivity, Transportation and Connectivity, Community Center and Facilities
Be careful to make sure all changes are environment-friendly, being especially conscious of night-sky efforts to keep Nashville skies dark at night, continuous tree canopy for urban bird safety, native plantings for our birds and insects. I am a member of our local chapter of WildOnes, a group which promotes native landscapes. I think WildOnes would be willing to partner with a park to plant natives and maintain gardens. Public awareness is important, and as well as modeling for the public what needs to be done for Nashville to have a healthy ecosystem. We could be forerunners in this area!	Environmental Conservation, sm_neutral
Regular care for plant life and animals in the parks. Landscape beautification. And consider a Miracle Park for those with disabilities to play baseball, etc.	Inclusive Recreation, Park Maintenance and Infrastructure, Park Maintenance, Inclusive Recreation Facilities
More Dance studios and facilities for learning	Recreational Facility Expansion, Park Facilities and Amenities
Y'all need a better marketing and communications strategy. Y'all need more events that bring people to the park like farmers markets, concerts, and classes. Y'all should be partnering with other metro departments more like Metro Water, sustainability, etc.	Community Event Programming
Please do something with land just sitting waiting to be developed into parks :)	Park Development and Planning, Park Land Development
I think you do well considering what you have!	
Investments in farmers markets, covered areas, public art, plants, nature, community gardens, patio, classes, playgrounds, cooling stations, event space, would be very welcome.	Park Facilities and Amenities, Community Park Design and Development, Community Programming, Park Amenities

Please, please be aggressive about buying land to save it from overdevelopment and ugly housing built by out of town conglomerates that have descended on our city and are not invested in its long-term habitability or in the flourishing of our natural environment. Public orgs are one of our only bulwarks against this kind of exploration. Unrelated, but I also love signs about native wildlife, plants, natural history and historic events in our parks and along greenways and always stop to read them. Would love to see some creative, natural playgrounds, climbable structures and play areas for children. Would be a great opportunity to collaborate with local artists and further distinguish our parks and greenways!	Creative Playground Design, Land Preservation
Like schools, water and most infrastructure in the city, Metro Parks has been mismanaged by City Leadership for decades. Tax revenue has been stolen (in creative schemes like tax increment financing) and diverted to Metro's favorite charity, developers masking their interests in things such as the Nashville Sports Authority, MNAA, Downtown Chamber of Commerce. Our hard-earned tax dollars have been diverted to things that don't benefit the general populace. New schools, police precincts or rec centers are put on a pedestal to show how the city is doing good things for residents, but in reality, these are development projects, and everyone knows you won't spend money maintaining or staffing these facilities. They are run with gross inefficiency. You can't even schedule a court or a tee-time, on-line, you have to call multiple times until someone answers the phone. I can make reservations or order food on-line at even the smallest of restaurants who have a fraction of the resources of the city. Quit buying more land and building new things, maintain what you have. Why in the heck can residents from adjacent counties come and enjoy Metro golf courses, parks, football and hockey games and I have to subsidize them. Half the businesses downtown that you are so keen on propping up with new development aren't even owned by Davidson County residents. It's no wonder the State wants to take over half our boards, the sad thing is they won't improve them, they will just stack them with their development cronies instead of yours.	Funding and Resource Allocation, Park Management Efficiency
get community and neighborhood groups involved in helping to keep them clean and maintaining them- host community pride cleanup days and planting days	Community Engagement and Outreach, Park Maintenance and Infrastructure, Community Investment and Development, Park Maintenance
Take care of what we have. More equity across the city. Not enough attention to the West side of town.	Community Investment and Development, sm_negative
Better maintenance of trails in small natural areas like Lockeland Springs Park	sm_neutral, Park Maintenance
Please offer more ceramics classes or offer open studio times for community members. The Bellevue center ceramics studio is so nice and is extremely underutilized. Please make class registration easier - not at midnight!! Finally please invest in the Nations neighborhood and rebuild a facility like McCabe	Park Facilities and Amenities, Community Programming, Community Class Offerings, Park Access and Accessibility, Program Registration Improvement, Facility Expansion
Have working bathrooms. I've been to Whitfield park, Granbery, centennial, mill ridge, Warner parks, red caboose, Sevier, Fannie Mae Dee's, Cane Ridge, stones river greenway, Shelby bottoms, Radner lake, and riverfront parks to name a few. I'd say maybe 1/4 of the parks/greenways has access to a restroom that was working.	Park Maintenance and Infrastructure, Park Restroom Availability
Most critical is land acquisition before it becomes unattainable	Funding and Resource Allocation, Land Acquisition Strategy
Build Opry Mills connector trail	Trail Development and Infrastructure, Trail Connectivity
increase operating hours for community centers to 24 hours. Partner with grassroot organizations to help you provide more programming. Detention centers are open 24 hours why not offer more things for youth to do so they dont have to go there.	Community Programming, Community Engagement and Outreach, Community Investment and Development, Community Center and Facilities
Need more smaller parks in Madison and Greenway access that is closer to the neighborhoods	Neighborhood Greenway Access, Neighborhood Park Access, Greenway Expansion, Park Distribution
Let's build the Naval Station community center on Davidson Road!!!	
test	
No	
Better shade on outdoor tennis/pickleball courts. Earlier opening times during the summer in centennial Sportsplex on sundays.	Court Shade Improvement, Facility Operating Hours
Build the Peeler Park Pedestrian path	Trail Development, Trail Development and Infrastructure
Improve pickleball courts, quality and number Pickleball leagues for women Bike lanes Massive public education campaign to reduce pedestrian and bicyclist fatalities and injuries from motor vehicle drivers	Sports Court Improvement, Bike Lane Infrastructure, Pickleball Court Improvement, Public Safety Education
I mainly use the McCabe golf course in Sylvan Park. The old golf pro needs to be forced to retire or be fired. He is 10 years past being useful and now just irritates staff and customers alike with grumpy behavior and sour disposition. More than once staff has been overheard complaining about this guy. He treats members and guests poorly and with an air of distain. His behavior creates a really bad look for the golf course and metro parks McCabe gets a lot of out of town guests and unfortunately this guy gives them something to remember, and not in good way. The staff at McCabe is friendly, courteous easy to deal with and except for Helton. Getting rid of him would go a long way towards improving the front desk at McCabe.	Staff Management, Customer Service Quality
- Need more water fountains!!! - Make more dog parks like Two Rivers. Add shade trees, walking paths, pavilions, etc.	Dog Park Amenities, Water Fountain Availability
We need more natural areas that welcome in and provide habitat for animals	Ecological and Natural Landscape Management
n/a	
Provide walk-in tent camping (with reservations and permits) in certain parks	Camping Facilities
Turn on the water fountains by April 1. Take maintenance more seriously. Have more vibrant, passionate, ambitious leadership.	Water Fountain Maintenance, Park Maintenance and Infrastructure, Leadership Quality, Water Fountain Activation, Park Maintenance
Great survey. I hope you get useful feedback. hm. survey won't let me out! says #26 is required. I did sort by priority. went back and re-sorted, jic that would help. Okay, that must've worked. next page: I live in greater Metro Nashville (not urban services, jic that matters) #30 below: I already get your newsletter online (I think!)	

I was at Crocket Park in Williamson Co. last night for the summer concert show. Plenty for play area for Children,well lit and also the pet rules, alcohol rules were conveyed well. Lots of handicapped parking, police stations, food trucks, bathrooms. In comparison to the Music corner this month at Centennial, Metro could do much better, though there have been some improvements. Now it is up to Freddie and the crew.	Event Infrastructure, Park Facility Comparison
More outdoor pool availability would be a huge benefit to our city as a whole. Currently there are three public pools that are all within a 5-mile radius of downtown (excluding wave country). For the 100,000 residents of Antioch or the 100,000 residents of Bellevue, or the many residents of other areas of Nashville these are really not accessible. As temperatures continue to rise, citizens of Nashville are less likely to be outdoors at parks and greenways when the temperatures are above 100°, but would be more likely to be present at a local public pool. These also may provide safer swimming experiences than swimming in lakes.	Heat Mitigation, Public Pool Accessibility
They are amazing parks that need animal care, bad weather safe zones, phone charging stations, emergency alarm pull stations, and clean bathrooms and water!! Just update them and hire an animal trained park ranger manager at each park to STAY THERE 7 days per week!!	Animal Management, Park Maintenance and Infrastructure, Park Safety and Security
More field space for soccer whether it is indoor/futsal facilities or additional field space that is easy to acess	Soccer Field Availability
Focus on making what already exists good/better. Lock 2 park was slated for an improvement and that hasn't happened. How many times I've seen needles left, or people dealing drugs near the ramp is ridiculous with the playground right there. But the playground, with the amazing view, is harder to convince kids to go to-even though it's closer to home, since two rivers playground is better maintained.	Park Maintenance and Infrastructure, Park Improvement Prioritization, Park Safety and Security, Park Improvement
Abolish the greenways commission	Governance Reform
Safer crosswalks at intersections	Pedestrian Safety
Build the Peeler Park Pedestrian Path	Trail Development, Trail Development and Infrastructure
Dog parks are dangerous for people and dogs anymore. There are too many incidents of people willfully or intentionally allowing vicious dogs to harm people or other dogs. Also people are known to drop their dogs and go run errands or something as if it is a babysitting drop off.	Park Safety and Security, Dog Park Safety
Build the Peeler Park Pedestrian Path	Trail Development, Trail Development and Infrastructure
-Maintain what you have, for starters (water fountains, etc.). -Keep natural areas exactly that -- natural. We need peace in our lives -- time way from the urban sprawl and noise. -Do programming that gets us outdoors (Kayaking 101, etc.)	Community Programming, Ecological and Natural Landscape Management, sm_neutral, Recreational Programming
maintenance is very important.	Park Maintenance and Infrastructure, Park Maintenance
There's rumor that Parks officials' compensation is tied to Park's Dept sending. In that, the less of the budget Parks spends, the higher the compensation Parks officials receive. Parks should publicly deny this rumor, if it is untrue. If true, the Council should change this compensation structure.	Compensation Structure, Organizational Transparency
More off leash dog opportunitites	Dog Park Expansion
The William Edmondson Homesite community has shown their interest and support by maintaining it. They need to be acknowledged that this site offers the community a local park and contains an internationally significant historic site. We highly encourage the Metro Parks System to do whatever they need to do include this site within the Metro Parks System.	Park Development and Planning, Historic Site Preservation, Community Park Design and Development
Please keep our parks safe from unhoused people camping out!	Park Safety and Security
Need to offer more art classes for adults, daytime classes, many locations	Community Programming, Recreational Programming
The sidewalks are a huge issue!! Please put in more sidewalks.	Sidewalk Infrastructure
More sidewalks in Antioch.	Sidewalk Infrastructure
enforce dog leash law daily	Dog Leash Enforcement
Metro Parks does an excellent job. Keep up the good work!	
Make the William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements	Park Development and Planning, Historic Site Preservation, Community Park Design and Development
Build the Peeler Park Pedestrian Path	Trail Development, Trail Development and Infrastructure
Please progress with the idea of serving the residents and not with trying to attract tourists - including those from surrounding counties.	Community Investment and Development, Community Service Prioritization
Upgrade/maintain what we have. Upgrade acces to programs and increase arts and nature programming. If it ain't broke, don't fix it. Maintain/upgrade the good that's already in place	Park Maintenance and Infrastructure, Park Access and Accessibility, Arts and Nature Programming, Program Access, Park Maintenance
Safety & more room for walkers, runners, & cyclists to coexist	Trail Development and Infrastructure, Multi-Use Path Design
NA	
Make the William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements	Park Development and Planning, Historic Site Preservation, Community Park Design and Development
Bring the William Edmondson Homesite into the Metro Parks fold. It already serves as a park, so improvements and maintenance would be minimal.	Historic Site Preservation, Park Usage and Management, Park System Integration
Nashville area has the largest disc golf base in the country and the largest PDGA affiliate club in the world. Metro parks needs to make a better effort to support and promote the sport.	Disc Golf Support, Community Programming, Recreational Programming
Again,?in my neighborhood, I believe The Edgehill Arboretum and Willow am Edmondson Homesite Park and Gardens should be transferred from the school system to the parks system	Park System Management, Historic Site Preservation
Building a Greenway access across the river into Madison! Madison is growing and really could use the support from the city and parks department to help it improve overall! Madison struggles because of how confined we are by the river and would love to see it be supported by more access to its parks!	Park Development and Planning, Regional Park Development, Greenway Expansion
Make the William Edmondson Homesite an official part of the Metro Park system and move forward with the community's wishes for future park improvements	Historic Site Management, Community Park Improvements
Increased population should also mean increased tax revenue. Please provide facilities and parks to accommodate the growth.	Park Capacity Planning
Many playgrounds have unsafe features that need to addressed. Additionally many playgrounds have zero shade overhead which makes them largely unusable (hot metal; etc) for several months of the year.	Park Facility Comfort, Park Facility Design, Playground Safety

Build the Peeler Park Pedestrian Path	Park Infrastructure and Development, Park Infrastructure Development
Build partnerships with WeGo and NDOT on connectivity.	Transportation Connectivity, Transportation and Connectivity
REGISTAR BIKE TAGS LIKE MOTOR VEHICLES FOR SAFETY. IMPLEMENT FULL SERVICE RESTROOMS	Park Facilities and Amenities, Bike Lane Infrastructure, Park Facility Amenities, Bicycle Safety
Provide more access for horses	Park Access and Accessibility, Park Facilities and Amenities
The homeless encampments have to be addressed. It would be one thing if they took care of their space, but almost every greenway in Nashville has some sort of encampment and they are frequently littered with trash and drug paraphernalia, and many of the individuals are suffering from drug or mental health problems. I understand this is a nuanced issue, but there has to be a solution that leaves our parks cleaner and safer.	Park Safety and Security
We need nothing until the Homeless Crisis is attended to like it was done in Washington, DC.	Homeless Crisis Management, Transportation and Connectivity
Bathrooms at Bellevue soccer fields	Park Facilities and Amenities, Park Facility Amenities
We need a good community center. The Hermitage Community center has little for young people and we should do better for them as well as for adults	Community Programming, Community Center and Facilities
Returning phone calls and emails would be nice. I called and left a message about a permit a while back and never was contacted. Also perhaps a simple bulletin board of what projects are funded, and what the progress of them is.	Customer Communication, Project Transparency
Add swimming facilities for seniors	Senior Recreation Facilities
Rangers presence, for questions and security. Not police presence, except maybe to drive through parking lots to perhaps reduce possibility of auto break-ins. Emergency button/phone.	Park Safety and Security
Increase wooded nature trials or walking paths within city limits	Trail Development and Infrastructure, Nature Trail Development
Increase wooded nature trails in the city	Trail Development and Infrastructure, Nature Trail Development
We need pool access!	Swimming Facility Access
There are SO many events but most of them are in East Nashville, Antioch, Hendersonville...I understand there is a large need in those areas but we are a low-income family in Bellevue who can't always drive that far.	Community Accessibility, Event Distribution, Park Access and Accessibility
Work with commercial developers to require them to help with greenway/nature additions to their developments; we do not need 6 lanes for traffic on East Bank development...that idea brings MORE cars instead of helping traffic. More fundraisers. Involve locals more with "Friends of..." like Shelby Park does.	Urban Development Collaboration, Greenway Expansion
Outdoor pools	Outdoor Pool Facilities
More parks near me and a pool!!	Swimming Facility Access, Park Proximity
I would love to see more outdoor pools! This is really the biggest need and opportunity. I would also love the greenways to connect to help connect Nashville and make it a better place to live with access to safe outdoor activities	Outdoor Pool Facilities, Greenway Connectivity
Outdoor public pools with snack bar options for kids and families to enjoy during the summertime. Provides great jobs for high school kids and entertainment for younger kids!	Outdoor Pool Facilities, Youth Employment
The Forest Green Trailhead entrance has a handicap spot but it is not handicap accessible as it does not have an adjacent access aisle to allow for wheelchair. My uncle, who is paralyzed from the waist down, enjoys using the Greenway but we have to use the further entrance by the nature center because there's no guarantee if he parks at the Forest Green entrance that he will be able to get his wheelchair in and out of his car due to cars parking on both sides of the designated spot.	Accessibility Infrastructure, Park Facility Design, Park Access and Accessibility
Ticket cyclists for speeding in parks. Enforce leash laws.	Park Rule Enforcement, Park Safety and Security
Keeping what we already have in good condition should be the priority. I don't know if it would be helpful to work with area HOAs and neighborhood groups to help tackle some of the deferred maintenance projects and allow people to feel a sense of ownership of these important amenities.	Community Engagement and Outreach, Park Maintenance and Infrastructure, Community Investment and Development, Maintenance Strategy
Capture that tourism.	Tourism Development
More private-public collaboration to make enhancements/maintain with a limited budget. As a developer, I tried to provide public facilities such as trail improvements to Metro, but the process was arduous and discouraging. I was determined, but most developers/corporations wouldn't have tried to hard to give away public improvements and thats a huge miss for Nashvillians.	Funding and Resource Allocation, sm_negative
No	
There are lots of places you're requiring green space so it would be really advantageous to include hiking/ riding trails as a part of that. It's a lot easier to get help from people who use the trails as volunteer helpers. There are also so many places here where you start putting in sidewalks by a new neighborhood but they don't lead anywhere, but then the city does updates very close to where they are and doesn't add any sidewalks. The local horse trails are very well used and it would be really nice to include more, but I understand that isn't a universal need.	Trail Development, Trail Development and Infrastructure, Urban Infrastructure Planning
improve the parks that we have rather than obtaining more land that the department does not seem to be able to staff	Funding and Resource Allocation, sm_negative
It would be great to update the Ag center space and add a community center and playground .	sm_neutral
Volleyball is one of the safest rec sports to play, in terms of injury relative to other major sports. Growing the community is only possible with Parks. Please help our community to have more access to these facilities!	Recreational Facility Access
We need more sand volleyball courts. They are constantly in use and people wait hours to get to play	Volleyball Court Availability
More volleyball events. More social hours!	Community Programming, Recreational Programming
Expand greenway network to improve connectivity both downtown and to other parts of Davidson County	Greenway Expansion, Urban Connectivity
Instead of mainting old structures especially those from the 1970s (yuck) demolishing them to build new structures that better fit our current needs. Think allowing a museum to be built in Centennial, and observatory in Warner, a designed community garden in Coleman.	Community Investment and Development, Urban Space Redesign, Facility Modernization
Parks need to be a higher overall priority for our city.	Parks Priority

Can we have a kite park?	Recreational Space Innovation
Keep Seven Oaks Pickleball courts open longer and extend open play hours at centennial past 9	Facility Operating Hours
I love the parks! I would love if your website was better. It is nearly impossible to find fitness calendars for the different community centers. They tell me to look on their Facebook page, but I don't use Facebook. :(	Program Information Access, Information Accessibility, Digital Communication
Build more sand volleyball courts that are for open or pickup players, not just leagues.	Volleyball Court Availability
continue Music in the park and other music around town. More trash cans on the green ways. continue to link greenways.	sm_neutral, Greenway Infrastructure
More open fields for recreational use and sports. Extended hours on park availability. Promote physical fitness groups and sports programs.	Recreational Space Development, Facility Operating Hours
There are far too few sand volleyball courts for open play. Centennial park courts are awesome courts! But they're scheduled for use sooo frequently by leagues (for low level players) that there is hardly opportunity for high levels players to schedule open play. There are also very few other courts that are well maintained enough to be used by anyone other than lower level players that are there for fun but don't know the game very well.	Volleyball Court Availability
I think my previous statement covers most of my specific desires	
Please consider a benefits analysis that prioritizes how many people benefit from Parks investments especially as it relates to golf courses. Golf courses pollute waterways, are money lost for the city and benefit a few. I don't think neighborhood people benefit from land dedicated to golf courses.	Funding and Resource Allocation, Park Resource Allocation, Land Use Optimization, Land Use Strategy
add more sand volleyball courts, some with lights and others not. accessibility is extremely limited and no one can play past 6pm unless they sign up for leagues (which are really low level) more trash bins for dog waste long term goal of connecting the green ways and integrating them into the city (i.e. see Atlanta Belt Line)	Volleyball Court Availability, Greenway Connectivity
nope	
Allow more trees to be planted.	Ecological and Natural Landscape Management, Green Space Development
Better communication about events and location	Event Communication, Park Information Sharing
Plant fruits and vegetables and flowers	Urban Agriculture, Park Landscaping
Increase funding to acquire land for future parks and focus on long term planning	Land Acquisition, Long-Term Park Planning, Park Development and Planning, Land Acquisition Strategy
I'm interested in hiking a variety of lesser used trails. Warner Parks are too busy and have too many dogs.	Park Usage Management, Park Usage and Management, Trail Development and Infrastructure
Make a plan that protects natural areas. Remember if the Warner Parks were not protected, they would be destroyed forever. Park land is valuable for quality of life for people,	Park Land Preservation, Ecological and Natural Landscape Management
Emphasize that Nashville will stay great with a healthy population-mentally and physically - and that Metro Parks provides everyone the FREE opportunity to achieve AND maintain good health in safe surroundings for all ages	Community Wellness, Community Investment and Development, Public Health Promotion
Increase funding for land acquisition and natural parks. Many Plan to Play goals from 2017 remain unmet for land acquisition and new trails.	Land Acquisition, Trail Development and Infrastructure, Trail Development, Land Acquisition Strategy
Let parks manage their land. They always seem to have to cede to other municipal services. When another department wants to use a facility, either temporarily or permanently, I've seen parks teams have to scramble to create huge justifications for why they want to keep it for park use instead. They feel like they're at the "bottom of the totem pole" from a central administration perspective sometimes.	Funding and Resource Allocation, Park Usage and Management, sm_negative
I hope Metro Parks can conserve and maintain the Nashville Highland Rim Forest. It is the forested hills that connect our great parks: Bells Bend, Beaman, Warner and Radnor.	Forest Conservation, Regional Park Connectivity, Ecological and Natural Landscape Management
Purchase additional old growth forest land along Nashville's perimeter to protect this essential resource from development and ensure the community has access to preserved green space.	Ecological and Natural Landscape Management, Land Preservation
Seriously, go ALL IN on course offerings. NCE was a fantastic program that Nashville lost during COVID. Metro Parks should pick that up and make it a part of their strategic plan	Program Expansion, Community Programming, Recreational Programming
Repeating here in case the previous field was not the correct spot for it. Cornelia Fort Airpark needs actual restrooms, not just the two chemical toilets. Wasioto Park on 1st street was beautiful and we loved going to the splash pad, but it fell into disrepair almost immediately. Bring it back! And program events at the amphitheater!	Park Maintenance and Infrastructure, Park Maintenance, Park Infrastructure Improvements
More public restrooms and cafes located in parks	sm_neutral, Park Amenities
Hire more staff / personnel including park police. Thank you!	Staffing Needs, Park Safety and Security
Why are the parks on the west side so much better maintained than the East Side?	Geographic Resource Distribution, Park Maintenance, Park Maintenance Equity
Increase the number of outdoor fitness stations at parks	Fitness Infrastructure, Outdoor Fitness Infrastructure, Park Facilities and Amenities
I shared in an earlier question.	
A community pool with indoor/outdoor options with lots of days and hours that it is open!	Community Recreation Options, Aquatic Facility Development
Fire Odom.	
West Meade needs a park for farmers markets, art and gardens	Park Development and Planning
Please put more parking at the entrance of Old Hickory greenway trailhead of mill creek greenway.	Trailhead Infrastructure, Parking Improvements, Trailhead Parking Infrastructure
A bathroom at Cornelia Fort Airpark would be nice!	sm_neutral
More greenways and connectivity plus increased safety provisions	Greenway Expansion, Trail Development and Infrastructure
Bikes and ebikes go too fast and often have little regard for others on the trail. As a cyclist myself, I appreciate that sometimes walkers are oblivious to their surroundings, but that doesn't give me license to be arrogant or reckless. Perhaps there needs to be more clarity (and enforcement?) of who has the right-of-way? In other places I've lived this is Horses, then Hikers, then Bikers. I assume this is universal? Perhaps people just don't know?	Trail Development and Infrastructure, User Behavior Management, Trail Usage Regulations
More water fountains Better walkways for humans and dogs	Pedestrian Amenities, sm_neutral
Playgrounds	Playground Development

Please add bathrooms at Cornelia Airpark	sm_neutral
Would love an app of all the parks and that would be full of information and what classes are offered and when farmers markets and other markets are.	Digital Park Information, Digital Information Platform, Event Communication
Would love to see some initiatives that make public lands accessible for community gardens or proper agricultural production where appropriate, giving underserved communities access to arable land while eliminating the maintenance of that land for parks staff.	Community Garden Initiatives, Land Use Optimization, Land Use Strategy
The .gov website is really difficult to navigate and find information. Find someone from the public sector to make it more customer-friendly.	Website Usability, Digital Communication, Website User Experience
Fact checking before signs are printed/displays - By gazebo in Shelby, a sign identifying a Monarch butterfly & the picture used is a Viceroy!	Educational Display Accuracy, Educational Content Quality
More trash cans in Shelby. I'm not sure what happened to all the new ones put in a few years ago but there are a lot less places to place trash now.	Park Maintenance, Park Waste Management
I forgot to mention! The Shelby Park pickleball courts, as great as they are, need new paint. Currently, it's brown lines on navy background. Those courts need more lights, as well	Sports Facility Maintenance
install sidewalks in surrounding neighborhoods so people can safely walk to the parks	Neighborhood Connectivity, Transportation and Connectivity, Pedestrian Infrastructure
I would NOT add more events. We have so many city-wide in our parks and otherwise. Seems like we have plenty to do. Also - the wear and tear of parking on parks, noise, traffic created is not worth it, in my view.	Park Usage and Management, Event Management, Park Usage Impact
No	
Cornelia AirPark needs good bathrooms. Naval park needs attention - too many homeless folks overnight. Park needed in growth area down Gallatin in East Nashville around West Greenwood Ave.	Park Maintenance and Infrastructure, Park Safety Management
Look, I know this is a BEAST. I was involved in management of recreational facilities for an entire island, and you can never make everyone happy. I think there are two first priorities, one is repair of existing offerings and balancing safety issues like crime/unhoused so people can safely use these spaces. The second one may be controversial as a second priority, but with land cost escalating, I would put purchase of land above expanding facilities before Metro is priced out and it's too late. Be nimble enough to quickly grab spaces. Then, after existing ones are safe, maintained, we expand. Until the unhoused situation and it's relationship to park usage is addressed, we are in a bit of a stalemate. As a strong user of Bicentennial park (yes I know that's state land), I've never felt unsafe- so the variables at play there could be replicated? Lastly, the River. This is a virtual cash cow just waiting to be maximized. The revitalization of Chicago's river was a game changer for the city- that's everything from river health (state I know)... to cleaning the refuge, assisting the unhoused out of the encampments and creating more recreation along the river. A master plan around the river would be a great step.	Land Acquisition, Park Maintenance and Infrastructure, Park Safety Management
An website-based calendar that's clearer about what's happening and where. I'm usually digging through community center social media to find the pdf of events.	Digital Information Platform, Event Communication
sometimes parks get crowded, too crowded to be enjoyable, which deters me from going (Shelby Bottoms and Centennial specifically). Figure out how to increase supply of existing parks or distribute demand across more parks.	Park Capacity Management, Park Usage and Management, Visitor Experience, Park Distribution
Fixing up our existing parks should be priority before building new ones. And giving back to the people that work for the parks and do so much for us and love our parks as much as we do!	Park Maintenance, Park Maintenance and Infrastructure, Staff Support, Staff Recognition
I would LOVE a safe walking party after dark in the winter.	Park Safety and Security, Recreational Programming
more kid friendly options!	Family-Friendly Amenities, Park Facilities and Amenities
There are numerous spots on greenways in which roots have caused the path to bubble. This is dangerous for us bikers. Adding "best practice" signage that is frequent/obvious. Example - reminders to stay only 2 wide when running/walking, dogs must be on a leash, when on roads w/ cars run against traffic, etc. If space allows (Cornelia) have designated bike v. run/walk lanes, indicate the "preferred" direction of traffic.	Greenway Safety, User Behavior Management
Preserve more lands for for our native flora and fauna. Work with nature using natural flood plains and paths	Ecological and Natural Landscape Management, Ecological Management
hire better and more qualified leaders	Leadership Development
Some of the routes are impractical due to existing housing. Better and quicker to connect greenway in these areas by sidewalk.	Infrastructure Planning
Less frequent mowing in wild areas and proper invasive management. Thank you for all your hard work!	Natural Area Management, Ecological Maintenance, Ecological and Natural Landscape Management

