METROPOLITAN GOVERNMENT OF NASHVILLE AND DAVIDSON COUNTY LANE CLOSURES

9/5/2026 to 9/12/2026

2026057269

The contractor will perform testing and verification of the existing underground conduit system to determine duct availability and serviceability for future fiber optic installation. Work will require temporary lane and/or sidewalk closures as necessary to safely access existing utility structures and perform testing operations. All traffic control shall be implemented in accordance with approved traffic control plans and applicable City of Nashville and TDOT standards.

Testing will be conducted by utilizing compressed air and/or fiberglass rodding equipment to verify duct continuity and identify any obstructions. Ducts determined to be clear and serviceable will have new high-tensile-strength pull rope installed to facilitate future cable placement.

Should obstructions or damaged duct be encountered that cannot be cleared through routine testing procedures, no additional excavation or repairs will be performed under this permit unless specifically authorized. Any future repair work will be submitted under the appropriate permit, if required.

Upon completion of daily activities, all work areas shall be restored to a safe condition, and any disturbed pavement, sidewalk, or other public infrastructure shall be restored in accordance with the Metropolitan Government of Nashville and Davidson County and TDOT standards and specifications.

Work will require temporary lane and/or sidewalk closures as necessary to safely access existing utility structures and perform testing operations. All traffic control shall be implemented in accordance with approved traffic control plans and applicable City of Nashville and TDOT standards.

Testing will be conducted by utilizing compressed air and/or fiberglass rodding equipment to verify duct continuity and identify any obstructions. Ducts determined to be clear and serviceable will have new high-tensile-strength pull rope installed to facilitate future cable placement.

Should obstructions or damaged duct be encountered that cannot be cleared through routine testing procedures, no additional excavation or repairs will be performed under this permit unless specifically authorized. Any future repair work will be submitted under the appropriate permit, if required.

Upon completion of daily activities, all work areas shall be restored to a safe condition, and any disturbed pavement, sidewalk, or other public infrastructure shall be restored in accordance with the Metropolitan Government of Nashville and Davidson County and TDOT standards and specifications.
