Scope of Work

Hello,

I am reaching out on behalf of Studio 154 Luxury Hotel, located at 154 2nd Avenue North in downtown Nashville.

We will be hosting a large private event November 16–19, 2026, a would like to request a temporary permit to reserve and occupy the loading zone directly in front of our property during this period.

The loading zone will be needed to accommodate event-related loading, unloading, and logistical operations. The specific hours of use may vary each day, but we anticipate needing access at designated times throughout the four-day period.

Could you please advise on the permitting process, any associate fees, and the requirements for reserving this space? We would als appreciate guidance on whether one permit can cover the full four-day period with varying daily hours.

Thank you for your assistance. I look forward to your guidance on how to proceed.

Best regards,
Joanne Moynihan
General Manager

Other Day & Hour Restrictions

Use of Loading Zone only during these times:

Monday, 11/16: 9:00AM – 11:59PM
Tuesday, 11/17: 12:00AM – 10:00PM
Wednesday, 11/18: 5:30AM – 11:59PM

2026090362

A temporary sidewalk closure and adjacent single-lane closure are requested for November 2–7, 2026, on the library side of 6th Aven North, between Church Street and Commerce Street, to support th Nashville Main Library Courtyard Renovation project.

A material lift and trash chute will occupy the sidewalk, preventing safe pedestrian passage through the work area. The material lift w extend into the adjacent roadway, requiring closure of the lane nearest the library to accommodate the equipment, construction deliveries, material unloading, and debris removal.

This section of 6th Avenue North has three lanes of one-way traffic The two remaining lanes will stay open, allowing traffic to merge around the work zone and maintain through access. Relatively low traffic volumes along this corridor are anticipated to help limit disruption.

Barricades, signage, merge controls, and an accessible pedestrian detour will be provided in accordance with the approved traffic control plan to safely separate the public from construction operations.

We are requesting a sidewalk and lane closure. The Subtype does not have a combination permit to pick from so we just selected lan closure.