Metro Nashville Parks and Recreation must prioritize the long-term protection of our most ecologically significant parklands—especially natural areas like Warner Parks—against development pressures that compromise their integrity. The proposed road through Warner Parks is a prime example of a short-sighted transportation solution that would permanently damage one of Nashville's most biodiverse and beloved public spaces. Preserving large, contiguous green spaces is essential for wildlife habitat, climate resilience, and public well-being. Additionally, recent events at Cheekwood have highlighted the need for stronger oversight and clearer boundaries between public parkland and private institutions operating within those spaces. Metro Parks should ensure transparency, public accountability, and equitable access wherever public lands are involved. Metro Parks can improve by: - Upholding the vision of the Plan to Play Master Plan, especially its commitments to environmental stewardship and equitable access. - Strengthening protections for natural areas in the face of infrastructure proposals. - Requiring more meaningful community engagement and ecological review before any development plans are considered in or near public parkland. - Developing enforceable policies that safeguard Metro-owned land and prioritize nature-based recreation and conservation.	Community Engagement and Outreach, Community Investment and Development, sm_negative
None	
More sidewalk connectivity throughout the Cane Ridge area	Community Investment and Development, Neighborhood Infrastructure
It's encouraging to see relationships between community members like churches and nonprofits who care for parks and have a vested interest in their nearby parks. More collaboration is a good way to seek improvements. Connectivity to neighborhoods is beneficial also.	Community Engagement and Outreach, Community Investment and Development, Neighborhood Connectivity, Transportation and Connectivity
Restrooms not being available or open full time at parks that have baseball fields is a challenge because of how long games are- I've had to drive separately from my family and leave to use the restroom when facilities are locked in the evenings.	Park Access and Accessibility, Park Facilities and Amenities
Greenway access from culbertson road and autumn oaks neighborhood	Greenway Access
Allow participants to carry firearms	Firearms Policy
No	
Add Dog facilities like lidded pet waste bins, and pet water fountains to medium and large parks.	Park Facilities and Amenities, Park Amenities
Security on greenways is crucial. McCabe's workout room equipment is not female friendly. Very male oriented machines and weights. Lots of trashcans in parks that are emptied often are helpful. Folks try to use them when they are convenient. Cooking classes would be fun!	Greenway Safety, Park Maintenance and Infrastructure, Fitness Facility Design, Park Maintenance
Add a walking trail around Shelby dog park like the Two Rivers dog park	Dog Park Improvements
I would love to see local parks like Warner and Beaman offer more "facetime" with naturalists and/or develop an amateur naturalist program so we can learn more about local flora and fauna.	Nature Education Programs
More financial support to increase number of personal to guide and facilitate activities, e. g. hiking	Activity Staffing
Please see my earlier comment related to access to golf facilities.	Golf Facility Access
More green and blue ways!	Greenway Expansion
Local park in West Meade!	Park Development and Planning, Community Park Design and Development
no	
Cafes (food and beverage) in parks Bathrooms at Cornelia Fort Airpark Sidewalks along Davidson Street	Park Infrastructure and Development, sm_neutral
na	
Solicit help on maintenance from students/community	Community Maintenance Support
nope	
On the larger greenways such as Stones River Greenway increase park ranger such as 4 wheelers	
Continue line dancing classes at existing centers and add line dancing to other centers	Community Programming, Recreational Programming
Synergize with other departments when appropriate to utilize complementary budgets	
The splash pad at Kirkpatrick has inconsistent, unclear, and restricted hours. The next closest splashpad is in goodlettsville! Would love more closer to the city!	Park Facility Hours, Splash Pad Accessibility, Park Facilities and Amenities
Metro Parks should focus on taking better care of that which they have. They should enforce park regulations more and spend more time actually out in the parks than staring at screens.	Park Usage and Management, Park Maintenance and Infrastructure, Regulation Enforcement
A boathouse for the rowing community would be a big win for river users.	Water Recreation Facilities
Improve existing parks to represent the level of wealth in our city	Park Infrastructure Quality, Park Infrastructure and Development
The after school and summer options are difficult to get into because demand is so high. Would love expansion.	Program Capacity Expansion
More (and better) bike lanes. A painted lane that is always covered in trash or glass and/or that is used for parking doesn't cut it. We love a sidewalk that has a strip of grass between it and the road More prioritization of tennis over pickle ball at the Shelby courts	Sports Facility Management

Please build some mixed use fields at ag center. soccer pitch or turf. multi functional space	Multi-Use Sports Facilities, Park Facilities and Amenities
I've found it difficult to sign up for newsletters for specific offerings through Nashville.gov. Maybe it's just been too long and things are better now but I recall it feeling outdated and relatively non-functional. There are also too many Nashville government social media channels and it's hard to keep up with them all.	Digital Communication Improvements
More swim lessons provided at pool facilities. Right now I know only of Hadley Park.	Swimming Program Expansion
Farmer's market at Cornelia Fort Airpark would be awesome. More dates for the outdoor movie nights there too.	Park Usage and Management, Recreational Programming
Our kids are at the dance studio in Centennial Park for 25+ hours a week. Adding security, lighting and dedicated parking for the dance studio would be helpful. We used to have a drive through drop off spot to drop our dancers on the nights that we don't have a parking spot, but that was removed with the park updates. Adding a drop off spot where we can see the door that they would enter would increase their safety.	Facility Access, Park Safety and Security, Park Access and Accessibility
Address the homelessness in Cleveland Park	Park Safety and Security
Generally am very pleased with MNPR and delighted to get to visit the community and spend time with friends in these spaces.	
Same as earlier comment we need more pool options. We need more fitness class programs at community centers. The arts classes such as pottery are impossible to get into. you need more options and I would think there were plenty of artists in the county who could offer classes. The websites for the community centers are not very good in terms of looking at what programming is going on when at each community center.	Swimming Facilities, Digital Information Access, Community Programming, Digital Communication Improvements, Recreational Programming
Public bathrooms at playgrounds	Park Access and Accessibility, Park Facilities and Amenities
The idea of public restrooms in parks is a great one. This is one reason we sometimes go to parks in Brentwood - the availability of restrooms.	Park Access and Accessibility, Park Facilities and Amenities
Bathrooms, water fountains and mature trees. It's so hot in Nashville!	Park Facilities and Amenities, Park Amenities
I live across from a greenway and LOVE IT. BUT- with Brown's Creek running through it and occasional flooding with heavy rains, I REALLY wish the city would clean out the creek/remove brush to keep the creek flowing when water is higher than usual. With the increase in new and oversized houses that have been built the run off into the creek is increased and while my property is usually not flooded - it has been happening more and more. My neighbors who back up to the creek get their crawlspace flooded every time - this didn't use to happen when the creek was routinely cleared of overgrown brush and debris. There are also issues with overgrown brush in the Battlemont Greenway (near Springbrook and Pleasant Valley) which is my neighborhood - some is blocking the paths. There are a few trees that need to be cleared as they have fallen in the past year and while not blocking the paths/they are affecting the creek being able to appropriately flow/drain - see above comment.	Flood Prevention, Environmental Management, Greenway Maintenance
Metro Parks should absorb the Nashville continued education department (NCE)that was dismantled during Covid. Community center should offer a wide variety of classes, including art, dance, exercise, cooking, life, skills, language, etc. main center should have a full lineup running at least twice a year to bring in more money to the centers and new people to the facilities. Urban greenways need to be added to the traditional Greenway system. Example: Antioch Pike has a 1 mile stretch from Wright middle school, past Glencliff high school, ending at Glencliff Elementary school. Round-trip is exactly 2 miles. There is space along this route for benches, exercise equipment, picnic tables, playground, and even a disc golf course that already exists. It would be a very low lift way to add something for the community without having to purchase or clear land. Every community center should have rentable E bikes. "Parks" should consist of more than just grass and open space. All parks should have trees, native species, benches, picnic tables, and shaded areas to entice usage. Need more ideas? I've lived here. My whole life, have worked for Metro Parks for over 15 years and I am looking for a full-time job where I can help make this system better.	Community Programming, Urban Greenway Development, Park Facility Amenities
I encourage the Parks Department to increase investment in nature centers and the stewardship of natural areas and park habitats across the system. These centers and ecological systems serve as critical hubs for environmental education, community engagement, and conservation awareness. Additionally, expanding access to GIS mapping tools for divisions and employees would greatly enhance property management capabilities. Equipping staff with advanced technology enables more effective ecological monitoring, habitat restoration, and data-driven decision-making, ultimately improving the health and sustainability of our parks. Extending greater mapping capabilities could greatly improve park maintenance organization and capabilities as well. Additionally, Beaman Park and the Beaman to Bells Bend Corridor is an invaluable piece of our park system and community. Land conservation and acquisition should be prioritized to keep this last rural stronghold of Nashville intact. This corridor represents one of the few remaining areas where large, contiguous natural landscapes still exist within Davidson County. It provides critical wildlife habitat, protects water quality, supports biodiversity, and offers residents a chance to connect with nature in an increasingly urbanized region. Prioritizing land acquisition in and around Beaman Park and Bells Bend is essential not only to expand recreational opportunities but also to protect and restore forested land in Davidson County. Forests in this corridor play a vital role in sequestering carbon, buffering climate impacts, and maintaining ecological health. Strategic expansion of these parks would secure one of the most ecologically significant areas in the county before it is lost to development. Protecting and expanding this greenway corridor would ensure that future generations have access to wild and ecologically rich spaces, and it reinforces our city's commitment to sustainable growth. Beaman and Bells Bend together are not just parks—they are living classrooms, wildlife sanctuaries, and a testament to what makes Nashville unique.	sm_positive, Environmental Education
Buy up more land in the Highland Rim.	Land Acquisition

Green spaces are phenomenal for keeping crime down, so I'd like to see more small parks across the city (even if I'm not directly going to those parks). But maintenance is also important, and I'd love to see the current parks be well maintained. I live near Charlotte Park and the tennis courts have been abandoned/in disrepair for years (I went once at the beginning of the pandemic, excited to try something new during lockdown, and then the courts were closed until further notice, and notice has not yet arrived...). Get an online scheduling system for fields/event spaces. As of a couple of years ago when I was involved with planning matches for a local league, scheduling happened by contacting one individual (I want to say her name was Sherry?), and we never could tell whether the request was going to be met ahead of time. In other words, we could request everything we wanted, but because we couldn't see field availability, we didn't know if we'd get the dates we were requesting. Another big problem is that established leagues get preference for the fields they've been using for a long time, which is great to keep those leagues going and it's great for continuity for league attendees/registrants, but it makes it difficult for smaller leagues to get field space or for existing leagues to branch out and provide other offerings to their populations. In other words, I think if more field access/time were available, there'd be enough demand to fill it up.	Park Maintenance and Infrastructure, Facility Scheduling, Green Space Development, Park Maintenance, Sports Facility Management
walk in"sloped access" inside pools should be available especially in areas where the demographic is "older". Sevier Park is a prime example! I would be there! Sevier Park was slated for a pool, and it was downgraded, it would be quite the feather for it to be put back in. MORE PARKING for the old and slow... please.	Pool Accessibility, Parking Facilities
I live in Riverside neighborhood off Morton Mill. In our neighborhood we have a lot of families now with small children who walk the neighborhood and use the greenway across the street. Unfortunately the traffic on Morton Mill is not very to conducive to this. The vehicles travel at high speeds and makes it dangerous for young kids to use the sidewalk of our neighborhood next to that road to ride their bikes, etc. In addition, it is difficult for families to get across the street to use the greenway due to the fast traveling traffic and is hard to obtain access with a stroller. I was hoping for some type of solution so we can enjoy our neighborhood sidewalk and the greenway across the street. Maybe speed bumps, traffic circle, or cross walk?	Traffic Management, Greenway Access
Not to feed a fed horse — but longer hours. Parks has great staff and great facilities, but when they close at sundown we're not getting best value. I'm not saying 24 hours a day, but until 10/11pm is not unusual in other countries who make much better use of their public space.	Park Operating Hours
Put money into improvements	Park Infrastructure and Development
Add pickleball courts	Sports Facility Expansion
Invest in existing facilities to make them the best they can be. Explore more private/public partnerships for maintenance and improvements to facilities	Funding and Resource Allocation, Park Maintenance and Infrastructure, Community Investment and Development, Park Maintenance
Get caught up on maintenance of what we have first. I was at Hamilton Creek Marina last year and it was a dump	Park Maintenance and Infrastructure, Marina Upkeep, Marina Condition, Park Maintenance
Utilize the land you have. Examples include the Lytle farm and the park land on Cockrell Bend. Do not let the perfect be the enemy of the good. Sometimes, primitive trails are enough to get people to enjoy the land.	Trail Development, Trail Development and Infrastructure, Land Utilization
Organize events - food trucks somewhere cool perhaps and market it with social media, TV, NPR etc.	Social Media Promotion, Event Marketing
I like the fund raising events - concerts and beer festival type events. Rock by the river or whatever.	Funding and Resource Allocation, Community Programming, sm_positive
Park Ranger patrolling greenways and onsite at parks for safety of users. Maintain and improve playgrounds and community centers.	Playground Maintenance, Park Safety and Security
England park: More baby swings; sidewalk from delray to morrow; proper stroller, bike, or wagon entrance on north side of England park. Updated picnic tables. Charlotte park: more swings, more shade	Park Accessibility, Park Facilities and Amenities, Playground Equipment, Park Infrastructure and Development
Metro Parks is and will be the lifeblood of Nashville as the city continues to grow. It is critical that the park system grow and expand to become a premiere park system in the US. When I see deferred maintenance as the biggest obstacle to adding green spaces and new greenways, it makes me realize that parks aren't a priority to the city. It feels as if we are a backwards leaning city, not a forward leaning city.	Park Maintenance and Infrastructure, Park Development and Planning, Maintenance Investment, Park Infrastructure and Development
Richland Park has homeless sleeping in the Shelter house and use the Richland Library to wash! This needs to stop. We no longer go to this library due to safety and cleanliness of the library.	Park Safety and Security, Homeless Presence
Those are just some I clicked on, but honestly Nashville Parks are overall great!	
Prioritize connecting Browns Creek Park to Fair Park to increase connectivity. Prioritize purchasing land for more parks in South Nashville south of the fairgrounds and into Woodycrest and Woodbine. Greenways along railways if feasible. We have so many annoying railways that stop traffic, and it would be so cool to one day see those pathways turned into greenway networks, or work with the rail operators to create parallel walking networks!	Park Connectivity, Park Infrastructure and Development, Land Acquisition
The collapse of the West Park Community Center gymnasium, while unfortunate, presents a unique opportunity to reinvest in a facility that better serves the needs of a rapidly growing and changing neighborhood. This area of Nashville is seeing significant residential development, yet remains underserved when it comes to public recreational and community spaces. Rebuilding the community center with expanded indoor and outdoor amenities, flexible gathering spaces, and accessible programming would help meet current demand while also planning for future growth. It's a chance to design a facility that reflects the diversity, energy, and needs of the surrounding community — one that can become a true neighborhood hub.	Community Center and Facilities
Install a disc golf course at centennial park. Open the restrooms we payed for.	Park Access and Accessibility, Facility Access, Sports Facility Expansion
Emphasize respect for nature and how this is essential for ensuring a good balance with Nashville's rapid growth	Environmental Conservation
Staff the center at Beaman Park more.	Facility Staffing

We want to conserve Nashville's Highland Rim Forest with a voluntary easement program (WAY cheaper than acquisition, same effect) funded by public/private partnership. There was very little to no open space / conservation messaging in the survey and engagement sessions, even though it was highlighed in the original Plan2Play (see p.24). NHRF provides critical stormwater abatement and is our primary resource for climate resilience! Right now conservation and open space lives under Parks, which is overburdened with recreational operations and maintenance, leaving the conservation called for in Nashville Next and Plan2Play still unachieved. Nashville's Highland Rim Forest is "the World's Largest Urban Forest" and deserves to be recognized and protected. A globally relevant natural amenity is good for Nashville's brand as a nature-forward city.	Forest Conservation, Ecological and Natural Landscape Management
No	
Help preserve the historic DeMoss cabin, on the TN historical register, in Red Caboose Park!	Historic Preservation
More outdoor lighting and outdoor Cameras, this will allow us to feel safer and use the outdoor areas more	Park Safety and Security
Na	
Large, unmissable signs that ATVs and similar vehicles are prohibited on Greenways. Currently that info is only in a list of Greenway rules on signs that nobody reads.	Greenway Regulations
I'd recommend improving the quality of current public multipurpose fields and build/convert new public multipurpose fields for exercise and rec sports.	Sports Facility Improvement, Sports Facility Improvements
It would be great to have specific trash cans (and maybe bags?) for dog poop along greenways plus drinking fountains with dog bowls attached. It would be so cool to have a cafe or restaurant along major greenways, especially if they connected between neighborhoods.	Park Infrastructure and Development
more sports fields	Sports Facility Expansion
Actually listen to the people who have lived here for their entire lives and not a bunch of tourists	Community Investment and Development, Community Engagement and Outreach
Better response times in repairs and maintenance. It takes forever to get something done. The HUB is no good.	Park Maintenance, Maintenance Response Time
We need more public access points to the Cumberland River	River Access
I would like to see Metro support protection of green space and forests in creative ways that provide buffers and viewsheds adjacent to regional parks. This could be through conservations easements that Parks helps facilitate, but don't have to buy or maintain.	Ecological and Natural Landscape Management
Ashland City are is beautiful. I would drive that far to go to a large park with hiking trails (similar to Beaman or Warner). There aren't many parks or facilities celebrating Nashville's history. Perhaps a park combining this, with nature and recreation?	Park Usage and Management, Park Diversity, Historical Interpretation
More natural trails. And for greenways, have them be byways for pedestrian traffic to major areas. I know a lot of people who would walk and/or bike around town if they felt safe doing so. No one, self included, wants to be on Nashville roads with these drivers. Also, provide opportunities to cater to the 20% of the population who makes up 80% of the usage. There's amazing opportunities for destination events within niche communities, like ultra running for example, that bring passionate people and business in.	sm_neutral, Trail Development and Infrastructure
Invest in diverse communities such as the Antioch instead of a $25 million road for Cheekwood.	Community Investment and Development, Community Investment
Better maintenance so that facilities pr parks don't fall into being unusable. Regular cleaning and maintenance of hard surfaces and restroom facilities. A lot of park bathrooms are disgusting and outdated.	Park Maintenance and Infrastructure, Restroom Improvements, Community Center and Facilities, Park Maintenance
No	
More smaller parks withing neighborhoods. I pay davidson taxes but get none of the davidson benefits.	Park Development and Planning, Community Park Design and Development
Focus on protecting natural lands Providing better transport options for inner city to outer city Rewilding greenways and creating better greenway connectivity and access	Natural Land Protection
no	
Amazing that the golf memberships were doubled and none of the money is going to hire staff so the course can be open 7 days a week. Do you realize the revenue that goes away having a course like McCabe closed on day a week?	Golf Course Management
Build more parks	Park Development and Planning, Park Infrastructure and Development
Bathrooms (not port-a-potties)	Park Facilities and Amenities, Facility Infrastructure
Year around community socials like the beer garden on fridays on the river. This is music city so we've got plenty of talent to hold year round events, esp "dancing under the stars" with all genres of music, from String of Pearls to EDM and watch Parks ROCK!	Community Programming, Entertainment Programming, Community Events, Recreational Programming
More disc golf	Sports Facility Expansion
Would love to see improvements of the Parthenon Facilities.	Park Facilities and Amenities, Facility Improvement
Close Shelby Golf Course and turn into into greenspace and walking trails. Golf courses are a waste of money and an environmental nightmare.	Green Space Development, Land Repurposing
Equity for all neighborhoods!	Community Investment and Development, Community Equity
Clean historic monuments including Confederate ones. Get the train engine Rachel from Opryland back from Grapevine Texas where it now sits and put it in centennial park.	Historic Monument Maintenance
Treat greenways as bike lanes, useful for transportation. Partner with local developers for them to privately build (and then give to Parks) more pocket-parks and small neighborhood size parks.	Community Investment and Development, Funding and Resource Allocation, Greenway Development
I know the team at Metro Parks works really hard. Thanks for all you do!	
Keep up the good work	
Sometimes the information you are looking for about a program or park is not easy to find, or just doesn't exist online. Having to call the park / community center to find the answer to a question that should probably be readily available (what time is the program? how much does it cost? who can sign up?) can be a barrier for some.	Online Resources, Information Accessibility
Providing safe, well-maintained communal areas should be top priority.	Park Safety and Security
Metro Parks is understaffed and deserves more budget money!	Funding and Resource Allocation

Please put focus on Parls like charlotte park that have had populations double with so many children but the athletic courts, facilities, and walkways have not been repaired or refreshed	Park Facilities and Amenities, Community Park Design and Development, Park Maintenance and Infrastructure, Park Maintenance
The park by the river (old Cumberland) is a sparsely used park, largely I think because it is difficult to park there—the gates are often locked and sometime Metro tows. Sometimes you just need less concrete (especially in a downtown location) and more trees.	Park Access and Accessibility, Urban Green Space Design, Park Access and Parking
If rental bikes are offered, consider rental kayaks and canoes. Embrace our river. Create areas where people can physically interact with water.	Water Recreation Opportunities
Nashville is so hot in the summer....please repair the existing splash areas...near the farmers' market and old Cumberland Park, and add splash pads or pools to the community centers	Splash Pad and Water Feature Improvements
Build the new Kirkpatrick Park as included in the Envision Cayce project plan.	Park Development and Planning, Park Infrastructure and Development
Safe connectivity from a road (hopefully with a bike lane!) to a greenway is key to my greenway use. Another suggestion is to consider greenway networks that are useful for commutes to attractions/neighborhoods, and completely free/safe from cars.	Bike Lane Infrastructure, Greenway Connectivity
It's my understanding that Parks/Greenways has a number of "shovel ready" projects, including extensions of the I-440 Greenway. These projects should be built as quickly as possible. Greenways are one of my favorite things in our city. I also think they are incredibly popular across the board. I want to see Parks and its partners be tenacious in advancing projects, big and small. I also think there are ample opportunity for small Greenway connections/extensions that would make a huge impact for neighborhoods with little cost for Metro	Greenway Expansion, Project Implementation
Fixing existing issues	Park Maintenance and Infrastructure, Park Maintenance
It's hard to find information online about a specific park. the Metro Parks website is use specific, but most of us use a specific park, not tennis courts across all parks.	Website and Information Accessibility
empower the Parks Foundation to engage in private public partnerships and raise funds similar to the Library Foundation.	Funding and Resource Allocation, Fundraising and Public-Private Partnerships
Metro Parks should prioritize connecting all existing greenways to create a seamless, citywide network of trails. This unified system would enhance access to outdoor recreation, promote alternative transportation, and support environmental sustainability. By filling in key gaps between trails and linking neighborhoods, parks, and cultural landmarks, Metro can foster greater community connectivity and encourage healthy lifestyles. Coordinated planning with local agencies, dedicated funding, and public input should guide this effort to ensure the greenway system serves all residents equitably and efficiently.	Greenway Network Development, Greenway Network Connectivity, Transportation and Connectivity, Sustainable Transportation
Realizing that the unhoused often seek shelter in parks, it still makes it difficult to be there as a solo woman bringing children. They often sleep on the pavilion tables during the day which makes it hard to enjoy them. Also the restrooms. Not sure what the solution is. Could the Dept of Homelessness focus on addressing this? Could a resource sign help?	Park Safety and Security
Wildflowers	Native Plant Landscaping, Native Plant Integration
Collaborate w philanthropy and corporate funders	Funding and Resource Allocation
Think connectivity. Work with NDOT or Public works to make sure people can SAFELY walk or bike to their local parks or greenways. Sidewalk connections are key!	Pedestrian Safety, Transportation and Connectivity, Bike Lane Infrastructure
See my comments above.	
More staff, more security, more oversight/enforcement, more programming. Obviously - this requires more funding and staffing or partnerships with other groups who can manage parks/centers in areas that Metro Parks is unable.	Park Staffing, Staffing and Security, Park Management
Provide more opportunities for kids to get outdoors and learn about nature! Especially kids who might not otherwise get to.	Nature Education Programs
Think less ball-and-stick. Think more nature preservation. Intrinsic value of natural and cultural resources.	Ecological and Natural Landscape Management
Mental health and work programs for the homeless	Social Support Programs
fix and improve what you have especially in lower income communities. hire folks that look like the overall community, and that community members cam trust. be willing to fire those who break the trust of the community members	Community Engagement and Outreach, Park Maintenance and Infrastructure, Community Investment and Development, Staff Diversity
The cracks in the greenway asphalt should be filled, not painted with sealant that washes off into our lakes and rivers.	Environmental Sustainability, Greenway Maintenance
Allow for East Nashville Farmers Market to be held at East Park! This would be HUGE! The blacktop where it is currently held is such a deterrent in the summer. Having it at East Park would be amazing and a great way to activate this community asset.	Community Event Spaces
Parks should deemphasize driving as part of Choose How You Move. Park space dedicated to parking reduces the space available for recreation.	Parking Reduction, Transportation and Connectivity
I would love to see greenways connecting parks across the city	Greenway Connectivity
Add on greenways and build more along waterways	Greenway Expansion
Cyclocross park, mountain bike trails in shelby park.	Mountain Bike Trail Development, Specialized Recreation Facilities
Bike and walking lanes to make it safer for both parties. No to a new road through Percy Warner mountain bike trails	Trail Development and Infrastructure, Transportation and Connectivity, Bike Lane Infrastructure
Being able to add more sidewalks and bike lanes would greatly impact my area.	Transportation and Connectivity, Bike Lane Infrastructure
The Cumberland River is incredible but incredibly under utilized. Lets have lots of opportunities for canoe, kayak, rowing access and rentals.	Water Recreation Opportunities
We have a phenomenal network connecting dozens of miles. Keep up the great momentum! How about a marathon to draw attention to what we've got here?	Greenway Promotion
Specific to Charlotte park - adding doors to the shelter house where you can access a restroom that includes a changing station for young children. Pavilion or shade structure with picnic tables adjacent to playground Gated/fenced splash pad at Charlotte park	Child-Friendly Amenities, Park Facilities and Amenities, Community Park Design and Development
Build the Peeler Park Pedestrian Path. Figure out a digital system for renting fields that does not require everyone in the city to drive across the city to Oark Plaza to pick up the keys and to return the keys.	Park Path Development, Digital Service Improvements, Park Facility Management, Digital Field Rental System
There is no pavilion or real restroom in Charlotte Park which makes it very difficult to use it with toddlers. This is a very popular park and needs basic facilities.	Park Facilities and Amenities, Community Park Design and Development, Community Center and Facilities

