

Office of Youth Safety Zones

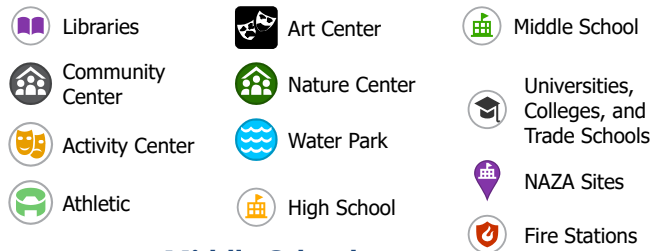

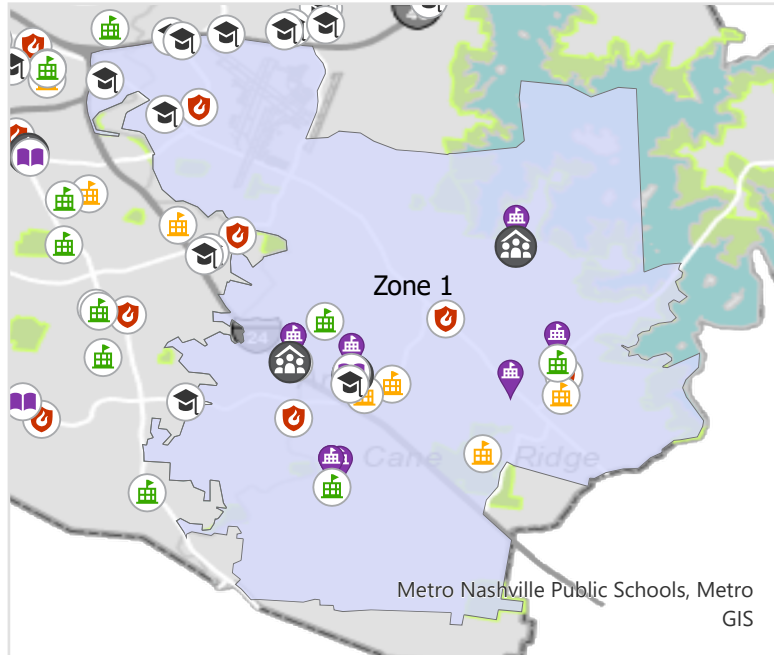

Youth Safety Zones are developed by the Office of Youth Safety as a resource planning tool that identifies areas of Nashville with the highest number of gun violence incidents. Youth Safety Zones were created to help ensure that all areas of highest need are included in programs and have area-specific strategies. About 55% of Nashville's Youth aged 10-24 live in the zones and the zones reflect around 85% of all fatal and non-fatal shootings in 2025 and 2026 (as of 6/25/2026). Maps focus on Metro Government facility and service locations.