Please consider addressing the “low hanging fruit,” even if it’s not the top priority. For example, Metro already owns the land to extend the Whitsett Park Greenway across East Thompson. There’s just one easement needed from Kano Laboratories. The estimated cost on the CIB is relatively low, so why not go ahead and make this improvement for South Nashville?	Low-Cost Improvements, Greenway Expansion, Park Infrastructure and Development
Allow the greenways to stay open a little after dark. In the summer that would be helpful so that people can ride bikes or walk at sunset when the weather has cooled. In the winter that would be helpful because it gets dark before many of us can take an after work walk or bike ride. In the winter the greenways are closed at around the same time as the end of the standard work day.	Greenway Hours Extension
Please do not bulldoze the beautiful and natural trees and plants that line the northern portion of Percy Warner Park. I visit this area regularly for its natural beauty on my mountain bike and have seen countless wildlife there including enormous birds of prey and owls, turtles, and deer. There are plenty of places to drive and park in Nashville but not many places as special as Percy Warner. Do what is right and protect this treasure of Nashville!	Ecological and Natural Landscape Management
Hire teenagers	Youth Employment
pop up enforcement/education stops on greenways. AND WAYFINDING!	Wayfinding Signage, Greenway Enforcement
Expanded MTB trails on the plentiful land that is available in the existing parks…security at Cane Ridge Mtb trailhead is a must, this has become a location of degeneracy amongst the closeted gay population, literally multiple men out here 100% of the day…..finally I would like to see the parks department take a firm stand against the possibility of losing precious land to Cheekwood at Percy Warner - this whole road through the park thing makes zero sense, I want the park to be vocal about it!!!	Park Land Preservation, Mountain Bike Trail Improvements, Park Safety and Security, Mountain Bike Trail Security
Just fix the bridge on the stones river greenway and do something that keeps it from being destroyed.	Greenway Infrastructure Maintenance
Nashville needs and deserves a bike park that includes a cyclocross course, mountain bike skills areas, and a circuit for crit racing. The former Bordeaux landfill plot on Hardins Bend is an ideal location and topography for this type of specialty park.	Specialized Recreation Facilities, Cycling Park Development
I think you are great! But of course, the more green space in Nashville, the better- always!	
Dedicated cycling trails, more parks overall, better maintenance on certain neglected small regional parks.	Park Maintenance and Infrastructure, Bike Lane Infrastructure, Park Maintenance, Dedicated Cycling Trails
Consider how park connections might integrate into a broader multimodal transportation system when designed and prioritized.	Transportation and Connectivity, Multimodal Transportation Integration
Metro Nashville Parks and Recreation can best improve by expanding hours of facilities such as nature centers, rec centers, visitor centers and activating parks that are not really staffed or maintained, such as Fort Nashborough.	Park Activation, Facility Hours Expansion, Park Usage and Management
Partnership with Metro Police for enforcement against parking in bike lanes and NDOT for installing hard bollards and not floppy ones, at least in some places. Connecting parks to roads can be an interim solution to building new greenways in the future.	Bike Lane Infrastructure, Transportation and Connectivity, Park-Road Connectivity, Infrastructure Enforcement
More pickleball courts. Could potentially utilize existing area around current courts for faster construction and less impact. For example, around Richland Park’s tennis courts, there is plenty of room to add pickleball courts	Pickleball Court Expansion, Park Usage and Management, Park Space Utilization
Buy more land when it’s available - expand Beaman Park, for example	Park Land Acquisition
Take Greenways out of Parks. Greenways should be treated like road infrastructure and invested in as such to improve pedestrian safety and access in Nashville.	Greenway Infrastructure Management
Farmers markets, beer gardens, outdoor concerts, and other community events in more of the medium sized neighborhood parks would do well, especially with local breweries/business sponsored. The Fridays by the River at Shelby is fantastic and I think something at McCabe, Richland, West, or Morgan Park could also do well. I also think some upgrades to golf course snack bars/restaurants could go a long way in certain places to be more community oriented and appealing places to hang out after rounds. All of this comes after the importance of linking parks and neighborhoods via greenways.	Park Amenity Upgrades, Community Programming, Greenway Connectivity, Community Event Programming
I appreciate and support the larger vision of MNPR, but communities like North Nashville - Buena Vista/ Buchanan Arts, Bordeaux - are very underserved. I have to run 2 miles to either Ted Rhodes or to the River front in Germantown to get to a greenway, and there are several points where I am running on the road to get there. I think we have a long way to go as a city for greenway access and park coverage and access.	Neighborhood Park Equity, Greenway Access, Park Access and Accessibility
Reduce golfing hours so families can also enjoy that massive amount of land that only golfers have access to.	Golf Course Access Modification
couple things: 1) we should be strategic in our use of space - we have tons of park acreage but we don't always use it well. for example, we have a 27 hole golf course in McCabe which is relatively urban. that's a terrible use of space! we should put golf in our many or our huge parks where there is space for golf and lots of other stuff. 2) we really need greenway connectivity. right now it's all fragmented other than the shelby -> two rivers area	Park Space Optimization, Greenway Connectivity
Please continue the plan for the Opry Mills connector from the pedestrian bridge to Opry Mills. That would expand greenway usage by a lot and connect trail users to restaurants.	Greenway Expansion, Trail Development and Infrastructure, Trail Connectivity
N/a	
We are a 30 minute plus walk from most greenways and parks, I'd love to see that gap closed and the greenway network expanded so we could get around without needing a car. That could be solved by adding more sidewalks, protected bike lanes, and ultimately a small park closer to our home.	Transportation and Connectivity, Greenway Network Expansion, Pedestrian Infrastructure
More sidewalks to help improve safe access to greenways and parks.	Park Access and Accessibility, Greenway Access
I wish there were more interactive maps available so I could understand where greenways go and which are closed due to construction. I’ve met dead ends or private construction multiple times that has derailed my bike ride.	Greenway Mapping, Trail Navigation, Trail Development and Infrastructure
Please connect West Park greenway to England Park greenway along Richland Creek!	Greenway Connectivity
Dividing lanes so people understand paths are bidirectional	Trail Development and Infrastructure

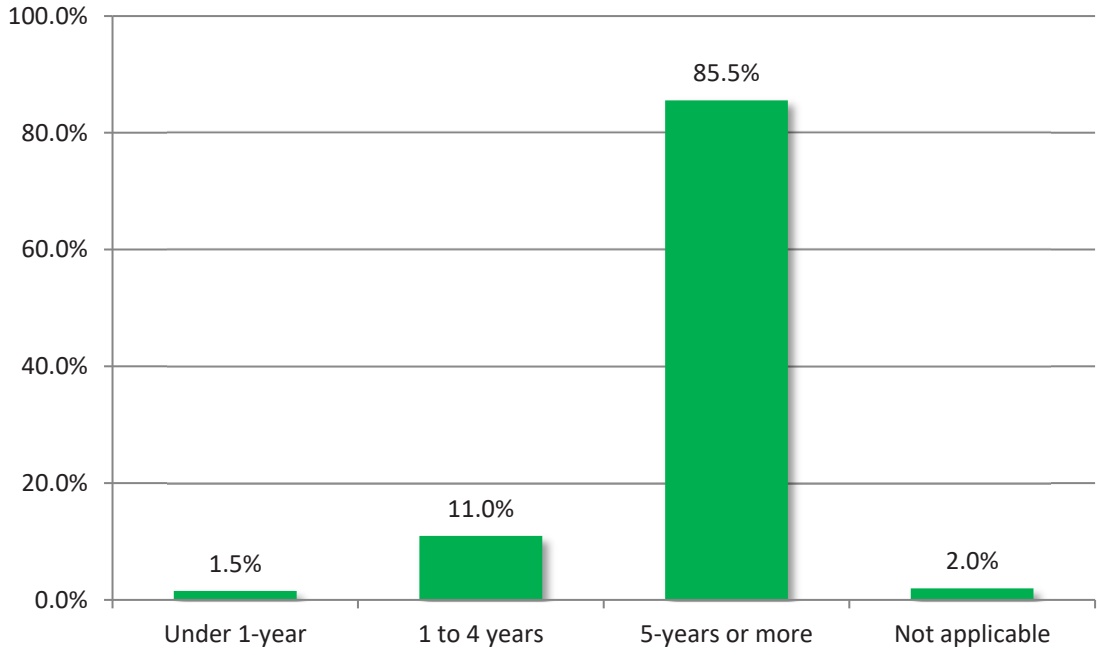
benches and functioning water fountains are two foundational aspects that you need to do better	Park Maintenance and Infrastructure, Park Maintenance
Create a director of historic sites position in Parks who can build connections within Parks and across Metro departments, advocate for historic Parks sites, liaise with friends groups, raise awareness, and promote history in Parks. Focus on internal updates and improvements such as updated/expanded bathrooms in facilities. Focus on improved parking with more signage and direction, avoid parking neutral options.	sm_neutral
It is almost impossible to find out what's happening at our neighborhood park/community center. Events and activities seem to be a well-kept secret.	Park Event Communication, Community Event Communication
Center line on the greenway may be a quick, cheap fix that would improve walkers and bikers experiences. The airfield is awesome, any way to take advantage of the wetland/prairie ecosystems there for restoration or education?	Ecological and Natural Landscape Management, Trail Development and Infrastructure
Add a small community playground to the front of the Donelson library.	Playground Development
Relatively minor changes in promoting existing resources would likely increase utilization. In terms of larger changes, I live in Edgehill and even though it is one of the most walkable neighborhoods in the city there are some oddities with the sidewalk network (esp Magnolia Blvd) that increase friction points, particularly when it comes to walking when it is hot outside. It feels like we are dealing with urban design remnants from a time when the city did not want the mostly Black residents of Edgehill and 12th Ave S to access Belmont and Vanderbilt. On the up side, we have increased our transit usage to access parks due to better info about routes and timing.	
Nashville needs splash pads and shade on playgrounds. The heat and current lack of summer facilities forces children inside. The Cumberland park splash pad and the fountains in bicentennial park were great but haven't worked for years. Shelby park should have a water play option.	Water Play Facilities, Playground Shade
Increased police presence in parks (more parks police). Please stop spending gobs of money on centennial park, its been (expensively) renovated constantly. Maintain the neighborhood parks instead.	Park Maintenance and Infrastructure, Park Safety and Security
Coordinate with NDOT to make Nashville a leader in connected greenways and bike lanes.	Transportation and Connectivity, Bike Lane Infrastructure, Greenway Connectivity
Air park needs better facilities. Better Play Ground, Splash Pad, Pickleball.	Park Safety and Security, Community Park Design and Development, Park Facilities and Amenities
Improve announcement / awareness of closures/detours when construction projects are happening	
More spaces for dogs to run and exercise!	Dog Recreation Areas
Let people access facilities and parks during their off hours. Having a 9-5 park system doesn't serve working people who pay the taxes .	Park Access Hours, Park Usage and Management
More security in Percy Warner, Centennial, Greenways. Emergency phone access points, Keep Greenways maintained and well lit.	Park Safety and Security, Park Maintenance
Every street needs to be connected so that walking/biking is available.	Transportation and Connectivity, Pedestrian Infrastructure
Yes, the people that work at the information desks are not helpful and rude.	Customer Service Quality
Protected bike lanes are a great cheaper alternative to add to wide neighborhood streets that lack sidewalks and create better connectivity to greenways and parks.	Transportation and Connectivity, Bike Lane Infrastructure, Greenway Connectivity
Nolensville Road south of the city is in great need for improvements with the amount of new families moving to the area. Pitts Park, for example!	Park Development and Planning, Neighborhood Park Improvements
Warner Parks and Radnor need to be more accessible. These gems are difficult to access unless you're able and willing to drive yourself. Even then, parking can be difficult. I'd much prefer the ability to have a safe and enjoyable bike ride to these parks from where I live, and everyone in Nashville deserves easy access to these parks by bike or public transit. The baseball fields at Shelby Park need to be better maintained. They flood easily and a large burden is placed on community groups to maintain the fields. I'd like to see more functional and ecological landscape designs. Green infrastructure can double as beautiful park space. Rewild/native landscapes can co exist with urbanizing areas of the county. Mini forests can be grown in small urban areas for forest bathing. Parks should have dense housing nearby to make them more accessible. Our best parks to enjoy nature are nestled in the most exclusive neighborhoods. We should have density, attainable housing, and mixed use development bordering many greenways and parks.	Park Accessibility, Park Maintenance and Infrastructure, Ecological and Natural Landscape Management, Park Access and Accessibility, Ecological Landscape Design, Park Maintenance
More splash pads, more pools, more facilities and activities for children.	Park Facilities and Amenities, Children's Recreation Facilities
Better sidewalks, crosswalks, and lighting to walk/ride bikes to near by parks that currently don't exist in my neighborhood.	Pedestrian Infrastructure, Neighborhood Connectivity, Transportation and Connectivity, Bike Safety
We love the new McFerrin playground - make more like this. But we do need more shade	Park Facilities and Amenities, Playground Design, Shade Provision
More Greenway miles, even if they are unpaved	Greenway Expansion
The 37218 park are not even advertised. Most people do not realize that we have one	Park Marketing, Park Promotion
Repair the existing splash pads, and build more of them! Please!!!!	Water Play Facilities
Support the Highland Rim project to connect our parks. Keep Cheekwood off park property.	Park Property Management, Park Connectivity, Park Infrastructure and Development
communication could be improved - for instance the bridge across the Harpeth River Greenway near the golf center was closed without advanced warning during the peak spring/summer season.	Construction Communication
With the East Bank construction, make the greenways and blueways accessible to locals.	Park Access and Accessibility
Improve safety along the greenways. Make sure water fountains work. Expand community center hours of operation.	Greenway Safety, Park Maintenance and Infrastructure
Our city is only going to be as strong as our ability to provide natural areas to as many citizens and neighborhoods as possible. I would like the City to devote more funding to parks and make an effort to expand the park system in the city.	Funding and Resource Allocation, Park Development and Planning, Funding Allocation, Park Infrastructure and Development
Pace of action seems slow. Lots of talk but not much change to the status quo completing the greenway around the city.	Greenway Development Pace

I love ebikes.... just keep mopeds with no pedals off the greenway. Also, putting a bike sticker on a busy road does not make it a safe bike lane.	Bike Lane Safety, Bike Lane Infrastructure, Trail Usage Regulations
Safety. Safety. Safety.	Park Safety and Security
Again, give the golf courses the attention they deserve and recognize they generate revenue if they were run right.	Golf Course Management
I'm reading about security issues at Cedar Hill Park and, on occasion, Shelby Bottoms. I never see cops on horseback at Shelby anymore - can you vring them back and add them to Cedar Hill?	Park Safety and Security
As West Park is in the process of rebuilding the gymnasium and community center space the opportunity to implement a Squash program is here! I would like to talk to your team about the possibility of partnering with two established Squash programs to bring this sport to the people of Nashville. If the Metro Parks and Recreation Board can include court space in the new West Park building. We already have coaches, and ready to play children - we just need the courts to play on. Lisa Williams TullisWilliams@gmail.com	Sports Program Expansion, Sports Facility Development, Community Center and Facilities, Community Program Partnerships
Allow for online registration for aftercare and some programs for school ages children	Program Registration Process
Need to think about Parks as a key part of Nashville's growth and development strategy through land conservation. We will lose opportunities to converse land unless we act now. Parks does a lot but it seems that the recreation aspects take precedence over creative and innovative land management.	Community Park Design and Development, sm_negative
Metro Parks needs more funding to be all it can be.	Funding and Resource Allocation
Yes …fire the Head, replace the staff and start over.	Staff Management
Bike (share) rentals	Bike Rental Services
Better signage on trails	Trail Development and Infrastructure, Trail Signage
Nashville is beautiful city. The parks are nice. We need to staff the park facilities first, and maintain them. The golf courses cannot stay open full hours because of staffing issues.	Park Staffing, Park Maintenance and Infrastructure, Park Maintenance, Facility Staffing
Large tracts of land could be managed using ecological management, e.g., grasslands, oak savannas, wetlands, and old growth forest. Managing land like this would save money and be a point of interest.	Ecological and Natural Landscape Management
Na	
Make it easier for metro residents to help in maintenance, programming, etc. Make it easy for metro residents to camp in park.	Park Accessibility, Community Engagement and Outreach, Park Access and Accessibility, Community Investment and Development
Be more responsive to reports about greenway maintenance issues.	Greenway Maintenance, Greenway Maintenance Responsiveness
Please add parking for Reservoir Park off Hillside. People either park in the street or drive up on the grass. Also please add more lighting and cameras in the park - it's not safe	Park Safety and Security
Help address the security in Reervoir park. Fix the run down benches and tear off the tin roof in the fireplace pavilion so prostitutes and drug dealers stop using it	Park Maintenance and Infrastructure, Park Safety and Security
Make Hillwood High School and community center and park. Maintain it in the meantime. The Hill Family donated that land and it should be used before buying anything new.	sm_neutral
More priority on department sports programming vs. leasing sports fields. It seems that all sports areas are being used by non-parks organizations and programs.	Field Allocation, Community Programming
Take care of the properties you own. Hillwood HS's track and courts are the only Metro "green space" in Hillwood. Since the high school has closed Metro's maintenance of these spaces has deteriorated. Would like to see a plan to repair and improve the facilities there. So many people in our neighborhood would love to participate in this process and help improve what's available there!	Community Engagement and Outreach, Park Maintenance and Infrastructure, Community Investment and Development, Park Maintenance
Add restroom, keep it as wild and natural as possible	Park Facilities and Amenities, sm_neutral
Donelson area needs a community center	
Donelson needs a community center	
Being more responsive to community outreach.	Community Investment and Development, Community Engagement and Outreach
I would love to be able to use the riverfront park but it seems to be closed or at least the splash pad has been closed since 2020. More equipment for disabled children/people would be wonderful.	Park Access and Accessibility, Park Facility Availability, Park Maintenance, Accessibility for Disabled Visitors
STOP SELLING OUT AND RENTING LAND TO GROUPS LIKE NASHVILLE SPORTS LEAGUE. DESTROYING THE PARK.	Sports Field Management, Park Space Preservation, Park Usage and Management
Nashville/Davidson has a lot of wealthy people. Are citizen donations to Metro Parks (whether for land purchase, park construction, or maintenance) being fully explored as a funding source?	Funding Strategies, Donation Opportunities, Funding and Resource Allocation
Maintenance and grading on greenways when they flood. This could be done so much better!	
Make the website more user-friendly - I'd like to see one Events Calendar that filters events for all parks. I'd like the calendars for the community centers to be easier to access - example: the aquatic schedules are PDFs that aren't always updated and you have to dig through the website of individual community centers to find.	Website User Experience, Event Information Accessibility
1) Please focus on greenway connectivity so that the system connects. 2) Please focus on making our existing parks as useable as possible. For example, we currently devote almost all of an enormous and well located park (McCabe) to golf. It's got 27 holes of golf! Why not have 18 and also some other things for all the non-golfers - multipurpose sports fields, a better playground, a direct path connecting sylvan park with white bridge stores, etc.	Park Space Diversification, Park Usage and Management, Greenway Connectivity
Build community swimming pools	Community Swimming Facilities
Continue to build and promote green spaces in neighborhoods	Green Space Development
Bringing more events for all public on the Hermitage Park	Park Usage and Management, Recreational Programming
Start investing more in Antioch.	Neighborhood Investment
More social media! I only learned about the Greenways insta page from a fellow runner, but for 5 years I was using them and didn't know the page existed	Social Media Engagement

Some of the existing MTB trails do not feel safe. For example, Percy Warner is the only trail I feel safe riding alone. Cedar is closest to my house, but the park itself doesn't feel safe due to strange loitering in the parking lots.	Park Safety and Security, Mountain Bike Trail Maintenance
Open the parks later so people can enjoy them. We have excellent facilities and beautiful parks, but they are not accessible after work hours or after the hottest parts of the day have passed. Especially in summer, people should be able to safely walk their dogs, play soccer, go for a run — whatever — in their local park until 9/10pm.	Park Access and Accessibility, Park Operating Hours
The main thing is providing convenient and safe public transit from more areas to major parks. An improvement to this would also be to add opportunity for more types of entrepreneurial endeavors such as smaller restaurant fronts under dense housing. This was you increase the taxable value per acre around these spaces, as well as around major public transit hubs, so that it is easier to fund these parks and the transit so people can more easily get to them.	Park Economic Development, Transportation and Connectivity, Public Transit Access
Be kinder to the community volunteers who try to maintain small parks in their neighborhoods. Support their efforts and requests.	Community Engagement and Outreach, Community Volunteer Support
Need more available activities in the Hermitage area.	Park Usage and Management, Recreational Programming
I just really want to see more bike lanes. And protection from cars.	Transportation and Connectivity, Bike Lane Infrastructure
Fenced in playgrounds make all the difference with my young kids	Playground Safety
Walkable parks for all neighborhoods!	Park Accessibility, Park Access and Accessibility
Nature and conservation values is not part of this survey and suggest that it is one of the top considerations as parks is our community's connection to nature. I hope it plays a more vital role in the updated plan than it has been included in this survey.	Ecological and Natural Landscape Management
Plant more native species and less grass.	Native Species Landscaping, Ecological and Natural Landscape Management
Metro Parks needs a dedicated volunteer coordinator. There are so many people who want to participate and help who just need someone to help coordinate! Park staff/rangers for the parks. Police presence is not what is needed (they just sit in their cars and do nothing). We need people out and about, walking or biking the park who can talk to folks, give directions, answer questions. The small things make all the difference. Extra benches, small shade structures, playground features, more picnic tables. And making sure they are clean and in good repair.	Park Staffing, Volunteer Coordination, Park Maintenance and Infrastructure, Park Staff Engagement, Park Maintenance
Repair existing facilities. The maintenance backlog should be a top priority.	Park Maintenance and Infrastructure, Park Maintenance
Add more disc golf courses	
We need a Miracle Field. Not just the one run by Tygart	Park Access and Accessibility, Inclusive Recreation Facilities
Incentivize third parties to program parks	Park Programming Incentives, Park Usage and Management
Allowing tasteful sponsorship in parks to increase funding to improve parks dramatically	Park Sponsorship Opportunities
We need fully fenced in playgrounds	Playground Safety
The Greenway app listing maintenance related closures or events would be great	Greenway Maintenance Communication
Budget for maintenance and quit using hiring money!	Funding and Resource Allocation
Connection of greenways, sidewalks, and generally safer pedestrian and biking city planning would be appreciated. For example, the revised East Bank has a proposed divided six lane avenue. That defeats the whole purpose of the destination oriented design that was initially proposed. It should prioritize pedestrian and biking so the businesses there see more business, not more cars driving through. There is already a six lane road a block from there: the interstate.	Greenway Connectivity, Pedestrian Infrastructure, Urban Planning
Metro Parks are neglecting their greatest asset - the golf courses. Where are the questions about golf courses? All the questions are about greenways and community centers	Golf Course Representation, Survey Design Critique, Golf Course Neglect
Improve golf program at the metro courses. It almost seems golf is a step child for metro	Perceived Lack of Golf Support, Golf Program Enhancement, Golf Program Improvement
Pay attention to the golf courses that are used constantly.	Golf Course Maintenance
Put more money into golf; follow the Memphis model and invest in golf	Park Facilities and Amenities, Golf Course Investment, Comparative Municipal Golf Strategy

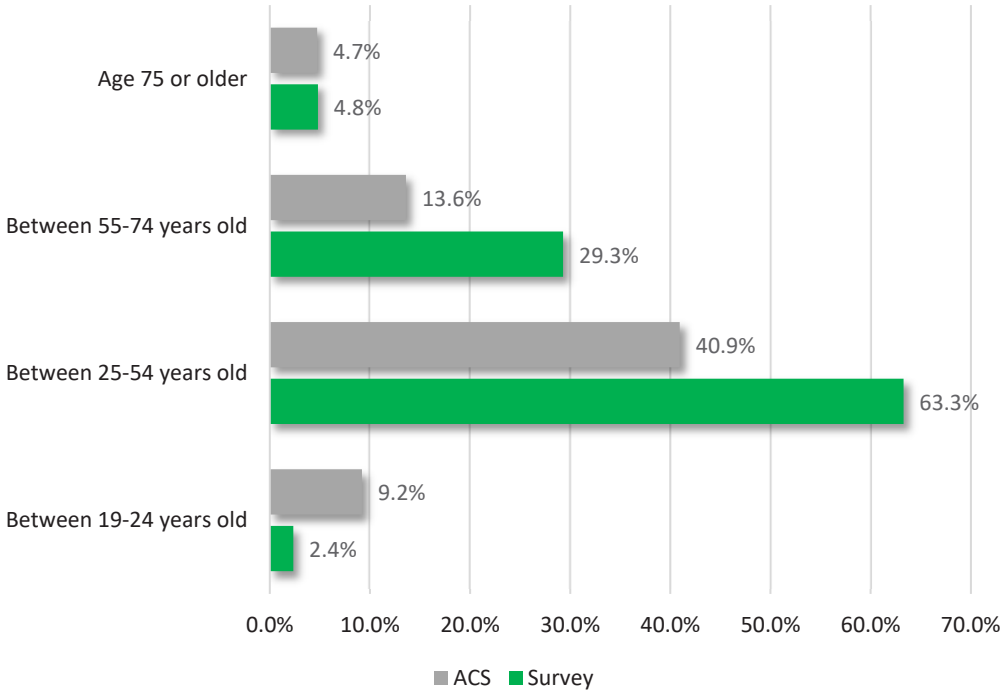
Q30: How long have you lived in the Metro Nashville area?

Answer Choices	Responses	
Under 1-year	1.5%	28
1 to 4 years	11.0%	200
5-years or more	85.5%	1562
Not applicable	2.0%	36



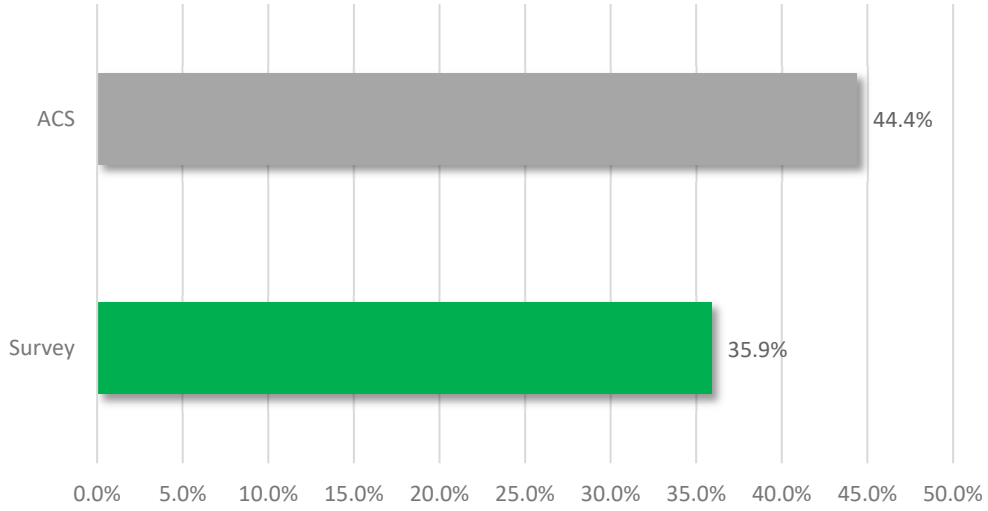
Q31: What is your age?

Answer Choices	Survey	ACS	Responses
Between 19-24 years old	2.4%	9.2%	43
Between 25-54 years old	63.3%	40.9%	1158
Between 55-74 years old	29.3%	13.6%	536
Age 75 or older	4.8%	4.7%	88



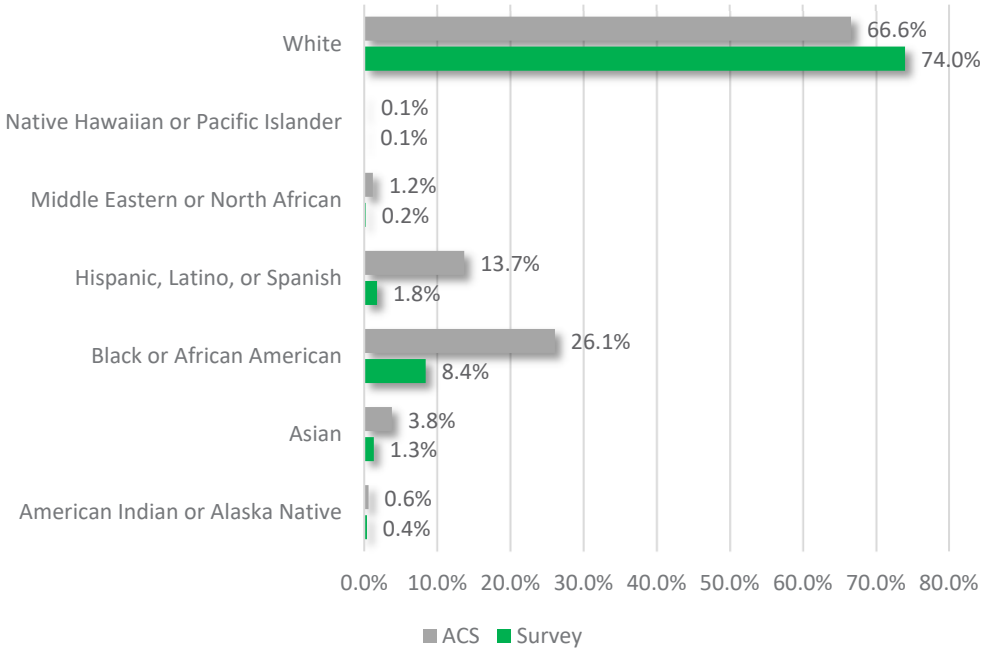
Q32: Are any members of your household under the age of 18?

Answer Choices	Survey	ACS	Responses
Yes	35.9%	44.4%	656
No	64.1%		1171



Q33: What is your race and/or ethnicity?

Answer Choices	Survey	ACS	Responses
American Indian or Alaska Native	0.4%	0.6%	7
Asian	1.3%	3.8%	24
Black or African American	8.4%	26.1%	153
Hispanic, Latino, or Spanish	1.8%	13.7%	32
Middle Eastern or North African	0.2%	1.2%	4
Native Hawaiian or Pacific Islander	0.1%	0.1%	1
White	74.0%	66.6%	1347



Other (please specify)
Indigenous South America
These types of questions reveal a lot about the questioner. I am an American of german lithuanian ancestry so far as geography is concerned but of unknown genetic background. Peoples from that part of the world could be asian blood or any number of different genetic bakcground.
Multi-Racial
Multiracial
C'mon people, you can do better than pick one, only one! Asian/White
White and Hispanic
mixed, like most americans
American
Puerto Rican, native peoples, Caribbean, Spanish, irish
It should not matter
mother than one race
Mixed heritage
Multiracial- white and asian
Multiracial
6th generation Tennessee. The map is nice

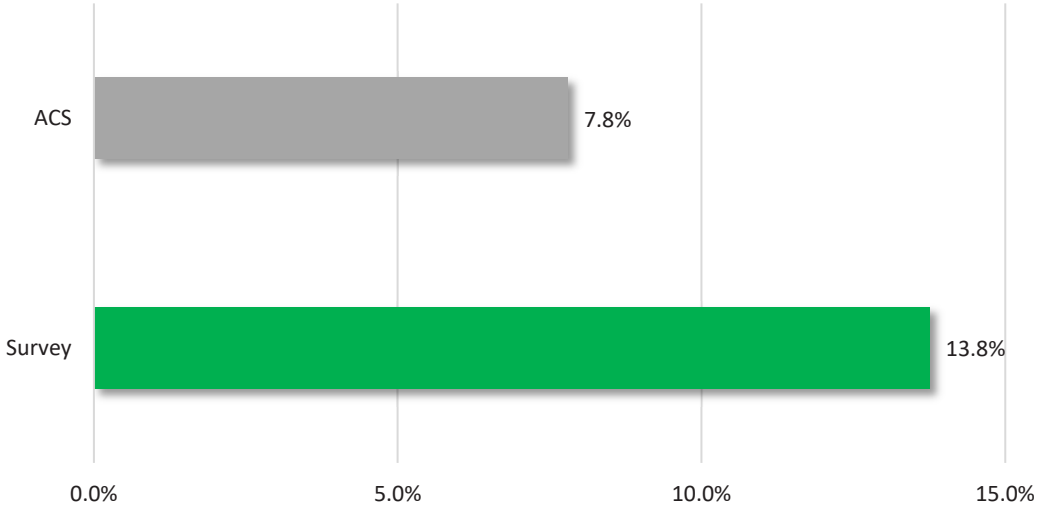
Asian, White
Mixed tricultural biracial household
Black and white
Asian and white
Mixed.
Bulgarian/Eastern-Southern European
I am white, but what is the reason for this question?
Doesn’t matter
American
Black & white
Multi ethnic
Mestizo

Q34: Are any members of your household disabled? Impairments may be physical, cognitive, mental, sensory, emotional, developmental, or combination of these?

Answer Choices	Survey	ACS	Responses
Yes	13.8%	7.8%	249
No	86.2%		1561



Appendix G - Staff Interview Summary

MEETING NOTES

Metro Parks: Plan to Play Update

Subject:	**Staff Interview: Department Administration**
Date:	September 13, 2024
Time:	9:00A to 10:00A CST
Location:	Online (Teams)
Attendees:	Metro: Monique Odom, Chinita White, Larry Ritchie, Jackie Jones Kimley-Horn: Alisha Eley (AE); Ashley Akers (AA), Nick Kuhn (NK)

I. General Q&A

1. How did the 2017 Plan to Play Master Plan impact the Department? What were the most significant changes?
    a. MO: Grateful that the mayor has funded this update. What is most important that is needed is an implementation plan. That prior plan included lots of great recommendations, but to implement, a timeline was missing. And informing the implementation requires community demand, informing elected officials, funding, etc. The 2017 plan was good data and recommendations, but in terms of implementation it fell short. This process is inclusive of stakeholders and members of the community. Most importantly was having the Parks Board engaged.
    b. MO: The most significant change from 2017 is the population growth and the demands that has placed on the department. Do not believe the 2017 plan anticipated the rate of growth we have experienced, at a much quicker rate.
    c. JJ: As far as impacts on the department, the 2017 plan to an extent was a planning tool for us and an opportunity to look forward.
2. What are current actions, policies, or procedures you believe have been positives or improvements from former practices?
    a. JJ: Cannot really think of new policies or procedures that came out of the 2017 plan, but a continuation on existing.
    b. MO: In talking with the mayor, developing MOUs with all our Friends of groups is currently being worked on and came out of the 2017 plan.
    c. JJ: We have a few procedures that have been positive, not necessarily from the 2017 plan, but from the demand and growth other community. We implemented a code of conduct which impacts anyone seeking a permit. Outreach to teens is a focus for

permitting, including allowing food trucks into parks. These items have c community desires.

   d. CW: Implementation of our safety teams has been a big improvement. Looking to be more proactive with funding identification. AE: It looks like Phil is working on that with the building assessments.

3. What are the largest challenges the Department is facing?
   a. JJ: Homelessness and the potential for crime are the biggest drivers.
   b. MO: Limited resources, staff and funding. Other items impact the city in whole but also impact the department, such as homelessness and crime.
   c. LR: The crime and homelessness have been primary issues. We are trying to respond fast and mitigate needs. Being able to mitigate a hazard is needed.
   d. CW: Each division was open to developing how to implement the targeted savings needs. These savings are for this fiscal year (2025)
      i. MO: We hope that these are short-term, and we have seen these cost savings measures before. Even with this FY holding vacancies, even when we go into building 2026 budget requests, we will be asking for more positions. We are under-resourced and that complicates with market forces that we cannot control. There are positions that are challenges to fill always and now we are competing with everyone on the job market. Public cannot compete with private industry. Cost of living has increased and that is a something we do not control.
4. What is the most important future opportunity?
   a. MO: People have always loved our parks and programming. We love that, but the demand is astronomical. On-demand maintenance services is just not possible with this level of demand. Our maintenance is very responsive, but customers' expectations can be unrealistic for maintenance needs. Workorder challenge is that some items require time to resolve, but the public does not know that.
   b. MO: We manage parks and recreation; we are not experts in homelessness or social services. Existing within this community, we partner with others to help. The mayor's office is the lead. We sometimes get caught in the middle because we must work within divisive issues within political challenges.
   c. JJ: We try to be team-players in advance the needs of government.
   d. JJ: To make sure this department is fully funded and staffed. Making sure divisions are staffed to allow them to being able to implement best practices that will allow improvements.
   e. MO: Most folks within the city (including city leaders) do not know what all we do. Some know us for community centers, some for golf, some for arts, etc. Most know

about aspects of what we do based upon their interests and that is good, but decision-makers need to know all of what we do. The need to educate decision-makers about the depth and breadth and its diversity is needed. This came out of the 2017 a realization that people do not know this. Need to know how best to tell this story, within the context of people's unique interests.

f. MO: We need to come out of this plan with an implementation approach with 3-5 things that we can really focus on of substance with how we move forward with this department, i.e. we get requests to acquire properties across the city, we look at do we have a need (underserved area), a unique situation (conservation opportunity, donation, or threatened), annual requirements (O&M), can we be responsible for the property (maintenance, issues with homelessness/encampments, etc.), political pressures. We try to be consistent and have a structure around how we consider properties to acquire or offered to department. We have a criterion for whether we pursue acquisition.
    i. Should be a short list for implementation. There's been discussion with Park Board for regular funding increase for department. Developing a dedicated funding source was part of the 2017 ideas. That is a city-wide consideration. What does that mean for the department. Prior city-administration (before 2017) had talks about having revenue generated by parks to not go to general fund and instead be reinvested. Those talks were not successful. Desire was to reduce budget by equal amount. A dedicated tax is a heavy list. Not sure city-leaders have appetite for keeping our revenues.
    ii. Other city issues take priorities over parks. Leading a '2026 Year of the Park' would need to be grassroots effort lead by Parks Board. For the most part, city leaders are supportive of parks and may be open to peer comparisons.

g. JJ: We would love to have our own website to better represent the services and needs of the department. The one template approach is a struggle to fit within. i.e. golf and revenue generating entities are very different from our community centers and what other division offer.

h. MO: The point of sale, online registration, etc. is critical. We are in the process of making that ask. Having our point of sales system and others updated is a top priority.

5. Describe communications within the Department. What works well, what does not?
    a. JJ: We communicate very effectively within the department.
    b. LR: We are trying to implement standards and procedures, from horseback police to maintenance workers using power tools, to fall hazards in theaters, etc. our risks are diverse.

c. LR: Going out and talking with staff and looking at data to identify gaps in training to ensure staff are working is a safe manner and our spaces function in a safe manner.
d. AE: Is there standard training for new staff? LR: It's more focused on maintenance staff with a safety on-boarding training as a target. Looking for training in Dec. for all supervisors, and then move down staffing to in-field staff. We look at accident and incident data collected to identify locations and risks that can be mitigated.
e. MO: Challenges with structure with Fleet is not unique to this department. Does and can impact us, i.e. for repair for equipment can take a long time. Responsiveness is a challenge but is not unique to department. Vehicle requests come secondary to public safety needs. Limited resources must be managed by Fleet, and it typically means our vehicle allowances really impact our operations. If we ask for 5 positions (for a crew) and if we get the people and not the truck that is needed (and has happened before) we have real challenges. Need to make sure there are corresponding requests tied together.
f. JJ: We communicate with a variety of departments. The Office of Homeless Services is a new agency that we have had weekly/biweekly mtgs to discuss homelessness issues in parks. We are in constant contact with mayor's office for various items such as special event, etc.
g. MO: We collaborate with almost all departments for various reasons. Most communications are positive and beneficial. There are times where communications lack and there are challenges, but many departments are siloed. But we call upon most departments.
h. JJ: We are like a little city within the government structure because of the various services and facilities we have. We often have department come to us.
i. MO: We build and maintain our own buildings. General Services handle that for other departments. We are unique in that. We are called upon in many cases for support roles on projects and needs.

MEETING NOTES

Metro Parks: Plan to Play Update

Subject:	**Staff Interview: Enterprises**
Date:	September 19, 2024
Time:	1:30P to 2:30P CST
Location:	Online (Teams)
Attendees:	Metro: Misty Adfield, Brandon Denton, Wayne Evans, John Holmes Kimley-Horn: Alisha Eley (AE); Ashley Akers (AA), Nick Kuhn (NK)

I. General Q&A

1. How did the 2017 Plan to Play Master Plan impact your division? Where there any direct changes?
    a. BD: Not sure what was in the 2017 plan.
    b. JH: The main item for golf was for the renovations at Shelby Golf Course, but not sure if that was in 2017 plan or prior. Bear Park added fields, Orchard Bend sports fields additions. Both were from prior plan, not 2017.
    c. MA: Most of the plan focused on expanding community centers, outdoor aquatics, more greenways. Those recommendations impacted funding for other needs, i.e. tennis courts resurfaced, etc.
    d. MA: Better MOUs with friends groups. In the process of happening now.
    e. JH: To-date most of the work is within Centennial Park and not yet for the Parthenon.
2. What are some of the lasting trends or impacts from the last 3-4 years that have influenced your division?
    a. MA: Our pickleball growth, tennis has also growth. Every outdoor sport and indoor increased in usage. People are valuing their health more, socializing more. Overall, every activity has picked up.
    b. BD: Confirmed with golf. Since COVID golf has had record number of rounds.
    c. EW: Even sports that were a little in decline prior to COVID have been coming back.
    d. JH: Need for consideration of installing artificial turf in more fields.
    e. JH: Aquatics is a challenging area. High in labor, high in resource expense. Pools are difficult, but spray pads, if right ones that do not breakdown a lot, can get the same customer satisfaction without as much cost. Our pools are only open for 8 weeks and requires training lifeguards, cleaning pools, opened, then wrapped up to close.

The return on costs is not that great. With spray pads, we do not need lifeguards, etc.

f. MA: Prior plan recommended more pools in regional centers.
g. MA: For learn-to-swim programming we are competitive. We have the only Olympics pool open to the public. We have the most lifeguard training.
h. Two pools are used for re-certification need for Metro and other agencies, both indoor and used during the day.
i. JH: We are grossly understaffed, especially in golf.

3. What are current actions, policies, or procedures you believe have been positives or improvements from former practices?
    a. BD: Using SharePoint has allowed the group to be organized better and collaborate better. Better this only works to certain levels of staff that have access. Would be good to expand for additional training and requests.
    b. JH: Misty's area is great example of incorporating training, but in other areas its been more of a challenge to do the training. We used to have a person overseeing concession sales training, but that position has been eliminated, so lack of staff has impacted ability to train. Having time to do the training would help to create content and conduct the training.
    c. BD: The labor force is good on equipment but not on computers generally. Some struggle with that. Going back in time almost to in-person, class type training. When staff start, they need benefits explained by someone in HR, not a supervisor that only really focuses on mowing grass.
    d. MA: We took some recommendations to develop business plans for facilities that generate $100k annually. Helps to bring consistency. Was influenced by 2017 plan but implemented on our own. Full implementation of standards would bring a fair and equitable aspect to decision making.
4. What are the largest challenges your division is facing?
    a. JH: Point of sale, getting closer to replace and improve upon. No date communicated yet. Need to have funding before procurement will put on list to advertise. Director is working to get funding for it. Question from mayor's office is how impact from election and transportation referendum will pan out.
    b. BD: Spring is big time for golf and employee hiring. Streamlining hiring and application process is not online, must be in-person. Lots of paperwork and if one error, the person must come back in to a course to correct. Need to simplify seasonal and PT application processes to be more competitive in hiring.
5. What is the most important future opportunity to enhance the park and greenway system in the eyes of your division?

a. JH: Golf continues to grow. Prior success from 1990s, was not built upon and players aged out. COVID was huge injection of new players, but we need to build off this. Putting more staff on driving ranges and teaching youth about golf and continue to push the game to the young and women.
b. MA: As a parent, other communities have large, multi-use facilities for youth. The most opportunities we have is to build youth-recreation or fitness-focused large facilities.
c. BD: Not about having more facilities for golf, need more people.
d. JH: Realistically there is not more land for golf courses. That's not the answer. We need adequate staff to run the facilities we have better.
e. EW: We need more sports complexes, athletic fields. Competitors in surrounding counties are taking business away. Each prior plan recommended. 2017 noted need for 46 additional multipurpose fields and we've added 9, with 3 only available part time.
f. JH: Having super-centers that would provide additional features above our existing regional centers. Larger gyms, etc. When regional centers were built, they were supposed to reduce the number of neighborhoods centers to free up staff for super centers. This did not occur.

6. Describe your partnership and communications with other divisions. What works well, what does not?
    a. JH: Getting held up with other Metro agencies regarding improvement at facilities, specifically tennis court improvements.
    b. JH: Have had good internal communications.

MEETING NOTES

Metro Parks: Plan to Play Update

Subject:	**Staff Interview: Special Events**
Date:	September 19, 2024
Time:	10:00A to 11:00A CST
Location:	Online (Teams)
Attendees:	Metro: Brian Day, Jim Hester, Jordan Irvin, Lisa King Kimley-Horn: Alisha Eley (AE); Ashley Akers (AA), Nick Kuhn (NK)

I. General Q&A

1. How did the 2017 Plan to Play Master Plan impact your division? Were there any direct changes?
    a. BD: Have 44 parks with 21 staff and maintenance staff for all events for Metro Parks (in Downtown district, parks ground maintenance)
    b. BD: Been here since 2022 in current position. Not sure what was specifically in prior plan.
    c. JH: Did not really impact us, no real direct changes. It had some data from what we do and events, where they are. There were not a lot of recommendations for events. Was looped in with programming. Not really engaged in the process.
    d. LK: Not that I'm aware.
2. What are some of the lasting trends or impacts from the last 3-4 years that have influenced special events?
    a. JH: Increase in participants. More people moving to the city and more people wanting to participate. Never really shutdown due to COVID. Have had some unrulily participants with the increase. With the increase in density of new developments, parks have become their front yards and so use has increased and desire for more events. We typically do 900+ permitted events and host about 1M participants. We are at least back to where we were before COVID. This includes all events in parks, small and large.
    b. LK: We were asked by mayor's office to come up with more 5k routes to reduce impacts to the downtown core.
    c. JH: Downtown is a strain on resources with the number of events, polices, etc. just can not keep up. Asked to not do as much events, but people what events in downtown. Requires a lot of coordination to keep things under control.

d. AE: Our you guys the primary provider of public events.
    i. LK: If it is in a park, we are included for permitting. NDOT handles sidewalks and streets closures/impacts.
    ii. JH: If events are bigger than a park, then we are just part of a team. These larger events have a team that include PW, GSA, Police, Parks, NDOT, Mayor's office, etc.
e. LK: People wanting to do activation event, more races (tough motors), ninja warriors, etc. These can be challenging to parks because they need to put in infrastructure and dig holes, etc. Music artists always want to use parks.
f. JH: We get calls from insurance companies and private advertising (Red Bull, etc.) for marketing events. At least weekly. We do not allow marketing pushing in parks. Large events can be permitted. But most times they just want a table/booth to catch traffic, near the stadium. Do not allow people to do sales in parks. We allow concessions for food/beverages only. Request for dog parks a lot, i.e. dog washing, etc. People see parks as a place to reach people and market. Has been an area that has increased.
g. LK: Requests for political and religious events. They will say they will have 50 attendees, but end up with 5k, and do not want to pay for security and clean-up.
h. JH: Protest events requests has increased. These are difficult and are typically last minute. Try to be hands off and enforce rules. No candles on sidewalks, etc.
i. BD: Not as much context to how things have changed. Some are not honest with their intents and impacts can be significant.
    i. AE: If permitted events, are there means to recoup some impacts?
        1. JH: We lack ability to enforce. If they have outstanding fees/charges then they cannot get another permit. We maintain the database.
        2. JH: All the funds recouped go to general funds. So if there are expenses or overtime required, the funds have to come from regular budget. If it's a larger event, insurance payouts would be included.
        3. JH: Need to re-evaluate our fees. Hard part is that all park agencies do things differently. Need to review and identify best practices for special event fees. No regular review cycle. Most of the time we are just shooting from the hip on fees. Only three of us and we do not have time to complete a benchmark or comparison.
j. LK: Homelessness has been an increasing issue for events. If setups are at 8am, frequently need to clean up first. At the amphitheater, it needs to be powerwashed before every event. Damaging power outlets/plates to charge devices, etc.

3. What are current actions, policies, or procedures you believe have been positives or improvements from former practices?
    a. JH: Regular communications internally. Making sure park police, maintenance, etc. are all on-board when planning events. Always have to work on this. Event world is very fluid. Last minute changes, etc. Must be nimble. Weather can have impacts.
    b. BD: That is the hardest thing for park police division. Last minute changes for electrical access/water, etc. If they need suddenly have trash service, it's frequently last minute. We try to hold permittee to the target deadline.
    c. JH: We are not that great at holding to deadlines. We are trying to work with people. Some at the city hold to deadline more. But we try to work with organizations. We have talked about holding to a two-week deadline and they need to feel that its meaningful.
    d. LK: Once a month Parks Board agenda requires 2-week ahead submittal for sales, alcohol or amplification requirements. Usually goes on as a consent agenda item.
    e. JH: 700+ event requests probably request waivers for fees. Major events for 10k attendees would typically cost $10k. Family picnics can be $600-700. Fees are typically not waived, maybe 30-50 events. Must be approved by Director and/or Park Board, but none really go to Park Board. May waive a fee but not cost, i.e. park police, maintenance.
    f. JH: Number of events, number of people, estimate of impacts is summarized each year.
    g. JH: Not a high priority to review permitting process.
    h. LK: People can apply for special events online. Use to be print/PDF and drop-off or mail/email.
    i. JH: People can pick shelters for rentals online. For special events its more in-person. Not able to make a payment online. They must call, and we must take credit card information over phone.
    j. JH: 60/40 phone and email handling coordination and requests. Larger events are on-site and that is about once every few weeks.
4. What are the largest challenges your division is facing?
    a. BD: Having multiple requests for facilities is increasing. Multiple events trying to pile into specific areas (downtown).
    b. JH: Could use a few more large pavilions at key locations. 2017 plan did include recommendation for more. We have two. If we had 2-3 more large pavilions, 200–300-person capacity for events with 1-2k attendees.

c. JH: We do not have much capacity for larger events. Riverfront and Centennial Parks are only sites for 15-20k participant events. Not a lot of options. We try not to do them in Centennial as these events have significant impacts.
d. BD: Materials and furnishings are typically durable enough handle hosting multiple of events. Some sites lack access to areas for events for trash pickup, power washing, etc. Pavilions without enough trash receptacles for the types of events it hosts. Overwhelms staff. Everyone wants to use wooden park bench or Duratek boards, and it gets melted or set on fire. Information for replacements, etc. are lacking.
e. LK: Security for events requires a plan and frequently must hire outside agency because not enough park police staff to work all the events, even with overtime.

5. What is the most important future opportunity to enhance special events?
    a. LK: More staffing, but do not have room for more staff.
    b. BD: For downtown parks, we need a strategy for the unhoused issue to help reduce impacts on parks, maintenance, etc. Especially in the downtown core.
    c. JH: We have 180+ parks, but 15-20 handle most events. Probably 80% of events are in the 15 downtown core parks.
6. Describe your partnership and communications with other divisions. What works well, what does not?
    a. See above.

MEETING NOTES

Metro Parks: Plan to Play Update

Subject:	**Staff Interview: Greenways and Open Space**
Date:	September 19, 2024
Time:	10:30A to 11:30A CST
Location:	Online (Teams)
Attendees:	Metro: Amrita Chatterjee, Joanne Conley, David Diaz-Barriga, Logan Elliott, Erica Green, Cindy Harrison, Jazmin House Kimley-Horn: Alisha Eley (AE); Ashley Akers (AA), Nick Kuhn (NK)

I. General Q&A

1. How did the 2017 Plan to Play Master Plan impact your division? Where there any direct changes?
    a. CH: Was only one here now that was involved. One of the biggest impacts and this plan update will be addressing. Prior greenways had a separate master plan document which made our goals clear. It needed more, but what useful. The 2017 plan had greenway information scattered throughout the plan. Having an update that clarifies these items again will be useful. Use to have standards long ago that need to be updated since we are working with more partners.
    b. CH: We have some additional corridors that need to be included. We work with these documents with developers when identifying what needs to be included. 2017 plan did not really have an implementation section. Even maps from the prior plan were difficult to read or identify corridors or existing facilities.
        i. AE: How can maps be more useful?
            1. CH: Title for maps need to be called all 'planned.' Less likely to get funding or buy in from developers when maps are called 'Future Planned.' Have been hesitant to show all corridors, i.e. which side of the river a trail will be on is not known. So how we approach that needs to be discussed. Having a recommendation that includes producing additional
            2. AC: Working on GIS data is important for planning future greenways. We have existing greenway data, and they are accurate. We are lacking the easements we own and the open space, i.e. which we have two layers that differ. One layer (greenway

easements) is not a complete picture, and parks has open space which is the other. We need to have GIS data for the complete inventory to show what we own.

2. What are some of the lasting trends or impacts from the last 3-4 years for greenways and open spaces across the system?
    a. There's been more interest from developers to incorporate greenways into projects without many concerns. More developers are on-board incorporating trails into their projects and having mix-use on the trails as an amenity and public space.
    b. CH: Operationally, we need to determine which corridors need to be lighted. Currently they are all dawn/dusk which does not work for commuting needs. Downtown area needs emphasis in this plan. Need a communications plan to be able to inform other departments to provide quarterly updates, etc. Costs for greenways has increased, need to find ways to present that to ensure that does not prevent building more greenways but has value to the community.
    c. Homelessness issue has grown in last 3-4 years and will continue. For certain greenway that are near the river or have open space next to them have had challenges.
    d. AC: Increasing in popularity has seen as improving transportation, but keeping the recreation component is important.
    e. CH: We are limited in funding sources which 'Growing green spaces' funding going away. Need to find new sources. Mission critical importance and prioritization is needed.
    f. CH: Every plan we do, specifically for larger open spaces, needs to include an O&M element into costs and staffing needs. Has been down in past, but to mixed results, i.e. Cumberland Park. Do we need contracts to get landscape established and maintained, etc.
    g. Ebikes are impacted usage and number of users. Other communities have had challenges with ebike usage.
    h. CH: Now widening trails to 14 ft vs. 10 ft then 12 ft. Communicating safety needs. We have positions for greenway police, but position will not be filled until City's regular police force is fully staffed. So, what can we do in the interim?
    i. AE: Are there main items for safety?
        i. CH: User conflict, i.e. walking w/ dog on leash, cyclists that are too fast, etc. Sometimes its maintenance issues, too much brush, etc. Result in lawsuits. Design with safety in-mind and aesthetics. What are others do?

ii. Peers: Maintenance, not many great solutions. Funding research will be provided. Issues seem similar. Ebikes research can be provided. As a large County, resources are primary challenge.

3. What are current actions, policies, or procedures you believe have been positives or improvements from former practices?
    a. CH: We know we need more robust policies regarding acquisition of greenways ROW. Rezoning SP process helps. But some projects do not go through that process with planning and this document needs to address that issue.
    b. Formalizing agreements for easements. Historically have not been as formal.
    c. JC: Flood buy-out program coordination with Metro Water to use some funding to acquire land.
    d. CH: Phil and the maintenance team have recognized that maintenance and replacement of boardwalks and trails is needed. His efforts include long-term evaluation of facilities and making a budgetary plan for repairs and replacement. Lot easier to get funding when it is known ahead of time.
    e. CH: Need more signage. Telling users where they are. Telling distances is difficult, but having one that is like interstate system with every ¼ mile identified would be great.
    f. AE: How often are you using grants?
        i. CH: Have not used much. We have a few examples with various types of grants, i.e. Tiger, etc. Lesson learned is that funding grant needs to be large enough to apply and manage it, so the project needs to be large enough to justify.
        ii. AC: We have grants we would like to pursue, but they require master plans or designs. Having land banked is also needed. Many require having all the land in ownership to apply.
4. What are the largest challenges your division is facing?
    a. CH: Funding is biggest. But technology is needed and having staff trained and able to use it. Having a plan to consistently incorporate is needed. Software needs include additional GIS tools, project management, planning tools, many items we may not even be aware. We are fairly low-tech.
        i. AE: Using counters is an example to know who is using the system.
            1. CH: And how we present that information. We are limited, and it has effect on building support and how we represent ourselves within the community.
    b. AC: Having a more current or useful website. We have parks finder now, but for greenways it is not useful for greenway users. Being able to know what trailheads,

access points, etc. to parks and upcoming greenway projects and closures. It's easier to use Google then use our greenways.

c. CH: Searching on Metro's site is difficult. It's hard to update with limitations.

5. What is the most important future opportunity to enhance the quality of the greenways and/or open spaces?
    a. AC: Ability for greenways to be linked with other transportation projects to better connect modes.
    b. CH: Building out system in central city and getting the ROW needed should be a priority. Connecting to transit and requires coordination with partner departments. Implementing policies that can foster that better.
    c. How land around our greenways should be managed is needed. Invasive species, use by homeless all impact our greenways. Having a vision that they connect people to nature needs to be implemented.
    d. CH: Need to incorporate natural resource management plan (Jim's group) coordinate with maintenance and greenways to optimize opportunities.
    e. CH: Drainage within corridor is a big factor.
    f. CH: We get a lot of requests for volunteers, and we need a designated coordinator to handle that. Can be someone for Department that can manage that across the divisions.
    g. AC: Ensuring that we get something in return is needed for volunteers.
6. Describe your partnership and communications with other divisions. What works well, what does not?
    a. CH: Greenways for Nashville provide a better website and focuses more time on that. There is some change in leadership there (Amy stepped down). Need to continue to foster that relationship. They have taken on role of updating greenway maps, last one by department was 13 years ago. They have taken on improvements at trailheads with easier access to consultants for graphics, etc.
    b. CH: Happens well informally. Goes up and down. Relationship with Planning as been huge. Same with Water Services and NDOT. Challenges come with staff changes. Meeting periodically to get everyone up to date on projects, etc. Metro Legal for property acquisition. Schools, Libraries, GSA are additional partners.
    c. CH: Having regularly scheduled mtgs is needed, but having a formal system in place would be best. The Greenway Commission has various reps from multiple departments, but that goes up and down in terms or participation. Room for improvements.

d. Having more communications with parks planning team would be great. During master planning of parks would be good to be included to ensure connections to greenways are made. Staff changes have made that difficult.
e. CH: Goes back to website. Could that be improved for everyone.

MEETING NOTES

Metro Parks: Plan to Play Update

Subject:	**Staff Interview: Maintenance**
Date:	September 11, 2024
Time:	9:00A to 10:00A CST
Location:	Online (Teams)
Attendees:	Metro: Brandon Denton, John Holmes, Randall Lantz, Phil Luckett, William Manuel, Jackie McKinley, Mark WatkinsD Kimley-Horn: Alisha Eley (AE); Ashley Akers (AA), Nick Kuhn (NK)

I. General Q&A

1. How did the 2017 Plan to Play Master Plan impact your division? Were there any direct changes?
    a. PL: Not sure what all the 2017 plan had in it other than new facilities and parks. Have gotten a few new positions for grounds, etc. The funding from this next plan will impact budgets for operations. Need some type of factor for operations costs, i.e. per additional acre of parkland. Need a best practice for peer comparison. How many maintenance staff per SF of building, etc. This would help justify positions. Prior plan addressed it, but not in detail.
    b. PL: Just handed a deferred maintenance with $140M with $40M in wooden boardwalks.
    c. JH: We continue to add facilities but do not add operations funding to take care of what we have. That is why we struggle to take care of repairs. Need to take care of what we already have. From a golf course side Brandon does not have enough people to take care of it.
    d. RL: We were not involved in the last plan and do not have a copy. A lot of the plan was not followed. None of the regional centers were closed (two plans ago). The reality of the plan is that it must be implementable.
    e. PL: The last plan spoke about super centers, that none was implemented or funded.
    f. NK: Any peer communities: PL: Austin and Mecklenburg. P2P had a few others. Minneapolis would be nice, but their funding is much higher.
    g. RL: We do not travel much to peer communities. Would be great to have a system to know and communicate with peers.

h. WM: What % of plans typically are funded? AE: Typically, 50% but this is dependent upon the type of projects.

2. What are current actions, policies, or procedures you believe have been positives or improvements from former practices?
    a. RL: We are still doing the same things from 20-25 years ago.
    b. PL: We are getting on a true workorder system to assign/track. Right now, we are still paper system with no built-in follow-up to confirm completed. Change will be 10-months out. We try to adapt as best as we can with new ways. Most of the people here are already doing things the best way possible with the tools they have. The system is called 'Cal' and was part of recommendations from two plans ago. NDOT and water have the system, now Parks is getting it.
    c. JH: If fleet is funded it's a great idea, if not funded, then not a good idea. Brandon's equipment is always an issue for golf maintenance. Better than it was 40+ years ago, but still need more.
    d. PL: Fleet is for requesting new equipment and for requesting replacement and decommissioning. If they get funding its decommissioned is first, and the new ask is lower on list and typically does not get funded. Brandon is probably waiting for 50% in terms of receiving the replacement requests from two years ago. We have a staff person that checks on this daily. The equipment is better today.
    e. RL: We used to have more equipment, but it was not good.
    f. PL: We do not get enough equipment from fleet, i.e. if a mower goes down then it could take 2 months to get replaced or fixed, but things are not getting mowed then. So, we use 4% funding for other backup equipment.
3. What are the largest challenges your division is facing?
    a. BD: Staffing is biggest. Infrastructure replacement (old pipes, old buildings),
    b. PL: Have assessments for 25 buildings but will all buildings in 18 months. Electrical, HVAC, etc. conditions assessed. The beams for one gym are coming apart, opened in 1965, and probably needs complete replacement. Electrical systems are typical for the older buildings that need complete replacement.
    c. JH: Have golf maintenance buildings that are in poor condition and need replacement.
    d. PL: The golf buildings will be included in future building assessments. In 'Grounds' Kay Ridge, Ceder Hill are two on the list that need to be replaced.
    e. RL: We never spend money on ourselves. Usually planning includes something new and shiny. Spending on our own facilities is never done. Staff are working in conditions that are a large challenge. One of the biggest challenges is knowing what is in the pipeline coming to them to maintain. Surprised with the number of projects

and therefore can not get accurate picture of operations and maintenance costs for the future, being able to project needs. Maintenance has never really been involved in the planning side. AE: For our current design project with Metro, having maintenance involved in the planning and design of facilities has been very beneficial.

f. PL: Need staff comparisons and projects. When adding a bunch of facilities, need to factor needs for new vs. older. Older facilities require more staff.
g. AE: Are there enough positions? PL: Have done a good job of filling open positions over last 2 years. Though present budget was funded at the requested amount, they reduced 1.4% funding, which impacted staffing/labor. Reduce 2-3 positions from each business units to met goal. $360k was the impact, and $900+k for the department. They are open positions that are identified not to be filled. Was on track with hiring to fill all positions, but this sidetracked those efforts. Not the first time that has happened. All departments were impacted. It's a cut without being called a cut. It's hard for people like Randell to keep up with needs with staff that we have now. This is why we need peer comparisons on per acre, SF, etc. units for staff. We could use this data to project for new parks and facilities what needs will be staffing wise.
h. PL: The conferences do not have programming that covers staff needs here, turf, etc.

4. What is the most important future opportunity to enhance the quality and efficiency of your division's work?
    a. JM: Working with downtown on contracting to be faster to get ahead on service work, fill positions needed and requests. Licensed electricians, etc. Have been limited to on-call to two companies and we can overwhelm them. We are outgrowing the old way of doing things.
    b. PL: Metro does place a lot of requirements on private venders, and this makes it hard to get the smaller local companies. So, we get the larger companies. We need bigger contracts and more companies. Have had two projects held up because the contract amounts/limits had been hit and the ceiling could not be adjusted. Water will do specific contracts, so Parks must do them. Standard is for Parks to do Metro-wide contracts for every department to use.
5. Describe your partnership and communications with other divisions. What works well, what does not?
    a. MW: Our division works well together.
    b. PL: Randell mentioned having more interaction with Planning early in the planning or design process would be helpful. John's division has not problem calling us and

same with Brandon and so is Recreation. Overall, pretty good, but nothing is perfect, sometimes just forget to ask. Lot better than it used to be.

c. JH: From the customer standpoint, the new workorder system will help. Trying to not overwhelm them with nothing but emergencies. But the current system is outdated.
d. RL: Biggest challenge is with fleet operations. This is a daily issue. Work with NDOT and Water a lot. Work well with other departments. Would be nice to have a formal agreement across departments to know who to talk to across departments. Metro Parks have not had a department wide meeting for a long time. Would be nice to get updates.
e. WM: It hard when new employees to start with a lot of paperwork. HR use to have an orientation class for all employees to onboard. Now that has been pushed to supervisors which is another load on top of the daily tasks that the supervisors need to complete. Difficult for both new employees to be able to complete needed training and for supervisors to explain benefits, etc. Not enough HR staff.

MEETING NOTES

Metro Parks: Plan to Play Update

Subject:	**Staff Interview: Natural Resources, Centers, and Outdoor Recreation**
Date:	September 13, 2024
Time:	1:00P to 2:00P CST
Location:	Online (Teams)
Attendees:	Metro: John Cassidy, Heather, Gallagher, Tracy Harris, Jim Hester, Vera Roberts, Linnann Welch, Denise Weyer Kimley-Horn: Alisha Eley (AE); Ashley Akers (AA), Nick Kuhn (NK)

I. General Q&A

1. How did the 2017 Plan to Play Master Plan impact your division? Were there any direct changes?
    a. JC: There was a lot of input and feedback from our division that was focused on change in the prior 2017 plan that we felt was good. What became of that outside of this division there was not as much interested in implementation, i.e. staffing, funding, centers.
    b. JH: Funding is key word. Lots of great ideas but no funding to implement.
    c. JC: Outdoor recreation was the highest areas of needs and desires from peer comparisons, trends and public input. Hoping that this because a focus for this plan.
    d. DW: What our division provides was a high need and items were not implemented.
    e. JC: Not there were no changes but was hopeful that there would be more.
    f. TH: Prior plan was being finalize while big items were being completed at Fort Negley. We received a huge increase in foot traffic. Media coverage was somewhat negative, but foot traffic increased. The opportunity for development fees nearby, many targeted the Fort. Likely not as much if there were formal development fees, but still a good source. Title needs to include 'historic' resources and recommend a manager of historic resources/sites. Need to have historic resources have its own focus like natural resources. We have one real site with other sites under revenue generators.
    g. JH: There are historic resources in parks that spread out across parks.
    h. DW: There are many opportunities to interpret the history of Nashville through these sites.

i. VR: Prior plan noted goal of growing revenue streams. Our programming is free, and revenues collected cannot be reinvested directly back into the facilities and operations that support these revenues. Other peers are models and prior plan recommended.
    i. Metro leadership and finance have been barriers in implementation. There's little incentive to seek more revenues when we do not get much back. We also want to make sure we maintain affordability for our programming.
    ii. DW: This is one of the largest challenges we have. Every site does more than what the budget allows. Funding is the biggest challenges for operations costs for programming or personal and resources management needs.

2. What are some of the lasting trends or impacts from the last 3-4 years that have influenced your division?
    a. DW: What comes straight to the front is how COVID showed how parks are important to residents. Attendance increased significantly. It would be nice that funding reflected that. Our divisions services were ranked high and valued highly by residents.
    b. VR: Over last 1-2 years the uptick in attendance has increased and amount of impacts from vandalism, crime, graffiti, homelessness, etc. has increased. Need for more security measures to protect our resources from the 'bad apples' is needed. Items such as not being able to ride bikes on primitive trails is not communicated well and leads to 'bad' behaviors in our parks.
    c. DW: The uptick of attendance and treatment, and that visitors are loving them to death calls for a comprehensive natural lands management plan/standards and best practices incorporated across the board for all the open space that Metro owns.
    d. HG: The impacts on the three new nature centers and Fort Negley as they were built and now, we are seeing the uptick of usage and seeing increased need for maintenance as these facilities reach 15+ years old.
    e. JH: Many of these facilities have green practices incorporated when they were originally designed and constructed. And need to have replacement with similar sustainable materials. Need to change the cultural think to embrace these needs.
    f. JC: Some are replaced for cost savings and ease.
    g. JC: Increase in localized traffic to our sites and usage of amenities for informal uses and gatherings.
    h. JC: Enforcement of laws and rules is inconsistent. Younger police may coordinate more, and older staff may not be as interested. Has been a challenge. User conflicts often fall back to us to communicate directly with those causing it. Issues with unhoused people have been a challenge in some locations.

i. TH: As issues are resolved, concerned focus will move away and challenges will increase again. Maintenance is the crossroads of what we deal with a lot. Metro Parks is the starting point for a lot of maintenance staff who move on to other Metro departments for higher pay. Having equal pay would help level that.
j. We need more staffing. Each center is running on skeleton crew. We could do a lot more if more staff and the public is asking for it.
k. DW: Currently we have one person and it's not safe to do programming with just one.
l. TH: Need more 40 hr. employees as 30 hr. positions are not enough for people to live on.
m. VR: We should not look to add more parking lots. We are seeing more people are taking ride-share and other modes, but there is not transit access to existing nature-resources sites and programming. This limits many residents to not be able to participate or experience what we offer.
n. JC: Some routes are close but do not actually connect. If some could connect to the actual centers or site that would connect the last mile. Other communities have routes for weekend and special dates where transit was provided to these types of locations. Selective transportation, i.e. 15-25 passenger vans/buses.
o. DW: Jim could probably use more staff to manage special events in parks. Revenues and Special Events both have permitting needs for special events.
p. JH: We need more vehicles within our division. We have few vehicles committed. We must borrow a van from recreation to do programming. Only the public that have vehicles can typically participate.
q. DW: We cannot transport kayakers back to their cars even.
r. JC: Some sites are more suitable to connect, others are more rural and less likely be to be easily connected to transit. Most of the centers are urban and can connect with youth who cannot access natural/historic sites.
s. HG: It's like a waterfall affect. To get to sites, we must put equipment in a personal vehicle to get to the gator to get to the site. Having resource management plans would help.
t. JC: None facility-based resources and staff are more challenging.

3. What are current actions, policies, or procedures you believe have been positives or improvements from former practices?
    a. See above.
4. What are the largest challenges your division is facing?
    a. DW: Overuse, more events; needing more protocols for outside organizations or businesses (or other Metro departments) to construct facilities/parking for using

Metro property for leases. Being able to control these leases for better resource management is needed or able to help.

b. VR: We do not have a formal designation for property that is natural resources. Because we do not have that, some management needs lack guidelines activities and added protection for natural lands. Looking for this plan to add that.
c. JH: We often have wide open space and people see the need to 'fill' it with a use.
d. DW: Outdoor activities and nature-based activities are very high.

5. What is the most important future opportunity to enhance natural resources, centers and outdoor recreation?
    a. TH: Publicity is needed to draw attention to our resources. That would be a low-hanging fruit to enhance. This could help with non-free activity growth.
    b. JC: There are concerns for protecting resources without having the resources and policies in place to protect. More use on overused greenways.
    c. VR: Increase the public's awareness of our resources is needed and their understanding of the need for protection and benefits. And for sites where we do not have nature centers.
    d. DW: We could get on the tide of Metro Stormwater and Water already see the value and are communicating. General Services does it to a degree as well. Getting on board would be great.
    e. VR: Aligning our hours to when people are wanting to use facilities and visit sites. Sunday hours and evening programming is needed but staffing is needed.
    f. TH: The Parthenon is a good model for increase usage without increase staffing needs.
    g. Looking at peers is good: Cleveland Metro Park is good. Looking at staffing levels.
    h. LW: We had prior Sunday hours and there is a ripple effect because maintenance, safety and main office staff do not have weekend hours that typically align. Need to have the backup.
6. Describe your partnership and communications with other divisions. What works well, what does not?
    a. TH: When director Odom came on, she started to release director notes which has helped staff know what is going on. Incredibly helpful. But missing them now. Other is with others using our parks, not uncommon for others to use facilities without communicating why or what they are doing. Having one person 'in-charge' with a park site that would know all happenings could be a shift in culture. It's hard to be running a school program when maintenance is mowing right next. Each group is doing what they been tasked with.

b. DW: Also, having one person where the buck stops there. Some facilities have questionable management, i.e. is greenways, natural resources, or maintenance ultimately responsible. Not a lack of communications but could be better.
c. HG: Instead of communicating, park police will just head into a park to complete their task and not typically communicate their need.
d. DW: Seems like there needs to be a standard MOU or action plan between these resources.
e. TH: We are all managing very sensitive sites. When maintenance treats a historic site like it was any other park space is challenge. Sensitive sites could have their own designated maintenance crews who are trained on specific needs. Even having an outlook invite knowing when maintenance is coming, or a message boards.

MEETING NOTES

Metro Parks: Plan to Play Update

Subject:	**Staff Interview: Planning & Development**
Date:	September 13, 2024
Time:	10:30A to 11:30A CST
Location:	Online (Teams)
Attendees:	Metro: Sean Alexander, AC Pullig-Gomez, Tyson Hairr, Jordan Meagher, Joseph Stovall, Kimley-Horn: Alisha Eley (AE); Ashley Akers (AA), Nick Kuhn (NK)

I. General Q&A

1. How did the 2017 Plan to Play Master Plan impact your division? Where there any direct changes?
    a. JS: Before 2017 plan, our division really did not have vision, did not understand where we needed to be, where we needed to be with funding. We were one of the biggest impacted groups from the plan and hope this plan will be the same. Suspect that maintenance and planning will be big focus for this plan and help inform the city how to strategize funding needs. Right now, we do not know what we have funding coming from year-to-year, but having an internal capital spending plan would allow for planning. Prior 2017 plan touched on that but did not have the needed information to implement. This play will have more impacts for all divisions, but maintenance and planning will still likely be most impacted.
    b. Last 15 years, the city has changed so much. Since 2017, we have better understanding of how much we have grown and changed. We have been reactive to these changes. Having a better understanding of the growth, where it has occurred and will in the future will allow us to be proactive.
    c. JS: Having a priority for internal capital planning plan is critical. This allows for stability in planning projects and small needs consistently. We have zero budget to complete anything that may be called in today. Having $10M annually would allow us to catchup and would be a big impact.
    d. JS: It is impacted as a quality-of-life benefit. We need to show to the City administration that we have a plan and how to do it right. What is the cost to implement.

e. Elected officials do have their special requests, but collectively officials are supportive of parks.

2. What are some of the lasting trends or impacts from the last 3-4 years that have influence how the Department plans and develops facilities and parks?
    a. JS: People want connectivity, i.e. biking and walking. More biking facilities. We tried the bike rentals, but that did not work out. More bike lanes, greenways, etc.
    b. People need to get to the parks. And we need ways without taking parkland for more parking (of vehicles). We know we must provide some parking.
    c. Huge boom in pickleball, outdoor fitness courts (near playgrounds), general outside open space for passive recreation, for flexible use and walking.
    d. Have seen large increase in funding across the country for support of outdoor recreation.
    e. Fields have been filled with multiple sports (kickball, etc.) which has been great, but increased uses mean more trash, more demand for restrooms,
    f. As progressive as Nashville is, would love to see underground parking as an option. Park is an issue on a case-by-case basis that must be based upon usage and overall master plan of park.
    g. Neighborhood parks and smaller parks could have more directional parking, on-street options. Parking should be on an as-needed basis.
    h. Have a feeling that the outcome to this process may be a bond referendum, if the transportation passes this year. The County's comp plan and transportation plan are being updated.
    i. Dog parks, having big and small zones, locations and standards (3 acres, artificial turf, irrigated, etc.) Typically, $1m per dog park.
    j. During the community meetings as part of this process, educating the community on these standards is key.
3. What are current actions, policies, or procedures you believe have been positives or improvements from former practices?
    a. JS: We do not go to bid until done with permitting. Prior, we would go in with 75% plans and when we would go to bid, we would not have permits and that resulted in a high level of change orders. Taking a few additional months to secure all permits has been better. See positive changes with partner departments through this change as well.
    b. That has helped with increase in staffing levels, more project managers.
4. What are the largest challenges your division is facing?

a. JS: Biggest challenge is funding. We need to have the internal CEP list. We need to know what we will have to plan. Cannot wait until March to see what we get. We will still get special projects, but we'll have the staff ready.
b. JS: A lot of projects that are pushed are recreation focused. A lot of great ideas come from staff and citizens that must be sold to the Parks Board and city leadership.
c. JS: We have 3 vehicles for a division of 30. Often must use personal vehicles. Each divisions need a certain number of vehicles with designated allocation.
d. Office space and room for growth in staff. Long-range we need a 2-3 story building as a department HQ. Having a space for the Parks Board to mtg and for the public to and interact with the Board and staff. Public frequently must sit on the floor or just leave instead of participating in the mtgs.
e. There are not always communications between divisions or the same messaging. We are fragmented from other divisions because the department is split across multiple buildings. Having a single HQ building would unit staff and bring more collaboration.
f. Need more master plans to be cohesive and talk with one another. This is needed for more multi-departmental coordination. NDOT is a primary example with coordination for extra approvals to implement greenways vs. sidewalks.
g. Inter-departmental communication improvements are a priority need. This plan needs to help bridge or navigate solutions.

5. What is the most important future opportunity to improve the parks and greenway system?
    a. JS: Most important is the ability for this plan to shape quality of life in Nashville over next 10-years. And within 5 years we update to come the impacts from continued growth.
    b. JS: Funding, to know we have some level of dedicated funding.
    c. Integration within the transit system. If people cannot get to parks, that is a missed opportunity.
        i. People drive to the gym instead of walking. They want more parking, but when you explain why we do not support more parking in parks, people agree.
    d. Public/Private partnerships. Who is out there and who to contact. We are just starting to have those engagements. Having a streamlined message that contacts people that are interested in partnering with our mission, needs, and contacts.
    e. Policy language to be better able to accept partnerships, i.e. branding on grant opportunities hits a barrier with existing requirements. This plan should include

some language that allows for better consideration for unique opportunities. More case-by-case basis.

f. People need to know how to volunteer and we do not have a clear message. We make is difficult for corporate and private partners to help us.

g. More 'Friends' groups that are supported by Metro through guidance. Creating an idea portal for interested parties to submit ideas.

6. Describe your partnership and communications with other divisions. What works well, what does not?

   a. Knowing what types of permits are needed, i.e. Metro Water may require a permit that takes 6-months. We have no real development process standards. Everyone is sort of shoot from the hip in understanding what the process needs to be for various project types and communications/streamline approval processes. Understanding that we are on the same team and willing to work together.

   b. Nashville and the department have grown, and we have some growing pains with small-town practices still being used.

   c. We want to collaborative work with Greenways. They do the acquisition part of our work and sometimes we do not know they are working on it. An example was a park expansion that the public knew before the planning division even knew that additional land was acquired. Was arranged that way 20+ years ago. This is biggest communications issue within the department between P&D division and others.

   d. There are 'hand-shake' agreements with schools and other private/sport groups that have no real records and how to change these agreements.

MEETING NOTES

Metro Parks: Plan to Play Update

Subject:	**Staff Interview: Park Police**
Date:	September 30, 2024
Time:	10:00A to 11:00A CST
Location:	Online (Teams)
Attendees:	Metro: Gregory Davis, Jordan Irvin Kimley-Horn: Alisha Eley (AE); Ashley Akers (AA), Nick Kuhn (NK)

I. General Q&A

1. What are some of the lasting trends or impacts from the last 3-4 years that have influenced your division?
    a. AE: About how many staff? JI: 17 officers in total; 5 supervisors and 12 officers.
    b. AE: How are you organized? JI: We have zones, like today we have 3 officers working and they have different zones to cover as much grounds as possible. We cover a lot of grounds with few people.
    c. AE: Are there problem sites/parks? JI: Yes, there are some that have more crime reported than others, but we try to cover them all.
    d. JI: We are focused on getting our staffing up to what budget allows. We are limited with the number of interested applicants. Through Metro, we go through the same hiring process as Police. It takes 4-6 months and others can hire faster.
    e. AE: What about retention? JI: Generally, they will stay. We are somewhat short-staff now due to retirements. Historically we had officers that had been here for 20-30 years and then in last 5-years a wave of retirements and trying to rebuild staffing levels. Historically our pay was lower than Metro Police (-$10k). Now our officers are paid the say, but supervisors are not.
    f. JI: We have one administrative personal that supports the division and that is ample.
2. What are current actions, policies, or procedures you believe have been positives or improvements from former practices?
    a. JI: We follow all policies and procedures of Metro Police which is updated continuously. Nothing has helped hiring wise, but we follow what Metro does.
3. What are the largest challenges your division is facing?

a. JI: Staff is primary challenge. Would like to have a quality-of-life team, a bike team (and UTVs), a mounted team. Having an A and B shift teams to handle day and evening. We currently have a single team that patrols from 7am-5:30pm. With two teams we use to provide patrols from 7:30am to midnight. Metro Police now covers the other time.
b. GD: If we have added greenway unit staffing at 38, with 31 positions approved now. We are currently 18 staff short.
c. GD: We use mounted team for greenways sometimes.
d. JI: We have a trainee starting today, with Metro academy. We may have 1 candidate for academy, but Metro will have 40+ with about 15-20 that quit. If our 1 person quits, then it may be months before we get another. It's at least a year before the officer is fully trained. Maintenance can hire now and start staff tomorrow, we can not.
e. GD: Staffing is biggest challenge, everything else falls into the background.
f. GD: Homelessness has been an impact, but do not see it as a challenge as it's an issue across the city. Homeless seem to gather in parks due to policy to not enforce state law to limit/ban camping/encampments in parks. We bring in Office of Homelessness Services to assist. We try to discourage areas from becoming encampments.
g. JI: Biggest crime we have is theft from vehicles. Typically, the more people using parks we see this increase. Educating visitors regarding personal materials in vehicles being visible is key. Having parks adjacent to or next to schools see increased vandalism. Other crimes, nothing major in term so of upticks.
h. GD: We've had a down-tick in thefts from vehicles over last 4-8 weeks. Not sure what is leading to that. Also, primary issue for Metro Police.
i. GD: If we were fully staffed, we'd likely have issue with availability of vehicles and equipment. UTVs, we have enough for now. We use what we have well. Having more sky cops (trailers with cameras) would be good and that is currently in review with procurement regarding venders and type needed. Our mounted unit has horses that are starting to age, and we are looking to retire horses in healthy condition. Within a couple of years in needing 3-5 new horses. We do not have K-9s, and do not have interest in having.
j. JI: Cameras, mobile and stationary, are big deterrents. They are effective tools and having more would be helpful.
k. GD: Joe/Phil are up to speed with current security infrastructure needs for additional cameras, fencing, etc. Having the mobile cameras are very noticeable.

They are marked as a police vehicle and are deterrents. We have 200+ properties with about half have cameras.

l. JI: Issue with cameras is the quality. We have lots of types of cameras and if they are not working then that are not helpful. Mobile cameras are great because they can be moved to where needs are.

m. GD: For this weekend's events at Centennial, we can add mobile cameras to have 100% coverage of spaces. Metro Police has access to cameras. We have a trainee that monitors cameras 6-8 hrs a day. We do not always have ability to monitor the cameras. Metro has ability to monitor 24/7.

4. What is the most important future opportunity to enhance safety and security in the eyes of your division?
    a. See above.
5. Describe your partnership and communications with other divisions. What works well, what does not?
    a. JI: We have good communications with most or all divisions in Metro Parks. Maintenance and special events are most frequent divisions. Primary issue is park staff and signage in parks, which advertise a number to call for assistance, but we do not have staff to manage those phones. Need to have signage in parks and greenways changed. New signs do have the correct emergency and non-emergency information included, but old signs need to be updates.
    b. JI: We get dispatch from Metro Police and if we are not available, Police will be dispatched.
    c. GD: Divisions within Metro Parks all communicate differently. Communicating outside our department is a challenge. Would be better to have a presence on social media in some way. We work on some of that, but it trails off. Metro Police have communications personal that focus on that, we do not.
    d. GD: At least every other week we have a senior staff meeting to mtg in person to review plans, discuss projects and provide input on security needs for designs and renovations of facilities and greenways.
    e. JI: Between maintenance and planning, opportunities to participate in mtgs and reviews of plans with Joe/Phil has increased significantly.

MEETING NOTES

Metro Parks: Plan to Play Update

Subject:	**Staff Interview: Recreation Centers**
Date:	September 11, 2024
Time:	12:00P to 1:00P CST
Location:	Online (Teams)
Attendees:	Metro: Sherry Hipps, Darlene Morrow, Stevon Neloms Kimley-Horn: Alisha Eley (AE); Ashley Akers (AA), Nick Kuhn (NK)

I. General Q&A

1. How did the 2017 Plan to Play Master Plan impact your division? Were there any direct changes?
    a. DM: Can not think of many impacts from the plan, but budget and COVID impacted division over last few years.
    b. AE: What about the super center recommendation? SN: The regional center approach started in 2016 and have added 10 now. Neighborhood centers are still important part of services primarily for accessibility to neighborhoods. DM: Walkable and accessible, primarily for youth is important.
    c. AE: Prior plan had identified 360k SF of indoor facilities added. SN: We added 10 centers and 1 neighborhood. Since 2017, Smith Springs, Belleview, Madison facilities have been added.
2. What are some of the lasting trends or impacts from the last 3-4 years for indoor recreation?
    a. DM: We have rebounded completely for community centers in 2023 and now exceeding pre-COVID figures. We are growing.
    b. AE: Is that all types of programs? DM: Yes, everything we are providing. We need a facility for sports tournaments and a huge need to travel to Williamson County or others to meet that need. For a city this size, we do not have anything. AE: Indoor? DM: Yes, indoor for sports courts, soccer, etc. very flexible for multi-team tournaments indoors. Community centers model is for 1 gym, which is limiting.
    c. AE: What about indoor aquatics? SN: It's a need, but it's a problem too. They provide access year-round, but they are hard to staff and maintain. DM: Need to make sure each neighborhood has access to a pool and programming such as learn-to-swim.

   d. SN: Huge trend in pickleball (outdoor/indoor). Needs for more teen activities in the to help fight crime. Would be good to have teen centers that focus on this. Does not necessarily need to be standalone centers, just designated space. We maintain outdoor courts attached to community centers.

3. What are current actions, policies, or procedures you believe have been positives or improvements from former practices?
   a. SN: Can think of anything.
4. What are the largest challenges your division is facing?
   a. SN: Adding point of sale systems for neighborhood centers and payment systems. Currently neighborhood centers can not take payments, they must take it to regional centers. At neighborhood centers they must hand write down and intern in Excel attendance records.
   b. AE: How are spaces reserved. SN: They use Outlook to manage schedule of rooms and must be down at regional centers.
   c. DM: Need online payments options.
   d. SH: Our classes for cultural are online and payments.
   e. DM: Transportation has been biggest. In the past we had 26 vans, now it's only two (25 person) buses, which greatly limits ability to do field trips, sports, etc. We have 27 community centers and 2 buses does not meet needs. AE: Why has the number of vans been reduced so much? SN: Fleet took the vans that were here previously but cannot recall the reason why. DM: It happened during (2005-2006) budget cuts. Vans were for program transportation only, not to transport students. Use to allow all the community centers to do programming and interact with each other. Also had field trips. That was big in the summer. AE: Has more vans been asked? SN: The two buses just got last year. It's a very slow process.
   f. SH: Staffing has been challenging. We have two facilities that we do programming out of. We received 6 staff last year. Have two other facilities that we are not providing full programming out of due to lack of staff. We need more positions in order to run the programming. We get lots of applicants, just a limited number of positions to fill.
   g. DM: As our program grows, we have to turn away customers in order to maintain ratios of staff to children. Filling spaces is not a problem. Our growth in participation is not kept up to staffing levels.
   h. SH: Last plan recommended studio space at Centennial, but there is a space challenge there.
   i. SN: Homelessness issues at many centers are challenging. City-wide issue.

j. DM: Security is a concern. Having access to security for events. Park Police help, but need security within each building. AE: Is that cameras, staff? DM: Its security guards. We have direct contact with customers. If we call park police, it takes an hour. If we call police, it still takes time. And issues can escalate quickly.
k. SH: With teens, have used funds to pay private security/police to be on-site. We do have security cameras, but that only shows history, does not help current issues.
l. SH: Having a facility that can seat 300-400 people for larger productions and events would be a benefit to the city.
m. SN: Parking at Elizabeth Center for senior programming is needed. Older adults population is growing and that is our only senior center. May need to move facility or adding more sites. AE: Is all senior programming there? SN: No, there are others with senior wings to the centers, but Elizabeth Center was only center with focus on seniors.
n. AE: What about deferred maintenance? SN: West Park gym can not be used due to structural issues. Other centers are almost 50 years old. Our older centers are problems.
o. SH: There is older lighting for the community theater, need LED lighting.
p. DM: We have score clocks that are 20-30 years old that need replaced or fixed in many indoor gyms.
q. SH: Our maintenance staff response quickly

5. What is the most important future opportunity to enhance the quality of the recreation centers?
    a. DM: Transportation, more vans is needed.
    b. SN: Improvements to older centers.
    c. AE: Are there SN: In the Southeast area the growth is high and additional indoor space is needed.
    d. DM: West Nashville needs centers as well.
    e. DM: Providing direct programming to teens is important to allow youth to build a great foundation to grow from.
6. Describe your partnership and communications with other divisions. What works well, what does not?
    a. SN: We work most with maintenance and have good relationships. Also work with Nature Resources, aquatics. Our internal department communications is good. We can be successful without these partnerships.
    b. SH: Creative Arts Nashville, etc. have been great community partners. Nashville Parks Foundation has been very supportive.

c. SN: Other departments, Social Services, etc. are key. Used community centers for COVID vaccinations.
d. DM: Local colleges are important partners too. Have agreement with TSU to bring youth to their sporting events.

MEETING NOTES

Metro Parks: Plan to Play Update

Subject:	**Staff Interview: Sports & Athletics**
Date:	September 11, 2024
Time:	10:30A to 11:30A CST
Location:	Online (Teams)
Attendees:	Metro: Misty Adfield, Wayne Evans, John Holmes, Sherry Wakins Kimley-Horn: Alisha Eley (AE); Ashley Akers (AA), Nick Kuhn (NK)

I. General Q&A

1. How did the 2017 Plan to Play Master Plan impact your division? Were there any direct changes?
    a. JH: Correct 171 fields, which very few not lighted. Really only the softball fields are lighted (adult softball). Since then, we have a lot more activities going on in the evening (youth football, lacrosse, rugby, kickball, etc.). AE: What are the fields not lighted? JH: funding is the main challenge, and the fields we have lights we have issues getting them to work ($1M annually in repairs). We have fields that are for tournaments, then fields that are on annual permits for leagues, and then a third level (3 parks) that are on 5-year agreements and mostly for adult softball and other fields for kickball, etc. Some for-youth sports, etc. The lights are Cedar Hill and Cain Ridge require lights to be fixed. Whenever Wayne gets funding, he focuses them on fixing lights. We have limited temporary lights mainly due to impacts to surrounding neighborhoods.
    b. JH: artificial turf would help, and lighting would allow for greater usage. If took some of the fields, we had and switched them to artificial turf that would increase capacity. We need multipurpose fields not skinned fields.
    c. AE: Were any of the recommendations implemented from prior plan for new fields? JH: No new fields have really been implemented, just the regional centers. Added 7 fields at Orchard Bend Park(?). Had prior landbanked property for future development but have not proceeded. The original plan was never funded and therefore was never implemented.
2. What are some of the lasting trends or impacts from the last 3-4 years?
    a. JH: Tennis and pickleball exploded. Had 8 quickstart courts that have been repurposed into pickleball. The stadium court turned into 4 pickleball.

   b. Our demand for neighborhood tennis courts that are in poor condition. Need regular maintenance every 5 years or they will need to rebuilt. Only one company in town that have been able to get contracted for this work. Stormwater has required standards that have made improvements to courts difficult. In last 2 years, have improved neighborhood courts.
   c. AE: So most need to be rebuilt. JH: Correct.
   d. Golf has exploded, almost unmanageable. All courses are at least 2 positions short. Have reassigned staff from courses that are closed for maintenance. But coming soon all courses will be opened and will not have enough staff.
   e. Anything outdoors, any outdoor activities has exploded.
   f. Misty: Anything to do with sports, health, or staying activate has exploded.
   g. Some are back to where they were before COVID.
   h. Nashville continues to be a highly attractive location for tourism and that has increased attendance, i.e. Parathoeon, which needs a new front facility (restrooms, etc.) and is not part of the Centennial improvements.
3. What are current actions, policies, or procedures you believe have been positives or improvements from former practices?
   a. JH: We have good people here that do an amazing job making things work with what we have.
   b. Our point of sale system (purchased in 2015) was intended to work for all programs and activities. It does not work that way. Have finally come to conclusion that they system will not work for needs. Golf will be paying for another system that will be used this winter that will work. But at all other facilities, we still have the older system. Purchasing is willing to move forward for procuring a new system but funding is needed. We are closer to where we need to be, but not there yet.
   c. AE: What are the top priorities? Misty: Online booking. We have two staff working to book courts, etc. The amount of staff time/budget used for over the phone is high. JH: Our point of sale system will not work with the registration, so it requires two transaction. Point of sales and merchants system that works together is needed.
4. What are the largest challenges your division is facing?
   a. JH: Staffing is the biggest challenge due to not having enough. We have enough turnover of staff to have a surplus for the year for targeted saving. Had a $900k in labor decrease in budget (savings). Received over $2M in grant funding on top as a net positive growth in budget.

b. Do not have enough positions. We have to either have people work comp time or close down. Golf courses will be 9-5 hours with limited carts after 2pm. Trying to get to the winter hours, but come spring, it will be a real challenge.
c. AE: Do you have enough fields? Misty: We have groups that we turn away, but these are for specialty facilities. Getting more requests for multi-purpose fields than anything.
d. JH: Lighting is another.
e. The wave pool needs new feature(s). Hasn't had anything new for 10+ year.
f. Hamilton Creek: not a lot to do there, except the docks
g. Riverfront is already getting redone.
h. We have applied for a grant for a miracle field at Cedar Hill.
i. Having more inclusive playgrounds is needed.
j. Need pickleball designated courts through the County. Tennis is in demand and can not keep taking tennis courts away as they are needed. Need additional courts.

5. What is the most important future opportunity to enhance the quality of the sports and athletic facilities?
    a. AE: Having the point of sales upgraded seems like one of the biggest.
    b. JH: Rose Park is the park that Belmont paid to build for use with artificial turf fields. They use the fields 25% or less. That is an example of artificial turf demand.
    c. AE: Are new fields being considered for artificial turf? JH: There's no conversation happening for that. Fields close Nov 1 until April 1. Everyone wants to play in winter (Dec) and people still go out and play, impacting the fields. Getting artificial fields that are lighted would be a 4:1 rate of increase capacity.
6. Describe your partnership and communications with other divisions. What works well, what does not?
    a. JH: Trying to get programming for youth to golf courses to increase positions. We have 26 community centers in the city to help reach out to youth.
    b. We work a lot with maintenance, greenways, rec centers. More recently more with planning (Joe). Other Metro agencies: because what we offer, a lot of other departments come to us for picnics, golf tournaments, etc. Procurement has been very helpful with the point of sale issues.
    c. Staffing needs can not be said enough and lighting are the two most critical things.
    d. Misty: We have courts that are damaged so bad that they can not be used and need to be redone. Need urgency to replace and repair. Schools use them and add usage.
    e. JH: Other park agencies get to use the revenues generated within Parks and not going back to general funds. $16/17M in revenue we bring in and if that was available for repairs/replacements. Revenue facilities are only ones that charge and

if reinvested could increase overall revenues generated by having more capacity and could be re-invested into neighborhood facilities.

f. Parking lots will get priority because parking is seen as required whereas a sport court can just be closed if not safe.

Appendix H - Friends Group Interview Summary

MEETING NOTES

Metro Nashville Plan to Play Update

Metro Nashville Parks: Friends Group Interview

Subject:	**Friends Group Interview**
Date:	August 8, 2025
Time:	1:00 pm to 2:30 pm CST
Location:	Online (Microsoft Teams) & In-Person at McCabe Golf Course Clubhouse, 4601 Murphy Rd, Nashville, TN 37209

Attendance:

Kimley-Horn:

- Alisha Eley
- Georgia Gooch

Metro Nashville Parks Department:

- Cindy Harrison, Assistant Director, Greenways and Open Space Division
- Tim Netsch, Assistant Director, Division of Planning and Facilities Development

Friends Groups:

- Ellen Taylor, Fort Nashborough
- Kate Stephenson, Greenways for Nashville
- Sharon Work, Friends of Bells Bend Park
- Katherine Dennis, Friends of Mill Ridge Park
- Emilie Fauchet, Friends of Beaman Park
- Grant England, Friends of Shelby
- Rebecca Ratz, Friends of Shelby
- Cyril Stewart, Fort Negley
- Cynthia Balfour, Friends of Metro Dance
- Patricia Knight, Nashville Parks Foundation
- Kabir Sandhu, Nashville Parks Foundation
- John Tumminello, Centennial Park Conservancy

I. Group Introductions
II. Introduction of 2017 Plan to Play
III. Brief overview of 2025 Plan Update
    a. Project scope
    b. Summary of public engagement phase
    c. Parks Department mission statement
    d. Planning process five topics
        i. Land

ii. Facilities
iii. Programs
iv. Operations
v. Funding

IV. Land

a. Level of Service (LOS) – Since 2017, added over 500 acres, opened 16 new parks. However, population growth has outnumbered the additional acreage added so now a lower LOS.

b. Knowing that funding is limited, what is the right balance between prioritizing more passive recreation/natural area/and greenway corridors with the urban parks/smaller/walk-to/active recreation lands?

i. Beaman Park
ii. Land acquisition is very important. The natural accessible parks are getting very crowded. Maintaining natural areas will improve protection of natural resources, animals, and flora and fauna.
iii. Friends of Metro Dance - more space is needed for the facility, and more parking. More programming to offer the community is being hindered by the size of the infrastructure.
iv. Access to the park - larger greenways make access to the greenways easier, meaning less parking necessary.
v. Out of the land acquisition budget how much of it has been spent?
    1. That was the 2017 recommendation. The current amount of acquisition that has been made is a fraction of what was recommended.
vi. Land race with developers. Land next to parks is more valuable.
vii. There are parks that are poorly maintained, prioritize maintaining current parks over more parks.
viii. Connectivity of parks to people.
ix. Completing the Fort, family-oriented things need to be implemented downtown for variety of programs.

V. Facilities

a. 2017 LOS vs 2025 LOS

i. Improved: paved trails, hiking trails, mountain bike trails, dog parks, basketball
ii. Decreased: tennis, baseball, community center square footage

b. Given the deferred maintenance backlog ($215 million and counting), what is the right balance for taking care of existing parks or adding more parks?
    i. What is the current guidance for these decisions?
        1. The last plan was 100% maintenance, and most of the time it is deferred maintenance. It is opportunistic, working with developers for new and maintaining parks.
    ii. Tennis courts
        2. Trend in reducing to be exclusively pickleball courts.
        3. Courts that can be used for both have caused conflict.
    iii. Why keep putting money into facilities where the interest is down, when you can put money into new facilities that are of higher need?
        4. Potentially tracking request internally through Metro Parks Department.
    iv. 2017 project recommendations for 2027, interest in those numbers
    v. New parks have not had all the maintenance that is necessary, bridges closed, orange fence.
        5. Bad for tourism, bad for parks, parks need to be functional and safe.
    vi. Facilities that are being refurbished need to have maintenance in mind for budget.
        6. Centennial, new $5 million project with no maintenance plan.

VI. Programs

a. This is one of the areas where Parks has made significant gains since 2017 with an increase in staffing, particularly in programs offered through community centers.
b. If you are providing programming in your parks currently, what barriers for growth do you see today? What are opportunities for growth?
    i. Resources, capacity of staff time. Access how programs can be more accessible to different communities.
    ii. Partnerships have helped schools, community centers, and have really helped with accessibility.
    iii. Awareness of programming

1. Social media partnerships
2. Schools
3. Flyers at schools
4. Emails

iv. Postcards
1. Free programs, sent in a 1-mile radius

v. Nashville partnerships
1. Encanto in Spanish, physical access isn't everything, language accessibility

vi. Staffing that speak a language besides English

VII. Operations

a. The most notable improvement here since 2017 was the 14% increase in staffing.

b. How can parks better support success in operations?

i. Maintenance, more staff workers, more mowers, etc.

ii. Continued listening to community.

iii. Partnerships help, however, would love for schools to return to the tours of downtown parks.

iv. Maintenance, beautification funds – private dollars are funding maintenance during certain months.

v. Security
1. Dance classes during the evening, teenagers, security is necessary.
2. Park Rangers, Volunteer Ranger Corp.
3. Parking lots security.

vi. Volunteering
1. Organization for smaller programs.
2. Training and structure for volunteers, for safety and improving experience.

vii. Private Donors
1. Recognition opportunities for deferred maintenance.

VIII. Funding

a. Listed 2017 Funding strategies:

i. Revenue remain in Parks

ii. Open space dedication

iii. Public-private partnerships
iv. Business improvement districts
v. Sponsorships
vi. Impact development fees
vii. Special event impact fees
viii. Parking fees
ix. Taxi increment financing
x. Bonds
xi. Leases
xii. Service providers
xiii. Hotel tax
xiv. Friends groups
xv. Other not-for-profit partners

b. In 2025, which of these do you think still offer opportunities for progress?
    i. Revenue remaining in parks, even partially
    ii. Friends Groups, larger ones can help smaller ones
    iii. Run it as a business.
    iv. Impact development fees, leverage the money of the developers.
        a. Greenways have been utilizing this path.
    v. Sales tax to help fund libraries and parks
        a. Special local option sales tax, 5 year, very specific projects.
    vi. Specificity helps raise money, raising money for a project instead of just "Friends of Shelby Park" generic fundraiser

IX. Closing Items
a. Email Cindy or Tim with any questions or comments related to today's meeting
b. Next steps
    i. Analyzing public survey data
    ii. Policy review
    iii. Another round of public meetings in early 2026
    iv. Wrapping up the plan in March 2026
    v. Tim to connect with everyone via email

Appendix I - 2017 Recommendations Update

Land

COMPLETED

Recommendations 7.2.1 and 7.2.2

Update Park Typologies

Typologies classify parks by characteristics such as acreage, program function, and management. Typologies help distinguish among strategic goals that may range from habitat conservation or active sports to major festivals or walk-to-neighborhood access — important when evaluating potential sites for acquisition.

Recommendation 7.2.5a

Establish Service Radii for Each Park Type

P2P 2017 assigned a service radius, or watershed, for each park type. For planning purposes, a watershed represents the geographic area served by a park. Mapping service watersheds helps identify areas of the county underserved by parks, which informs prioritization of land acquisition.

IN PROGRESS

Recommendations 7.2.3 and 7.2.4

Expand Park and Greenway Land by 4,500+ acres

Since 2017, Metro Parks has acquired 568.78 new acres of land. This does not keep up with Nashville's population growth to maintain the recommended acreage level of service for 2027. Acreage LOS is a quantifiable measure of a park system's performance to set goals and compare to peer municipalities. P2P 2017 estimated the cost to acquire the recommended 4,500 acres at $534 million. Since then, a total of $12.8 million has been allocated from Metro sources for park land acquisition. See Funding Recommendation 7.6.2 for more information.

Recommendation 7.2.5b

Land Acquisition Efforts Should Consider Equitable Access, Viewshed and Habitat Protection, and Programmatic Potential

16 new Metro parks and 13 greenway segments will have opened to the public by June 2026. Several of these sites help achieve access goals for underserved areas, low-income communities, and growth centers/corridors targeted for densification. Acquisition of 309 acres near Beaman Park is in the process at the time of this printing.

Facilities

COMPLETED

Recommendation 7.3.21

Add Two Disc Golf Courses

Disc golf courses have been added at Brookmeade and Charlotte parks, for a total of seven courses countywide.

IN PROGRESS

Recommendations 7.3.1 and 7.3.2

Add 53 Miles of Paved Multiuse Greenway Trails and 50 Miles of Unpaved Trails

Since 2017, 17 miles of paved, multiuse trails have been added, 6.66 miles of which are part of the greenway system, and 20 miles of unpaved hiking trails have been added. This more than meets the LOS goals identified in Tiers One and Two of the Action Plan, which begins on page 97.

Recommendation 7.3.3

Add 17 Large Picnic Shelters

P2P 2017 considered reservable picnic shelters only. In this updated plan, all shelters are counted, including first-come-first-serve shelters. Since 2017, 15 new picnic shelters have been added.

Recommendation 7.3.4

Add 481,000 SF of Community Centers

The square footage recommended in 2017 corresponds to specific new or expanded community centers. Bellevue Regional Community Center opened in 2017, and Old Hickory Regional Community Center opened in early 2026. Both replace smaller neighborhood centers. Design funding has been allocated by Metro Council to replace the West Park Neighborhood Community Center with a new regional center that will be approximately 30,000 square feet.

P2P 2017 also recommended a new Mega Center classification, which would co-locate major additional facilities (sports complexes, competition pools, splash pads, theaters) at some regional centers, primarily in suburban locations. This approach maximizes staffing and operational efficiency. While no such centers have yet been developed, the strategy remains a potent and viable one.

Recommendation 7.3.5

Add Five Outdoor Pools and Up to Five Spraygrounds

New sprayground/splashpads have been added at Azafran Park through a partnership with Metro Water Services. Construction will start in 2026 on Phase Two at Mill Ridge Park, which will include a sprayground. None of these additional spraygrounds are co-located with a staffed community center for operational efficiency as recommended in P2P 2017. No outdoor pools have been added to the system.

Recommendation 7.3.6

Add 65 Playgrounds

Twenty-one new playgrounds have been built since 2017, and 27 have been replaced at existing locations. Playgrounds on MNPS and Metropolitan Development and Housing Agency properties that are not built or maintained by Metro Parks are not reflected in LOS or inventory, although they often functionally serve as public playgrounds.

New playgrounds at Mill Ridge Park and Ravenwood Park fulfill 2017 recommendations related to regional playgrounds: large, destination play spaces that feature unique elements and serve a much larger service watershed than a typical neighborhood playground. A playground expansion at Mill Ridge is currently under construction.

Recommendation 7.3.7

Add Eight (8) Dog Parks

Since 2017, six (6) new dog parks have been built. (Any dog park location with separate areas for large and small dogs is counted twice, since all features must be duplicated.)

Recommendation 7.3.8

Enrich Historic Sites

Adaptively reuse historic buildings in Centennial Park, Sevier Park, and Mill Ridge Park

Metro Parks and Centennial Park Conservancy have partnered on restoration and adaptive reuse of historic buildings and structures. New exterior lighting at the Parthenon was added as part of the *Centennial Park Master Plan* in 2021. The Bandshell was renovated and reopened for events and performances in 2024. Phase Three of the Centennial Park Master Plan, which is in progress, includes adaptive reuse of the Croquet Clubhouse as a café. Planning is underway to restore the picnic shelter near West End Avenue.

In 2024, Sunnyside Mansion in Sevier Park reopened after extensive rehabilitation, including renovation of the main mansion, adaptive reuse of the rear ell, reconstruction of the carriage house, and preservation of other outbuildings. In 2026, the Metro Historical Foundation reconstructed the historic gazebo.

In 2025, Metro Parks and the Friends of Mill Ridge Park initiated preservation work on the Moore Farm residence and historic outbuildings.

Implement the historic preservation components of master plans for Two Rivers Park, Centennial Park, Sevier Park, Shelby Bottoms, and other parks

All the projects identified above were recommended in each park's master plan.

Many planning documents have been produced for Edwin and Percy Warner parks. In 2017, in collaboration with Metro Parks, Friends of Warner Parks produced a Master Plan Priorities Assessment that analyzed and prioritized valid, unimplemented recommendations. In 2021, Friends of Warner Parks restored the Belle Meade entry gates and the Allée. Additionally, the organization has restored stonework, cemeteries, and other features.

In 2025, restoration at Two Rivers Mansion included repairs to the roof and exterior woodwork. A new events venue has been designed to be built behind the mansion, per the site's master plan, to expand public event offerings, generate revenue, and reduce wear and tear on the historic mansion. Construction is currently unfunded.

Recommendation 7.3.9

Expand Community Gardens and Urban Agriculture

See Programs Recommendation 7.4.6.

Recommendation 7.3.11

Bring Park Cafes and Concessionaires to Parks

Adaptive reuse project of the Croquet Clubhouse in Centennial Park will include a full-service cafe staffed by Centennial Park Conservancy.

The Carriage House at Sunnyside Mansion in Sevier Park was reconstructed in 2024 to function as a cafe. Selection of a food vendor is underway.

Recommendation 7.3.12

Add 46 Multipurpose Sports Fields

Since 2017, 11 new multipurpose sports fields have been built. Lighting has been replaced at 21 fields, extending available hours.

Recommendation 7.3.13

Add 50 Outdoor Basketball Courts

Since 2017, five courts (whole or half) have been added. (A 2017 overcount of some basketball courts accounts for the discrepancy in count.) Today there are 75 whole or half basketball courts.

Recommendation 7.3.14

Add 25 Tennis Courts

There are fewer tennis courts now than there were in 2017. Some have closed due to condition, and others have been converted to pickleball courts. Pickleball was not identified in P2P 2017, and unprecedented demand since has led to the addition of 69 pickleball courts.

Recommendation 7.3.17

Add 16 Miles of Mountain Bike Trails and Related Facilities

15.5 miles of mountain bike trails have been added across the system. The Watkins Park pump track opened in 2021, in partnership with Nashville Parks Foundation, Oasis Center, and Southern Off-Road Bicycle Association. Fundraising is underway for a second phase.

Recommendation 7.3.19

Develop Sand Volleyball Facilities Including a Four-Court Tournament Facility

One single-court sand volleyball facility has been added at Frankie Pierce Park.

Recommendation 7.3.20

Add 20 Outdoor Fitness Equipment Sites

Five new outdoor fitness stations have been added.

Recommendation 7.3.22

Improve Golf Facilities

Percy Warner Golf Course has been improved through a partnership with the Tennessee Golf Foundation and Friends of Warner Parks. The $2.5 million project was funded entirely through private donations. It reopened in 2024. Improvements include a new irrigation system, practice area with putting greens, game training area and practice bunkers, improvements to tee boxes, bunkers, woodlands and surrounding landscapes, and renovation of clubhouse interior.

Unimplemented recommendations:

- Add a Harpeth Hills Putting Green
- Add a Two Rivers Driving Range
- Replace McCabe Maintenance Shop
- Replace Shelby Clubhouse

Recommendation 7.3.24

Expand Nature Center Programming

Because existing nature centers were operating on limited hours, P2P 2017 did not propose any new nature centers, and recommended that any new programs operate from existing facilities. Current hours of operation at nature centers are improved, but most still do not operate full-time. See Programs Recommendation 7.4.3 for more information.

Recommendation 7.3.27

Implement Key Existing Park Master Plans

Aaittafama' Archaeological Park (2017): In 2020, design for Phase One was completed. Construction is currently unfunded.

Beaman Park (2003): The Laurel Woods Trail opened in 2023, adding 12.5 miles to the trail system and inviting hikers into previously inaccessible areas. The Henry Hollow bridge was replaced in 2023.

Centennial Park (2015): Phase Two of the Centennial Park Conceptual Plan was completed in 2021 and included renovation of the Great Lawn, new Allées, a new West End entrance and other improvements. The Children's Memory Garden opened in 2022. The historic Bandshell was renovated in 2024. Phase Three construction, launched in 2025, includes a new events pavilion on Lake Watauga, a cafe in the Croquet Clubhouse, new trails, and a new Park Plaza entrance.

Fannie Mae Dees Park (2012): In 2017, Sea Serpent, also known as the Dragon, was restored with the generous support of the Hillsboro-West End Neighborhood Association. In 2024, the original Lily's Garden, an accessible play area, was replaced with a more expansive playground reflecting current best practices in inclusive design.

Madison Park (2015): This was a precursor to development of Madison Park Regional Community Center, completed in 2017. That project incorporated components of the master plan, including new playground, resurfaced sport courts and refurbished multiuse sports field, but additional components have not been implemented.

Riverfront Park (2011): This plan has been eclipsed by the Imagine East Bank Vision Plan and other planning efforts.

Sevier Park (2012): Precursor to development of the Sevier Park Regional Community Center. In 2024, Sunnyside Mansion reopened after restoration and renovation. The project included reconstructing the carriage house, preserving other outbuildings, converting the loop road to trail, and replicating the historic gazebo.

Shelby Park (2009): Walking trail loop around Lake Sevier was completed in 2019, in partnership with Friends of Shelby Park and Bottoms. Shelby Golf Course tees and greens were renovated and clubhouse remodeled in 2024.

Smith Springs Park (2016): The plan was completed as a precursor to development of the regional community center, completed in 2017. That project incorporated many components of the master plan, including a new playground, picnic shelter, and trails. Additional components have not been implemented.

Two Rivers Mansion (2015): In 2024, designs were completed for an external events venue. Construction is currently unfunded. In 2025, repairs to the mansion roof and other exterior features were completed.

Warner Parks (2018): In 2018, in collaboration with Metro Parks, Friends of Warner Parks compiled multiple prior Warner Parks planning documents, assessed relevance and status of recommendations, and generated a consolidated plan. Capital projects have included restoration of the Belle Meade entrance gates and Allée, trails rehabilitation, replacing picnic shelters, development of the Burch Reserve, and land acquisition.

Woodmont Park (2009): This plan is mostly complete, thanks largely to the Friends of Woodmont Park. Improvements since 2017 include resurfacing the tennis court and replacing the half-basketball court with a full court.

PENDING

Recommendation 7.3.10

Develop the Blueway System

Complete Cayce Landing

The Cayce Landing boat ramp is part of the 2011 Riverfront Concept Plan. Its location under the Silliman Evans Bridge is within the boundaries of the 2022 Imagine East Bank Vision Plan. Future detailed planning will determine development in this location.

Facilitate development of a boathouse at Wharf Park

The Wharf Park Master Plan was completed in 2024 and includes a boathouse. Recommendations include:

- Create an access plan along water corridors
- Acquire land suited to access points
- Implement water access components of Shelby Master Plan
- Add a launch at Lock One Park

Development of the planned Wharf Park is currently unfunded.

Recommendation 7.3.15-16

Add 43 Baseball Fields; Add Wheelchair Softball

Unimplemented.

Recommendation 7.3.18

Add Two Regional Skateparks and Three Neighborhood Skatespots

A regional skatepark is included in the Wharf Park Master Plan, but development of the park is not currently funded.

Recommendation 7.3.23

Invest in New Features at Wave Country

No features have been added at Nashville's only public water park since 2010.

Recommendation 7.3.25

Improve and Expand Regional Maintenance Facilities

- Cane Ridge Regional Facility reopened in 2018 without significant renovations.
- A new downtown regional facility is included in the currently unfunded Wharf Park Master Plan.
- No planning has been completed related to moving maintenance facilities from Centennial Park to Cockrill Bend.

Recommendation 7.3.26

Renovate and Expand Parks Headquarters Office Space

No renovations or expansions have occurred.

Recommendation 7.3.28

Develop New Park-Specific Master Plans

Unimplemented recommendations:

- Hamilton Creek Park
- Buena Vista/Looby/Ted Rhodes Parks

Programs

IN PROGRESS

Recommendation 7.4.1

Improve Access to Programs

Expand hours at staffed facilities, especially on weekends

Saturday hours of operation have increased at all community centers as a result of increased operational funding. Nature center hours have expanded slightly. Hours of operation at arts centers have not increased.

Since 2017, hours have been reduced at golf courses and at Centennial Sportsplex aquatic and ice centers. Customer volume has required an increase in the number of staff members needed to safely and successfully serve the public during operating hours. Since staffing levels have not increased, operating hours have been reduced.

Improve space utilization to optimize program function

At regional community centers, meeting rooms have been reconfigured to accommodate more meetings and after-hours reservations. However, space utilization is not tracked.

Develop an age-segment matrix

At all community centers, an age-segment matrix has been developed for toddlers, after-school age, teens (15-19), adults, and seniors (60+). This is unimplemented at other facilities.

Expand partnerships with businesses and outfitters as service providers

Unchanged since 2017. See Operations Recommendation 7.5.7 for more information.

Recommendation 7.4.2

Prioritize Program Offerings

In 2017, the wide range of Parks programs was highly regarded and consistent with national best practices. The public simply wanted more of them.

Nature-based outdoor recreation

The outdoor recreation program has made progress on 2017 recommendations, including:

- Outreach to diverse communities, such as alliances with Nashville Black Wellness Collective and Tennessee Aquatic Project
- Integrating environmental education
- Expanding partnerships to extend programs
- Improving alignment with community center programs
- Expanding programs on greenways

An operating agreement for the east and west riverfront docks has improved public access for motorized watercraft, reduced departmental operating costs, and generated new income.

Exercise and fitness

Fitness programs and classes have been expanded at all regional and neighborhood community centers. Rollout of point-of-sale technology to neighborhood centers is underway and will allow additional class offerings.

Overall participation in admissions, memberships, and programs at Centennial Sportsplex has increased by about 8% since 2017, even as operating hours at the aquatics and ice centers have decreased.

Since 2017, there has been an increase in the number of permits issued to personal and small group trainers. (Permits to outside service providers expand park offerings and supplement programs offered directly by the department.)

Summer enrichment

The Summer Enrichment Program has been expanded to three new regional community centers and the Cleveland Park Neighborhood Community Center. Since 2017, the number of participants countywide has increased from 2,420 to 3,200. More than 700 families were turned away in 2024 due to lack of capacity.

Some summer day camp programs have expanded at Warner Parks in partnership with Friends of Warner Parks and at Centennial Sportsplex, thanks, in part, to Metro's POWER Youth summer employment program.

Unimplemented recommendations:

- Add a Parks Rx Program in partnership with the Metro Health Department and area hospitals.
- Adopt a sliding scale fee for summer programs to offset cost and expand capacity. (There is currently no fee for the Summer Enrichment Program.)

After-school programs

After-school programs have been expanded to three new regional community centers and the Cleveland Neighborhood Community Center.

STEAM programs have expanded systemwide. NAZA (Nashville After Zone Alliance), a partnership among Nashville Public Library, Metro Nashville Public Schools, and the Mayor's Office that supports Nashville youth outside of school hours, has expanded to seven additional sites. Since 2017, the number of participants countywide has increased from 1,500 to 2,000, and demand continues to exceed capacity.

Unimplemented recommendation:

- Adopt a sliding scale fee for after-school programs to offset cost and expand capacity. (There is currently no fee for after-school programs.)

Senior citizens

Senior programs have been expanded systemwide since 2017, with a focus on special events such as Senior Olympics, Lip Sync Battle, and the popular Valentine's Dance. Community centers at Elizabeth, East, and Hadley Parks, which include dedicated senior spaces, have increased attendance and offerings.

Visual and performing arts

Visual arts programming has expanded throughout the community centers system, thanks in part to a partnership with Creative Parks Nashville. Performing and visual arts workshops, classes, and exhibits have increased at the Centennial Performing Arts Studios and Centennial Art Center. However, demand continues to exceed capacity.

Visitation to The Parthenon continues to increase and has more than recovered its pre-pandemic numbers: 380,304 people visited the Parthenon in 2024, up from 300,260 in 2017. The Parthenon hosted 11,028 tours in 2024, up from 3,348 in 2017. (The Parthenon is closed through the end of June 2026 for HVAC upgrades.)

Unimplemented recommendations:

- Build the Centennial Performing Arts Center and outdoor theater and renovate the Centennial Art Center per the Centennial Park Concept Plan.
- Incorporate arts program spaces in all new mega-centers. (A dedicated ceramics studio is included in the newly opened Old Hickory Community Center.)

disABILITIES program

This program has expanded from its home base at Centennial Sportsplex to four additional sites: Madison, Bellevue, Coleman, and Cleveland community centers, in partnership with Friends of Metro disABILITIES Program. Annual program attendance has increased from 11,706 in FY22 to 19,470 in FY25. Demand continues to exceed capacity.

Health and wellness

Health and wellness programs have expanded to teaching kitchen programs throughout the community centers system, including new junior chef classes. In 2024, a new after-school meal program served daily meals to 600 children at nine community centers. Parent/child health programming continues, in partnership with Nashville Collaborative, and preschool programs offer active play opportunities.

Unimplemented recommendation:

- Source health insurers to diversify funding streams.

Recommendation 7.4.3

Expand Environmental Education

Expand programs in community centers before building new nature centers

The Nature Discovery Program, which brings nature center programming to community centers, has expanded countywide through a partnership with Friends of Warner Parks. Hours of operation at existing nature centers have expanded modestly.

Incorporate environmental education in outdoor recreation programs

Environmental education and outdoor recreation are more directly connected through prioritization of nature-based recreation. See Programs Recommendation 7.4.2 for more information.

Recommendation 7.4.4

Improve Programming in Urban Parks

Develop downtown park programming partnerships and third-party providers

Metro Parks and the Nashville Downtown Partnership have entered into multi-year operating agreements to expand programming in Riverfront, Walk of Fame and Church Street parks.

Add programs in low-income parks that are seldom employed for outdoor events

Most large outdoor events — concerts, festivals, etc. — are issued permits by Metro Parks in response to the location preferences of the organizers. Because of market demand, most events occur in a small handful of parks countywide, despite the promotion of other sites by Parks staff.

New park spaces in historically underserved areas have helped expand quality public events, notably Mill Ridge, Smith Springs, and Southeast parks in southeastern Davidson County. Friends of Mill Ridge Park have made important contributions to this effort. As staffing and resources for community center programs have increased, some have made greater use of outdoor spaces for community events, such as at Smith Springs Park.

Recommendation 7.4.5

Improve History Programming

An additional position has been added at the Fort Negley Visitors Center.

Unimplemented recommendations:

- Classify all historic properties as a new management section
- Program historic sites systematically to offer coordinated interpretation

Recommendation 7.4.6

Expand Urban Agriculture and Community Gardens Programming

In 2022, Metro Parks entered an agreement with Nashville Food Project to develop and manage seven acres for urban agriculture in Mill Ridge Park, including serving and selling produce from the site. It is a precedent for similar projects elsewhere, which are considered by the Park Board on a case-by-case basis. There are seven community gardens in Metro Parks. A challenge to more aggressive expansion of community gardens is a scarcity of partner organizations that can make the significant commitment, and many such partnerships have been short-lived.

PENDING

Recommendation 7.4.7

Establish a Formal Volunteer Program

Establish volunteerism as a staffed, formal, centralized, and consistently managed program

The recommended centralized, department-wide system has not been implemented, but volunteers perform essential roles throughout the system at staff initiative by site, program, or project. The Community Affairs section functions as a clearinghouse for volunteer activities, and many Friends groups manage their own successful volunteer programs. See Operations Recommendation 7.5.1 for more information.

Develop a recruitment and training program

Implemented as a staff initiative. Generally, the highest-impact volunteer programs involve training and an ongoing commitment from volunteers.

Unimplemented recommendations:

- Hire a volunteer coordinator
- Provide volunteer management training for staff

Recommendation 7.4.9

Classify Services

P2P 2017 recommended that program reclassification be completed in tandem with an assessment of program fees. This has not been implemented. See Operations Recommendation 7.5.6 for more information.

Operations

COMPLETED

Recommendation 7.5.12

Maintenance of Non-Park Properties

Metro Parks no longer maintains street trees and rights of way. Several but not all Parks-built facilities on Metro Nashville Public School properties have been transferred to MNPS ownership. Metro Parks continues to maintain the Titans Stadium landscape per 1998 contract terms. A pre-2017 MOU is in place between Parks and MWS to mow some flood buyout properties.

IN PROGRESS

Recommendation 7.5.1

Track Data and Performance to Measure Impact and Inform Resource Allocation

Monthly usership of space and amenities

Monthly tracking of participation in some programs began in 2021. This data can be extrapolated to measure usership of some spaces and amenities, such as golf courses. Since 2020, performance measures are reported monthly for these key program functions:

- Attendance at aquatics, sports, and after-school and summer programs at community centers
- Number of permitted special events
- Attendance at special events
- Nature center programs and participants
- Nine-hole golf rounds
- Admissions at Centennial Sportsplex, The Parthenon, and Wave Country
- Number of online public interactions

Visitation, traffic counts, and other quantifiers of usage by park or amenity are not routinely tracked, but may be initiated as needed.

The point-of-sale system (credit cards) currently being expanded systemwide offers improved but still imperfect functionality to track usership of spaces, amenities, and programs.

True cost per experience

Implemented only at community centers, where operational expenses are measured, including staffing, facility maintenance, and programming cost per participant and per hour.

True cost per unit to maintain and operate a facility

Maintenance cost per acre at golf courses is tracked.

Revenue

Revenue is tracked in Metro's R12 financial system and biweekly departmental revenue reports.

Customer feedback and satisfaction

Practices related to measuring customer feedback and satisfaction are determined at the initiative of staff and vary among facilities and division as need and capacity permits. **There are no department-wide uniform practices or protocols.** At revenue-producing facilities such as Centennial Sportsplex and The Parthenon, customer surveys are promoted via on-site feedback stations and on social media. Independent online reviews also are monitored. Community centers regularly employ online survey platforms and on-site paper feedback surveys.

HUB Nashville, the citywide public portal for reporting non-emergency needs, went live in late 2017. Parks-related customer requests are directed to the department and distributed to the appropriate division for response. All HUB submissions are tracked to verify follow-up. In addition to reporting immediate needs, HUB requests may inform longer-term operational decisions. In 2025, HUB was integrated with the Maintenance Division's internal work order system, which streamlines reporting back to the public.

Volunteer hours

There is no centralized system to manage or track volunteer hours. Some tracking is conducted by site or project at staff initiative, including at golf courses and nature centers. Several Friends groups track their own volunteer hours. For example, in 2024, Friends of Shelby Park and Bottoms and the Centennial Park Conservancy contributed nearly 5,000 volunteer hours each.

Since 2017, the Parthenon Museum Docents program has more than doubled the volunteer hours served. In 2024, volunteers donated 2,088 hours to the Sportsplex disABILITIES program. See Programs Recommendation 7.4.7 for more information.

Unimplemented recommendations:

- Revenue earned per square foot
- Building space productivity

Recommendation 7.5.4

Improve Public Relations, Marketing and Branding

Existing marketing efforts via social media and direct email were deemed sufficient, with nearly all promoted programs operating at capacity.

Unimplemented recommendations:

- Develop a communications division and add staff. (A second position dedicated to community relations was created in 2024.)
- Create a website independent of Nashville.gov to improve customer service.
- Brand and market signature greenways and parks that catalyze surrounding development and activity.

Recommendation 7.5.5

Upgrade and Improve Technology

Replace existing credit card payment system

The old, problematic system was replaced in 2025 by Metro's Office of the Treasury with a new citywide merchant services (credit card) contract that is even less efficient and user-friendly and cannot be integrated with the department's point-of-sale platform. For example, sport court reservations now must be made in person rather than online. The department is working to implement a new point-of-sale platform that may offer better integration between the two systems.

Metro Parks' business model is closer to a retail operation than most Metro agencies. Modern customers expect that paying for goods and services should be simple and straightforward. Metro's current process is not. A better system would also allow facility managers to reallocate staff hours to other pressing priorities.

Adopt asset management/work order system software for the Maintenance Division

The CAL Work Order software system was implemented in 2025. No asset management system has been implemented.

Create at least four additional dedicated tech support positions

One additional IT staff position was added in 2024.

Implement online reservation and payment system

A new point-of-sale system could help fulfill this recommendation.

Create a systemwide building automation system

Unimplemented

Recommendation 7.5.7

Expand Strategic Partnerships with Public and Private Groups

P2P 2017 included overlapping recommendations related to scaling up strategic partnerships to help Metro Parks achieve programming, operational and funding goals, and to better serve the community. Reporting on most partnership efforts is summarized here, with cross-references to related sections where appropriate. See Programs Recommendation 7.4.6 for more information on urban agriculture-related partnerships.

Friends Groups: Devote more resources to partnering with them and ensuring their success

Sixteen not-for-profit organizations, formally sanctioned by the Metro Park Board, provide significant philanthropic resources to Nashville's park system, including capital project funding, programming, maintenance and operations, volunteer and contracted stewardship, and many other benefits.

In addition, community and corporate partnerships cultivated by these groups exponentially extend the life-enriching benefits of parks to a larger audience. To fully appreciate the impact of these important partners, please explore their websites.

While not every benefit is quantified and tracked, philanthropic gifts from Friends groups and other partners have totaled more than $28 million since FY21. In addition, Friends organizations have increasingly taken on facility management roles.

Metro Parks Friends Organizations 2025

- Centennial Park Conservancy
- Creative Parks Nashville
- Friends of Beaman Park
- Friends of Bells Bend Park
- Friends of Fort Nashborough
- Friends of Fort Negley Park
- Friends of Green Hills Park
- Friends of Hadley Park Tennis Program
- Friends of Lockeland Springs Park
- Friends of MetroDance
- Friends of Metro disABLITIES and Magic Program
- Friends of Mill Ridge Park
- Friends of Sevier Park
- Friends of Shelby Park
- The Friends of Two Rivers
- Friends of Warner Parks
- Friends of Woodmont Park
- Greenways for Nashville
- Nashville Parks Foundation

From 2024 to 2026, Memoranda of Understanding (MOUs) were completed for all Friends groups articulating roles, authority, responsibilities, and other terms. Each Friends group is assigned an assistant director from the department to serve as point of contact. In 2024, a senior staff position was created to, among other responsibilities, develop MOUs and monitor reporting by Friends groups and other partners.

The Park Board monitors compliance, activities, and fundraising efforts that benefit the park system. Each Friends group submits a financial statement to the Park Board annually, including IRS Form 990 or 990N, balance sheet, and income statement. (The department is not, however, responsible for the success of Friends groups.) The department also now tracks the value of any office space provided to partners to verify return on investment. An additional recommendation to create three-to-five-year work plans to facilitate coordination has not yet been enacted.

Other Not-for-Profit Partners: Scale up partnerships to provide, expand or improve services, and execute MOU as needed

Collaboration with a wide range of partner entities remains a key service delivery strategy. Most growth in this category has occurred at community centers.

Department-wide program partners as of 2025 include:

- American Red Cross
- American Institute of Architects, Middle Tennessee Chapter
- Barnard-Seyfert Astronomical Society
- Belmont University

- Belmont University
- Belmont University Biology Department
- Bird Safe Nashville
- Boy Scouts of America
- City Cemetery Association
- Cumberland River Compact
- First Tee of Middle Tennessee
- Garden Club of Nashville
- Girl Scouts of Middle Tennessee
- Harpeth-Cumberland Audubon Society
- Harpeth River Conservancy
- Herb Society of Nashville
- Inland Bird Banding Association
- Invasive Plant Control, Inc.
- Lipscomb University Biology Department
- Lipscomb University IDEAL Program
- Living Future.org Nashville Chapter
- Master Gardeners of Davidson County
- Meharry Medical Center
- Metro Arts Commission
- Metro Mayor's Office of Youth Safety
- Metro Nashville Public Schools
- Metro Public Health Department
- Metro Public Libraries
- Monroe Carrell Jr. Vanderbilt Children's Hospital
- Metro Water Services Flood Buyout Programs
- Nashville Astronomy Club
- Nashville Civic Design Center
- National Museum of African American Music
- Nashville Soccer Club
- Nashville Sports Authority
- Nashville Zoo at Grassmere
- National Basketball Association: Junior NBA Youth Basketball
- POWER Youth Nashville
- Private Development Companies
- Purple Martin Conservation Association
- Second Sunday Gardeners
- Southeastern Cave Conservancy
- Swan Conservation Trust
- Tennessee Bluebird Society
- Tennessee Chapter of the Nature Conservancy
- Tennessee Department of Transportation
- Tennessee Environmental Council
- Tennessee Naturalist Program
- Tennessee Ornithological Society — Nashville Chapter
- Tennessee State University
- Tennessee State University Colleges of Agriculture and Urban Forestry
- Tennessee Titans
- Tennessee Wildlife Federation
- TennGreen
- The American Battlefield Trust
- The Chestnut Group
- The Habitat Connection
- The Land Trust for Tennessee
- United States Tennis Association
- University of Tennessee, Chattanooga
- University School of Nashville
- Urban Bird Treaty Program/USFWS
- Urban Green Lab
- Vanderbilt University
- Vanderbilt University Biology and Geology Departments
- Verizon
- Wild Ones of Middle Tennessee
- Xerses Society

Public-Public Partnerships: Engage with other public agencies to share resources and collaborate on mutually beneficial initiatives

An MOU with Metro Nashville Public Schools has not been implemented.

Metro Parks has long partnered with Metro Water Services (MWS) on a range of initiatives. In 2022 and 2024, MOUs were executed related to maintenance of two public parks built by MWS on properties in Salemtown. MWS has also partnered with Parks on stormwater quality interventions in dog parks.

Metro Parks maintains Fair Park through an MOU with the Fair Board.

Coordinate with MNPS, libraries and others to co-locate facilities

The most recent co-location projects (Southeast Park, Regional Community Center and Library, and the Bellevue Regional Community Center and Ford Ice Center) were developed before 2017. No comprehensive or systematic coordination has been established. A Housing and Infrastructure Study, currently underway at the Metro Planning Department, may reveal new opportunities to co-locate parks and affordable housing.

Collaborate with Metro Arts Commission to create gallery and studio space

Unimplemented

Expand partnerships with businesses and outfitters as service providers

Some programs are provided or supplemented through annual permits to recreational service providers such as kayak outfitters, sports leagues, and food vendors. Most growth since 2017 has been via longer-term agreements awarded to vendors/private service providers through competitive bidding processes. These are key strategies to provide, improve, and expand services.

Recreational Service Provider Permits 2025

- 12 South Farmers Market
- Armada Futbol Club
- Belmont-Hillsboro Neighbors Inc.
- Big Willie's Action Sports
- Bike the Greenway Inc.
- Cane Ridge Community Club
- Charlotte Park Dixie Youth Baseball
- Crieve Hall Youth Athletic Association
- Cult2Vate Community Garden
- Cumberland Kayak
- East Nashville Athletics
- Fairfield Church Community Garden
- Farmer's Market Bellevue
- GNASH Hockey
- Grow Enrichment
- Hermitage Seahawks Youth Sports
- Joelton Community Club
- Lakewood Community Youth Athletics
- McCabe Park Little League
- Metro Nashville Public Schools
- Metropolitan Action Commission
- Mid-State Sports League
- Middle Tennessee Pony Club
- Music City BMX
- Music City Disc Golf
- Music City Queen
- Nashville Amateur Radio Operators
- Nashville Aquatic Club
- Nashville Chew Crew
- Nashville Cricket Association
- Nashville Old timers Baseball Association
- Nashville Paddle Company
- Nashville Predators
- Nashville Rowing Club
- Nashville Skating Academy
- Nashville Sports Leagues
- Nashville Youth Hockey League
- Nashville Youth Soccer Association
- Note for Notes
- Percy Priest Yacht Club
- RBI (Reviving Baseball in the Inner City) Nashville
- Richland Park Farmers Market
- River Queen Voyages
- SailNashville
- Sandlott Sports
- SORBA (Southern Off-Road Bicycle Association of Middle Tennessee)
- Stones River Women's Club
- Swim America
- Swim Strong
- Tennessee Soccer Club
- The Nature Conservancy
- Una Recreation Center Inc.
- West Nashville Sports League

Land and Property Leases: Expand use of lease agreements with partners and third-party service providers to expand services, transfer maintenance obligations, reduce costs, and generate income

Some long-term leases or similar agreements predate P2P 2017. These include the Belmont University lease at E.S. Rose Park, the Adventure Science Center at Fort Negley Historical Park, the Nashville Zoo at Grassmere, First Tee of Middle Tennessee at Shelby Park, and several sports leagues.

New multiyear leases, operating agreements and similar contractual relationships entered into since 2017 include:

- Commerce Center Park
- Croquet Cafe with the Centennial Park Conservancy
- Mill Ridge Park Urban Agriculture with the Nashville Food Project
- Nashville Downtown Partnership at Riverfront, Walk of Fame and Church Street parks
- Nashville Steam Preservation Society Locomotive No. 576
- Riverfront and Wasioto park docks with Lock One Marina LLC
- Riverfront Park/Ascend Amphitheater with Ryman Entertainment
- Riverfront Park/Fort Nashborough (in process)
- Sevier Carriage House café (in process)

No revenue from these arrangements is retained directly by Metro Parks.

Recommendation 7.5.10

Establish Maintenance Management Plans

Adopt natural resources management principles as appropriate

Integrated pest management has been adopted as the countywide standard. Natural area management strategies practiced at Harpeth Hills and Two Rivers golf courses have been expanded to Shelby golf course to reduce costs and chemical usage and support habitat function.

Determine maintenance costs for all capital projects prior to development to align capital and operating budgets

This has not been implemented beyond the legacy process that typically occurs in-house during the design phase, often on an ad hoc basis. Implementation of this recommendation would not address the inherent disconnect across Metro between capital and operating budgets. A capital allocation does not guarantee that the associated maintenance funds will also be allocated.

Unimplemented recommendations:

- Adopt industry standard of three to five levels of maintenance service.
- Track drive time to improve efficiency.

Recommendation 7.5.11

Improve Maintenance of Existing Facilities

Implement an enterprise asset management system, including work order tracking

The CAL Work Order software system, implemented in 2025 across Metro, supports review of work orders. (Annual review of work orders to calculate unit and deferred maintenance costs is also recommended.) An asset management system has not been implemented.

Review work orders annually to calculate unit and deferred maintenance costs

Conduct a full system life cycle and condition assessment

Systemwide condition assessments will be completed in 2026. So far, completed assessments estimate the total cost of deferred maintenance at more than $217 million. “Life cycle costs” refer to repair and replacement needs that occur on a predictable timeline, such as mechanical systems, repaving and sport court resurfacing, and are not explicitly addressed in the condition assessment effort.

Recommendation 7.5.14

Implement the Natural Areas Management Plan

Establish a natural area designation and associated management standards

Metro Parks' natural resources staff is currently working on a final plan draft for consideration and adoption by the Park Board. (This recommendation originated with the 2002 parks master plan.)

Add staff to proactively manage the plan

Staff have been added at nature centers, but their primary responsibilities relate to programming and visitor services. See Funding Recommendation 7.6.3 for more information.

Recommendation 7.5.15

Expand the Urban Tree Canopy

Strategically plant trees to help reach tree canopy target in adopted Metro tree plan

Since 2017, more than 6,300 trees have been planted in parks across Davidson County, many via the Root Nashville program.

Produce park tree inventories for management purposes

More than 23,000 park trees have been inventoried, informing land management uses including the Emerald Ash Borer crisis. Since 2022, more than 8,000 dead and hazardous trees have been removed from park property — 6,000 of them removed in the aftermath of Winter Storm Fern in 2026, and more than a third of those in the Warner Parks system.

PENDING

Recommendation 7.5.2

Conduct a Staffing Level Assessment

A department-wide study to determine appropriate current and future staffing levels has not been completed. See Operations Recommendation 7.6.3 for more information.

Recommendation 7.5.3

Create an Office of Collaboration

The term "Office of Collaboration" denotes an organizational structure that would consolidate business- and partnership-oriented functions. The listed functions are currently performed across various Metro Parks divisions:

- Development and management recommended by facility business plans
- Data tracking and management
- Marketing, branding, and sponsorships
- Volunteer management
- Consolidate coordination with Friends groups
- Oversight and tracking of partnerships and associated value
- Oversight of leased facilities

While the Finance Division has fiscal oversight over all grants, a dedicated staff position to develop grants applications has not yet been created. Currently, this work occurs at the initiative of existing staff in various divisions, as capacity allows.

Recommendation 7.5.6

Conduct a Program Fee Assessment with New Program Classifications

A new fee schedule is adopted by the Park Board every two to three years, most recently in 2024. Prepared by staff and based on a survey of similar facilities and peer park systems nationally, its goal is maintaining affordability and reducing financial barriers to access. Metro Parks' fees tend to fall in the midrange of peer parks departments.

P2P 2017 recommended that fees be determined based on an updated program classification system. This has not been implemented. See Programs Recommendation 7.5.7 for more information.

Recommendation 7.5.8

Improve Special Events Policies and Management Practices

Unimplemented recommendations:

- Determine the real cost to manage and maintain major special event locations
- Establish permit fees that take into consideration the true cost to Metro Parks (as measured per Operations Recommendation 7.5.1 and taking into consideration the program classifications in Operations Recommendation 7.5.6)
- For revenue-producing private events, capture and retain a percentage of gross revenue

Recommendation 7.5.9

Create Business Plans at Revenue-Producing Facilities, Updated Every 3-5 Years

Largely not yet implemented. However, this year a consultant is comprehensively evaluating golf operations. The study will provide strategic recommendations to enhance financial sustainability, operational efficiency, and public benefit.

Recommendation 7.5.13

Explore Improving Fleet Management by Reclaiming Departmental Control from Metro General Services

Unimplemented

Funding

IN PROGRESS

Recommendation 7.6.2

Capital Investment Summary

The primary funding source for acquiring park land, developing facilities, and addressing deferred maintenance is Metro's Capital Spending Plan, typically compiled annually. Capital funds are invested in the system's built infrastructure, real estate, and other assets. The graphic below compares recommended and actual capital funding allocations since 2017.

"Deferred maintenance" refers to repairs and other maintenance activities that have been postponed due to budgetary constraints. Deferring routine maintenance typically shortens the lifespan of capital assets, costing more in the long run. It can create safety issues, and it reduces the overall quality of park visitors' experience.

LAND

2017
$534 million
TOTAL ESTIMATED COST TO ACQUIRE RECOMMENDED LAND

2025
$12.8 million
TOTAL METRO CAPITAL ALLOCATIONS FOR LAND ACQUISITION SINCE 2017

2.2% of recommended funding for land acquisition allocated 2017 to 2025

Note: Excludes donations of land or funding for land acquisition from private sources and grants. See Operations Recommendation 7.5.7 for more information.

FACILITIES **GREENWAYS**

2017
$611 million
TOTAL ESTIMATED COST TO IMPLEMENT ALL RECOMMENDED FACILITIES

2025
$190 million
TOTAL METRO CAPITAL ALLOCATIONS FOR FACILITIES CAPITAL PROJECTS

31.0% of recommended funding for facilities capital projects allocated 2017 to 2025

Note: Excludes donations and grants for facility development. See Operations Recommendation 7.5.7 for more information.

FACILITIES **GREENWAYS**

2017
$56 million
TOTAL ESTIMATE OF DEFERRED MAINTENANCE COST

2025
$70 million
TOTAL METRO CAPITAL ALLOCATIONS FOR DEFERRED MAINTENANCE SINCE 2017

Note: Excludes donations and grants for deferred maintenance. See Operations Recommendation 7.5.7 for more information.

125% of recommended funding for deferred maintenance 2017 to 2025

$127.6 million Updated Estimate of Deferred Maintenance Cost as of July 2025

Level of Service (LOS) is a unit-per-capita measure to track the provision of facilities and other park features. Going forward, facilities LOS will change depending on Metro's funding investments and change in population.

Recommendation 7.6.3

Projected Operational Investment Summary

Operating costs include salaries and benefits, administration, fixtures, furnishings, equipment, materials, utilities, most routine maintenance, and other needs of Metro Parks.

Operating cost estimate to maintain recommended new parks and facilities

The total annual estimated maintenance and maintenance staffing cost of all recommended additional land and facilities (system growth) was $42.8 million, on top of the operating costs associated with existing parks.

Additional administrative staffing needs to support plan recommendations

Fourteen new administrative positions were recommended to support system growth, at an annual estimated cost of $958,400. (Note that some of these functions are currently performed by existing personnel.)

Achieve minimum staffing levels

P2P 2017 noted that Metro Parks was severely understaffed. To prioritize and set achievable goals, critical immediate staffing needs were identified to serve the existing system. A complete staffing assessment was recommended to more thoroughly determine staffing needs as the plan is implemented and the park system grows. This recommended staffing assessment has not been conducted.

Community center staffing

2017 Recommendation: 15.5 additional FTEs

Funded by FY25: 37.7 additional FTEs

All community centers now have at least two staff members on site during operating hours. However, in order to meet that goal without adding additional personnel, some facilities have reduced their total operating hours.

Maintenance staffing

2017 Recommendation: 35 additional FTEs

Funded by FY25: 31 additional FTEs

Best practice is 1 FTE per 18-25 designed acres (excluding natural or undeveloped acres). In 2017, Metro Parks was at 1 FTE per 37 designed acres. P2P 2017 recommended an additional 35 maintenance FTEs to achieve an interim goal of 1 FTE/30 designed acres.

Planning staffing

2017 Recommendation: Two additional FTEs

Funded by FY25: Three additional FTEs

Parks police staffing

2017 Recommendation: Five additional FTEs

Funded by FY25: Thirteen additional FTEs

Additional staffing progress since 2017

Additional FTEs have been added to address known needs and priorities as identified by department leadership. See Operations Recommendation 7.5.2 for more information. The new positions funded since 2017 represent a 14.1% increase in staffing department-wide.

Recommendation 7.6.4

Diversify Funding Strategies

While Metro Parks' primary source of funding will always be the Metro budget, Nashville's parks are unusually dependent on this single source, when compared with peer cities and best practices. P2P 2017 recommended diversifying Metro Parks' funding streams and presented a menu of potential strategies in common use elsewhere in the country:

Earned Income

Only about 3% of Metro Parks-generated revenue is directly retained by the department. The balance goes into Metro's General Fund. Most peer cities' parks departments retain all or some of their earned income, without a hit to their operating budget. P2P 2017 recommends that Metro Parks retain some or all earned income. This has not been implemented and is contrary to current Metro Finance Department policy.

Open-space ordinance

P2P 2017 noted that, particularly in urban areas where outright purchase is unaffordable, supportive legislation may be the only practical way to systemically add land. Since 2017, there has been a marked increase in new greenway and park projects as a result of incentives for developers in existing Metro ordinance provisions. In addition to permanently protecting publicly accessible open space, some projects also include developer-funded improvements or perpetual maintenance agreements.

Business improvement districts

The Nashville Downtown Partnership, which is a party to agreements with Metro Parks for services in Church Street, Walk of Fame and Riverfront parks, is partly funded with BID funding. (P2P 2017 recommended investing business improvement district (BID) funds into park operations, programming, and beautification.)

Sponsorships

A recommendation to establish a centralized sponsorship policy has not yet been implemented.

Development impact fees

Impact fees for private development projects help pay for the public infrastructure, including parks, needed to support them. Growth pays for growth. State law currently restricts the ability of local governments to enact development impact fees.

Enterprise funds

Enterprise funding is a business model by which revenue-producing public facilities are operated to be financially self-sustaining. Not currently implemented in Metro Nashville.

Impact fees for special events

For large special events, additional impact fees on top of standard permit fees can capture true cost and generate income from (typically) large corporate customers. All event permit holders are technically responsible for damages to park assets, which may be assessed after a standard post-event inspection by Metro Parks.

Parking fees

Charging for parking in strategic locations could help reduce use by non-park visitors, reduce park wear and tear, and generate income from travel sports and tourists. This has not been implemented.

Tax increment financing

If enacted, tax increment financing could include the integration of parks and greenways into tax increment-financed development projects.

General obligation funds

Metro Parks could pursue a parks-specific bond measure to fund land acquisition and capital projects.

Land and property leases, and programming by outside partners

Lease agreements and programming partnerships with third-party providers allow Metro Parks to expand services, transfer maintenance obligations, reduce costs, and generate income, with Metro Parks retaining the generated revenue. See Operations Recommendation 7.5.7 for more information.

Hotel tax

A portion of existing local hotel tax revenue could be directed to Metro Parks to offset use of resident taxes in downtown parks that are used heavily for tourist-oriented events.

Key Findings 12

Introduction

The Peer Trail and Greenway Systems Analysis identifies and reviews local government agencies across the southern United States with similarities to Nashville to understand how they approach greenway system planning, design, and management. The analysis uses “greenways” and “trails” interchangeably and considers the operations, design standards, and implementation of greenways to identify best practices from each of these systems and ultimately recommend policy to improve Nashville’s greenway system.

Peer Agencies

Peers Considered

The project team considered numerous peer agencies based on the size of their jurisdiction, governance structure, and the alignment of the goals and operations of their greenways systems with Nashville’s greenways. The following peer trail systems were considered:

- Gwinnett County, Georgia
- Mecklenburg County, North Carolina
- Austin, Texas
- Knoxville, Tennessee
- Indianapolis, Indiana
- Boise, Idaho
- Raleigh-Wake County, North Carolina

Selected Peers

The three peer systems selected for further review were Gwinnett County, Georgia’s Gwinnett Trails system, Mecklenburg County’s greenways system, and Austin, Texas’ trail system. These peers were chosen because of their similarities in governance to Nashville Parks and Recreation Department and their effective implementation of greenways. In the case of Mecklenburg County, they are responsible for the operation of trails in both the unincorporated county and in the City of Charlotte, effectively similar to Nashville and Davidson County’s consolidated governance structure. Each system has differing policy regarding their greenway system, including right-of-way and open space dedication, development review processes, operational policy, design standards including lighting, wayfinding, and signage, public-private partnerships, and funding mechanisms. Below are summaries of each peer system:

- Gwinnett County, Georgia: Gwinnett Trails was established in 2018 with the adoption of the 2018 Gwinnett Trails Countywide Master Plan. Gwinnett Trails is managed by the Gwinnett County Parks and Recreation Department, which works to implement the Master Plan in coordination with other county departments, 16 cities, and six Community Improvement Districts, districts funded by self-imposed tax revenues from commercial businesses to make infrastructure improvements to the community.
- Mecklenburg County, North Carolina: The Mecklenburg County Parks and Recreation Department is responsible for implementing trails across the county. Cities within Mecklenburg County do not have their own parks and trails systems but instead partner with the County to plan and implement trails.
- City of Austin, Texas: Trails in Austin are planned and implemented by multiple agencies. The Transportation and Public Works Department is responsible for the city's Urban Trail network, while the Parks and Recreation Department manages trails within parks. Additionally, the Parks and Recreation Department collaborates with conservancies and non-profit organizations to plan, construct, and operate other greenways throughout the city.

Peer Review

The three peer systems were reviewed to report on operations, design standards, and implementation. To obtain this information, planning documents, zoning and development code, and other communications and policy documents were reviewed. Additionally, members from each greenway system's governing bodies were interviewed to gain a better understanding of trail planning, implementation, and operations in each jurisdiction. The forthcoming peer review documents how each municipality approaches various greenway operations and policy.

Operations

Table 1. Operations Summary Table

	Gwinnett Trails	**Mecklenburg County**	**City of Austin**
Operating Hours	Sunrise to Sunset unless posted otherwise	24 hours	Sunrise to Sunset unless posted otherwise
Posted Speed Limit	None	None	10 mph
Enforcement	None	None	None

Hours

Each greenway system has different guidelines for trail operating hours. Many trails in the Gwinnett Trails and Austin trail systems are recreational and are generally open from sunrise to sunset. In both cities, when trails are located within parks, they follow park hours, which may extend beyond sunset. In Austin, trails that serve a transportation function allow thru-traffic at all hours of the day. In contrast, trails in Mecklenburg County are open 24/7, as they are considered part of the transportation network. Overall, while recreational trails tend to have limited hours, those serving transportation purposes often remain accessible around the clock.

Speed Limits

The City of Austin is the only peer with posted speed limits. The speed limit on their trails in parks is 10 miles per hour unless otherwise posted. Gwinnett Trails and Mecklenburg County greenways do not have posted speed limits. However, Gwinnett Trails' pictogram library includes a symbol that warns trail users to slow down in heavily trafficked areas, near blind turns, and on steep slopes. Similarly, Mecklenburg County's Greenway brochure has a section on "Greenway Etiquette," advising cyclists to travel at "safe speeds."

All peer systems acknowledge that enforcing speed limits on trails is often challenging. Signage can remind trail users to be mindful of their speeds, but adherence is generally left to the courtesy of the trail users.

Enforcement

Enforcement of trail rules is often a challenge for the peer greenways systems. Law enforcement generally does not patrol trails in any of the trail systems, and enforcement is limited to park and city staff reminding trail users to follow trail rules when they see violations. To make people aware of trail rules, Gwinnett Trails utilizes social media for an educational campaign, #TrailsTuesday, to inform the public of trail rules and best practices.

Design Standards

Table 2. Design Standards Summary Table

	Gwinnett Trails	**Mecklenburg County**	**City of Austin**
Lighting Standards	Pedestrian scale lighting standards in	None	Lighting required near transit stops, schools,

	Countywide Trail Master Plan Update		universities, shopping and employment areas, locations with limited visibility, at trailheads and trail intersections on Urban Trail network
Wayfinding and Signage Standards	Gwinnett Trails Wayfinding and Signage Guide	Mecklenburg County Park and Recreation Wayfinding Program: Greenway and Park Sign Standards	None
Crime Prevention Through Environmental Design	Improve trail visibility	Improve trail visibility; Improve parking lot safety through visibility and security cameras	Improve trail visibility
Other Safety Policy	Help Locator System	None	None

Lighting

The City of Austin has the most robust requirements for lighting within their Urban Trails system. Lighting along trails is required unless there are sensitive environmental considerations, in which case they may be waived by City staff. Lighting is required at specific locations along trails, including near transit stops, schools, universities, shopping, and employment areas, under vehicular bridges, underpasses, and tunnels, locations with limited visibility and sight distance, trail intersections and trailheads. The code also specifies guidelines for lighting along trails, including standards for illumination, provisions to reduce light pollution, LED and voltage requirements, and minimum height.

Mecklenburg County does not light their trails. The county has a riparian-based trail system, and providing lighting in floodplain is challenging and can disturb wildlife in the area. Gwinnett Trails also does not have lighting along their trails, although their updated master plan will provide standards for pedestrian scale-lighting in the case that trails are lit in the future.

Wayfinding and Signage

Both Gwinnett Trails and Mecklenburg County identify wayfinding and signage standards. The Gwinnett Trails Wayfinding and Signage Guide provides signage type descriptions, general guidance on wayfinding and signage, trailhead signage, roadside signage, directional and wayfinding signage, rules and regulatory signage, educational/interpretive signage, decorative branding, and trail amenities, with a branding specific to the Gwinnett Trails system. These standards define physical characteristics like color palette and typeface, elevation, perspective, and materials as well as physical placement of the signage in relation to the trail.

The guide also provides guidelines on sign content. To communicate information on amenities and trail rules to diverse audiences speaking a variety of languages and with different abilities, Gwinnett Trails uses a pictogram system. Pictograms use easy to understand pictures to communicate things like where parking, restrooms, transit, and other amenities are located, and trail rules, like what types of uses are permitted, trail hours, and trail difficulty.

Figure 1. Signage and Wayfinding Suite Overview, Gwinnett Trails Wayfinding and Signage Guide.

Mecklenburg County's Greenway & Park Sign Standards provide detailed design guidelines for all types of parks and greenway signage, including identifiers, trail head kiosk and information, trail flags, cyclist signage, on-street connections, mile markers, and other park signage standards. Mecklenburg County also utilizes pictograms to communicate key information to trail users. Both county's wayfinding and signage design guides help create a cohesive brand and provide trail users with important information.

Crime Prevention Through Environmental Design (CPTED)

Crime Prevention Through Environmental Design (CPTED) is utilized by each agency when designing trails. In Austin, CPTED standards are present in the Urban Trail Design code in

the City of Austin's Transportation Criteria Manual to improve safety on the trails and are utilized when possible.

Gwinnett Trails also uses CPTED standards in their trail design to improve visibility of trail users and minimize low-visibility pockets. Mecklenburg County also uses CEPTD, including over clearing and under clearing to increase visibility. Most of the County's issues with crime near trails stem from theft from vehicles in parking lots. The County has put security cameras and lighting in those areas and begun to locate parking lots near the line of sight from the roadway to discourage theft.

Other Safety Considerations

To improve the safety of trail users, Gwinnett Trails uses a help locator system and partners with emergency dispatch to aid in emergency response. If a trail user calls 911 on trails outfitted with the help locator system, they can provide the Help Locator number to the dispatch officer to aid in identifying their location.

Implementation

Table 3. Implementation Summary Table

	Gwinnett Trails	**Mecklenburg County**	**City of Austin**
Right-of-Way Dedication	Dedication required	Reservation and/or dedication required	Required in Urban Trail network
Open Space Dedication	No dedication required	Incentives to dedicate land	Required for residential development
Public-Private Partnership	Partnership with Children's Healthcare of Atlanta, partnerships with developers	Partnerships with developers	Public-Non-Profit partnerships
Development Review Process	Yes	Yes	Yes
Funding Mechanisms	SPLOST, Recreation Fund, Grants	Capital Fund, NCDOT federal and state funds	2020 Safety and Active Transportation bond, bonds general fund, partnerships with non-profit
			organizations and conservancies

Right-of-Way Dedication

Gwinnett Trails, Mecklenburg County, and the City of Austin all have right-of-way (ROW) dedication requirements to support expansion of the trail network.

In Gwinnett County, the county's Unified Development Ordinance defines greenway access and dedication of easement and construction requirements for development. These guidelines require the dedication of easement and/or construction of greenways to align with the Gwinnett Countywide Trails Master Plan. These requirements include:

Parcels adjacent to greenways, as indicated on the prioritized greenway network map in the trails master plan, must provide at least one multi-use path for access.

Greenway easements within floodplains and stream buffers must be dedicated and constructed to provide public access to trails, as shown on the prioritized greenway network map.

Easements for greenways outside of floodplains or stream buffers must be reserved for public access, dedication and construction, or other terms negotiated with the County.

These requirements apply to all zoning districts other than single-family residential when there is new development, alterations to existing development when they are greater than 25% of total improvements to the site, or where new streets are constructed. Any deviation from the standards set in the Trails Master Plan is subject to the approval of a modification or waiver.

In Mecklenburg County, the City of Charlotte and other municipalities have their own right-of-way dedication standards, as the county does not have their own zoning ordinance. Charlotte has a right-of way dedication standards wherein an 18-month reservation of land for construction of a greenway trail as identified in the Mecklenburg County Greenway Master Plan when there is construction of a new principal structure, except for single-family, duplex, triplex, or quadplexes. Developers may also choose to dedicate the area for greenway construction, in which case that area can be counted towards the minimum open space requirement. In addition, connections to parks and off-street public paths are required when the parcel is located is located between a public or network-required private street and either a park or off-street public path and the parcel has boundaries along a public or network-required private street.

The City of Austin has a Parkland Dedication Ordinance which requires parkland dedication for some new development. The Deficient Park Area Map defines where land dedication may be required rather than a payment of fee-in lieu dedication, which includes potential greenways, proposed trails designated by the city's Urban Trails Master Plan, and corridors that would increase connectivity. The ordinance also sets standards for dedicated land, with stipulations on slope, public-right-of-way visibility, recorded easements, potable water connections, neighborhood access and location of the dedicated parkland within the site.

Open Space Dedication

The City of Austin requires parkland dedication for new residential development. These standards require differing parkland dedication requirements dependent on the type of residential development.

Mecklenburg County has some policy related to open space dedication and new development. Land dedicated to greenways and other public uses may be used to calculate the number of units allowed on a site. Additionally, buffer requirements are waived if the property owner dedicates the land set aside for the full buffer width to the county for incorporation into parks or greenways. These policies allow the county to acquire land for greenspace and greenways whether or not these areas are within the planned greenways system.

Gwinnett County has some requirements for open space in their Traditional Neighborhood, Mixed Use, and Open Space Conservation Districts. However, developers are not required to dedicate land for park usage, except on parcels where the prioritized greenway network is defined.

Public-Private Partnership

Each greenway system has unique partnerships with various private and non-profit sector partners to support the trail network.

Gwinnett Trails has collaborated with private sector partners to implement its trail network. For example, it has partnered with the Children's Healthcare of Atlanta's Strong4Life Raising Resilience program to install interactive signage along four trails. This partnership aims to encourage and inspire children to build resilience, manage stress, and cope with challenges. Beyond land dedication requirements, Gwinnett Trails also partners with developers to construct trails, which reduces costs and conserves county resources. However, this partnership can pose challenges, as developers may not always build trails to Gwinnett Trails' standards due to less oversight in the construction process.

Mecklenburg County's public-private partnerships typically involve working with developers to obtain dedicated right-of-way or parkland. Unlike Gwinnett Trails, Mecklenburg County does not require developers to build trails. They have found that developers often do not design and construct trails to county standards, which can result in additional costs for the county to redo and maintain the trails.

While the City of Austin does not maintain many public-private partnerships in regard to the trail network, the city's Parks and Recreation Department partners with numerous non-profit agencies and conservancies to plan, construct, and manage greenways within their network. Many conservancies and non-profit organizations utilize fundraising to expand the trail network and provide amenities like restrooms and playscapes along trails.

Development Review Process

Each peer trail system is involved in the development review process. Mecklenburg County Parks and Recreation and Gwinnett Trails review all development applications to assess potential impacts on trails and determine any necessary actions. The City of Austin conducts reviews for applications involving parkland. This review process helps ensure that dedication and other requirements are met by developers.

Funding Mechanisms

All three peer greenway systems utilize public, private and non-profit funding mechanisms for the planning, design, and construction of their greenway systems.

Gwinnett Trails are funded primarily through Special Local Option Sales Tax (SPLOST), a one percent sales tax that funds County and city facilities, greenspace, parks and recreation facilities, new roads and improvements, police and fire stations, and libraries. The SPLOST has been in place since the early 2000s and has allowed for the expansion of trails across Gwinnett County. Park and trail amenities can also be funded by the county's recreation fund, which is funded by a tax on all property owners in perpetuity.

In Mecklenburg County, the majority of trails are paid for with county capital dollars, requested each year. The county also utilizes funding sources from the North Carolina Department of Transportation (NCDOT) on approximately 5 – 15% of trail projects.

In Austin, trails are constructed and operated by multiple departments and funded from various sources. The Transportation and Public Works Department oversees the city's Urban Trail network, which is funded in part by the 2020 Safety and Active Transportation bond, providing $460 million for transportation infrastructure, including urban trails. Trails within parks are typically funded by bonds, with the general fund covering operations and

maintenance. Other trails are built and maintained by conservancies and non-profits, funded through donations and grants.

Key Findings

This peer review can be summarized in terms of five key findings:

1. **The peer agencies reviewed have minimal operating policies**. Gwinnett Trails and Austin operate from sunrise to sunset while Mecklenburg County leaves their trails open for 24 hours, considering it part of the transportation system. Gwinnett Trails and Mecklenburg County do not have posted speed limits; Austin has a 10 mph posted speed limit on trails. None of the peer agencies have formal enforcement in place, instead relying on reminders about etiquette.
2. **Design standards vary among peers.** Austin has a robust set of lighting design standards for both location, type and intensity. Gwinnett Trails and Mecklenburg County do not light their trails and have no lighting standards. Both Gwinnett Trails and Mecklenburg County have comprehensive signage and wayfinding guidelines, including pictograms for non-English speakers, that create a cohesive brand and provide trail users with important information. All three intentionally design trails with safety in mind, with each agency taking a different approach.
3. **All three peer agencies have ROW dedication requirements for trails**. Gwinnett Trails relies on the County's UDO to define trail access, easement and construction requirements to align with their Master Plan. Mecklenburg County relies on municipal ROW standards and requirements, most of which are located in the zoning ordinance. Austin has a Parkland Dedication Ordinance which requires parkland dedication, including trails, in locations identified as deficient.
4. **Each agency has unique partnerships with various private and non-profit sector partners.** Gwinnett Trails partners with non-profits and other philanthropic focused entities to install signage and other amenities. They also partner with developers to construct trails, but a lack of oversight often leads to deficient results. Mecklenburg County's public-private partnerships typically involve working with developers to obtain dedicated right-of-way or parkland. Austin partners with non-profit agencies and conservancies to plan, construct, and manage trails as well as provide trail amenities.
5. **Peer agencies use a variety of funding mechanisms**. Gwinnett Trails benefits from a dedicated tax for public infrastructure and facilities. Mecklenburg County relies primarily on the County's general fund, with a small portion coming from an NCDOT grant program. Austin uses a variety of sources through different departments and entities, including government bonds and donations and grants through non-profits and conservancies.
